(a) Upon becoming aware of any breach or violation by the first Party or its Party Representative of any representation, warranty or undertaking set forth in Sections 9.4.1 or 9.4.2.

(b) Upon receiving a formal notification that it is the target of a formal investigation by a Regulatory Authority for a violation of Anti-Corruption Law Violation or upon receipt of information from any of its Party Representatives connected with this Agreement that any of them is the target of a formal investigation by a Regulatory Authority for a violation of Anti-Corruption Law.

9.4.5 Without prejudice to any auditing or inspection rights that are set forth elsewhere in this Agreement, each Party shall, for the term of this Agreement and [***] thereafter, for the purpose of allowing the other Party to audit and monitor the performance of its compliance with this Section 9.3 permit the other Party, its Affiliates, any auditors of any of them and any Regulatory Authority to have access, upon reasonable advance notice, during normal business hours to any premises of such first Party or its other Party Representatives used in connection with this Agreement, together with a right to access personnel and records that relate to this Agreement. The results of any such audit shall constitute Confidential Information of the audited Party, in respect of which the other Party shall comply with the provisions contained in Article 8 (subject to the terms and exceptions set forth therein).

9.4.6 Each Party shall be responsible for any breach of the Anti- Corruption Laws by its Party Representatives.

9.4.7 Each Party may disclose the terms of this Agreement or any action taken under this Section 9.4 to prevent a potential violation or address a continuing violation of applicable Anti-Corruption Laws, including the identity of the other Party and the payment terms, to any governmental authority if and to the extent the first Party reasonably determines, upon advice of counsel, that such disclosure is necessary.

10. Indemnification and Limitation of Liability.

10.1 Indemnification.

10.1.1 Indemnification by Sanofi. Sanofi will indemnify Biontech, its Affiliates and their respective directors, officers, employees, and agents, and their respective successors, heirs and assigns (collectively, ***Biontech Indemnitees***), and defend and save each of them harmless, from and against any and all losses, damages, liabilities, costs and expenses (including reasonable attorneys' fees and expenses) (collectively, ***Losses***) in connection with any and all suits, investigations, claims or demands of Third Parties (collectively, ***Third Party Claims***) to the extent arising from or occurring as a result of: (i) any Sanofi representation or warranty set forth herein being untrue in any material respect when made or deemed made or material breach by Sanofi of any of its covenants or obligations under this Agreement; (ii) any gross negligence, willful misconduct, or violation of Applicable Law, on the part of Sanofi in performing its obligations under this Agreement; or (iii) the Development or Commercialization

by Sanofi or any of its Affiliates or sublicensees of the Licensed Product Candidates or the Licensed Products; except in each case for those Losses as to which Biontech has an obligation to indemnify Sanofi pursuant to Section 10.1.2, as to which Losses each Party will indemnify the other to the extent of their respective liability; provided, however, that Sanofi will not be obligated to indemnify Biontech Indemnitees for any Losses to the extent that such Losses arise as a result of gross negligence or willful misconduct on the part of any Biontech Indemnitee.

10.1.2 Indemnification by Biontech. Biontech will indemnify Sanofi, its Affiliates and sublicensees and their respective directors, officers, employees and agents, and their respective successors, heirs and assigns (collectively, ***Sanofi Indemnitees***), and defend and save each of them harmless, from and against any and all Losses in connection with any and all Third Party Claims to the extent arising from or occurring as a result of: (i) any Biontech representation or warranty set forth herein being untrue in any material respect or material breach by Biontech of any of its covenants or obligations under this Agreement; (ii) any gross negligence, willful misconduct, or violation of Applicable Law on the part of Biontech in performing its obligations under this Agreement; or (iii) the research, Development or Commercialization by Biontech or any of its Affiliates or sublicensees of the Licensed Product Candidates or the Licensed Products; except in each case for those Losses for which Sanofi has an obligation to indemnify Biontech pursuant to Section 10.1.1, as to which Losses each Party will indemnify the other to the extent of their respective liability; provided, however, that Biontech will not be obligated to indemnify Sanofi Indemnitees for any Losses to the extent that such Losses arise as a result of gross negligence or willful misconduct on the part of any Sanofi Indemnitee.

10.2 Notice of Claim. All indemnification claims provided for in Sections 10.1.1 and 10.1.2 will be made solely by such Party to this Agreement (the ***Indemnified Party***). The Indemnified Party will promptly notify the indemnifying Party (such notice, an ***Indemnification Claim Notice***) upon actual knowledge of any claim or proceeding resulting in Losses, it being understood and agreed that the failure to give such Indemnification Claim Notice will not relieve the indemnifying Party of its indemnification obligation under this Agreement except and only to the extent that such indemnifying Party is actually and materially prejudiced as a result of such failure to give notice. Each Indemnification Claim Notice must contain a description of the claim and the nature and amount of such Loss (to the extent that the nature and amount of such Loss is known at such time).

10.3 EXCEPT FOR A BREACH OF SECTION 8 (“CONFIDENTIALITY”) OR A BREACH BY A PARTY OF THE REPRESENTATIONS OR WARRANTIES UNDER SECTION 9, IN NO EVENT SHALL EITHER PARTY BE LIABLE OR OBLIGATED TO THE OTHER PARTY IN ANY MANNER FOR ANY SPECIAL,

NON-COMPENSATORY, CONSEQUENTIAL, INDIRECT, INCIDENTAL, STATUTORY OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING, WITHOUT LIMITATION, LOST PROFITS AND LOST REVENUE, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT PRODUCT LIABILITY, OR OTHERWISE, EVEN IF INFORMED OF OR AWARE OF THE POSSIBILITY OF ANY SUCH DAMAGES IN ADVANCE. THE LIMITATIONS SET FORTH ABOVE SHALL BE DEEMED TO APPLY TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW AND NOTWITHSTANDING THE FAILURE OF THE ESSENTIAL PURPOSE OF ANY LIMITED REMEDIES. THE PARTIES ACKNOWLEDGE AND AGREE THAT THE FOREGOING LIMITATIONS ARE AN ESSENTIAL BASIS OF THE BARGAIN BETWEEN THE PARTIES.

11. Project Governance.

11.1 Alliance Managers. Each of the Parties shall appoint one representative to serve as a primary point of contact between the Parties (each, an ***Alliance Manager***). Each Party may change its designated Alliance Manager from time to time upon reasonable written notice to the other Party. Any Alliance Manager may designate a substitute to temporarily perform his or her functions by written notice to the other Party. The Alliance Manager will attend all Joint Steering Committee meetings to support the Joint Steering Committee in the discharge of its responsibilities and will be a non-voting participant of such meetings. An Alliance Manager may bring any matter to the attention of the Joint Steering Committee if such Alliance Manager reasonably believes that such matter warrants the attention of the Joint Steering Committee. Each Alliance Manger will be charged with creating and maintaining a collaborative work environment within the Joint Steering Committee. In addition, each Alliance Manager: (i) will be the first point of contact for all matters beyond the day-to-day collaboration matters, (ii) will coordinate the relevant functional responsibilities of the Parties in developing and executing strategies and plans for the projects in an effort to ensure consistency and efficiency (iii) will plan and coordinate cooperative efforts and internal and external communications, and (iv) will take responsibility for ensuring that governance activities, such as the conduct of Joint Steering Committee meetings, and preparation and signature of the respective meeting minutes, occur as set forth herein, and that relevant action items resulting from the Joint Steering Committee are appropriately carried out or otherwise addressed

11.2 Joint Steering Committee.

11.2.1 Establishment and Composition of Joint Steering Committee. Within [***] following the Effective Date, the Parties shall establish a joint steering committee (***Joint Steering Committee***). The Joint Steering Committee shall have a total of up to [***] members. Up to [***] members of the Joint Steering Committee shall be appointed by Sanofi, and up to [***] members of the Joint Steering Committee shall be appointed by Biontech. Each Joint Steering Committee member shall have sufficient authority to ensure acceptance and execution of Joint Steering Committee decisions within its organization. Each Party may appoint substitutes or alternates for its Joint Steering Committee members at any time by written notice the other Party. The Parties may mutually agree to change the size of the Joint Steering Committee at any time. Each Party shall have the right to invite additional representatives (including, without limitation, representatives of its Patent or Manufacturing functions) to attend meetings of the Joint Steering Committee. The Joint Steering Committee shall be established for the entire Research Term and, unless replaced by one or several other *ad hoc* committees under the relevant Development or Commercialization agreements, the duration of any co-Development of a Biontech Option Product, Sanofi Option Product and Sanofi Option Combination Product.

11.2.2 Responsibilities of the Joint Steering Committee. The Joint Steering Committee shall be responsible for directing, coordinating and supervising the research activities of the Parties during the Research Phase and the co-Development of Biontech Option Products, Sanofi Option Products and Sanofi Option Combination Products. In particular, the

Joint Steering Committee shall (i) review and update the Research Plan; (ii) receive regular reports from each Party's Alliance Manager on, and monitor the conduct, progress and results of each Party's activities under the Research Plan; (iii) oversee and manage the work under, monitor the progress of, and implement any Development plan according to Section 4, including compliance with budget and timelines; (iv) review quarterly Manufacturing information produced in accordance with Section 3.3.6, including forecasts of clinical supplies requirements for the co-Development of Biontech Option Products, Sanofi Option Products and Sanofi Option Combination Products; (v) discuss and exchange information regarding the conduct of ongoing clinical trials; (vi) resolve any issues referred to it by the Parties in accordance with Section 13.7; and (vii) from time to time, establish one or more subcommittees or project teams to oversee particular projects or activities, as the JSC deems necessary or advisable. For the avoidance of doubt, the Joint Steering Committee shall not have any responsibilities with respect to Sanofi's Development and Commercialization of Licensed Products.

11.2.3 Meetings of the Joint Steering Committee. Meetings of the Joint Steering Committee shall be scheduled from time to time by mutual agreement of the Parties or upon request of one Party, but in no event less than once every [***]. The meetings may be held in person, per telephone or video conference. The chair shall alternate at [***] intervals between representatives of each Party, starting with a Biontech representative as the chair. The Alliance Managers shall attend the meetings and the Alliance Manager of the Party hosting any Joint Steering Committee meeting shall record the minutes of the meeting in writing. Such minutes shall be circulated to the other Party's Alliance Manager no later than [***] following the meeting for review, comment and approval of the other Party. If no comments are received within [***] of the receipt of the minutes by a Party, unless otherwise agreed, they shall be deemed to be approved by such Party. Furthermore, if the Parties are unable to reach agreement on the minutes within [***] of the applicable meeting, the sections of the minutes that have been mutually agreed between the Parties by that date shall be deemed approved and, in addition, each Party shall record in the same document its own version of those sections of the minutes on which the Parties were not able to agree.

11.2.4 Decisions of the Joint Steering Committee. A quorum of at least one (1) Joint Steering Committee member appointed by each Party shall be present at or shall otherwise participate in each Joint Steering Committee meeting. Each Party has one vote in the decisions of the Joint Steering Committee. Decisions of the Joint Steering Committee shall be unanimous. If the members of the Joint Steering Committee cannot agree on a particular issue, the issue shall be escalated pursuant to Section 13.7. The Joint Steering Committee shall have no authority to amend or modify the terms and conditions of this Agreement.

12. Term and Termination.

12.1 Natural Term. This Agreement shall become effective on the Effective Date and shall continue until the later of (i) expiration of the last to expire Royalty Term for any Sanofi Royalties or Biontech Royalties and (ii) completion of all co-Development and co- Commercialization activities hereunder; unless terminated earlier in accordance with the provisions of this Agreement.

12.2 Termination for Convenience.

12.2.1 Termination by Sanofi. Sanofi may terminate this Agreement in its entirety or on a Licensed Product-by-Licensed Product basis, with or without reason, at any time following the Effective Date upon [***] written notice to Biontech. In addition, Sanofi may terminate the co-Development of a Sanofi Option Product, on a Sanofi Option Product-by- Sanofi Option Product basis, with or without reason, at any time after the Effective Date upon [***] written notice to Biontech, except that a termination for convenience by Sanofi of the co-Development of a Sanofi Option Product during an ongoing clinical trial will only be effective at the end of such clinical trial. Termination rights with respect to co- Commercialization rights of Sanofi under Section 4.1or 4.2 shall be set forth in the relevant Commercialization agreement.

12.2.2 Termination by Biontech. Biontech may, on an Option Product-by- Option Product basis, terminate the co-Development of an Option Product, with or without reason, at any time upon [***] written notice to Sanofi, except that a termination for convenience by Biontech of the co-Development of an Option Product during an ongoing clinical trial will only be effective at the end of such clinical trial. Termination rights with respect to co-Commercialization rights of Biontech under Section 4.1or 4.2 shall be set forth in the relevant Commercialization agreement.

12.3 Termination for Breach.

12.3.1 Termination by Biontech. Biontech may terminate this Agreement in its entirety or on a Licensed Product-by-Licensed Product basis, with immediate effect by written notice to Sanofi if Sanofi materially breaches its financial obligations or any of its other material obligations hereunder (including its development obligations pursuant to Section 3.1.1), and fails to cure such breach within [***] following its receipt of written notice thereof from Biontech.

12.3.2 Termination by Sanofi. Sanofi may terminate this Agreement in its entirety or on a Licensed Product-by-Licensed Product basis, with immediate effect by written notice to Biontech if Biontech materially breaches its exclusivity obligations set forth in Section 5 or any of its other material obligations hereunder, and fails to cure such breach within [***] following its receipt of written notice thereof from Sanofi.

12.3.3 Termination by either Party. Either Party may terminate this Agreement if the other Party becomes insolvent, is compelled to file bankruptcy or is determined otherwise imminently subject to control by a bankruptcy trustee or its equivalent to the laws of the jurisdiction in which such Party is doing business.

12.3.4 Termination for breach of co-Development or co- Commercialization obligations. Either Party may terminate the co-Development of an Option Product, on an Option Product-by-Option Product basis, if the other Party materially breaches any of its material co-Development obligations set forth in Section 4 of this Agreement or the applicable Development agreement and fails to cure such breach within [***] following its receipt of written notice thereof from the terminating Party.

The termination rights of each Party for breach of co-Commercialization obligations by the other Party with respect to any Option Product shall be detailed in the respective Commercialization agreement for such Option Product.

12.3.5 Clarification. If the breach of a Party (as set forth in Sections 12.3.1 to 12.3.4) is limited to a specific product (whether a Licensed Product or an Option Product), the other Party's right to terminate this Agreement shall be limited to such specific product.

12.4 Effect of Termination or Expiration. In case of any termination or expiration of this Agreement, all rights and obligations of the Parties shall cease immediately, unless otherwise indicated in this Section 12.4 or elsewhere in this Agreement. For ease of reference, a summary of the consequences applying in the event of a termination of this Agreement is set forth in Schedule E. In the event of any ambiguity, doubt or conflict, the terms and conditions of this Agreement shall take precedence over the terms and conditions set forth in Schedule E.

12.4.1 Natural Termination. If this Agreement expires in accordance with Section 12.1 above, the Parties' respective licenses contained in Section 7.3 shall survive as perpetual and fully

paid-up licenses with respect to Know-how only.

12.4.2 Termination for Convenience by Sanofi relating to Licensed Products. If Sanofi terminates this Agreement in relation to one or more Licensed Products pursuant to Section 12.2.1, then:

(a) the licenses granted to Biontech under Section 7.3.2 shall survive; and

(b) Sanofi shall upon request of Biontech transfer its rights to the terminated Licensed Product (including any Biontech Option Product) in accordance with this Section 12.4.2 (such terminated Licensed Products hereinafter referred to as ***Biontech Transferred Products***). With respect to any Biontech Transferred Product:

(i) Sanofi shall transfer and assign to Biontech all of its rights, title and interest in (X) the Licensed Product Patents covering such Licensed Product and (Y) the Joint Collaboration Technology to the extent comprising composition of matter claims specifically relating to the Biontech Transferred Product, and take any other action reasonably necessary to effect such transfer of ownership;

(ii) Sanofi shall transfer to Biontech reasonable copies or samples (as applicable) of all data, documents, materials or products relating to such Biontech Transferred Product developed by Biontech or Sanofi or any of Biontech's or Sanofi's Affiliates or subcontractors up to the effective date of termination, including without limitation, reasonable samples of any materials generated (or partially generated), in whatever stage of development relating to such Biontech Transferred Product;

(iii) Sanofi shall transfer to Biontech all of its right, title and interest in all regulatory filings and regulatory approvals then in its or its Affiliates' or sublicensees' name for the Biontech Transferred Product identified as of the date of termination, notify the appropriate regulatory authorities and take any other action reasonably necessary to effect such transfer of ownership;

(iv) Sanofi shall reasonably assist Biontech in the transfer of the Manufacturing of the Biontech Transferred Product from Sanofi or its subcontractors to Biontech, if applicable; and

(v) Sanofi shall grant Biontech an exclusive, worldwide, perpetual and fully paid-up license (including the right to grant sublicenses), under the Sanofi Technology and Sanofi Foreground Technology (to the extent not transferred to Biontech pursuant to Section 12.4.2(b)(i)), to research, Develop, make, have made, use, Commercialize and have Commercialized the Biontech Transferred Product in and outside the Field; and further Biontech shall have the first right (but not the obligation) to control the preparation, filing, prosecution, maintenance and enforcement of all Patent Rights in such licensed technology to the extent relating to the Biontech Transferred Product in accordance with Section 7.4.2(a) which shall apply to Biontech *mutatis mutandis*;

(c) Biontech shall pay to Sanofi with respect to each Biontech Transferred Product which Biontech subsequently Develops and Commercializes in the Field or outside the Field (whether alone or in collaboration with an Affiliate or Third Party), during the Royalty Term, a royalty of [***] on Biontech's and Biontech's Affiliates' and Biontech's and Biontech's Affiliates' (sub-)licensees' aggregate Net Sales of all products containing such Biontech Transferred Product, on a Biontech Transferred Product-by-Biontech Transferred Product as well as on a country-by-country basis.

12.4.3 Termination for Convenience by Sanofi relating to co- Development of Sanofi Option Product. If Sanofi terminates the Co-Development of any Sanofi Option Product pursuant to Section 12.2.2, then:

(a) All co-Development and co-Commercialization rights of Sanofi in relation to such Sanofi Option Product shall terminate, and

(b) Biontech shall pay to Sanofi a one-time payment in the amount of Sanofi's co-Development costs (but in any event not more than [***]) with respect to such Sanofi Option Product, such payment to become payable [***] after the First Commercial Sale of such Sanofi Option Product by Biontech or any Biontech Affiliates or sublicensee.

12.4.4 Termination for Convenience by Biontech relating to Biontech Option Product. If Biontech terminates the Co-Development of any Biontech Option Product pursuant to Section 12.2.2, then:

(a) All co-Development and co-Commercialization rights of Biontech in relation to such Biontech Option Product shall terminate,

(b) Sanofi shall pay to Biontech a

one-time payment in the amount of Biontech's co-Development costs (but in any event not more than [***]) with respect to such Biontech Option Product, such payment to become payable [***] after the First Commercial Sale of such Biontech Option Product by Sanofi or any Sanofi Affiliates or sublicensees, and

(c) all other obligations of Sanofi in relation to the relevant Licensed Product (including, for the avoidance of doubt, the payment obligations pursuant to Section 6) shall remain unaffected.

12.4.5 Termination for Convenience by Biontech relating to Sanofi Option Product. If Biontech terminates the Co-Development of any Sanofi Option Product pursuant to Section 12.2.2, then:

(a) the licenses granted to Sanofi under Section 7.3.1 shall survive; and

(b) Biontech shall upon request by Sanofi transfer to Sanofi its rights to the terminated Sanofi Option Product in accordance with this Section 12.4.5 (such terminated Option Product hereinafter referred to as ***Sanofi Transferred Product***). With respect to any Sanofi Transferred Product:

(i) Biontech shall transfer and assign to Sanofi all of its rights, title and interest in the Biontech Collaboration Technology and Joint Collaboration Technology to the extent comprising composition of matter claims specifically relating to the Sanofi Transferred Product, and take any other action reasonably necessary to effect such transfer of ownership;

(ii) Biontech shall transfer to Sanofi reasonable copies or samples (as applicable) of all data, documents, materials or products relating to such Sanofi Transferred Product up to the effective date of termination, including without limitation, reasonable samples of any materials generated (or partially generated), in whatever stage of development relating to such Sanofi Transferred Product;

(iii) Biontech shall transfer to Sanofi all of its right, title and interest in all regulatory filings and regulatory approvals then in its or its Affiliates' or sublicensees' name for the Sanofi Transferred Product identified as of the date of termination, notify the appropriate regulatory authorities and take any other action reasonably necessary to effect such transfer of ownership;

(iv) Biontech shall reasonably assist Sanofi in the transfer of the Manufacturing of the Sanofi Transferred Product from Biontech or its subcontractors to Sanofi, if applicable; and

(v) Biontech shall grant Sanofi an exclusive, worldwide, perpetual and fully paid-up license (including the right to grant sublicenses), under the Biontech Technology and Biontech Foreground Technology, to research, Develop, make, have made, use, Commercialize and have Commercialized the Sanofi Transferred Product in and outside the Field; and further Sanofi shall retain the first right (but not the obligation) to control the preparation, filing, prosecution, maintenance and enforcement of all Patent Rights in such technology to the extent relating to the Sanofi Transferred Products in accordance with Section 7.4.2(a);

(c) Sanofi shall pay to Biontech, with respect to each Sanofi Transferred Product which Sanofi subsequently Develops and Commercializes in the Field or outside the Field (whether alone or in collaboration with an Affiliate or Third Party), (i) as regards any Sanofi Transferred Products (including Sanofi Option Combination Products), a

one- time payment in the amount of Biontech's co-Development costs (but in any event not more than [***]) such payment to become payable [***] after the First Commercial Sale of such Sanofi Option Product, and (ii) as regards Sanofi Transferred Products which are Sanofi Option Combination Products only, during the Royalty Term, a royalty at rates equal to [***] of the rates specified in Section 6.8.1 on Sanofi's and Sanofi's Affiliates' and Sanofi's and Sanofi's Affiliates' (sub-)licensees' aggregate Net Sales of all products containing such Sanofi Option Combination Product, on a Sanofi Option Combination Product-by-Sanofi Option Combination Product as well as on a country-by-country basis (provided that the royalty off-set set forth in Section 6.8.2 shall apply *mutatis mutandis*); and

(d) with respect to Sanofi Transferred Products which are Sanofi Combination Option Products only, Biontech shall supply Sanofi with all clinical and commercial quantities of any Sanofi Transferred Products needed by Sanofi for the Development and/or the Commercialization of such products at reasonable commercial terms under a manufacturing and supply agreement to be negotiated between the Parties in good faith.

12.4.6 Termination by Biontech for Breach relating to Licensed Product. If Biontech terminates this Agreement in relation to any Licensed Product (including any Biontech Option Product) pursuant to Section 12.3.1 or 12.3.3, then:

(a) Sanofi shall no longer have the right or the obligation to

co- Develop or co-Commercialize any Sanofi Option Product and Sanofi shall not be entitled to any compensation for costs incurred in the co-Development of such Sanofi Option Product before such termination; and

(b) the provisions of Section 12.4.2 shall apply, except that the royalty rate payable with respect to each Biontech Transferred Product which Biontech subsequently Develops and Commercializes in the Field or outside the Field (whether alone or in collaboration with an Affiliate or Third Party) during the Royalty Term shall be [***] of the royalty rate specified in Section 12.4.2(c).

12.4.7 Termination by Biontech for Breach relating to Sanofi Option Product. If Biontech terminates this Agreement pursuant to Section 12.3.1 or 12.3.3 in relation to any Sanofi Option Product, then:

(a) Sanofi shall no longer have the right or the obligation to

co- Develop or co-Commercialize any Sanofi Option Product and Sanofi shall not be entitled to any compensation for costs incurred in the co-Development of such Sanofi Option Product before such termination; and

(b) the provisions of Section 12.4.3 shall apply, except that the

one-time payment payable with respect to each Sanofi Option Product shall be [***] of the amount specified in Section 12.4.3(b).

12.4.8 Termination by Sanofi for Breach in relation to Licensed Products. If Sanofi terminates this Agreement in relation to any Licensed Product (including Biontech Option Products) pursuant to Section 12.3.2 or 12.3.3, then:

(a) Biontech shall deliver to Sanofi any Licensed Product Candidates generated to date which have not been previously delivered to Sanofi under the Research Phase, in whatever stage of development, and Sanofi shall own all such materials; and

(b) the licenses granted to Sanofi under Section 7.3 shall survive;

(c) Biontech shall no longer have the right or the obligation to co-Develop or co-Commercialize any Biontech Option Product and Biontech shall not be entitled to any compensation for costs incurred in the co-Development of such Biontech Option Product before such termination; and

(d) All milestones and royalties to be paid by Sanofi pursuant to Section 6 shall be reduced by [***] (and all reporting and other obligations of Sanofi under Sections 6.8.3 shall continue to apply).

12.4.9 Termination by Sanofi for Breach in relation to co-Development of Biontech Option Product. If Sanofi terminates Biontech's co-Development rights in relation to any Biontech Option Product pursuant to Section 12.3.2 or 12.3.3, then the provisions of Section 12.4.4 shall apply, except that the one-time payments payable by Sanofi shall be [***] of the amount specified in Section 12.4.4(b).

12.4.10 Termination by Sanofi for Breach in relation to Sanofi Option Products. If Sanofi terminates Biontech's co-Development rights in relation to any Sanofi Option Product pursuant to Section 12.3.2 or 12.3.3, then:

(a) Biontech shall no longer have the right or the obligation to co-Develop or co-Commercialize any Biontech Option Product and Biontech shall not be entitled to any compensation for costs incurred in the co-Development of such Biontech Option Product before such termination; and

(b) the provisions of Section 12.4.5 shall apply, except that the payments to be made by Sanofi with respect to each Sanofi Option Product shall be [***] of the amounts specified in 12.4.5(c).

12.4.11 Further Claims Unaffected. For the avoidance of doubt, the rights of the terminating Party pursuant to Sections 12.4.6 to 12.4.10 shall not affect any damage claims that the terminating Party may have against the other Party as a result of the other Party's breach of contract under Applicable Laws.

12.4.12 General Effects of Termination.

(a) Expiration or termination of this Agreement shall not relieve the Parties of any obligation accruing prior to such expiration or termination. Upon any expiration or termination of this Agreement, the provisions of Sections 1, 6.8.3(c) (to the extent self-limited in duration), 6.8.3(e) (for the duration that

Section 6.8.3(c) survives), 7 (other than 7.3), 8, 9, 12.4 and 13 shall survive.

(b) Upon the expiration or termination of this Agreement, each Party shall immediately return or deliver to the other Party all of the other Party's Confidential Information, as well as any of the other Party's materials delivered by the other Party; provided however, that each Party shall be permitted to retain and use any Confidential Information of the other Party which is necessary or useful for such Party to exercise its rights under any rights or licenses granted under this Agreement, so long as such grant remains in force and provided, further, that each Party shall retain the right to practice any Joint Collaboration Know-how free of charge, to the extent such practice does not infringe on any Patent Rights transferred to, or otherwise owned by, the other Party.

13. General Provisions.

13.1 Notices. Any consent, notice or report required or permitted to be given or made under this Agreement by one of the Parties to the other shall be in writing and addressed to such other Party at its address indicated below, or to such other address as the addressee shall have last furnished in writing to the addressor, and shall be effective upon receipt by the addressee.

If to Sanofi:	Sanofi Attn: [***] 54, rue La Boétie 75008 Paris, France Facsimile: [***]
If to Biontech:	Biontech RNA Pharmaceuticals GmbH Attn: [***] An der Goldgrube 12 55131 Mainz, Germany facsimile: [***]

13.2 Entire Agreement. This Agreement, including the Exhibits to this Agreement, represents the entire understanding between the Parties with respect to the subject matter hereof and supersedes all previous oral or written communication or agreements, and all contemporaneous oral communication and agreements between the Parties.

13.3 Form Requirement. This Agreement may only be amended, modified or supplemented by the Parties in writing. The same applies to this Section 13.3.

13.4 Assignment. Neither Party may assign its contractual rights and obligations or parts thereof without the prior written consent of the other Party, except for permitted subcontracting and provided, however, that either Party may, without such consent, assign this Agreement and all of its rights and obligations hereunder (i) to any Affiliate or (ii) in connection with the transfer or sale of all or substantially all of its business to which this Agreement relates, or in the event of its merger, consolidation, or other similar transaction. For clarification, any assignment to Third Parties which is not expressly allowed above requires the approval of the other Party, which approval shall not be withheld unreasonably.

13.5 Severability. If any provision of this Agreement is found to be invalid or otherwise unenforceable, in whole or in part, the validity of the remainder of the Agreement shall not be affected. Furthermore, the Parties agree that the invalid or unenforceable provision or part thereof shall be superseded by an adequate provision that, to the legally permitted extent, comes closest to what the Parties would have desired at the time of conclusion of the Agreement had they considered the issue concerned.

13.6 Independent Contractor. Nothing in this Agreement shall create, or be deemed to create, a partnership, joint venture, or the relationship of principal and agent or employer and employee between the Parties. Each Party agrees to perform under this Agreement solely as independent contractor.

13.7 Dispute Resolution. Any dispute arising between the Parties in connection with this Agreement shall be referred to the Joint Steering Committee. If the Joint Steering Committee is unable to negotiate in good faith and settle the dispute within [***] after being requested to do so, either Party may submit the dispute to the Parties' CEOs who shall meet in order to attempt to resolve the dispute. If the dispute is not settled, at the latest, within [***] from the date that the dispute has been escalated to the executive officers, either Party may pursue legal action in accordance with Section 13.8 below. For the avoidance of doubt, if the dispute is with respect to an amendment of the Research Plan or any Development agreement or Commercialization agreement, the current version of such Research Plan, Development agreement or Commercialization agreement shall remain in effect until the dispute is finally settled.

13.8 Governing Law, Arbitration. This Agreement shall be governed by the laws of Germany without reference to its conflict of laws provisions. All disputes arising out or in connection with this Agreement shall be finally settled under the Rules of Arbitration of the International Chamber of Commerce by one or more arbitrators appointed in the accordance with said Rules. The place of the Arbitration Tribunal shall be Frankfurt, Germany. The language of the arbitration proceeding shall be English.

13.9 Construction. This Agreement will be fairly interpreted in accordance with its terms and without any strict construction in favor of or against any Party.

13.10 Counterparts; Facsimile. This Agreement may be executed in counterparts, all of which together shall constitute one and the same instrument. Signing and delivery of this Agreement may be evidenced by a pdf file of the signed signature page to the other Party.

Schedule C

PROCESS DEVELOPMENT AND SUPPLY AGREEMENT TERMS

*The following terms represent general principles to be included in the Process Development and Supply Agreement ("**PDSA**"). Specifically, the principles below will be included in each such agreement; provided, that the terms and conditions of the provisions setting forth those principles will be subject to the mutual agreement of the Parties.*

Parties	Biontech Sanofi
Product	Licensed Products
Supply	Supply and purchase of clinical and commercial quantities of Licensed Products as defined in the Collaboration and License Agreement
Joint Manufacturing Committee	To be instituted promptly after execution of the Process Development and Supply Agreement. The JMC shall include representatives from Biontech and Sanofi's Technical Development, Quality/Regulatory and Manufacturing functions.
Forecast for Development Supply	An agreed upon system to be defined to support the Development plan (including timelines for ordering)
Capacity	Manufacturing Party will maintain a sufficient capacity in accordance with the forecasts and otherwise to fulfill its obligations of supply for the term of the PDSA
Audit	Industry-standard right of audit of respective manufacturing sites of the Products
Key Performance Indicators	To be defined in the PDSA
Failure to Supply	To be defined in the PDSA

Schedule D – Biontech Background Technology Covered by Exclusive License

THE SYMBOL "[***]" DENOTES PLACES WHERE CERTAIN IDENTIFIED INFORMATION HAS BEEN EXCLUDED FROM THE EXHIBIT BECAUSE IT IS BOTH (i) NOT MATERIAL, AND (ii) WOULD LIKELY CAUSE COMPETITIVE HARM TO THE COMPANY IF PUBLICLY DISCLOSED

AMENDMENT

This amendment (this ***Amendment***) is effective as of December 22nd, 2018 (the ***Amendment Effective Date***), entered into by and between Sanofi, having a place of business at 54, rue La Boétie, 75008 Paris, France (***Sanofi***), and BioNTech RNA Pharmaceuticals GmbH, having a place of business at An der Goldgrube 12, 55131 Mainz, Germany (***Biontech***). Sanofi and Biontech shall each individually be referred to herein as a ***Party***, and shall be referred to together as the ***Parties***.

RECITALS

A. On November 2nd, 2015, as amended by an amendment letter dated December 14th, 2017, the Parties entered into a Collaboration and License Agreement (the ***Agreement***) with the desire to collaborate in the research, development and commercialization of RNA-based therapeutics for the treatment of cancer.

B. The Parties have agreed to amend the Agreement on the terms set out in this Agreement.

NOW, THEREFORE, in consideration of the foregoing premises and the mutual covenants set forth below, the Parties hereby agree as follows:

1. Definitions. Capitalized terms used in this Amendment shall have the meanings as defined herein, provided that capitalized terms which are used but not defined herein shall have the meanings ascribed to them in the Agreement.

2. Amendments. With effect from the Amendment Effective Date the Parties agree the following amendments to the Agreement:

Extension of Fusion Protein definition

2.1 Section 1.40 is amended and restated as follows:

"1.40 ***Fusion Protein*** shall mean a fusion protein as specified in Schedule F to this Agreement."

Amendment of the Definition of "Mixture" and addition of related definitions

2.2 The definition of "Mixture" in Section 1.66 of the Agreement shall be amended and restated as follows:

"1.66 ***Mixture*** shall mean two or more mRNAs administered together in the same solution, [***]

2.3 The following definitions shall be added to Section 1 of the Agreement:

[***]

2.4 The Parties agree that Section 4.2 of the Agreement shall be amended as follows:

[***]

2.5 The following provision shall be added as a new clause (viii) to Section 11.2.2 of the Agreement:

"(viii) discuss any proposed amendment or update to the list of Fusion Proteins set out in Schedule F and the list of [***] set out in Schedule G."

2.6 Within sixty (60) days following the Amendment Effective Date, the JSC shall agree to a revised Research Plan including activities for assessing the feasibility of using [***] (as defined above) in the Field and for researching and Developing Mixtures containing [***] in the Field. Either Party may recommend changes to the Research Plan at any time; provided however, that such change shall only be effective upon the approval of the Joint Steering Committee in accordance with Section 11.2 of the Agreement; and provided further that, except with respect to [***], Sanofi may in its sole discretion decide to modify the list of mRNAs to be evaluated under the Research Plan.

2.7 The definition of "Sanofi Background Technology" in Section 1.89 of the Agreement shall be amended and restated as follows:

"1.89 ***Sanofi Background Technology*** shall mean Background Technology Controlled by Sanofi [***]:

and Biontech shall not be required to perform [***].

Extension of the Research Term

2.8 Section 1.87 is amended and restated as follows:

"1.87 ***Research Term*** shall mean the research term as further defined in Section 2.10."

2.9 Section 2.10 is deleted in its entirety and replaced as follows:

"2.10 Research Term. The Research Term shall begin on the Effective Date and shall end upon the earlier of: (i) November 2, 2021, and (ii) the date on which Sanofi has selected the fifth (5th) Licensed Product."

2.10 As a consequence of the amendments in sections 2.4 and 2.5 of this Amendment:

(a) all references in the Agreement to the "Initial Research Term" shall be deemed to refer to the "Research Term",

(b) the reference in Section 6.6.2 of the Agreement to the "extended Research Term pursuant to Section 2.10.2" shall be deemed to refer to the "Research Term";

(c) all references to Section 2.10.1 or 2.10.2 of the Agreement shall be deemed to be a reference to Section 2.10 of the Agreement; and

(d) the reference to "the above exclusivity" in Section 5.3 of the Agreement shall be deemed to be a reference to "Biontech's obligations not to engage in certain research and Development activities and not to grant certain rights to any Third Party as set out in Section 5.1".

(e) Section 5.2 of the Agreement is deleted in its entirety and replaced with:

" Omitted."

Level of resource

2.11 The following provision shall be added to the end of Section 2.3 of the Agreement:

"Without limiting the foregoing, throughout the period beginning from December 21, 2018 and ending on the last day of the Research Term Biontech shall, at its own cost and expense, allocate not less than [***] FTEs of effort to the performance of its obligations under the Research Plan. For the avoidance of doubt, such FTEs shall be performed by research scientists directly involved in the [***] No later than [***]after the end of each calendar quarter during the Research Terms, Biontech shall provide to Sanofi a report setting forth in reasonable detail the activities performance by the FTEs set forth in the foregoing provisions."

Publication approval rights

2.12 The following provision shall be added after Section 8.4 of the Agreement as a new Section 8.5:

"Each Party recognizes that the publication of reports regarding results of, and other information regarding, activities under this Agreement, including oral presentations and abstracts, may be beneficial to both Parties, provided such publications are subject to reasonable controls to protect Confidential Information. In the event a Party wishes to publish in a peer review journal or present at a scientific conference any results or information generated from or relating to clinical or other studies under this Agreement with respect to the Mixtures, Licensed Product Candidates or Licensed Products or that includes Joint Collaboration Know-how or Confidential Information of the other Party, the Party seeking to publish shall provide to the other Party the proposed publication (including, without limitation, manuscripts) at least [***] for abstracts, posters, slides, written descriptions of oral presentations and press releases only) prior to the date of submission for publication or the date of presentation, whichever is earlier, of any of such submitted materials. The other Party shall review such submitted materials and respond to the submitting Party as soon as reasonably possible, but in any case within [***] of receipt. At the option of the reviewing Party, the submitting Party shall (1) take into due consideration any comments made by the reviewing Party; (2) delete from such proposed publication or presentation any Confidential Information; and (3) delay the date of such submission for publication or the date of such presentation until the earliest of: [***] All such publications and presentations shall properly reference the other Party's contribution to the studies which relate to such publication or presentation and, with the exception of scientific publications made in peer reviewed journals or where prohibited by Applicable Law, display the logo and the company name of both Parties."

2.14. Section 13 (Projected Timelines and Deliverables) of the Research Plan (Schedule B) of the Agreement is hereby amended by deleting all references to "Process Development and GMP" contained therein.

2.15. Schedules F, G and H to this Amendment are added to the Agreement as new Schedules F, G and H to the Agreement respectively.

3. [***] Agreement. Biontech and Sanofi have entered into an Investment Agreement dated December 21, 2018 under which the Parties have agreed on Sanofi making an equity investment in Biontech (***Investment Agreement***). [***]

4. No other changes. This Amendment constitutes an amendment to the Agreement by the Parties made in writing, in accordance with Section 13.3 of the Agreement. Except as set out in Section 2, the Agreement shall continue in full force and effect.

5. Governing law. This Amendment shall be governed by the laws of Germany without reference to its conflict of laws provision. Any dispute arising out of this Amendment shall be constitute a dispute arising between the Parties in connection with the Agreement, and Sections 13.7 and accordingly Section 13.8 of the Agreement shall apply to any such dispute accordingly.

6. Miscellaneous. Sections 13.1, 13.4, 13.5, 13.6, 13.9 and 13.10 of the Agreement shall be incorporated by reference into this Amendment (and any reference to "this Agreement" in each such incorporated provision shall be construed as a reference to this Amendment).

[*Signatures on the Following Page*]

IN WITNESS WHEREOF, the Parties have executed this Amendment to the Agreement as of the Effective Date.

THE SYMBOL "[***]" DENOTES PLACES WHERE CERTAIN IDENTIFIED INFORMATION HAS BEEN EXCLUDED FROM THE EXHIBIT BECAUSE IT IS BOTH (i) NOT MATERIAL, AND (ii) WOULD LIKELY CAUSE COMPETITIVE HARM TO THE COMPANY IF PUBLICLY DISCLOSED

DEVELOPMENT AGREEMENT

This development agreement (this ***Agreement***) is effective as of March 29, 2018 (the ***Effective Date***) and entered into by and between Sanofi, having a place of business at 54, rue La Boétie, 75008 Paris, France (***Sanofi***), and BioNTech RNA Pharmaceuticals GmbH, having a place of business at An der Goldgrube 12, 55131 Mainz, Germany (***Biontech***). Sanofi and Biontech shall each individually be referred to herein as a ***Party***, and shall be referred to together as the ***Parties***.

RECITALS

A. On November 2nd, 2015, as amended by an amendment letter dated December 14th, 2017, the Parties entered into a Collaboration and License Agreement (the ***License Agreement***) with the desire to collaborate in the research, development and commercialization of RNA-based therapeutics for the treatment of cancer.

B. Under the License Agreement, a Mixture named Licensed Product #1 (as further defined below) has been approved by the Joint Steering Committee as a Licensed Product Candidate in accordance with Section 2.8 of the License Agreement.

C. On [***] Sanofi selected Licensed Product #1 as the first Licensed Product for further Development and Commercialization in accordance with Section 2.9 of the License Agreement and on [***] Biontech exercised its option to co-Develop and to co-Commercialize Licensed Product #1 in the Field in the Biontech Territory in accordance with Section 4.1 of the License Agreement.

D. The Parties now wish to enter into this Agreement in order to jointly Develop Licensed Product #1 in the Field pursuant to the terms and conditions of this Agreement. This Agreement constitutes the Development agreement with respect to Licensed Product #1 under Section 4.1.1 of the License Agreement.

NOW, THEREFORE, in consideration of the foregoing premises and the mutual covenants set forth below, the Parties hereby agree as follows:

1. Definitions.

Capitalized terms used in this Agreement shall have the meanings as defined herein, provided that capitalized terms which are used but not defined herein shall have the meanings ascribed to them in the License Agreement.

1.1 ***Additional Co-Development Costs*** is defined in Section 6.3.4.

1.2 ***Approved Co-Development Third Party*** means a Third Party subcontractor or other Third Party engaged by a Party to perform or assist with any of such Party's obligations under this Agreement, and which (a) is listed in Schedule A; or (b) has been approved by the Joint Project Team under Section 6.2(h).

1.3 ***Binding Budget*** is defined in Section 3.3.1.

1.4 ***Biontech Co-Development Know-how*** is defined in Section 4.1.2.

1.5 ***Biontech Co-Development Patents*** is defined in Section 4.2.2.

1.6 ***Biontech Co-Development Technology*** means the Biontech Co-Development Know-how and the Biontech Collaboration Patents.

1.7 ***Budget*** means a rolling [***] budget set out in the Development Plan with respect to the forecasted Shared Development Costs to be incurred by each Party during each such Calendar Year during the Term, as amended or updated from time to time by the Joint Project Team or the Joint Steering Committee (as the case may be) in accordance with this Agreement.

1.8 ***Calendar Quarter*** means each successive period of three (3) calendar months commencing on January 1, April 1, July 1 and October 1, except that the first Calendar Quarter of the Term shall commence on the Effective Date and end on the day immediately prior to the first to occur of January 1, April 1, July 1 or October 1 after the Effective Date, and the last Calendar Quarter shall end on the last day of the Term.

1.9 ***Calendar Year*** means each successive period of twelve (12) calendar months commencing on January 1, except that the first Calendar Year of the Term shall commence on the Effective Date and end on the day immediately prior to the next to occur January 1, and the last Calendar Year shall end on the last day of the Term.

1.10 ***Clinical Data*** means [***] results and analyses [***] generated by or on behalf of either Party or at either Party's direction, or by or on behalf of the Parties together or at their direction, in the course of the performance of the clinical trials under the Development Plan.

1.11 ***Clinical Supply Agreement*** means the Clinical Development and Supply Agreement between the Parties, effective as of October 4th, 2017.

1.12 ***CMC*** means "Chemistry, Manufacturing, and Controls" as such term of art is used in the pharmaceutical industry.

1.13 ***CMC Activities*** means the activities with respect to Licensed Product #1 set out in the CMC Development Plan (or, for the purposes of Section 2.8.3, 2.8.4 and 2.8.5, the activities with respect to Licensed Product #1 proposed to be included in the CMC Development Plan).

1.14 ***CMC Development Plan*** means the development plan setting out the CMC and manufacturing process development activities with respect to Licensed Product #1 as set out in Schedule D, and amended by the Joint Manufacturing Committee or the Joint Steering Committee (as applicable) from time to time pursuant to Section 2.8.5.

1.15 ***CMC Know-how*** means the Know-how made, conceived or first reduced to practice by or on behalf of either Party (or its Affiliates), or jointly by or on behalf of the Parties (or their Affiliates), in the conduct of the activities under the CMC Development Plan.

1.16 ***CMC Patents*** is defined in Section 4.2.2.

1.17 ***CMC Technology*** means the CMC Know-how and CMC Patents.

1.18 ***Co-Development Activities*** means the Development and other activities with respect to the Licensed Product #1 in the Field as specified in or reasonably contemplated by the Development Plan. For the avoidance of doubt, Co-Development Activities exclude the activities set out in the CMC Development Plan.

1.19 ***Co-Development Background Technology*** means, with respect to a Party, all Intellectual Property Rights over which such Party has gained Control outside of the scope of the collaboration under the License Agreement (including the activities under this Agreement) during the Term, excluding any Background Technology.

1.20 ***Co-Development Personnel*** means the individuals engaged by a Party performing Co-Development Activities, including any of the foregoing who are Project Managers, members of the Joint Steering Committee, Joint Project Team, regulatory personnel, quality assurance personnel, quality control personnel, research personnel, and development personnel.

1.21 ***Co-Development Report*** is defined in Section 2.5.

1.22 ***Co-Development Records*** is defined in Section 2.6.1.

1.23 ***CPI*** means the Consumer Price Index – Urban Wage Earners and Clerical Workers, U.S. City Average, All Items, 1982-84 = 100, published by the United States Department of Labor, Bureau of Labor Statistics (or its successor equivalent index) in the United States.

1.24 ***Development Plan*** means the development plan set out in Schedule C and amended or updated from time to time (through the proposal of such amendments or updates to the Joint Steering Committee and the approval of such amendments or updates by the Joint Steering Committee), setting forth in reasonable detail: (i) the clinical Development strategy, (ii) the objectives for Development activities and market access, (iii) Development activities, including clinical trials and regulatory filings, (iv) the definition of countries or regions in which clinical trials shall be conducted, (v) an allocation of each Party's responsibilities and (vi) timelines and the associated Budget, in each case (i) to (vi), with respect to Licensed Product #1 in the Field intended for approval or Commercialization in the Biontech Territory. For the avoidance of doubt, the Development Plan excludes the CMC Development Plan.

1.25 ***Effective Date*** is defined in the introductory paragraph of this Agreement.

1.26 ***Excluded Clinical Trial Costs*** is defined in Section 1.48.

1.27 ***FTE Costs*** means the cost of the Co-Development Personnel incurred by either Party, calculated at the FTE Rate multiplied by the applicable number of FTEs of Co-Development Personnel of such Party (on the basis of actual hours worked by such Co-Development Personnel on the Co-Development Activities or the activities in support thereof). For the avoidance of doubt, when calculating FTE Costs, any full-time employee who works more than [***] hours over the course of a twelve (12) month period shall count as one (1) FTE.

1.28 ***FTE Rate*** means [***] per FTE. Such rate shall be automatically adjusted on an annual basis in accordance with Section 2.2.3.

1.29 ***including*** means "including without limitation" (and ***include*** means "include without limitation").

1.30 ***Initiation*** means, with respect to a clinical trial, the first dosing of a human subject with Licensed Product #1 in such clinical trial.

1.31 ***Joint Financial Committee*** is defined in Section 6.5.

1.32 ***Joint Manufacturing Committee*** means the joint manufacturing committee established under the Clinical Supply Agreement.

1.33 ***Joint Project Team*** is defined in Section 6.2.

1.34 ***License Agreement*** is defined in the preamble.

1.35 ***Licensed Product #1*** means (a) the Mixture specified in Schedule B; or (b) any modified version of such Mixture as proposed by the Joint Project Team pursuant to Section 6.2(f) and approved by the Joint Steering Committee. For the avoidance of doubt, Licensed Product #1 includes any formulation in the Field of any Mixture described in (a) and (b).

1.36 ***Patent Documentation*** is defined in Section 4.8.

1.37 ***Prosecution and Maintenance*** (including variations such as ***Prosecute and Maintain***) means, with respect to a Patent Right, the preparation, filing, prosecution and maintenance of such Patent Right, including paying all maintenance and/or governmental fees to maintain such Patent Right in force, and requests for patent term extensions, supplementary protection certificates, and the like with respect to such Patent Right, together with the conduct of reissue proceedings, derivation proceedings, the defense of oppositions, *ex parte* reexaminations, *inter partes* reviews, post-grant reviews, and other similar proceedings with respect to such Patent Right.

1.38 ***Overspent Costs*** is defined in Section 3.3.2.

1.39 ***Overspent Costs Notice*** is defined in Section 3.3.2.

1.40 ***Project Manager*** is defined in Section 6.1.

1.41 ***Regulatory Documentation*** means all (a) marketing authorizations or registrations or any other approval, registration or authorization which is granted or accepted by a Regulatory Authority in a country in the Biontech Territory that are required for the Development, Manufacture or Commercialization of a Licensed Product #1 in the Field in such country, and all filings and submissions to a Regulatory Authority with respect to any of the foregoing; (b) correspondence, reports and other filings submitted to or received from Regulatory Authorities (including minutes and official contact reports relating to any communications with any Regulatory Authority) in order to Develop, Manufacture or Commercialize a Licensed Product #1 in the Field in the Biontech Territory.

1.42 ***Right of Reference*** means the non-exclusive right to cross reference, copy, incorporate by reference or rely upon any Clinical Data solely for the purposes of obtaining or maintaining Marketing Approval for a pharmaceutical product, including (1) a "Right of Reference or Use" as that term is defined in 21 C.F.R. §314.3(b) in the United States, (2) any analogous procedures with respect to biologics or BLAs in the United States and (3) any equivalents thereof outside the United States.

1.43 ***SDEA*** is defined in Section 7.2.

1.44 ***Sanofi CMC Technology*** means: (a) the CMC Know-how which is generated by or on behalf of Sanofi (or its Affiliates) or jointly by or on behalf of the Parties (or their Affiliates) in the conduct of the CMC Activities agreed by the Joint Manufacturing Committee (or, if the Joint Manufacturing Committee cannot agree on such matters, approved by the Joint Steering Committee pursuant to Section 6.3.2(c)) for performance by Sanofi under the CMC Development Plan; and (b) the CMC Patents claiming or covering such CMC Know-how.

1.45 ***Sanofi Co-Development Know-how*** is defined in Section 4.1.1.

1.46 ***Sanofi Co-Development Patents*** is defined in Section 4.2.1.

1.47 ***Sanofi Co-Development Technology*** means the Sanofi Co-Development Patents and the Sanofi Co-Development Know-how.

1.48 ***Shared Development Costs*** means the out-of-pocket costs and expenses and FTE Costs incurred by either Party or its Affiliate, in each case which are: (1) specifically identifiable to, or reasonably allocable to, any Co-Development Activity [***] and (2) calculated in accordance with IFRS consistently applied, including (to the extent they come within the foregoing):

(a) the costs and expenses associated with the conduct of non-clinical studies [***]

(b) the costs and expenses associated with the conduct of clinical trials [***]

(c) the costs and expenses associated with the preparation, filing, submission, obtaining or maintenance (as applicable) of Regulatory Documentation with respect to any Licensed Product #1 in the Field; and

(d) the costs and expenses with respect to Approved Co-Development Third Parties engaged in the performance of such Co-Development Activity.

Excluded Clinical Trial Costs

[***]

shall be referred to as the ***Excluded Clinical Trial Costs***.

Notwithstanding the foregoing, “Shared Development Costs” shall exclude [***]

1.49 ***Signing Date*** means the date of the last signature to this Agreement.

1.50 ***Tax*** or ***Taxes*** means any federal, provincial, territorial, state, municipal, local, foreign or other taxes and other charges in the nature of a tax.

1.51 ***Term*** is defined in Section 9.1.

1.52 ***VAT*** is defined in Section 3.7.3.

1.53 ***Withholding Tax*** or ***Withholding Taxes*** is defined in Section 3.7.2.

2. Development of Licensed Product #1.

2.1 Development Activities Generally.

2.1.1 Each Party shall:

(a) perform the Co-Development Activities allocated to such Party under the Development Plan in accordance with the terms of this Agreement;

(b) contribute and commit the required resources and use Commercially Reasonable Efforts to meet the objectives set forth in the Development Plan; and

(c) perform its obligations under this Agreement in accordance with the Applicable Law.

2.1.2 The initial Development Plan is set out in Schedule C. No later than [***] (or such other period as agreed by the Joint Steering Committee under Section 6.3.2(f)) prior to the end of each Calendar Year, commencing [***] the Joint Project Team shall review the Development Plan and propose any updates to the Development Plan to the Joint Steering Committee pursuant to Section 6.2(c), such that the Joint Steering Committee can review and approve such proposed updated Development Plan pursuant to Section 6.3.2(b) no later than [***] prior to the end of such Calendar Year. In addition, from time to time, the Joint Project Team shall review any proposal from either Party to amend the Development Plan, for proposal to the Joint Steering Committee pursuant to Section 6.2(c). Upon approval of the Joint Steering Committee of any such update or amendment, the Development Plan shall be deemed to be amended to incorporate such update or amendment.

2.1.3 For clarity, the Development Plan, and accordingly, the Co-Development Activities, shall exclude any CMC Activities conducted under the CMC Development Plan.

2.2 Allocation of Resources/Subcontracting.

2.2.1 Each Party agrees to primarily use its or its Affiliates' internal resources and capacities to fulfil such Party's respective obligations under the Development Plan. Each Party shall use Commercially Reasonable Efforts to minimize the delegation of its obligations hereunder to a Third Party subcontractor (including contract research organizations).

2.2.2 Each Party may subcontract any of its obligations under this Agreement to any of its Affiliates or one or more Approved Co-Development Third Parties, provided that: (i) none of the rights of the other Party are diminished or are otherwise adversely affected as a result of such subcontracting and (ii) the Approved Co-Development Third Party undertakes in writing all obligations of confidentiality and non-use regarding both Parties' Confidential Information which are substantially the same as those undertaken by the Parties under the License Agreement. In the event that a Party performs one or more of its obligations under this Agreement through any such Affiliate or Approved Co-Development Third Party, then such Party shall at all times be responsible for the performance by such Affiliate or Approved Co-Development Third Party of such Party's obligations hereunder.

2.2.3 All internal Co-Development Personnel of each Party (or its Affiliates) shall be expressed in terms of FTEs. The FTE Rate shall be adjusted on an annual basis, the first adjustment shall be on January 1, 2019 and thereafter each adjustment shall be on January 1 of each succeeding Calendar Year. Each such adjustment shall be calculated by increasing the FTE Rate as of December 31, 2018 by the percentage increase in the CPI as of December 31 of the then most recently ended Calendar Year over the level of the CPI on December 31, 2018.

2.3 Conduct of Clinical Trials. Sanofi shall act as the sponsor of any clinical trial conducted pursuant to the Development Plan, provided that Sanofi shall consider in good faith whether to use Biontech's resources in regions where such internal resources are available [***] and whether in certain circumstances Biontech shall be the co-sponsor or sponsor of selected clinical trials. The Party acting as sponsor (or co-sponsor, as applicable) shall ensure that any such clinical trial (for which it is sponsor (or co-sponsor, as applicable)) is performed in accordance with this Agreement, the applicable protocol and Applicable Law, and the other Party shall provide such Party with any assistance as reasonably requested by such Party, in order for such Party to fulfil its obligations as sponsor (or co-sponsor) of such clinical trial. Each Party shall mention or list the other Party as collaborator (e.g. "in collaboration with BioNTech RNA Pharmaceuticals GmbH" or "in collaboration with Sanofi", as applicable)) (and the other Party hereby agrees to such mention or listing) in the relevant clinical trial databases and registers (e.g. clinicaltrials.gov (or equivalent)), in public materials published by such Party in relation to all clinical trials conducted pursuant to the Development Plan and, to the extent reasonably practicable, on labels of vials used in such clinical trials, as well as when either Party formally presents the Development program under this Agreement at conferences, provided that, prior to any such mention, listing or publication the Parties have agreed in writing the form of information that can be used in such mentions, listings or publications, and all mentions, listings and publications of a Party as collaborator under this Section 2.3 shall be made in all cases in a manner and to the extent consistent with Applicable Law and such agreed form of information.

2.4 Biomarker Execution. [***]

2.5 Reporting. Each Party shall keep the other Party reasonably informed as to its progress, results (including the development of any technology or invention), status and plans with respect to the Co-Development Activities performed by or on behalf of such Party through the provision of periodic, informal oral reports to the other Party's Project Manager. Without limiting the foregoing, each Party shall provide to the other Party a [***] written report (the ***Co-Development Report***) delivered no later than [***] following the end of each [***] such written report shall set out detailed particulars of the following items: (a) the Co-Development Activities performed by such Party during such [***] (b) the data, results and other Intellectual Property Rights made, conceived and first reduced to practice in the conduct of such Co-Development Activities by or on behalf of such Party; (c) the status of preparation for the planned Co-Development Activities to be performed in the upcoming [***] and the status of such activities; and (d) any other relevant information determined by the Joint Project Team to be included in such report pursuant to Section 6.2(i).

2.6 Maintenance of Records.

2.6.1 During the Term and for a period of at [***] after the Term (or, if longer, a period required by Applicable Law), each Party shall maintain records reflecting the work done and the results achieved in its performance of the Development Plan (the ***Co-Development Records***), such records shall be in a reasonable level of detail customary for companies engaged in pharmaceutical research. Without limiting the foregoing, such records shall be in sufficient detail and in good scientific manner appropriate for patent and regulatory purposes in compliance with Applicable Law.

2.6.2 Each Party shall make its Co-Development Records available for inspection by the other Party or its representative, during normal business hours and upon reasonable notice, upon reasonable written request of the other Party. Upon request by each Party, the other Party shall deliver to the requesting Party copies of all its Co-Development Records (which may include copies in an electronic format readily accessible by the requesting Party), provided that the requesting Party shall reimburse the reasonable and documented out-of-pocket costs incurred by the other Party in connection with the preparation and delivery of such copies. Each Party shall not be obliged to: (a) provide the other Party with access to its Co-Development Records or (b) deliver to the other Party copies of its Co-Development Records, in each case (a) and (b), more than [***].

2.7 Ownership of Clinical Data. Sanofi shall exclusively own all Clinical Data [***] Each Party acknowledges and agrees that Section 4.1.2 of the License Agreement shall not apply to such Clinical Data.

2.8 Manufacturing and Clinical Supply of Licensed Product #1.

2.8.1 The Parties' respective responsibilities relating to the Manufacturing and supply of Licensed Product #1 to be used for Phase I Clinical Trials and Phase II Clinical Trials are set forth in the Clinical Supply Agreement and the License Agreement. If the Joint Steering Committee approves any modification to the Licensed Product #1 set out in Schedule B pursuant to Section 6.3.2(d), at Sanofi's request, the Parties shall promptly update Appendix 1 of the Clinical Supply Agreement, such that the Licensed Product #1 incorporating such modification shall constitute a Drug Product under the Clinical Supply Agreement.

2.8.2 Biontech shall: (a) subject to Section 2.8.3, be responsible for the performance of all CMC Activities with respect to Licensed Product #1 under the CMC Development Plan; (b) perform the CMC Activities allocated to Biontech under the CMC Development Plan in accordance with the terms of this Agreement, and (c) contribute and commit the required resources and use Commercially Reasonable Efforts to meet the objectives set forth in the CMC Development Plan.

2.8.3 If either Party wishes Sanofi to perform any CMC Activities with respect to Licensed Product #1, such Party shall propose to the Joint Manufacturing Committee an update to the CMC Development Plan reflecting such CMC Activities to be performed by Sanofi, and Sanofi may perform such CMC Activities if agreed by the Joint Manufacturing Committee or, if the Joint Manufacturing Committee cannot reach agreement on such matter, upon the approval by the Joint Steering Committee pursuant to Section 6.3.2(c) of such update to the CMC Development Plan.

2.8.4 The initial version of the CMC Development Plan is set out in Schedule D. Thereafter, the Joint Manufacturing Committee shall discuss and approve any amendments to the CMC Development Plan proposed by either Party under Section 2.8.5(a) (provided, with respect to any proposed amendments to the CMC Development Plan to provide for Sanofi's performance of any CMC Activities, if the Joint Manufacturing Committee cannot agree on such matters, the Joint Steering Committee shall decide whether Sanofi may perform such CMC Activities pursuant to Section 6.3.2(c)). Biontech shall keep the Joint Manufacturing Committee fully informed as to its progress, results (including the development of any technology or inventions), status and plans for performing and implementing the CMC Development Plan, including by periodic, informal oral reports to the Joint Manufacturing Committee, and by providing a quarterly report to the Joint Manufacturing Committee with respect to CMC Activities performed under the CMC Development Plan delivered no later than [***] following the end of every [***], such written report shall set out detailed particulars of the following items: (a) the CMC Activities performed under the CMC Development Plan during such [***]; (b) the data, results and other Intellectual Property Rights made, conceived and first reduced to practice in the performance of such CMC Activities; (c) the status of preparation for the planned CMC Activities to be performed under the CMC Development Plan in the upcoming [***] and the status of such CMC Activities; and (d) any other relevant information determined by the Joint Manufacturing Committee to be included in such report pursuant to Section 2.8.5(b).

2.8.5 The Joint Manufacturing Committee shall be responsible for discussing and approving: (a) any amendments to the CMC Development Plan as proposed by either Party; and (b) the information to be included in the quarterly written reports described in Section 2.8.4. If the members of the Joint Manufacturing Committee cannot agree on such matters, notwithstanding anything to the contrary in Section 3.3.6 of the License Agreement and Sections 9.4 and 9.5 of the Clinical Supply Agreement: (i) with respect to any proposed amendment or update to the CMC Development Plan to provide for Sanofi's performance of any CMC Activities as described in Section 2.8.4, such matter shall be referred to the Joint Steering Committee for decision under Section 6.3.2(c); and (ii) with respect to any other matter, Sanofi shall have the deciding vote, and the third sentence of Section 9.5 of the Clinical Supply Agreement shall not apply with respect to such matter.

2.8.6 For the avoidance of doubt, the Manufacture and supply of any Licensed Product #1 for use in Phase III Clinical Trials pursuant to the Development Plan are subject to Sections 3.3.3 to 3.3.6 of the License Agreement.

3. Development Costs.

3.1 Development Costs related to the Biontech Territory. All Shared Development Costs shall be shared between the Parties pursuant to the following scheme:

[***]

3.2 Development Costs not related to the Biontech Territory. Sanofi shall remain solely responsible [***].

3.3 Budget.

3.3.1 Annual Development Plan Budget.

(a) The Budget shall include particulars of the Shared Development Costs which each Party is reasonably expected to incur with respect to its Co-Development Activities during [***] period. Each Party acknowledges and agrees that [***] the ***Binding Budget***). The initial Binding Budget is set out in Schedule C to this Agreement. Thereafter, the Budget shall be updated in accordance with Section 3.3.1(b).

(b) No later than [***] (or such other period as agreed by the Joint Project Team under Section 6.2(p)) prior to the end of [***], the Parties' respective Joint Project Team representatives shall in good faith discuss the Budget: (i) if such Calendar Year is [***] or [***], for the following [***] Calendar Year period (excluding the Calendar Year(s) comprising the then-current Binding Budget); or (ii) if such Calendar Year is [***] or any Calendar Year thereafter, [***], in each case (i) and (ii), pursuant to Section 6.2(d), and shall submit a proposed Budget to the Joint Financial Committee for review and comments. The Joint Project Team shall consider any comments from Joint Financial Committee with respect to such proposed Budget and may (but shall not be required to) amend such proposed Budget accordingly. Thereafter, the Joint Project Team shall submit the proposed Budget to the Joint Steering Committee for review and approval under Section 6.3.2(b), such that such proposed Budget shall be approved by the Joint Steering Committee no later than [***] prior to the end of such Calendar Year. In addition, the Joint Project Team may discuss any amendment to the Binding Budget pursuant to Section 6.2(d) and propose such amendment to the Joint Steering Committee for approval under Section 6.3.2(c). Notwithstanding the foregoing, from time to time, the Joint Project Team may approve any amendment to the Binding Budget with respect to the then-current Calendar Year under Section 6.2(e) without having to propose such amendment to the Joint Steering Committee, if the proposed amended Binding Budget will not deviate by [***] or more from the Binding Budget for such Calendar Year as of the first day of such Calendar Year.

3.3.2 Overspent Costs.

(a) Each Party shall promptly inform the other Party if it reasonably determines that it will or is likely to incur, or has incurred, any Shared Development Costs during any Calendar Year above [***] of the aggregate Shared Development Costs allocated to such Party in the Binding Budget with respect to such Calendar Year (the ***Overspent Costs***), such notice shall set out the amount of estimated or actual Overspent Costs in question (the ***Overspent Costs Notice***).

(b) Upon the submission of an Overspent Costs Notice from one Party to the other Party under Section 3.3.2(a), either Party may escalate the matter to the Joint Steering Committee. Upon such escalation, the Joint Steering Committee shall promptly (and in any event, no later than [***] after such escalation) discuss and decide whether the Binding Budget shall be amended.

(c) For the avoidance of doubt, if the Joint Steering Committee has approved an amendment to the Binding Budget for the relevant Calendar Year reflecting the Overspent Costs in question, such Overspent Costs shall continue to constitute Shared Development Costs.

(d) If the Joint Steering Committee has not approved an amendment to the Binding Budget for the relevant Calendar Year reflecting the Overspent Costs in question, then such Overspent Costs shall not be considered Shared Development Costs.

3.3.3 Reporting. Shared Development Costs and the Excluded Clinical Trial Costs shall initially be borne by the Party (or its Affiliate) incurring such cost or expense. Each Party shall report to the other Party [***] the Shared Development Costs and any Excluded Clinical Trial Costs incurred by such Party (or its Affiliate) during [***] Such report shall include the details necessary to enable the receiving Party to compare the reported Shared Development Costs against the applicable Budget, including specifying in reasonable detail all Shared Development Costs and any Excluded Clinical Trial Costs incurred by such Party (or its Affiliate) during such [***] whereby all FTE Costs and out-of-pocket costs or expenses with respect to Shared Development Costs shall be allocated to the extent possible to a specific activity under the Development Plan. The Parties shall seek to resolve any questions related to such reports within [***] following receipt by each Party of the other Party's report hereunder.

3.3.4 Invoicing and Reconciliation of Shared Development Costs. Following the end of each [***] (1) if Sanofi (or its Affiliates), but not Biontech (or its Affiliates), have incurred Shared Development Costs with respect to such [***] then Sanofi may submit an invoice to Biontech with respect to Biontech's share of the Shared Development Costs for such [***] in accordance with the scheme set out in Section 3.1; and (2) otherwise, the Shared Development Costs borne by each Party or its Affiliate with respect to such [***] shall be reported and reconciled as follows:

(a) no later than [***] after the end of such [***] (provided that, Sanofi shall not be obliged to observe such timeframe if Biontech fails to provide the report described in, and within the [***] period set out in, Section 3.3.3), Sanofi shall submit to Biontech a proposed reconciliation report, setting out the particulars with respect to the reconciliation of the Shared Development Costs incurred by each Party or its Affiliate with respect to such [***]. For the purposes of such reconciliation, the Shared Development Costs incurred by each Party or its Affiliate shall be shared between the Parties in accordance with the scheme set out in Section 3.1;

(b) if Biontech disagrees with such reconciliation report, Biontech may, no later than [***] after Sanofi's submission of the proposed reconciliation report to Biontech, request the Joint Financial Committee to review such report under Section 6.5.2(a);

(c) (1) upon any confirmation by Biontech to Sanofi of its acceptance of such reconciliation report; (2) if Biontech has not requested the Joint Financial Committee to review and discuss such reconciliation report within the [***] period described in clause (b) above, upon the expiry of such [***] period; or (3) if Biontech has requested the Joint Financial Committee to review such reconciliation report within such [***] period, upon approval of such reconciliation report by the Joint Financial Committee:

(i) if the Shared Development Costs incurred by Biontech or its Affiliate in such [***] is less than its agreed share of Shared Development Costs during such [***], Sanofi or its Affiliate shall deliver an invoice to Biontech for any amounts due to Sanofi as a result of such reconciliation;

(ii) if the Shared Development Costs incurred by Sanofi or its Affiliate in such [***] is less than its agreed share of Shared Development Costs during such [***] Sanofi shall notify Biontech that Biontech should issue an invoice to Sanofi for any amounts due to Biontech as a result of such reconciliation,

(d) each Party shall pay the relevant reconciliation payment to the respective other Party within [***] days following receipt of the respective invoice from the other Party.

3.4 Records and Audit Rights. Each Party shall keep complete and accurate records for all of its Shared Development Costs, including the details of the FTEs allocated to the performance of its Co-Development Activities based on the actual hours of work spent on such performance. Each Party shall make such records available to the other Party upon request. For the avoidance of doubt, such records shall constitute the records reasonably necessary to verify the accuracy of the costs associated to the applicable Party's Development activities under Section 4.5 of the License Agreement, and the provisions of Section 4.5 of the License Agreement shall apply with respect to such records accordingly.

3.5 Payment. All payments to be made by one Party to the other Party under this Agreement shall be made in Euros by bank wire transfer without deduction for wire transfer fees in immediately available funds to such bank account designated in writing by the receiving Party to the paying Party from time to time.

3.6 Accounting and Currency. Shared Development Costs and Excluded Clinical Trial Costs shall be calculated, recorded and reported under this Agreement in accordance with the last updated IFRS and in Euros. In the case of Shared Development Costs and Excluded Clinical Trial Costs which are initially incurred in a currency other than Euros, exchange conversion of such amounts into Euros shall be made on a [***] basis and shall be made consistent with the incurring Party's normal practices used to prepare its audited financial statements for internal and external reporting purposes, which uses a widely accepted source of published exchange rates.

3.7 Taxes.

3.7.1 Each Party shall be solely responsible for the payment of all Taxes imposed on such Party's income arising directly or indirectly from the activities of the Parties under this Agreement. [***]

3.7.2 [***]

3.7.3 All payments between the Parties under this Agreement are exclusive of applicable statutory value added tax (***VAT***), if any, which shall be listed separately on each invoice. [***]

4. Intellectual Property and Licensed Products.

4.1 Each Party acknowledges and agrees that:

4.1.1 Sanofi shall solely own all Know-how made, conceived or first reduced to practice:

(a) by or on behalf of Biontech (or its Affiliates) or jointly by or on behalf of the Parties (or their Affiliates) in the conduct of the Co-Development Activities, to the extent such Know-how: (i) is necessary or useful for Developing, Commercializing or otherwise using Licensed Product #1; (ii) if patented, would encompass an activity or composition that is necessary or useful for the Development, Commercialization or other use of Licensed Product #1; or (iii) is otherwise related to Licensed Product #1. [***]

(b) by or on behalf of Sanofi (or its Affiliates) in the conduct of the Co-Development Activities; and

(c) by or on behalf of either Party (or its Affiliates) or jointly by or on behalf of the Parties (or their Affiliates) in the conduct of activities in connection with the preparation of the clinical trials with respect to Licensed Product #1 [***] to the extent such activities were conducted before the Effective Date,

together (a), (b) and (c), the ***Sanofi Co-Development Know-how***.

4.1.2 Biontech shall solely own:

(a) all Know-how made, conceived or first reduced to practice by or on behalf of Biontech (or its Affiliates) in the conduct of the Co-Development Activities to the extent such Know-how does not constitute Sanofi Co-Development Know-how (the ***Biontech Co-Development Know-how***); and

(b) all CMC Know-how.

4.2 As between the Parties:

4.2.1 Sanofi shall: (a) have the exclusive right (but not the obligation), at its sole expense and sole discretion, to control the Prosecution and Maintenance and enforcement of all Patent Rights claiming or otherwise covering any Sanofi Co-Development Know-how (the ***Sanofi Co-Development Patents***) and (b) solely own the Sanofi Co-Development Patents; and

4.2.2 Biontech shall: (a) have the exclusive right (but not the obligation), at its sole expense and sole discretion, to control the Prosecution and Maintenance and enforcement of all Patent Rights claiming or otherwise covering any Biontech Co-Development Know-how (the ***Biontech Co-Development Patents***) and all Patent Rights claiming or otherwise covering any CMC Know-how (the ***CMC Patents***) and (b) solely own the Biontech Co-Development Patents and the CMC Patents.

For the avoidance of doubt, for the purposes of interpretation of Section 1.44(b) and this Section 4.2, Sanofi Co-Development Know-how, Biontech Co-Development Know-how and CMC Know-how shall not cease to be Know-how to the extent it is disclosed or claimed by a Sanofi Co-Development Patent, Biontech Co-Development Patent or CMC Patent (as applicable).

4.3 For the purposes of Section 7.3.2(a)(ii) (*Research license to Biontech*), and Section 7.3.2(b)(ii) *(Co-Development and Co-Commercial License (Biontech Option Product*) *to Biontech*) of the License Agreement only, Sanofi Co-Development Technology shall constitute Joint Collaboration Technology (and accordingly, Sanofi Co-Development Technology shall constitute Sanofi Technology).

4.4 For the purposes of Section 7.3.1(a) (*Research license to Sanofi*) and Section 7.3.1(b)(iii) (*Co-Development and Co-Commercial License (Sanofi Option Product) to Sanofi*) of the License Agreement, Biontech Co-Development Technology and CMC Technology shall constitute Biontech Technology.

4.5 Sanofi hereby grants to Biontech:

4.5.1 an exclusive, non-transferable (except through assignment of this Agreement pursuant to Section 13.4 of the License Agreement as incorporated into this Agreement under Section 11.4), worldwide license, with the right to sublicense (subject to Section 4.13), under the Sanofi Co-Development Technology to Develop, have Developed, make, have made, Commercialize and have Commercialized Licensed Products outside of the Field and Discarded Mixtures;

4.5.2 a non-exclusive, non-transferable (except through assignment of this Agreement pursuant to Section 13.4 of the License Agreement as incorporated into this Agreement under Section 11.4), worldwide license, with the right to sublicense (subject to Section 4.13), under the Sanofi Co-Development Technology to Develop, have Developed, make, have made, Commercialize and have Commercialized any product in and outside the Field (excluding any Licensed Product and any Discarded Mixture); and

4.5.3 a non-exclusive, non-transferable (except through assignment of this Agreement pursuant to Section 13.4 of the License Agreement as incorporated into this Agreement under Section 11.4), worldwide, royalty-free license, with the right to sublicense (subject to Section 4.13), under the Co-Development Background Technology of Sanofi to the extent required by Biontech for the co-Development and/or the co-Commercialization of Licensed Product #1 in accordance with this Agreement and/or Commercialization agreement concluded in relation to Licensed Product #1 under Section 4.1.3 of the License Agreement.

[***]

4.6 Biontech hereby grants to Sanofi:

4.6.1 an exclusive, non-transferable (except through assignment of this Agreement pursuant to Section 13.4 of the License Agreement as incorporated into this Agreement under Section 11.4), worldwide license, with the right to sublicense (subject to Section 4.13), under the Biontech Co-Development Technology and the CMC Technology to Develop, have Developed, make, have made, Commercialize and have Commercialized Licensed Products in the Field;

4.6.2 a non-exclusive, non-transferable (except through assignment of this Agreement pursuant to Section 13.4 of the License Agreement as incorporated into this Agreement under Section 11.4), worldwide license, with the right to sublicense (subject to Section 4.13), under the Biontech Co-Development Technology to Develop, have Developed, make, have made, Commercialize and have Commercialized any product in and outside the Field (excluding any Licensed Product and any Discarded Mixture);

4.6.3 a non-exclusive, non-transferable (except through assignment of this Agreement pursuant to Section 13.4 of the License Agreement as incorporated into this Agreement under Section 11.4), worldwide license, with the right to sublicense (subject to Section 4.13), under the Sanofi CMC Technology to Develop, have Developed, make, have made, Commercialize and have Commercialized products (other than Licensed Products and Discarded Mixtures) in the field of Intratumoral Administration of any agent for any indication; and

4.6.4 a non-exclusive, non-transferable (except through assignment of this Agreement pursuant to Section 13.4 of the License Agreement as incorporated into this Agreement under Section 11.4), worldwide, royalty-free license, with the right to sublicense (subject to Section 4.13), under the Co-Development Background Technology of Biontech to

the extent required: (a) for the Development and Commercialization of Licensed Product #1 in the Field, and (b) by Sanofi for the co-Development and/or co-Commercialization of any Sanofi Option Product which constitutes Licensed Product #1 in accordance with the Development and/or Commercialization agreement concluded in relation to such Sanofi Option Product under Section 4.2.5 of the License Agreement.

[***]

4.7 For the avoidance of doubt, Background Technology, Joint Collaboration Technology (other than for the purposes set out in Section 4.3) Biontech Collaboration Technology (other than for the purposes set out in Section 4.4), Licensed Product Patents, Sanofi Foreground Technology, Biontech Foreground Technology and Joint Foreground Technology shall exclude any Co-Development Technology and CMC Technology, and Section 7.2.3 and the last sentence of Section 7.1 of the License Agreement shall not apply with respect to any Co-Development Technology or CMC Technology.

4.8 With respect to the Co-Development Patents and CMC Patents, each Party shall (a) provide the other Party with written notice reasonably in advance of: (i) any filing of such Patent Rights for which it controls the Prosecution and Maintenance pursuant to Section 4.2 above; and (ii) any other substantive submissions and correspondence to patent office(s) with respect to the Prosecution and Maintenance of such Patent Rights; (b) provide the other Party with any final drafts of any application for such Patent Right to be filed or such substantive submission or correspondence (such application, submissions and correspondence, the ***Patent Documentation***) reasonably in advance of its filing or submission and consider in good faith the incorporation of reasonable comments by the other Party thereon; (c) provide the other Party with a copy of all Patent Documentation once it has been filed or otherwise submitted; (d) provide the other Party with copies of any substantive communications received from patent office(s) with respect to such Patent Rights; (e) notify the other Party of any: [***] and (f) provide the other Party with written notice as early as possible (in any event, no later than [***] prior to abandoning any such Patent Rights. Each Party shall cause its employees, agents or consultants, at its expense, to execute such documents and to take such other actions as reasonably necessary or appropriate to enable the other Party to prepare, file, Prosecute and Maintain such Patent Rights. In the event that either Party provides the other Party with the written notice described in clause (f) prior to abandoning any Patent Rights, then the other Party shall have the option, exercisable by delivery of written notice thereof within [***] thereafter, to assume the right (but not the obligation), at its sole expense and sole discretion, to control the Prosecution and Maintenance of such Patent Right.

4.9 Patent Enforcement

4.9.1 Each Party (***Enforcing Party***) shall have the first right (but not the obligation), at its sole discretion, to control the enforcement or otherwise abate the infringement of any Patent Rights Prosecuted and Maintained by it in accordance with Section 4.2 above. [***]

4.9.2 [***]

4.10 Each Party shall perform such lawful acts and execute such documents as requested by the other Party from time to time in order to reasonably assist the other Party in the Prosecution and Maintenance and enforcement activities described in this Section 4.

4.11 Each Party shall ensure that all employees and other persons acting on its behalf in performing its obligations under this Agreement shall be obligated, either pursuant to Applicable Law or pursuant to a binding written agreement, to assign to it, or as it shall direct, all inventions made or conceived by such employees or other persons.

4.12 No rights or licenses with respect to any Intellectual Property Rights Controlled by either Party are granted or shall be deemed granted hereunder or in connection herewith, other than those rights expressly granted in this Agreement or the License Agreement.

4.13 Each Party acknowledges and agrees, that the licenses and rights set out in Sections 4.5 and 4.6 of this Agreement shall be sublicensable on the same terms of Section 7.3.4(a) of the License Agreement, and in addition, the licenses set out in Sections 4.5.1, 4.5.3, 4.6.1 and 4.6.4 shall be sublicensable under the same terms of Sections 7.3.4(b) and 7.3.4(c) of the License Agreement.

4.14 [***]

4.15 [***]

5. Profit Sharing.

For the avoidance of doubt, the profit sharing within the Biontech Territory pursuant to Section 4.1.6 of the License Agreement as well as the financial terms (e.g. milestone and royalty payments) agreed for countries outside the Biontech Territory pursuant to Section 6 of the License Agreement shall remain unaffected by this Agreement.

6. Governance.

6.1 Project Managers. Each Party shall designate a Development project manager (***Project Manager***) to act as its primary contact for all operational matters related to this Agreement. Each Project Manager shall be responsible for implementing and coordinating activities hereunder and facilitating the exchange of information between the Parties. Either Party may replace its Project Manager at any time by informing the other Party's Project Manager in advance in writing (which may be by email).

6.2 Joint Project Team. The Parties shall establish a joint project team (the ***Joint Project Team***) made up of the Project Manager and at least [***] other representatives from each Party, which shall be responsible for coordinating all activities under this Agreement. Each Party may replace any of its Joint Project Team representatives upon prior notice to the other Party. In particular, the Joint Project Team shall be responsible for:

(a) the review and discussion of the Development Plan and underlying objectives for Licensed Product #1 in the Field, [***]

(b) co-ordinating the implementation of the Development Plan and the associated Budget;

(c) the review and discussion of any proposed amendment or update to the Development Plan, whether during the annual review under Section 2.1.2 or from time to time during the Term, and the proposal of such amendment or update to the Joint Steering Committee for approval;

(d) the review and discussion of: (i) the Budget for the applicable period pursuant to the annual review under Section 3.3.1(b), taking into account of any comments provided by the Joint Financial Committee under Section 6.5.2(b) and the applicable forecast prepared by the Joint Financial Committee under Section 6.5.2(c); and (ii) any other proposed amendment to the Binding Budget, and the proposal of each such amended Budget to the Joint Steering Committee for approval;

(e) the review and approval of any proposed amendment(s) to the Binding Budget with respect to the then-current Calendar Year, provided that such Binding Budget shall not deviate by [***] or more from the Binding Budget for such Calendar Year as of the first day of such Calendar Year;

(f) the review and discussion of the proposal by either Party of any modification to the Licensed Product #1 [***]

(g) discussion and approval of which party should be responsible for the performance of which Co-Development Activities [***].

(h) discussion and approval of any Third Party proposed to be engaged by a Party to perform or assist with its obligations under this Agreement;

(i) review and discussion of any Co-Development Reports, and discuss and agree whether additional information should be included in future Co-Development Reports;

(j) oversight of all clinical and regulatory matters with respect to the Licensed Product #1 in the Field;

(k) the preparation and review of all material Regulatory Documentation with respect to the Licensed Product #1 in the Field;

(l) the coordination with the Joint Manufacturing Committee in relation to the CMC Development Plan and the forecasting of Drug Products for Clinical Trials (as defined in the Clinical Supply Agreement);

(m) discussion and agreement on target product profiles;

(n) periodically update the Joint Steering Committee with respect to Co-Development Activities performed and other relevant matters;

(o) facilitating the sharing of data and information between the Parties in relation to the Development activities under the Development Plan, regulatory filings and regulatory approvals;

(p) discussion and agreement of any alternative timeframe with respect to the discussion of, and submission to the Joint Financial Committee, a proposed Budget by the Joint Project Team as part of the annual review under Section 3.3.1(b); and

(q) any other responsibilities allocated to the Joint Project Team by the Joint Steering Committee.

6.3 Decisions of the Joint Project Team/Escalation/Joint Steering Committee.

6.3.1 The quorum for each Joint Project Team meeting shall be at least one (1) Joint Project Team representative from each Party. Each Party shall have one collective vote in all decisions of the Joint Project Team with respect to matters falling within its responsibility, and shall use good faith efforts to decide such matters unanimously. If consensus cannot be reached by the Joint Project Team, the relevant matter shall be escalated to the Joint Steering Committee for discussion and decision.

6.3.2 Each Party hereby acknowledges and agrees that, notwithstanding the last sentence of Section 11.2.2 of the License Agreement, the Joint Steering Committee shall be responsible for:

(a) the discussion and agreement of any matter escalated by the Joint Project Team or the Joint Financial Committee under Section 6.3.1 or Section 6.5.3 (as applicable) for resolution by the Joint Steering Committee;

(b) the discussion and agreement of updates to the Development Plan as part of the annual review under Section 2.1.2 or updates to the Budget as part of annual review under Section 3.3.1(b) on an annual basis, each such annual update shall be approved no later than [***] prior to the end of the relevant Calendar Year;

(c) the discussion and agreement of any other amendment or update to the Development Plan or the Budget, and any amendment or update of the CMC Development Plan to allocate any CMC Activities for performance by Sanofi as referred by the Joint Manufacturing Committee under Section 2.8.5;

(d) the discussion and agreement of any modification to the Licensed Product #1 set out in Schedule B;

(e) [***]

(f) the discussion and agreement of any alternative timeframe with respect to the review of, and submission to the Joint Steering Committee of, any updates to a Development Plan by the Joint Project Team, as part of an annual review under Section 2.1.2, in the case of (b) to (d), as proposed by the Joint Project Team to the Joint Steering Committee pursuant to Sections 6.2(c) or Section 6.2(d) (as applicable), or, in the case of (c) and with respect to the Budget, as proposed by either Party under Section 3.3.2 to reflect the Overspent Costs in question.

6.3.3 If the Joint Steering Committee cannot agree unanimously on any matter set out in Sections 6.3.2(a) to (d) (inclusive) and (f):

(a) if such matter constitutes an amendment or update to the then-current Binding Budget, which causes an increase of Biontech's aggregate share of budgeted Shared Development Costs with respect to [***] covered by then-current Binding Budget by an amount equal [***] or more, the third and fourth sentences of Section 11.2.4 of the License Agreement and the first two sentences of Section 13.7 of the License Agreement shall apply (but the last two sentences of Section 13.7 of the License Agreement shall not apply). If the Parties' CEOs are unable to settle any dispute with respect to such matter escalated to them within thirty (30) days from the date that the dispute has been escalated to the CEOs, then Sanofi shall have the deciding vote with respect to such matters; and

(b) otherwise, the third and fourth sentences of Section 11.2.4 of the License Agreement and the last three sentences of Section 13.7 of the License Agreement shall not apply with respect to such matters, and Sanofi shall have a deciding vote with respect to such matters (for the avoidance of doubt, without having to escalate such matter to the Parties' CEOs).

For the avoidance of doubt, any matter set out in Section 6.3.3(a) which is so decided by the Parties' CEOs pursuant to Section 13.7 of the License Agreement and any matter set out in Sections 6.3.3(a) and 6.3.3(b) which is so decided by Sanofi through its exercise of its deciding vote, shall be treated as having been agreed or approved by the Joint Steering Committee for the purposes of this Agreement.

6.3.4 If, during each of Calendar Year [***], Sanofi exercises its final decision-making authority to approve any amendment or update to the Binding Budget (covering any such Calendar Year) which causes an increase in Biontech's share of Shared Development Costs with respect to such Calendar Year (compared with its share of Shared Development Costs had such amendment or update to the Binding Budget not been implemented), then Biontech shall not be required to pay to Sanofi the amount of such increase (the ***Additional Co-Development Costs***) [***] provided that: (i) Biontech shall not be required to pay more than [***]

6.3.5 The Joint Project Team shall not have the authority to amend or modify the terms and conditions of this Agreement or the License Agreement (save for the amendment of the Development Plan and the Budget in accordance with this Section 6.3) or to waive any obligation of either Party under this Agreement or the License Agreement.

6.4 Meetings of the Joint Project Team. The Joint Project Team shall meet as soon as reasonably practicable after the Signing Date (in any event, no later than [***] after the Signing Date), and thereafter, no less than once every [***], and more often as reasonably considered necessary at the request of either Party, to, among other matters, provide an update on the progress of the Development activities hereunder. The Joint Project Team may meet in person or by means of teleconference, internet conference, videoconference or other similar communications equipment, provided that at least [***] shall be conducted in person in each Calendar Year. Minutes of all meetings of the Joint Project Team shall be prepared by or on behalf of such representative of the Joint Project Team of either Party as the Joint Project Team may from time to time agree and shall be transmitted by such representative of such Party to all members of the Joint Project Team within [***] after the date of the meeting. The minutes shall be deemed to be approved by the other Party if the other Party does not object within [***] receipt.

6.5 Joint Financial Committee.

6.5.1 Each Party shall designate [***] representatives which together shall constitute the joint financial committee (***Joint Financial Committee***), which shall be formed no later than [***] after the Signing Date. Each Party may replace any of its Joint Financial Committee representatives upon prior notice to the other Party.

6.5.2 The Joint Financial Committee shall be responsible for:

(a) review and approval of any reconciliation report as requested by Biontech under Section 3.3.4(b);

(b) review of the proposed Budget submitted by the Joint Project Team under Section 3.3.1(b), and submission of any comments to the Joint Project Team with respect to such proposed Budget within [***] of its receipt of the proposed Budget from the Joint Project Team;

(c) during each Calendar Quarter, preparation of a forecast of Shared Development Costs reasonably expected to be incurred by each Party with respect to the immediately subsequent Calendar Quarter; and

(d) preparation of necessary documentation to support strategic financial decisions of the Joint Steering Committee in connection with the Development Plan.

6.5.3 The quorum for each Joint Financial Committee meeting shall be at least one (1) representative from each Party. Each Party shall have one collective vote in all decisions of the Joint Financial Committee with respect to matters falling within its responsibility, and shall use good faith efforts to decide all such matters unanimously. If consensus cannot be reached by the Joint Financial Committee, the relevant matter shall be escalated to the Joint Steering Committee for discussion and decision. If the Joint Steering Committee cannot agree on such matter unanimously, the fourth sentence of Section 11.2.4 (and accordingly Section 13.7) of the License Agreement shall apply with respect to such matter accordingly, except that, the reference to "Parties' CEOs" in Section 13.7 shall instead be deemed to be a reference to Biontech's CEO and Sanofi's Chief Financial Officer with respect to such matter, and any such matter to the extent approved or agreed by the Joint Steering Committee or Biontech's CEO and Sanofi's Chief Financial Officer under Section 13.7 of the License Agreement (as applicable) shall be treated as having been agreed or approved by the Joint Financial Committee for the purposes of this Agreement. The Joint Financial Committee shall not have the authority to amend or modify the terms and conditions of this Agreement or the License Agreement or to waive any obligation of either Party under this Agreement or the License Agreement.

7. Pharmacovigilance and Regulatory Matters.

7.1 Regulatory Matters. Sanofi or its Affiliate shall have the exclusive right (but not the obligation) to file, submit and maintain any Regulatory Documentation in its name (and such Regulatory Documentation, to the extent filed by Sanofi or its Affiliate, shall be the sole property of Sanofi (or its Affiliate, as applicable)), unless otherwise agreed between the Parties. Without limiting the foregoing, Sanofi or its Affiliate shall be the holder of the Marketing Approval for any Licensed Product #1 in the Field to the extent the relevant applications have been filed by Sanofi or its Affiliate. Sanofi shall lead all interactions with all Regulatory Authorities in all regions. [***]

Biontech shall have the right (but not the obligation) to participate in and attend with Sanofi (with not less than two representatives from Biontech) all meetings with Regulatory Authorities in the Biontech Territory, to the extent permitted by the relevant Regulatory Authority and Applicable Law.

7.2 Pharmacovigilance. To the extent Sanofi or its Affiliate is the sponsor of a clinical trial with respect to a Licensed Product #1 in the Field, Sanofi or its Affiliate shall be the host of the clinical and pharmacovigilance related databases with respect to such clinical trial and shall be responsible for compliance with all Applicable Laws pertaining to the safety of such Licensed Product #1. Each Party shall comply with its respective obligations under the Safety Data Exchange Agreement entered into between the Parties dated October 4, 2018 (***SDEA***). For the avoidance of doubt, such agreement shall constitute a "SDEA" under Section 3.2.3 of the License Agreement.

8. Confidentiality and Data Privacy

8.1 For the avoidance of doubt: (a) any information disclosed by one Party to the other Party pursuant to this Agreement (including through any audit or inspection conducted pursuant to this Agreement or during any meeting of the Joint Project Team, Joint Steering Committee, Joint Manufacturing Committee or the Joint Financial Committee) shall constitute information related to the subject matter of the License Agreement for the purposes of the definition of "Confidential Information" under the License Agreement, and the provisions in such definition and Section 8 of the License Agreement shall apply to such information accordingly; and (b) the Sanofi Co-Development Technology, Co-Development Background Technology of Sanofi, Regulatory Documentation filed by Sanofi or its Affiliate and Clinical Data shall constitute Sanofi's Confidential Information (in respect of which Sanofi is the Disclosing Party and Biontech the Receiving Party) and the Biontech Co-Development Technology, CMC Technology and Co-Development Background Technology of Biontech shall constitute Biontech's Confidential Information (in respect of which Biontech is the Disclosing Party and Sanofi the Receiving Party).

8.2 Notwithstanding any other term of this Agreement, neither Party shall, or shall be required to, transfer to the other Party, any personal data if either Party, acting reasonably, determines that such transfer or any subsequent processing of such personal data would not comply with any Applicable Laws relating to the transfer and processing of such personal data. Each Party shall ensure that any transfer and subsequent processing of such personal data by it under or in connection with this Agreement is lawful, and if required the Parties shall negotiate in good faith and seek to enter into such agreements as are reasonably required to ensure the same, including, where applicable, entering into the Standard Contractual Clauses published by the European Commission. For the purposes of this Section 8.2, "personal data" and "process" shall be construed in accordance with the EU General Data Protection Regulation 2016/679.

9. Term and Termination.

9.1 Term. This Agreement shall be effective from the Effective Date and shall continue until the completion of all Co-Development Activities and CMC Activities, unless terminated earlier in accordance with Section 9.2 or otherwise agreed between the Parties (the ***Term***).

9.2 Termination.

9.2.1 This Agreement shall terminate automatically:

(a) in the event of any termination or expiry of the License Agreement in its entirety;

(b) in the event of any termination of the License Agreement on a Licensed Product-by-Licensed Product basis, where such Licensed Product is Licensed Product #1, under Section 12.3.1 or Section 12.3.2 of the License Agreement; or

(c) in the event of any termination of the Co-Development of an Option Product under Section 12.2.2 or Section 12.3.4 of the License Agreement, where such Option Product is Licensed Product #1.

9.2.2 Either Party may terminate this Agreement with immediate effect by written notice to the other Party:

(a) if the other Party materially breaches any of its material obligations hereunder and fails to cure such breach [***] following its receipt of written notice thereof from the first Party. In the event of a dispute between the Parties as to whether a material breach has occurred, either Party may refer such dispute to the dispute resolution process set out in Section 13.7 of the License Agreement. Any right to terminate under this Section 9.2.2(a) or Section 12.3.4 of the License Agreement and the cure period shall be suspended in the event that, during the cure period, the Party alleged to have been in material breach shall have in good faith initiated dispute resolution in accordance with Section 13.7 of the License Agreement with respect to the alleged breach, which suspension shall continue until such dispute has been resolved in accordance with Section 13.7 of the License Agreement; or

(b) if the other Party breaches its payment obligations under this Agreement with respect to an aggregate outstanding amount of at least [***] and such Party fails to cure such breach within [***] following its receipt of written notice thereof from the first Party.

9.3 Consequences of Termination or Expiry.

9.3.1 *General consequences*.

(a) In the event of any termination or expiry of this Agreement:

(i) within [***] of such termination or expiry, each Party shall return or deliver to the other Party all of the other Party's Confidential Information disclosed to such Party under this Agreement, as well as any of the other Party's materials delivered by the other Party under this Agreement, provided that each Party shall be permitted to retain and use any Confidential Information of the other Party which is necessary or useful for such Party to exercise any remaining rights or perform its remaining obligations under this Agreement or under the License Agreement; and

(ii) within [***] of such termination or expiry, the Parties shall reconcile the Shared Development Costs incurred prior to the date of such termination or expiry (to the extent not previously reconciled under Section 3.3.4), in accordance with the principles set out in Sections 3.1 and 3.2, and shall promptly make any required payments to the other Party as a result of such reconciliation. Except as set forth in Sections 9.3.2(a)(iii) and 9.3.2(c), any Additional Co-Development Costs, to the extent not already paid by Biontech as of the date of such termination or expiry, shall become immediately payable by Biontech.

9.3.2 *Specific consequences.*

(a) In the event of any termination of this Agreement as a result of Sanofi's termination of the entirety of the License Agreement under Section 12.2.1 (*Termination by Sanofi for convenience*) of the License Agreement, in addition to the termination events set out in Section 12.4.2 of the License Agreement:

(i) at Biontech's written request, Sanofi shall: (1) transfer control to Biontech of any ongoing clinical trial being conducted by or on behalf of Sanofi under the Development Plan as of the effective date of termination and (2) continue to conduct such clinical trial (the costs of which as between the Parties, and the invoicing and reconciliation of such costs, shall continue to be governed by Section 3), for up to [***] to enable such transfer to be completed without interruption of any such clinical trial, whereupon after such transfer Biontech will assume the costs of such clinical trial, provided that, with respect to any such clinical trial for which such transfer is expressly prohibited by the applicable Regulatory Authority, Sanofi shall continue to conduct such clinical trial to completion, at Sanofi's cost and expense;

(ii) the licenses granted to Biontech under Section 4.5 of this Agreement shall survive; and

(iii) for any Additional Co-Development Costs, to the extent not already paid by Biontech as of the date of such termination, the payment schedule pursuant to Section 6.3.4 shall continue to apply.

(b) In the event of any termination of this Agreement as a result of Biontech's termination of co-Development of Licensed Product #1 under Section 12.2.2 (*Termination of co-development by Biontech for convenience*) of the License Agreement, for the avoidance of doubt, (i) the termination consequences set forth in Section 12.4.4 of the License Agreement shall apply; and (ii) the licenses granted to Sanofi under Sections 7.3.1 and 7.3.3(ii) of the License Agreement and under Section 4.6 of this Agreement shall survive.

(c) In the event of any termination of this Agreement as a result of Biontech's termination of the License Agreement under Section 12.3.1 (*Termination for Sanofi's breach*) or Section 12.3.3 (*Termination for Sanofi's insolvency)* of the License Agreement, whether in its entirety or with respect to Licensed Product #1 only, in addition to the termination events set out in Section 12.4.6 of the License Agreement, (1) Section 9.3.2(a)(i) of this Agreement shall apply with respect to any ongoing clinical trial conducted by or on behalf of Sanofi under the Development Plan as of the effective date of such termination; (2) the Clinical Supply Agreement shall automatically terminate with respect to Licensed Product #1 (and such termination shall be treated as a termination by Sanofi pursuant to Section 12.3(c) of the Clinical Supply Agreement); (3) the licenses granted to Biontech under Section 4.5 of this Agreement shall survive; and (4) for any Additional Co-Development Costs, to the extent not already paid by Biontech as of the date of such termination, the payment schedule pursuant to Section 6.3.4 shall continue to apply.

(d) In the event of any termination of this Agreement as a result of Sanofi's termination of the License Agreement under Section 12.3.2 (*termination for Biontech's breach*) or Section 12.3.3 (*termination for Biontech's insolvency*) of the License Agreement (whether in its entirety or with respect to Licensed Product #1 only), in addition to the termination events set out in Section 12.4.8 of the License Agreement:

(i) within [***] after such date of termination, Biontech shall provide to Sanofi a report containing the details set out in Section 2.5(a) to (d) with respect to the Co-Development Activities performed by or on behalf of Biontech prior to the date of such termination, to the extent not previously reported to Sanofi under Section 2.5;

(ii) promptly upon Sanofi's request: (1) Biontech shall assign (or, in the case of agreements relating to Licensed Product #1 and other products being Developed or Commercialized by Biontech, partially assign) to Sanofi, to the extent assignable (or partially assignable, as applicable), Biontech's rights in any or all agreements with Biontech's Approved Co-Development Third Parties to the extent related to the Co-Development Activities; and (2) Biontech shall provide copies of such agreements to Sanofi. To the extent that any such agreement is not assignable (or partially assignable, as applicable) by Biontech, then such agreement shall not be assigned (or partially assigned, as applicable), and upon the request of Sanofi, Biontech shall cooperate with Sanofi in good faith and allow Sanofi to obtain and to enjoy the benefit of such agreement (or, in the case of any agreement relating to Licensed Product #1 and other products being Developed or Commercialized by Biontech, such agreement to the extent relating to Licensed Product #1) in the form of a license or such other rights;

(iii) to the extent the Manufacturing process with respect to Licensed Product #1 has not completely transferred to Sanofi pursuant to Section 3.3.4 of the License Agreement, at Sanofi's request: (1) Biontech shall transfer such Manufacturing process to Sanofi or its designee or (2) continue to supply to Sanofi with clinical quantities of Licensed Product #1 in the Field subject to a supply agreement to be negotiated and agreed in good faith between the Parties, until the earlier of: (i) [***] after the effective date of termination; or (ii) such Manufacturing process having been completely transferred to Sanofi, or establishment by Sanofi of an alternative supply for such Licensed Product on commercially reasonable terms; and

(iv) Biontech shall, at Sanofi's written request, (a) transfer control to Sanofi of any ongoing clinical trial being conducted by or on behalf of Biontech under the Development Plan as of the effective date of termination and (b) continue to conduct such clinical trials, at Biontech's cost in the case of termination of the License Agreement under Section 12.3.2 (*termination for Biontech's breach*) of the License Agreement, and at Sanofi's cost in the case of termination under Section 12.3.3 (termination for Biontech's insolvency) of the License Agreement in the case of, for up to [***] to enable such transfer to be completed without interruption of any such clinical trial, whereupon after such transfer Sanofi will assume the costs of such clinical trial, provided that, with respect to any such clinical trial for which such transfer is expressly prohibited by the applicable Regulatory Authority, Biontech shall continue to conduct such clinical trial to completion, at Biontech's cost and expense;

(e) In the event of any termination of this Agreement as a result of Sanofi's termination of the co-Development of Licensed Product #1 under Section 12.3.4 (*termination for Biontech's breach of co-development obligations*) of the License Agreement or any termination by Sanofi of this Agreement under Section 9.2.2, for the avoidance of doubt, Section 12.4.9 of the License Agreement shall apply, and the following provisions shall apply in addition:

(i) Biontech shall grant to Sanofi: (a) an exclusive, transferable, worldwide license, with the right to sublicense (subject to Section 7.3.4 of the License Agreement), under the Biontech Background Technology in Schedule D of the License Agreement, Biontech's interest in the Joint Collaboration Technology (if any), Biontech Co-Development Technology and Biontech Foreground Technology to Develop, have Developed, make, have made, Commercialize and have Commercialized Licensed Product #1 in the Field;

and (b) a non-exclusive, transferable, worldwide license, with the rights to sublicense (subject to Section 7.3.4 of the License Agreement), under the Biontech Background Technology (to the extent not set out in Schedule D of the License Agreement) to Develop, have Developed, make, have made, Commercialize and have Commercialized Licensed Product #1 in the Field. For the avoidance of doubt, the foregoing licenses shall not limit Section 7.3 of the License Agreement, and shall not be affected by any termination of the License Agreement (whether in its entirety or with respect to a product). For the purposes of Section 7.3.4(a) of the License Agreement, the phrase "the rights granted to such Party pursuant to Section 7.3.1 to 7.3.3" shall be deemed to also include the rights granted to Sanofi under this Section 9.3.2(e)(i), and for the purposes of Section 7.3.4(b) of the License Agreement, the phrase "the rights granted to it under Section 7.3.1(b) or 7.3.2(b)" shall be deemed to also include rights granted to Sanofi under this Section 9.3.2(e)(i);

(ii) the licenses granted to Sanofi under Section 4.6 shall survive;

(iii) Biontech shall no longer have the right to co-Develop or co-Commercialize Licensed Product #1;

(iv) any milestones payable by Sanofi pursuant to Section 6 of the License Agreement with respect to Licensed Product #1 shall be reduced by [***] and any royalties payable by Sanofi pursuant to Section 6 of the License Agreement to the extent relating to the Net Sales of Licensed Product #1 shall be reduced by [***] and

(v) the events set out in Section 9.3.2(d)(i) to (iv) shall apply.

9.3.3 Survival. Upon the expiry or termination of this Agreement, the provisions of this Agreement shall no longer be of any force or effect, save for the following provisions which shall survive such expiry or termination: Sections 1, 2.6.1 (for the duration set out therein), 2.7 (first sentence), 4 (in accordance with Sections 4.14 and 9.3.2), 8.1, 9.3, 10 and 11 (including the Sections of the License Agreement as incorporated into this Agreement under Section 11.4).

10. Disclaimer of Warranties; Limitation of Liability

10.1 For the avoidance of doubt, the Co-Development Activities constitute Development to be conducted under the License Agreement, and accordingly the provisions of Section 9.3 of the License Agreement shall apply accordingly.

10.2 For the avoidance of doubt, Section 10.3 of the License Agreement shall also apply with respect to this Agreement.

11. General Provisions.

11.1 This Agreement shall be governed by the laws of Germany without reference to its conflict of laws provision. Any dispute arising out of this Agreement shall be constitute a dispute arising between the Parties in connection with the License Agreement, and accordingly Section 13.7 and the second, third and fourth sentences of Section 13.8 of the License Agreement shall apply to any such dispute, subject to Sections 2.8.5, 6.3 and 6.5.3.

11.2 This Agreement (including the Schedules to this Agreement), together with the License Agreement and the Clinical Supply Agreement, represent the entire understanding between the Parties with respect to the subject matter hereof and supersedes all previous oral or written communication or agreements, and all contemporaneous oral communication and agreements between the Parties. Each Party acknowledges and agrees that, if there is any conflict between any provision of this Agreement and any provision of the License Agreement or the Clinical Supply Agreement, such provision of this Agreement shall prevail to the extent of such conflict.

11.3 This Agreement many only be amended, modified or supplemented by the Parties in writing. The same applies to this Section 11.3.

11.4 Sections 13.1, 13.4, 13.5, 13.6, 13.9 and 13.10 of the License Agreement shall be incorporated by reference into this Agreement (and any reference to "this Agreement" in each such incorporated provision shall be construed as a reference to this Agreement).

COLLABORATION AGREEMENT

This Collaboration Agreement (the "**Agreement**") is made and entered into as of September 20, 2016 (the "**Execution Date**") by and between BioNTech RNA Pharmaceuticals GmbH, a limited liability company organized under the laws of Germany ("**RNP**") and BioNTech AG, a stock corporation organized under the laws of Germany ("**BNT**") (RNP and BNT collectively, "**BioNTech**"), and Genentech, Inc., a corporation organized under the laws of the State of Delaware ("**GNE**") and F. Hoffmann-La Roche Ltd, a corporation organized under the laws of Switzerland ("**Roche**") (GNE and Roche, collectively, "**Genentech**"). BioNTech and Genentech are sometimes referred to herein individually as a "**Party**" and collectively as the "**Parties**."

RECITALS

WHEREAS, BioNTech Controls certain intellectual property rights with respect to Pharmaceutical Products comprising one or more Neoepitope RNA(s) in the Territory;

WHEREAS, BioNTech and Genentech wish to conduct joint research activities, engage in a shared (50%:50%) co-development program, and conduct coordinated manufacturing activities, in each case to enable the commercialization of Collaboration Products in the Territory (each capitalized term as defined herein), and subject to certain exceptions set forth herein, wish to share (50%:50%) the profits and losses associated therewith;

WHEREAS, BioNTech and Genentech wish to enter into the Manufacturing Development and Supply Agreement as described herein and executed on the Execution Date; and

WHEREAS, BioNTech wishes to grant an exclusive license to Genentech, and Genentech wishes to take, an exclusive license under such intellectual property rights to Develop and commercialize Collaboration Products in the Territory, in each case in accordance with the terms and conditions set forth below.

NOW, THEREFORE, in consideration of the premises and the mutual promises and conditions hereinafter set forth, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound, do hereby agree as follows:

ARTICLE 1.
DEFINITIONS

Unless otherwise specifically provided herein, the following terms shall have the following meanings:

1.1 "**Accelerated Marketing Authorization**" means a Marketing Authorization other than a

Non-Accelerated Marketing Authorization.

1.2 "**Accounting Standards**" has the meaning set forth in Schedule 1.8.

1.3 "**Additional Jurisdictions**" has the meaning set forth in Section 10.3.1(c)(ii).

1.4 "**Adverse Ruling**" has the meaning set forth in Section 14.2.

1.5 "**Affiliate**" of a Party means any corporation or other business entity that, during the Term, directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with such Party. For purposes of this definition, the term "control" (including, the correlative meanings, "controlled by" and "under common control with") means (a) the direct or indirect ownership of more than fifty percent (50%) of (i) the stock or other equity interests having the right to vote for directors (supervisory, management or otherwise) thereof or (ii) any general partnership interests or (b) the ability to otherwise control the management and policies of such corporation or other business entity, whether through control of the decisions of the managing directors or of the board of directors, supervisory board or equivalent governing body thereof or otherwise. Notwithstanding the foregoing, for purposes of this Agreement, [***] and all business entities directly or indirectly controlled by [***], shall not be considered Affiliates of Genentech, unless and until GNE elects to include one or more of such business entities as an Affiliate of Genentech, by providing written notice to BioNTech of such election, (B) Ganymed Pharmaceuticals AG and all business entities directly or indirectly controlled by Ganymed shall not be considered an Affiliate of RNP or BNT, and (C) AT Impf GmbH, having its place of business at Rosenheimer Platz 6, 81669 Munich, Germany, and any person or entity that, during the Term, directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with AT Impf GmbH (other than BNT or any person or entity that is directly or indirectly controlled by BNT) shall not be considered an Affiliate of BNT.

1.6 "**Agreement**" has the meaning set forth in the preamble hereto.

1.7 "**Alliance Manager**" has the meaning set forth in Section 2.13.

1.8 "**Allowable Expenses**" has the meaning set forth in Schedule 1.8.

1.9 "**Ancillary Agreements**" means (a) the Manufacturing Development and Supply Agreement, the Commercial Manufacturing Agreement and the Quality Agreement(s), and any agreement that is entered into by the Parties or their respective Affiliates pursuant to such agreement, (b) any agreement that is entered into by the Parties or their respective Affiliates pursuant to this Agreement (e.g. the Co-Promotion Agreement or Pharmacovigilance Agreement) and (c) any agreement that is designated in writing by the Parties as an "Ancillary Agreement" to this Agreement.

1.10 "**Applicable Law**" means applicable laws, rules, and regulations, including any rules, regulations, guidelines, or other requirements of the Regulatory Authorities (including Compliance Requirements) that may be in effect from time to time.

1.11 "**Applicable Promotional Law**" means all Applicable Laws applicable to the marketing, promotion, distribution and sale of Co-Promotion Products, including (if applicable) the FFDCA, the American Medical Association Guidelines on Gifts to Physicians from Industry and the Pharmaceutical Research and Manufacturers of America ("PhRMA") Code on Interactions with Healthcare Professionals.

1.12 "**Arbitrator**" has the meaning set forth in Section 8.17.

1.13 "**Assignee**" has the meaning set forth in Section 10.2.2.

1.14 "**Assignor**" has the meaning set forth in Section 10.2.2.

1.15 "**Batch**" has the meaning set forth in the MDSA.

1.16 "**BioNTech**" has the meaning set forth in the preamble hereto.

1.17 "**BioNTech Co-Funding Rejection**" has the meaning set forth in Section 2.7.2(c).

1.18 "**BioNTech Collaboration Products**" means Collaboration Products being Developed by BioNTech in a BioNTech Indication pursuant to Section 4.5 or Commercialized under [***]; provided that Genentech has not paid a BioNTech Indication Opt-In Fee with respect to the applicable Indication. For clarity, in the event that Genentech pays a BioNTech Indication Opt-In Fee with respect to the applicable Indication, Collaboration Products with respect to such Indication shall be GDP Collaboration Products.

1.19 "[***]" has the meaning set forth in Schedule 1.8.

1.20 "**BioNTech Core Patents**" means the Patents listed on Schedule 1.20 and all Patents claiming priority thereto or claiming priority to a priority document thereof.

1.21 "**BioNTech Development and** [***] **Activities**" has the meaning set forth in Section 5.3.3.

1.22 "**BioNTech** [***]" has the meaning set forth in Section 5.3.1.

1.23 "**BioNTech Indication**" has the meaning set forth in Section 4.5.1.

1.24 "**BioNTech Indication Opt-In Fee**" has the meaning set forth in Section 8.3.

1.25 "**BioNTech Initial Knowledge Transfer Items**" has the meaning set forth in Section 2.19.1(a).

1.26 "**BioNTech IP**" means, collectively, BioNTech Know-How, BioNTech Patents, and BioNTech Core Patents.

1.27 "**BioNTech Know-How**" means any Neoepitope Prediction Algorithms, Neoepitope RNAs, any liposome formulations, components of product comprising one or more Neoepitope RNA(s) (including [***]) and all other Know-How, in each case, that (a) is Controlled by BioNTech or any of its Affiliates as of the Execution Date or at any time thereafter until the end of the Term; and (b) is necessary or useful to research, develop, manufacture, commercialize, make, have made, use, offer for [***]; *provided*, however, that BioNTech Know-How specifically excludes Collaboration Know-How.

1.28 "**BioNTech Opt-Out Period**" means the period commencing as of [***] and ending with [***]

1.29 "**BioNTech Patents**" means all Patents that (a) are Controlled by BioNTech or any of its Affiliates as of the Execution Date or at any time thereafter until the end of the Term; and (b) are necessary or useful to research, develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import Pharmaceutical Products that comprise (i) one or more Neoepitope RNA(s), [***] *provided*, however, that BioNTech Patents specifically exclude Collaboration Patents and BioNTech Core Patents.

1.30 "**BioNTech Platform Product**" means any product researched, developed or commercialized by BioNTech (in each case, whether directly or indirectly through a Third Party) that uses BioNTech IP and is substantially similar to any material aspect of the Collaboration Manufacturing Process such that a Regulatory Authority could reasonably require reporting of safety data from such product in connection with Collaboration Product. As of the Effective Date, such BioNTech Platform Products may include products researched, developed or commercialized by BioNTech pursuant to collaboration agreements with Bayer Animal Health GmbH and Sanofi.

1.31 "**BioNTech** [***]" has the meaning set forth in Section 5.1.

1.32 "**BioNTech Study**" has the meaning set forth in Section 4.5.1.

1.33 "**BioNTech Study Conduct Requirements**" has the meaning set forth in Section 4.5.2.

1.34 "**Biosamples**" means patient-specific normal (e.g., whole blood or peripheral blood mononuclear cells (PBMC)) and tumor tissue (fresh frozen (FF) or formalin-fixed, paraffin-embedded (FFPE) blocks) which are subsequently processed and sequenced to identify Neoepitopes.

1.35 "**BLA**" means Biologics License Application and amendments thereto filed pursuant to the requirements of the FDA, as defined in 21 C.F.R. § 600 *et seq*., for FDA approval of a biological Pharmaceutical Product as well as any foreign equivalent thereof.

1.36 "**Board of Directors**" has the meaning set forth in the definition of "**Change in Control**."

1.37 "**Breaching Party**" has the meaning set forth in Section 14.2.

1.38 "**Business Day**" means a day, other than a Saturday, Sunday or day on which commercial banks located in the United States or Germany are authorized or required by law or regulation to close.

1.39 "**Calendar Quarter**" means each successive period of three (3) calendar months commencing on January 1, April 1, July 1 and October 1, except that the first Calendar Quarter of the Term shall commence on the Effective Date and end on the day immediately prior to the first to occur of January 1, April 1, July 1 or October 1 after the Effective Date, and the last Calendar Quarter shall end on the last day of the Term.

1.40 "**Calendar Year**" means each successive period of twelve (12) calendar months commencing on January 1 and ending on December 31, except that the first Calendar Year of the Term shall commence on the Effective Date and end on December 31 of the year in which the Effective Date occurs and the last Calendar Year of the Term shall commence on January 1 of the year in which the Term ends and end on the last day of the Term.

1.41 "**Capacity**" has the meaning set forth in the MDSA.

1.42 "**Change in Control**" with respect to BNT or RNP, shall be deemed to have occurred if any of the following occurs after the Effective Date:

(a) any "person" or "group" (as such terms are defined below) (a) becomes the "beneficial owner" (as defined below), directly or indirectly, of shares of capital stock or other interests (including partnership interests) of such Party then outstanding and normally entitled (without regard to the occurrence of any contingency) to vote in the election of the directors, managers or similar supervisory positions ("**Voting Stock**") of such Party representing more than fifty percent (50%) of the total voting power of all outstanding classes of Voting Stock of such Party or (b) has the power, directly or indirectly, to appoint a majority of the Party's managing directors or to elect a majority of the members of the Party's board of directors, supervisory board or similar governing body ("**Board of Directors**"); or

(b) such Party enters into a merger, consolidation or similar transaction with another Person (whether or not such Party is the surviving entity) and as a result of such merger, consolidation or similar transaction (a) the managing directors or the members of the Board of Directors of such Party immediately prior to such transaction constitute less than a majority of the managing directors or the members of the Board of Directors of such Party or such surviving Person immediately following such transaction or (b) the Persons that beneficially owned, directly or indirectly, the shares of Voting Stock of such Party immediately prior to such transaction cease to beneficially own, directly or indirectly, shares of Voting Stock of such Party representing a majority of the total voting power of all outstanding classes of Voting Stock of the surviving Person in substantially the same proportions as their ownership of Voting Stock of such Party immediately prior to such transaction; or

(c) such Party sells or transfers to any Third Party, in one or more related transactions, properties or assets representing all or substantially all of such Party's consolidated total assets to which this Agreement relates; or

(d) the managing directors, Board of Directors or the holders of capital stock of such Party approve a plan or proposal for the liquidation or dissolution of such Party.

Notwithstanding the foregoing, the occurrence of neither of the following shall, by itself, be considered a Change in Control, in each case if entered into in the ordinary course of business and not for the purpose or effect of circumventing any other Party's rights hereunder: (a) the sale of capital stock of such Party in an initial public offering on an internationally recognized securities exchange, including the NYSE, NASDAQ, London Stock Exchange and Frankfurt Stock Exchange, and (b) the sale of capital stock of such Party to a Financial Party in a capital-raising financing transaction, e.g. private placement or similar transaction, so long as following such financing transaction no Person other than an existing shareholder of BNT or RNP (as set forth on Schedule 1.42) or a Financial Party (individually or collectively as a member of any "group") has the power, directly or indirectly, to elect a majority of the members of the Board of Directors.

For the purpose of this definition of Change in Control, (x) "person" and "group" have the meanings given such terms under Section 13(d) and 14(d) of the United States Securities Exchange Act of 1934 and the term "group" includes any group acting for the purpose of acquiring, holding or disposing of securities within the meaning of Rule 13d-5(b)(1) under the said Act; (y) a "beneficial owner" shall be determined in accordance with Rule 13d-3 under the aforesaid Act; and (z) the terms "beneficially owned" and "beneficially own" shall have meanings correlative to that of "beneficial owner."

1.43 "**Change in Control Firewall**" has the meaning set forth in Schedule 1.43.

1.44 [***]

1.45 [***]

1.46 [***] **Change in Control**" means any Change in Control that [***]

1.47 [***] **Firewall**" has the meaning set forth in Schedule 1.43.

1.48 "**Class of Agents**" means all Pharmaceutical Products that [***]

1.49 "**Clinical Data**" means with respect to any Collaboration Product and any other drug included in the applicable Clinical Study, all Information that is generated pursuant to a clinical study under this Agreement [***]

1.50 "**Clinical Development Decisions**" means all clinical Development decisions [***]

1.51 "**Clinical Facility**" has the meaning set forth in the MDSA.

1.52 "**Clinical Manufacture**" has the meaning set forth in the MDSA

1.53 "**Clinical Studies**" means any and all tests and studies in human subjects that are required by Applicable Law, or otherwise requested or recommended by the Regulatory Authorities, to obtain or maintain Regulatory Approvals for a Collaboration Product for an Indication, including Post-Approval Commitments and tests or studies that are intended to expand the Product Labeling for such Collaboration Product with respect to such Indication, together with Marketing Studies.

1.54 "**CMC**" means Chemistry, Manufacturing, and Control.

1.55 "**CMC Development Costs**" has the meaning set forth in Schedule 1.8.

1.56 "**CMC Development Plan**" has the meaning set forth in the Manufacturing Development and Supply Agreement.

1.57 "**Code**" means the Internal Revenue Code of 1986, as amended.

1.58 "**Collaboration IP**" means Collaboration Patents and Collaboration Know-How.

1.59 "**Collaboration Know-How**" means any Know-How that is discovered, generated, conceived or reduced to practice by a Party (or any authorized Third Party acting on a Party's behalf) solely or jointly in the course of [***] (other than, in each case [***], Genentech Molecule Clinical Study Data).

1.60 "**Collaboration Patents**" means Patents that claim any Collaboration Know-How.

1.61 "**Collaboration Product**" means [***]

1.62 "**Collaboration Product Clinical Study Data**" means all Clinical Data that is related to the use in a Clinical Study of a Collaboration Product alone or in combination with one or more Combination Agents but shall exclude Genentech Molecule Clinical Study Data.

1.63 "**Collaboration Term**" means the period from the Effective Date until such time as there is no Collaboration Product being Developed, Manufactured or Commercialized in the Territory.

1.64 "**Combination Agent**" means a Pharmaceutical Product that is proposed for Development or being Developed, or has received Regulatory Approval (i.e., under this Agreement) for use in combination with a Collaboration Product, whether or not co-formulated.

1.65 "**Commercial Facility**" has the meaning set forth in the MDSA.

1.66 "**Commercial Manufacture**" has the meaning set forth in the MDSA.

1.67 "**Commercial Manufacturing Agreement**" has the meaning set forth in the MDSA.

1.68 "**Commercial Readiness**" means the point in time, prior to [***], at which Genentech seeks to ensure readiness for market launch of such Collaboration Product [***] in accordance with [***]

1.69 "**Commercialization**" means any and all activities directed to the preparation for sale of, offering for sale of, or sale of a Collaboration Product, including activities related to marketing, promoting, distributing, and importing such Collaboration Product. When used as a verb, "**to Commercialize**" and "**Commercializing**" means to engage in Commercialization, and "**Commercialized**" has a corresponding meaning.

1.70 "**Commercialization Plan**" has the meaning set forth in Section 2.9.2(b).

1.71 "**Commercially Reasonable Efforts**" means, with respect to the performance of Development, Commercialization or Manufacturing activities with respect to a Collaboration Product or the performance of activities with respect to the Research Plan, the carrying out of such activities using efforts and resources comparable to the efforts and resources that such Party would typically devote [***]

1.72 "**Commissioning**" has the meaning set forth in the MDSA.

1.73 "**Committees**" has the meaning set forth in Section 2.1.

1.74 "**Committee**

Co-Chair" has the meaning set forth in Section 2.2.

1.75 "**Competing Program**" means any program described in clause (a) or clause (b)(i) of the definition of [***]

1.76 "**Competitive Product**" means [***]

1.77 "**Competitive Product Infringement**" has the meaning set forth in Section 10.5.2(b)(ii).

1.78 "**Compliance Requirements**" has the meaning set forth in the MDSA.

1.79 "**Compulsory Sublicense**" means a license or sublicense granted to a Third Party (a "**Compulsory Sublicensee**") through the order, decree or grant of a governmental authority having competent jurisdiction, authorizing such Third Party to Manufacture, use, sell, offer for sale, import or export a Collaboration Product in any country in the Territory.

1.80 "**Conduct**" means, with respect to any Clinical Study, to (a) sponsor or conduct, directly or indirectly through an Affiliate or Third Party, such Clinical Study; or (b) provide to an Affiliate or Third Party funding for, or clinical supplies for use in, such Clinical Study.

1.81 "**Confidential Information**" has the meaning set forth in Section 11.1.

1.82 "**Confidentiality Agreements**" means the following agreements: (a) that certain Non-Disclosure Agreement between BNT and Roche, dated June 1, 2014 and (b) that certain Letter between BNT and GNE, dated March 13, 2015, as amended May 7, 2015.

1.83 "**Consensus Clinical Studies**" has the meaning set forth in Section 2.7.2.

1.84 "**Control**" or "**Controlled**" means the (a) with respect to Know-How, Patents and Regulatory Documentation or other intellectual property rights, possession by a Party (whether directly or indirectly and whether by ownership, license or otherwise) (other than by operation of the license and other grants in Article 9) of, (1) with respect to any tangible Know-How, the legal authority or right to physical possession of such tangible Know-How, with the right to provide such tangible Know-How to the other Party on the terms and conditions set forth herein, or (2) with respect to Patents, intangible Know-How, Regulatory Documentation or other intellectual property rights, the legal authority or right to grant a license, sublicense, access or right to use (as applicable) (including the right to reference Regulatory Documentation) under such Patents, intangible Know-How, Regulatory Documentation or other intellectual property rights to the other Party on the terms and conditions set forth herein, in each case of (1) and (2) without breaching the terms of any agreement with a Third Party, or (b) with respect to any product or agent, the exclusive right (whether by ownership or exclusive license) to develop and commercialize such product or agent in any Major Market.

1.85 "**Controlling Litigation Party**" has the meaning set forth in Section 10.5.4.

1.86 "**Controlling Party**" has the meaning set forth in Section 10.3.2.

1.87 "**Co-Promote**" or "**Co-Promotion**" has the meaning set forth in Section 6.5.4.

1.88 "**Co-Promotion Agreement**" has the meaning set forth in Section 6.5.3.

1.89 "**Co-Promotion Candidate Product**" means a GDP Collaboration Product (other than a GDP Collaboration Product with respect to which a BioNTech Co-Funding Rejection has occurred) for which [***] there are, at the Effective Date, [***]

1.90 "**Co-Promotion Exercise Period**" means, with respect to a Co-Promotion Candidate Product [***], the period beginning on [***] and ending [***] in accordance with Section 6.5.2(a).

1.91 “**Co-Promotion Option**” has the meaning set forth in Section 6.5.1.

1.92 "**Co-Promotion Potential Territory**" means the Major Markets [***]

1.93 "**Co-Promotion Product**" has the meaning set forth in Section 6.5.2.

1.94 "**Co-Promotion Territory**" has the meaning set forth in Section 6.5.1.

1.95 "**Copyleft Software**" has the meaning set forth in Section 12.2.1(k).

1.96 "**Core Facility**" has the meaning set forth in the MDSA.

1.97 "**Corporate Names**" means the Trademarks and logos identified on Schedule 1.97 and such other names and logos as BioNTech or Genentech may designate in writing from time to time.

1.98 "**Course of Therapy**" means [***]

1.99 "**Covered by**" or "**Covers**," or the like, means, with respect to a given product (including a Collaboration Product), that the sale, offer for sale or import of such product (including a Collaboration Product), but for ownership of, or a license granted in this Agreement under, the relevant Patent would infringe a Valid Claim of such Patent in the country of sale on the date of sale.

1.100 "**CREATE Act**" has the meaning set forth in Section 10.2.4.

1.101 "**Declined BioNTech Core Patent**" has the meaning set forth in Section 10.5.2(b)(iv).

1.102 "**Deemed Opt-Out**" has the meaning set forth in Section 8.5.3.

1.103 "**Default Notice**" has the meaning set forth in Section 14.2.

1.104 "**Defend**" or "**Defense**" has the meaning set forth in Section 10.5.3.

1.105 "**Defending Party**" has the meaning set forth in Section 10.5.3.

1.106 "**Deferral Period**" has the meaning set forth in Section 8.2.2(a).

1.107 "**Detail**" means, with respect to a Co-Promotion Product in the Co-Promotion Territory, a face-to-face sales call in which the sales representative makes a presentation of such Co-Promotion Product to a physician or other medical professional licensed to prescribe drugs, such that the relevant characteristics of such Co-Promotion

Product are described by the sales representative in a fair and balanced manner consistent with the requirements of this Agreement, the Co-Promotion Agreement and Applicable Promotional Law and in a manner that is customary in the industry for the purpose of promoting a prescription Pharmaceutical Product. When used as a verb, "**Detail**" means to engage in a Detail.

1.108 "**Development**" means all activities related to preclinical and other non-clinical testing, test method development and stability testing, toxicology, formulation, process development, manufacturing scale-up, qualification and validation, quality assurance/quality control, clinical studies (including Clinical Studies), manufacturing (including Manufacturing) in support thereof, statistical analysis and report writing, the preparation and submission of Drug Approval Applications, regulatory affairs with respect to the foregoing and all other activities necessary or reasonably useful or otherwise requested or required by a Regulatory Authority as a condition or in support of obtaining or maintaining a Regulatory Approval for a Collaboration Product. When used as a verb, "**Develop**" means to engage in Development.

1.109 "**Development Costs**" has the meaning set forth in Schedule 1.8.

1.110 "[***] **IP**" has the meaning set forth in 10.6.3.

1.111 [***]

1.112 "**Disclosing Party**" has the meaning set forth in Section 11.1.

1.113 "**Disclosure**" has the meaning set forth in Section 11.4.

1.114 "**Dispute**" or the like, means any controversy, claim or legal proceeding arising out of or relating to this Agreement, or the breach, termination or invalidity thereof. Notwithstanding the foregoing, Disputes shall not include any disagreements solely about decisions for which one Party has final decision-making authority under this Agreement, including under Article 2.

1.115 [***] has the meaning set forth in Section 5.3.2(a).

1.116 "**Dollars**" or "**$**" means United States Dollars.

1.117 "**Drug Approval Application**" means a New Drug Application or BLA as defined in the FFDCA or PHSA, or any corresponding foreign application in the Territory, including, with respect to the European Union, a Marketing Authorization Application filed with the EMA pursuant to the centralized approval procedure or with the applicable Regulatory Authority of a country in Europe with respect to the mutual recognition or any other national approval procedure.

1.118 "**Effective Date**" has the meaning set forth in Section 14.1.2.

1.119 "**EMA**" means the European Medicines Agency and any successor agency thereto.

1.120 "**Enforce**" or "**Enforcement**" has the meaning set forth in Section 10.5.2(a).

1.121 "**Engineering Runs**" has the meaning set forth in the MDSA.

1.122 "**EUFETS**" means EUFETS GmbH.

1.123 "**EUFETS Facility**" has the meaning set forth in the MDSA.

1.124 "**EURIBOR**" means the Euro Interbank Offered Rate for deposits in Euros having a maturity of one month published by the European Money Markets Institute, as adjusted from time to time on the first business day of each month.

1.125 "**European Union**" or "**EU**" means the economic and political union of the countries of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, the United Kingdom and any additional countries that may subsequently become members thereof (irrespective of whether such countries remain in such union). For purposes of this Agreement, Switzerland, Norway and the United Kingdom shall be deemed included within the definition of "European Union."

1.126 "**Exchange**" has the meaning set forth in Section 11.4.

1.127 "**Exclusivity Period**" has the meaning set forth in Section 9.7.

1.128 "**Execution Date**" has the meaning set forth in the preamble hereto.

1.129 "**Existing BioNTech Product**" means a product described in the clinical trial protocols for the Ongoing Clinical Studies identified in Schedule 4.3.1, as such protocols were provided by BioNTech to Genentech prior to the Execution Date.

1.130 "**Existing** [***] **Product**" has the meaning set forth in Section 15.2.2(b).

1.131 "**Existing Third Party In-License Agreements**" has the meaning set forth in Section 12.2.2(a).

1.132 "**Existing Third Party In-License Agreement Royalty Payments**" means the royalty payments owed based on the sales of Collaboration Products under the Existing Third Party In-License Agreements set forth in Schedule 1.132.

1.133 "**Exploit**" means to make, have made, import, use, sell, or offer for sale a Collaboration Product, including to research, Develop, Commercialize, register, Manufacture, have Manufactured, hold, or keep (whether for disposal or otherwise), have used, export, transport, distribute, promote, market, or have sold or otherwise dispose of such Collaboration Product.

1.134 "**Exploitation**" means the act of Exploiting a Collaboration Product.

1.135 "**Ex-U.S. Territory Activities**" has the meaning set forth in Section 8.13.2.

1.136 "**Facility**" has the meaning set forth in the MDSA.

1.137 "**FDA**" means the United States Food and Drug Administration and any successor agency thereto.

1.138 "**FFDCA**" means the United States Federal Food, Drug, and Cosmetic Act, as amended from time to time, together with any rules, regulations and requirements promulgated thereunder (including all additions, supplements, extensions, and modifications thereto).

1.139 "**Field**" means all uses.

1.140 "**Financial Party**" means a private equity firm, investment fund, pension fund or venture capital fund that in each case does not, directly or indirectly, except through a passive investment interest, operate a business other than the investment or portfolio management business including any venture capital arm of a pharmaceutical or biotechnology company or group provided that such venture capital arm of a pharmaceutical or biotechnology company or group has implemented and continues to maintain and comply with written procedures to prevent disclosure to and use by those parts of the pharmaceutical or biotechnology company or group which are active in the research, development, manufacture or commercialization of Pharmaceutical Products of: (a) Collaboration Product Clinical Study Data, (b) the GDP (other than a high level summary of status and results), (c) the Neoepitope Prediction Algorithm, (d) any Confidential Information of Genentech, or (e) Genentech Know-How.

1.141 "**First Commercial Sale**" means, with respect to a Collaboration Product or Reversion Product and a country (or the Territory, as applicable), the first invoiced sale for monetary value for use or consumption by the end user of such Collaboration Product or Reversion Product in such country (or the Territory) after Regulatory Approval for such Collaboration Product or Reversion Product has been obtained in such country (or the Territory). Sales prior to receipt of Regulatory Approval for such Collaboration Product or Reversion Product, such as so-called "treatment IND sales," "named patient sales," and "compassionate use sales," shall not be construed as a First Commercial Sale.

1.142 [***]

1.143 [***]

1.144 "**Frontline Indication**" means an Indication for use of a Collaboration Product as a first-line therapy or component of such therapy.

1.145 "**FTE**" means the equivalent of the work of one (1) employee full time for one (1) Calendar Year (consisting of at least a total of eighteen hundred (1800) hours per Calendar Year) of work directly related to the applicable activity.

1.146 "**FTE Costs**" means, [***]

1.147 "**FTE Rate**" means [***]

1.148 "**Fully-Burdened Manufacturing Cost**" has the meaning set forth in Schedule 1.8.

1.149 "**Future Acquirer**" means the Third Party to any Change in Control transaction and such Third Party's Affiliates immediately prior to the Change in Control.

1.150 "**GDP Budget**" means the forecasted annual budget for the Development Activities under the GDP, which budget shall be for informational purposes only, and therefore non-binding on the Parties. The current non-binding estimate of the GDP Budget for 2016 and forecasts for the years from 2017 to 2019 are set forth in Schedule 1.150, for informational purposes only.

1.151 "**GDP Collaboration Product**" means a Collaboration Product Developed under the GDP or with respect to which a BioNTech Indication Opt-In Fee or a Genentech Indication Co-Funding Fee, as applicable, is due or paid.

1.152 "**GDP Indication**" means any Indication that has been, is being or will be Developed under the GDP.

1.153 "**Genentech**" has the meaning set forth in the preamble hereto.

1.154 "**Genentech Agent**" means any Pharmaceutical Product Controlled by Genentech, an Affiliate of Genentech or a Third Party Collaborator (to the extent the collaboration by Genentech or its Affiliates with such Third Party Collaborator relates to such Genentech Agent).

1.155 "**Genentech Collaboration Product**" has the meaning set forth in Section 2.7.2(c).

1.156 "**Genentech Core Patents**" means the Patents listed on Schedule 1.156, and all Patents claiming priority thereto or claiming priority to a priority document thereof.

1.157 "**Genentech Indication**" has the meaning set forth in Section 2.7.2(c).

1.158 "**Genentech Indication Co-Funding Fee**" has the meaning set forth in Section 8.3.

1.159 "**Genentech IP**" means, collectively, Genentech Know-How, Genentech Patents, and Genentech Core Patents.

1.160 "**Genentech Know-How**" means any Neoepitope Prediction Algorithms and any other Know-How, in each case, that is either (a) both (i) Controlled by GNE as of the Execution Date or at any time thereafter until the end of the Term; and (ii) necessary or useful to research, develop, commercialize, make, have made, use, offer for sale, sell and import Pharmaceutical Products that comprise (A) one or more Neoepitope RNA(s), but not any Non-Neoepitope RNA(s) or (B) one or more Permitted Hybrid Neoepitope RNA(s), but not any Non-Neoepitope RNA(s) or (b) Controlled by Roche as of the Effective

Date or during the Term and used or disclosed to BioNTech in the performance of the Research Plan, GDP or CMC Development Plan; *provided*, however, that Genentech Know-How specifically excludes Collaboration Know-How.

1.161 "**Genentech Marketing Authorization**" has the meaning set forth in Section 5.1.

1.162 "**Genentech Molecule Clinical Study Data**" means all Clinical Data related [***]

1.163 "**Genentech**

Opt-In Period" has meaning set forth in Section 4.5.5(a).

1.164 "**Genentech Patents**" means all Patents that (a) are Controlled by Genentech as of the Execution Date or at any time thereafter until the end of the Term; (b) [***]; and (c) Cover Genentech

Know-How; *provided*, however, that Genentech Patents specifically exclude Collaboration Patents and Genentech Core Patents.

1.165 "**Genentech Reversion IP**" means Genentech IP other than Diagnostics IP that both (a) was actually used or generated by Genentech with respect to a Termination Product, and (b) is necessary to continue Development, Manufacture or Commercialization without unreasonable delay of such Termination Product.

1.166 "**Genentech Study**" has the meaning set forth in Section 2.7.2(c).

1.167 "**Genentech Tumor Type**" means any of the tumor types set forth on Schedule 1.167, subject to Section 4.5.3, and subject to any replacement tumor type that Genentech may elect through written notice to BioNTech at any time prior to the Trigger Point (provided that at the time of such replacement notice such replacement tumor type is not part of a BioNTech Indication), to exchange for any then-current Genentech Tumor Type.

1.168 "**Global Development Plan**" or "**GDP**" means a Development plan setting forth in reasonable detail specific Clinical Studies and other Party Development Activities to be performed with respect to GDP Collaboration Product(s), which plan shall allocate responsibility for such Clinical Studies and Party Development Activities between the Parties.

1.169 "**Good Clinical Practices**" or "**cGCPs**" has the meaning set forth in the MDSA.

1.170 "**Good Laboratory Practices**" or "**cGLPs**" has the meaning set forth in the MDSA.

1.171 "**Good Manufacturing Practices**" or "**cGMPs**" has the meaning set forth in the MDSA.

1.172 "**Governmental Authority**" means any U.S. federal, state, local, or any

non-U.S. government, governmental, regulatory or administrative authority, agency or commission or any court, tribunal, or judicial or arbitral body.

1.173 "**GTT Proposed Study**" has the meaning set forth in Section 4.5.3.

1.174 "**HSR Act**" means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended.

1.175 "**HSR Filing**" has the meaning set forth in Section 14.1.1.

1.176 "[***]

1.177 "**IFRS**" means International Financial Reporting Standards.

1.178 "**IND**" means (a) in the United States (i) an investigational new drug application filed with the FDA for authorization to conduct Clinical Studies and (ii) all supplements and amendments that may be filed with respect to the foregoing; and (b) any foreign counterpart of the foregoing.

1.179 "**Indemnification Claim Notice**" has the meaning set forth in Section 13.4.

1.180 "**Indemnified Party**" has the meaning set forth in Section 13.4.

1.181 "**Independent Facility**" has the meaning set forth in the MDSA.

1.182 "**Indication**" means the therapeutic indication for use defined in the applicable IND or any Marketing Authorization for a Collaboration Product. [***]

1.183 "**Indication Studies**" has the meaning set forth in Section 4.5.1.

1.184 "**Information**" means all technical, scientific, and other know-how and information, trade secrets, knowledge, technology, means, methods, processes, practices, formulae, instructions, skills, techniques, procedures, experiences, ideas, technical assistance, designs, drawings, assembly procedures, computer programs, apparatuses, specifications, data, results and other material, including: biological, chemical, pharmacological, toxicological, pharmaceutical, physical and analytical, preclinical, clinical, safety, manufacturing and quality control data and information, including study designs and protocols; Regulatory Authority documentation, correspondence and communications (oral or written); and analytical assays and test methods; in each case (whether or not confidential, proprietary, patented or patentable) in written, electronic or any other form now known or hereafter developed.

1.185 "**Infringement**" has the meaning set forth in Section 10.5.1(a).

1.186 "**Initiation**" or "**Initiate**" means, with respect to a Clinical Study, the first dosing of the first human subject in such Clinical Study.

1.187 "**IVAC 2.0 Process**" has the meaning set forth in the MDSA.

1.188 "**IVAC 2.1 Process**" has the meaning set forth in the MDSA.

1.189 "**IVAC x.y Process**" has the meaning set forth in the MDSA.

1.190 "**IVAC Trademark**" means the mark described in Schedule 1.190.

1.191 "**Joint Commercialization Committee**" or "**JCC**" has the meaning set forth in Section 2.1.

1.192 "**Joint Confidential Information**" has the meaning set forth in Section 11.1.

1.193 "**Joint Development Activities**" has the meaning set forth in Section 4.4.1.

1.194 "**Joint Development Committee**" or "**JDC**" has the meaning set forth in Section 2.1.

1.195 "**Joint Manufacturing Committee**" or "**JMC**" has the meaning set forth in Section 2.1.

1.196 "**Joint Research Committee**" or "**JRC**" has the meaning set forth in Section 2.1.

1.197 "**Key Jurisdictions**" has the meaning set forth in Section 10.3.1(c)(i)

1.198 "**Know-How**" means any Information, ideas, data, inventions, works of authorship, trade secrets, [***], technology, or materials, including formulations [***], molecules (including RNAs), assays, reagents, reference standards, compositions, human or animal tissue, samples or specimens, techniques, methods, procedures, processes, results, model designs and data bases, test data (including pharmacological, toxicological, immune monitoring, sequencing, pharmacokinetic and preclinical and clinical information and test data, and statistical analysis) and components thereof.

1.199 "**Licensure**" has the meaning set forth in the MDSA.

1.200 "**Losses**" has the meaning set forth in Section 13.1.

1.201 "**Major Markets**" means the United States, Germany, the United Kingdom, France, Italy and Spain.

1.202 "**Major Regulatory Filing**" has the meaning set forth in Section 5.4.3.

1.203 "**Major Regulatory Jurisdictions**" has the meaning set forth in Section 5.4.3.

1.204 "**Manufacture**" and "**Manufacturing**" has the meaning set forth in the MDSA.

1.205 "**Manufacturing Development and Supply Agreement**" or "**MDSA**" has the meaning set forth in Section 7.1.

1.206 "**Manufacturing Documentation**" has the meaning set forth in the MDSA.

1.207 "**Manufacturing Network**" has the meaning set forth in the MDSA.

1.208 "**Manufacturing Network Plan**" has the meaning set forth in the MDSA.

1.209 "**Manufacturing Operations Strategy**" has the meaning set forth in the MDSA.

1.210 "**Manufacturing Process**" has the meaning set forth in the MDSA.

1.211 "**Marketing Authorization**" means regulatory approval (whether a Non-Accelerated Marketing Authorization or an Accelerated Marketing Authorization) [***] required to sell one or more Collaboration Products for any Indication in accordance with the Applicable Laws of a given country or territory. [***]

1.212 "**Marketing Study**" means a human clinical study of a Collaboration Product conducted following Initiation of a Pivotal Study for such Collaboration Product that is not required for receipt of Marketing Authorization (whether such human clinical study is conducted prior to or after receipt of such Marketing Authorization) and is not a Post-Approval Commitment, but that may be useful in support of the post-Marketing Authorization Exploitation of such Collaboration Product.

1.213 "**Markings**" has the meaning set forth in Section 6.4.2.

1.214 [***]

1.215 "**Mechanical Completion**" has the meaning set forth in the MDSA.

1.216 "**Medical Affairs Activities**" means, with respect to any country in the Territory, the coordination of medical information requests and field based medical scientific liaisons with respect to Collaboration Products, including activities of medical scientific liaisons, activities involving key opinion leaders, and the provision of medical information services with respect to a Collaboration Product.

1.217 "**Melanoma Follow-Up Study**" has the meaning set forth in Section 4.3.2(a).

1.218 "**Neoepitope(s)**" means an epitope of a polypeptide arising in a tumor cell, where the epitope comprises a polypeptide that reflects: (a) a non-inherited DNA mutation, (b) a tumor specific RNA sequence alteration, or (c) an alternative tumor-specific translation start site in the tumor cell [***]

1.219 "**Neoepitope Prediction Algorithm**" means a methodology of predicting Neoepitopes based on Patient Sequencing, including algorithms, designs, structures, features, functions, processes, and systems, and the underlying software programs (including libraries, databases, scripts, object and source code) ("**Neoepitope Prediction Software**"), and any other related Know-How necessary or useful to use, develop, reproduce, prepare derivative works, distribute, display and perform any of the Neoepitope Prediction Software, and all intellectual property rights other than Patents in any of the foregoing.

1.220 "**Neoepitope Prediction Software**" has the meaning set forth in Section 1.219.

1.221 "**Neoepitope RNA(s)**" means a single stranded nucleic acid polymer comprising one or more ribose sugars that is capable of being translated into a polypeptide and encoding one or more Neoepitope(s) [***]

1.222 "**Net Profits**" and "**Net Losses**" have the meaning set forth in Schedule 1.8.

1.223 "**Net Sales**" has the meaning set forth in Schedule 1.8.

1.224 "**New Partnership Audit Procedures**" means the amendments to the Code that were enacted as section 1101 of the Bipartisan Budget Act of 2015, P.L. 114-74.

1.225 "**Next Generation Sequencing**" or "**NGS**" means non-Sanger-based whole exome high-throughput nucleic acid sequencing technology to be used in the Manufacturing Process to identify Neoepitopes.

1.226 "**Non-Accelerated Marketing Authorization**" means a Marketing Authorization other than one obtained pursuant to an accelerated approval procedure under 21 C.F.R. part 314, subpart H, 21 C.F.R. part 601, subpart E, or FFDCA section 506 or any foreign equivalents thereof.

1.227 "**Non-Breaching Party**" has the meaning set forth in Section 14.2.

1.228 "**Non-Controlling Party**" has the meaning set forth in Section 10.3.2.

1.229 [***]

1.230 [***]

1.231 [***]

1.232 "**Ongoing Clinical Studies**" has the meaning set forth in Section 4.3.1.

1.233 "**Ongoing Knowledge Transfer**" has the meaning set forth in Section 2.19.2(c).

1.234 "**Operational Readiness**" has the meaning set forth in the MDSA.

1.235 "

Opt-In Right" has the meaning set forth in Section 4.5.5(a).

1.236 "

Opt-Out" has the meaning set forth in Section 8.5.1.

1.237 "**Opt-Out Commencement Date**" has the meaning set forth in Section 8.5.1.

1.238 "**Outside Patent Litigation Counsel**" has the meaning set forth in Section 10.5.4.

1.239 "**Outside Patent Prosecution Counsel**" has the meaning set forth in Section 10.3.2.

1.240 "**Party**" and "**Parties**" has the meaning set forth in the preamble hereto.

1.241 "**Party Development Activities**" means Development activities conducted in support of obtaining or maintaining Regulatory Approval of a Collaboration Product in a country in the Territory (other than research activities under the Research Plan), including Joint Development Activities, CMC Development Plan activities, Ongoing Clinical Studies, BioNTech Studies, Genentech Studies and any Post-Approval Commitments and Marketing Studies.

1.242 "**Patents**" means all patents and patent applications in any country in the world, including any continuations, continuations-in-part, divisions, provisionals or any substitute applications, any patent issued with respect to any such patent applications, any reissue, reexamination, renewal or extension (including any supplemental protection certificate) of any such patent, and any confirmation patent or registration patent or patent of addition based on any such patent, and all non-United States counterparts of any of the foregoing.

1.243 "**Patient Sequencing**" means the identification of nucleotide or amino acid sequence, including through the use of Next Generation Sequencing, based upon a Biosample collected from a patient.

1.244 "**Payee**" has the meaning set forth in Section 8.11.2.

1.245 "**Payor**" has the meaning set forth in Section 8.11.2.

1.246 [***]

1.247 [***]

1.248 [***]

1.249 "**Person**" means an individual, sole proprietorship, partnership, limited partnership, limited liability partnership, corporation, limited liability company, business trust, joint stock company, trust, unincorporated association, joint venture or other similar entity or organization, including a government or political subdivision, department or agency of a government.

1.250 [***]

1.251 "**Pharmaceutical Product**" means any medicament that is developed to treat, cure or prevent a disease in humans and is subject to approval by a Regulatory Authority.

1.252 "**Pharmacovigilance Agreement**" has the meaning set forth in Section 5.8.

1.253 "**Phase I Clinical Study**" means a Clinical Study, the principal purpose of which is a preliminary determination of safety in healthy individuals or patients or similar Clinical Study prescribed by the Regulatory Authorities, including the trials referred to in 21 C.F.R. §312.21(a), as amended.

1.254 "**PHSA**" means the United States Public Health Service Act, as amended from time to time.

1.255 "**Pilot Facility**" has the meaning set forth in the MDSA.

1.256 "**Pivotal Study**" means a Clinical Study of a Collaboration Product that is designed to demonstrate, along with previously conducted studies, substantial evidence of its effectiveness and provide sufficient information to determine whether it is safe, pure and potent for use under conditions prescribed, recommended, or suggested in proposed labeling to obtain a Marketing Authorization (including an Accelerated Marketing Authorization) of such Collaboration Product, including all tests and studies that are required by the FDA or any other Regulatory Authority from time to time, pursuant to Applicable Law or otherwise.

1.257 "**Post-Approval Commitment**" means a human Clinical Study for a Collaboration Product conducted after Marketing Authorization of such Collaboration Product has been obtained from an appropriate Regulatory Authority due to a request or requirement of such Regulatory Authority.

1.258 "**Post-Term License Notice**" has the meaning set forth in Section 14.5.4.

1.259 "**Preclinically Developing**" means, [***]

1.260 "**Product Labeling**" means, with respect to a Collaboration Product in a country in the Territory, (a) the Regulatory Authority-approved prescribing information for such Collaboration Product for such country, including any required patient information, and (b) all labels and other written, printed, or graphic matter upon a container, wrapper, or any package insert utilized with or for such Collaboration Product in such country.

1.261 "**Product Trademarks**" means the Trademark(s) to be used for the Commercialization of Collaboration Products in the Territory and any registrations thereof or any pending applications relating thereto in the Territory (excluding, in any event, the Corporate Names and any trademarks, service marks, names or logos that include any corporate name or logo of the Parties or their Affiliates).

1.262 "**Proposed Study(ies)**" has the meaning set forth in Section 4.5.1.

1.263 "**Prosecution and Maintenance**" or "**Prosecute and Maintain**," with respect to a given Patent, means all activities associated with the preparation, filing, prosecution, and maintenance of such Patent, as well as supplemental examinations, re-examinations, reissues, applications for patent term extensions, calculation and applications for patent term adjustments, supplementary protection certificates, and the like with respect to such Patent. In addition, Prosecute and Maintain shall include any actions associated with obtaining additional patent protection of the disclosure of a given Patent following a notice of allowance of such Patent or keeping a patent application pending for strategic reasons (e.g. through the filing of continuation applications, continuation-in-part applications, divisional applications or other substitute applications). For clarity, Prosecute and Maintain shall not include any such actions with respect to a Patent brought by a Third Party, including any reexaminations, inter partes reviews, and post grant reviews, as well as interferences and derivation proceedings, oppositions and other similar proceedings brought by a Third Party with respect to such Patent.

1.264 "**Publication Plan**" means a [***] overall scientific communication and publication plan developed each year by the Joint Research Team and the Joint Development Team and approved by the Joint Research Committee and the Joint Development Committee, that sets forth, for such year, [***]

1.265 [***]

1.266 [***]

1.267 "**Qualification Batch**" has the meaning set forth in the MDSA.

1.268 "**Quality Agreement**" has the meaning set forth in the MDSA.

1.269 "**Receiving Party**" has the meaning set forth in Section 11.1.

1.270 "**Regulatory Approval**" means, with respect to a country in the Territory, any and all approvals (including Investigational New Drug Applications ("**INDs**") or Drug Approval Applications), licenses, registrations, or authorizations of any Regulatory Authority necessary to Manufacture, use, store, import, transport, commercially distribute, sell, or market in such country a Collaboration Product including, where applicable, (a) pricing or reimbursement approval in such country, (b) post-approval marketing authorizations (including any prerequisite Manufacturing approval or authorization related thereto), and (c) labeling approval.

1.271 "**Regulatory Authority**" means any applicable supra-national, federal, national, regional, state, provincial, or local regulatory agencies, departments, bureaus, commissions, councils, or other government entities regulating or otherwise exercising authority with respect to the research, development, manufacture, commercialization, making, having made, use, offering for sale, sale or importation of Collaboration Products.

1.272 "**Regulatory Data**" means collectively all non-clinical and Clinical Data, CMC data and Information and other Information, results, and analyses with respect to any Party Development Activities.

1.273 "**Regulatory Data Exclusivity**" means an exclusive right, other than through the issuance of a patent, lawfully granted by a Governmental Authority, to market, or to rely on certain data in supporting the marketing of, a Collaboration Product or Reversion Product, as applicable, in that country in respect of which that Governmental Authority has jurisdiction conferred on it by Applicable Law, which exclusive right effectively prohibits reliance on the regulatory submissions made with respect to such product, directly or indirectly and in whole or in part, in that country for the relevant time period.

1.274 "**Regulatory Documentation**" means all (a) applications (including all INDs and Drug Approval Applications and other Major Regulatory Filings), registrations, licenses, authorizations, and approvals (including Regulatory Approvals); (b) correspondence and reports submitted to or received from Regulatory Authorities (including minutes and official contact reports relating to any communications with any Regulatory Authority) and all supporting documents with respect thereto, including all regulatory drug lists, advertising and promotion documents, adverse event files, and complaint files; and (c) Regulatory Data contained or relied upon in any of the foregoing, in each case ((a), (b), and (c)) relating to a Collaboration Product.

1.275 "**Regulatory Expenses**" has the meaning set forth in Schedule 1.8.

1.276 "**Rejects**," and with correlative meaning "**Rejected**" and "**Rejection**," has the meaning set forth in Section 4.5.2(d).

1.277 "**Research Plan**" has the meaning set forth in Section 3.1.1.

1.278 "**Research Term**" means the period commencing on the Effective Date and, unless earlier terminated in accordance herewith, ending on [***], unless extended by mutual written agreement of GNE and BioNTech.

1.279 "**Reversion Product**" means any Pharmaceutical Product that [***]

1.280 "**Right of Reference or Use**" means the right to cross reference, copy, incorporate by reference or rely upon any Regulatory Documentation solely for the purposes of obtaining or maintaining Regulatory Approval or Marketing Authorization for a Collaboration Product, including (1) a "Right of Reference or Use" as that term is defined in 21 C.F.R. §314.3(b) in the United States, (2) any analogous procedures with respect to biologics or BLAs in the United States and (3) any equivalents thereof outside the United States.

1.281 "**ROFN**" has the meaning set forth in Section 9.6.3.

1.282 "**ROFN Election Notice**" has the meaning set forth in Section 9.6.3.

1.283 "**ROFN Exercise Period**" has the meaning set forth in Section 9.6.3.

1.284 "**ROFN Licensable Subject Matter**" has the meaning set forth in Section 9.6.3.

1.285 "**ROFN License Agreement**" has the meaning set forth in Section 9.6.3.

1.286 "**ROFN Notice**" has the meaning set forth in Section 9.6.3.

1.287 "**Royalty Product**" has the meaning set forth in Schedule 1.8.

1.288 "**Royalty Rate**" has the meaning set forth in Section 8.6.1.

1.289 "**Royalty Term**" has the meaning set forth in Schedule 1.8.

1.290 "**Sales**" has the meaning set forth in Schedule 1.8.

1.291 "**Shared Development Costs**" has the meaning set forth in Schedule 1.8.

1.292 [***].

1.293 [***]

1.294 "**Signatories**" means RNP, BNT, GNE and Roche, each of which is a "**Signatory**".

1.295 "

Start-up" has the meaning set forth in the MDSA.

1.296 "**Study Proposal**" has the meaning set forth in Section 4.5.1.

1.297 "**Sublicensee**" means a Person, other than an Affiliate, that is granted a sublicense by either Party (other than through a Compulsory Sublicense) as provided in Section 9.3 (other than any sublicense under Section 9.1.2 or Section 9.2.2).

1.298 [***]

1.299 "**Team**" has the meaning set forth in Section 2.3.

1.300 "**Team**

Co-Leader" has the meaning set forth in Section 2.3.

1.301 "**TECENTRIQ®**" means that certain proprietary product of Genentech having as its active ingredient atezolizumab.

1.302 "**Technology Platform**" has the meaning set forth in the MDSA.

1.303 "**Technology Platform Roadmap**" has the meaning set forth in the MDSA.

1.304 "**Technology Platform Strategy**" has the meaning set forth in the MDSA.

1.305 "**Technology Transfer**" has the meaning set forth in the MDSA.

1.306 "**Term**" has the meaning set forth in Section 14.1.2.

1.307 "**Termination Product**" means a [***] as of the effective date of termination of this Agreement.

1.308 "**Territory**" means the entire world.

1.309 "**Third Party**" means any Person other than a Party or any of its Affiliates.

1.310 "**Third Party Claims**" has the meaning set forth in Section 13.1.

1.311 "**Third Party Collaborator**" means a Third Party [***]

1.312 "**Third Party Infringement Claim**" has the meaning set forth in Section 10.5.1(b).

1.313 "**Third Party IP**" has the meaning set forth in Section 10.6.3.

1.314 "**Third Party IP Payments**" has the meaning set forth in Section 10.6.3(b).

1.315 "**Third Party Product**" means a product comprising one or more Neoepitope RNA(s) with respect to which [***]

1.316 "**Trademark**" means any word, name, symbol, color, designation or device or any combination thereof that functions as a source identifier, including any trademark, trade dress, brand mark, service mark, trade name, brand name, logo or business symbol, whether or not registered.

1.317 [***]

1.318 [***]

1.319 [***].

1.320 [***].

1.321 [***]

1.322 [***]

1.323 "**United States**" or "**U.S.**" means the United States of America, its territories and possessions, Guam and the Commonwealth of Puerto Rico.

1.324 [***]

1.325 "**Valid Claim**" means [***]

1.326 "**VAT**" means within the European Union such Taxes (as defined in Section 8.11.6) as may be levied in accordance with (but subject to derogation from) Council Directive 2006/112/EC and outside the European Union any Taxes levied by reference to added value or sales.

1.327 "**Voting Stock**" has the meaning set forth in the definition of "Change in Control."

1.328 "**Working Group**" has the meaning set forth in Section 2.16.

1.329 [***]

1.330 [***].

ARTICLE 2.
GOVERNANCE

2.1 Establishment of Governance Committees. Within [***] days of the Effective Date, or as otherwise specified below, Genentech and BioNTech shall establish the following committees to have strategic oversight of the joint research, Development, regulatory, and Manufacturing activities for Collaboration Products: a Joint Research Committee ("**JRC**") with responsibility for overseeing, coordinating and expediting the activities under the Research Plan and the Joint Research Team's activities related thereto; a Joint Development Committee ("**JDC**") with responsibility for overseeing, coordinating and expediting the Global Development Plan and other activities specified below in Section 2.7.1 and the Joint Development Team's activities related thereto; a Joint Manufacturing Committee ("**JMC**") with responsibility for overseeing, coordinating and expediting all clinical and commercial Manufacturing activities, including clinical and commercial NGS and Neoepitope prediction, production planning, supply chain management, and activities to scale and improve existing Manufacturing processes; and within [***], a Joint Commercialization Committee ("**JCC**") with responsibility for [***] coordinating any Co-Promotion activities related thereto in accordance with this Agreement and the Co-Promotion Agreement. Each of the JRC, JDC, JMC and JCC is sometimes referred to individually herein as a "**Committee**" and collectively as the "**Committees**."

2.2 Committee Membership. Each of the Committees shall be comprised of at least [***] but no more than [***] representatives designated by each Party (except with respect to the JMC, which shall have no more than [***] representatives per Party) and [***] number of representatives. The representatives shall be appropriate (in terms of their seniority, availability, function in their respective organizations, training and experience) for the tasks then being undertaken and the stage of Development, Manufacturing or Commercialization of Collaboration Products for which joint activities will be performed. Each Party shall designate one of its representatives as its primary contact for Committee matters (such Party's "**Committee Co-Chair**"). A Party may replace any or all of its representatives (and designated Committee Co-Chair) at any time by informing the other Party's Alliance Manager in advance, in writing (which may be by email). The initial members of the Committees are listed in Schedule 2.2.

2.3 Team Membership. Each Committee may establish teams from time-to-time, with a defined scope and duration, to carry out the activities of such Committee. Within [***] days of the Effective Date, a Joint Research Team shall be established to conduct the work being overseen by the JRC, a Joint Development Team shall be established to conduct the work being overseen by the JDC, and a Joint Manufacturing Team shall be established to conduct the work being overseen by the JMC. Each of the JRT, JDT and JMT is sometimes referred to individually herein as a "**Team**" and collectively as the "**Teams**." Each of the Teams shall be composed of representatives designated by each Party and [***] number of representatives. The Teams shall include individuals with expertise and responsibilities appropriate (in terms of their seniority, availability, function in their respective organizations, training and experience) for the tasks then being undertaken and the stage of Development, Manufacturing or Commercialization of Collaboration Products for which joint activities will be performed. Each Party shall designate one of its representatives as its primary contact for Team matters (such Party's "**Team Co-Leader**"). A Party may replace any or all of its representatives (and designated Team Co-Leader) at any time by informing the other Team Co-Leader in advance, in writing (which may be by email).

2.4 Meetings; Participation. Once established, a Committee or Team shall meet at least [***] (unless otherwise agreed by the Parties) and at such other times as deemed appropriate by the Committee or Team. The presence of at least [***] shall constitute a quorum at a Committee meeting. The Committee or Team may meet in person or via teleconference, video conference or the like, provided that at least [***] per Calendar Year shall be held in person, unless otherwise agreed by the Parties. Each Party shall bear the expense of its respective representatives' participation in Committee or Team meetings. If a Party's representative is unable to attend a given meeting, such Party may designate a knowledgeable alternate to attend such meeting and perform the functions of such representative. Each Party may invite a reasonable number of non-voting employees, consultants or scientific advisors to attend Committee or Team meetings, provided that such invitees are bound by appropriate confidentiality obligations. In addition to formal meetings, the Committee and Team representatives shall communicate as necessary to ensure appropriate progress in their respective areas of accountability.

2.5 Minutes; Other Documentation. Promptly after a Committee or Team is established, it shall hold an organizational meeting to define such procedures and mechanisms as may be reasonably necessary for its operation to assure the efficient conduct of each Party's obligations under this Agreement. Genentech shall be responsible for keeping minutes of Committee and Team meetings that record in writing all decisions made, action items assigned or completed and other appropriate matters. Meeting minutes shall be sent to both Parties promptly after a meeting for review, comment and approval by each Party. A decision that may be made at a Committee or Team meeting may also be made, without a meeting, if such decision is agreed to in writing (which may be by email) by each Party's Committee Co-Chair or Team Co-Leader, as the case may be (or its designee), provided that each Party's writing clearly indicates that such decision is a formal decision by such Party's Committee Co-Chair or Team Co-Leader. Any modifications to the plans and budgets approved at a Committee meeting shall constitute an amendment to such plan or budget upon approval by both Parties of the meeting minutes related thereto.

2.6 Joint Research Committee.

2.6.1 Responsibilities of the JRC. The Joint Research Committee shall be responsible for performing the following functions:

(a) review progress reported by the Joint Research Team with respect to activities under the approved Research Plan;

(b) address and coordinate the resolution of issues that may arise relating to the Initial Knowledge Transfer and the Ongoing Knowledge Transfer in each case to the extent relating to the activities under the approved Research Plan;

(c) review and approve amendments to the Research Plan as proposed by the Joint Research Team as well as any "Non-Clinical GDP Activities" set forth in the GDP;

(d) together with the Joint Development Committee, review the annual Publication Plan developed by the Joint Research Team together with the Joint Development Team, and approve the portion of such plan addressed to research publications;

(e) review and make recommendations to the JDC as to [***]

(f) ensure that each Party keeps the JRC informed regarding all material activities performed by such Party under this Agreement that are within the purview of the JRC; and

(g) perform such other functions as specified in this Agreement or as agreed to by the Parties in writing.

2.6.2 Decision-Making Authority. With respect to the responsibilities of the JRC, each Party shall [***], and the Parties shall attempt to make decisions [***]. In the event that agreement on a particular matter cannot be reached by the JRC within [***] Business Days or such longer period as the JRC members agree, after the JRC first meets to consider such matter, then such matter shall be [***]

2.6.3 Term of the JRC Operations. The JRC shall continue to exist until the first to occur of (a) the mutual agreement of the Parties to disband the JRC, (b) disbandment pursuant to Section 15.2, (c) disbandment pursuant to Section 2.18 or (d) the end of the Research Term. Thereafter, the JRC shall cease operations and perform no further functions hereunder and any responsibilities which would have been assigned to the JRC shall be responsibilities of the JDC [***].

2.7 Joint Development Committee.

2.7.1 Responsibilities of the JDC. The Joint Development Committee shall be responsible for performing the following functions:

(a) review progress of Development and regulatory approval of Collaboration Products as reported by the Joint Development Team;

(b) address and coordinate the resolution of issues that may arise relating to the Initial Knowledge Transfer and the Ongoing Knowledge Transfer (in each case other than to the extent relating to activities under the Research Plan);

(c) review and decide [***]

(d) review and decide whether to (i) approve amendments to the GDP as proposed by the Joint Development Team or (ii) amend the GDP to include any additional Clinical Studies proposed by either Party (including Proposed Studies);

(e) approve new and amended GDP Budgets as proposed by the Joint Development Team;

(f) review and decide whether to approve any Proposed Studies as BioNTech Studies based upon the criteria set forth in Section 4.5.2;

(g) review and decide whether to approve any GTT Proposed Studies as BioNTech Studies based upon the criteria set forth in Section 4.5.3;

(h) review and decide whether to approve any proposed Melanoma Follow-Up Study based upon the criteria set forth in Section 4.3.2;

(i) oversee the Conduct and modification of Ongoing Clinical Studies (as set forth in Section 4.3.1), any Melanoma Follow-Up Studies (as set forth in Section 4.3.2) and any BioNTech Studies (as set forth in Section 4.5.4), and to review and decide whether to approve any material deviations from (i) the Ongoing Clinical Studies as such Clinical Studies exist as of the Execution Date (as set forth in Section 4.3.1), (ii) any Melanoma Follow-Up Studies as previously approved by the JDC (as set forth in Section 4.3.2) or (iii) any BioNTech Studies as previously approved by the JDC (as set forth in Section 4.5.4);

(j) together with the Joint Research Committee, review the annual Publication Plan developed by the Joint Development Team together with the Joint Research Team, and approve [***] the portion of such plan addressed to Development publications;

(k) ensure that each Party keeps the JDC informed regarding all material activities Conducted or otherwise performed by such Party under this Agreement that are within the purview of the JDC, including status updates of (i) BioNTech's progress toward Developing BioNTech Collaboration Products (including Conducting BioNTech Studies) and (ii) Genentech's progress toward Developing Genentech Collaboration Products (including Conducting Genentech Studies);

(l) perform such other functions as specified in this Agreement or as agreed to by the Parties in writing; and

(m) oversee all Clinical Studies, comparator studies or investigator-sponsored studies of Collaboration Products Conducted by the Parties, regardless of which Party Conducts the studies or has final decision-making authority in matters related to such studies.

For clarity, all "Non-Clinical GDP Activities" included in the GDP shall not be subject to the decision-making by the JDC, but shall be controlled by the JRC.

2.7.2 Decision-Making Authority.

(a) With respect to the responsibilities of the JDC, each Party shall [***], and the Parties shall attempt to make decisions [***]

2.7.3 Term of the JDC Operations. The JDC shall continue to exist until the first to occur of (a) the mutual agreement of the Parties to disband the JDC, (b) disbandment pursuant to Section 15.2, (c) disbandment pursuant to Section 2.18 or (d) the end of the Term. Thereafter, the JDC shall cease operations and perform no further functions hereunder.

2.8 Joint Manufacturing Committee.

2.8.1 Responsibilities of the JMC. The Joint Manufacturing Committee shall be responsible for performing the following functions:

(a) coordinate with the JDC and JCC to ensure adequate quantity, quality, and timeliness of supply of Collaboration Products to meet clinical and commercial needs worldwide;

(b) review and approve the initial plans (and any subsequent amendments) specified in the MDSA with regard to Manufacturing activities for the Collaboration Product, including the CMC Development Plan, Manufacturing Network Plan, Technology Transfer Plans and any other plan recommended by the JMT and approved by the JMC; in all cases, ensuring that the activities thereunder are performed in accordance with the MDSA, Quality Agreement and JMC-approved performance targets, timelines and budgets;

(c) review progress of, and provide guidance with respect to, CMC development activities and associated costs as reported by the JMT pursuant to the approved CMC Development Plan and annual budget;

(d) approve and oversee the development and implementation of the Manufacturing Process for clinical and commercial supply of Collaboration Product in accordance with the MDSA, applicable Quality Agreement, JMC-approved performance targets, timelines and budgets and [***];

(e) approve and oversee, with respect to clinical and commercial supply of Collaboration Product, the Technology Platform Strategy and Manufacturing Operations Strategy;

(f) oversee and monitor, with respect to Commercial Facilities within the Manufacturing Network, the progress of the activities required for construction, Mechanical Completion, Commissioning, Start-up (including Technology Transfer) and Licensure by the applicable Regulatory Authority;

(g) review and oversee the performance by Third Parties of certain Manufacture or supply obligations in accordance with the MDSA and applicable Quality Agreement;

(h) review and approve business processes for aligning patient demand forecast requirements with Manufacturing supply planning and scheduling requirements, and assess and resolve gaps between demand, and supply and Capacity plans;

(i) investigate and advise on Manufacturing, supply and quality issues;

(j) review, at least semi-annually, the performance under the MDSA by the Parties;

(k) review and recommend for approval by the Parties any changes to the MDSA, applicable Quality Agreement, Commercial Manufacturing Agreement or other subsequent agreement related to Manufacturing of Collaboration Product, each as proposed by the JMT;

(l) coordinate and address the resolution of issues that may arise relating to implementation of the CMC Development Plan Manufacturing and Technology Transfers under the MDSA; and

(m) perform such other functions as specified in this Agreement or the MDSA or as agreed to by the Parties in writing.

For clarity, except for reports as provided in Section 2.2.5(c) of the MDSA, Independent Facilities are outside the scope of the JMC's responsibilities.

2.8.2 Decision-Making Authority. With respect to the responsibilities of the JMC, each Party shall [***], and the Parties shall attempt to make decisions [***]. In the event that agreement on a particular matter cannot be reached by the JMC within [***] Business Days or such longer period as the JMC members agree, after the JMC first meets to consider such matter, then such matter shall be [***]

[***]

2.8.3 Term of the JMC Operations. The JMC shall continue to exist until the first to occur of (a) the mutual agreement of the Parties to disband the JMC, (b) disbandment pursuant to Section 15.2 (if elected by Genentech), (c) disbandment pursuant to Section 2.18 (provided that the JMC shall continue to exist for so long as set forth in Section 2.18) or (d) the expiration or termination of the MDSA. Thereafter, the JMC shall cease operations and perform no further functions hereunder. For the avoidance of doubt, in the case of survival of the MDSA, as specified herein in Section 7.3, 14.5, or 15.2, (i) the JMC shall continue to exist (until otherwise elected by Genentech), (ii) the JMC shall operate and perform its functions solely for the purpose of and in connection with coordinating and overseeing any remaining CMC Development Plan and Technology Transfer activities and any remaining Manufacturing and supply services, [***]

2.9 Joint Commercialization Committee.

2.9.1 Establishment of the Joint Commercialization Committee. Within [***], the Parties shall establish a Joint Commercialization Committee with responsibility for [***] coordinating any Co-Promotion activities related thereto.

2.9.2 Responsibilities of the JCC. Upon establishment, the Joint Commercialization Committee shall be responsible for performing the following functions:

(a) oversight of [***];

(b) [***]

(c) [***], review and approve the co-promotion plan for the Co-Promotion Territory as prepared by Genentech;

(d) [***], serve as a forum for monitoring and coordinating matters relating to Co-Promotion of Collaboration Products in the Co-Promotion Territory;

(e) [***], oversee and coordinate the Parties' Detailing activities of GDP Collaboration Products in the Co-Promotion Territory; and

(f) perform such other functions as specified in this Agreement or as agreed to by the Parties.

Each Party shall share with the other Party upon request, through the JCC, any marketing and sales information developed by such Party, including market research, sales force sizing and targeting information, in each case relating solely to GDP Collaboration Products. In addition, each Party shall provide to the JCC on a [***] basis a summary of all Commercialization activities with respect to GDP Collaboration Products undertaken by such Party.

2.9.3 Decision-Making Authority. With respect to the decision-making responsibilities of the JCC, each Party shall [***], and the Parties shall attempt to make decisions [***]. In the event that agreement on a particular matter cannot be reached in any JCC meeting, Genentech shall have the final decision-making authority with respect to such matter, which it may exercise following such meeting or at any time thereafter.

2.9.4 Term of the JCC Operations. The JCC shall continue to exist until the first to occur of (a) the mutual agreement of the Parties to disband the JCC, (b) disbandment pursuant to Section 15.2, (c) disbandment pursuant to Section 2.18 or (d) the end of the Term. Thereafter, the JCC shall cease operations and perform no further functions hereunder.

2.10 Joint Research Team.

2.10.1 Establishment of the Joint Research Team. The JRC may establish a Joint Research Team ("**JRT**") to coordinate and implement all activities

related to the research activities to be conducted by GNE and BioNTech pursuant to the Research Plan.

2.10.2 Responsibilities of the JRT. The Joint Research Team shall be responsible for performing the following functions:

(a) implement the Research Plan, ensuring that activities thereunder are performed in accordance with the approved timelines;

(b) prepare draft amendments (as needed) to the Research Plan, and submit such amended Research Plan to the JRC for approval;

(c) ensure that each Party keeps the JRT informed regarding all material activities performed by such Party under this Agreement that are within the purview of the JRT;

(d) develop and implement, in collaboration with the Joint Development Team, the annual Publication Plan;

(e) discuss and attempt to resolve any disputed matters related to the research collaboration before referring such matters to the JRC; and

(f) perform such other functions as agreed to by the JRC or as specified in this Agreement.

2.10.3 Decision-Making Authority. With respect to the responsibilities of the JRT, each Party shall have [***], and the Parties shall attempt to make decisions [***]. In the event that agreement on a particular matter cannot be reached by the JRT within [***] Business Days or such longer period as the JRT members agree, after the JRT first meets to consider such matter, the matter shall be referred to the JRC, which shall resolve such matter in accordance with Section 2.6.2.

2.10.4 Term of the JRT Operations. The Joint Research Team shall continue to exist until the first to occur of (a) the decision of the JRC to disband the JRT or (b) the disbandment of the JRC or JRT otherwise pursuant to this Agreement. Thereafter, the JRT shall cease operations and perform no further functions hereunder.

2.11 Joint Development Team.

2.11.1 Establishment of the Joint Development Team. The Parties shall establish a Joint Development Team ("**JDT**") to define, coordinate and implement all activities related to the Development of GDP Collaboration Products, including preclinical Development, clinical Development and regulatory filings (but excluding any research activities within the purview of the JRC (and JRT), any manufacturing activities within the purview of the JMC (and JMT) and any commercial activities within the purview of the JCC).

2.11.2 Responsibilities of the JDT. The Joint Development Team shall be responsible for performing the following functions:

(a) implement the Global Development Plan, ensuring that activities thereunder are performed in accordance with the approved timelines;

(b) prepare draft amendments (as needed) to the Global Development Plan, and submit such amended Global Development Plans to the JDC for approval;

(c) prepare draft amendments (as needed) to the annual GDP Budget, and submit such annual GDP Budgets to the JDC for approval;

(d) ensure that each Party keeps the JDT informed regarding all material activities performed by such Party under this Agreement that are within the purview of the JDT;

(e) develop and implement, in collaboration with the Joint Research Team, the annual Publication Plan;

(f) discuss and attempt to resolve any disputed matters related to the collaboration before referring such matters to the JDC; and

(g) perform such other functions as agreed to by the JDC or as specified in this Agreement.

2.11.3 Decision-Making Authority. With respect to the responsibilities of the JDT, each Party shall [***], and the Parties shall attempt to make decisions [***]. In the event that agreement on a particular matter cannot be reached by the JDT within [***] Business Days or such longer period as the JDT members agree, after the JDT first meets to consider such matter, the matter shall be referred to the JDC, which shall resolve such matter in accordance with Section 2.7.2.

2.11.4 Term of the JDT Operations. The Joint Development Team shall continue to exist until the first to occur of the decision of the JDC to disband the JDT or the disbandment of the JDC or JDT otherwise pursuant to this Agreement. Thereafter, the JDT shall cease operations and perform no further functions hereunder.

2.12 Joint Manufacturing Team.

2.12.1 Establishment of the Joint Manufacturing Team. The JMC may establish a Joint Manufacturing Team ("**JMT**") to define, coordinate and implement all activities related to the CMC Development Plan and Manufacture of Collaboration Products.

2.12.2 Responsibilities of the JMT. The Joint Manufacturing Team shall be responsible for performing the following functions:

(a) coordinate with the JDT and JCC to ensure adequate quantity and quality of supply of Collaboration Products to meet clinical and commercial needs worldwide;

(b) keep the JMC informed of all material activities being performed by the JMT;

(c) prepare and draft the following plans and subsequent amendments (as needed) for submission to the JMC for approval: CMC Development Plan, Manufacturing Network Plan, Technology Transfer Plans, Technology Platform Strategy and Manufacturing Operations Strategy;

(d) implement the CMC Development Plan and other approved plans and strategies set forth in clause (c) above; in all cases, ensuring that activities thereunder are performed in accordance with the respective plan or strategy, approved timelines and budgets and guidance provided by the JMC;

(e) prepare and draft amendments (as needed) to the annual Manufacturing budget for activities to be conducted pursuant to the CMC Development Plan and other approved plans and strategies set forth in clause (c) above, and submit such annual budgets to the JMC for approval;

(f) develop and manage (subject to JMC approval) business processes for aligning patient demand forecast requirements with Manufacturing supply planning and scheduling requirements; make assessments of and recommendations to the JMC for resolving gaps between demand and supply and Capacity plans; and conduct, on a [***] basis, the activities set forth under Section 6.3.1 of the MDSA;

(g) manage the performance by Third Parties of Manufacture or supply obligations in accordance with the MDSA and Quality Agreement;

(h) coordinate the activities of the MDSA Parties relating to the Manufacture of the Collaboration Product at a Facility;

(i) draft and recommend to the JMC for approval any changes to the MDSA, Quality Agreement or other subsequent agreement related to Manufacturing of Collaboration Product;

(j) discuss and attempt to resolve any disputed matters related to the Manufacture of Collaboration Product before referring such matters to the JMC; and

(k) perform such other functions as agreed to by the JMC or as specified in this Agreement.

2.12.3 Decision-Making Authority. With respect to the responsibilities of the JMT, each Party shall [***], and the Parties shall attempt to make decisions [***]. In the event that agreement on a particular matter cannot be reached by the JMT within [***] Business Days or such longer period as the JMT members agree, after the JMT first meets to consider such matter, the matter shall be referred to the JMC, which shall resolve such matter in accordance with Section 2.8.2.

2.12.4 Term of the JMT Operations. The Joint Manufacturing Team shall continue to exist until the first to occur of the decision of the JMC to disband the JMT or the disbandment of the JMC or JMT otherwise pursuant to this Agreement. Thereafter, the JMT shall cease operations and perform no further functions hereunder. For the avoidance of doubt, in the case of survival of the MDSA under Section 7.3, 14.5 or 15.2, the JMT shall continue to exist (until otherwise elected by Genentech) and shall operate and perform its functions solely for the purpose of and in connection with coordinating and overseeing any remaining CMC Development Plan and Technology Transfer activities, and any remaining Manufacturing and supply services.

2.13 Alliance Managers. Promptly following the Effective Date, each Party shall designate an individual to act as its primary contact for business matters related to this Agreement (such Party's "**Alliance Manager**"), unless another contact is expressly specified in this Agreement or mutually agreed by the Parties. The Alliance Managers shall promote collaboration between the Parties and attempt to prevent and resolve disputes in a timely manner. Either Party may replace its Alliance Manager at any time by informing the other Party's Alliance Manager in advance, in writing (which may be by email).

2.14 Limitations on Authority. Each Party shall retain the rights, powers, and discretion granted to it under this Agreement, and no such rights, powers, or discretion shall be delegated to or vested in a Committee or Team unless such delegation or vesting of rights is expressly provided for in this Agreement or the Parties expressly so agree in writing. No Committee or Team shall have the power to amend, modify or waive compliance with this Agreement, which may only be amended or modified, or compliance with which may only be waived, as provided in Section 15.12.

2.15 Interactions Between Committees, Teams and Internal Teams. The Parties recognize that each Party possesses an internal structure (including various committees, teams and review boards) that will be involved in administering such Party's activities under this Agreement. Nothing contained in this Article shall prevent a Party from making routine day-to-day decisions relating to the conduct of those activities for which it has a performance or other obligations hereunder, in each case in a manner consistent with the then-current applicable plan and the terms and conditions of this Agreement.

2.16 Working Groups. From time to time, a Committee or Team may establish and delegate duties to sub-committees or directed teams (each, a "**Working Group**") on an "as-needed" basis to oversee particular projects or activities (for example, joint finance group, joint regulatory groups or joint medical information group). Each such Working Group shall be constituted and shall operate as the Committee or Team determines; provided that each Working Group shall have [***], unless otherwise mutually agreed. Working Groups may be established on an ad hoc basis for specific purposes and durations. Each Working Group and its activities shall be subject to the oversight, review and approval of, and shall report to, the Committee or Team that formed said Working Group. In no event shall the authority of the Working Group exceed that specified for the Committee or Team that formed the Working Group to this Article. All decisions of a Working Group shall [***]. Any disagreement between the designees of Genentech and BioNTech on a Working Group shall be referred to the Committee or Team that formed the Working Group for resolution. In the event that any Committee or Team is disbanded, then the Working Groups thereunder shall also automatically be disbanded.

2.17 Expenses. Each Party shall be responsible for all travel and related costs and expenses for its members and other representatives to attend meetings of, and otherwise participate on, a Committee, Team or Working Group and such costs and expenses shall not constitute Development Costs or Allowable Expenses.

2.18 Consequences of BioNTech Opt-Out. In the event that, pursuant to Section 8.5, BioNTech exercises its Opt-Out to terminate its obligation to co-fund Development (or a Deemed Opt-Out has occurred pursuant to Section 8.5.3), all Committees or Teams shall automatically be disbanded [***] days (or such longer period as the Parties mutually agree) after the Opt-Out Commencement Date and Genentech shall assume all decision-making authority previously vested in such Committee(s). Notwithstanding the foregoing, Genentech may request in writing that BioNTech continue its participation on an advisory (non-voting) basis in any Committee or Team notwithstanding such disbandment, in which case Genentech shall be responsible for the cost and expense of BioNTech's participation in such Committee or Team based upon BioNTech's then-current FTE Rate. [***]

2.19 Technical and Knowledge Transfer.

2.19.1 Initial Knowledge Transfer.

(a) In order to enable Genentech to fulfil its obligations as set forth in this Agreement and the Ancillary Agreements, respectively, the Parties have agreed to an initial knowledge transfer of documents and other Know-How set forth in Schedule 2.19.1(a) attached hereto ("**BioNTech Initial Knowledge Transfer Items**"). BioNTech shall, and shall cause its Affiliates to, at BioNTech's sole cost and expense, disclose such Know-How and transfer true and complete and accurate copies of all documents within the BioNTech Initial Knowledge Transfer Items to Genentech, within [***] days, as applicable in accordance with Schedule 2.19.1(a), of the Effective Date. BioNTech shall provide the documents and other Know-How specified in Schedule 2.19.1(a) via a mutually agreed secure document management or project collaboration software platform (e.g., Sharepoint) in an electronic format editable and readable by generally available Third Party software (e.g. PDF or Microsoft Word documents) or as otherwise reasonably requested by Genentech. [***]

(b) In addition to the provision of the BioNTech Initial Knowledge Transfer Items, BioNTech, at its sole cost and expense, shall provide Genentech with reasonable access to employees and Third Party service providers with relevant subject matter expertise to answer questions and assist Genentech in understanding the BioNTech Initial Knowledge Transfer Items. Such access and assistance may occur through the Committees and Teams, on-site visits at BioNTech's or Genentech's offices or facilities or telephonic or other meetings with personnel of BioNTech and its Third Party service providers.

(c) GNE shall at Genentech's sole cost and expense, disclose to BioNTech the Genentech Know-How set forth on Schedule 2.19.1(c). GNE shall provide such Genentech Know-How via a mutually agreed secure document management or project collaboration software platform (e.g., Sharepoint) in an electronic format editable and readable by generally available Third Party software (e.g., PDF or Microsoft Word documents) or as otherwise reasonably requested by BioNTech. In addition, Genentech, at its sole cost and expense, shall provide BioNTech with reasonable access to employees with relevant subject matter expertise to answer questions and assist BioNTech in understanding such Genentech Know-How. Such access and assistance may occur through the Committees and Teams, on-site visits at BioNTech's or Genentech's offices or facilities or telephonic or other meetings with personnel of Genentech.

2.19.2 Ongoing Transfer of Technical Information.

(a) Until [***] or such other date as mutually agreed by the Parties, on a [***] basis, or such other frequency as mutually agreed by the Parties through the applicable Committee, BioNTech shall provide to such Committee or Joint Research Team, Joint Development Team, Joint Manufacturing Team or such other team or working group appointed by a Committee, the following: (i) BioNTech Know-How, to the extent not previously disclosed, Genentech requires to perform its obligations under this Agreement or the Ancillary Agreements and (ii) Collaboration Know-How made or developed by or on behalf of BioNTech pursuant to this Agreement or the Ancillary Agreements. BioNTech shall respond to subsequent requests for such Know-How and make appropriate personnel available to Genentech at reasonable times and places and upon reasonable prior notice for the purpose of assisting Genentech to understand and use the BioNTech Know-How and Collaboration Know-How in connection with the Research Plan, CMC Development Plan, GDP or other plan as requested and approved by the respective Committee.

(b) Until [***] or such other date as mutually agreed by the Parties, on a [***] basis, or such other frequency as mutually agreed by the Parties through the applicable Committee, Genentech shall provide to such Committee or Joint Research Team, Joint Development Team, Joint Manufacturing Team or such other team or working group appointed by a Committee, the following: (i) Genentech Know-How described in clause (a) of the definition of Genentech Know-How, to the extent not previously disclosed, that BioNTech requires to perform its obligations under this Agreement or the Ancillary Agreements, (ii) Genentech Know-How described in clause (b) of the definition of Genentech Know-How upon Genentech's decision to include such Genentech Know-How in the performance of the Research Plan, GDP or CMC Development Plan and (iii) Collaboration Know-How made or developed by or on behalf of Genentech pursuant to this Agreement or the Ancillary Agreements. Genentech shall respond to subsequent requests for such Know-How and make appropriate personnel available to BioNTech at reasonable times and places and upon reasonable prior notice for the purpose of providing reasonable assistance to BioNTech to understand and use such Genentech Know-How and Collaboration Know-How in connection with performing the activities for which BioNTech is responsible under the Research Plan, CMC Development Plan, GDP or other plan as requested and approved by the respective Committee.

(c) The ongoing knowledge transfer obligation described in clause (a) above for BioNTech and the ongoing knowledge transfer obligation described in clause (b) above for Genentech shall each be referenced herein as the ("**Ongoing Knowledge Transfer**").

2.19.3 Transfer of Materials. Without limiting any specific transfer of materials set forth in the MDSA, BioNTech shall provide Genentech with sufficient quantities of the physical specimens and materials set forth in Schedule 2.19.3 within [***] days of the Effective Date as specified in Schedule 2.19.3 or as otherwise may be extended as mutually agreed upon by the Parties pursuant to Section 10.9. In addition, BioNTech shall provide Genentech with sufficient quantities of any other materials deemed appropriate by the applicable Committee or as set forth in the CMC Development Plan, solely for the purposes of enabling Genentech to fulfill its obligations under this Agreement and the Ancillary Agreements. BioNTech represents and warrants that it, to its' and its Affiliates' knowledge, has sufficient rights to transfer such materials to Genentech and to grant Genentech and its Affiliates and Sublicensees the right to use such materials in the exercise of its rights or performance of its obligations under this Agreement and the Ancillary Agreements (including use of such materials in or for the Exploitation of Collaboration Products) without restriction or payment. Notwithstanding the foregoing, each Party shall otherwise be responsible for procuring any materials required for it to conduct its activities under the Research Plan.

2.20 [***] Activities

2.20.1 Subject to the provisions of this Section 2.20, and notwithstanding any other provisions of subcontracting under this Agreement or any of the Ancillary Agreements, BioNTech may use [***] as a subcontractor to perform activities on its behalf, including under the Research Plan, under this Agreement or the Ancillary Agreements but only pursuant to the terms of the [***] Agreement, [***] Agreement and the [***] Agreement (collectively, the "[***] **Agreements**"); provided that (a) BioNTech shall negotiate in good faith with [***], in consultation with Genentech, and enter into an amendment to the [***] Agreement or similar agreement to obtain rights to any [***] developed by [***], and any such amendment or agreement shall be reviewed and approved by Genentech prior to execution, and (b) during the Term, BioNTech shall not enter into any amendments to the [***] Agreements and shall not terminate any of the [***] Agreements without Genentech's prior written consent. If BioNTech has not entered into an amendment to the [***] Agreement or similar agreement to obtain rights to improvements to the [***] by January 1, 2017, then, at Genentech's discretion and written notice, BioNTech shall cease using, and thereafter may no longer use, [***] as a subcontractor to perform activities on its behalf under this Agreement or any Ancillary Agreement. BioNTech shall be responsible for ensuring that [***] performs any activities subcontracted to [***] hereunder in a timely manner and in accordance with the terms of this Agreement applicable to the performance by BioNTech of such activities. In no event shall BioNTech permit [***] to subcontract any of its activities to be performed on behalf of BioNTech without the prior written consent of Genentech. [***].

2.20.2 [***]

ARTICLE 3.
RESEARCH PROGRAM

3.1 Research Plan and Activities.

3.1.1 Research Program. During the Research Term, GNE and BioNTech shall conduct a research collaboration oriented to improving the Technology Platform relating to the Collaboration Products, pursuant to a research plan, which shall set forth each of Genentech's and BioNTech's respective activities under the plan, and the number of FTEs (which may be a range) to be devoted by each Party, [***] ("**Research Plan**"). Each Party shall be responsible for funding its own FTEs and out-of-pocket costs and expenses under the Research Plan.

3.1.2 Initial Research Plan and Activities. Attached hereto as Schedule 3.1.2 is the initial Research Plan, which plan assigns responsibility for research activities between the Parties. Each Party shall use Commercially Reasonable Efforts to perform the activities assigned to it under the Research Plan. Each Party shall conduct its activities under the Research Plan in accordance with the terms and conditions of this Agreement. Each Party shall use Commercially Reasonable Efforts to devote to its activities under the Research Plan those FTEs specified in the Research Plan.

3.1.3 Amendments. During the Research Term, the JRC shall review the Research Plan from time to time as necessary for the purpose of considering appropriate amendments thereto. In addition, either Party, through its representatives on the JRC, may propose amendments to the Research Plan at any time. In connection with amending the Research Plan, the Parties shall determine the FTEs and other resources and out-of-pocket expenditures required for implementation of the Research Plan for the applicable Calendar Year and for each Calendar Quarter within such Calendar Year.

3.2 Subcontracting.

3.2.1 Genentech shall have the right to subcontract any of its activities under the Research Plan to a Third Party. Genentech shall keep the JRC informed of such subcontracting activities.

3.2.2 Each Party shall be responsible (and liable) to the other Party for the performance of its subcontractors and for any failure by its subcontractors to comply with the restrictions, limitations and obligations set forth in this Agreement as if such performance or failure of such subcontractors were the performance or failure of the subcontracting Party under this Agreement.

3.2.3 Subject to Section 2.20, any subcontracting by either Party of any of its activities under the Research Plan shall be conducted pursuant to a written subcontract specifying the work to be subcontracted, and containing provisions that are compliant with the applicable terms and conditions of this Agreement and any Ancillary Agreements, including provisions with respect to intellectual property and confidential information, and that as between the subcontracting Party or its Affiliates and its subcontractor, any intellectual property arising out of the performance of such activities shall be Controlled by the subcontracting Party or its Affiliates. [***].

3.2.4 Subject to Section 2.20, BioNTech shall have the right to subcontract any of its activities under the Research Plan to a Third Party; provided that [***]

3.3 Records and Results.

3.3.1 Without limiting Section 10.1, each Party shall use reasonable efforts to keep the other Party informed of its activities under the Research Plan and [***] per Calendar Year, at mutually agreed meetings of the JRC, shall provide to the JRC a reasonably detailed written report, in English, describing activities performed and results obtained under the Research Plan since the prior written report, in a form determined by the JRC. In the event that either Party requests further information regarding any such report, including a request for data or other primary research results, the Parties shall cooperate to achieve such data exchange in a timely and efficient manner. Neither Party shall be required to generate additional data or prepare additional reports to comply with the foregoing obligation. Notwithstanding the foregoing, the JRC may determine what reports shall be generated in respect of Research Plan activities, including the content and timing thereof, including by authorizing or requiring reports other than as provided in this Section 3.3.1. The Parties shall promptly share all such reports with the JRC.

3.3.2 In addition to Section 3.3.1, in the event a Party identifies, as part of the Research Plan or otherwise in connection with its activities with respect to the Collaboration Products, an improvement [***], then such Party shall provide to the JRC, if such results have not already been so provided under Section 3.3.1, a reasonably detailed written report, in English, describing the activities performed and results obtained and [***] The JRC shall review such report, and may request further information regarding any such report, including a request for data or other primary research results, that may be reasonably useful to evaluate [***]; provided that such Party shall not be required to generate additional data or prepare additional reports to comply with the foregoing obligation. Within [***] days of the receipt of such report, the JRC shall [***]

3.3.3 Each Party shall, and shall ensure that any Third Parties contracted pursuant to Section 3.2, maintain records in sufficient detail and in good scientific manner appropriate for patent and regulatory purposes, and in compliance with Applicable Law, which shall be complete and accurate and shall properly reflect all work done and results achieved in the performance of its designated activities under a Research Plan and which shall record only such activities and shall not include or be commingled with records of activities other than those conducted pursuant to the Research Plan. Such records shall be retained by the applicable Party for the longer of (a) ten (10) years from its creation or (b) such period as may be required by Applicable Law.

ARTICLE 4.
DEVELOPMENT

4.1 Generally. The Parties shall use Commercially Reasonable Efforts to Develop one or more Collaboration Products for Commercialization in the Major Markets.

4.2 GDP. Genentech and BioNTech shall pursue the Global Development Plan as set forth herein. Except as set forth in this Article 4, neither Party nor its Affiliates shall (a) Conduct any Clinical Studies of a Collaboration Product that is not set forth in the GDP or (b) use any BioNTech IP, that does not fall within any of the exceptions under Section 11.1.4 and is disclosed to Genentech under this Agreement or the Ancillary Agreements, to conduct any clinical studies of any Pharmaceutical Product that (i) comprises one or more Neoepitope RNA(s), but not any Non-Neoepitope RNA(s) or (ii) one or more Permitted Hybrid Neoepitope RNA(s), **[***]** that is not set forth in the GDP.

4.3 BioNTech Ongoing Clinical Studies and Related Follow-Up Studies.

4.3.1 Conduct of Ongoing Clinical Studies. Notwithstanding [***], BioNTech may complete its ongoing Clinical Study in triple negative breast cancer along with its ongoing Clinical Study in melanoma, each as described in, and in accordance with, the protocols identified in Schedule 4.3.1, as such protocols were provided by BioNTech to Genentech prior to the Execution Date ("**Ongoing Clinical Studies**"), including, upon notification to the JDC, reasonable amendments thereto within the ordinary course of business that are not material deviations. Any amendments proposed by BioNTech to such protocols that are material deviations shall require the approval of the JDC.

4.3.2 Other Clinical Studies in Melanoma.

(a) If, in BioNTech's reasonable judgment, the results of BioNTech's Ongoing Clinical Study in melanoma demonstrate sufficient evidence of activity to warrant a subsequent Clinical Study, then prior to [***], BioNTech may propose to the JDC one non-registrational subsequent Clinical Study in melanoma that BioNTech would conduct at its sole cost and expense under a BioNTech IND ("**Melanoma Follow-Up Study**"). In connection with such proposal, BioNTech shall provide to the JDC the draft protocol for the proposed study. The JDC shall approve such Melanoma Follow-Up Study if [***]. If the JDC approves such Melanoma Follow-Up Study, BioNTech may Conduct such Melanoma Follow-Up Study, at BioNTech's sole cost and expense, provided that BioNTech provides updates to the JDC regarding the status of such Melanoma Follow-Up Study and obtains the prior written approval of the JDC for any modifications to the protocol to such Melanoma Follow-Up Study that would (individually or collectively) constitute material deviations from the protocol that was presented to the JDC at the time of its initial approval. The JDC shall approve such material deviations from the protocol if the criteria for approval of the Melanoma Follow-Up Study set forth in this Section 4.3.2(a) continue to be fulfilled.

(b) Any additional clinical Development by BioNTech shall be solely as permitted under Sections 4.4 and 4.5.

4.3.3 Genentech's Use of Ongoing Clinical Study Data. Genentech may access and use any data generated in connection with the Ongoing Clinical Studies and, if applicable, the Melanoma

Follow-Up Study. [***]

4.4 Development Under the Global Development Plan.

4.4.1 GDP. The initial GDP for the Development of the Collaboration Products hereunder, which assigns responsibility for Party Development Activities between the Parties in relation to GDP Collaboration Products (such activities, "**Joint Development Activities**"), is attached hereto as Schedule 4.4.1. Each Party shall Conduct Joint Development Activities assigned to it with reasonable care and diligence and in accordance with the terms and conditions of this Agreement and the GDP. Except as otherwise expressly provided in the GDP, the CMC Development Plan or otherwise specified herein, all Development under the GDP shall be conducted by Genentech.

4.4.2 Amendments. The JDC shall review the GDP from time to time as necessary for the purpose of considering appropriate amendments thereto. In addition, either Party, through its representatives on the JDT, may propose amendments to the GDP for Joint Development Activities at any time. Following [***], if Genentech proposes to amend the GDP to include a Clinical Study for Development of a Collaboration Product in an Indication that is not then included in the GDP, it shall provide the JDC with a written clinical Development plan from proof of concept through Regulatory Approval for such Indication consisting of [***] As part of the process of amending the GDP, the Parties shall determine the internal personnel and other resources and

out-of-pocket expenditures required for the Joint Development Activities for the applicable Calendar Year and for each Calendar Quarter within such Calendar Year, to be reflected in the GDP Budget.

4.4.3 Conduct of Clinical Studies Under the GDP. Except as otherwise agreed by the Parties in writing, Genentech shall Conduct all Clinical Studies prior to [***] under the GDP, and thereafter all Clinical Studies under the GDP with respect to which Genentech has final decision-making authority as set forth in Section 2.7.2(g)(i). [***]. Except as otherwise agreed by the Parties in writing, BioNTech shall Conduct all Clinical Studies with respect to which BioNTech has [***]; *provided* that (a) BioNTech shall Conduct any applicable Clinical Studies under the GDP in a timely, effective and cost-efficient manner according to Applicable Law (including Compliance Requirements), and (b) BioNTech may only Conduct a Clinical Study under the GDP if BioNTech possesses safety reporting and other applicable infrastructure and personnel adequate to support such Clinical Study and share safety data with Genentech in a manner that enables Genentech's compliance with any Regulatory Authority reporting requirements per Genentech's standard processes [***]

4.4.4 Subcontracting.

(a) Genentech shall have the right to subcontract any of its activities under the GDP or in connection with a Genentech Study to a Third Party. Genentech shall keep the JDC informed of such subcontracting activities.

(b) BioNTech shall have the right to subcontract any of its activities under the GDP or in connection with an Ongoing Clinical Study, Melanoma Follow-Up Study or BioNTech Study to a Third Party; provided that [***]

(c) Subject to Section 2.20, any subcontracting by either Party of any of its activities under the GDP or in connection with an Ongoing Clinical Study, Melanoma Follow-Up Study, Genentech Study or BioNTech Study shall be conducted pursuant to a written subcontract specifying the work to be subcontracted, and containing provisions that are compliant with the applicable terms and conditions of this Agreement and any Ancillary Agreements, including provisions with respect to intellectual property and confidential information, and that as between the subcontracting Party or its Affiliates and its subcontractor, any intellectual property arising out of the performance of such activities by such subcontractor shall be Controlled by the subcontracting Party or its Affiliates. In the event that such intellectual property would, if it were made by a Party, be Collaboration IP, then such intellectual property shall be Collaboration IP and in the event that such intellectual property would, if it were made by a Party, be BioNTech IP or Genentech IP, then such intellectual property is hereby licensed to the other Party subject to Section 9.1 or 9.2, as applicable.

(d) Each Party shall be responsible (and liable) to the other Party for the performance of its subcontractors and for any failure by its subcontractors to comply with the restrictions, limitations and obligations set forth in this Agreement as if such performance or failure of such subcontractors were the performance or failure of the subcontracting Party under this Agreement.

4.5 BioNTech Proposed New Indications; BioNTech Studies.

4.5.1 Proposed Additional Indication. BioNTech may, at any time during the Term, based upon sound scientific rationale, provide the JDC with a written proposal meeting the requirements of this Section 4.5.1 ("**Study Proposal**") to amend the GDP to include a Clinical Study ("**Proposed Study**") for Development of a Collaboration Product in an Indication that is not then included in the GDP. Each such Study Proposal shall include [***]. BioNTech shall present such Study Proposal to the JDC at its next regularly scheduled meeting. The JDC shall decide whether to approve such Proposed Study and whether to add the relevant Indication to the GDP, which decision shall be reflected in the minutes of the JDC. Each Study Proposal shall contain reasonably sufficient detail to enable the JDC to assess whether to approve such Proposed Study and whether to add the relevant Indication to the GDP. If the JDC decides to add the Indication covered by the Study Proposal to the GDP, the GDP shall be amended to include the Proposed Study (together with any modifications agreed upon by the JDC), such Indication shall become a GDP Indication, and the Conduct of such Proposed Study (as modified by the JDC) and any additional Clinical Studies in such Indication shall be a Joint Development Activity, pursuant to Section 4.4. In the event that the JDC declines to add a new Indication presented by BioNTech to the GDP pursuant to this Section 4.5.1, then BioNTech may have the right to Conduct the Proposed Study to the extent permitted pursuant to Section 4.5.2 as a "**BioNTech Study"**, and upon Initiation by BioNTech of the Proposed Study and subject to Section 4.5.5(c), such Indication, shall be a "**BioNTech Indication**" and such Collaboration Product shall be a "**BioNTech Collaboration Product**".

4.5.2 BioNTech's Right to Conduct a BioNTech Study. Subject to Section 4.5.5, BioNTech shall have the rights set forth in this Section 4.5.2 to Conduct a Proposed Study that the JDC declines to include in the GDP solely if [***], the "**BioNTech Study Conduct Requirements**"), and (5) the applicable conditions in subsections (a)-(d) below are satisfied. In the event that BioNTech fails to Initiate a Proposed Study that the JDC has declined to include in the GDP within [***] of the JDC decision to not include the study in the GDP, then if BioNTech wishes to Conduct the study at a later time, it must re-submit the Study Proposal for such study to the JDC for consideration in accordance with Section 4.5.1 as if the study were a new Proposed Study.

[***]

4.5.3 Preservation of Genentech Tumor Types. Following [***], if at a given time, the then-current GDP does not provide for a Clinical Study for a tumor type listed on Schedule 1.167 as Genentech Tumor Types, then BioNTech may propose a Clinical Study in such tumor type (a "**GTT Proposed Study**") by presenting a Study Proposal to the JDC pursuant to Section 4.5.1; provided that a GTT Proposed Study may not be in a Genentech Indication. The JDC shall decide whether to add such GTT Proposed Study to the GDP with Genentech having the right to cast the deciding vote. In the event that the JDC determines to add the GTT Proposed Study to the GDP, the applicable tumor type shall remain a Genentech Tumor Type and the applicable Indication shall become a GDP Indication. In the event the JDC determines not to add such GTT Proposed Study to the GDP, then BioNTech may pursue the GTT Proposed Study in accordance with the Study Proposal if all of the following conditions are met: [***]. In such case, upon BioNTech's timely (within the [***] timeframe described in the preceding sentence) Initiation of the GTT Proposed Study and so long as BioNTech is using Commercially Reasonable Efforts to Conduct such GTT Proposed Study, the GTT Proposed Study will be a BioNTech Study, the proposed Indication will be a BioNTech Indication and the applicable tumor type will cease to be a Genentech Tumor Type.

4.5.4 BioNTech's Conduct of BioNTech Studies. For any BioNTech Study (including [***] Conducted by BioNTech), the following shall apply:

(a) Each BioNTech Study shall be Conducted by BioNTech at BioNTech's sole cost and expense, which costs and expenses shall not be included in Shared Development Costs, unless otherwise agreed by the Parties. Notwithstanding the foregoing, in the event the JMC determines that the Manufacture and supply of Collaboration Product for such BioNTech Study can be supported within the Manufacturing Network in accordance with patient demand forecasting pursuant to the MDSA, the cost for Manufacturing the Collaboration Product at Commercial Facilities of Genentech within the Manufacturing Network will be charged to BioNTech [***]. BioNTech may contract with a contract research organization to conduct such study, *provided* that the terms of Section 4.4.4 shall also apply with respect to BioNTech's Conduct of BioNTech Studies.

(b) BioNTech shall not Initiate any BioNTech Study until after execution of the Pharmacovigilance Agreement by both Parties. BioNTech shall Conduct any BioNTech Clinical Study under [***] in accordance with Section 5.3. For clarity, subject to Genentech's rights and BioNTech's obligations as set forth in this Section 4.5, BioNTech may conduct a subsequent Clinical Study, including a Pivotal Study to the extent permitted under Section 4.5.2(b) or Section 4.5.2(c).

(c) All BioNTech Studies will be subject to oversight by the JDC and BioNTech shall (i) provide regular updates on the status and results of each such BioNTech Study to the JDC, including reporting the achievement of key Clinical Study and Development milestones to be determined by the JDC, and (ii) inform the JDC of any changes to the Study Proposal (including study designs and protocols) for each BioNTech Study. Genentech, through the JDC, shall be permitted to provide BioNTech with comments on the Development plans for BioNTech Studies and on the conduct of the BioNTech Studies, and BioNTech shall [***]. Notwithstanding the foregoing, any modifications to the protocol for a BioNTech Study that would (individually or collectively) constitute material deviations from the protocol in the Study Proposal originally presented to the JDC shall require the prior approval of the JDC, [***].

(d) BioNTech will use Commercially Reasonable Efforts to ensure careful and diligent execution of the Development program for each BioNTech Indication reflected in the initial Study Proposal therefor, and shall Conduct each BioNTech Study according to Applicable Law including Compliance Requirements. BioNTech shall fully and adequately fund and be responsible for any BioNTech Studies permitted pursuant to Section 4.5.2 (including Manufacturing at BioNTech's cost and expense adequate supply of Collaboration Product for such studies, which supply shall not prejudice the supply of Collaboration Product for activities under the Research Plan or the GDP or activities relating to Genentech Indications).

(e) In the event a BioNTech Study is in a Genentech Tumor Type, Genentech shall [***], in accordance with Section 2.7.2(g)(i). For clarity, (i) such [***] shall not apply in relation to Ongoing Clinical Studies or the Melanoma

Follow-up Study and (ii) BioNTech shall [***] regarding any BioNTech Study that was proposed as a GTT Proposed Study in accordance with Section 4.5.3.

(f) Unless otherwise agreed by the Parties, a BioNTech Study may only involve [***]

(g) [***]

4.5.5 Genentech's Opt-In Right for BioNTech Studies.

(a) For each BioNTech Study (including [***] that has been or is being conducted by BioNTech in a particular Indication, Genentech shall have the option ("**Opt-In Right**"), exercisable at any time prior to the first filing for the first application for Marketing Authorization for such Indication ("**Genentech Opt-In Period**"), to convert the Indication to a GDP Indication by providing written notice to BioNTech and paying the BioNTech Indication Opt-In Fee pursuant to Section 8.3. Upon written request of Genentech, BioNTech shall inform Genentech (in writing within [***] days of Genentech's written request) in reasonable detail of all Development Costs incurred for such BioNTech Indication which would form the basis for the calculation of the BioNTech Indication Opt-In Fee pursuant to Section 8.3. Any disputes in relation to such Development Costs shall be settled in accordance with Sections 8.16 and 8.17.

(b) In the event that the Genentech Opt-In Period expires with respect to a BioNTech Indication without exercise by Genentech of its Opt-In Right, and BioNTech's [***], the Parties may amend this Agreement to address further details of the transition including with respect to Product Trademarks, branding, NDC numbers and commercial launch activities.

(c) Following Genentech's exercise of its Opt-In Right with respect to a BioNTech Study [***], (i) the relevant Indication shall become a GDP Indication, and (ii) the relevant Collaboration Product shall cease to be a BioNTech Collaboration Product and shall become a GDP Collaboration Product. In addition, following Genentech's exercise of its Opt-In Right [***] with respect to a BioNTech Study (A) BioNTech shall complete any applicable Clinical Study (if such Clinical Study is still ongoing) under the GDP unless otherwise agreed by the Parties, (B) all Development Costs for such study incurred thereafter shall constitute Shared Development Costs and (C) BioNTech shall [***]. If, at the time of Genentech's exercise of its Opt-In Right [***], BioNTech has incurred costs or entered into non-cancellable financial commitments, in each case, relating to the construction, Commissioning, licensing, operation and/or maintenance of an Independent Facility, the Parties shall enter into good faith negotiations to determine whether it is feasible to continue to have such Independent Facility support the Manufacturing of such Collaboration Product or to find alternative ways to compensate BioNTech for the investments already made to the extent that such costs and non-cancellable financial commitments were specific to the Manufacture of the relevant BioNTech Collaboration Product and cannot be used for other purposes by BioNTech.

(d) In the event that the Genentech Opt-In Period with respect to a BioNTech Indication expires without exercise by Genentech of its Opt-In Right, then BioNTech shall notify Genentech [***].

4.6 Genentech's Conduct of Genentech Studies; [***] for Genentech Collaboration Products. In the event that BioNTech exercises its BioNTech Co-Funding Rejection right pursuant to Section 2.7.2(c), the following shall apply:

4.6.1 Each Genentech Study shall be Conducted by Genentech at Genentech's sole cost and expense, which costs and expenses shall not be included in Shared Development Costs, unless otherwise agreed by the Parties. The cost for Manufacturing the Collaboration Product at Clinical Facilities will be charged to Genentech [***].

4.6.2 In the event that a Regulatory Authority accepts a Drug Approval Application for a Genentech Collaboration Product in a Genentech Indication, then upon the first such acceptance by a Regulatory Authority, BioNTech shall be required to pay the Genentech Indication Co-Funding Fee (as set forth in Section 8.3.2) with respect to the applicable Genentech Indication. Following the first acceptance by a Regulatory Authority of an application for Marketing Authorization of a Genentech Collaboration Product, (a) the relevant Indication shall become a GDP Indication, and (b) the relevant Collaboration Product shall cease to be a Genentech Collaboration Product and shall become a GDP Collaboration Product.

4.7 [***]

4.8 Records and Reports; Study Data.

4.8.1 Each Party shall, and shall ensure that any of its Affiliates, subcontractors and Sublicensees performing Development activities with respect to the Collaboration Products and any Third Parties contracted pursuant to Section 4.4.4, maintain records in sufficient detail and in good scientific manner appropriate for patent and regulatory purposes, and in compliance with Applicable Law, which shall be complete and accurate and shall properly reflect all work done and results achieved in the performance of its designated Party Development Activities which shall record only such activities and shall not include or be commingled with records of activities other than Party Development Activities. Such records shall be retained by the applicable Party for the longer of (a) ten (10) years from its creation or (b) such period as may be required by Applicable Law.

4.8.2 Without limiting Sections 5.8 or 10.1, each Party shall use reasonable efforts to keep the other Party informed of its Party Development Activities and [***] per Calendar Year, at mutually agreed meetings of the JDC, shall provide to the JDC a reasonably detailed written report, in English, describing Party Development Activities performed and results obtained since the prior written report, in a form determined by the JDC. In the event that either Party requests further information regarding any such report,

including a request for Clinical Data, the Parties shall cooperate to achieve such data exchange in a thorough, timely and efficient manner. Neither Party shall be required to generate additional data or prepare additional reports to comply with the foregoing obligation. Notwithstanding the foregoing, the JDC may determine what reports shall be generated in respect of Party Development Activities, including the content and timing thereof, including by authorizing or requiring reports other than as provided in this Section 4.8.2. The Parties shall promptly share all such reports with the JDC.

4.8.3 Genentech shall own all right, title and interest in and to Genentech Molecule Clinical Study Data; provided that BioNTech shall have the right to use such Genentech Molecule Clinical Study Data, subject to Section 11.1, solely to perform its obligations under this Agreement.

4.9 Investigator-Sponsored Studies. Investigator-sponsored studies of the Collaboration Product with respect to which a Party or its Affiliate or its Sublicensee is providing funding or clinical supplies of Collaboration Product shall be treated as a Clinical Study Conducted by such Party for all purposes (including JDC review and approval, cost allocation and intellectual property). [***].

4.10 Compliance. Each Party shall perform or cause to be performed, any and all of its Party Development Activities in good scientific manner and in compliance with all Applicable Laws, including Compliance Requirements.

ARTICLE 5.
REGULATORY

5.1 General. For the purposes of this Agreement, the Parties agree that all GDP Indications for all Collaboration Products in a given jurisdiction will be governed by one or more Marketing Authorization(s) owned by Genentech or its Affiliate or Sublicensee (such Marketing Authorization(s) and any additional Marketing Authorizations owned by Genentech or its Affiliate or Sublicensee, each hereinafter a "**Genentech Marketing Authorization**").

5.2 Lead Regulatory Parties. "**Lead Regulatory Party**" means the Party so assigned pursuant to this Section 5.2, with the rights and responsibilities set forth under Section 5.4. The Party that is not the Lead Regulatory Party shall be the "**Supporting Regulatory Party**". Genentech shall be the Lead Regulatory Party with respect to all Collaboration Products for all Indications, other than with respect to (a) the Ongoing Clinical Studies, any Melanoma

Follow-Up Study permitted pursuant to Section 4.3.2(a), and (b) any BioNTech Study Conducted under [***]

5.3 BioNTech Study under [***]

5.3.1 If the JDC declines to include a Proposed Study from BioNTech in the GDP after [***] (or at such earlier time permitted pursuant to Section 4.5.2), and BioNTech has right to Conduct such Proposed Study pursuant to Section 4.5.2, then BioNTech may Conduct such Proposed Study as a BioNTech Study under [***].

5.3.2 Subject to Genentech's rights and BioNTech's obligations as set forth in Section 4.5 and provided that [***]

5.3.3 BioNTech shall prioritize Development and Manufacturing activities it is conducting in support of the GDP and GDP Collaboration Products and any Genentech Indications and Genentech Products over any development and manufacturing activities it is conducting in support of [***]. In particular, BioNTech agrees that:

(a) In any communications and interactions with a Regulatory Authority that are undertaken [***]

(b) BioNTech shall ensure that BioNTech Development and [***] Activities do not distract or divert resources from activities conducted under or in support of the GDP or GDP Collaboration Products or any Genentech Indications or Genentech Collaboration Products; and

(c) [***]

5.3.4 The Parties acknowledge and agree that this Agreement has been drafted primarily in view of the Genentech Marketing Authorization for GDP Collaboration Products. No later than [***] days following the request of Genentech, and in any event prior to [***], the Parties agree to amend this Agreement to reflect [***].

5.4 Regulatory Activities.

5.4.1 As between the Parties, the Lead Regulatory Party shall have the sole right and responsibility to prepare and submit Regulatory Documentation and to file for, obtain, and maintain Regulatory Approvals (including the setting of the overall regulatory strategy therefor). With respect to GDP Collaboration Products and Genentech Collaboration Products, the Supporting Regulatory Party shall support the Lead Regulatory Party, as may be reasonably necessary, in obtaining such Regulatory Approvals for the Collaboration Products, and in the activities in support thereof, including providing information, documents or other materials required by Applicable Law for inclusion in or in support of Regulatory Documentation, in each case in accordance with the terms and conditions of this Agreement and the GDP.

5.4.2 All Regulatory Documentation (including all Regulatory Approvals and Product Labeling) (except for Clinical Data which shall be owned pursuant to Section 4.8.3 or Section 11.1) relating to the Collaboration Products with respect to the Territory shall be owned by, and shall be the sole property and held in the name of, the Lead Regulatory Party or its designated Affiliate, Sublicensee or designee.

5.4.3 The Lead Regulatory Party pursuant to Section 5.2 with respect to [***] shall provide the other Party with an opportunity to review and comment on [***] The Lead Regulatory Party shall provide the Supporting Regulatory Party access to [***]

5.4.4 The Lead Regulatory Party pursuant to Section 5.2 [***] shall provide the Supporting Regulatory Party with prior written notice, to the extent the Lead Regulatory Party has advance knowledge, of any material scheduled meeting, conference, or discussion (including any advisory committee meeting) with a Regulatory Authority [***]

5.4.5 The Lead Regulatory Party shall make every reasonable effort to notify the Supporting Regulatory Party promptly following its determination that any event, incident, or circumstance has occurred that may result in the need for a recall, market suspension, or market withdrawal of a Collaboration Product in the Territory, and shall include in such notice the reasoning behind such determination, and any supporting facts. The Lead Regulatory Party shall have the right to make the final determination whether to voluntarily implement any such recall, market suspension, or market withdrawal in the Territory. If a recall, market suspension, or market withdrawal is mandated by a Regulatory Authority in the Territory, the Lead Regulatory Party shall initiate such a recall, market suspension, or market withdrawal in compliance with Applicable Law. For all recalls, market suspensions or market withdrawals undertaken pursuant to this Section 5.4.5, the Lead Regulatory Party responsible for the recall, market suspension, or market withdrawal shall be solely responsible for the execution thereof, and the Supporting Regulatory Party shall reasonably cooperate in all such recall efforts. [***]

5.5 CMC Regulatory Support.

5.5.1 For Clinical Manufacture and Commercial Manufacture of GDP Collaboration Products and Genentech Collaboration Products, BioNTech shall consult with Genentech, and provide to Genentech all

CMC-related documents and input as required by Genentech (or its Affiliate) or any applicable Regulatory Authority in connection with any Regulatory Documentation to be submitted to any applicable Regulatory Authority by Genentech (or its Affiliate) in order to obtain any required Regulatory Approvals in the Territory. In addition, for clinical supply of GDP Collaboration Products and Genentech Collaboration Products, BioNTech shall provide Genentech in a timely manner with a copy of any BioNTech Manufacturing and control records for Existing BioNTech Product and Collaboration Product which may be required for any Regulatory Documentation to be submitted by Genentech with respect to Collaboration Product, which records shall be in BioNTech's standard formats unless otherwise agreed upon by the Parties.

5.5.2 For GDP Collaboration Products and Genentech Collaboration Products that will be Manufactured by Genentech, BioNTech shall (a) consult with and otherwise provide support to Genentech on

CMC-related regulatory matters, as requested by Genentech and (b) assist Genentech (or its Affiliate) in responding to requests and inquiries from Regulatory Authorities prior to, during and after regulatory review periods, and attending meetings with Regulatory Authorities to the extent Genentech requests BioNTech to participate given its unique knowledge or its status as manufacturer of the Collaboration Product for clinical supply.

5.6 Regulatory Correspondence.

5.6.1 Each Party shall immediately and within [***] notify the other Party in writing of, and shall provide the other Party with copies of, any correspondence and other documentation received or prepared by such Party in connection with any of the following events: (a) receipt of a regulatory letter, warning letter, Form 483 (Inspectional Observations) or similar item, from the FDA or any other Regulatory Authority directed to the Manufacture or distribution of Collaboration Product by BioNTech or in connection with any general cGMP inspections applicable to the Facility; (b) any recall, market withdrawal or correction of any Collaboration Product Manufactured, tested, packaged, stored or distributed hereunder, where the recall, market withdrawal or correction is attributable to any Manufacturing or distribution activities by or on behalf of BioNTech; and (c) receipt of a regulatory letter, warning letter or similar item from the FDA or any other Regulatory Authority directed to or any regulatory comments related to Collaboration Product Manufactured or distributed hereunder where the comments relate or are attributable to any Manufacturing, testing, packaging, storage or distribution activities by or on behalf of BioNTech.

5.6.2 In the event Genentech receives any regulatory letter or comments from any Regulatory Authority in the Territory related to the Manufacture of Collaboration Product, including receipt of a Form 483 (Inspectional Observations) or a warning letter, BioNTech will, to the extent within its control or possession, promptly provide Genentech with relevant data or information related to the Manufacture of Collaboration Product sufficient for Genentech to prepare any response related to the Manufacture or distribution of Collaboration Product and will cooperate fully with Genentech in preparing such response. Genentech shall provide BioNTech with a copy of each such response (redacted to remove information not related to the Manufacture or distribution of Collaboration Product or Genentech's obligations under this Agreement) for BioNTech's review and comment prior to Genentech's submission of its detailed written response. Genentech shall give all due consideration to any BioNTech comments to each such proposed Genentech response provided that BioNTech conveys its comments to Genentech in a timely manner.

5.6.3 In the event BioNTech receives any regulatory letter or comments from any Regulatory Authority in the Territory directed to its Manufacture or distribution of Collaboration Product, including receipt of a Form 483 (Inspectional Observations) or a warning letter, Genentech will, to the extent within its control or possession, promptly provide BioNTech with all Information related to the Manufacture of Collaboration Product sufficient for BioNTech to prepare any response related to the Manufacture or distribution of Collaboration Product and will cooperate fully with BioNTech in preparing such response. BioNTech shall provide Genentech with a copy of each such response (redacted to remove information not related to the Manufacture or distribution of Collaboration Product or BioNTech's obligations under this Agreement) for Genentech's review and comment prior to BioNTech's submission of its detailed written response. BioNTech shall give all due consideration to any Genentech comments to each such proposed BioNTech response provided that Genentech conveys its comments to BioNTech in a timely manner.

5.7 Regulatory Data; Annual Report.

5.7.1 Each Party shall promptly provide to the other Party summaries of [***]

5.7.2 BioNTech shall support Genentech, as may be reasonably necessary or appropriate, in obtaining Regulatory Approval for the Collaboration Products, including providing necessary documents or other materials required by Applicable Law to obtain Regulatory Approvals, in each case in accordance with the terms and conditions of this Agreement and the GDP.

5.7.3 BioNTech shall provide Genentech within [***] days after the end of each annual reporting period for each applicable Collaboration Product (as calculated consistent with appropriate regulations and guidelines) with such information as is reasonably requested in writing by Genentech for the preparation of the annual report with respect to the Manufacturing and control of such Collaboration Product for such annual reporting period. Thereafter, Genentech shall provide to BioNTech at least [***] Business Days prior to Genentech's filing with the respective Regulatory Authorities a copy of such Genentech annual report, and Genentech shall take into consideration any BioNTech comments to such annual report with respect to the Manufacture of Collaboration Product.

5.8 Pharmacovigilance. Prior to [***], the Parties shall execute a separate pharmacovigilance agreement setting forth the Parties' responsibilities and obligations with respect to the procedures and timeframes for compliance with Applicable Law pertaining to safety reporting of the Collaboration Products ("**Pharmacovigilance Agreement**").

5.9 BioNTech Platform Product. During the Term and to the extent permissible under relevant agreements concluded with Third Parties, BioNTech shall provide a high level safety report in connection with the development of BioNTech Platform Products in order for Genentech to determine whether such development could impact the Development of Collaboration Products and whether a Regulatory Authority may require the reporting of certain safety data and related Information for such applicable BioNTech Platform Products. The contents and frequency of such report shall be determined by the JDC. In the event that Genentech determines that it may need to inform or report certain safety data and related Information for one or more BioNTech Platform Products, the Parties, through the JDC, shall discuss in good faith a path for providing such safety data and related Information for such BioNTech Platform Products to a Regulatory Authority and BioNTech shall provide reasonable assistance to Genentech in order for Genentech to report such safety data and related Information. In the event that BioNTech may not disclose such safety data and related Information to Genentech under relevant agreements concluded with Third Parties, BioNTech shall use reasonable efforts to enable Genentech to comply with its obligations under Applicable Law (e.g., if requested by Genentech, through a direct communication with the Regulatory Authority requesting such safety data and related Information or by obtaining the consent from the relevant Third Party, if possible). Genentech shall provide to BioNTech copies of all correspondence submitted to or received from any Regulatory Authority to the extent related to such safety data or related Information provided to Genentech under this Section 5.9.

ARTICLE 6.
COMMERCIALIZATION AND MEDICAL AFFAIRS

6.1 Generally.

6.1.1 Commercialization of GDP Collaboration Products, Royalty Products and BioNTech Collaboration Products. Except as otherwise provided in this Agreement or any Co-Promotion Agreement, Genentech (itself or through its Affiliates or Sublicensees) shall have the sole right to Commercialize each GDP Collaboration Product (including any Royalty Product) in the Territory and shall use Commercially Reasonable Efforts to Commercialize each GDP Collaboration Product (including any Royalty Product) in the Major Markets and in each other market in the Territory in which it has obtained Marketing Authorization for such GDP Collaboration Product. Except as otherwise provided in this Agreement, BioNTech shall have the right to Commercialize any BioNTech Collaboration Product under [***] Authorization, provided that [***]

6.1.2 Marketing of BioNTech Collaboration Products under [***]**.** In the event BioNTech has the right to Commercialize a BioNTech Collaboration Product under [***] in accordance with Section 5.1 and Section 6.1.1, BioNTech shall have the sole right to conduct, at its sole cost and expense, marketing activities in connection with such Commercialization, as addressed further in Schedule 5.3.

6.1.3 Value Creation. [***]

6.2 Booking of Sales; Distribution. Genentech shall have the sole right to (a) invoice and book sales, establish all terms of sale (including pricing and discounts), warehouse, and distribute GDP Collaboration Products (including Royalty Products) in the Territory and to perform or cause to be performed all related services and other Commercialization activities, (b) handle all order processing, invoicing, collection, distribution, reimbursement services, and inventory management with respect to such GDP Collaboration Products (including Royalty Products) in the Territory, (c) handle all returns, recalls, or withdrawals with respect to any GDP Collaboration Product (including any Royalty Product) in the Territory, (d) handle all payer/distributor account management with respect to any GDP Collaboration Product (including any Royalty Product) in the Territory, and (e) manage all aspects of contracting with providers, distributors, managed care vendors or payers with respect to any GDP Collaboration Product (including any Royalty Product) in the Territory. BioNTech shall have the sole right to do any of the above in relation to BioNTech Collaboration Products.

6.3 Product Trademarks. Genentech shall have the sole right and responsibility to determine the Product Trademarks to be used with respect to the Exploitation of the GDP Collaboration Products (including Royalty Products) on a worldwide basis, and to own any such Product Trademarks other than (in the event that Genentech determines that the IVAC Trademark shall be a Product Trademark) the IVAC Trademark. BioNTech shall not, and shall not permit its Affiliates to (a) use in their respective businesses, any Trademark that is confusingly similar to, misleading or deceptive with respect to or that dilutes any (or any part) of the Product Trademarks, or (b) do any act which endangers, destroys, or similarly affects, in any material respect, the value of the goodwill pertaining to the Product Trademarks. BioNTech agrees, and shall cause its Affiliates, to conform (x) to the customary industry standards for the protection of Product Trademarks for Pharmaceutical Products and such guidelines of Genentech with respect to manner of use (as provided in writing by Genentech) of the Product Trademarks, and (y) to maintain the quality standards of Genentech with respect to the goods sold and services provided in connection with such Product Trademarks. BioNTech shall not do any act which endangers, destroys, or similarly affects, in any material respect, the value of the goodwill pertaining to the Product Trademarks. BioNTech shall not, and shall not permit its Affiliates to, attack, dispute, or contest the validity of or ownership of such Product Trademark anywhere in the Territory or any registrations issued or issuing with respect thereto. The JCC shall approve any Product Trademarks to be used by BioNTech in connection with BioNTech Collaboration Products Commercialized under [***] pursuant to Section 6.1.1, and shall decline to approve any such Product Trademarks that the JCC determines may be confusingly similar to the Product Trademarks being used to Commercialize GDP Collaboration Products.

6.4 Product Labeling; Markings and Co-Branding.

6.4.1 Genentech shall own and be responsible for all Product Labeling for all GDP Collaboration Products (including Royalty Products), and BioNTech shall be responsible for all Product Labeling for all BioNTech Collaboration Products under [***]

6.4.2 To the extent permitted and appropriate, and except as otherwise required by Applicable Law, and subject to obtaining necessary Regulatory Approvals in a country in the Territory, the packaging, and Product Labeling for any GDP Collaboration Product (including any Royalty Product) and any promotional materials dedicated solely to a GDP Collaboration Product (including a Royalty Product) used by either Party or its Affiliates in connection with any GDP Collaboration Product (including any Royalty Product) in such country shall contain, [***] (collectively, the "**Markings**"). The manner in which the Markings are to be presented on such promotional materials, packaging, and Product Labeling for GDP Collaboration Products (including Royalty Products) shall be [***], subject to Sections 9.4 and 10.7. [***]

6.5 Co-Promotion Option.

6.5.1 Option. For each Co-Promotion Candidate Product, [***], during the applicable Co-Promotion Exercise Period, subject to the requirements of this Section 6.5, BioNTech shall have the right to assume [***] of the total sales force [***] measured in terms of FTEs (at a percentage within such range to be determined by Genentech), [***] in the Co-Promotion Potential Territory, [***], the "**Co-Promotion Territory**") (the "**Co-Promotion Option**").

6.5.2 Notice and Exercise.

(a) No later than [***], BioNTech shall notify Genentech that BioNTech has an interest in exercising its Co-Promotion Option [***]. Following receipt of such notice, Genentech shall (i) conduct a sales force sizing analysis for the applicable Co-Promotion Candidate Product [***], and (ii) provide the results of such analysis, as soon as reasonably practicable, but in any event no later than [***] months before the anticipated date of Commercial Readiness, to BioNTech for review and comment along with the percentage of such sales force for which BioNTech may exercise its Co-Promotion Option; provided that, following the first such BioNTech notice to Genentech that specifies countries other than or in addition to the U.S., Genentech shall provide the results of such sales force sizing analysis for any such countries that are European Union countries no later than [***] months before the anticipated date of Commercial Readiness.

(b) To exercise the Co-Promotion Option, BioNTech must provide Genentech with written notice of its election to exercise the Co-Promotion Option for the offered percentage with respect to the applicable Co-Promotion Candidate Product (thereafter, a "**Co-Promotion Product**), [***] within [***] days following receipt of Genentech's sales force analysis and percentage pursuant to Section 6.5.2(a).

(c) Notwithstanding the foregoing, if after the end of the Co-Promotion Exercise Period, Genentech exercises its Opt-In Right or a [***] occurs pursuant to Section 4.5.5, BioNTech shall automatically be deemed to have exercised its Co-Promotion Option with respect to the applicable GDP Collaboration Products [***] in all of the countries in the Co-Promotion Potential Territory unless and to the extent BioNTech rejects such deemed exercise in writing within [***] days of Genentech's payment of the applicable BioNTech Indication Opt-In Fee. Any such deemed exercise of BioNTech's Co-Promotion Option shall become effective upon the earlier of the expiration of the [***]-day rejection period or BioNTech's written notice to Genentech confirming its acceptance of such deemed exercise.

(d) Except as set forth in subsection (c) above, if BioNTech does not provide the election notice described in subsection (b) prior to expiration of the applicable Co-Promotion Exercise Period, BioNTech shall be deemed to have irrevocably waived its right to Co-Promote such Co-Promotion Candidate Product [***]

6.5.3

Co-Promotion Agreement. Promptly after BioNTech's first exercise of its Co-Promotion Option (or the effective date of a deemed exercise of BioNTech's Co-Promotion Option), the Parties shall commence negotiations in good faith and enter into a separate co-promotion agreement (the "**Co-Promotion Agreement**") setting forth the terms of BioNTech's and Genentech's Co-Promotion rights and obligations in accordance with the terms and conditions in this Section 6.5 and those set forth in Schedule 6.5.3 attached hereto. The Parties shall negotiate with such diligence as is required to enter into and execute the Co-Promotion Agreement within [***] months following BioNTech's first exercise (including any deemed exercise) of its Co-Promotion Option, or such other date as the Parties may agree in writing. The Parties shall promptly amend the Co-Promotion Agreement upon each

subsequent exercise or deemed exercise by BioNTech of its Co-Promotion Option (e.g., [***].

6.5.4 General Requirements for Co-Promotion Activities. BioNTech shall not engage in any Detailing until the Co-Promotion Agreement has been executed. BioNTech may not use a contract sales force to fulfill its Co-Promote obligations. Any BioNTech sales representatives involved in promoting a Co-Promotion Product shall devote [***] Under the Co-Promotion Agreement, Genentech shall have the sole right to control all decisions with respect to the co-promotion arrangement, including the call plans and assigned territories of BioNTech's sales representatives, the promotional materials to be used, the training and testing applicable to such sales representatives, and restrictions with respect to the ability of such sales representatives to Detail other products; provided that [***] "**Co-Promote**" or "**Co-Promotion**" means the Detailing and such other activities assigned to BioNTech in the Co-Promotion Agreement, and shall not include any Medical Affairs Activities, sale or distribution of such Co-Promotion Product [***] by BioNTech or its Affiliates. At least [***] months prior to the anticipated launch of each Co-Promotion Candidate Product, BioNTech must have a qualified sales force in place (representing the percentage of the total sales force assigned to BioNTech pursuant to Section 6.5.2(a)) with prior experience promoting products to prescribing oncologists in each relevant country. If BioNTech cannot demonstrate that it has such a qualified internal sales force [***] at least [***] months prior to the launch of the applicable Co-Promotion Candidate Product [***], BioNTech shall be deemed to have irrevocably waived its right to Co-Promote such Co-Promotion Candidate Product in such Indications in such country(ies).

6.5.5 Effect of Opt-Out. BioNTech's rights and obligations under this Section 6.5, including its Co-Promotion Option and any Co-Promotion Agreement, shall terminate immediately upon exercise of BioNTech's Opt-Out.

6.6 Medical Affairs.

6.6.1 General. Medical Affairs Activities are not intended to market or promote Collaboration Products.

6.6.2 GDP Collaboration Products. Genentech shall have the sole right and responsibility to conduct and make decisions regarding Medical Affairs Activities with respect to any GDP Collaboration Product. For clarity, Genentech shall retain such sole right and responsibility in the event that BioNTech exercises its Co-Promotion Option, including under the Co-Promotion Agreement.

6.6.3 BioNTech Indications. For each BioNTech Indication under [***], BioNTech shall have the sole right and obligation to conduct Medical Affairs Activities in relation to such BioNTech Indication, at BioNTech's sole cost and expense.

ARTICLE 7.
MANUFACTURING

7.1 Manufacturing Development and Supply Agreement. That certain Manufacturing Development and Supply Agreement entered into by and among RNP, BNT, GNE and Roche as of even date herewith and effective as of the Effective Date (the "**Manufacturing Development and Supply Agreement**") shall govern the Parties' respective responsibilities for and obligations with respect to Development of the Manufacturing Process and Technology Platform for Collaboration Product, Clinical Manufacture and Commercial Manufacture and supply of Collaboration Product and the Manufacturing Network for Collaboration Product, including Clinical Facilities and Commercial Facilities and the Manufacturing Operations Strategy; all of which shall be conducted under the oversight of the JMC.

7.2 Conflicts Between MDSA and Current Agreement. In the event of a conflict between this Agreement and the MDSA, the following principles shall apply: (a) this Agreement controls with respect to governance, decision-making and financial matters, and (b) the MDSA governs with regard to matters not falling within the categories specified in clause (a).

7.3 Effect of Opt-Out. In the event BioNTech exercises its Opt-Out right, or a Deemed Opt-Out occurs pursuant to Section 8.5.3, the following provisions shall apply upon the Opt-Out Commencement Date in respect of Development of the Manufacturing Process and Technology Platform and Manufacture of Collaboration Product.

7.3.1 Development Services. During a transitional period until the earlier of (i) [***] and (ii) [***], BioNTech shall continue to (a) develop the Manufacturing Process and the Technology Platform in accordance with the Technology Platform Strategy and Technology Platform Roadmap, each as may be amended from time to time; (b) conduct and support respective Technology Transfers to the Facilities of Genentech and (c) provide technical support for the Manufacturing Process in the Facilities of Genentech. In addition, and without limiting the foregoing, Genentech may request that BioNTech (including EUFETS) perform, to the extent not already completed and to enable Genentech to continue to develop the Manufacturing Process and Technology Platform, a Technology Transfer of the Manufacturing Process from the Clinical Facilities or the Pilot Facility to Genentech, including the Development of the Manufacturing Process, Manufacturing Documentation and BioNTech Know-How and any other reasonable activities, including any such activities that may be on-going in support of the Technology Platform Strategy and Technology Platform Roadmap. The following shall apply in respect of any activities performed by BioNTech (including EUFETS) under this Section 7.3.1:

(a) Genentech shall compensate BioNTech for the performance of such Development and Technology Transfer services at a rate equal to BioNTech's FTE Costs and consumables multiplied by one hundred fifteen percent (115%).

(b) Genentech may, at any time after the Opt-Out Commencement Date, terminate such Development and Technology Transfer services under this Section 7.3.1 upon [***] days' written notice.

(c) BioNTech shall perform the Development and Technology Transfer services in accordance with the requirements of the MDSA and the

Quality Agreement.

7.3.2 Clinical Manufacture and Supply. During a transitional period until the earlier of (i) [***] or (ii) [***], BioNTech shall perform Clinical Manufacture and supply the quantities of Collaboration Products for Clinical Studies contemplated by the GDP (as amended until the Opt-Out Commencement Date) or for Genentech Studies pursuant to the patient demand forecasting provisions of the MDSA. The following shall apply in respect of any activities performed by BioNTech (including EUFETS) under this Section 7.3.2:

(a) Genentech shall pay BioNTech a supply price for Collaboration Product equal to [***]

(b) Genentech may at any time after the Opt-Out Commencement Date, terminate the clinical supply of Collaboration Products under this Section 7.3.2 upon [***] written notice.

(c) During such time as BioNTech is obligated to provide clinical supply of Collaboration Products, it shall perform the Clinical Manufacture of Collaboration Product in accordance with the requirements of the MDSA (including for the avoidance of doubt with respect to Capacities and forecasting) and the Quality Agreement.

7.3.3 BioNTech Rights to Build Manufacturing Facilities and JMC Decision-Making Rights. BioNTech's rights to build any Commercial Facilities for inclusion in the Manufacturing Network pursuant to Section 2.2.2 of the MDSA and any Independent Facilities outside of the Manufacturing Network (including the Manufacture of BioNTech Indications under [***]) pursuant to Section 2.2.5 of the MDSA, respectively, shall terminate upon the Opt-Out Commencement Date. In addition, BioNTech's JMC decision-making rights as set forth in Section 2.8.2 shall terminate and become Genentech decision-making rights upon the Opt-Out Commencement Date. Notwithstanding the foregoing, in the event that BioNTech has completed Commissioning or obtained Licensure for a BioNTech Commercial Facility(ies) upon the Opt-Out Commencement Date, then [***]

7.3.4 Survival. The MDSA, the Commercial Manufacturing Agreement and the respective Quality Agreement(s) shall survive solely to the extent that, and as long as, BioNTech provides Development services or Manufacturing and supply services under this Section 7.3, and shall terminate thereafter except for those provisions specified in the MDSA, the Commercial Manufacturing Agreement and the respective Quality Agreement(s) which expressly survive termination.

ARTICLE 8.
PAYMENTS AND RECORDS

8.1 Upfront Payments. No later than [***] days following the Effective Date, Genentech shall pay BioNTech an irrevocable upfront amount equal to [***] of which:

[***]

Upon completion of the transfer of all documents, Know-How and materials set forth on Schedule 2.19.1(a) and Schedule 2.19.3 in accordance with the terms of Sections 2.19.1(a) and 2.19.3, BioNTech shall provide written notice to Genentech of such completion. No later than [***] Business Days from such notice, Genentech shall request any missing or incomplete documents, Know-How or materials set forth on Schedule 2.19.1(a) or Schedule 2.19.3. Subject to Section 10.9, no later than [***] days following (a) Genentech's confirmation that such transfer is complete and the transferred items are reasonably acceptable to Genentech in terms of content that would be reasonably expected for a transfer of this type, or (b) the expiration of such [***] Business Day period without any Genentech request for missing or incomplete documents, Know-How or materials, Genentech shall pay BioNTech an additional amount equal to [***]. In the initial BioNTech press release permitted under Section 11.4.2, BioNTech may describe the two payments under this Section 8.1 as "$310,000,000 in upfront and near term milestone payments". [***].

8.2 Development Costs.

8.2.1 Development Costs Relating to Ongoing Clinical Studies. BioNTech shall be solely responsible for and shall bear all Development Costs incurred by it and its Affiliates in connection with the performance of the Ongoing Clinical Studies and any Melanoma Follow-Up Study conducted pursuant to Section 4.3.2.

8.2.2 Development Costs Relating to Joint Development Activities (i.e., Shared Development Costs). Except as otherwise provided herein, each Party shall bear fifty percent (50%) of all Shared Development Costs.

(a) [***]

(b) [***]

(c) Genentech shall be solely responsible for and bear 100% of all Shared Development Costs incurred after the Opt-Out Commencement Date in the event of an Opt-Out by BioNTech or a Deemed Opt-Out pursuant to Section 8.5.3.

8.2.3 Forecasting of Development Costs.

(a) Genentech shall provide to BioNTech consolidated non-binding forecasts of Shared Development Costs in accordance with its regular internal forecasting processes for informational purposes only. This shall include forecasting of the GDP Budget for a given Calendar Year, regular variance updates to the then current Calendar Year forecast, and multi-year outlooks. The forecasting process shall commence with the first forecast cycle at Genentech following the Effective Date and shall continue as long as there are forecasted Shared Development Costs. Genentech shall provide notice to BioNTech [***] days prior to each forecast to request BioNTech's forecast of Shared Development Costs that BioNTech expects to incur in connection with Joint Development Activities assigned to BioNTech in accordance with the relevant forecast period. BioNTech will provide the appropriate data within [***] days of receipt of any such notice.

(b) In addition, BioNTech shall inform Genentech if it determines that the Development Costs relating to any BioNTech Study or any Ongoing Clinical Study which are expected to be incurred by BioNTech will likely exceed, in each case, the originally forecasted BioNTech budget by more than [***].

8.2.4 Shared Development Cost Overruns. [***]

8.2.5 Development Costs Relating to BioNTech Studies. BioNTech shall bear one hundred percent (100%) of all Development Costs incurred in connection with the performance of BioNTech Studies, subject to Section 4.5.5. In the event that Genentech incurs Development Costs in connection with a BioNTech Study, then such costs shall be reported to BioNTech within [***] days after the end of each Calendar Quarter and reimbursed by BioNTech with [***] days after the end of such Calendar Quarter, and Genentech may offset the amounts of any such unpaid invoices from any payments due to BioNTech pursuant to Sections 8.2.7, 8.4.1, and 8.7. The preceding sentence shall apply *mutatis mutandis* if BioNTech incurs Development Costs in connection with any Genentech Study.

8.2.6 Development Costs and Reconciliation. Each Party shall report to the other Party, within [***] days after the end of each Calendar Quarter, the Development Costs incurred by such Party during such Calendar Quarter for Joint Development Activities (unless the other Party has no obligation to reimburse such Development Costs). Such report shall specify in reasonable detail all amounts included in such Development Costs during such Calendar Quarter (broken down by activity), and any FTE Costs and out-of-pocket costs shall be allocated to the extent possible to a specific activity in the applicable GDP. Each such report shall enable the receiving Party to compare the reported Development Costs against the applicable GDP Budget previously approved by the JDC, on both a quarterly basis and a cumulative basis for each activity. With respect to Shared Development Costs under the GDP (other than those following the effective date of an Opt-Out by BioNTech), the Parties shall seek to resolve any questions related to such accounting statements within [***] days following receipt by each Party of the other Party's report hereunder. Following such resolution, Genentech shall prepare a reconciliation report for the Shared Development Costs under the GDP for such Calendar Quarter and shall either (a) deliver an invoice to BioNTech for any amounts due to Genentech as a result of reconciliation or (b) notify BioNTech that it should issue an invoice to Genentech, if BioNTech is assigned activities under the GDP and its Shared Development Costs under the GDP exceed Genentech's Shared Development Costs under the GDP for such Calendar Quarter.

8.2.7 Shared Development Cost Reconciliation Payments. Shared Development Costs shall initially be borne by the Party (or its Affiliates) incurring the cost or expense and thereafter shall be subject to reimbursement, if applicable, in accordance with Section 8.2.2, Section 8.2.6 and this Section 8.2.7. Within [***] days after the end of each Calendar Quarter, following receipt of an invoice therefor from the other Party, the Party that has paid less than its share of Shared Development Costs during such Calendar Quarter shall make a reconciling payment to the other Party to achieve the appropriate allocation of Shared Development Costs provided in Section 8.2.2.

8.3 BioNTech Indication

Opt-In Fee; Genentech Indication Co-Funding Fee.

8.3.1 BioNTech Indication

Opt-In Fee. Upon Genentech's exercise of its Opt-In Right or occurrence of a [***] with respect to a BioNTech Indication pursuant to Section 4.5.5, BioNTech shall submit a written invoice to Genentech for the BioNTech Indication Opt-In Fee which shall set forth in reasonable detail all Development Costs incurred by BioNTech prior to the date of the invoice for such BioNTech Indication. Genentech shall pay such invoice within [***] days following receipt thereof except in the event of a dispute regarding the invoiced amount, in which case the dispute shall be resolved pursuant to Sections 8.16 and 8.17, and Genentech shall pay such invoice within [***] days following the resolution of such dispute. The opt-in fee for a given BioNTech Indication shall be a one-time fee equal to [***] (such amount, a "**BioNTech Indication Opt-In Fee**"). Following Genentech's exercise of its Opt-In Right with respect to a BioNTech Indication, any future Development Costs for such Indication shall be considered Shared Development Costs and the applicable Collaboration Product shall thereafter be deemed a GDP Collaboration Product (and no longer a BioNTech Collaboration Product).

8.3.2 Genentech Indication

Co-Funding Fee. In the event BioNTech is required pursuant to Section 4.6.2 to pay a Genentech Indication Co-Funding Fee, then Genentech shall submit a written invoice to BioNTech for such fee which shall set forth in reasonable detail all Development Costs incurred by Genentech prior to the date of the invoice for such Genentech Indication as to which BioNTech exercised the BioNTech Co-Funding Rejection plus [***] ("**Genentech Indication Co-Funding Fee**"). BioNTech shall pay such invoice within [***] days following receipt thereof except in the event of a dispute regarding the invoiced amount, in which case the dispute shall be resolved pursuant to Sections 8.16 and 8.17, and BioNTech shall pay such invoice within [***] days following the resolution of such dispute. After the date of such invoice, any future Development Costs for such Indication shall be considered Shared Development Costs.

8.4 Profit or Loss Share. Commencing as of the First Commercial Sale in the Territory of a GDP Collaboration Product, in the event that BioNTech has not exercised its Opt-Out pursuant to Section 8.5, the terms and conditions of this Section 8.4 shall govern each Party's rights and obligations with respect to Net Profits and Net Losses relating to GDP Collaboration Products. Subject to this Section 8.4, (a) BioNTech shall receive fifty percent (50%) of all Net Profits, and bear fifty percent (50%) of all Net Losses, as applicable, with respect to GDP Collaboration Products and (b) Genentech shall receive fifty percent (50%) of all Net Profits, and bear fifty percent (50%) of all Net Losses. An example of a calculation of Net Profit/Loss and related settlement calculations is set forth on Schedule 8.4. This example is for illustration only and reflects only one possible scenario.

8.4.1 Profit/Loss Split Reports and Payments. In the event that this Section 8.4 applies, each Party shall report to the other Party within [***] days after the end of each Calendar Quarter commencing with the Calendar Quarter in which the First Commercial Sale in the Territory of a GDP Collaboration Product occurs, the elements of the Net Profit/Net Loss calculation, including Net Sales and Allowable Expenses (including Fully-Burdened Manufacturing Cost) incurred by such Party during

such Calendar Quarter.

Such report shall specify in reasonable detail all deductions allowed and taken in the calculation of Net Sales and all expenses included in Allowable Expenses. [***]. Within [***] days after receipt of such reports, Genentech shall provide a consolidated financial statement setting forth the Net Profit or Net Loss for the Calendar Quarter. The following remittances shall be paid within [***] days after Genentech has provided the consolidated financial statement:

(a) If there is a Net Profit for such Calendar Quarter, then Genentech shall pay to BioNTech an amount equal to (i) fifty percent (50%) of the Net Profit for such Calendar Quarter, plus (ii) the Allowable Expense, if any, incurred by BioNTech in such Calendar Quarter; or

(b) Subject to Section 8.4.1(d) below, if there is a Net Loss for such Calendar Quarter, then the Party that has borne less than fifty percent (50%) of the Net Losses in in such Calendar Quarter shall make a reconciling payment to the other Party so that each Party bears a fifty percent (50%) share of the Net Losses during such Calendar Quarter.

(c) [***]

(d) [***]

(e) [***]

8.4.2 FTE Records and Calculations. Each Party shall record and account for its FTE effort to the extent that such FTE efforts are included in Development Costs or Allowable Expenses that are, or may in the future be, shared (or the basis for determining a BioNTech Indication Opt-In Fee or a Genentech Indication Co-Funding Fee) under this Agreement. Each Party shall calculate and maintain records of FTE effort incurred by it in the same manner as used for other products Developed by such Party, unless other procedures are set forth in the Co-Promotion Agreement, in which case such other procedures shall be applied equally to both Parties to the extent set forth in the Co-Promotion Agreement.

8.5 BioNTech Opt-Out Right.

8.5.1 Exercise of Opt-Out by BioNTech. During the BioNTech Opt-Out Period, by written notice to Genentech, BioNTech shall have the right to opt-out of its obligation to pay fifty percent (50%) of all future Shared Development Costs ("**Opt-Out**") incurred after the Opt-Out commencement date set forth in the table below, or such later date in the table below as may be specified in BioNTech's notice ("**Opt-Out Commencement Date**"). In no event shall BioNTech shall have the right to Opt-Out if a notice of termination of this Agreement has been delivered by either Party. For clarity, BioNTech shall continue to co-fund the GDP during the period between the exercise of its Opt-Out and the Opt-Out Commencement Date.

[***]

8.5.2 Consequences of Opt-Out. In the event BioNTech exercises its Opt-Out (or a Deemed Opt-Out occurs pursuant to Section 8.5.3), then starting with the Opt-Out Commencement Date, (a) Net Profits/Net Losses shall no longer be shared by the Parties pursuant to Section 8.4, and (b) Shared Development Costs shall no longer be shared by the Parties pursuant to Section 8.2.2, Section 8.2.6 and Section 8.2.7. Instead, BioNTech shall receive as its sole future financial consideration, royalty payments on Net Sales of Royalty Products pursuant to Section 8.6. In addition, effective as of the Opt-Out Commencement Date, the consequences set forth in Sections 2.18, 6.5.5 and 7.3 shall become effective immediately, and BioNTech shall become solely responsible for any Existing Third Party In-License Agreement Royalty Payments, and, unless otherwise agreed in writing between the Parties, BioNTech shall cease all its activities under the Research Plan and all its Party Development Activities (to the extent permitted by Applicable Law) and transfer to Genentech all data and other Know-How created in connection with the Party Development Activities and activities under the Research Plan or the CMC Development Plan in BioNTech's possession and not previously transferred to Genentech pursuant to Section 2.19.

8.5.3 Deemed Opt-Out. At any time during the Term, if BioNTech is either (i) unable to pay or is late in paying (by [***] days or more with respect to any invoice) BioNTech's portion of its Development Costs shared under Section 8.2.2 [***], Genentech may provide BioNTech with written notice that an Opt-Out by BioNTech has been deemed to have occurred ("**Deemed Opt-Out**"), which notice shall state the applicable Opt-Out Commencement Date, which shall be the first day of the Calendar Quarter following such default in payment.

8.6 Royalties.

8.6.1 Royalty Rates. In lieu of sharing Net Profit/Net Loss, in the event of an Opt-Out by BioNTech pursuant to Section 8.5 or a Deemed Opt-Out pursuant to Section 8.5.3, during the Royalty Term, and subject to Section 8.6.3, Genentech shall pay to BioNTech [***] (the "**Royalty Rate**") on annual worldwide Net Sales of each Royalty Product which, at the time of sale, is Covered by a Valid Claim included in the [***]

8.6.2 Royalty Term. Genentech shall have no obligation to pay any royalty with respect to Net Sales of any Royalty Product in any country after the Royalty Term for such Royalty Product in such country has expired. Upon expiry of Genentech's payment obligation under this Section 8.6 with respect to a Royalty Product in a country, the license in Section 9.1.1 shall be fully paid-up, royalty-free and irrevocable in respect of that Royalty Product in that country.

8.6.3 Reductions. Notwithstanding the foregoing:

(a) in the event that [***] during the Royalty Term for a Royalty Product, one or more Competitive Products are sold [***], then the Royalty Rate applicable to Net Sales of Royalty Products [***] shall be reduced to [***] for the remainder of the Royalty Term, [***];

(b) in the event that Genentech obtains rights or licenses from a Third Party under Third Party IP pursuant to Section 10.6, Genentech shall be entitled to deduct [***];

(c) [***]; and

(d) at Genentech's election, Genentech shall have the right to offset from future royalties under this Section 8.6 any unpaid deferred Development Costs that have come due under Section 8.2.2.

8.7 Royalty Payments and Reports. Genentech shall calculate all amounts payable to BioNTech pursuant to Section 8.6 at the end of each Calendar Quarter, which amounts shall be converted to Dollars, in accordance with Section 8.9. Genentech shall pay to BioNTech the royalty amounts due with respect to a given Calendar Quarter within [***] days after the end of such Calendar Quarter. Each payment of royalties due to BioNTech shall be accompanied by a statement of the amount of Net Sales of each Royalty Product in the Territory during the applicable Calendar Quarter converted to Dollars and a calculation of the amount of royalty payment due on such Net Sales for such Calendar Quarter. Without limiting the generality of the foregoing, Genentech shall require its Affiliates and Sublicensees to account for their Net Sales and to provide such reports with respect thereto as if such sales were made by Genentech.

8.8 Apportionment of Compulsory Sublicensee Consideration.

[***].

8.9 Mode of Payment; Offsets. All payments to either Party under this Agreement shall be made by deposit of Dollars in the requisite amount to such bank account as the receiving Party may from time to time designate by notice to the paying Party. As of the Execution Date, that applicable bank account for payments to each Party is set forth in Schedule 8.9. For the purpose of calculating any sums due under, or otherwise reimbursable pursuant to, this Agreement (including the calculation of Net Sales expressed in currencies other than Dollars), a Party shall convert any amount expressed in a foreign currency into Dollar equivalents using the then-current internal foreign currency translation method actually used by such Party on a consistent basis in preparing its audited financial statements. Either Party shall have the right to offset any expense that is owed by the other Party but not paid against any payments owed by either Party, if any, under this Agreement.

8.10 Accounting Procedures. For purposes of determining Development Costs and Allowable Expenses, any expense allocated by either Party to a particular expense category of Development Costs or Allowable Expenses shall not also be allocated to another category under Development Costs or Allowable Expenses. Each Party shall determine Development Costs and Allowable Expenses using its standard accounting procedures, consistently applied, to the maximum extent practicable as if the Collaboration Product were a solely-owned product of the Party (provided that the application of such procedures results, on balance, in outcomes that are fair and equitable to both Parties taking into consideration the interests of both Parties as reflected in this Agreement). The Parties also recognize that such procedures may change from time to time and that any such changes may affect the calculation of Development Costs, Allowable Expenses, and such other expenses. Where the change is or would be material to the other Party, the Party proposing to make the change shall provide the other Party with an explanation of the proposed change and an estimation of the effect of the change on the relevant cost or expense category. The Parties shall use good faith efforts to negotiate any resulting changes to this Agreement so as to preserve as closely as reasonably possible the Parties' respective economic interests under this Agreement. Transfers between a Party and its Affiliates (or between such Affiliates) shall not have any effect for purposes of calculating Development Costs, Allowable Expenses, or other payments or expenses under this Agreement.

8.11 Taxes.

8.11.1 Each Party will make all payments to the other Party under this Agreement without deduction or withholding for Taxes except to the extent that any such deduction or withholding is required by law in effect at the time of payment.

8.11.2 Any Tax required to be withheld on amounts payable under this Agreement will promptly be paid by the Party making the payment (the "**Payor**") on behalf of the Party receiving the payment (the "**Payee**") to the appropriate Governmental Authority, and Payor will furnish Payee with proof of payment of such Tax.

8.11.3 Each Party agrees to use commercially reasonable efforts to assist the other Party in claiming exemption from such deductions or withholdings under double taxation or any similar agreement or treaty from time to time in force and in minimizing the amount required to be so withheld or deducted.

8.11.4 All amounts payable under or provided for in this Agreement shall be exclusive of any amount in respect of VAT. If VAT is applicable on any amount payable under this Agreement and the reverse charge procedure does not apply, then the Payor shall pay an additional amount equal to VAT on that amount; provided it has first received a valid invoice for the supply, save when the reverse charge procedure applies. Valid invoices must include all relevant information as stated in any applicable guideline or as defined by other local rules and regulations as the case may be.

8.11.5 To the extent the activities of the Parties under this Agreement result in the recognition of a partnership for non-U.S. Tax purposes, the Parties agree that any non-U.S. Tax imposed at the level of the partnership on its profit (not including Tax required to be withheld to satisfy a Party's own income tax obligation) shall be allocated and borne by the Parties according to the partnership profit allocation under the respective applicable tax law.

8.11.6 In the event of a conflict between this Agreement and any Ancillary Agreement, this Agreement shall control with respect to Tax matters. Solely for purposes of this Section 8.11, "**Tax**" or "**Taxes**" means any present or future taxes, levies, imposts duties, charges, assessments or fees of any nature (including interest, penalties and additions thereto).

8.12 Interest on Late Payments. If any payment due to either Party under this Agreement is not paid when due, then such paying Party shall pay interest thereon (before and after any judgment) at an annual rate (but with interest accruing on a daily basis) of [***], such interest to run from the date on which payment of such sum became due until payment thereof in full together with such interest.

8.13 Tax Returns.

[***]

8.14 Financial Records. Each Party shall, and shall cause its Affiliates to, keep complete and accurate books and records pertaining to Development Costs, Net Sales, Fully-Burdened Manufacturing Costs, Allowable Expenses and, with limiting the foregoing, elements in the calculation of Net Profits/Net Losses, as applicable, and Development of Collaboration Products in sufficient detail to calculate all amounts payable hereunder and to verify compliance with its obligations under this Agreement. Such books and records shall be retained by such Party and its Affiliates until the later of (a) [***] after the end of the period to which such books and records pertain, and (b) the expiration of the applicable tax statute of limitations (or any extensions thereof), or for such longer period as may be required by Applicable Law.

8.15 Invoices. Each invoice issued pursuant to this Article 8 shall refer to this Agreement and identify the trigger for the payment obligation. Unless otherwise requested by Genentech in writing, BioNTech shall send invoices to Genentech at the address for GNE in the preamble of this Agreement, to the attention of [***]. With respect to invoices issued by Genentech, Genentech shall send invoices to BioNTech at:

Biontech RNA Pharmaceuticals GmbH
Attn: [***]
An der Goldgrube 12
55131 Mainz, Germany.

8.16 Audit. At the request of the other Party, each Party shall, and shall cause its Affiliates to, permit an independent auditor designated by the other Party and reasonably acceptable to the audited Party, at reasonable times and upon reasonable notice, to audit the books and records maintained pursuant to Section 8.14 to ensure the accuracy of all reports and payments made hereunder. Such examinations may not (a) be conducted for any Calendar Quarter more than [***] after the end of such quarter, (b) [***] or (c) [***]. Except as provided below, the cost of this audit shall be borne by the auditing Party, unless the audit reveals a variance of more than [***] from the reported amounts, in which case the audited Party shall bear the cost of the audit. Unless disputed pursuant to Section 8.17 below, if such audit concludes that (i) additional amounts were owed by the audited Party, the audited Party shall pay the additional amounts, with interest from the date originally due as provided in Section 8.12, or (ii) excess payments were made by the audited Party, the auditing Party shall reimburse such excess payments, in either case ((i) or (ii)), within [***] days after the date on which such audit is completed by the auditing Party.

8.17 Audit Dispute. In the event of a dispute with respect to any audit under Section 8.16, BioNTech and Genentech shall work in good faith to resolve the disagreement. If the Parties are unable to reach a mutually acceptable resolution of any such dispute within [***] days, either Party may submit the dispute for resolution to a certified public accounting firm jointly selected by each Party's certified public accountants or to such other Person as the Parties shall mutually agree (the "**Arbitrator**"). The decision of the Arbitrator shall be final and the costs of such arbitration as well as the initial audit shall be borne between the Parties in such manner as the Arbitrator shall determine. Not later than [***] days after such decision and in accordance with such decision, the audited Party shall pay the additional amounts, with interest from the date originally due as provided in Section 8.12, or the auditing Party shall reimburse the excess payments, as applicable.

8.18 Confidentiality. The receiving Party shall treat all information subject to review under this Article 8 in accordance with the confidentiality provisions of Article 11 and the Parties shall cause the Arbitrator to enter into a reasonably acceptable confidentiality agreement with the audited Party obligating such firm to retain all such financial information in confidence pursuant to such confidentiality agreement.

ARTICLE 9.
GRANT OF RIGHTS

9.1 Licenses to Genentech.

9.1.1 Exclusive License. BioNTech hereby grants to Genentech an exclusive (subject to [***], non-transferable (other than in connection with a permitted assignment of this Agreement), sublicensable (only in accordance with Section 9.3) license, under the BioNTech IP (including the Know-How and Patents related to the Manufacturing Process which includes the IVAC 2.0 Process, the IVAC 2.1 Process, any IVAC x.y Process and the Commercial Manufacturing Process) and BioNTech's interest in the Collaboration IP (subject in the case of [***] subject to [***], to (a) research, develop, make, have made, use, offer for sale, sell and import Pharmaceutical Products that comprise (i) one or more Neoepitope RNA(s), [***] in the Field in the Territory and (b) otherwise perform its obligations under this Agreement and the Ancillary Agreements, *provided* that [***]

9.1.2

Non-Exclusive License. [***]

9.1.3 No License. Notwithstanding the license granted in Section 9.1.1, nothing in this Agreement shall be deemed to grant to Genentech any license or other rights under the BioNTech IP to [***]

9.1.4 Notice Rights. [***]

9.2 Licenses to BioNTech.

9.2.1 License; Grant Back License.

(a) Genentech hereby grants to BioNTech an exclusive (subject to Genentech's rights under Section 4.5.5 and Genentech's obligations under MDSA),
non-transferable (other than in connection with a permitted assignment of this Agreement), sublicensable (only in accordance with Section 9.3) license, under the Genentech IP, the BioNTech IP (to the extent exclusively licensed to Genentech under Section 9.1.1) and Genentech's interest in the Collaboration IP (to the extent exclusively licensed to Genentech under Section 9.1.1) (in the case of Collaboration Product Clinical Study Data, subject to Section 11.6), to (a) research, develop, make, have made, use, and import BioNTech Collaboration Products solely in connection with the Conduct of the BioNTech Studies and (b) Conduct the Ongoing Clinical Studies in accordance with Section 4.3.1 and any related follow-up clinical study to the extent permitted under and in accordance with Section 4.3.2; provided that, [***].

(b) Genentech hereby grants to BioNTech a
non-exclusive, non-transferable (other than in connection with a permitted assignment of this Agreement), sublicensable (only in accordance with Section 9.3) license, under the Genentech IP (excluding any Neoepitope Prediction Algorithm within the Genentech IP which is the subject of the license set forth in Section 9.2.2), the BioNTech IP (to the extent licensed to Genentech under Section 9.1.1) and the Collaboration IP (but in the case of Collaboration Product Clinical Study Data, subject to Section 11.6) (i) to perform its obligations under this Agreement and the Ancillary Agreements (including any Co-Promotion Agreement) and (ii) to construct and use Commercial Facilities as set forth in Section 2.2.4 of the MDSA.

(c) Subject to, and effective only upon expiration of, Genentech's
Opt-In Rights and [***] pursuant to Section 4.5.5, Genentech hereby grants to BioNTech an exclusive, non-transferable (other than in connection with a permitted assignment of this Agreement), sublicensable (only in accordance with Section 9.3) license, under the Genentech IP, the BioNTech IP (to the extent exclusively licensed to Genentech under Section 9.1.1) and Genentech's interest in the Collaboration IP (to the extent exclusively licensed to Genentech under Section 9.1.1) (in the case of Collaboration Product Clinical Study Data, subject to Section 11.6), to offer for sale, sell or import BioNTech Collaboration Products.

9.2.2

Non-Exclusive License. [***].

9.2.3 No License. Notwithstanding the licenses granted in Section 9.2.1, nothing in this Agreement shall be deemed to grant to BioNTech any license or other rights under the Genentech IP to [***].

9.3 Sublicenses; Exercise of Licensed Rights by Third Parties or Affiliates. Either Party may sublicense the rights under the licenses granted to it under Sections 9.1.1, 9.2.1, 9.4 and 9.5 to its permitted subcontractors hereunder (subject to Sections 3.2 and 4.4.4) or under any Ancillary Agreement (or in the case of Genentech, **[***]** without the other Party's consent, provided that such Party (1) shall remain directly responsible for all of its obligations under this Agreement that have been, so subcontracted or sublicensed and (2) shall ensure that such subcontractors and sublicensees comply with the terms and conditions of this Agreement, including the intellectual property provisions and confidentiality provisions of this Agreement. Subject to Sections 3.2 and 4.4.4, the rights under the licenses granted in Sections 9.1.1 and 9.1.2 and Sections 9.2.1 and 9.2.2 may be exercised by a Third Party on behalf of a Party (or a permitted sublicensee) without the grant of a sublicense of such rights. Either Party may exercise its rights and perform its obligations under this Agreement by itself or through the engagement of any of its Affiliates. Any other sublicensing under Section 9.1.1 or 9.2.1 shall require the other Party's prior written consent. For the avoidance of doubt, any sublicenses granted hereunder shall terminate automatically upon the termination of the relevant main license granted hereunder. As between the sublicensing Party and its Sublicensee, any intellectual property made as a result of the performance of such activities by such Sublicensee shall be Controlled by the sublicensing Party. In the event that such intellectual property would, if it were made by a Party, be Collaboration IP, then such intellectual property shall be Collaboration IP. In the event that such intellectual property would, if it were made by a Party, be BioNTech IP or Genentech IP, then such intellectual property is hereby licensed to the other Party subject to Section 9.1 or 9.2, as applicable.

9.4 Trademark and Corporate Names Licenses. BioNTech hereby grants to Genentech a worldwide, fully-paid, non-exclusive license, with the right to grant sublicenses solely as provided in Section 9.3 and subject to Section 10.7.1, to use the Corporate Names of BioNTech, solely in connection with the exercise of Genentech's rights and fulfillment of Genentech's obligations under Section 6.4. BioNTech hereby grants to Genentech a worldwide, fully-paid, exclusive license, with the right to grant sublicenses solely as provided in Section 9.3, and subject to Section 10.7, to use the IVAC Trademark as a Product Trademark in connection with the exercise of Genentech's rights and obligations under this Agreement if Genentech sees fit to also use the IVAC Trademark as a Product Trademark. In the event that the Parties enter into a Co-Promotion Agreement, Genentech shall grant to BioNTech a non-exclusive license to use the Corporate Names of Genentech and any Product Trademarks in connection with BioNTech's activities under such agreement.

9.5 Rights of Reference or Use.

9.5.1 In the event that BioNTech [***] pursuant to Sections 4.5 and 5.3, effective as of the date of filing, Genentech hereby grants (and shall cause its Affiliates and Sublicensees under the license granted in Section 9.1.1 to grant) to BioNTech during the Term a non-exclusive, non-transferable (other than in connection with a permitted assignment of this Agreement but not in connection with a Change in Control except as otherwise provided in Section 15.2) Right of Reference or Use (with the right to grant further rights of reference to Affiliates, Sublicensees and any exclusive distributor in any country in which BioNTech uses an exclusive distributor for its products) to [***] Genentech will provide a letter to FDA or the applicable Regulatory Authority confirming such Right of Reference or Use in support of a [***]. For clarity, notwithstanding any grant to BioNTech of a Right of Reference or Use pursuant to this Section 9.5, BioNTech shall have no rights to any Genentech Molecule Clinical Trial Data, any Genentech IP (except as licensed pursuant to Section 9.2) or any other intellectual property Controlled by Genentech or any of its Affiliates or sublicensees.

9.5.2 BioNTech hereby grants (and shall cause its Affiliates and Sublicensees under the license granted in Section 9.2.1 to grant) to Genentech during the Term a non-exclusive, non-transferable Right of Reference or Use to [***] BioNTech will provide a letter to FDA or the applicable Regulatory Authority confirming such Right of Reference or Use in support of a Genentech IND or Genentech Marketing Authorization. For clarity, notwithstanding any grant to Genentech of a Right of Reference or Use pursuant to this Section 9.5, Genentech shall have no rights to any Clinical Data or other intellectual property, in both cases, that is solely related to any Combination Agent Controlled by BioNTech or any of its Affiliates or sublicensees.

9.6 Genentech Rights of First Negotiation. Genentech shall have rights to engage in exclusive negotiations with BioNTech and certain other related rights as set forth in this Section 9.6.

9.6.1 [***]

9.6.2 [***]

9.6.3 ROFN Procedures. "**ROFN Licensable Subject Matter**" means each combination of products under Section 9.6.1 or each [***] under Section 9.6.2, as with respect to which Genentech has a right of first negotiation under such Section. "**ROFN**" means, with respect to each ROFN Licensable Subject Matter, Genentech's right to engage in exclusive negotiations for such ROFN Licensable Subject Matter before BioNTech licenses, grants, or otherwise transfers, including by option or sale, to any Third Party any rights to develop manufacture, commercialize, make, have made, use, offer for sale, sell and import (or any exclusive rights to research), in whole or in part, such ROFN Licensable Subject Matter in the Field in the Territory as set forth in this Section 9.6.

(a) **Notice.** At any time during the Term (with respect to ROFN Licensable Subject Matter under Section 9.6.1) prior to [***] or at any time during the Term prior to the [***] (with respect to ROFN Licensable Subject Matter under Section 9.6.2), in the event that BioNTech intends to license, grant, or otherwise transfer, including by option or sale, to any Third Party any rights to develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import (or any exclusive rights to research), in whole or in part, any ROFN Licensable Subject Matter, BioNTech shall so notify Genentech in writing and [***] "**ROFN Notice**").

(b) **ROFN Exercise.** Genentech may exercise a ROFN with respect to a ROFN Licensable Subject Matter by providing written notice to BioNTech (a "**ROFN Election Notice**") at any time during the period commencing on the first date on which Genentech has received the ROFN Notice and ending [***] days thereafter (the "**ROFN Exercise Period**") with respect to such ROFN.

(c) **ROFN License Agreement.** If Genentech exercises a ROFN with respect to a ROFN Licensable Subject Matter during the ROFN Exercise Period, then during the period beginning on the date Genentech provides the ROFN Election Notice to BioNTech and ending [***] thereafter (or such later date as may be mutually agreed by the Parties) (the "**ROFN Negotiation Period**"), the Parties shall negotiate in good faith the terms and conditions of an agreement pursuant to which Genentech or an Affiliate of Genentech would obtain the exclusive rights to develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import (and the non-exclusive right to research) such ROFN Licensable Subject Matter in the Field in the Territory (a "**ROFN License Agreement**").

(d) **Genentech Failure to Exercise.** If (i) Genentech does not deliver a ROFN Election Notice to BioNTech with respect to the applicable ROFN Licensable Subject Matter during the applicable ROFN Exercise Period or (ii) Genentech and BioNTech do not agree on the terms of a ROFN License Agreement despite good faith negotiations with respect to the applicable ROFN Licensable Subject Matter during the applicable ROFN Negotiation Period, then, in either case (i) or (ii), BioNTech shall be free to grant to a Third Party rights to research, develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import, in whole or in part, such ROFN Licensable Subject Matter in the Field in the Territory; *provided that*, in the case of (ii) above, during the [***], BioNTech shall not grant to a Third Party rights to research, develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import, in whole or in part, such ROFN Licensable Subject Matter in the Field in the Territory on terms and conditions [***]

9.7 Exclusivity. For a period of [***] years after the Effective Date (such period, the "**Exclusivity Period**"), none of (a) [***], and (b) BioNTech and its Affiliates shall carry out, conduct or engage in any activity, by itself or with or through any Third Party, directly or indirectly, to research, develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import any Pharmaceutical Products comprising one or more Neoepitope RNA(s) in the Field other than pursuant to and in accordance with this Agreement; *provided, however* that such restriction does not restrict any of the foregoing Persons from conducting internal research and preclinical development for benchmarking purposes on Pharmaceutical Products comprising one or more Neoepitope RNA(s) that are Third Party Products at the time of such research or preclinical development. [***]

ARTICLE 10.
INTELLECTUAL PROPERTY

10.1 Disclosure. During the Term, without limiting Section 2.19.2, each Party shall promptly disclose to the other Party [***]

10.2 Ownership; Assignment and Cooperation; Inventorship.

10.2.1 Ownership of Intellectual Property. As between the Parties:

(a) BNT or RNP (as applicable) shall solely own the BioNTech IP,

(b) [***]

(c) [***]

10.2.2 Assignment and Cooperation. The assignments necessary to accomplish the ownership provisions set forth in this Article 10 are hereby made, and each Party shall execute such further documentation as may be necessary or appropriate, and provide reasonable assistance and cooperation to implement the provisions of this Article 10. Accordingly, each Party ("**Assignor**") hereby irrevocably assigns to the other Party ("**Assignee**") an equal, undivided interest in and to all right, title, and interest in and to Collaboration IP. Assignor agrees to execute such documents, render such assistance, and take such other action as an Assignee may reasonably request, to apply for, register, perfect, confirm, and protect Assignee's rights in all Collaboration IP. Each Party shall require, to the extent legally possible under relevant national or local laws, all of its employees, Affiliates and any Third Parties working pursuant to this Agreement on its behalf, to assign (or otherwise convey rights) to such Party its right, title and interests in any Patents and

Know-How conceived, reduced to practice, created or otherwise made by such employee, Affiliate or Third Party, and to cooperate with such Party in connection with obtaining patent protection therefor.

10.2.3 Inventorship and Authorship. Inventorship and authorship shall be determined in accordance with the Applicable Laws of the United States regarding patents and copyrights, respectively; *provided*, however, that in the event that determining inventorship or authorship in accordance with such Applicable Laws would be in violation of the Applicable Laws of the country or jurisdiction in which such invention or creation was made or created, inventorship or authorship, as applicable, shall be determined in accordance with the Applicable Laws of such country or jurisdiction.

10.2.4 CREATE Act. This Agreement shall be deemed a joint research agreement under the Cooperative Research and Technology Enhancement Act of 2004, 35 U.S.C. §102(c) (the "**CREATE Act**"), and any foreign counterparts thereto, entered into for the purpose of researching, identifying and developing products comprising one or more Neoepitope RNA(s) including Collaboration Products and under the terms set forth herein.

10.3 Patent Prosecution and Maintenance.

10.3.1 Patent Prosecution and Maintenance Control. As between the Parties:

[***]

10.3.2 Patent Prosecution and Maintenance Cooperation. Solely with respect to the rights and obligations described in this Section 10.3, the Party that has the right to Prosecute and Maintain the BioNTech Patents, BioNTech Core Patents, Genentech Patents, Genentech Core Patents or Collaboration Patents, as applicable, will be referred to as the "**Controlling Party**" and the other Party will be referred to as the "**Non-Controlling Party**". During the Term, the Parties agree to cooperate fully in the preparation, filing, prosecution, and maintenance of the BioNTech Patents, BioNTech Core Patents, Genentech Patents, Genentech Core Patents and Collaboration Patents in the Territory. Notwithstanding which Party is the Controlling Party, the Parties shall agree, on a country by country basis, on preferably the same outside patent counsel firms to be responsible for the Prosecution and Maintenance of the BioNTech Core Patents, Genentech Core Patents and Collaboration Patents on behalf of each Party as the Controlling Party (each, an "**Outside Patent Prosecution Counsel**"); [***] Cooperation shall include:

(a) The Non-Controlling Party shall, at the Controlling Party's reasonable request, assist and cooperate in the Prosecution and Maintenance of the BioNTech Patents, BioNTech Core Patents, Genentech Patents, Genentech Core Patents or Collaboration Patents, including making its relevant scientists and scientific records reasonably available to the Controlling Party, executing all papers and instruments (including assignment of invention agreements and powers of attorney) and requiring its employees or contractors to execute such papers and instruments.

(b) [***]

(c) [***]

(d) [***]

10.4 [***]

10.5 Enforcement and Defense of Patents; Defense of Claims by Third Parties .

10.5.1 Notice. Each Party shall promptly notify, in writing, the other Party upon learning of:

(a) any actual, alleged, or suspected infringement, misappropriation or misuse by a Third Party of a BioNTech Core Patent, Genentech Core Patent, Collaboration Patent or any Know-How or Patent related to the Neoepitope Prediction Algorithm (within the BioNTech IP, Genentech IP or Collaboration IP) or any reexaminations, inter partes reviews, and post grant reviews as well as interferences and derivation proceedings, oppositions and other similar proceedings or claim of declaratory judgment brought by a Third Party alleging the invalidity, unpatentability, unenforceability, or non-infringement of any such BioNTech Core Patent, Genentech Core Patent or Collaboration Patent (including receipt of a copy or knowledge of a Biosimilar Application under Section 351(l)(1)(B)(iii) or Section 351(l)(8)(A) of the PHSA (or other Applicable Law in the relevant jurisdiction) or alleging misappropriation or misuse of any Know-How or Patent related to the Neoepitope Prediction Algorithm (within the BioNTech IP, Genentech IP or Collaboration IP)) (each an "**Infringement**"), and

(b) any notice, allegation, suit, or other proceeding against BioNTech or Genentech, or any of their respective Affiliates or licensees or customers, of infringement, misappropriation or misuse of any intellectual property rights as a result of the Exploitation of any Collaboration Product or any Neoepitope Prediction Algorithm ("**Third Party Infringement Claim**").

In each case ((a) or (b)), the Party providing notice shall promptly notify the other Party and use commercially reasonable efforts to provide all evidence in its possession pertaining to the Infringement, claim or suit that it can disclose without breach of pre-existing obligations to a Third Party or waiver of privilege. [***]

10.5.2 Enforcement and Defense Actions Against Infringements.

(a) [***]

(b) [***]

(c) [***]

(d) [***] Collaboration Patents in the Territory or to Enforce against any misappropriation or misuse of any Know-How or Patent related to the Neoepitope Prediction Algorithm within the Collaboration IP (including any Genentech IP or BioNTech IP (other than BioNTech Core Patents) incorporated therein). If Genentech declines to Enforce against an Infringement that constitutes a substantial risk to the overall value of such Collaboration Patent in the applicable country within the Territory or any misappropriation or misuse of any Know-How or Patent related to the Neoepitope Prediction Algorithm within the Collaboration IP, then: (i) Genentech shall provide BioNTech with reasonable advanced written notice of such decision [***]

10.5.3 Third Party Infringement Defense Actions. Notwithstanding Section 13.5, for any Third Party Infringement Claim, Genentech (with respect to any Third Party Infringement Claim as to (a) GDP Collaboration Product(s) or Genentech Collaboration Product(s) alone, (b) at least one GDP Collaboration Product or Genentech Collaboration Product, on the one hand, and at least one BioNTech Collaboration Product, on the other hand, or (c) as to any Know-How or Patent related to the Neoepitope Prediction Algorithm within the Collaboration IP (including any Genentech IP or BioNTech IP incorporated therein) and BioNTech (with respect to any Third Party Infringement Claim that does not include any GDP Collaboration Product or Genentech Collaboration Product but includes a BioNTech Collaboration Product) shall have the right, but not the obligation, to defend and control the defense of any such Third Party Infringement Claim, including directing all aspects, stages, motions, and proceedings of litigation ("**Defend**" or "**Defense**"). In the event the Party with the right to defend against a Third Party Infringement Claim under this Section 10.5.3 does not elect to assume the defense of such Third Party Infringement Claim ("**Non-Defending Party**") and the other Party ("**Defending Party**") has the obligation to assume the defense of such Third Party Infringement Claim under Section 13.5 or the other Party is the defendant against which the Third Party Infringement Claim was made, then the Non-Defending Party shall provide to the Defending Party with reasonable advanced written notice of such decision so as to permit the Defending Party to take appropriate action in accordance with this Agreement, [***]

10.5.4 Cooperation. Solely with respect to the rights and obligations described in this Section 10.4, the Party that has the right to Enforce against the Infringement or Defend against the Third Party Infringement Claim, will be referred to as the "**Controlling Litigation Party**" and the other Party will be referred to as the "**Non-Controlling Litigation Party**". Notwithstanding which Party is the Controlling Litigation Party, the Parties shall agree on an outside patent counsel firm to be responsible for the Enforcement against an Infringement and Defense of a Third Party Infringement Claim on behalf of the Controlling Litigation Party ("**Outside Patent Litigation Counsel**"). Cooperation shall include:

(a) The Non-Controlling Litigation Party shall cooperate with the Controlling Litigation Party in any such action to Enforce against any Infringement or Defend against any Third Party Infringement Claim or raising of any counter claim in connection with the Enforcement or Defense as described in this Section 10.4, including, if necessary, by being joined as a party, provided the Non-Controlling Litigation Party shall have the right to be represented by their own counsel at their own expense (notwithstanding any other cost allocation provision of this Agreement). The Outside Patent Litigation Counsel shall lead the Enforcement against the Infringement or Defense against the Third Party Infringement Claim with respect to any other counsel participation in the Enforcement or Defense.

(b) The Controlling Litigation Party shall, through Outside Patent Litigation Counsel, keep the other Party reasonably informed of all material developments in connection with any such Infringement or Third Party Infringement Claim, including providing the other Party with copies of draft and filed filings, motions, pleadings and other material submissions and communications (including oral communications) with the relevant judicial authority relating to such Infringement or Third Party Infringement Claim, sufficiently in advance, where reasonable, for the Non-Controlling Litigation Party to comment, through Outside Patent Litigation Counsel, on the Enforcement against or Defense of such Infringement or Third Party Infringement Claim. The Controlling Litigation Party shall give due consideration to the Non-Controlling Litigation Party's comments with respect to the Enforcement against or Defense of such Infringement or Third Party Infringement Claim under this Section 10.4. Notwithstanding the foregoing, BioNTech shall Enforce against or Defend of such Infringement or Third Party Infringement Claim consistent with Genentech's comments as required under this Section 10.4.

(c) **Settlement.** The Controlling Litigation Party shall, at its sole discretion, have the right to settle such claim; provided that the Controlling Litigation Party may not settle or consent to an adverse judgment without the expressed written consent of the Non-Controlling Party (such consent not to be unreasonably withheld or delayed).

(d) **Third Party Payments.** [***]

(e) **Recoveries.** Any recovery realized as a result of any action described in this Section 10.4 (whether by way of settlement or otherwise) shall be [***]

10.6 Third Party Licenses. Existing Third Party In-License Agreement Royalty Payments for any GDP Collaboration Product shall be shared equally by the Parties as an "Allowable Expense" in the Net Profit/Net Loss calculation pursuant to Section 8.4 or in the case of a Royalty Product, shall be borne solely by BioNTech in accordance with the terms and conditions of this Agreement, including Section 12.2.2(d). For all other payments or other consideration payable to any Third Party for rights or licenses under BioNTech IP or Genentech IP or intellectual property rights that are reasonably necessary for the Exploitation of any Collaboration Product, the following shall apply:

10.6.1 BioNTech IP. BioNTech shall be responsible for and bear the following:

(a) all costs for any payments or other consideration payable to any Third Party (i) for the rights and licenses (including the right to grant sublicenses) under the BioNTech IP as such BioNTech IP exists as of the Effective Date; (ii) for the rights and licenses (including the right to grant sublicenses) under [***]; or (iii) as a result of the Exploitation of Collaboration Products under any agreement between BioNTech or its Affiliates and a Third Party existing as of the Effective Date, including any Existing Third Party

In-License Agreements (except for Existing Third Party In-License Agreement Royalty Payments which shall be allocated as described above in Section 10.6);

(b) any compensation payable by BioNTech or its Affiliates under statute, contract or otherwise to inventors that have contributed or will contribute to BioNTech IP or (subject to any sharing as an Allowable Expense) any Collaboration IP created, conceived or reduced to practice by or on behalf of BioNTech; and

(c) any costs for any payments or other consideration payable to any Third Party for the rights or licenses under intellectual property rights necessary or reasonably useful for BioNTech to perform its research activities in relation to the Neoepitope Prediction Algorithm under the Research Plan, including any such rights or licenses under the software disclosed in Schedule 12.2.1(i) and Schedule 12.3.1(h).

For clarity, except for Existing Third Party

In-License Agreement Royalty Payments which shall be allocated as described above in Section 10.6, BioNTech shall be responsible for and bear the costs for any payments or other consideration to a Third Party as listed under Schedule 12.2.1(a). Notwithstanding the foregoing, any additional rights or licenses that may be obtained for the Exploitation of Collaboration Products (other than for research activities under the Research Plan) under any agreement with a Third Party existing as of the Effective Date shall be considered “Third Party IP” as defined under Section 10.6.3 and the Parties shall [***]

10.6.2 Genentech IP. Other than in connection with (a) an amendment of this Agreement pursuant to Section 5.3.4 or (b) grant of a post-termination license to BioNTech pursuant to Section 14.5.4, Genentech shall be responsible and bear the following:

(a) all costs for any payments or other consideration due to any Third Party (i) for the rights and licenses (including the right to grant sublicenses) under the Genentech IP as such Genentech IP exists as of the Effective Date or (ii) as a result of the Exploitation of Collaboration Products under any agreement of Genentech or its Affiliates with a Third Party existing as of the Effective Date;

(b) any compensation payable by Genentech or its Affiliates under statute, contract or otherwise to inventors that have contributed or will contribute to Genentech IP (subject to any sharing as an Allowable Expense); and

(c) any costs for any payments or other consideration payable to any Third Party for the rights or licenses under intellectual property rights necessary or reasonably useful for Genentech to perform its research activities in relation to the Neoepitope Prediction Algorithm under the Research Plan, including any such rights or licenses under the software disclosed in Schedule 12.2.1(i) and Schedule 12.3.1(h).

Notwithstanding the foregoing, any additional rights or licenses that may be obtained for the Exploitation of Collaboration Products (other than for research activities under the Research Plan) under any agreement with a Third Party existing as of the Effective Date shall be considered "Third Party IP" as defined under Section 10.6.3 and the Parties shall [***]

10.6.3 Other Third Party IP. With respect to (a) all intellectual property rights owned or controlled by a Third Party (including any improvements by the inventors that have contributed to the BioNTech IP) and that are reasonably necessary for the Exploitation of any Collaboration Product (other than for research activities under the Research Plan), including the clinical Development of the Neoepitope Prediction Algorithm for such Collaboration Product ("**Third Party IP**") or [***]

(a) [***]

(b) [***]

(c) In all other cases [***], Genentech shall have the first right to negotiate and obtain rights or licenses under any Third Party IP [***] that is reasonably necessary for the Exploitation of the Collaboration Products. [***]

10.7 Corporate Names and Product Trademarks.

10.7.1 Ownership of Corporate Names. Subject to Section 9.4, as between the Parties, BioNTech shall retain all right, title and interest in and to its Corporate Names, and Genentech shall retain all right, title and interest in and to its Corporate Names.

10.7.2 Ownership and Prosecution of Product Trademarks. Subject to Section 9.4, Genentech shall own all right, title, and interest to the Product Trademarks (other than the IVAC Trademark) in the Territory for use with GDP Collaboration Product(s) or Genentech Collaboration Product(s), and shall be responsible for the registration, prosecution, and maintenance thereof. BioNTech shall provide all assistance and documents reasonably requested by Genentech in support of its prosecution, registration, and maintenance of the Product Trademarks. BioNTech shall own the IVAC Trademark and any Product Trademarks exclusively used in connection with BioNTech Collaboration Products, and the terms of this Section 10.7.2 shall apply with respect to the IVAC Trademark and such Product Trademarks exclusively used in connection with BioNTech Collaboration Products, *mutatis mutandis*.

10.7.3 Enforcement of Product Trademarks. Genentech shall have the sole right and responsibility for taking such action as Genentech, after consultation with BioNTech, deems necessary against a Third Party based on any alleged, threatened, or actual infringement, dilution, misappropriation, or other violation of, or unfair trade practices or any other like offense relating to, the Product Trademarks by a Third Party in the Territory. All costs of enforcing the Product Trademarks shall be shared equally (50%:50%) by the Parties.

10.7.4 [***]

10.7.5 Notice and Cooperation. Each Party shall provide to the other Party prompt written notice of any actual or threatened infringement of the Product Trademarks in the Territory and of any actual or threatened claim that the use of the Product Trademarks in the Territory violates the rights of any Third Party. Each Party agrees to cooperate fully with the other Party with respect to any enforcement action or defense commenced pursuant to this Section 10.7.

10.8 [***]

10.9 [***]

10.10 Attorney-Client Privilege. Neither Party is waiving, nor shall be deemed to have waived or diminished, any of its attorney work product protections, attorney-client privileges or similar protections and privileges or the like as a result of disclosing information pursuant to this Agreement, or any of its Confidential Information (including Confidential Information related to pending or threatened litigation) to the receiving Party, regardless of whether the disclosing Party has asserted, or is or may be entitled to assert, such privileges and protections. The Parties: (a) share a common legal and commercial interest in such disclosure that is subject to such privileges and protections; (b) are or may become joint defendants in proceedings to which the information covered by such protections and privileges relates; (c) intend that such privileges and protections remain intact should either Party become subject to any actual or threatened proceeding to which the disclosing Party's Confidential Information covered by such protections and privileges relates; and (d) intend that after the Effective Date both the receiving Party and the disclosing Party shall have the right to assert such protections and privileges.

ARTICLE 11.
CONFIDENTIALITY AND
NON-DISCLOSURE

11.1 Disclosure and Use of Confidential Information.

11.1.1 Continuing Obligation. This Article 11 shall survive the expiration or termination of this Agreement for a period of [***] years, except for [***]

11.1.2 Rights and Obligations. Except to the extent expressly authorized by this Agreement, each Party (in context, the "**Receiving Party**") in possession of the Confidential Information of the other Party (in context, the "**Disclosing Party**") or Joint Confidential Information agrees to: (a) hold in confidence and not disclose the Disclosing

Party's Confidential Information or Joint Confidential Information to any Affiliate or Third Party (other than, subject to Section 15.2, by a Party to an Affiliate under an obligation of confidentiality), (b) use commercially reasonable efforts to protect the Confidential Information of the other Party or Joint Confidential Information (including commercially reasonable efforts a Party employs with respect to its own confidential information of a similar nature and commercially reasonable efforts to assure that no unauthorized use or disclosure is made by others to whom access to the Confidential Information of the other Party (or Joint Confidential Information) is granted) and (c) only use (or permit the use of) the Disclosing Party's Confidential Information or Joint Confidential Information in connection with activities contemplated by, the exercise of rights permitted by, or in order to further the purposes of, this Agreement. [***]

11.1.3 "**Confidential Information**" means any and all Information (a) provided by or on behalf of one Party to the other Party in connection with this Agreement, whether prior to, on, or after the Effective Date and (b) owned solely by a Party or jointly by the Parties; in all cases, including information relating to the following: [***] Notwithstanding the foregoing, the following shall be deemed to be "**Joint Confidential Information**" for purposes of this Article 11: [***]

11.1.4 Exceptions. The obligations of the Receiving Party set forth in Section 11.1.2, shall not apply to the Disclosing Party's Confidential Information or Joint Confidential Information to the extent that such Confidential Information:

(a) can be demonstrated by documentation or other competent proof to have been in the Receiving Party's possession prior to disclosure by the Disclosing Party without any obligation of confidentiality with respect to such information; *provided* that the foregoing exception shall not apply with respect to Joint Confidential Information;

(b) is subsequently received by the Receiving Party from a Third Party which is not bound by any obligation of confidentiality with respect to such information;

(c) has been published by a Third Party or otherwise enters the public domain through no fault of the Receiving Party in breach of this Agreement;

(d) can be demonstrated by documentation or other competent evidence to have been independently developed by or for the Receiving Party without reference to the Disclosing Party's Confidential Information; *provided* that the foregoing exception shall not apply with respect to Joint Confidential Information; or

(e) is no longer subject to the provisions of this Section 11.1 by the prior written consent of the Disclosing Party.

Specific aspects or details of Confidential Information shall not be deemed to be within the public domain or in the possession of the Receiving Party merely because the Confidential Information is embraced by more general information in the public domain or in the possession of the Receiving Party. Further, any combination of Confidential Information shall not be considered in the public domain or in the possession of the Receiving Party merely because individual elements of such Confidential Information are in the public domain or in the possession of the Receiving Party unless the combination and its principles are in the public domain or in the possession of the Receiving Party.

11.2 Permitted Disclosures.

11.2.1 Legal Compliance. A Party may disclose the other Party's Confidential Information or Joint Confidential Information if such disclosure is required by law, rule or regulation (including to comply with the order of a court or governmental regulations), but only to the extent such disclosure is reasonably necessary for such compliance; provided, however, except for disclosures otherwise permitted under Section 11.2, or as otherwise required or necessitated by law, such Party shall provide prompt notice of such disclosure requirement to the other Party and provide reasonable assistance to enable such other Party to seek a protective order or otherwise prevent such disclosure.

11.2.2 Regulatory Authorities. A Party may disclose the other Party's Confidential Information or Joint Confidential Information to the extent such disclosure is required to comply with applicable governmental regulations, to conduct preclinical or Clinical Studies related to Collaboration Products in accordance with the terms of this Agreement, or, with respect to any Lead Regulatory Party, to obtain Regulatory Approval of Collaboration Products in accordance with the terms of this Agreement.

11.2.3 Patent Prosecution. A Party may disclose the other Party's Confidential Information or Joint Confidential Information to the extent such disclosure is reasonably necessary for the filing, publication or Prosecution and Maintenance of any patent application or patent on inventions, subject to the provisions of Section 10.3.

11.2.4 Permitted Third Parties. Subject to Sections 4.8.3, 11.6 and 11.7, the Receiving Party may disclose and grant use of particular Confidential Information of the Disclosing Party or Joint Confidential Information to the Receiving Party's permitted sublicensees, agents, consultants, clinical investigators, or subcontractors as the Receiving Party reasonably determines is necessary to fulfill its obligations or exercise its rights under this Agreement; provided, however, that (a) any such permitted sublicensees, agents, consultants, clinical investigators or subcontractors must be contractually bound in writing by obligations substantially similar to those set forth in Section 11.1 and (b) in no event may BioNTech disclose or grant use of any such Information to any Class A Competitor or an Affiliate thereof (or an employee or consultant of such Class A Competitor or Affiliate thereof) without Genentech's prior written consent. [***]

11.2.5 Scientific Publications. The Receiving Party may disclose the Disclosing Party's Confidential Information or Joint Confidential Information as expressly permitted pursuant to Section 11.5.

11.2.6 Genentech Molecule Clinical Trial Data. Genentech Molecule Clinical Trial Data is the Confidential Information of Genentech. Notwithstanding any other provision of this Section 11.2, BioNTech may not disclose Genentech Molecule Clinical Trial Data without Genentech's prior written consent, other than pursuant to Section 11.2.1.

11.3 Use of Name. Except as expressly provided herein, neither Party shall (and no right, express or implied, is granted to) mention or otherwise use the name, logo, or Trademark of the other Party or any of its Affiliates (or any abbreviation or adaptation thereof) in any publication, press release, marketing and promotional material or other form of publicity, or in any other manner in connection with the performance of this Agreement, without the prior written approval of such other Party in each instance. The restrictions imposed by this Section 11.3 shall not prohibit either Party from making any disclosure identifying the other Party that is required by Applicable Law.

11.4 Press Releases and Other Public Disclosures.

11.4.1 Generally. For purposes of Section 11.4 a "**Disclosure**" means a press release or other public disclosure concerning this Agreement or the subject matter hereof, including (a) the existence and terms and conditions of this Agreement; (b) information arising from the conduct of activities under this Agreement; and (c) Collaboration Products, and any information specifically related to such Collaboration Products (including any Collaboration Product Clinical Study Data). Disclosures include public communications that contain previously disclosed information. The provisions of Section 11.4 are in addition to the other provisions of Article 11.

11.4.2 Disclosures. If one Party desires to make a Disclosure, it shall obtain the other Party's prior written approval for the proposed Disclosure, which approval shall not unreasonably be withheld or delayed. Each Party hereby agrees that the other Party may issue the applicable press release set forth in Schedule 11.4.2, following the Execution Date by both Parties.

11.4.3 Disclosure Required by Law. In the event that one Party reasonably concludes that a Disclosure is required by law, rule or regulation (including the disclosure requirements of the Securities and Exchange Commission or the securities exchange or other stock market on which such Party's securities are traded (for purposes of Section 11.4, collectively, an "**Exchange**")), it shall notify the other Party at least [***] Business Days in advance and if the other Party notifies the disclosing Party that it would prefer not to make such Disclosure, the Party seeking such Disclosure shall either (a) limit such Disclosure to address the concerns of the other Party or (b) provide a written opinion from counsel stating that such limited Disclosure is not sufficient to comply with the applicable law, rule or regulation before making such Disclosure. Each Party agrees that it shall obtain its own legal advice with regard to its compliance with securities laws, rules and regulations, and will not rely on any statements made by the other Party relating to such securities laws, rules and regulations.

11.4.4 Filing of Agreement. Without limiting Section 11.4.3, with respect to complying with the disclosure requirements of an Exchange, in connection with any required filing of this Agreement with such Exchange, the filing Party shall, at the request of the other Party, seek confidential treatment for portions of this Agreement from such

Exchange and shall provide such other Party with the opportunity, for no less than [***] Business Days (before the date of the proposed filing), to review and comment on any such proposed filing, and shall thereafter provide reasonable advance notice and opportunity for comment on any subsequent changes to such filing. BioNTech shall, whether or not requested by Genentech, redact and request confidential treatment for [***], and the information in the Schedules to this Agreement.

11.5 Scientific Publications. Notwithstanding Section 11.4, in the event a Party wishes to publish in a peer review journal or present at a scientific conference (a) Information relating to or arising from this Agreement (including relating to or arising from activities performed by a Third Party subcontractor on behalf of a Party, [***]) consistent with the then-current Publication Plan, if any, or if no Publication Plan is in effect, as otherwise approved by the JRC, with respect to research publications, or the JDC, with respect to Development publications, or (b) Information solely made, collected or otherwise generated by or on behalf of it or its Affiliates [***] prior to the Effective Date, such Party shall provide to the other Party the proposed publication or presentation (including, without limitation, abstracts and manuscripts) at least [***] days ([***] days for posters, slides and written descriptions of oral presentations only) for publications under clause (a) and [***] days for publications under clause (b) prior to the date of submission for publication or the date of presentation, whichever is earlier, of any of such submitted materials. The other Party shall review such submitted materials and respond to the submitting Party as soon as reasonably possible, but in any case (i) within [***] days for the proposed publication or presentation (including but not limited to abstracts and manuscripts) and [***] days for posters, slides and written descriptions or oral presentations only, of receipt thereof for publications under clause (a) and (ii) within [***] days for the proposed publications under clause (b). At the option of the reviewing Party, the submitting Party shall (1) take into due consideration any comments made by the reviewing Party, (2) delete from such proposed publication or presentation any Confidential Information of the reviewing Party and [***]; and (3) delay the date of such submission for publication or the date of such presentation for a period of time sufficiently long (but in no event longer than [***] days for publications under clause (a) and [***] days for publications under clause (b)) to permit the reviewing Party to seek appropriate patent protection. In the event the reviewing Party does not respond within the period specified above, the submitting Party will be free to make such proposed publication or presentation.

11.6 Restriction on Disclosure of [***]

11.7 Restriction on Disclosure of [***]

ARTICLE 12.
REPRESENTATIONS AND WARRANTIES

12.1 Mutual Representations and Warranties. As a condition and an inducement to the Parties to enter into this Agreement, each of RNP and BNT on the one hand, and GNE and Roche on the other, represents and warrants to the other, as of the Execution Date, and covenants, as follows:

12.1.1 Organization. It is duly organized, validly existing, and in good standing under the laws of the jurisdiction of its organization, and has all requisite power and authority, corporate or otherwise, to execute, deliver, and perform this Agreement and the Ancillary Agreements.

12.1.2 Authorization. The execution and delivery of this Agreement and the Ancillary Agreements and the performance of this Agreement and the Ancillary Agreements by it have been duly authorized by all necessary corporate action, and do not and will not (a) conflict with such Signatory's charter documents, bylaws, or other organizational documents, (b) conflict with, or result in a breach or constitute default under, or give rise to any payment obligations or right of termination, cancellation, modification or acceleration of any obligation or loss of any benefit under any agreement, instrument, or contractual obligation to which such Signatory is bound, (c) violate any requirement of any Applicable Law, or (d) violate any order, writ, judgment, injunction, decree, determination, or award of any court or governmental agency presently in effect applicable to such Signatory.

12.1.3 Binding Agreement. This Agreement is a legal, valid, and binding obligation of such Signatory enforceable against it in accordance with its terms and conditions. It is not under any obligation to any Person, contractual or otherwise, that is conflicting or inconsistent in any respect with the terms of this Agreement or any Ancillary Agreement or that would impede the diligent and complete fulfillment of its obligations of this Agreement or any Ancillary Agreement.

12.2 Additional Representations and Warranties of BioNTech. BioNTech further represents and warrants to Genentech, as of the Execution Date, and covenants, as follows:

12.2.1 Intellectual Property.

(a) **Title.** All Patents Controlled by BioNTech or its Affiliates that are to the knowledge of BioNTech and its Affiliates necessary to research, develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import Pharmaceutical Products that comprise (i) one or more Neoepitope RNA(s), [***] are listed on Schedule 1.20. BioNTech is (a) the sole and exclusive owner of the entire right, title and interest in the BioNTech Core Patents listed on Schedule 1.20 as "Owned BioNTech Core Patents"; (b) the sole and exclusive licensee of the BioNTech Core Patents indicated on Schedule 1.20 as "In-Licensed BioNTech Core Patents"; and (c) entitled to grant the rights and licenses (or sublicenses) specified in this Agreement and the Ancillary Agreements, including the rights of Prosecution and Maintenance specified in this Agreement, in each case of (a), (b), and (c), free of any encumbrance, lien, or claim of ownership by any Third Party or Affiliate and except as disclosed in Schedule 12.2.1(a), without payment of any royalties, license fees or other amounts to any Person.

(b) **Valid and Enforceable.** To the knowledge of BioNTech and its Affiliates, all BioNTech Core Patents are subsisting, and all necessary Prosecution and Maintenance fees in connection with such BioNTech Core Patents have been paid, and all necessary documents and certificates in connection with such BioNTech Core

Patents have been filed with the relevant Governmental Authorities for the purposes of Prosecuting and Maintaining such BioNTech Core Patents and BioNTech has complied with its duty to disclose material information to the U.S. Patent and Trademark Office and other foreign patent authorities in connection with such BioNTech Core Patents. To the knowledge of BioNTech and its Affiliates and except as may be disclosed from BioNTech to Genentech or Genentech to BioNTech through their respective outside counsel, the BioNTech Core Patents are not invalid or unenforceable.

(c) **Rights of Prosecution and Enforcement.** To the knowledge of BioNTech and its Affiliates and except as otherwise disclosed on Schedule 12.2.1(c), neither BioNTech nor any of its Affiliates has (i) granted any Person the right to control the Prosecution and Maintenance of any of the BioNTech Core Patents, (ii) granted any Person the right to bring infringement actions with respect to, or otherwise to enforce rights with respect to, any of the BioNTech Core Patents, or (iii) expressly agreed not to sue or to indemnify any Person against any charge of infringement of any of BioNTech Core Patents.

(d) **No Infringement of BioNTech IP.** To the knowledge of BioNTech and its Affiliates, no Person is infringing or threatening to infringe or misappropriating or threatening to misappropriate the BioNTech Core Patents (including pending applications and registrations therefor as if such applications or registrations were to issue or become registered), any Neoepitope Prediction Algorithm within the BioNTech IP or the Regulatory Documentation.

(e) **No Infringement of Third Party IP.** To the knowledge of BioNTech and its Affiliates and except as may be disclosed from BioNTech to Genentech or Genentech to BioNTech through their respective outside counsel, (i) the conception, reduction to practice or creation of the BioNTech Core Patents, any Neoepitope Prediction Algorithm within the BioNTech IP and Regulatory Documentation and the Exploitation of Collaboration Products based upon the BioNTech Core Patents, any Neoepitope Prediction Algorithm within the BioNTech IP and Regulatory Documentation do not and will not infringe or misappropriate any intellectual property right (including pending applications and registrations therefor as if such applications or registrations were to issue or become registered) of any Person, or otherwise violate any intellectual property right of any Person under the Applicable Laws of any jurisdiction, and (ii) the BioNTech Core Patents are not dominated by any Patent (including pending applications and registrations therefor as if such applications or registrations were to issue or become registered) of any Person and not Controlled by BioNTech.

(f) **German Employees' Inventions Act.** In accordance with the German Employees' Inventions Act, BioNTech agrees to claim the unlimited use of any Invention conceived, reduced to practice, developed, made or created in the performance of, or as a result of the Research Plan, CMC Development Plan or Joint Development Activities by employees of any German Affiliates. For the avoidance of doubt, each Party is responsible for fulfilling the obligations towards their employees under the German Employee's Inventions Act.

(g) **Assignments.** To the extent the assignment of inventions to BioNTech or its Affiliates is not effected by statutory law (e.g. the German Employees' Inventions Act), all current and former officers, employees, agents and consultants of BioNTech or any of its Affiliates or, to the knowledge of BioNTech and its Affiliates, their respective subcontractors [***] who are inventors of or have otherwise contributed in a material manner to the creation or development of any BioNTech IP have, directly or indirectly, agreed to protect such BioNTech IP as proprietary information and assign any and all rights in and to such BioNTech IP to BioNTech or such Affiliate or such subcontractor (as applicable), by execution and delivery to BioNTech or such Affiliate or subcontractor of an assignment or other agreement or otherwise. To the knowledge of BioNTech and its Affiliates, no current officer, employee, agent, or consultant of BioNTech or any of its Affiliates or their respective subcontractors [***] is in violation of any term of any assignment or other agreement regarding the protection of Patents or other intellectual property or proprietary information of BioNTech or such Affiliate or of any employment contract or any other contractual obligation relating to the relationship of any such Person with BioNTech. To the knowledge of BioNTech, all inventions relating to any Pharmaceutical Products that comprise (i) one or more Neoepitope RNA(s), [***] made as of the Effective Date by inventors who are employed by or in any other way legally related to BioNTech or its Affiliates have been disclosed by such inventors to BioNTech or its Affiliates, as applicable.

(h) **Confidentiality of BioNTech Know-How.** Except as disclosed in scientific publications made generally available to the public, BioNTech and its Affiliates have maintained the BioNTech Know-How at all times as confidential and only disclosed the BioNTech Know-How to Third Parties, [***] under obligations of confidentiality. To the knowledge of BioNTech and its Affiliates, no such Third Party has used or disclosed BioNTech Know-How in breach of its confidentiality obligations.

(i) **Neoepitope Prediction Algorithm.** To the knowledge of BioNTech and its Affiliates [***] (i) BioNTech owns or has sufficient rights in any Neoepitope Prediction Algorithm within the BioNTech IP as of the Execution Date to transfer such Neoepitope Prediction Algorithm and grant the rights and licenses (and sublicenses) to Genentech under this Agreement, free of any encumbrance, lien, or claim of ownership by any Third Party or Affiliate and without payment of any royalties, license fees or other amounts to any Person, and (ii) the use and other exploitation of such Neoepitope Prediction Algorithm in the Exploitation of Collaboration Products will not depend on the acquisition of rights from any Third Party.

(j) **No Viruses.** To the knowledge of BioNTech and its Affiliates, any Neoepitope Prediction Algorithm within the BioNTech IP as of the Execution Date does not contain or incorporate any code, lock, authorization key, disabling code, or similar device or code that is intended to impair, disable or otherwise impede the operation of software or hardware or any "back door," "time bomb," "Trojan horse," "drop-dead device," "virus" or other software routines or code or hardware components designed to permit unauthorized access, to send information to any Third Party without the user's consent, to disable or erase software, hardware or data, or to contaminate, corrupt, or damage information technology systems or architecture or to perform any other similar actions.

(k) **No Copyleft.** To the knowledge of BioNTech and its Affiliates, any Neoepitope Prediction Algorithm within the BioNTech IP and the Neoepitope Prediction Software used by BioNTech in its Neoepitope Prediction Algorithm as of the Execution Date are not, do not contain or incorporate, and are not bundled, combined, or linked with, any software or other materials in a form or manner which creates, or purports to create, obligations (i) for a licensee to license its own intellectual property rights, including Patents, to any Third Parties or (ii) that a licensee's software or other materials must: (A) be disclosed or distributed in source code form; (B) be licensed for the purpose of making derivative works; or (C) be redistributable at no charge (such software or other materials collectively, "**Copyleft Software**"). Without limiting the foregoing:

(i) To the knowledge of BioNTech and its Affiliates and to the extent that, at any time prior to the Execution Date, any mechanism was used to facilitate communication between (x) the Neoepitope Prediction Software owned by BioNTech within the BioNTech IP and (y) any Copyleft Software, or other software disclosed on Schedule 12.2.1(i), the mechanism that was used was a command line argument and the semantics of the communication did not involve the exchange of complex data structures.

(ii) To the knowledge of BioNTech and its Affiliates, the Neoepitope Prediction Software used by BioNTech in its Neoepitope Prediction Algorithm as of the Execution Date has not [***]

(iii) In the development of the Neoepitope Prediction Software used by BioNTech in its Neoepitope Prediction Algorithm as of the Execution Date, BioNTech has followed standard operating procedures with respect to software development that control and document the use of Copyleft Software. During the Term, BioNTech will maintain and enforce standard operating procedures with respect to the use of Copyleft Software in association with the development of the Neoepitope Prediction Software used in the development of Collaboration Products under this Agreement. Such standard operating procedures shall require that the Committee Co-Chairs of the JRC and the JDC be notified of any anticipated use or transfer of Copyleft Software and that to the extent that any communication mechanism is implemented between (x) the Neoepitope Prediction Software owned by BioNTech within the BioNTech IP and (y) any Copyleft Software, including any software disclosed on Schedule 12.2.1(i), that mechanism shall be a command line argument and the semantics of the communication shall not involve the exchange of complex data structures. Any variation from these standard operating procedures must be approved in writing by the JRC and the JDC.

(l) **No Other Claims.** To the knowledge of BioNTech and its Affiliates, there are no claims, judgments, or settlements against, or amounts with respect thereto owed by, BioNTech or any of its Affiliates relating to (i) the BioNTech Core Patents, any Neoepitope Prediction Algorithm within the BioNTech IP or the Regulatory Documentation or (ii) the research, development, manufacture, commercialization, making, having made, using, offering for sale, selling and importing Pharmaceutical Products that comprise (i) one or more Neoepitope RNA(s), [***].

12.2.2 Existing Third Party In-License Agreements.

(a) **Disclosure.** Except for those agreements listed on Schedule 12.2.2(a) (collectively, "**Existing Third Party In-License Agreements**"), there are no agreements between BioNTech or any of its Affiliates with any Third Parties (i) pursuant to which BioNTech or its Affiliate has obtained, or has a right to obtain, a license under or rights to use BioNTech Core Patents (other than any Neoepitope Prediction Algorithm) that is relevant to this Agreement or the Ancillary Agreements or (ii) pursuant to which BioNTech or its Affiliate otherwise owes, or would otherwise owe, payments to a Third Party as a result of the Exploitation of Collaboration Products based upon the BioNTech Core Patents (other than any Neoepitope Prediction Algorithm) or other activities conducted hereunder or under any Ancillary Agreement (whether by BioNTech or Genentech or their respective (sub)licensees), including the grant of rights and licenses under the BioNTech Core Patents (other than any Neoepitope Prediction Algorithm) to Genentech;

(b) **Existing Third Party In-License Agreements.** (i) BioNTech has provided Genentech true and complete and accurate copies of the Existing Third Party In-License Agreements (as may be redacted to remove confidential information) as the same is in effect; (ii) each Existing Third Party In-License Agreement is in full force and effect and BioNTech has the rights under each such Existing Third Party In-License Agreement to disclose and provide the BioNTech IP to Genentech and to grant Genentech the licenses under, and right to use, such BioNTech IP (other than any Neoepitope Prediction Algorithm) in the Exploitation of the Collaboration Products without restriction in accordance with the terms of this Agreement; (iii) BioNTech shall maintain each Existing Third Party In-License Agreement in full force and effect during the Term, in each case in accordance with its terms and conditions, but subject to BioNTech's rights to terminate, amend, waive or otherwise modify any such agreement as provided in Section 12.2.2(c) below; (iv) no written notice of default or termination has been received or given by BioNTech or any of its Affiliates under any Existing Third Party In-License Agreement; and (v) to BioNTech's and its Affiliates' knowledge, there is no act or omission by BioNTech or any of its Affiliates that would give the counterparty thereto a right to terminate any Existing Third Party In-License Agreement;

(c) **Maintenance of Existing Third Party In-License Agreements.** During the Term, neither BioNTech nor any of its Affiliates shall terminate, amend, waive or otherwise modify (or provide consent with respect to any termination, amendment, waiver or modification of) the rights under any Existing Third Party In-License Agreement in any manner that materially diminishes the licenses or rights granted to Genentech hereunder, materially impairs Genentech's ability to perform its obligations hereunder or otherwise materially adversely affects, or is likely to materially adversely affect, Genentech's rights hereunder; in all cases, without the prior written consent of Genentech. In the event of any notice of breach or notice of termination received by BioNTech or any of its Affiliates, as applicable, under the provisions of any Existing Third Party In-License Agreement, BioNTech shall immediately notify Genentech in writing and if BioNTech or its Affiliate fails to cure such breach, Genentech shall have the right, but not the obligation, to cure such breach on behalf of BioNTech or its Affiliates, as applicable, and to offset any reasonable amounts incurred or paid by Genentech in connection with the cure of such breach against any

amounts otherwise payable by Genentech to BioNTech under this Agreement until fully offset.

(d) **Enforcement of Existing Third Party In-License Agreements.** In the event that BioNTech is of the opinion that the other party of any applicable Existing Third Party In-License Agreement has breached its obligations under such agreement, BioNTech shall notify Genentech in writing, and the Parties shall promptly discuss and agree on such actions as may be necessary or useful to enforce such Existing Third Party In-License Agreement, including injunctive or other equitable relief with respect to breach of obligations related to confidentiality or exclusivity. Without limiting the foregoing, in the event an Existing Third Party In-License Agreement expires or terminates during the Term, any sublicense(s) granted from BioNTech to Genentech under any such Existing Third Party In-License Agreement hereunder shall survive (to the extent permitted under the Existing Third Party In-License Agreements). Any Existing Third Party In-License Agreement Royalty Payment that Genentech shall pay to such Third Party under such sublicense(s) for activities performed in accordance with this Agreement shall constitute an "Allowable Expense" in the Net Profit/Net Loss calculation pursuant to Section 8.4 or in the event of an Opt-Out by BioNTech pursuant to Section 8.5 or a Deemed Opt-Out pursuant to Section 8.5.3, shall be offset against any amounts otherwise payable by Genentech to BioNTech under this Agreement until fully offset, and any other amounts that Genentech shall pay to such Third Party under such sublicense shall be offset against any amounts otherwise payable by Genentech to BioNTech under this Agreement until fully offset.

12.2.3 Regulatory.

(a) **Regulatory Documentation.** BioNTech and its Affiliates have generated, prepared, maintained, and retained all Regulatory Documentation that is required to be maintained or retained pursuant to and in accordance with cGLPs and cGCPs and in compliance with Applicable Law, and all such information is true and complete and accurate and what it purports to be.

(b) **No Misrepresentation to Regulatory Authority.** Neither BioNTech nor any of its Affiliates, nor any of its or their respective officers, employees, or agents has made an untrue statement of material fact or fraudulent statement to the FDA or any other Regulatory Authority with respect to the Development or Manufacture of the Collaboration Products, failed to disclose a material fact required to be disclosed to the FDA or any other Regulatory Authority with respect to the Development or Manufacture of the Collaboration Products, or committed an act, made a statement, or failed to make a statement with respect to the Development or Manufacture of the Collaboration Products that could reasonably be expected to provide a basis for the FDA to invoke its policy respecting "Fraud, Untrue Statements of Material Facts, Bribery, and Illegal Gratuities", set forth in 56 Fed. Reg. 46191 (September 10, 1991) and any amendments thereto or any analogous laws or policies in the Territory.

(c) **No Debarment.** Neither BioNTech nor any of its Affiliates has been debarred or is subject to debarment and neither BioNTech nor any of its Affiliates will use in any capacity, in connection with the services to be performed under this Agreement, any Person who has been debarred pursuant to Section 306 of the FFDCA, or who is the subject of a conviction described in such section. BioNTech agrees to inform Genentech in writing immediately if it or any Person who is performing services hereunder is debarred or is the subject of a conviction described in Section 306, or if any action, suit, claim, investigation or legal or administrative proceeding is pending or, to the knowledge of BioNTech and its Affiliates, is threatened, relating to the debarment or conviction of BioNTech or any Person performing services hereunder.

(d) **Development of Collaboration Product.** BioNTech and its Affiliates have at all times conducted and will conduct, and their respective subcontractors and consultants have at all times conducted and will conduct, all Development of the Collaboration Products (i) in accordance with cGLP and cGCP (to the extent applicable, and it being understood that Development of Collaboration Product has as of the Effective Date solely been conducted in accordance with respective European standards) and in compliance with Applicable Law including applicable Compliance Requirements, (ii) in accordance with the applicable protocol and good scientific practices and (iii) maintaining standard operating procedures with respect to clauses (i) and (ii). BioNTech has at all times conducted and will conduct, and has caused and will cause its subcontractors and consultants to conduct at all times, any and all preclinical and Clinical Studies related to the Collaboration Products in accordance with cGLP and cGCP (to the extent applicable, and it being understood that preclinical and Clinical Studies related to the Collaboration Products have as of the Effective Date solely been conducted in accordance with respective European standards) and in compliance with Applicable Law including applicable Compliance Requirements, (ii) in accordance with the applicable protocol and good scientific practices and (iii) maintaining standard operating procedures with respect to clauses (i) and (ii). BioNTech and its Affiliates have employed (and, with respect to such tests and studies that BioNTech will perform, will employ) Persons with appropriate education, knowledge and experience to conduct and to oversee the conduct of the preclinical and Clinical Studies with respect to the Collaboration Products.

(e) **Safety Reporting.** BioNTech and its Affiliates are, and at all times have been, in compliance with all adverse event reporting requirements applicable to the Collaboration Products. Schedule 12.2.3(e) sets forth a complete and accurate list of all (i) adverse drug experience information; (ii) material events and matters concerning or affecting safety or lack of efficacy; and (iii) medical inquiries and complaints, in each case, relating to the Collaboration Products. Neither BioNTech nor any of its Affiliates has any knowledge of any scientific or technical facts or circumstances that would adversely affect the scientific, therapeutic, or commercial potential of Collaboration Products. Neither BioNTech nor any of its Affiliates is aware of anything that could adversely affect the acceptance, or the subsequent approval, by any Regulatory Authority of any filing, application or request for Regulatory Approval.

(f) **Manufacture of Collaboration Product.** BioNTech and its Affiliates have at all times conducted, and their respective subcontractors and consultants have at all times conducted, all Manufacture of the Collaboration Products in accordance with the applicable Compliance Requirements. The processes used to Manufacture the Collaboration Products are adequate to ensure that the Collaboration Products meet the specifications established therefor.

(g) **Manufacturing Facility.** Unless otherwise disclosed in Schedule 12.2.3(g), neither BioNTech nor its Affiliates have received: (i) (A) any FDA Form 483 Notice of Observation, or similar notice from any other Regulatory Authority, relating to the Collaboration Products or the facilities in which the Collaboration Products are Manufactured; (B) any FDA "Notices of Adverse Findings," or similar notice from any other Regulatory Authority, with respect to the Collaboration Products; or (C) any "warning letters," or "untitled letters," or other similar Regulatory Authority notice of inspectional observations or deficiencies or other written correspondence from the FDA or any other Regulatory Authority concerning the Collaboration Products or the facilities in which the Collaboration Products are Manufactured; and (ii) there has not been a recall or withdrawal or replacement of any Collaboration Product by, or on behalf of, BioNTech or any of its Affiliates, whether voluntary or involuntary.

12.2.4 Accuracy of Information. The representations and warranties of BioNTech in this Agreement, and the information, documents and materials furnished to Genentech in connection with its period of diligence prior to the Execution Date, do not, taken as a whole, (a) contain any untrue statement of a material fact, or (b) omit to state any material fact necessary to make the statements or facts contained therein, in light of the circumstances under which they were made, not misleading.

12.2.5 Effective Date. During the period from the Execution Date until the Effective Date, BioNTech shall promptly inform Genentech in writing if and when BioNTech or any of its Affiliates becomes aware that the representations and warranties made by BioNTech pursuant to Sections 12.1 and 12.2 as of the Execution Date are no longer true and correct in any material respects if made on and as of the date of such notice. Upon receipt of such notice, Genentech shall have the right, on written notice to BioNTech, to terminate this Agreement, and upon receipt of such notice by BioNTech, this Agreement shall be null and void and have no further force and effect; provided, however, Sections 9.6, 11.7 and 14.1 and Article 13 (other than Section 13.7) shall survive with respect any rights that accrued to the benefit of a Party prior to such termination.

12.3 Additional Representations and Warranties by Genentech. Genentech further represents and warrants to BioNTech, as of the Execution Date, and covenants, as follows:

12.3.1 Intellectual Property.

(a) **Title.** All Patents Controlled by Genentech that are to the knowledge of Genentech necessary to research, develop, manufacture, commercialize, make, have made, use, offer for sale, sell and import Pharmaceutical Products comprising one or more Neoepitope RNA(s) [***] are listed on Schedule 1.156. Genentech is the sole and exclusive owner of the entire right, title and interest in the Genentech Core Patent listed on Schedule 1.156; and Genentech is entitled to grant the rights and licenses (or sublicenses) specified in this Agreement and the Ancillary Agreements, including the rights of Prosecution and Maintenance specified in this Agreement, in each case, free of any encumbrance, lien, or claim of ownership by any Third Party or Affiliate and, without payment of any royalties, license fees or other amounts to any person.

(b) **Valid and Enforceable.** To the knowledge of Genentech, all Genentech Core Patents are subsisting, and all necessary Prosecution and Maintenance fees in connection with such Genentech Core Patents have been paid, and all necessary documents and certificates in connection with such Genentech Core Patents have been filed with the relevant Governmental Authorities for the purposes of Prosecuting and Maintaining such Genentech Core Patents and Genentech has complied with its duty to disclose material information to the U.S. Patent and Trademark Office and other foreign patent authorities in connection with such Genentech Core Patents. To the knowledge of Genentech and except as may be disclosed from Genentech to BioNTech or BioNTech to Genentech through their respective outside counsel, the Genentech Core Patents owned by Genentech are not invalid or unenforceable.

(c) **Rights of Prosecution and Enforcement.** To the knowledge of Genentech, Genentech has not (i) granted any Person the right to control the Prosecution and Maintenance of any of the Genentech Core Patents, (ii) granted any Person the right to bring infringement actions with respect to, or otherwise to enforce rights with respect to, any of the Genentech Core Patents, or (iii) expressly agreed not to sue or to indemnify any Person against any charge of infringement of any of Genentech Core Patents.

(d) **No Infringement of Genentech IP.** To the knowledge of Genentech, no Person is infringing or threatening to infringe or misappropriating or threatening to misappropriate the Genentech Core Patents (including pending applications and registrations therefor as if such applications or registrations were to issue or become registered) or any Neoepitope Prediction Algorithm within the Genentech IP.

(e) **No Infringement of Third Party IP.** To the knowledge of Genentech and except as may be disclosed from Genentech to BioNTech or BioNTech to Genentech through their respective outside counsel, (i) the conception, reduction to practice or creation of the Genentech Core Patents, any Neoepitope Prediction Algorithm within the Genentech IP and the Exploitation of Collaboration Products based upon the Genentech Core Patents, any Neoepitope Prediction Algorithm within the Genentech IP do not and will not infringe or misappropriate any intellectual property right (including pending applications and registrations thereof as if such applications or registrations were to issue or become registered) of any Person or otherwise violate any intellectual property right of any Person under the Applicable Laws of any jurisdictions, and (ii) the Genentech Core Patents are not dominated by any Patent (including pending applications and registrations therefor as if such applications or registrations were to issue or become registered) of any Person and not Controlled by Genentech.

(f) **Assignments.** To the extent the assignment of inventions to Genentech or its Affiliates is not effected by statutory law (e.g. the Statute of German Employees' Inventions Act), all current and former officers, employees, agents and consultants of Genentech or any of its Affiliates or, to the knowledge of Genentech and its Affiliates, their respective subcontractors who are inventors of or have otherwise contributed in a material manner to the creation or development of any Genentech IP have, directly or indirectly, agreed to protect such Genentech IP as proprietary information and assign any and all rights in and to such Genentech IP to Genentech or such Affiliate or such subcontractor (as

applicable), by execution and delivery to Genentech or such Affiliate or subcontractor of an assignment or other agreement or otherwise. To the knowledge of Genentech and its Affiliates, no current officer, employee, agent, or consultant of Genentech or any of its Affiliates or their respective subcontractors is in violation of any term of any assignment or other agreement regarding the protection of Patents or other intellectual property or proprietary information of Genentech or such Affiliate or of any employment contract or any other contractual obligation relating to the relationship of any such Person with Genentech.

(g) **Confidentiality of Genentech Know-How.** Except as disclosed in scientific publications generally made available to the public, Genentech and its Affiliates have maintained the Genentech Know-How at all times as confidential and only disclosed the Genentech Know-How to Third Parties under obligations of confidentiality. To the knowledge of Genentech, no such Third Party has used or disclosed Genentech Know-How in breach of its confidentiality obligations.

(h) **Neoepitope Prediction Algorithm.** To the knowledge of Genentech and except as disclosed on Schedule 12.3.1(h), (i) Genentech owns or has sufficient rights in any Neoepitope Prediction Algorithm within the Genentech IP as of the Execution Date to disclose and provide copies of such Neoepitope Prediction Algorithm and grant the rights and licenses (and sublicenses) provided to BioNTech under this Agreement, free of any encumbrance, lien, or claim of ownership by any Third Party or Affiliate and without payment of any royalties, license fees or other amounts to any Person, and (ii) the use and other exploitation of such Neoepitope Prediction Algorithm in the Exploitation of Collaboration Products will not depend on the acquisition of rights from any Third Party.

(i) **No Viruses.** To the knowledge of Genentech and its Affiliates, any Neoepitope Prediction Algorithm within the Genentech IP as of the Execution Date does not contain or incorporate any code, lock, authorization key, disabling code, or similar device or code that is intended to impair, disable or otherwise impede the operation of software or hardware or any "back door," "time bomb," "Trojan horse," "drop-dead device," "virus" or other software routines or code or hardware components designed to permit unauthorized access, to send information to a Third Party(ies) without the user's consent, to disable or erase software, hardware or data, or to contaminate, corrupt, or damage information technology systems or architecture or to perform any other similar actions.

(j) **No Copyleft.** To the knowledge of Genentech and its Affiliates, any Neoepitope Prediction Algorithm within the Genentech IP and the Neoepitope Prediction Software used by Genentech in its Neoepitope Prediction Algorithm as of the Execution Date are not, do not contain or incorporate, and are not bundled, combined, or linked with, any software or other materials in a form or manner which creates, or purports to create, obligations (i) for a licensee to license its own intellectual property rights, including Patents, to any Third Parties or (ii) that a licensee's software or other materials must: (A) be disclosed or distributed in source code form; (B) be licensed for the purpose of making derivative works; or (C) be redistributable at no charge. Without limiting the foregoing:

(i) To the knowledge of Genentech and its Affiliates and to the extent that, at any time prior to the Execution Date, any mechanism was used to facilitate communication between (i) the Neoepitope Prediction Software owned by Genentech within the Genentech IP and (ii) any Copyleft Software, or other software disclosed on Schedule 12.3.1(h), the mechanism that was used was a command line argument and the semantics of the communication did not involve the exchange of complex data structures.

(ii) To the knowledge of Genentech, the Neoepitope Prediction Software used by Genentech in its Neoepitope Prediction Algorithm as of the Execution Date has not been transferred from one location to another location.

(iii) In the development of the Neoepitope Prediction Software used by Genentech in its Neoepitope Prediction Algorithm as of the Execution Date, Genentech has followed standard operating procedures with respect to software development that control and document the use of Copyleft Software. During the Term, Genentech will maintain and enforce standard operating procedures with respect to the use of Copyleft Software in association with the development of the Neoepitope Prediction Software used in the development of Collaboration Products under this Agreement. Such standard operating procedures shall require that the Committee Co-Chairs of the JRC and the JDC be notified of any anticipated use or transfer of Copyleft Software and that to the extent that any communication mechanism is implemented between (x) the Neoepitope Prediction Software owned by Genentech within the Genentech IP and (y) any Copyleft Software or other software disclosed on Schedule 12.3.1(h), that mechanism shall be a command line argument and the semantics of the communication shall not involve the exchange of complex data structures. Any variation from these standard operating procedures must be approved in writing by the JRC and the JDC.

(k) **No Other Claims.** To the knowledge of Genentech, there are no claims, judgments, or settlements against, or amounts with respect thereto, owed by Genentech or any of its Affiliates relating to the Genentech Core Patents, any Neoepitope Prediction Algorithm within the Genentech IP or the Regulatory Documentation or the Exploitation of Collaboration Products.

(l) **Disclosure.** There are no agreements between Genentech or any of its Affiliates with any Third Parties (i) pursuant to which Genentech or its Affiliate has obtained, or has a right to obtain, a license under or rights to use the Genentech Core Patents that is relevant to this Agreement or the Ancillary Agreements or (ii) pursuant to which Genentech or its Affiliate otherwise owes, or would otherwise owe, payments to a Third Party as a result of the Exploitation of Collaboration Products or other activities conducted hereunder (whether by BioNTech or Genentech or their respective (sub)licensees), including the grant of rights and licenses under the Genentech Core Patents to BioNTech.

12.4 DISCLAIMER OF WARRANTIES. EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH HEREIN, NEITHER PARTY MAKES ANY REPRESENTATIONS OR GRANTS ANY WARRANTIES, EXPRESS OR IMPLIED, EITHER IN FACT OR BY OPERATION OF LAW, BY STATUTE OR OTHERWISE, AND EACH PARTY SPECIFICALLY DISCLAIMS ANY OTHER WARRANTIES, WHETHER

WRITTEN OR ORAL, OR EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF QUALITY, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR USE OR PURPOSE OR ANY WARRANTY AS TO THE VALIDITY OF ANY PATENTS OR THE NON-INFRINGEMENT OF ANY INTELLECTUAL PROPERTY RIGHTS OF THIRD PARTIES.

EACH PARTY FURTHER DISCLAIMS ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, WITH RESPECT TO EACH OF THEIR RESEARCH, DEVELOPMENT AND COMMERCIALIZATION EFFORTS HEREUNDER, INCLUDING, WITHOUT LIMITATION, WHETHER THE COLLABORATION PRODUCTS CAN BE SUCCESSFULLY DEVELOPED OR MARKETED, THE ACCURACY, PERFORMANCE, UTILITY, RELIABILITY, TECHNOLOGICAL OR COMMERCIAL VALUE, COMPREHENSIVENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE WHATSOEVER OF THE COLLABORATION PRODUCTS.

12.5 Disclosures. The inclusion of, or reference to, any item or information in any schedule referenced in this Article 12 herein, or otherwise disclosed through outside counsel, does not and shall not (a) constitute an admission or (b) otherwise imply that such item or information (i) is material or (ii) meets all criteria set forth in the applicable section in this Article 12 for inclusion in such section.

ARTICLE 13.
INDEMNITY AND INSURANCE

13.1 Indemnification of BioNTech. Genentech shall indemnify BioNTech, its Affiliates and their respective directors, officers, employees, and agents, and defend and save each of them harmless, from and against any and all losses, damages, liabilities, costs, and expenses (including reasonable attorneys' fees and expenses) (collectively, "**Losses**") in connection with any and all suits, investigations, claims, or demands of Third Parties (collectively, "**Third Party Claims**") arising from or occurring as a result of:

(a) the breach by Genentech of its obligations under this Agreement or any Ancillary Agreement;

(b) the breach of any of the warranties or representations made by Genentech to BioNTech under this Agreement or any Ancillary Agreement;

(c) the negligence or willful misconduct on the part of Genentech or its Affiliates or their respective directors, officers, employees, and agents in performing its or their obligations under this Agreement or any Ancillary Agreement; or

(d) the use of any Product Trademarks (including the IVAC Trademark to the extent Genentech uses it as a Product Trademark hereunder) by Genentech or BioNTech in accordance with this Agreement and the Ancillary Agreements; and

(e) (i) the use by BioNTech or its Affiliate of a Combination Agent Controlled by Genentech or its Affiliates in a Clinical Study of a Collaboration Product hereunder, or [***]

except in the case of clauses (a) through (e) above, for those Losses for which BioNTech has an obligation to indemnify Genentech pursuant to Section 13.2, as to which Losses each Party shall indemnify the other to the extent of their respective liability for the Losses.

13.2 Indemnification of Genentech. BioNTech shall indemnify Genentech, its Affiliates and their respective directors, officers, employees, and agents, and defend and save each of them harmless, from and against any and all Losses in connection with any and all Third Party Claims arising from or occurring as a result of:

(a) the breach by BioNTech of its obligations under this Agreement or any Ancillary Agreement;

(b) the breach of any of the warranties or representations made by BNT or RNP to Genentech under this Agreement or any Ancillary Agreement; or

(c) the negligence or willful misconduct on the part of BioNTech or its Affiliates or its or their respective directors, officers, employees, and agents in performing its obligations under this Agreement or any Ancillary Agreement;

(d) (i) the use by Genentech or its Affiliate of a Combination Agent Controlled by BioNTech or its Affiliates in a Clinical Study of a Collaboration Product hereunder, or [***];

except, in the case of clauses (a) through (d) above, for those Losses for which Genentech has an obligation to indemnify BioNTech pursuant to Section 13.1, as to which Losses each Party shall indemnify the other to the extent of their respective liability for the Losses.

13.3 Certain Losses. Any Losses, other than those Losses for which indemnification is provided in Section 13.1 or Section 13.2, in connection with any Third Party Claim brought against either Party resulting directly or indirectly from (a) the performance of the Joint Development Activities by either Party (or its Affiliates, employees, or agents) in accordance with the GDP shall be included as a Shared Development Cost or (b) the Commercialization of a GDP Collaboration Product, or the Manufacture of a GDP Collaboration Product in support of such Commercialization shall be included as an Allowable Expense. If either Party learns of any Third Party Claim with respect to Losses covered by this Section 13.3, such Party shall provide the other Party with prompt written notice thereof. The Parties shall confer with respect to how to respond to such Third Party Claim and how to handle such Third Party Claim in an efficient manner. In the absence of such an agreement, each Party shall have the right to take such action as it deems appropriate.

13.4 Notice of Claim. All indemnification claims in respect of a Party, its Affiliates, or their respective directors, officers, employees and agents shall be made solely by such Party to this Agreement (the "**Indemnified Party**"). The Indemnified Party shall give the indemnifying Party prompt written notice (an "**Indemnification Claim Notice**") of any

Losses or discovery of fact upon which such indemnified Party intends to base a request for indemnification under this Article 13, but in no event shall the indemnifying Party be liable for any Losses that result from any delay in providing such notice. Each Indemnification Claim Notice must contain a description of the claim and the nature and amount of such Loss (to the extent that the nature and amount of such Loss is known at such time). The Indemnified Party shall furnish promptly to the indemnifying Party copies of all papers and official documents received in respect of any Losses and Third Party Claims.

13.5 Control of Defense.

13.5.1 In General. At its option, the indemnifying Party may assume the defense of any Third Party Claim by giving written notice to the Indemnified Party within [***] days after the indemnifying Party's receipt of an Indemnification Claim Notice. The assumption of the defense of a Third Party Claim by the indemnifying Party shall not be construed as an acknowledgment that the indemnifying Party is liable to indemnify the Indemnified Party in respect of the Third Party Claim, nor shall it constitute a waiver by the indemnifying Party of any defenses it may assert against the Indemnified Party's claim for indemnification. Upon assuming the defense of a Third Party Claim, the indemnifying Party may appoint as lead counsel in the defense of the Third Party Claim any legal counsel selected by the indemnifying Party. In the event the indemnifying Party assumes the defense of a Third Party Claim, the Indemnified Party shall immediately deliver to the indemnifying Party all original notices and documents (including court papers) received by the Indemnified Party in connection with the Third Party Claim. Should the indemnifying Party assume the defense of a Third Party Claim, except as provided in Section 13.5.2, the indemnifying Party shall not be liable to the Indemnified Party for any legal expenses subsequently incurred by such Indemnified Party in connection with the analysis, defense or settlement of the Third Party Claim unless specifically requested in writing by the indemnifying Party. In the event that it is ultimately determined that the indemnifying Party is not obligated to indemnify, defend or hold harmless the Indemnified Party from and against the Third Party Claim, the Indemnified Party shall reimburse the indemnifying Party for any and all costs and expenses (including attorneys' fees and costs of suit) and any Losses incurred by the indemnifying Party in its defense of the Third Party Claim.

13.5.2 Right to Participate in Defense. Without limiting Section 13.5.1, any Indemnified Party shall be entitled to participate in, but not control, the defense of such Third Party Claim and to employ counsel of its choice for such purpose; *provided, however*, that such employment shall be at the Indemnified Party's own expense unless (a) the employment thereof has been specifically authorized by the indemnifying Party in writing, (b) the indemnifying Party has failed to assume the defense and employ counsel in accordance with Section 13.5.1 (in which case the Indemnified Party shall control the defense), or (c) the interests of the indemnitee and the indemnifying Party with respect to such Third Party Claim are sufficiently adverse to prohibit the representation by the same counsel of both Parties under Applicable Law, ethical rules or equitable principles.

13.5.3 Settlement. With respect to any Losses relating solely to the payment of money damages in connection with a Third Party Claim and that shall not result in the Indemnified Party's becoming subject to injunctive or other relief, and as to which the indemnifying Party shall have acknowledged in writing the obligation to indemnify the Indemnified Party hereunder, the indemnifying Party shall have the sole right to consent to the entry of any judgment, enter into any settlement or otherwise dispose of such Loss, on such terms as the indemnifying Party, in its sole discretion, shall deem appropriate; provided that the judgment, settlement or other disposition does not and will not (a) result in a finding or admission of any violation of any Applicable Law or any violation of the rights of any person, or (b) result in the Indemnified Party's rights under this Agreement being adversely affected. In all other cases, where the indemnifying Party has assumed the defense of the Third Party Claim in accordance with Section 13.5.1, the indemnifying Party shall have authority to consent to the entry of any judgment, enter into any settlement or otherwise dispose of such Third Party Claim; *provided* it obtains the prior written consent of the Indemnified Party (which consent shall not be unreasonably withheld or delayed). If the indemnifying Party does not assume and conduct the defense of a Third Party Claim as provided above, the Indemnified Party may defend against such Third Party Claim; *provided* that the Indemnified Party shall not settle any Third Party Claim without the prior written consent of the indemnifying Party, not to be unreasonably withheld or delayed.

13.5.4 Cooperation. Regardless of whether the indemnifying Party chooses to defend or prosecute any Third Party Claim, the Indemnified Party shall, and shall cause each indemnitee to, cooperate in the defense or prosecution thereof and shall furnish such records, information and testimony, provide such witnesses and attend such conferences, discovery proceedings, hearings, trials and appeals as may be reasonably requested in connection therewith. Such cooperation shall include access during normal business hours afforded to the indemnifying Party to, and reasonable retention by the Indemnified Party of, records and information that are reasonably relevant to such Third Party Claim, and making Indemnified Parties and other employees and agents available on a mutually convenient basis to provide additional information and explanation of any material provided hereunder, and the indemnifying Party shall reimburse the Indemnified Party for all its reasonable out-of-pocket expenses in connection therewith.

13.5.5 Expenses. Except as provided above, the costs and expenses, including fees and disbursements of counsel, incurred by the Indemnified Party in connection with any claim shall be reimbursed on a Calendar Quarter basis by the indemnifying Party, without prejudice to the indemnifying Party's right to contest the Indemnified Party's right to indemnification and subject to refund in the event the indemnifying Party is ultimately held not to be obligated to indemnify the Indemnified Party.

13.6 Limitation of Liability. IN NO EVENT SHALL EITHER BIONTECH OR GENENTECH BE LIABLE FOR INDIRECT DAMAGES (INDIREKTE SCHÄDEN/MITTELBARE SCHÄDEN/WEITERE SCHÄDEN ALS SCHÄDEN MIT LANGEM KAUSALZUSAMMENHANG) OR CONSEQUENTIAL DAMAGES (MANGELFOLGESCHÄDEN, SEKUNDÄRE SCHÄDEN, FOLGESCHÄDEN UND SCHÄDEN, DIE SICH AUS EINEM DIREKTEN SCHADEN/UNMITTELBAREN SCHADEN ERGEBEN) INCLUDING LOST PROFIT (ENTGANGENER GEWINN) ARISING FROM OR RELATED TO BREACH OF THIS AGREEMENT, WHETHER BASED ON CONTRACT, TORT OR ANY OTHER LEGAL THEORY, EXCEPT TO THE EXTENT SUCH DAMAGES OR LOST PROFIT ARE DUE TO THE GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF THE OTHER PARTY; PROVIDED, HOWEVER, THAT NOTHING IN THIS SECTION 13.6 IS INTENDED TO LIMIT OR RESTRICT THE INDEMNIFICATION RIGHTS OR OBLIGATIONS OF EITHER PARTY UNDER SECTIONS 13.1, 13.2, 13.3, 13.4 and 13.5.

13.7 Insurance.

13.7.1 Each Party shall maintain insurance coverage as set forth in this Section 13.7 at its own cost; provided, however, Genentech has the right, in its sole discretion, to self-insure, in part or in whole, for any such coverage. The following provisions of this Section 13.7 shall not apply with respect to BioNTech's Conduct of any Ongoing Clinical Study.

(a) Each Party shall maintain commercial general liability ("CGL") insurance, including contractual liability, combined single limit for bodily injury and property damage liability, in the minimum amount per occurrence of: (i) [***] with respect to Genentech and [***] with respect to BioNTech, commencing as of the Effective Date; (ii) [***] with respect to Genentech and [***] with respect to BioNTech, commencing at least [***] days prior to any period during which a Party (or its Sublicensees or permitted subcontractors) is conducting a clinical trial with any Collaboration Product; and (iii) [***] with respect to Genentech and [***] with respect to BioNTech, commencing at least [***] prior to any period during which a Party (or its Sublicensees) is selling any Collaboration Product, *provided*, however, that, in each case, the total amount of insurance coverage to be maintained by either Party for all occurrences per Calendar Year shall be limited to [***] of the minimum amounts per occurrence set forth above.

(b) Each Party shall maintain products liability insurance, including contractual liability, combined single limit for bodily injury and property damage liability, for all occurrences per Calendar Year in the minimum amount of: (i) [***] with respect to Genentech and [***] with respect to BioNTech commencing at least [***] days prior to any period during which a Party (or its Sublicensees or permitted subcontractors) is conducting a clinical trial with any Collaboration Product and (ii) [***] with respect to Genentech and [***] Euro with respect to BioNTech commencing at least [***] prior to any period during which a Party (or its Sublicensees) is selling any Collaboration Product; provided, however, the JDC may, via mutual agreement, upon [***] days' notice to the Parties, increase such minimum amount, taking into account the particular Collaboration Products then being Developed under the GDP and the methods of administration, Indications in clinical trials and projected sales thereof and, in the event the Parties enter into a

Co-Promotion Agreement, the JCC may, via mutual agreement, upon [***] days' notice to the Parties, increase such minimum amount, taking into account the particular Collaboration Products then being co-promoted under a Co-Promotion Agreement and the methods of administration, Indications approved and projected sales thereof.

(c) **Workers' Compensation and Employers' Liability Insurance.** Each Party shall maintain (i) to the extent not covered by applicable statutory law (e.g. in Germany), workers' compensation insurance in accordance with Applicable Law and (ii) employers' liability insurance, in the minimum amount of [***] or [***]. Each Party agrees to waive its right of subrogation with respect to workers' compensation claim.

13.7.2 Additional Requirements. Except to the extent that a Party self-insures, the following provisions shall apply.

(a) All insurance coverage shall be primary insurance with respect to each Party's own participation under this Agreement and shall be maintained with an insurance company or companies having an A.M. Best's rating (or its equivalent) of A XII.

(b) The insurance policies shall be under an occurrence form, but if only a claims made form is available to a Party, such Party shall maintain the insurance coverage for at least [***] years after such Party completes performance of its obligations under this Agreement.

(c) Each Party's aggregate deductibles under its CGL and Products Liability and insurance policies shall be satisfactory to the other Party.

(d) On request, each Party shall provide to the other Party certificates of insurance evidencing the insurance coverage required under this Section 13.7. Each Party shall provide to the other Party at least [***] days' prior written notice of any cancellation, nonrenewal or material change in any of the required insurance coverages.

ARTICLE 14.
TERM AND TERMINATION

14.1 Term.

14.1.1 HSR and Other Governmental Filings. The Parties shall each, as promptly as practicable after the Execution Date, file or cause to be filed with the U.S. Federal Trade Commission and the U.S. Department of Justice and any relevant foreign governmental authority any notifications required to be filed under the HSR Act (the "**HSR Filing**") or any similar applicable foreign law or regulation with respect to the transactions contemplated hereby; *provided* that the Parties shall each make the HSR Filing within [***] Business Days after the Execution Date and shall each file any notifications or filings required to be filed under any competition, antitrust or similar applicable foreign laws and regulations as promptly as reasonably practicable. The Parties shall use commercially reasonable efforts to respond promptly to any requests for additional information made by such agencies, and to cause the waiting period (and any extension thereof) under the HSR Act to terminate or expire at the earliest possible date and obtain any required authorization or clearance under any competition, antitrust or similar applicable foreign law or regulation ("**Required Clearances**") after the date of filing. [***] In addition, each Party is responsible for the costs and expenses of its own legal and other advice in preparing and conducting the HSR Filing or any equivalent foreign filing.

14.1.2 Term. Notwithstanding anything in this Agreement to the contrary, this Agreement (other than this Section 14.1, and Sections 9.6, 11.4.2 and 11.7, and Article 13 (other than Section 13.7) which are binding and effective as of the Execution Date) shall not become effective until the later of (a) the expiration or earlier termination of the waiting period (or any extension thereof) under the HSR Act in the United States and the receipt of any Required Clearances and (b) the date on which each of the closing conditions set forth on Schedule 14.1.2 are met or waived in writing by Genentech (the date when (a) and (b) are first both satisfied, the "**Effective Date**"), and upon the Effective Date the full Agreement and all its terms and provisions shall be automatically effective and binding on both Parties. If, on the [***]day after the date of the HSR Filing, the waiting period required thereunder has not expired or any Required Clearances shall not have been obtained, either Party shall have the right, on written notice to the other Party, to terminate this Agreement, and upon receipt of such notice by such other Party, this Agreement shall be null and void and have no further force and effect; provided, however, the aforesaid Sections and Article shall survive with respect any rights that accrued to the benefit of a Party prior to such termination. If, by [***]days after the Execution Date, each of the closing conditions set forth on Schedule 14.1.2 have not been met or waived in writing, then at any time prior to each such closing condition having been met or waived in writing, Genentech shall have the right by delivery of written notice to BioNTech to terminate this Agreement effective immediately, and upon receipt of such notice by BioNTech, this Agreement shall be null and void and have no further force and effect; provided, however, the aforesaid Sections and Article shall survive with respect any rights that accrued to the benefit of a Party prior to such termination. This Agreement shall commence on the Effective Date (other than the provisions effective as of the Execution Date as designated above) and, unless earlier terminated in accordance herewith, shall continue in force and effect until the date of expiration of the Collaboration Term (or the date of expiration of the last Royalty Term for a Royalty Product, if BioNTech has exercised its Opt-Out (or a Deemed Opt-Out has occurred pursuant to Section 8.5.3)) (such period, the "**Term**").

14.1.3 Effect of Expiration of the Term. Following the expiration of the Term, the grants in Article 9 shall become fully-paid, royalty-free and irrevocable.

14.2 Termination by Either Party for Material Breach. If either Party (the "**Non-Breaching Party**") believes that the other Party (or any of its Affiliates or permitted subcontractors or sublicensees) (the "**Breaching Party**") has materially breached one or more of its material obligations under this Agreement (a "**Material Breach**"), then the Non-Breaching Party may deliver notice of a Material Breach to the Breaching Party (a "**Default Notice**"). If the Breaching Party does not dispute that it has committed a Material Breach, then if the Breaching Party fails to cure such Material Breach, or fails to take steps as would be considered reasonable to effectively cure such Material Breach, within [***] days after receipt of the Default Notice or such other period as mutually agreed by the Parties, the Non-Breaching Party may terminate this Agreement upon written notice to the Breaching Party. If the Breaching Party disputes that it has committed a Material Breach, the dispute shall be resolved in good faith pursuant to Section 15.7.1, or pursuant to Section 15.7.2(g), if necessary. If, as a result of the application of such dispute resolution procedures, the Breaching Party is determined to be in Material Breach (an "**Adverse Ruling**"), then the Non-Breaching Party may terminate this Agreement upon written notice to the Breaching Party.

14.3 Additional Termination Rights by Genentech.

14.3.1 For Non-Achievement of Targets. Genentech may terminate this Agreement in its entirety upon [***] days' prior written notice to BioNTech in the event that (a) the Core Facility and the EUFETS Facility have not achieved Operational Readiness with respect to the IVAC 2.0 Process by October 31, 2017, (b) the Clinical Facilities have not achieved Operational Readiness with respect to the IVAC 2.1 Process by May 31, 2018, (c) BioNTech fails to achieve [***], or (d) Genentech in good faith believes that [***]

14.3.2 For Convenience. At any time [***], Genentech may terminate this Agreement in its entirety for any or no reason, upon [***] days' prior written notice to BioNTech.

14.4 Termination for Insolvency. In the event that either entity included within a Party (a) files for protection under bankruptcy or insolvency laws, (b) makes an assignment for the benefit of creditors, (c) appoints or suffers appointment of a receiver or trustee over substantially all of its property that is not discharged within [***] days after such filing, (d) proposes a written agreement of composition or extension of its debts, (e) proposes or is a party to any dissolution or liquidation, or (f) files a petition under any bankruptcy or insolvency act or has any such petition filed against that is not discharged within [***] days of the filing thereof, then the other Party may terminate this Agreement in its entirety effective immediately upon written notice to such Party.

14.5 Effects of Termination. In the event of a termination of this Agreement after the Effective Date for any reason, then, from and after the effective date of termination, the provisions of this Section 14.5 shall apply.

14.5.1 Termination of Licenses and Rights of Reference. As of the effective date of such termination, (a) all licenses and Rights of Reference granted by BioNTech hereunder shall immediately terminate other than the license set forth in Section 9.1.2, and (b) all licenses and Rights of Reference granted by Genentech hereunder shall immediately terminate other than the license set forth in Section 9.2.2; except to the extent reasonably necessary for the licensee Party to fulfill its post-termination obligations under this Section 14.5.

14.5.2 Wind-Down of Clinical Studies. Subject to Sections 14.5.3 and 14.5.5, except as may be otherwise agreed in writing by the Parties, each Party will be responsible for an orderly wind-down of any ongoing Clinical Studies it is Conducting as of the date of termination of this Agreement (other than those that may be transferred under Section 14.5.3) (and, in the case of a GDP Collaboration Product, any wind-down costs associated therewith shall be included as Shared Development Costs, unless an Opt-Out has occurred), in accordance with accepted pharmaceutical industry norms and ethical practices, including with respect to any on-going Clinical Studies hereunder. In connection with such wind-down, if one Party is then supplying the other Party with clinical supplies for such Clinical Studies, then such supplying Party shall supply the other Party under such agreement with continued quantities of clinical supplies to fulfill demand for such clinical supplies until [***] (and in the case of a GDP Collaboration Product if an Opt-Out has not occurred the Fully-Burdened Manufacturing Costs with respect thereto shall be included as Shared Development Costs).

14.5.3 Transfer of Clinical Studies. In the event of a termination of this Agreement by Genentech pursuant to Sections 14.3.1 or 14.3.2 or by BioNTech pursuant to Section 14.2, then, provided that [***] and except as may be otherwise agreed in writing by the Parties, upon written request of BioNTech to be delivered no later than [***] days following the delivery of relevant termination notice, Genentech shall [***] Any transfer costs associated with such Clinical Studies shall be included as Shared Development Costs.

14.5.4 Post-Term License.

(a) In the event of a termination of this Agreement by Genentech pursuant to Sections 14.3.1 or 14.3.2 or by BioNTech pursuant to Section 14.2, provided that the termination is not due to the demonstration of an unfavorable safety profile of Collaboration Product(s), then upon BioNTech's written request to be delivered no later than [***] days following the delivery of a notice of termination by Genentech under Section 14.3.1 or 14.3.2 or by BioNTech under Section 14.2 ("**Post-Term License Notice**"), Genentech shall grant to BioNTech pursuant to a separate written agreement [***] If Genentech and BioNTech have not entered into such agreement until the effective date of termination, [***]

(b) In the event a timely-delivered Post-Term License Notice requests a license under [***] In the event the Parties are unable to agree on such reasonable economic terms, the dispute shall be resolved in accordance with Section 15.7; provided that in the event the dispute is arbitrated, the Arbitrators shall be required to adopt the economic terms proposed by one Party or the other Party, without modification, that best reflect commercially reasonable terms (i.e., baseball-style arbitration). [***]

(c) Pursuant to mutual, good faith discussions, Genentech will transfer to BioNTech or grant a royalty-free license to BioNTech under the trademark(s) Controlled by Genentech and solely relating to the Terminated Product(s) that has been approved by the applicable Regulatory Authority (where approval is required) and used in connection with the Commercialization of any Terminated Product.

14.5.5 Transfer of Data and Regulatory Rights. In the event of a termination of this Agreement by Genentech pursuant to Sections 14.3.1 or 14.3.2 or by BioNTech pursuant to Section 14.2, then, if prior to the effective date of termination, any IND has been filed by Genentech and provided that the termination [***], then upon written request of BioNTech to be delivered no later than [***] days following the delivery of relevant termination notice (a) subject to Section 14.5.11, to the extent permitted by Applicable Law, such INDs and any Regulatory Approvals solely related to the applicable Termination Products held by Genentech or its Affiliates or Sublicensees shall be transferred to BioNTech or its designee, and [***]

14.5.6 Collaboration Patent Prosecution and Maintenance and Enforcement Rights. [***]

14.5.7 Clinical Supply. In the event of a termination of this Agreement by Genentech pursuant to Sections 14.3.1 and 14.3.2 or by BioNTech pursuant to Section 14.2 and provided that (i) Genentech has been performing Clinical Manufacture and supply of a Termination Product before the effective date of termination of this Agreement and (ii) [***], then at BioNTech's written request, Genentech shall, [***], continue to perform such Clinical Manufacture and supply of Termination Product, subject to any applicable surviving provisions of the Ancillary Agreements (pursuant to Section 14.5.12) including the patient demand forecasting provisions of the MDSA. The following shall apply in respect of any activities performed by Genentech under this Section 14.5.7:

(a) BioNTech shall pay Genentech a supply price for Collaboration Product equal to [***]

(b) BioNTech may at any time after the effective date of termination of this Agreement, terminate the clinical supply of Collaboration Products under this Section 14.5.7 upon [***] months' written notice.

(c) During such time as Genentech is obligated to provide clinical supply of Termination Products, it shall perform the Clinical Manufacture of Termination Product in accordance with the requirements of the MDSA (including for the avoidance of doubt with respect to Capacities and forecasting) and the Quality Agreement.

14.5.8 Commercial Supply. In the event of a termination of this Agreement by Genentech pursuant to Sections 14.3.1 and 14.3.2 or by BioNTech pursuant to Section 14.2 and provided that (i) Genentech has established one or more Manufacturing Facilities that have received Licensure to provide commercial supply of a Termination Product and BioNTech has not established any Manufacturing Facilities that have received Licensure and have sufficient Capacities for commercial supply of such Termination Product and (ii) [***], then, subject to any applicable surviving provisions of the Ancillary Agreements (pursuant to Section 14.5.12) including the patient demand forecasting provisions of the MDSA, at BioNTech's written request, Genentech shall:

[***]

14.5.9 [***]

14.5.10 Confidential Information. Except as otherwise necessary to continue exercising any ongoing licenses under this Agreement or any ongoing license mutually agreed upon pursuant to Section 14.5.4, each Party will return (or destroy, as directed by the other Party) all data, files, records and other materials containing or comprising the other Party's Confidential Information. Notwithstanding the foregoing, (a) in respect of physical embodiments of information, the Parties will be permitted to retain one copy of such data, files, records, and other materials for non-commercial archival purposes, and (b) in respect of any information stored electronically or in other non-physical media, it will be sufficient for such Party to procure that access to such information is restricted to non-commercial archiving purposes only.

14.5.11 Limitation. For clarity, Genentech's obligations pursuant to Sections 14.5.2 through 14.5.10, including the licenses contemplated by Section 14.5.4 (and including Genentech's obligation with respect to Regulatory Approvals and Regulatory Documentation pursuant to Section 14.5.5, and Genentech's supply obligations set forth in Sections 14.5.7 and 14.5.8), shall apply with respect to Terminated Products (or, solely to the extent expressly provided pursuant to this Section 14.5, Reversion Products) only, and shall not, for clarity, impose any obligation on Genentech or grant any rights to BioNTech with respect to any Combination Agent except as [***] expressly and mutually agreed by the Parties in connection with a termination of this Agreement.

14.5.12 Effect on Ancillary Agreements. In the case of termination of this Agreement for any reason, all other Ancillary Agreements shall terminate as of the effective date of the termination of this Agreement (or such longer period as may be required to allow the Parties to comply with their obligations under Applicable Law), except that the Manufacturing Development and Supply Agreement, the Commercial Manufacturing Agreement and the Quality Agreement(s), shall survive termination of this Agreement solely to the extent that, and as along as, BioNTech or Genentech is obliged to Manufacture and supply (clinical or commercial) Collaboration Products pursuant to Sections 14.5.2, 14.5.7 or 14.5.8, and shall terminate thereafter.

14.6 Rights in Bankruptcy. All rights and licenses granted under or pursuant to this Agreement by Genentech or BioNTech are, and shall otherwise be deemed to be, for purposes of Section 365(n) of the U.S. Bankruptcy Code or any analogous provisions in any other country or jurisdiction, licenses of right to "intellectual property" as defined under Section 101 of the U.S. Bankruptcy Code. The Parties agree that the Parties, as licensees of such rights under this Agreement, shall retain and may fully exercise all of their rights and elections under the U.S. Bankruptcy Code or any analogous provisions in any other country or jurisdiction. The Parties further agree that, in the event of the commencement of a bankruptcy proceeding by or against either Party under the U.S. Bankruptcy Code or any analogous provisions in any other country or jurisdiction, the Party hereto that is not a Party to such proceeding shall be entitled to a complete duplicate of (or complete access to, as appropriate) any such intellectual property and all embodiments of such intellectual property, which, if not already in the non-subject Party's possession, shall be promptly delivered to it (a) upon any such commencement of a bankruptcy proceeding upon the non-subject Party's written request therefor, unless the Party subject to such proceeding elects to continue to perform all of its obligations under this Agreement, or (b) if not delivered under clause (a) above, following the rejection of this Agreement by or on behalf of the Party subject to such proceeding upon written request therefor by the non-subject Party. The Parties acknowledge and agree that only payments under Section 8.6, royalty payments with respect to BioNTech Collaboration Product [***] pursuant to Section 5.3 and [***] shall (i) constitute royalties within the meaning of Section 365(n) of the U.S. Bankruptcy Code or any analogous provisions in any other country or jurisdiction or (ii) relate to licenses of intellectual property hereunder. To the extent permitted by applicable law, the non-subject Party shall have the right but not the obligation to take over the entire ownership of the Collaboration IP in consideration for a fair compensation.

14.7 Remedies. Except as otherwise expressly provided herein, termination of this Agreement (either in its entirety or with respect to one or more country(ies)) in accordance with the provisions hereof shall not limit remedies that may otherwise be available in law or equity.

14.8 Accrued Rights; Surviving Obligations. Termination or expiration of this Agreement (either in its entirety or with respect to one or more country(ies)) for any reason shall be without prejudice to any rights that shall have accrued to the benefit of a Party prior to such termination or expiration. Such termination or expiration shall not relieve a Party from obligations that are expressly indicated to survive the termination or expiration of this Agreement. Without limiting the foregoing, [***]

ARTICLE 15.
MISCELLANEOUS

15.1 Force Majeure. Neither Party shall be deemed to have breached this Agreement for failure to perform its obligations under this Agreement to the extent such failure results from causes beyond the reasonable control of the affected Party, such causes including acts of God, earthquakes, fires, floods, embargoes, wars, acts of terrorism, insurrections, riots, civil commotions, omissions or delays in action by any governmental authority, acts of a government or agency thereof and judicial orders or decrees. If a force majeure event occurs, the Party unable to perform shall promptly notify the other Party of the occurrence of such event, and the Parties shall meet (in person or telephonically) promptly thereafter to discuss the circumstances relating thereto. The Party unable to perform shall (a) provide reasonable status updates to the other Party from time to time; (b) use commercially reasonable efforts to mitigate any adverse consequences arising out of its failure to perform; and (c) resume performance as promptly as possible.

15.2 Change in Control of BioNTech.

15.2.1 Notice.

(a) BioNTech (or its successor) shall provide Genentech with written notice of any [***] Change in Control within [***] following [***]

(b) The Parties shall agree on a process to have mutually agreed outside counsel assist in making a determination as to whether [***]

15.2.2 [***] **Change in Control.** In the event of any [***] Change in Control, then notwithstanding anything to the contrary contained in this Agreement, each of the following consequences shall apply effective as of the closing date of such Change in Control, or such later date as applicable pursuant to Section 15.2.2(k):

(a) BioNTech shall not have the right to Initiate any BioNTech Study without the prior written consent of Genentech. BioNTech may Conduct BioNTech Study(ies), subject to all applicable provisions of this Agreement (including Section 4.5) and any Ancillary Agreements, solely in the event that any such BioNTech Study was Initiated prior to the closing date of such Change in Control.

(b) BioNTech shall no longer have the right to [***].

(c) BioNTech's rights under Section 6.5, including its Co-Promotion Option for all Indications, shall terminate, all Co-Promotion Agreements already executed shall terminate and BioNTech shall have no further Co-Promotion Option rights for any Indication under Section 6.5.

(d) BioNTech's rights to build any Commercial Facilities for inclusion in the Manufacturing Network pursuant to Section 2.2.2 of the MDSA and any Independent Facilities outside of the Manufacturing Network (including for the Manufacture of BioNTech Collaboration Products under [***] pursuant to Section 2.2.5 of the MDSA, respectively, shall terminate upon the closing date of a [***] Change in Control, [***]

(e) Each of the provisions of this Agreement providing for any delivery by Genentech to BioNTech of Information relating to activities contemplated by this Agreement (including Sections 2.19.2(a) and 2.19.2(b)), save only for the provisions of Sections 5.8 and 5.9, shall terminate.

(f) Genentech may request that BioNTech (including EUFETS) perform, to the extent not already completed and to enable Genentech to perform the Clinical Manufacture of Collaboration Product at a facility to be designed, constructed, Commissioned, and Qualified by Genentech and to continue to develop the Manufacturing Process and Technology Platform, a Technology Transfer of the Manufacturing Process from the Clinical Facilities or the Pilot Facility to Genentech, including the Development of the Manufacturing Process, Manufacturing Documentation and BioNTech Know-How and any other reasonable activities, including any such activities that may be on-going in support of the Technology Platform Strategy and Technology Platform Roadmap. Such activities shall be included within Shared Development Costs (except in the case of an Opt-Out, in which case the financial provisions of Section 7.3 shall apply). Genentech may, at any time, terminate such Technology Transfer activities under this Section 15.2.2(f) upon [***] days' written notice. BioNTech shall perform such activities in accordance with the requirements of the MDSA and the Quality Agreement.

(g) BioNTech shall perform Clinical Manufacture and supply the quantities of Collaboration Products for Clinical Studies contemplated by the GDP (as amended until the closing date of a Class A Competitor Change in Control) or for Genentech Studies pursuant to the applicable provisions (including patient demand forecasting provisions) of the MDSA; provided that, in the event Genentech requests Technology Transfer, BioNTech may cease such Clinical Manufacture and supply [***] years following the first commercial launch of a Collaboration Product other than a BioNTech Collaboration Product. The following shall apply in respect of any activities performed by BioNTech (including EUFETS) under this Section 15.2.2(g):

(i) Genentech shall pay BioNTech a supply price for Collaboration Product equal to [***]

(ii) Genentech may at any time after the closing date of the Class A Competitor Change in Control terminate the clinical supply of Collaboration Product upon [***] written notice.

(iii) During such time as BioNTech is obligated to provide clinical supply of Collaboration Products, it shall perform Clinical Manufacture of Collaboration Product in accordance with the requirements of the MDSA (including for the avoidance of doubt with respect to Capacities and forecasting) and the Quality Agreement.

(h) The MDSA, the Commercial Manufacturing Agreement (to the extent a BioNTech Commercial Facility within the Manufacturing Network has been Commissioned or received Licensure) and the respective Quality Agreement(s) shall survive solely to the extent that, and as long as, BioNTech provides Technology Transfer services or Manufacturing and supply services under this Section 15.2.2, and shall terminate thereafter except for those provisions specified in the MDSA, the Commercial Manufacturing Agreement and the respective Quality Agreement(s) which expressly survive termination.

(i) Subject to Section 15.2.2(d), each of the Committees and Teams (other than the JMT and the JMC) shall be disbanded and their activities terminated. Genentech shall have the sole right to make the decisions assigned to the disbanded Committees and Teams and the JMC and JMT solely and exclusively by itself. Nothwithstanding the foregoing, Genentech may request in writing that BioNTech continue its participation in any Committee or Team scheduled for automatic disbandment. In such a case, Genentech shall be responsible for the cost and expense of BioNTech's participation in such Committee or Team based on BioNTech's then current FTE Rate. The JMT and JMC shall remain in effect for so long as Technology Transfer or supply of Collaboration Product by BioNTech to Genentech is ongoing or has not been completed. Thereafter, the applicable provisions of Section 2.8.2(g) shall apply.

(j) BioNTech shall, and shall cause the Change in Control party to, promptly adopt and implement and subsequently maintain and comply with written [***] Firewall procedures reasonably acceptable to Genentech.

(k) [***]

15.2.3 Change in Control [***] In the event of any Change in Control other than a Class A Competitor [***], then notwithstanding anything to the contrary contained in this Agreement, each of the following consequences shall apply effective as of the closing date of such Change in Control, subject to Section 15.2.2(k):

(a) BioNTech shall not have the right to Initiate any BioNTech Study without the prior written consent of Genentech. BioNTech may Conduct BioNTech Study(ies), subject to all applicable provisions of this Agreement (including Section 4.5) and any Ancillary Agreements, solely in the event that any such BioNTech Study was Initiated prior to the closing date of such Change in Control.

(b) BioNTech shall no longer have the right to seek a [***]

(c) BioNTech's rights to build any Commercial Facilities for inclusion in the Manufacturing Network pursuant to Section 2.2.2 of the MDSA and any Independent Facilities outside of the Manufacturing Network (including for the Manufacture of BioNTech Indications under [***] pursuant to Section 2.2.5 of the MDSA, respectively, shall terminate upon the closing date of such Change in Control, [***] Section 2.2.5(e) of the MDSA regarding support by Genentech with respect to Independent Facilities shall terminate upon the closing date of such Change in Control. [***] In addition, BioNTech's JMC decision-making rights as set forth in Section 2.8.2 shall terminate and become Genentech decision-making rights (other than with respect to [***]

(d) [***]

(e) Genentech may request that BioNTech (including EUFETS) perform, to the extent not already completed and to enable Genentech to perform the Clinical Manufacture of Collaboration Product at a facility to be designed, constructed, Commissioned, and Qualified by Genentech and to continue to develop the Manufacturing Process and Technology Platform, a Technology Transfer of the Manufacturing Process from the Clinical Facilities or the Pilot Facility to Genentech, including the Development of the Manufacturing Process, Manufacturing Documentation and BioNTech Know-How and any other reasonable activities, including any such activities that may be on-going in support of the Technology Platform Strategy and Technology Platform Roadmap. Such activities shall be included within Shared Development Costs (except in the case of an Opt-Out, in which case the financial provisions of Section 7.3 shall apply). Genentech may, at any time, terminate such Technology Transfer activities under this Section 15.2.3(e) upon [***] days' written notice. BioNTech shall perform such activities in accordance with the requirements of the MDSA and the Quality Agreement.

(f) BioNTech shall perform Clinical Manufacture and supply the quantities of Collaboration Products for Clinical Studies contemplated by the GDP (as amended until the closing date of a non-Class A Competitor Change in Control) or for Genentech Studies pursuant to the applicable provisions (including patient demand forecasting provisions) of the MDSA; provided that, in the event Genentech requests Technology Transfer, BioNTech may cease such Clinical Manufacture and supply [***] following the first commercial launch of a Collaboration Product other than a BioNTech Collaboration Product. The following shall apply in respect of any activities performed by BioNTech (including EUFETS) under this Section 15.2.3(f):

(i) Genentech shall pay BioNTech a supply price for Collaboration Product equal to [***]

(ii) Genentech may at any time after the closing date of the Class A Competitor Change in Control terminate the clinical supply of Collaboration Product upon [***] written notice.

(iii) During such time as BioNTech is obligated to provide clinical supply of Collaboration Products, it shall perform Clinical Manufacture of Collaboration Product in accordance with the requirements of the MDSA (including for the avoidance of doubt with respect to Capacities and forecasting) and the Quality Agreement.

(g) The JCC shall disband, except to the extent relating to Co-Promotion by the Parties as set forth in Section 6.5 or under any Co-Promotion Agreement. The JMT and JMC shall remain in effect for so long as Technology Transfer or supply of Collaboration Product by BioNTech to Genentech is ongoing or has not been completed. Thereafter, the applicable provisions of Section 2.8.2(g) shall apply.

(h) In the event of a Change in Control that occurs prior to [***], BioNTech shall, and shall cause the Change in Control party to, promptly adopt and implement and subsequently maintain and comply with written Change in Control Firewall procedures reasonably acceptable to Genentech.

15.2.4 [***]

15.2.5 [***]

15.3 Export Control. This Agreement is made subject to any restrictions concerning the export of products or technical information from the United States or other countries that may be imposed on the Parties from time to time. Each Party agrees that it will not export, directly or indirectly, any technical information acquired from the other Party under this Agreement or any products using such technical information to a location or in a manner that at the time of export requires an export license or other governmental approval, without first obtaining the written consent to do so from the appropriate agency or other governmental entity in accordance with Applicable Law.

15.4 Assignment. Except as otherwise expressly provided in this Agreement, neither Party may assign any of its rights or obligations under this Agreement without the prior written consent of the other Party, such consent not to be unreasonably withheld or delayed. Either Party may assign this Agreement, in its entirety, to an acquirer of all its capital stock (by reverse triangular merger or otherwise) or all or substantially all its assets relating to the subject matter of this Agreement and the MDSA, provided, in each case, that the party to which this Agreement is assigned expressly agrees in writing to assume and be bound by the obligations of the assigning Party under this Agreement and is also assigned the MDSA in its entirety in accordance with the terms of Section 10.3 of the MDSA. A copy of such writing shall be provided to the non-assigning Party within [***] days of the assignment. Subject to the foregoing, this Agreement will inure to the benefit of and bind the Parties' successors and assigns. Any assignment or delegation in contravention of the foregoing shall be null and void. For clarity, Section 15.2 applies in the event of a Change in Control.

15.5 Severability. If any of the provisions of this Agreement are held to be illegal, invalid or unenforceable, such illegal, invalid or unenforceable provisions shall be replaced by legal, valid and enforceable provisions that will achieve to the maximum extent possible the intent of the Parties, and the other provisions of this Agreement shall remain in full force and effect.

15.6 Governing Law and Service.

15.6.1 Governing Law. This Agreement shall be governed by and construed under the laws of Switzerland, without regard to conflict of laws principles. For the avoidance of doubt, the joint ownership in the Collaboration IP, as a property right, shall be governed by the laws of Switzerland. The Parties hereby exclude from this Agreement the application of the United Nations Convention on Contracts for the International Sale of Goods.

15.6.2 Service. Each Party further agrees that service of any process, summons, notice or document by registered mail to its address set forth in Section 15.8.2 shall be effective service of process for any action, suit, or proceeding brought against it under this Agreement in any such court.

15.7 Dispute Resolution.

15.7.1 Internal Resolution. Except as otherwise expressly provided in this Agreement (including as otherwise expressly provided with respect to audit disputes in Section 8.17, and Committee, Team or Working Group disputes as set forth in Article 2), any Disputes shall be first referred to a [***] for resolution, prior to proceeding under the other provisions of Section 15.7. A Dispute shall be referred to such executives upon one Party providing the other Party with notice that such Dispute exists, and such executives (or their designees) shall attempt to resolve such Dispute through good faith discussions. In the event that such Dispute is not resolved within [***] days of such other Party's receipt of such notice, subject to Section 15.7.3, either Party may initiate the Dispute resolution provisions in Section 15.7.2.

15.7.2 Arbitration.

(a) **Rules.** Except as otherwise expressly provided in this Agreement (including under Section 15.7.3), the Parties agree that any Dispute not resolved internally by the Parties pursuant to Section 15.7.1 shall be finally resolved through binding arbitration according to the International Chamber of Commerce (ICC) Rules of Arbitration, as applicable on the date of commencement of the arbitration proceedings. Place of arbitration shall be Zurich, Switzerland. Exclusive language of the proceedings shall be English. In addition to the ICC Rules of Arbitration, the procedural law in force at the seat of arbitration shall apply.

(b) **Arbitrators; Language.** Each Party shall select [***], and the [***] so selected shall choose a [***]. All [***] arbitrators shall serve as neutrals and have at least ten (10) years of (i) dispute resolution experience (which may include judicial experience) or (ii) legal or business experience in the biotechnology or pharmaceutical industry. In any event, at least one (1) arbitrator shall satisfy the foregoing experience requirement under clause (ii). If a Party fails to nominate its arbitrator, or if the Parties' arbitrators cannot agree on the [***], the necessary appointments shall be made in accordance

with the Rules. Once an arbitrator is appointed by a Party, such Party shall have no ex parte communication with its appointed arbitrator. The arbitration proceedings and all pleadings and written evidence shall be in the English language. Any written evidence originally in another language shall be submitted in English translation accompanied by the original or a true copy thereof.

(c) **Procedures; Awards.** Each Party agrees to use reasonable efforts to make all of its current employees available, if reasonably needed, and agrees that the arbitrators may deem any party as "necessary." The arbitrators shall be instructed and required to render a written, binding, non-appealable resolution and award on each issue that clearly states the basis upon which such resolution and award is made. The written resolution and award shall be delivered to the Parties as expeditiously as possible, but in no event more than [***] days after conclusion of the hearing, unless otherwise agreed by the Parties. Judgment upon such award may be entered in any competent court or application may be made to any competent court for judicial acceptance of such an award and order for enforcement. Each Party agrees that, notwithstanding any provision of applicable law or of this Agreement, it will not request, and the arbitrators shall have no authority to award any damages for which a Party may not be liable to the other Party under Section 13.6.

(d) **Costs.** The "prevailing" Party, as determined by the arbitrators, shall be entitled to (i) its share of fees and expenses of the arbitrators and (ii) its attorneys' fees and associated costs and expenses. In determining which Party "prevailed," the arbitrators shall consider (A) the significance, including the financial impact, of the claims prevailed upon and (B) the scope of claims prevailed upon, in comparison to the total scope of the claims at issue. If the arbitrators determine that, given the scope of the arbitration, neither Party "prevailed," the arbitrators shall order that the Parties (x) share equally the fees and expenses of the arbitrators and (y) bear their own attorneys' fees and associated costs and expenses.

(e) **Interim Equitable Relief.** Notwithstanding anything to the contrary in this Section 15.7.2, in the event that a Party reasonably requires relief on a more expedited basis than would be possible pursuant to the procedure set forth in Article 15, such Party may seek a temporary injunction or other interim equitable relief in a court of competent jurisdiction pending the opportunity of the arbitrators to review the decision under this Section 15.7.2. Such court shall have no jurisdiction or ability to resolve Disputes beyond the specific issue of temporary injunction or other interim equitable relief.

(f) **Protective Orders; Arbitrability.** At the request of either Party, the arbitrators shall enter an appropriate protective order to maintain the confidentiality of information produced or exchanged in the course of the arbitration proceedings. The arbitrators shall have the power to decide all questions of arbitrability.

(g) **Expedited Dispute Resolution Procedure.** In the event that a Breaching Party under Section 14.2 disputes that it has committed a Material Breach or a dispute arises under Section 4.5.4(g), and such dispute is not resolved pursuant to Section 15.7.1, then non-breaching Party under Section 14.2 or the objecting Party under Section 15.7.2(g) may invoke the expedited dispute resolution procedure set forth in Schedule

15.7.2(g). In such a case, the expedited dispute resolution shall be limited to the issues, as applicable, of (i) whether a Material Breach was committed, whether a cure is possible and what actions the Breaching Party must complete to effect such cure or (ii) compliance with Applicable Law in connection with a Clinical Study Conducted by BioNTech. In such a case, any other issues may be resolved through the standard arbitration provisions set forth herein.

15.7.3 Subject Matter Exclusions. Notwithstanding the provisions of Section 15.7.2, any Dispute not resolved internally by the Parties pursuant to Section 15.7.1 that involves the validity, infringement or enforceability of a Patent included in a license granted in this Agreement (a) that is issued in the United States shall be subject to actions before the United States Patent and Trademark Office or submitted exclusively to the federal court located in the jurisdiction of the district where any of the defendants reside and (b) that is issued in any other country (or region) shall be brought before an appropriate regulatory or administrative body or court in that country (or region), and in all cases, the Parties hereby consent to the jurisdiction and venue of such courts and bodies.

15.8 Notices.

15.8.1 Notice Requirements. Except as otherwise expressly provided in this Agreement, any notice required under this Agreement shall be in writing, shall specifically refer to this Agreement and shall be sent in accordance with the provisions of this Section 15.8. Notices shall be sent via one of the following means and will be effective (a) on the date of delivery, if delivered in person; (b) on the date of receipt, if sent by a facsimile (including a PDF image delivered via email); or (c) on the date of receipt, if sent by private express courier or by first class certified mail, return receipt requested (or its equivalent). Any notice sent via facsimile shall be followed by a copy of such notice by private express courier or by first class mail. Notices shall be sent to the other Party at the addresses set forth below. Either Party may change its addresses for purposes of this Section 15.8 by sending written notice to the other Party. For clarity, notice to Genentech shall require notice to both GNE and Roche, and notice to BioNTech shall require notice to both BNT and RNP.

15.8.2 Addresses for Notices.

If to RNP, to:

BioNTech RNA Pharmaceuticals GmbH
An der Goldgrube 12
55131 Mainz

15.9 Entire Agreement. This Agreement (including the Schedules hereto), together with the Ancillary Agreements, constitute the entire understanding between the Parties with respect to the subject matter hereof and supersede and terminate all prior agreements, understandings and arrangements between the Parties with respect to such subject matter, whether written or oral. The Parties agree that, effective as of the Effective Date, the Confidentiality Agreements shall be superseded by this Agreement, and that disclosures made prior to the Effective Date pursuant to the Confidentiality Agreements shall be subject to the confidentiality and non-use provisions of this Agreement. [***]

15.10 English Language. This Agreement shall be written and executed in, and all other documents or communications issued or created under or in connection with this Agreement shall be in, the English language. Any translation into any other language shall not be an official version thereof, and in the event of any conflict in interpretation between the English version and such translation, the English version shall control.

15.11 Equitable Relief. Each Party acknowledges and agrees that the restrictions set forth in Article 10 and Article 11 are reasonable and necessary to protect the legitimate interests of the other Party and that such other Party would not have entered into this Agreement in the absence of such restrictions, and that any breach or threatened breach of any provision of such Articles may result in irreparable injury to such other Party for which there will be no adequate remedy at law. In the event of a breach or threatened breach of any provision of such Articles, the non-breaching Party shall be authorized and entitled to seek from any court of competent jurisdiction injunctive relief, whether preliminary or permanent, specific performance, and an equitable accounting of all earnings, profits, and other benefits arising from such breach, which rights shall be cumulative and in addition to any other rights or remedies to which such non-breaching Party may be entitled in law or equity. Both Parties agree to waive any requirement that the other (a) post a bond or other security as a condition for obtaining any such relief, and (b) show irreparable harm, balancing of harms, consideration of the public interest, or inadequacy of monetary damages as a remedy. Nothing in this Section 15.11 is intended, or should be construed, to limit either Party's right to equitable relief or any other remedy for a breach of any other provision of this Agreement.

15.12 Amendment; Waiver. Except as otherwise expressly provided in this Agreement, no amendment to this Agreement, including this Section 15.12, shall be effective unless made in writing and executed by an authorized representative of each Party. A Party's failure to exercise, or delay in exercising, any right, power, privilege or remedy under this Agreement shall not (a) operate as a waiver thereof or (b) operate as a waiver of any other right, power, privilege or remedy. A waiver will be effective only upon the written consent of the Party granting such waiver.

15.13 No Benefit to Third Parties. Except as provided in Article 13, covenants and agreements set forth in this Agreement are for the sole benefit of the Parties hereto and their successors and permitted assigns, and they shall not be construed as conferring any rights on any other Persons.

15.14 Further Assurance. Each Party shall duly execute and deliver, or cause to be duly executed and delivered, such further instruments and do and cause to be done such further acts and things, including the filing of such assignments, agreements, documents, and instruments, as may be necessary or as the other Party may reasonably request in connection with this Agreement or to carry out more effectively the provisions and purposes hereof, or to better assure and confirm unto such other Party its rights and remedies under this Agreement.

15.15 Relationship of the Parties. Except as provided in Section8.13.4, it is expressly agreed that BioNTech, on the one hand, and Genentech, on the other hand, shall be independent contractors and that the relationship between BioNTech and Genentech shall not constitute a partnership, joint venture, or agency. Neither BioNTech, on the one hand, nor Genentech, on the other hand, shall have the authority to make any statements, representations, or commitments of any kind, or to take any action, which shall be binding on the other, without the prior written consent of the other Party to do so. It is expressly agreed that each Party shall solely act in its own name when dealing with any Third Party. All persons employed by a Party shall be employees of such Party and not of the other Party and all costs and obligations incurred by reason of any such employment shall be for the account and expense of such Party.

15.16 Counterparts; Facsimile Execution. This Agreement may be executed in two (2) or more counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. A facsimile (including a PDF image delivered via email) of this Agreement, including the signature pages hereto, will be deemed to be an original. Notwithstanding the foregoing, the Parties shall deliver original execution copies of this Agreement to one another as soon as practicable following execution thereof.

15.17 References. Unless otherwise specified, (a) references in this Agreement to any Article, Section or Schedule shall mean references to such Article, Section or Schedule of this Agreement, (b) references in any Section to any clause are references to such clause of such Section, and (c) references to any agreement, instrument, or other document in this Agreement refer to such agreement, instrument, or other document as originally executed or, if subsequently amended, replaced, or supplemented from time to time, as so amended, replaced, or supplemented and in effect at the relevant time of reference thereto.

15.18 Schedules. In the event of any inconsistencies between this Agreement and any schedules or other attachments hereto, the terms of this Agreement shall control.

15.19 Construction. Except where the context otherwise requires, wherever used, the singular shall include the plural, the plural the singular, the use of any gender shall be applicable to all genders and the word “or” is used in the inclusive sense (and/or). Whenever this Agreement refers to a number of days, unless otherwise specified, such number refers to calendar days. The captions of this Agreement are for convenience of reference only and in no way define, describe, extend, or limit the scope or intent of this Agreement or the intent of any provision contained in this Agreement. The term “including,” “include,” or “includes” as used herein shall mean including, without limiting the generality of any description preceding such term. The term “comprising” (or “comprise,” or “comprises” as used herein) shall mean “comprising, without limitation”. The language of this Agreement shall be deemed to be the language mutually chosen by the Parties and no rule of strict construction shall be applied against either Party hereto. The phrase “by or on behalf” of a Party is not intended to include activities conducted by the other Party or its Affiliates or Sublicensees hereunder or under any Ancillary Agreement. The term “incurred” includes “accrued”. Where a provision refers to the consent or agreement of a Party, then the consent of either entity included within such Party shall be deemed consent of both entities included within such Party.

15.20 Actions of Affiliates. Genentech may exercise its rights or perform its obligations under this Agreement personally or through one or more Affiliates, provided that Genentech shall nonetheless be primarily liable for the performance of its Affiliates and for any failure by its Affiliates to comply with the restrictions, limitations and obligations set forth in this Agreement.

[SIGNATURE PAGE FOLLOWS.]

IN WITNESS WHEREOF, the Parties have caused their duly authorized officers to execute and acknowledge this Agreement as of the date first written above.

Form of Press Release

BioNTech to enter into worldwide strategic collaboration with Genentech to develop individualized mRNA cancer therapies

Collaboration will draw upon Genentech's leading position in cancer immunotherapy and BioNTech's premier clinical mRNA vaccine platform

Mainz, Germany September 21, 2016: BioNTech AG, a fully integrated private biotechnology company developing personalized cancer immunotherapies, today announced that it will enter into a worldwide strategic collaboration with Genentech, a member of the Roche Group, to develop, manufacture and commercialize novel messenger RNA (mRNA)-based, individualized cancer vaccines. The collaboration will combine Genentech's leading cancer immunotherapy portfolio and research program with BioNTech's proprietary mRNA cancer vaccine technology platform, and personalized medicine expertise. Together, the two companies will develop individually tailored cancer immunotherapies against a broad range of cancers to potentially provide a new treatment paradigm for cancer patients.

The collaboration will focus on the development of mRNA cancer vaccines targeting neoantigens, based upon BioNTech's Individualized Vaccines Against Cancer (IVAC® MUTANOME) clinical platform for the potential treatment of multiple cancers. A patient's cancer genome can be rapidly sequenced with next generation technology to define a spectrum of unique mutations known as "neoantigens" or "neoepitopes" present in a particular patient's tumor (the "mutanome"). An mRNA vaccine encoding selected neoepitopes can be manufactured for each individual tumor's mutanome signature, which may trigger an immune response highly specific to the tumor resulting in precisely targeted cancer cell death.

Initial clinical development will focus on combination studies using IVAC® MUTANOME in a variety of cancer types.

Under the terms of the agreement Genentech will pay BioNTech $310 million in upfront and near-term milestone payments. The two companies will equally share all development costs and any potential profits for certain programs under the agreement. BioNTech has the right to co-promote certain products that arise from the agreement in the United States and certain countries, including Germany and other major European markets. Under certain circumstances, BioNTech may have sole commercialization rights for other products that Genentech elects not to commercialize. BioNTech will manufacture mRNA cancer vaccines for clinical studies. Genentech will manufacture mRNA cancer vaccines for commercial supply and BioNTech will have the right to manufacture commercial product as part of the global supply network.

Confidential **Execution Copy**

Professor Dr. Ugur Sahin, CEO of BioNTech AG commented: "We are delighted to collaborate with a leading cancer immunotherapy company such as Genentech. Supported by its extensive tumor immunology understanding, BioNTech has been building clinical experience with its proprietary mRNA vaccines in a number of cancer types over several years. Combining BioNTech's broad proprietary capabilities in the design, formulation, manufacturing and clinical testing of individualized neoantigens-based mRNA vaccines with Genentech's eminent cancer immunotherapy, diagnostic, manufacturing and commercial expertise, will allow us, on a global scale, to drive forward the development of individualized vaccines to the market to treat a broad range of cancers. **Sean Marett, COO** of BioNTech added: "This alliance underpins BioNTech's strategy of collaborating with companies that are committed to developing truly disruptive immunotherapies and its long term ambitions of bringing its own products to market ."

"Unlike any medicine we have ever developed, virtually all cancer patients may potentially benefit from a custom built cancer vaccine," said **James Sabry, M.D., Ph.D., Senior Vice President and Global Head of Genentech Partnering**. "By collaborating with BioNTech on this cutting edge approach, we hope to truly advance cancer treatments by using a common molecular backbone – mRNA – that is uniquely tailored to an individual patient."

BioNTech will continue to develop its non-neoepitope mRNA cancer vaccines outside of the collaboration.

The completion of the agreement is subject to customary closing conditions, including clearance under the Hart-Scott-Rodino Antitrust Improvements Act, and is expected to occur in the fourth quarter of 2016.

About BioNTech AG

BioNTech AG is an immunotherapy leader with bench-to-market capabilities, developing truly personalized, well-tolerated and potent treatments for cancer and other diseases. Established by clinicians and scientists the Group is pioneering disruptive technologies ranging from individualized mRNA based medicines through innovative Chimeric Antigen Receptors /T-cell Receptor-based products and novel antibody checkpoint immunomodulators. BioNTech's clinical programs are supported by an in-house molecular diagnostics unit whose products include MammaTyper® a molecular in-vitro diagnostic kit, marketed under CE and IVD marking in Europe and certain other countries. Founded in 2008, BioNTech is privately held and shareholders include the MIG Fonds, Salvia, and

the Strüngmann Family Office, with the Strüngmann Family Office as the majority shareholder.

Information about BioNTech is available at www.biontech.de.

Patent Sublicense Agreement

This Patent Sublicense Agreement ("**Agreement**") is between CELLSCRIPT, LLC, a Wisconsin limited liability company having a place of business at 726 Post Road, Madison, WI 53713, USA, a Wisconsin limited liability company having a place of business at 726 Post Road, Madison, WI 53713, USA **("Cellscript")** and BioNTech AG, a German corporation having its principal place of business at An der Goldgrube 12, 55131 Mainz, Germany ("**Company**"). This Agreement is effective as of July 14, 2017 (the "**Effective Date**"). Each of Company and Cellscript are referred to herein as a "**Party**" and collectively as the "**Parties**".

BACKGROUND

WHEREAS, mRNA RiboTherapeutics, Inc. ("**mRNA RiboTherapeutics**") has an exclusive license from the Trustees of the University of Pennsylvania, a

Pennsylvania nonprofit corporation ("**Penn**") for certain intellectual property comprising patents, patent applications and technology relating to [***] and certain other intellectual property comprising patents, patent applications and technology relating to [***], as stated in the second amended and restated patent license agreement which became effective December 20, 2016 (the "**Penn License Agreement**"), under which, Cellscript has a sublicense from mRNA RiboTherapeutics in certain fields of use as stated in the amended and restated patent sublicense agreement which became effective December 20, 2016 (the "**Cellscript Sublicense Agreement**") as amended on June 25, 2017, under which Cellscript has the right to further sublicense all or any part of the rights granted to Cellscript to other parties; and

WHEREAS, Company desires a sublicense from Cellscript under Patents Rights (as defined below) for *in vivo* uses in humans and non-human animals and certain other uses pertaining thereto and Cellscript is willing to grant to Company a sublicense under Patents Rights for such uses under the terms and conditions herein;

NOW, THEREFORE, in consideration of the mutual obligations contained in this Agreement, and intending to be legally bound, the Parties agree as follows:

1 SUBLICENSE

1.1 Sublicense Grant. Cellscript hereby grants to Company and Company hereby accepts from Cellscript a worldwide, non-exclusive sublicense under the Patent Rights during the Term to make, have made, import, use, offer for sale, sell and/or have sold Licensed Products according to the terms and conditions herein: (1) in Field of Use B for all uses in the *In Vivo* Field of Use, including: (a) all therapeutic and prophylactic uses in humans; (b) all non-therapeutic and non-prophylactic uses in humans; and (c) all uses, including therapeutic and prophylactic uses (e.g., Veterinary Products), in non-human animals; and (2) in Field of Use A for: research and screening uses, including pre-clinical research and screening comprising *ex vivo* uses in human or non-human animal cells and *in vivo* uses in animals that pertain to and support research, development, manufacture, regulatory approval and commercialization of Licensed Products for use in humans and non-human animals in the *In Vivo* Field of Use in (1)(a) through (1)(c), as all Fields of Use in (1) and (2) (collectively, the "**Sublicensed Fields of Use**") and as said other terms which are not defined in this Section 1.1 are defined in Sections 1.2 and 6.1 herein (the "**Sublicense**"). The Sublicense includes the right for Company to grant sublicenses to its affiliates and Third Parties for all or any part of the rights and fields of use granted to Company, under terms that are consistent with this Agreement. No other rights or licenses are granted to Company hereunder by Cellscript. [***]

1.2 Related Definitions.

Whenever the words or terms "comprising," "containing," "having," "include," includes," "including," "such as," "for example," "an example," "examples," "e.g.," "for further clarification" or the like are used in this Agreement, they shall be understood to be followed by the words "without limitation" or "but without limitation". The terms "a," "an," and "the" and the use of such terms or nouns in definitions in either the singular or the plural are to be construed to cover both the singular and the plural unless otherwise noted.

"**Licensed Products**" means products that are made, made for, used, imported, offered for sale or sold by Company or its Affiliates or Third Party sublicensees and that, in the absence of a license to Patent Rights, (i) would infringe (or, in the case of pending patent applications, upon issuance, would infringe) at least one claim of the Patent Rights or (ii) use a process or machine covered by a claim of Patent Rights, whether the claim is issued or pending. For clarity, Licensed Products includes any method, procedure or process, the use of which by Company or its Affiliates or Third Party sublicensees, in the absence of a license to Patent Rights by the user, would infringe, induce to infringe or contribute to infringing one or more claims of Patent Rights whether the claim is issued or pending.

"**Exhibit A-1 Patent Rights**" means [***]

"**Exhibit A-2 Patent Rights**" means [***]

"**Patent Rights**" means Exhibit A-1 Patent Rights and/or Exhibit A-2 Patent Rights.

"**Exhibit D Patents**" means all of Penn's patent rights represented by or issuing from: (a) the United States patents and patent applications listed in Exhibit D; (b) any continuation, divisional, reexamination, and re-issue applications of (a); and (c) any extensions (a) or (b).

"**Affiliate**" means a legal entity that is controlling, controlled by or under common control with Company and that has executed either this Agreement, a sublicense for at least a portion of the rights granted to Company under this Agreement, or a written joinder agreement agreeing to be bound by all of the terms and conditions of this Agreement. The uncapitalized term "**affiliate**" means, with respect to a first legal entity, any other legal entity that is controlling, controlled by or under common control with said first legal entity. For purposes of the definitions of "Affiliate" and "affiliate" herein, the word "**control**" means (x) the direct or indirect ownership of fifty percent (50%) or more of the outstanding voting securities of a legal entity, (y) the right to receive fifty percent (50%) or more of the profits or earnings of a legal entity, or (z) the right to determine the policy decisions of a legal entity.

"**Field of Use A**" means and is limited to internal laboratory research or screening [***] For clarity, Field of Use A includes laboratory research use in animals or human or animal cells, living or dead, from any source, including for pre-clinical laboratory research in laboratory animals or cultured human or non-human animal cells for the purpose of generating data and information prior to use in clinical trials for a use that requires approval by the FDA or another regulatory organization. For further clarity, a party that has a sublicense in Field of Use A pertaining to a sublicensed therapeutic or prophylactic or diagnostic or prognostic use in Field of Use B shall have the right to perform pre-clinical research in Field of Use A comprising *in vivo* uses in non-human animals or *ex vivo* uses in human or non-human animal cells in order to obtain data and information to support pre-clinical development of such therapeutic, prophylactic, diagnostic or prognostic products.

[***]

"**Field of Use B**" means the field other than Field of Use A and includes but is not limited to therapeutic, prophylactic, diagnostic, prognostic and cosmetic uses in humans and agricultural, animal improvement and veterinary uses in animals. For clarity, Field of Use B includes any and all fields of use, including the *In Vivo* Field of Use and *Ex Vivo* Field of Use, other than for Field of Use A.

"**Fields of Use**" means Field of Use A and Field of Use B.

"***Ex Vivo* Field of Use**" is a subfield of Field of Use A or Field of Use B wherein a product or method that is covered by Patent Rights (or Exhibit D Patents) is used in cells, tissues or organs that are *ex vivo* or outside of a living human or animal body or organism, whether those cells, tissues or organs are subsequently used only *ex vivo*, such as in culture, or are subsequently introduced into, used in or administered or applied to or on a living body or organism. [***]

"***In Vivo* Field of Use**" is a subfield of Field of Use A or Field of Use B wherein a product or method that is covered by Patent Rights (or Exhibit D Patents) is used *in vivo*, [***]

"**Diagnostic and Prognostic Field of Use**" is a subfield of use within Field of Use B wherein a product or service covered by Patent Rights (or Exhibit D Patents) is used for diagnosis, prognosis or testing of a human or non-human animal or a sample therefrom in order to detect, identify, determine a cause, evaluate, analyze, understand, predict, rule in, or rule out a medical condition or disease or to predict an effect or response to treatment, and/or to monitor the effect of a treatment of such medical condition or disease. For clarity, a party that has a sublicense to make, have made, import, use, offer to sell and/or sell a Licensed Product for the Diagnostic and Prognostic Field of Use in conjunction with or pertaining to a product covered by Patent Rights (or Exhibit D Patents) for the *In Vivo* Field of Use in Field of Use B shall have the right to use said Licensed Product for diagnosis, prognosis or testing of a human or non-human animal or a sample therefrom, whether said diagnosis, prognosis or testing is performed *in vitro*, *in vivo* and/or *ex vivo*.

"**Veterinary Product**" means a product that is covered by Patent Rights (or Exhibit D Patents) which is used for the care, treatment, breeding or use of livestock or companion animals.

"**Third Party**" means any person, corporation, partnership, association, consortium or business, legal or governmental entity other than Penn, Cellscript, Company or any of their respective affiliates.

"**Infectious Disease Vaccine Subfield**" is a subfield of Field of Use B wherein a product that is covered by Patent Rights is used as a vaccine for prevention or treatment of one or more infectious disease(s) caused by an infectious agent or agents consisting of viruses, bacteria, fungi, protozoa or parasites. For clarity, the Infectious Disease Vaccine Subfield does not include the right to use Patent Rights to make, have made, import, use, offer for sale, sell and/or have sold any product that is covered by Patent Rights for prevention or treatment of any cancer (e.g., as a therapeutic or prophylactic cancer vaccine) in humans or animals.

1.3 Reservation of Rights by Penn. Penn reserves the right to use, and to permit other non-commercial entities to use, the Patent Rights for educational and non-commercial research purposes.

[*Remainder of page left blank*]

1.4 U.S. Government Rights. The Parties acknowledge that the United States government retains rights in intellectual property funded under any grant or similar contract with a Federal agency. The License is expressly subject to all applicable United States government rights, including, but not limited to, any applicable requirement that products, which result from such intellectual property and are sold in the United States, must be substantially manufactured in the United States. To the extent any such U.S. manufacturing requirements apply, Cellscript shall, upon request of Company, use commercially reasonable efforts to cause Penn to seek a waiver from the United States government for Company in respect of such U.S. manufacturing requirements.

1.5 Sublicense Conditions. Company's right to extend any or all of the rights granted to Company by Cellscript via a sublicense to affiliates or Third Parties is subject to each of the following conditions:

1.5.1 Company will have the right to grant further sublicenses to its affiliates and to Third Parties ("**sub-sublicensees**") that permit multiple levels of sublicensing, including in Third Party sub-sublicenses that permit further levels of sublicensing (e.g., to "sub-sub-sublicensees"). In each further sub-sublicense agreement to an affiliate or Third Party, Company will require the sub-sublicensee to comply with terms and conditions that are consistent with this Agreement, and in each agreement for further sublicensing (e.g., by a sub-sublicensee of Company to a sub-sub-sublicensee), the party granting the further sublicense will require the party receiving the further sublicense to comply with terms and conditions that are consistent with its sub-sublicense agreement from Company. Except when used to clarify the meaning of the different terms in this Section 1.5.1, the term sublicense in this Agreement includes any permitted sub-sublicense, sub-sub-sublicense, etc. and the term sublicensee includes any permitted sub-sublicensee, sub-sub-sublicensee, etc.

1.5.2 Within [***] days after Company enters into a sublicense agreement, Company will deliver to Cellscript a complete and accurate copy of the entire sublicense agreement written in the English language, provided that Company will have the right to redact the terms and conditions of such sublicense agreement that are not necessary for Cellscript to confirm compliance with all terms and conditions required under this Sublicense, including Section 1.5 hereof. Cellscript's receipt of the sublicense agreement will not constitute a waiver of any right or obligation of Cellscript or of Company under this Agreement.

1.5.3 In the event that Company causes or experiences a Trigger Event (as defined in Section 6.4), to the extent permissible by law, all payments due to Company from its direct sublicensees pursuant to a sublicense to this Agreement that are payable by Company to Cellscript hereunder, including milestone payments and royalty payments, will, upon notice from Cellscript to such sublicensees, become payable directly to Cellscript for the account of Company. Upon receipt of any such funds, Cellscript will remit to mRNA RiboTherapeutics the amounts owed to mRNA RiboTherapeutics and will remit to Company the amount (if any) by which such payments from such sublicensees exceed the amounts owed by Company to Cellscript hereunder. Still

further, in the event that mRNA RiboTherapeutics causes or experiences a trigger event according to the terms of the Penn License Agreement, Cellscript agrees that, upon notification from Penn, Cellscript will remit to Penn all amounts payable by Cellscript to mRNA RiboTherapeutics under the Cellscript Sublicense Agreement (including but not limited to all milestone payments and royalty payments) for the account of mRNA RiboTherapeutics.

1.5.4 Company's execution of a sublicense agreement will not relieve Company of any of its obligations under this Agreement. Company is primarily liable to Cellscript for any act or omission of a sublicensee that would be a breach of this Agreement if performed or omitted by Company, and Company will be deemed to be in breach of this Agreement as a result of such act or omission. Upon learning of any such breach of this Agreement due to an act or omission of a sublicensee of Company, Company will immediately take appropriate actions to stop such act or omission, including termination of the sublicense by Company. Provided that Company takes such appropriate actions and stops such act or omission, a breach by said sublicensee shall not be considered a breach by Company that will be considered a cause for termination of this Agreement under Section 6.3.

1.5.5 A sublicense granted by the Company or a further sublicensee thereof will not be assignable or transferable by said sublicensee or further sublicensee thereof without the prior written consent of Cellscript, except to an affiliate of the sublicensee of Company or an affiliate of said further sublicensee thereof, or to a Third Party company that: (i) can demonstrate based on reliable financial information that it has all technical knowledge, capabilities and/or financial resources needed to perform in all respects in the place and stead of said sublicensee or further sublicensee thereof; (ii) agrees to assume all duties and responsibilities under the sublicense; (iii) warrants that it will invest an amount of money that Company agrees is sufficient to develop and/or commercialize the sublicensed Licensed Product(s); (iv) purchases more than fifty percent (50%) of all of the sublicensee's or the further sublicensee's shares or assets to which the sublicense pertains; and (v) agrees in writing to be bound by all of the terms and conditions of the sublicense and a copy of such written undertaking is promptly provided to Company, which will provide a copy to Cellscript, which, in turn, will provide a copy to mRNA RiboTherapeutics.

1.6 No License by Implication. Nothing in this Agreement confers by estoppel implication or otherwise, any license or rights under any Penn patent other than rights granted under patents included in the Patent Rights and Exhibit D Patents, regardless whether such patents are dominant or subordinate to the Patent Rights and Exhibit D Patents.

1.7 License to the Exhibit D Patents. Whereas Cellscript has an exclusive license from Penn for certain other U.S. patents and patent applications listed in Exhibit D attached hereto, including any continuation, divisional, reexamination, and re-issue applications and any patents or extensions of any of the foregoing (collectively referred to as "**Exhibit D Patents**" herein), which Exhibit D Patents are not included in Patent Rights herein; and whereas, Company desires a sublicense to Exhibit D Patents in the Sublicensed Fields of Use during the Term and Cellscript is willing to grant such a sublicense in the Sublicensed Fields of Use according to the terms and conditions herein, now, therefore, Cellscript hereby grants to Company and Company hereby accepts from Cellscript a limited worldwide, non-exclusive sublicense under Exhibit D Patents during the Term to make, have made, import, use, offer for sale, sell and/or have sold products comprising mRNA containing pseudouridine solely in the Sublicensed Fields of Use, and according to the terms and conditions herein**.** The sublicense includes the right for Company to grant sublicenses to its Affiliates and Third Parties for all or any part of the rights granted to Company in the Sublicensed Fields of Use, under terms that are consistent with this Agreement.

No other rights or licenses pertaining to Exhibit D Patents are granted by Cellscript to Company under this Agreement. For clarity, no rights or licenses are granted by Cellscript to Company: (x) in Field of Use A for the Research Products Field of Use; or (y) in Field of Use B for any use in humans or non-human animals for (i) the *Ex Vivo* Field of Use, or (ii) the Diagnostic and Prognostic Field of Use, or (iii) to make, have made, import, use, offer for sale, sell and/or have sold any product covered by Exhibit D Patents which does not comprise or use mRNA comprising pseudouridine. Company understands and agrees that, since the products sublicensed to Company pursuant to this Section 1.7 comprise or use mRNA comprising pseudouridine (which products are also covered by Patent Rights), Company shall pay to Cellscript the same milestone and other fees and royalties owed by Company pursuant to Article 3 of this Agreement; however, Company shall not owe any additional milestone or other fees or royalties for products covered by Exhibit D Patents in addition to the amounts owed by Company pursuant to Article 3 of this Agreement.

1.8 Relation of this Agreement to mRNA RiboTherapeutics Sublicense Agreement. Concurrent with the execution of this Agreement, Company is entering into a separate sublicense agreement with mRNA RiboTherapeutics (the "**mRNA RiboTherapeutics Sublicense Agreement**"), pursuant to which mRNA RiboTherapeutics is granting Company a sublicense under Patent Rights with respect to certain fields of use that are different from and are not included within the scope of the Sublicense granted to Company in this Agreement**.**

2 DILIGENCE

2.1 Development Plan and Sublicense Disclosure Report. By [***] and by [***] of every calendar year thereafter that encompasses the Term, Company will deliver to Cellscript: (1) a copy of an annual development plan, including a projected timeline, for the Patent Rights and a summary of material development efforts for Licensed Products since the last development plan ("**Development Plan**"); and [***] certified as correct by the accounting services manager or chief financial officer, that includes all additional information as listed on Exhibit B for the period since the last SDR.

2.2 Company's Efforts. Company will use commercially reasonable efforts to develop, commercialize, market and sell Licensed Products in the Sublicensed Fields of Use in a manner consistent with the Development Plan. In addition to Company's own efforts to develop, commercialize, market and sell Licensed Products, the efforts of other parties, including Affiliates, Third Party sublicensees, contractors, Third Parties funded by Company under a research or service agreement, and distributors, will also be deemed as efforts of Company.

2.3 Diligence Events. Company, whether itself, or through its Affiliates, Third Party sublicensees, contractors, or Third Parties funded by Company under a research or service agreement, will use commercially reasonable efforts to achieve each of the milestone diligence events by the applicable completion date listed in the table below for the first Licensed Product for human therapeutic or prophylactic use in Field of Use B. Company will provide Cellscript with written notice within [***] days of first completion of each milestone diligence event for a Licensed Product for human therapeutic or prophylactic use in Field of Use B by Company or an Affiliate or Third Party sublicensee.

[*Remainder of page left blank*]

[***]

2.4 Diligence Resources. Until the first Sale of the first Licensed Product in Field of Use B, Company will expend financial resources for the development and commercialization of the Licensed Products in amounts not less than the diligence minimums specified in the table below ("**Development Expenditures**") in each [***] month period following the Effective Date. Development Expenditures shall include all research and development expenditures directly relating to Licensed Products, including salaries, overhead, sponsored research payments, contract research, regulatory expenses, and documented external consulting payments. Company's expenditures of financial resources for the development and commercialization of Licensed Products in Field of Use B in amounts not less than the specified Development Expenditures will be deemed commercially reasonable efforts to develop, commercialize, market and sell Licensed Products in Field of Use B. If Company's total expenditures for development and commercialization of Licensed Products in any [***] month period ending on an anniversary of the Effective Date do not meet or exceed the applicable diligence minimum, then Company will pay to Cellscript the amount of the shortfall. Company will make any payments of the shortfall to Cellscript together with the next Development Plan due to Cellscript under Section 2.1.

[***]

3 FEES AND ROYALTIES

3.1 Sublicense Grant Fees. In partial consideration for the Sublicense, Company will pay to Cellscript: (i) [***]; and (ii) [***] and (iii) [***]

[*Remainder of page left blank*]

3.2 Sublicense Maintenance Fees. In partial consideration of the Sublicense, Company will pay to Cellscript [***] on each anniversary of the Effective Date during the Term until the date of first Sale of the first Licensed Product in Field of Use B, regardless of whether the Sale is achieved by Company, Cellscript, or an affiliate or sublicensee of any of the foregoing. For clarity, the next annual sublicense maintenance fee under this Agreement is payable to Cellscript on [***] if no Sale of a Licensed Product in Field of Use B occurs prior to [***]

3.3 Milestone Payments. In partial consideration of the Sublicense, Company will pay to Cellscript any milestone payment that is applicable to a Licensed Product developed by the Company under any of the tables in this Section 3.3 the first time after achieving each milestone event for each said Licensed Product in Field of Use B, regardless of whether the milestone is achieved by Company, an Affiliate or a Third Party sublicensee. Company will provide Cellscript with written notice within [***] days after each milestone is achieved by Company or a sublicensee and Company will pay to Cellscript all applicable milestone payments owed therefor within [***] days of the end of the calendar quarter in which the milestone event is achieved. For clarity, each time a milestone is achieved with respect to a Licensed Product, then any other milestone payments with respect to earlier milestones that have not yet been paid will be due and payable together with the milestone payment that is actually achieved. For clarity, if a Licensed Product being developed by Company or its sublicensees does not fall into one of the categories in the tables below, Company will notify Cellscript promptly after identifying the Licensed Product and the Parties will negotiate in good faith appropriate milestones based on the relative value of the product category and the development pathway.

Section 3.3 Table A
MILESTONES for each Licensed Product for
human therapeutic or prophylactic use in the *In Vivo* Field of Use

[***]

Section 3.3 Table C
MILESTONES for each Licensed Product that is a Veterinary Product

[***]

3.4 Earned Royalties. In partial consideration of the Sublicense, Company will pay to Cellscript royalties on Net Sales of Licensed Products in the Sublicensed Fields of Use as stated below.

3.4.1 Earned Royalties on Licensed Products in Field of Use A. In partial consideration of the Sublicense, Company will pay to Cellscript a [***] royalty on Net Sales of Licensed Products by Company or its Affiliates or Third Party sublicensees for use in the Sublicensed Fields of Use in Field of Use A during the Quarter. For the avoidance of doubt, if Company or any Affiliate or Third Party sublicensee sells or is reimbursed for the costs of providing a Licensed Product for use in Field of Use A to another party with which it has a contract to collaborate or work together on researching, developing or screening related to a product for human therapeutic or prophylactic use in the *In Vivo* Field of Use, then Company will pay to Cellscript a [***] royalty on all such Net Sales of Licensed Products for use in Field of Use A by Company or by said sublicensees. For clarity, Company and its Affiliates or Third Party sublicensees shall only have the right to sell Licensed Products for use in Field of Use A to Third Parties that have either a sublicense from or a contract with Company or an Affiliate or Third Party sublicensee to research, develop, test, evaluate, screen, manufacture and/or commercialize a Licensed Product for use in the *In Vivo* Field of Use in Field of Use B.

3.4.2 Earned Royalties on Licensed Products Field of Use B. In partial consideration of the Sublicense, Company will pay to Cellscript a [***] royalty on Net Sales of Licensed Products in Field of Use B for all uses in the *In Vivo* Field of Use, including: (a) all therapeutic or prophylactic uses in humans; (b) all non-therapeutic or non-prophylactic uses in humans; and (c) all uses, including therapeutic and prophylactic uses (e.g., Veterinary Products), in non-human animals during the Quarter. For the avoidance of doubt, if Company or its Affiliates or Third Party sublicensees grant sublicenses to sell Licensed Products for any such uses in Field of Use B, Company will pay to Cellscript a [***] royalty on Net Sales of all such Licensed Products sold by said sublicensees. For clarity, no royalties are due under this Agreement for Sales of Licensed Products in the Diagnostic and Prognostic Field of Use, which are sublicensed to Company in the Sublicense Agreement from mRNA RiboTherapeutics.

3.4.3 Royalty Reduction. If Company or an Affiliate or Third Party sublicensee of Company is obligated to pay Third Party Royalties (defined below) for a Licensed Product in Field of Use B, then Company may deduct [***] of such Third Party Royalties from any royalties on Net Sales in Field of Use B due to Cellscript under Section 3.4.2 of this Agreement, provided that:

(a) On an ongoing basis and prior to reduction of any royalty on Net Sales for a given calendar quarter, Company first provides written evidence to Cellscript of Company's or applicable sublicensee's obligation to pay such Third Party Royalties; and

(b) In no event shall royalties on Net Sales due to Cellscript in any reporting period be so reduced to less than [***] for Licensed Products for use in the *In Vivo* Field of Use in Field of Use B.

"**Third Party Royalties**" means any royalty obligation in excess of [***] that Company or an Affiliate or a Third Party sublicensee owes to one or more other parties pursuant to one or more licenses for patent rights comprising [***] and that are determined to be necessary to avoid infringement-related litigation with respect to the manufacture, use or sale of any Licensed Product.

3.5 Related Definitions.

3.5.1 The term "**Sale**" means any bona fide transaction for which consideration is received or expected by Company or its Affiliates or Third Party sublicensees for the sale, use, lease, transfer or other disposition of a Licensed Product to a Third Party. A Sale is deemed completed at the time that Company or an Affiliate or Third Party sublicensee invoices, ships or receives payment for a Licensed Product, whichever occurs first.

3.5.2 The term "**Quarter**" means each three-month period beginning on the first day of January, April, July or October.

3.5.3 The term "**Net Sales**" means the consideration received or expected from, or the fair market value attributable to, each Sale, less Qualifying Costs that are directly attributable to a Sale, specifically identified on an invoice or other documentation and actually borne by Company or its Affiliates or Third Party sublicensees. For purposes of determining Net Sales, the words "**fair market value**" mean the cash consideration that Company or its Affiliates or Third Party sublicensees would realize from an unrelated buyer in an arm's length sale of an identical item sold in the same quantity and at the time and place of the transaction.

3.5.4 The term "**Qualifying Costs**" means: (a) credits or refunds for claims or returns that do not exceed the original invoice amount; (b) prepaid outbound transportation expenses and transportation insurance premiums; and (c) sales and use taxes and other fees imposed by and indefeasibly paid to a governmental agency.

3.6 Minimum Royalties. In partial consideration of the Sublicense, [***] Company will pay to Cellscript the amount, if any, by which the applicable minimum royalties listed in the tables below exceed Company's or its Affiliates' or Third Party sublicensees' actual earned royalties under Section 3.4 for each Quarter after the first Sale of a Licensed Product by Company or its Affiliates or Third Party sublicensees in the applicable Categories. The minimum royalties are divided into two Categories and outlined in the tables below and are tiered, cumulative and individually payable after first Sale of Licensed Product in each of the three respective Categories. For clarity, the highest minimum royalty owed by Company to Cellscript under this Agreement would be [***] For additional clarification, Company is not obligated to pay minimum royalties to Cellscript for Licensed Products in Category 1 until after the first Sale of a Licensed Product in Field of Use A by Company or its Affiliates or Third Party sublicensees; Company is not obligated to pay minimum royalties to Cellscript for Licensed Products in Category 2 until after the first Sale of a Licensed Product in Field of Use B for human therapeutic or prophylactic use in the *In Vivo* Field of Use by Company or its Affiliates or Third Party sublicensees; and Company is not obligated to pay minimum royalties to Cellscript for Licensed Products in a Category 3 until after the first Sale of Licensed Product in Field of Use B that is not a humans therapeutic or prophylactic by Company or its Affiliates or Third Party sublicensees.

4 REPORTS AND PAYMENTS

4.1 Royalty Reports. Within [***] days after the end of each Quarter following the first Sale, Company will deliver to Cellscript a report, certified as accurate by the accounting services manager or chief financial officer of Company, detailing the calculation of all royalties, fees and other payments due to Cellscript for such Quarter. The report will include, at a minimum, the following information for the Quarter, each listed by product, by country: [***]

[*Remainder of page left blank*]

4.2 Payments. Company will pay all royalties, fees and other payments due to Cellscript under Sections 3.3, 3.4 and 3.6 within [***] days after the end of the Quarter in which the royalties, fees or other payments accrued. Cellscript agrees that it will pay all such amounts to mRNA RiboTherapeutics according to and within the time periods required by the Cellscript Sublicense Agreement, and mRNA RiboTherapeutics will pay to Penn all royalties, fees and other payments due to Penn according to and within the time periods required by the Penn License Agreement. For clarity, only one royalty will be due with respect to the Sale of the same unit of Licensed Product.

4.3 Records. Company will maintain, and will cause its Affiliates and Third Party sublicensees to maintain, complete and accurate books, records and related background information to verify Sales, Net Sales, and all of the royalties, fees, and other payments due or paid under this Agreement, as well as the various computations reported under Section 4.1. The records for each Quarter will be maintained for at least [***] years after submission of the applicable report required for Section 4.1.

4.4 Audit Rights. Upon reasonable prior written notice to Company, Company and its Affiliates and Third Party sublicensees will provide Penn and its accountants (or Cellscript and its accountants in the event that Cellscript is Penn's designated auditor) with access to all of the books, records, key personnel and related background information required by Section 4.3 to conduct a review or audit of Sales, Net Sales, and all of the royalties, fees, and other payments payable under this Agreement. Access will be made available: (a) during normal business hours; (b) in a manner reasonably designed to facilitate such accountant's review or audit without unreasonable disruption to Company's business; and (c) no more than once each calendar year during the Term (as defined below) and for a period of [***] years thereafter. Company will promptly pay to Cellscript the amount of any underpayment determined by the review or audit, plus accrued interest. If the review or audit determines that Company has underpaid any payment by [***] or more, then Company will also promptly pay the costs and expenses of the auditing party's accountants in connection with the review or audit. In addition, once annual Sales of Licensed Products exceed [***] Company will conduct, at least once every [***] years at its own expense, an independent audit of Sales, Net Sales, and all of the royalties, fees, and other payments due or paid under this Agreement for the period since the last such audit. Promptly after completion of the audit, Company will provide to Cellscript a copy of the report of the independent auditors along with any underpayments and interest thereon.

4.5 Currency. All dollar amounts referred to in this Agreement are expressed in United States dollars. All payments will be made in United States dollars. If Company receives payment from a sublicensee in a currency other than United States dollars for which a royalty or fee is owed under this Agreement, then (a) the payment will be converted into United States dollars at the conversion rate for the foreign currency as published in the eastern edition of the Wall Street Journal as of the last business day of the Quarter in which the payment was received by Company, and (b) the conversion computation will be documented by Company in the applicable report delivered to Cellscript under Section 4.1.

[*Remainder of page left blank*]

4.6 Place of Payment. All payments by Company to CELLSCRIPT, LLC and will be made to the following addresses:

[***]

4.7 Interest. All amounts that are not paid by Company when due will accrue interest from the date due until paid at a rate equal to [***] (or the maximum allowed by law, if less).

5 CONFIDENTIALITY AND USE OF NAMES

5.1 Confidentiality. Each Party agrees that it will not, under this Agreement, provide to the other Party or its affiliates any Confidential Information of such Party unless (i) such Party has first identified the general nature of such Confidential Information to such other Party in writing and such other Party has affirmatively agreed in writing to receive such Confidential Information, or (ii) such other Party has specifically requested such Confidential Information in writing. For clarity, any such consent or request issued by email or other written electronic means shall satisfy the foregoing "writing" requirements. Any Confidential Information disclosed by a Party to the other Party other than in accordance with this Section 5.1 will be deemed not to be Confidential Information of such Party. Notwithstanding the foregoing, Cellscript is obligated to accept and treat as confidential any Confidential Information disclosed by Company in the reports or notices required by Sections 2.1, 2.3, 3.3, 3.4.3(a), 4.1, 4.4, 4.5, 4.6 and 6.6, which information Company agrees Cellscript may disclose to mRNA RiboTherapeutics or Penn without the prior written consent of Company.

5.2 Confidential Information. Each Party ("**Disclosing Party**") may disclose to the other Party ("**Receiving Party**"), and Receiving Party may acquire during the course and conduct of activities under the Agreement, certain proprietary or confidential information of Disclosing Party in connection with this Agreement. The term "**Confidential Information**" shall mean all ideas and information of any kind, whether in written, oral, graphical, machine-readable or other form, whether or not marked as confidential or proprietary, which are transferred, disclosed or made available by Disclosing Party in accordance with Section 5.1.

5.3 Restrictions. During the Term and for **[***]** years thereafter, Receiving Party shall keep all Disclosing Party's Confidential Information in confidence with the same degree of care with which Receiving Party holds its own confidential information. Receiving Party shall not use Disclosing Party's Confidential Information except in connection with the performance of its obligations and exercise of its rights under this Agreement. Receiving Party has the right to disclose Disclosing Party's Confidential Information without Disclosing Party's prior written consent, to the extent and only to the extent reasonably necessary, to Receiving Party's affiliates and their employees, subcontractors, consultants or agents who have a need to know such Confidential Information in order to perform Receiving Party's obligations or exercise Receiving

Party's rights under this Agreement, provided said affiliates and their employees, subcontractors, consultants or agents are required to comply with a written confidentiality agreement having restrictions on use and disclosure of Disclosing Party's Confidential Information which are no less stringent than those in this Section 5.3. Receiving Party assumes responsibility for compliance with such restrictions by its affiliates and their employees, subcontractors, consultants or agents.

5.4 Exceptions. Receiving Party's obligation of nondisclosure and the limitations upon the right to use the Disclosing Party's Confidential Information shall not apply to the extent that Receiving Party can demonstrate, as evidenced by contemporaneous written records, that the Disclosing Party's information: (i) was known to Receiving Party or any of its affiliates prior to the time of disclosure; (ii) is or becomes public knowledge through no fault or omission of Receiving Party or any of its affiliates; (iii) is obtained by Receiving Party or any of its affiliates from a Third Party under no obligation of confidentiality to Disclosing Party; (iv) has been independently developed by employees, subcontractors, consultants or agents of Receiving Party or any of its affiliates without the aid, application or use of Disclosing Party's Confidential Information or (v) is not Confidential Information under Section 5.1.

5.5 Permitted Disclosures. Receiving Party may disclose Disclosing Party's Confidential Information to the extent (and only to the extent) such disclosure is reasonably necessary in the following instances:

5.5.1 in order to comply with applicable law (including any securities law or regulation or the rules of a securities exchange) or with a legal or administrative proceeding;

5.5.2 in connection with prosecuting or defending litigation, regulatory approvals and other regulatory filings and communications, and filing, prosecuting and enforcing Patents in connection with Receiving Party's rights and obligations pursuant to this Agreement; and

5.5.3 in connection with exercising its rights hereunder, to its affiliates; to potential and future collaborators and sublicensees; permitted acquirers or assignees; and investment bankers, investors and lenders, except that Cellscript will obtain the prior written consent of Company before disclosing any information disclosed to Cellscript pursuant to Sections 2.1, 2.3, 3.3, 3.4.3(a), 4.1, 4.4, 4.6 and 6.6;

provided that (1) with respect to Sections 5.5.1 or 5.5.2, where reasonably possible, Receiving Party shall notify Disclosing Party of Receiving Party's intent to make any disclosure pursuant thereto sufficiently prior to making such disclosure so as to allow Disclosing Party adequate time to take whatever action it may deem appropriate to protect the confidentiality of the information to be disclosed, and (2) with respect to Section 5.5.3, each of those named people and entities are required to comply with the restrictions on use and disclosure in Section 5.3 (other than investment bankers, investors and lenders, which must be bound prior to disclosure by commercially reasonable obligations of confidentiality).

5.6 Terms of this Agreement. The Parties agree that the terms of this Agreement shall be treated as Confidential Information of both Parties, and thus may be disclosed only as permitted by Section 5.5. Each Party agrees not to issue any press release or public statement disclosing information relating to this Agreement or the terms hereof without the prior written consent of the other Party not to be unreasonably withheld.

5.7 Relationship to the Confidentiality Agreement. This Agreement is in addition to certain "**Confidentiality Agreements**" between the Parties dated the 1st of January, 2014, and the 4th of January, 2017, and (a) all "Confidential Information" as defined therein that is disclosed or received by the Parties prior to the Effective Date shall continue to be subject to the terms and conditions of the Confidentiality Agreement and (b) all Confidential Information disclosed or received by the Parties following the Effective Date shall be subject to the terms and conditions of this Agreement. For the avoidance of doubt, all other confidentiality agreements concluded between Cellscript and Company prior to the Effective Date of this Agreement shall be superseded by this Agreement.

5.8 Use of Penn's, Cellscript's or Company's Name. Company and its Affiliates, Third Party sublicensees, employees, and agents are not granted any rights hereunder to use the name, logo, seal, trademark, or service mark (including any adaptation of them) of Penn or any Penn school, or their respective organizations, employees, students or representatives, without the prior written consent of Penn. Except to the extent permitted pursuant to this Article 5, neither Party shall have any right, express or implied, to use in any manner the name or other designation of the other Party or any other trade name or trademark of the other Party for any Purpose, except as may be required by applicable law or regulation.

6 TERM AND TERMINATION

6.1 Term. This Agreement will commence on the Effective Date and terminate upon the expiration or abandonment of the last patent to expire or become abandoned of the Patent Rights and Exhibit D Patents (the "**Term**").

6.2 Early Termination by Company. Company may terminate this Agreement at any time effective upon completion of each of the following conditions: (a) providing at least [***] days prior written notice to Cellscript of such intention to terminate; (b) ceasing to make, have made, use, import, offer for sale and sell all Licensed Products under the Sublicense; (c) providing documentation stating that all sublicenses granted by Company which are still in force at the date of termination can be assigned to Cellscript and working with Cellscript to assign or terminate such sublicenses based on the specific circumstances related thereto; and (d) paying all amounts owed to Cellscript under this Agreement through the effective date of termination. For clarity, Company may individually terminate either the Sublicense to Exhibit A-1 Patent Rights or the Sublicense to Exhibit A-2 Patent Rights or the Sublicense to Exhibit D Patents provided that each of the conditions stipulated in Section 6.2 is met with respect to the Patent Rights and Exhibit D Patents terminated from the Sublicense. [***]

6.3 Early Termination by Cellscript. Cellscript may, to the extent permissible by law, terminate this Agreement if: (a) Company is more than [***] late in paying to Cellscript any amounts owed under this Agreement and does not pay Cellscript in full, including accrued interest, within [***] after receiving written notice of the breach from Cellscript (a "**Payment Default**"); or (b) other than a Payment Default, Company materially breaches this Agreement and Company does not cure the breach within [***] after receiving written notice of the breach from Cellscript; or (c) Company causes or experiences a Trigger Event, or an Affiliate or Third Party sublicensee of Company commences or causes a Patent Challenge (as defined Section in 6.4 below) and Company does not terminate the sublicense or cause the Patent Challenge to be terminated prior to or promptly upon learning of said Patent Challenge. It is understood that, with respect to both of (a) and (b), Company is also responsible for its Affiliates and Third Parties sublicensees.

6.4 Trigger Event. The term "**Trigger Event**" means any of the following: (a) Company (i) becomes insolvent, bankrupt or generally fails to pay its debts as such debts become due, (ii) is adjudicated insolvent or bankrupt, (iii) admits in writing its inability to pay its debts, (iv) suffers the appointment of a custodian, receiver or trustee for its assets and, if appointed without its consent, not discharged [***], (v) makes an assignment of its assets for the benefit of creditors, or (vi) suffers proceedings being instituted against it under any law related to bankruptcy, insolvency, dissolution, liquidation or the reorganization, readjustment or release of multiple debtors and, if contested by it, not dismissed or stayed within [***]; (b) the institution or commencement by Company of any proceeding under any law related to bankruptcy, insolvency, liquidation or the reorganization, readjustment or release of multiple debtors; (c) the entering of any order for relief relating to any of the proceedings described in Section 6.4(a) or (b) above; (d) the calling by Company of a meeting of multiple creditors with a view to arranging a composition of adjustment of its debts; (e) the act or failure to act by Company that results in its consent to, approval of, or acquiescence in any of the proceedings described in Section 6.4(a) - (d) above; or (f) the commencement by Company or an Affiliate or Third Party sublicensee of Company of any action against Penn to declare or render invalid or unenforceable the Patent Rights or Exhibit D Patents or any claim thereof, including but not limited to an action for declaratory judgment (a "**Patent Challenge**").

6.5 Effect of Termination.

6.5.1 Effect of Termination Except under Section 6.2. Upon the termination of this Agreement prior to expiration of the Term for any reason except pursuant to Section 6.2: (a) the Sublicense to the Patent Rights and Exhibit D Patents will terminate; (b) Company and all its Affiliates will cease all making, having made, using, importing, offering for sale and selling of all Licensed Products with respect to Patent Rights and Exhibit D Patents under the Sublicense, except to the extent permitted by Section 6.5.1(f) and Section 6.6; (c) Company will pay to Cellscript all amounts, including accrued interest, owed to Cellscript under this Agreement through the date of termination, including royalties on Licensed Products invoiced or shipped through the date of termination and any sell off period permitted by Section 6.6, whether or not payment is received prior to termination or expiration of the sell off period permitted by Section 6.6; (d) Company will, at Cellscript's request, return to Cellscript all Confidential Information of Cellscript (if any) related to exploitation of Patent Rights and Exhibit D Patents and provide to Cellscript one summary of all work related thereto for Licensed Products generated by Company during the Term in order to facilitate the further development of the technology licensed under this Agreement; (e) in the case of termination under Section 6.3, all duties of Cellscript and all rights (but not duties) of Company under this Agreement immediately terminate without further action required by either Cellscript or Company; and (f) all outstanding Third Party sublicenses, to the extent each is not in default, will be assigned by Company to Cellscript, such assignment will be accepted by Cellscript, and each Third Party sublicense agreement will remain in full force and effect with Cellscript as the sublicensor instead of Company, but the duties and obligations of Cellscript under the assigned sublicense agreements will not be greater than the duties of Cellscript under this Agreement and the rights of Cellscript under the assigned sublicenses will not be less than those of Cellscript under this Agreement, including all financial consideration and other rights of Cellscript, and Cellscript may, at its sole discretion, amend such assigned agreements to contain terms and conditions found in this Agreement. [***]

6.5.2 Effect of Termination under Section 6.2. Upon the termination of this Agreement under Section 6.2: (a) the Sublicense to Company and all further sublicenses to Affiliates and Third Parties terminate (except to the extent that said Third Party sublicenses become direct sublicenses of Cellscript pursuant to Section 6.5.2(e)); (b) Company, its Affiliates and Third Party sublicensees will cease all making, having made, using, importing, offering for sale and selling all Licensed Products under the Sublicense, except to the extent permitted pursuant to Section 6.5.2(e) and Section 6.6; (c) Company will pay to Cellscript all amounts, including accrued interest, owed to Cellscript under this Agreement through the date of termination, including royalties on Licensed Products invoiced or shipped through the date of termination and any sell off period permitted by Section 6.6, whether or not payment is received prior to termination or expiration of the sell off period permitted by Section 6.6, and (d) Company will, at Cellscript's request, return to Cellscript all confidential information of Cellscript; and (e) all outstanding sublicenses of Company to Third Parties and all outstanding sublicenses of Company's Affiliates to Third Parties, to the extent each is not in default, will be assigned by Company or its Affiliates to Cellscript (and Company will contractually obligate its Affiliates to make or cause such assignments and work with Cellscript to effect such assignments), and each such assigned sublicense agreement will remain in full force and effect (including for sublicensed Exhibit A-1 Patent Rights and Exhibit A-2 Patent Rights and Exhibit D Patents) with Cellscript as the sublicensor instead of Company, but the duties and obligations of Cellscript under the assigned sublicense agreements will not be greater than the duties and obligations of Company under this Agreement, and the rights of Cellscript under the assigned sublicense agreements will not be less than the rights of Company under this Agreement, including all financial consideration and other rights of Company, and Cellscript may, at its sole discretion, amend such assigned sublicense agreements to contain financial or other terms and conditions found in this Agreement (excluding payment obligations which have already been satisfied by Company).

[*Remainder of page left blank*]

6.6 Inventory & Sell Off. Subject to the remainder of this Section 6.6, upon the termination of this Agreement for any reason, Company will: (1) cause physical inventories to be taken immediately of: (a) all completed Licensed Products on hand under the control of Company and its Affiliates and Third Party sublicensees and (b) such Licensed Products as are in the process of manufacture and any component parts on the date of termination of this Agreement; (2) deliver promptly to Cellscript a copy of said written inventory, certified by an officer of Company; (3) promptly remove, efface or destroy or require or cause to be removed, effaced or destroyed all references to Penn and Cellscript from any advertising, labels, web sites or other materials used in the promotion of the business of Company or its Affiliates or Third Party sublicensees; and (4) not represent in any manner that it has rights in or to the Patent Rights or Exhibit D Patents or the Licensed Products under this Sublicense and cause its Affiliates and Third Party sublicensees not to represent that they have any rights in or to the Patent Rights or Exhibit D Patents or the Licensed Products. Subject to this Section 6.6, Company and its Affiliates and Third Party sublicensees may sell off its inventory of Licensed Products existing on the date of termination for a period of [***] months and pay Cellscript royalties on Sales of such inventory within [***] days following the expiration of such [***] month period. Notwithstanding the foregoing: (i) Company's obligations under this Section 6.6 will not apply to the Sublicense or to Company's sublicense agreements if the Sublicense is assigned to mRNA RiboTherapeutics pursuant to Section 6.5.1; and (ii) the obligations of each of Company's sublicensees pursuant to this Section 6.6 will not apply to Company's or its Affiliates' or Third Party sublicensees' sublicense agreements that are assigned to Cellscript pursuant to Sections 6.5.1(f) or 6.5.2(e); and, (iii) Company's and its Affiliates' and Third Party sublicensees' obligations under this Section 6.6 will not apply with respect to any Licensed Product that is for use in a Field of Use for which Company (and its Affiliates or Third Party sublicensees) has a different sublicense agreement (e.g., under the mRNA RiboTherapeutics Sublicense Agreement).

6.7 Survival. Company's obligation to pay all amounts, including accrued interest, owed to Cellscript under this Agreement will survive the termination of this Agreement for any reason. Articles 5, 6, 11, 12 and 13 and Sections 4.1 (until all Licensed Products which have been manufactured during the Term have been Sold), 4.2, 4.3 (for the time period set forth therein for all Sales of Licensed Products which have been manufactured during the Term), 4.4 (for the time period set forth therein) and 4.5-4.7, 9.1.1, 9.1.4 (for all amounts paid by Company to Cellscript following termination that are payable to mRNA RiboTherapeutics), 9.2.2, 9.2.4 (for all amounts that are payable to Penn which are paid by Company and received by mRNA Therapeutics from Cellscript following termination), and 9.1.8, 9.2.7, 9.3.3, and 9.7 will survive the termination of this Agreement in accordance with their respective terms. The Parties acknowledge and agree that the Sublicense is, for the purposes of section 365(n) of the U.S. Bankruptcy Code, a license to "intellectual property" as defined under Section 101 of the U.S. Bankruptcy Code. The Parties intend that all payments under Article 3 of this Agreement constitute "royalties" within the meaning of section 365(n) of the U.S. Bankruptcy Code.

7 PATENT PROSECUTION AND MAINTENANCE

7.1 Patent Control for Patent Rights. Penn and mRNA RiboTherapeutics control the preparation, prosecution and maintenance of the Patent Rights and the selection of patent counsel, subject to the remainder of this Section 7.1. For purposes of this Section 7.1, the word "maintenance" includes any interference negotiations, claims, or proceedings, in any forum, brought by Penn, or its exclusive licensee, mRNA RiboTherapeutics (if so authorized by Penn), a Third Party, or the United States Patent and Trademark Office or any foreign equivalent pertaining to Patent Rights, and any requests by Penn or mRNA RiboTherapeutics (if so authorized by Penn)

that the United States Patent and Trademark Office or any foreign equivalent reexamine or reissue any patent in the Patent Rights. Notwithstanding the foregoing, Cellscript will provide Company and its counsel with reasonable opportunities to consult with Cellscript regarding prosecution and maintenance of Patent Rights.

7.2 Patent Control for Exhibit D Patents. Penn and Cellscript control the preparation, prosecution and maintenance of the Exhibit D Patents and the selection of patent counsel, subject to the remainder of this Section 7.2. For purposes of this Section 7.2, the word "maintenance" includes any interference negotiations, claims, or proceedings, in any forum, brought by Penn, or its exclusive licensee, Cellscript (if so authorized by Penn), a Third Party, or the United States Patent and Trademark Office pertaining to Exhibit D Patents, and any requests by Penn or Cellscript (if so authorized by Penn) that the United States Patent and Trademark Office reexamine or reissue any patent in the Exhibit D Patents. Notwithstanding the foregoing, Cellscript will provide Company and its counsel with reasonable opportunities to consult with Cellscript regarding prosecution and maintenance of Exhibit D Patents.

8 INFRINGEMENT

8.1 Control. Company shall not have any right to initiate litigation with respect to infringement of the Patent Rights or Exhibit D Patents.

8.2 Cooperation. In any litigation under this Article 8, each Party, at the reasonable request and sole expense of the other Party, will provide reasonable cooperation to such other Party. This Article 8 will not be construed to require either Party to undertake any activities, including legal discovery, at the request of any Third Party, except as may be required by lawful process of a court of competent jurisdiction.

9 COVENANTS, REPRESENTATIONS, WARRANTIES AND DISCLAIMER OF WARRANTIES

9.1 Covenants of Cellscript. Cellscript covenants to Company that, during the Term:

9.1.1 Cellscript will take all reasonable actions necessary to maintain Cellscript's rightsunder the Cellscript Sublicense Agreement and, to the extent within its power, will ensure that the rights granted to Company herein are maintained. In the event of termination of the Cellscript Sublicense Agreement, this Agreement will be assigned to mRNA RiboTherapeutics without any further action by the Parties, and the sublicenses granted hereunder, to the extent they are not in breach or default, will remain in full force and effect with respect to the sublicensed Exhibit A-1 Patent Rights, Exhibit A-2 Patent Rights.

9.1.2 Cellscript will use diligent efforts not to breach the Cellscript Sublicense Agreement in any manner that could result in mRNA RiboTherapeutics having the right to terminate the Cellscript Sublicense Agreement, and, in the event of any such breach, Cellscript will use diligent efforts to expeditiously cure Cellscript's breach of the Cellscript Sublicense Agreement.

9.1.3 Upon Cellscript learning of any breach of a sublicense agreement by any sublicensee of Cellscript or any of its further sublicensees in any manner that could result in mRNA RiboTherapeutics having the right to terminate the Cellscript Sublicense Agreement, Cellscript will expeditiously take appropriate actions to stop such act or omission, up to and including termination of the applicable sublicense, as stated in Section 1.5.4 of the Cellscript Sublicense Agreement.

9.1.4 Cellscript will make all payments due under the Cellscript Sublicense Agreement, and will make all required disclosures to mRNA RiboTherapeutics in connection therewith, in each case in a timely manner in accordance with the terms thereof.

9.1.5 Promptly following Cellscript's receipt of any material written notice or correspondence pertaining to the Sublicense that could reasonably be expected to adversely affect Company's rights under this Agreement, Cellscript will, to the extent permissible, furnish a copy of such notice or correspondence to Company, provided that Cellscript may redact portions of any such written notice or correspondence that does not relate to or impact Company's rights hereunder.

9.1.6 Cellscript acknowledges and agrees that, to the extent that Company reasonably and in good faith requests that the Parties engage with mRNA RiboTherapeutics to seek a reasonable amendment or modification to a provision of the Cellscript Sublicense Agreement that is applicable to Company, the Parties will engage with mRNA RiboTherapeutics to discuss such amendment or modification.

9.1.7 To the extent permissible, Cellscript will promptly notify Company if Cellscript receives a notice from mRNA RiboTherapeutics of intent to terminate the Penn License Agreement

9.1.8 Cellscript agrees that it will not sue, bring an action against, or otherwise assert any claim against Company or its Affiliates or Third Party sublicensees, or their successors in ownership (to which this Agreement or a sublicense under this Agreement is assigned according to terms and conditions for assignment pursuant to Section 15.5 or Section 1.5.5 herein) for infringement of or misappropriation of Patent Rights or Exhibit D Patents that are used by Company or its Affiliates or Third Party sublicensees or their successors in ownership solely in and for the Sublicensed Fields of Use under this Agreement, as Fields of Use are defined in Section 1.2, or the fields of use sublicensed to Company under the mRNA RiboTherapeutics Sublicense Agreement. **[***]** This covenant shall terminate with the termination of this Agreement unless the termination is: (a) made under Section 6.3, and (b) within **[***]** days following receipt of notice by Cellscript of termination under Section 6.3, is either: (i) resolved by Company and Cellscript in writing, or (ii) Company initiates a state or federal lawsuit contesting said termination ("**Contested Termination**"). In the event of a Contested Termination, this covenant shall continue to run during the **[***]** days, and if a lawsuit is initiated, until said state or federal court enters a final decision from which no appeal has been or can be taken.

9.1.9 Cellscript will not amend the Cellscript Sublicense Agreement in any manner that would negatively affect the rights and/or obligations of the Company under this Agreement.

9.1.10 Cellscript will not exercise any right to terminate the Cellscript Sublicense Agreement.

9.2 Covenants of mRNA RiboTherapeutics. mRNA RiboTherapeutics covenants to Company as follows:

9.2.1 mRNA RiboTherapeutics will not terminate the Cellscript Sublicense Agreement without good and reasonable cause.

9.2.2 In the event of termination of the Cellscript Sublicense Agreement, provided that Company did not cause said termination of the Cellscript Sublicense Agreement and is not in breach or default under this Agreement, this Agreement will be assigned to mRNA RiboTherapeutics without any further action by Cellscript, mRNA RiboTherapeutics will accept

assignment of this Agreement from Cellscript and this Agreement, including all of Company's outstanding Third Party sublicenses thereunder, will remain in full force and effect with respect to the sublicensed Exhibit A-1 Patent Rights and Exhibit A-2 Patent Rights, with mRNA RiboTherapeutics as the sublicensor instead of Cellscript, but the duties and obligations of mRNA RiboTherapeutics under the assigned Agreement will not be greater than the duties of Cellscript under this Agreement and the rights (including all financial consideration and other rights) of mRNA RiboTherapeutics under the assigned Sublicense will not be less than those of Cellscript under this Agreement, and mRNA RiboTherapeutics may, at its sole discretion, amend such assigned agreements to contain terms and conditions found in the Cellscript Sublicense Agreement; and Cellscript shall grant a separate sublicense to Company to use the Exhibit D Patents in the Sublicensed Fields of Use.

9.2.3 Upon mRNA RiboTherapeutics learning of any breach of a sublicense agreement by any sublicensee or any further sublicensees thereof in any manner that could result in mRNA RiboTherapeutics having the right to terminate the Cellscript Sublicense Agreement or Penn having the right to terminate the Penn License Agreement, mRNA RiboTherapeutics will expeditiously take appropriate actions to stop such act or omission, up to and including termination of the applicable sublicense.

9.2.4 mRNA RiboTherapeutics will make all payments due under the Penn License Agreement and will make all required disclosures to Penn in connection therewith, in each case in a timely manner in accordance with the terms thereof.

9.2.5 Promptly following mRNA RiboTherapeutics' or any of its affiliates' receipt of any material written notice or correspondence pertaining to the Company's sublicense agreement from Cellscript that would reasonably be expected to adversely affect Company's rights thereunder, mRNA RiboTherapeutics will, to the extent permissible, furnish a copy of such notice or correspondence to Cellscript and to Company, provided that mRNA RiboTherapeutics, as applicable, may redact portions of any such notice or correspondence that do not relate to or impact Company's rights.

9.2.6 mRNA RiboTherapeutics will promptly notify Cellscript and Company if it receives a notice from Penn of any intent to terminate the Penn License Agreement.

9.2.7 mRNA RiboTherapeutics agrees that mRNA RiboTherapeutics and its affiliates will not sue, bring an action against, or otherwise assert any claim against Company or its Affiliates or Third Party sublicensees or their successors in ownership (to which this Agreement or a sublicense under this Agreement is assigned according to terms and conditions for assignment pursuant to Section 15.5 or Section 1.5.5 herein) for infringement of or misappropriation of any Patent Rights (as defined in Section 1.2) that are used by Company or its Affiliates or Third Party sublicensees or their successors in ownership in the *In Vivo* Field of Use (as defined in Section 1.2) within the Sublicensed Fields of Use. For clarity, the foregoing covenant does not provide Company or its Affiliates or Third Party sublicensees or their successors in ownership immunity from any suit, action or claim for infringement of or misappropriation of Patent Rights if Company or its Affiliates or Third Party sublicensees or their successors in ownership use(s) any Patent Rights in a Field of Use that is not sublicensed to Company. For further clarity, the foregoing covenant also does not provide Company or its Affiliates or Third Party sublicensees or their successors in ownership immunity from any suit, action or claim for infringement of or misappropriation of any patent rights that are not Patent Rights (as defined in Section 1.2) if Company or its Affiliates or Third Party sublicensees or their successors in ownership use(s) any

such other patent rights, whether alone or in combination with use of Patent Rights. This covenant shall terminate with the termination of this Agreement unless the termination is a Contested Termination. In the event of a Contested Termination, this covenant shall continue to run during the **[***]** days, and if a lawsuit is initiated, until said state or federal court enters a final decision from which no appeal has been or can be taken.

9.2.8 mRNA RiboTherapeutics will not amend the Cellscript Sublicense Agreement in any manner that would negatively affect the rights and/or obligations of the Company under this Agreement.

9.3 Covenants of Company. Company covenants to Cellscript and to mRNA RiboTherapeutics that, during the Term:

9.3.1 Company will not breach this Agreement, and to the extent within its power, will ensure that its Affiliates do not breach or cause breach of any sublicense under this Agreement in a manner that would result in mRNA RiboTherapeutics having the right to terminate the Cellscript Sublicense Agreement, and, in the event of any such breach, Company will use diligent efforts to cure (or cause to be cured) any such breach of this Agreement by Company or any breach of any sublicense under this Agreement by its Affiliates or Third Party sublicensees.

9.3.2 Upon Company learning of any breach of a sublicense agreement by any of its Affiliates or Third Party sublicensees or any of their further sublicensees that results in mRNA RiboTherapeutics having the right to terminate the Cellscript Sublicense Agreement, Company will use diligent efforts to cure (or cause to be cured) any such breach, up to and including termination or causing termination of the applicable sublicense, as stated in Section 1.5.4 of this Agreement.

9.3.3 Company will pay to Cellscript all payments due under this Agreement pursuant to Article 3 and in accordance with the terms in Articles 3 and Section 4.2 and will provide to Cellscript all information, reports and notices required in accordance with Sections 2.1, 2.3, 3.3, 3.4.3(a), 4.1, 4.4, 4.5 and 6.6 and in the form of the sample report attached as Exhibit C, in each case in accordance with the time periods set forth therein.

9.3.4 Promptly following mRNA RiboTherapeutics' or any of its affiliates' receipt of any material written notice or correspondence about an issue pertaining to the Sublicense or to any matter that would reasonably be expected to adversely affect in any respect Company's rights under this Agreement, mRNA RiboTherapeutics will, to the extent permissible, furnish a copy of such notice or correspondence to Company, provided that mRNA RiboTherapeutics may redact portions of any such notice or correspondence that do not relate to or impact Company's rights hereunder.

9.4 Representations and Warranties of Cellscript. As of the Effective Date, Cellscript, on behalf of itself and its affiliates, hereby represents and warrants to Company that:

9.4.1 (a) Cellscript has provided Company a true and correct redacted copy of the Cellscript Sublicense Agreement (including exhibits and amendments thereto), which has been redacted with respect to amounts paid or payable by Cellscript to mRNA RiboTherapeutics for said sublicense and for milestones and other fees and royalties for Fields of Use not sublicensed to Company (e.g., the *Ex Vivo* Field of Use) and certain other terms and conditions that do not pertain to or are immaterial to Company's rights herein, and (b) except for a separate license agreement from Penn to CELLSCRIPT, LLC related to certain patents pertaining to

reprogramming to iPS cells (which are the Exhibit D Patents sublicensed to Company solely for the *In Vivo* Field of Use in Section 1.7 of this Agreement), there are no other license or sublicense agreements, written or verbal, between Penn and Cellscript or between Cellscript or any affiliate thereof and mRNA RiboTherapeutics or any affiliate thereof.

9.4.2 Neither mRNA RiboTherapeutics nor Cellscript, nor any affiliate thereof has granted any other license or sublicense in Field of Use B or given any covenant not to sue for infringement of Patent Rights relating to the Penn License Agreement except for: (i) the Cellscript Sublicense Agreement, (ii) this Agreement, (iii) the mRNA RiboTherapeutics Sublicense Agreement, (iv) one Human *In Vivo* Therapeutics Field Sublicense from Cellscript (if any) that will be granted to a Third Party pursuant to Article 10 of this Agreement with respect to the Human *In Vivo* Therapeutics Field, and (v) one sublicense (if any) from mRNA RiboTherapeutics to said Third Party for the Diagnostic and Prognostic Field of Use.

9.4.3 Cellscript has not granted any liens or encumbrances in or to its rights in Patent Rights or the Cellscript Sublicense Agreement.

9.4.4 Cellscript has not breached or defaulted under any provision of the Cellscript Sublicense Agreement in any material respect or received any written notice from mRNA RiboTherapeutics of any claims for indemnification pursuant thereto.

9.4.5 To the knowledge of Cellscript, (a) there are no facts that would preclude Penn from having clear title to the Patent Rights or Exhibit D Patents, (b) there are no pending or threatened litigations, interferences, reexaminations, oppositions or like procedures involving Patent Rights or Exhibit D Patents, and (c) all of the issued patents within the Patent Rights or Exhibit D Patents are valid and enforceable, are in full force and effect and have not lapsed, expired or otherwise terminated.

9.4.6 Cellscript believes the terms and conditions of this Agreement are fully consistent with the terms and conditions of the Cellscript Sublicense Agreement and the Penn License Agreement.

9.4.7 Cellscript has not received any written notice of any claim by any person or entity challenging the sublicense rights of Cellscript or the validity or enforceability of the Patent Rights or Exhibit D Patents.

[*Remainder of page left blank*]

9.4.8 The Fields of Use sublicensed to Company in this Agreement are different and distinct from and do not overlap with the fields of use sublicensed to Company by mRNA RiboTherapeutics in the mRNA RiboTherapeutics Sublicense Agreement and any products researched, developed, manufactured or commercialized in fields of use granted under this Agreement are subject only to the payment and other obligations under this Agreement, and are not subject to payment and other obligations under the mRNA RiboTherapeutics Sublicense Agreement.

9.4.9 Cellscript believes that the representations and warranties of Cellscript in this Agreement, do not, taken as a whole: (i) contain any untrue statement of a material fact; or (ii) omit to state any material fact necessary to make the statements or facts contained therein, in light of the circumstances under which they were made, not misleading. Cellscript has not knowingly withheld any information with respect to the Cellscript Sublicense Agreement, the Penn License Agreement or the Patent Rights or Exhibit D Patents that would reasonably be expected to be material to Company's decision to enter into this Agreement.

9.5 Representations and Warranties of mRNA RiboTherapeutics. As of the Effective Date, mRNA RiboTherapeutics hereby represents and warrants to Company that:

9.5.1 Either mRNA RiboTherapeutics or Cellscript has provided Company with a true and correct redacted copy of the Penn License Agreement (including exhibits and amendments thereto) which has been redacted with respect to the amounts paid or payable to Penn by licensee for said license and for milestones and other fees and royalties for Fields of Use which are not sublicensed to Company herein (e.g., the *Ex Vivo* Field of Use) and certain other terms and conditions that do not pertain to or are immaterial to Company's rights in the Sublicensed Fields of Use or the fields of use sublicensed to Company under the mRNA RiboTherapeutics Sublicense Agreement, and a paragraph describing Penn's retained right to grant a non-exclusive sublicense to one party for ten products for humans in the Infectious Disease Vaccine Subfield of Field of Use B.

9.5.2 Except for a separate license agreement from Penn to Cellscript related to certain patents and patent applications pertaining to reprogramming to iPS cells that are not part of Patent Rights herein (which are the Exhibit D Patents which are sublicensed to Company as stated in Section 1.7 of this Agreement), and the Cellscript Sublicense Agreement, there is no other outstanding license or sublicense agreement in Field of Use B pertaining to Patent Rights nor any covenant, written or verbal, not to sue for infringement of Patent Rights pertaining to Field of Use B between: (i) Penn and mRNA RiboTherapeutics or any affiliate thereof; or (ii) Penn and Cellscript or any affiliate thereof; or (iii) mRNA RiboTherapeutics or any affiliate thereof and Cellscript or any affiliate thereof.

9.5.3 Neither mRNA RiboTherapeutics nor any affiliate thereof has granted any other license or sublicense or agreed not to sue for infringement of Patent Rights in Field of Use B relating to the Penn License Agreement, except for: (i) the Cellscript Sublicense Agreement; (ii) this Agreement to Company, (iii) the mRNA RiboTherapeutics Sublicense Agreement to Company, (iv) one Human *In Vivo* Therapeutics Field Sublicense from Cellscript (if any) that will be granted to a Third Party pursuant to Article 10 of this Agreement with respect to the Human *In Vivo* Therapeutics Field, and (v) one sublicense (if any) from mRNA RiboTherapeutics to said Third Party for the Diagnostic and Prognostic Field of Use.

9.5.4 Neither mRNA RiboTherapeutics nor any affiliate thereof has granted any liens or encumbrances in or to its rights in Patent Rights or the Cellscript Sublicense Agreement.

9.5.5 Cellscript has not breached or defaulted under any provision of the Cellscript Sublicense Agreement in any material respect or received any written notice from mRNA RiboTherapeutics of any claims for indemnification pursuant thereto and mRNA RiboTherapeutics has not breached or defaulted under any provision of the Penn License Agreement in any material respect or received any written notice from Penn of any claims for indemnification pursuant thereto.

9.5.6 To the knowledge of mRNA RiboTherapeutics, (a) there are no facts that would preclude Penn from having clear title to the Patent Rights, (b) there are no pending or threatened litigations, interferences, reexaminations, oppositions or like procedures involving any such Patent Rights and (c) all of the issued patents within the Patent Rights are valid and enforceable, are in full force and effect and have not lapsed, expired or otherwise terminated.

9.5.7 mRNA RiboTherapeutics believes the terms and conditions of this Agreement are fully consistent with the terms and conditions of the Cellscript Sublicense Agreement and the Penn License Agreement.

9.5.8 mRNA RiboTherapeutics has not received, any written notice of any claim by any person or entity challenging the sublicense rights of Cellscript or the validity or enforceability of the Patent Rights.

9.5.9 The fields of use sublicensed to Company in the mRNA RiboTherapeutics Sublicense Agreement are distinct from and do not overlap with the Fields of Use sublicensed to Company in this Agreement and any products researched, developed, manufactured or commercialized in fields of use granted under the mRNA RiboTherapeutics Sublicense Agreement are subject only to the payment and other obligations of the mRNA RiboTherapeutics Sublicense Agreement, and are not subject to payment and other obligations under this Agreement.

9.5.10 mRNA RiboTherapeutics believes that the representations and warranties of mRNA RiboTherapeutics in this Agreement, do not, taken as a whole, (i) contain any untrue statement of a material fact; or (ii) omit to state any material fact necessary to make the statements or facts contained therein, in light of the circumstances under which they were made, not misleading. mRNA RiboTherapeutics has not knowingly withheld any information with respect to the Cellscript Sublicense Agreement, the Penn License Agreement or the Patent Rights that would reasonably be expected to be material to Company’s decision to enter into this Agreement.

9.6 Representations and Warranties of Company. Company hereby represents and warrants to Cellscript and to mRNA RiboTherapeutics that, as of the Effective Date:

9.6.1 Company is duly organized and validly existing under the laws of the jurisdiction of its incorporation and has full corporate power and authority to enter into this Agreement.

9.6.2 Company is in good standing with all relevant governmental authorities.

9.6.3 Company has taken all corporate actions necessary to authorize the execution and delivery of this Agreement and the performance of its obligations under this Agreement.

9.6.4 The performance of the obligations of Company under this Agreement do not conflict with or constitute a default under its charter documents, any contractual obligation of Company or any court order.

9.6.5 Company and its attorneys have reviewed the patents and patent applications comprising Patent Rights including both Exhibit A-1 Patent Rights and Exhibit A-2 Patent Rights that are listed in Exhibit A attached hereto.

9.6.6 Company has experience with and is familiar with the inventions covered by Patent Rights and understands the use, purpose and benefits thereof.

9.6.7 Company has read the redacted copy of the Penn License Agreement (including exhibits and amendments thereto) that was provided to Company by mRNA RiboTherapeutics or Cellscript.

9.6.8 Company has read the redacted copy of the Cellscript Sublicense Agreement (including exhibits and amendments thereto) that was provided to Company by Cellscript or mRNA RiboTherapeutics.

9.6.9 Company believes that the representations and warranties of Company in this Agreement, do not, taken as a whole, (i) contain any untrue statement of a material fact; or (ii) omit to state any material fact necessary to make the statements or facts contained therein, in light of the circumstances under which they were made, not misleading. Company has not knowingly withheld any information with respect to the any of Company's above statements that would reasonably be expected to be material to Cellscript's decision to enter into this Agreement.

9.7 Disclaimer of Warranties. EXCEPT AS SPECIFICALLY SET FORTH IN THIS ARTICLE 9, NO PARTY MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS OR SUFFICIENCY OF PATENT RIGHTS OR EXHIBIT D PATENTS FOR A PARTICULAR PURPOSE, APPLICATION OR USE, NON-INFRINGEMENT, OR ANY OTHER STATUTORY WARRANTY.

10 ADDITIONAL TERMS REGARDING SUBLICENSING

10.1 Purpose of this Article. This Article 10 sets forth terms and conditions for further sublicensing by Primary Sublicensors in the Human *In Vivo* Therapeutics Field, wherein, for the purposes of this Article 10:

(a) "**sublicensing**" herein means any grant of a sublicense, covenant not to sue, or option for current or future rights under Patent Rights, and the noun "**sublicense**" herein means a document that grants such sublicense, covenant not to sue, or option for current or future rights under Patent Rights;

(b) "**Primary Sublicensors**" herein means (i) mRNA RiboTherapeutics, (ii) Cellscript, and (iii) any affiliate of (i) or (ii) that is granted a sublicense in the Human *In Vivo* Therapeutics Field; and

(c) "**Human *In Vivo* Therapeutics Field**" herein means any or all therapeutic and prophylactic use(s) in humans in the *In Vivo* Field of Use in Field of Use B.

For clarity and the absence of doubt, Article 10 shall not be interpreted in any way so as to limit, restrict or impose any terms or conditions on Primary Sublicensors' rights to grant sublicenses under Patent Rights to any party at any time for any Field of Use other than the Human *In Vivo* Therapeutics Field.

10.2 Human *In Vivo* Therapeutics Field Sublicenses. Subject to the rights of the Primary Sublicensors and their respective owners under Section 10.4, Cellscript, mRNA RiboTherapeutics and Company agree that, from the Effective Date **[***]**, mRNA RiboTherapeutics and Cellscript will not grant and will ensure that other Primary Sublicensors will not grant Human *In Vivo* Therapeutics Field Sublicenses, including this Sublicense, to **[***]**

"**Human *In Vivo* Therapeutics Field Sublicense**" means a sublicense to make, have made, use, import, offer for sale, sell and/or have sold any number of products covered by Patent Rights comprising or incorporating modified RNA for the Human *In Vivo* Therapeutics Field, but excluding Product Sublicenses.

10.3 Product Sublicenses. Subject to the rights of the Primary Sublicensors and their respective owners under Section 10.4, Cellscript, mRNA RiboTherapeutics and Company agree that, from the Effective Date until **[***]**, Cellscript and mRNA RiboTherapeutics will (and will ensure that the other Primary Sublicensors will):

(a) grant Product Sublicenses only to **[***]**,

wherein "**Product Sublicenses**" herein mean sublicenses under Patent Rights to research, develop, manufacture and/or commercialize specific products **[***]**, for a therapeutic or prophylactic use in humans in the *In Vivo* Field of Use, and

wherein **[***]**

(b) only grant Product Sublicenses for a total of **[***]** products in the aggregate by all of the Primary Sublicensors across all such Product Sublicenses, **[***]**

(c) except as set forth in Sections 10.2 and 10.3, not otherwise grant sublicenses under the Patent Rights to research, develop, manufacture and/or commercialize products comprising or incorporating **[***]**.

10.4 Sale of a Primary Sublicensor. Company understands and agrees that the owners of each of mRNA RiboTherapeutics and Cellscript shall have the right to sell all or any part of the outstanding stock or ownership interest or the business or the assets thereof, as applicable, of mRNA RiboTherapeutics and/or Cellscript and/or any of their respective affiliates that **[***]** at any time and without any conditions pursuant to this Agreement other than the requirements under Section 15.5,

except that, as a condition to any such sale occurring prior to April 1, 2020:

(a) the owners of each of mRNA RiboTherapeutics and Cellscript will sell mRNA RiboTherapeutics or Cellscript to only one (1) Third Party purchaser, **[***]**; and

(b) without in any way negating or ceding or giving up any of their current rights to sell all or any part of the stock, ownership interest, business or assets of mRNA RiboTherapeutics and/or Cellscript or to discuss any such sale with any potential purchaser at any time, including from the Effective Date of this Agreement until **[***]**, the owners of mRNA RiboTherapeutics and Cellscript agree not to conduct Active Marketing of such sale of a Primary Sublicensor prior to **[***]**,

wherein "**[***]**" herein means **[***]**; and

for the avoidance of doubt, Company agrees that this Section 10.4(a) shall not be interpreted so as to prohibit the owners of mRNA RiboTherapeutics and/or Cellscript from proposing or discussing **[***]**;

(c) the purchaser of mRNA RiboTherapeutics or Cellscript, respectively, will pay **[***]**;

(d) on the effective date of any such sale of **[***]** and the purchaser and their assignees and successors in ownership thereof shall have all the same rights as are held by Company under this Agreement to:

(i) grant Human *In Vivo* Therapeutics Field Sublicenses to affiliates and Third Parties without being subject to any restrictions, limitations, or terms and conditions that apply to the Primary Sublicensors under Sections 10.2, and

(ii) grant Product Sublicenses to affiliates and any Third Parties to research, develop, manufacture and/or commercialize any number of products comprising modified RNA covered by Patent Rights for any therapeutic or prophylactic use in humans in the *In Vivo* Field of Use without being subject to any of the restrictions, limitations or requirements that the sublicensee is a Small Biotech Company as is required of the Primary Sublicensors in Section 10.3; and

(e) on the effective date of any such sale of more than fifty percent (50%) of the outstanding stock or ownership interest or all of the business or assets of mRNA RiboTherapeutics or Cellscript, all of the rights of the Primary Sublicensors to grant Product Sublicenses pursuant to Section 10.3 shall remain only with the Primary Sublicensors for which their stock, ownership interest, business and assets were not sold.

[***]

10.5 From **[***]**, Primary Sublicensors and any owners, assignees or successors in ownership thereof shall have the right to grant any number of Human *In Vivo* Therapeutics Field Sublicense(s) to any parties without any conditions (other than those imposed by the Penn License Agreement or the Cellscript Sublicense Agreement) and to grant any number of Product Sublicenses or any other sublicenses of any kind under Patent Rights to any parties without any limitations or restrictions or requirements whatsoever under this Article 10.

11 LIMITATION OF LIABILITY; DISCLAIMER.

11.1 Limitation of Liability. CELLSCRIPT, mRNA RIBOTHERAPEUTICS AND PENN WILL NOT BE LIABLE TO COMPANY, ITS AFFILIATES, SUBLICENSEES, SUCCESSORS OR ASSIGNS, OR ANY THIRD PARTY WITH RESPECT TO ANY CLAIM: ARISING FROM COMPANY'S USE OF THE PATENT RIGHTS, EXHIBIT D PATENTS, LICENSED PRODUCTS OR ANY OTHER TECHNOLOGY LICENSED UNDER THIS AGREEMENT; OR ARISING FROM THE COMPANY'S, COMPANY'S AFFILIATES' OR COMPANY'S SUBLICENSEES' DEVELOPMENT, TESTING, MANUFACTURE, USE OR SALE OF LICENSED PRODUCTS. NOTWITHSTANDING ANYTHING IN THIS

AGREEMENT OR OTHERWISE, NONE OF CELLSCRIPT, mRNA RIBOTHERAPEUTICS, PENN, OR COMPANY WILL BE LIABLE TO THE OTHER OR ANY THIRD PARTY WITH RESPECT TO ANY SUBJECT MATTER OF THIS AGREEMENT FOR ANY INDIRECT, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES, EVEN IF SUCH PARTY HAS BEEN INFORMED OR SHOULD HAVE KNOWN OF THE POSSIBILITY OF SUCH DAMAGES; PROVIDED THAT THIS SECTION 11.1 WILL NOT APPLY: (a) TO A PARTY'S INDEMNIFICATION RIGHTS AND OBLIGATIONS UNDER ARTICLE 12 OR ARTICLE 13; (b) IN CIRCUMSTANCES OF GROSS NEGLIGENCE OR INTENTIONAL MISCONDUCT BY A PARTY OR ITS AFFILIATES; OR (c) WITH RESPECT TO A PARTY'S LIABILITY FOR BREACH OF ARTICLE 5 or 10.

11.2 Disclaimer. THE PATENT RIGHTS, EXHIBIT D PATENTS, LICENSED PRODUCTS AND ANY OTHER TECHNOLOGY LICENSED UNDER THIS AGREEMENT ARE PROVIDED ON AN "AS IS" BASIS. EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NONE OF CELLSCRIPT, mRNA RIBOTHERAPEUTICS, PENN, OR COMPANY MAKE ANY REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF ACCURACY, COMPLETENESS, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, COMMERCIAL UTILITY, NON-INFRINGEMENT, VALIDITY OR TITLE.

12 PENN INDEMNIFICATION

12.1 Indemnification. Company will defend, indemnify, and hold harmless each Penn Indemnified Party from and against any and all Penn Liabilities with respect to an Indemnification Event. The term "**Penn Indemnified Party**" means each of Penn and its trustees, officers, faculty, students, employees, contractors, and agents. For clarity, Cellscript is not a Penn Indemnified Party. The term "Penn Liabilities" means all damages, awards, deficiencies, settlement amounts, defaults, assessments, fines, dues, penalties, costs, fees, liabilities, obligations, taxes, liens, losses, lost profits and expenses (including, but not limited to, court costs, interest and reasonable fees of attorneys, accountants and other experts) that are incurred by a Penn Indemnified Party or awarded or otherwise required to be paid to Third Parties by a Penn Indemnified Party. The term "Indemnification Event" means any Claim against one or more Penn Indemnified Parties arising out of or resulting from: **[***]**. The term *"***Claim***"* in this Article 12 means any charges, complaints, actions, suits, proceedings, hearings, investigations, claims or demands.

12.2 Reimbursement of Costs. Company will pay directly all Penn Liabilities incurred for defense or negotiation of any Claim or will reimburse Penn for all documented Penn Liabilities incident to the defense or negotiation of any Claim within **[***]** days after Company's receipt of invoices for such fees, expenses and charges.

12.3 Control of Litigation. Company controls any litigation or potential litigation involving the defense of any Claim, including the selection of counsel, with input from Penn. Penn reserves the right to protect its interest in defending against any Claim by selecting its own counsel, with any attorneys' fees and litigation expenses paid for by Company, pursuant to Sections 12.1 and 12.2.

12.4 Other Provisions. Company will not settle or compromise any Claim giving rise to Penn Liabilities in any manner that imposes any restrictions or obligations on Penn or grants any rights to the Patent Rights, Exhibit D Patents or the Licensed Products without Penn's prior written consent. If Company fails or declines to assume the defense of any Claim within **[***]** days after notice of the Claim, or fails to reimburse a Penn Indemnified Party for any Penn Liabilities pursuant to Sections 12.1 and 12.2 within the **[***]** day time period set forth in Section 12.2, then Penn may assume the defense of such Claim for the account and at the risk of Company, and any Penn Liabilities related to such Claim will be conclusively deemed a liability of Company. The indemnification rights of the Penn Indemnified Parties under this Article 12 are in addition to all other rights that a Penn Indemnified Party may have at law, in equity or otherwise.

13 OTHER INDEMNIFICATION

13.1 Indemnification by Company. Company will indemnify, defend and hold harmless Cellscript and its affiliates, and its or their respective directors, officers, employees and agents ("**Cellscript Indemnified Parties**"), from and against any and all liabilities, damages, losses, costs and expenses including the reasonable fees of attorneys (collectively "**Losses**") arising out of or resulting from any and all Third Party suits, claims, actions, proceedings, payment obligations or demands ("**Claims**" in this Article 13) to the extent based upon:

13.1.1 the gross negligence or willful misconduct of Company, its Affiliates or Third Party sublicensees and its or their respective directors, officers, employees and agents, in connection with Company's performance of its obligations or exercise of its rights under this Agreement;

13.1.2 any breach of any representation or warranty or express covenant made by Company under this Agreement; or

13.1.3 the development, testing, use, manufacture, commercialization, sale or other disposition of Licensed Products by or on behalf of Company or its Affiliates or Third Party sublicensees, assignees or vendors or Third Parties, including, but not limited to, for (x) any product liability or other Claim of any kind related to use by a Third Party of a Licensed Product, (y) any Claim by a Third Party that Company's practice of any of the Patent Rights or Exhibit D Patents or the design, composition, manufacture, use, sale or other disposition of any Licensed Product infringes or violates any patent, copyright, trade secret, trademark or other intellectual property right of such Third Party, and (z) any Claim by a Third Party relating to clinical trials or studies for Licensed Products;

except, in each case above, to the extent such Claim arose out of or resulted from or is attributable to any acts or omissions of Cellscript or its directors, officers, employees and agents, or other circumstances for which Cellscript has an indemnity obligation pursuant to Section 13.2 below.

13.2 Indemnification by Cellscript. Cellscript will indemnify, defend and hold harmless Company and its Affiliates, and its or their respective directors, officers, employees and agents ("**Company Indemnified Parties**"), from and against any and all Losses arising out of or resulting from any and all Claims to the extent based upon:

13.2.1 the gross negligence or willful misconduct of Cellscript or its directors, officers, employees and agents, in connection with Cellscript's performance of its obligations or exercise of its rights under this Agreement; or

13.2.2 any breach of any representation or warranty or express covenant made by Cellscript under this Agreement; or

except, in each case above, to the extent such Claim arose out of or resulted from or is attributable to any acts or omissions of Company or its Affiliates or Third Party sublicensees or contractors and its or their respective directors, officers, employees and agents or other circumstances for which Company has an indemnity obligation pursuant to Section 13.1 above.

13.3 Procedure. If an Indemnified Party entitled to indemnification under Sections 13.1 or 13.2 seeks such indemnification (wherein "**Indemnified Party**" in this Article 13 means a "Company Indemnified Party" and/or an "Cellscript Indemnified Party"), such Indemnified Party will:

(i) inform the indemnifying Party in writing of a Claim as soon as reasonably practicable after such Indemnified Party receives notice of such Claim;

(ii) permit the indemnifying Party to assume direction and control of the defense of the Claim (including the sole right to settle such Claim at the sole discretion of the indemnifying Party, *provided that* (a) such settlement or compromise does not admit any fault or negligence on the part of the Indemnified Party, or impose any obligation on, or otherwise materially adversely affect, the Indemnified Party or other Party and (b) the indemnifying Party first obtains the written consent of the Indemnified Party with respect to such settlement, which consent will not be unreasonably withheld);

(iii) cooperate as reasonably requested (at the expense of the indemnifying Party) in the defense of the Claim; and

(iv) undertake reasonable steps to mitigate any Losses with respect to the Claim.

Notwithstanding anything in this Agreement to the contrary, the indemnifying Party will have no liability under Sections 13.1 or 13.2, as the case may be, for Claims settled or compromised by the Indemnified Party without the indemnifying Party's prior written consent.

14 INSURANCE

14.1 Coverages. Company will procure and maintain insurance or self-insurance that covers the following minimum liability amounts with respect to personal injury, bodily injury and property damage arising out of Company's performance under this Agreement: (a) during the Term, comprehensive general liability, including broad form and contractual liability, in a minimum amount of **[***]** combined single limit per occurrence and in the aggregate; (b) prior to the commencement of clinical trials involving Licensed Products, clinical trials a minimum amount of **[***]** combined single limit per occurrence and in the aggregate; and (c) prior to the Sale of the first Licensed Product, product liability a minimum amount of **[***]** combined single limit per occurrence and in the aggregate. Penn and Cellscript may review periodically the adequacy of the minimum amounts of insurance or self-insurance for each liability coverage area required by this Section 14.1, and Penn and Cellscript reserve the right to request Company to adjust the limits accordingly to the extent existing limits are not commercially reasonable. The required minimum amounts of insurance or self-insurance do not constitute a limitation on Company's liability or indemnification obligations to Penn or Cellscript under this Agreement.

15 ADDITIONAL PROVISIONS

15.1 Independent Contractors. The Parties are independent contractors. Nothing contained in this Agreement is intended to create an agency, partnership or joint venture between the Parties. At no time will either Party make commitments or incur any charges or expenses for or on behalf of the other Party.

15.2 No Discrimination. Company will not discriminate against any employee or applicant for employment because of race, color, sex, sexual or affectional preference, age, religion, national or ethnic origin, handicap, or veteran status.

15.3 Compliance with Laws. Company must comply with all prevailing laws, rules and regulations that apply to its activities or obligations under this Agreement. For example, Company will comply with applicable United States export laws and regulations. The transfer of certain technical data and commodities may require a license from the applicable agency of the United States government and/or written assurances by Company that Company will not export data or commodities to certain foreign countries without prior approval of the agency. Penn and Cellscript do not represent that no license is required, or that, if required, the license will issue.

15.4 Modification, Waiver & Remedies. This Agreement may only be modified by a written amendment that is executed by an authorized representative of each Party. Any waiver must be express and in writing. No waiver by either Party of a breach by the other Party will constitute a waiver of any different or succeeding breach. Unless otherwise specified, all remedies are cumulative.

[*Remainder of page left blank*]

15.5 Assignment. This Agreement may not be assigned (by operation of law or otherwise) by either Party without the prior written consent of the other Party (which consent will not be unreasonably withheld); *except that*, either Party may assign this Agreement without such consent to an affiliate or to a Third Party successor that purchases greater than fifty percent (>50%) of the outstanding stock or ownership interest or all or substantially all of such Party's business or assets to which this Agreement relates, whether by sale of shares or ownership interest, merger, consolidation, sale of assets or otherwise, *provided* that, prior to said transfer, the intended assignee agrees in writing to be legally bound by this Agreement in the place and stead of the assignor and provides the non-assigning Party with a copy of said assignee's written undertaking. Neither Party will grant a security interest in the Sublicense or this Agreement during the Term. Any prohibited assignment or security interest in contravention of the foregoing will be null and void. The rights and obligations of the Parties under this Agreement will be binding upon and inure to the benefit of the successors and permitted assigns of the Parties, and the name of a Party appearing herein will be deemed to include the name of such Party's successors and permitted assigns to the extent necessary to carry out the intent of this Section 15.5.

15.6 Notices. Any notice or other required communication (each, a "**Notice**") must be in writing, addressed to the Party's respective Notice Address listed on the signature page, and delivered: (a) personally, with signed receipt; (b) by certified mail, postage prepaid, return receipt requested; (c) by recognized overnight courier service, charges prepaid; or (d) by facsimile. A Notice will be deemed received: if delivered personally, on the date of delivery; if mailed, **[***]** days after deposit in the United States mail; if sent via courier, **[***]** business day after deposit with the courier service; or if sent via facsimile, upon receipt of confirmation of transmission provided that a confirming copy of such Notice is sent by certified mail, postage prepaid, return receipt requested.

15.7 Severability & Reformation. If any provision of this Agreement is held to be invalid or unenforceable by a court of competent jurisdiction, then the remaining provisions of this Agreement will remain in full force and effect. Such invalid or unenforceable provision will be automatically revised to be a valid or enforceable provision that comes as close as permitted by law to the Parties' original intent.

15.8 Headings & Counterparts. The headings of the articles and sections included in this Agreement are inserted for convenience only and are not intended to affect the meaning or interpretation of this Agreement. This Agreement may be executed in one or more counterparts, each of which when executed and delivered by facsimile, electronic transmission, or by mail delivery, will be an original and all of which shall constitute one and the same instrument.

15.9 Governing Law. This Agreement will be governed in accordance with the laws of the Commonwealth of Pennsylvania, without giving effect to the conflict of law provisions of any jurisdiction.

15.10 Dispute Resolution. If a dispute arises between the Parties concerning any right or duty under this Agreement, then the Parties will confer, as soon as practicable, in an attempt to resolve the dispute. If the Parties are unable to resolve the dispute amicably, then the Parties will submit to the exclusive jurisdiction of, and venue in, the state and Federal courts located in the Eastern District of Pennsylvania with respect to all disputes arising under this Agreement. Notwithstanding anything herein to the contrary, in the event of an actual or threatened breach of this Agreement, the aggrieved Party may seek provisional equitable relief (including restraining orders, specific performance or other injunctive relief) in any court of competent jurisdiction to protect the interests of such Party.

15.11 Further Assurance. Each Party shall duly execute and deliver, or cause to be duly executed and delivered, such further instruments and do and cause to be done such further acts and things, including the filing of such assignments, agreements, documents and instruments, as may be necessary or as the other Party may reasonably request in connection with this Agreement or to carry out more effectively the provisions and purposes hereof, or to better assure and confirm unto such other Party its rights and remedies under this Agreement.

15.12 Interpretation. Except where the context otherwise requires, wherever used, the singular shall include the plural, the plural the singular, the use of any gender shall be applicable to all genders and the word "or" is used in the inclusive sense (and/or). The captions of this Agreement are for convenience of reference only and in no way define, describe, extend or limit the scope or intent of this Agreement or the intent of any provision contained in this Agreement. The term "including" as used herein shall mean including, without limiting the generality of any description preceding such term. The language of this Agreement shall be deemed to be the language mutually chosen by the Parties and no rule of strict construction shall be applied against either Party hereto. The Parties acknowledge and agree that new products and uses for products that are covered by Patent rights may be developed based on new advances in scientific knowledge. As such, the Parties' agree that, if Company is of the opinion that such advances have resulted in changes which warrant interpretation of whether such new products or uses are included within the Sublicensed Fields of Use granted to Company herein, the Parties agree to discuss and negotiate in good faith the need for an amendment or clarification of the meaning of the rights or Fields of Use granted to Company in Section 1.1 of this Agreement in order to try to find a solution that is agreeable to the Parties. Then, if the Parties have not agreed on the necessity or the wording of such amendment within **[***]** days after beginning good faith discussions, the Parties agree that, either both Parties will jointly agree on and appoint one independent Third Party, or each of the Parties will appoint one independent Third Party and those Third Parties will appoint one additional independent Third Party (all of which Third Parties will be qualified and skilled in the scientific field and have knowledge of law related to patents and licenses) to decide whether such amendment is required to properly reflect this intention. If the appointed independent Third Party or Third Parties decide(s) that said amendment is required, the Parties hereby agree to so amend this Agreement accordingly. If the appointed independent Third Party or Third Parties decide(s) that said amendment is not required, there is no obligation on either Party to amend this Agreement. The costs of the appointed independent Third Party or Third Parties will be borne by the Party whose view has not been confirmed by such Third Party(ies).

15.13 Integration. This Agreement with its Exhibits and the Confidentiality Agreement contain the entire agreement between the Parties with respect to the Patent Rights, Exhibit D Patents and the Sublicense and supersede all other oral or written representations, statements, or agreements with respect to such subject matter.

15.14 Condition Precedent to Execution of this Agreement. The Parties understand and agree that each Party's willingness to enter into this Agreement is contingent upon the execution of both this Agreement and the mRNA RiboTherapeutics Sublicense Agreement, which grants certain other rights to Company under Patent Rights than the rights granted to Company in this Agreement.

15.15 Entire Agreement. This Agreement and the separate mRNA RiboTherapeutics Sublicense Agreement set forth the complete, final and only agreements with respect to the subject matter hereof and supersede all other agreements and understandings between the Parties with respect to the subject matter hereof. The Parties acknowledge and agree that this Agreement and the mRNA RiboTherapeutics Sublicense Agreement are separate and distinct agreements and there will be no "cross default" with respect to this Agreement and the mRNA RiboTherapeutics Sublicense Agreement.

Patent Sublicense Agreement

This Patent Sublicense Agreement ("**Agreement**") is between mRNA RiboTherapeutics, Inc., a Wisconsin corporation having a place of business at 726 Post Road, Madison, WI 53713, USA **("mRNA RiboTherapeutics")** and BioNTech AG, a German corporation having its principal place of business at An der Goldgrube 12, 55131 Mainz, Germany ("**Company**"). This Agreement is effective as of July 14, 2017 (the "**Effective Date**"). Each of Company and mRNA RiboTherapeutics are referred to herein as a "**Party**" and collectively as the "**Parties**".

BACKGROUND

WHEREAS, The Trustees of the University of Pennsylvania, a Pennsylvania nonprofit corporation ("**Penn**") owns certain intellectual property comprising patents, patent applications and technology relating to [***], and certain other intellectual property comprising patents, patent applications and technology relating to [***], for all of which intellectual property mRNA RiboTherapeutics has a license from Penn pursuant to the Second Amended and Restated Patent License Agreement which became effective as of December 20, 2016 (the "**Penn License Agreement**"), including the right to sublicense all or any part of said rights to other parties, and under which

CELLSCRIPT, LLC ("**Cellscript**") also has rights pursuant to a patent sublicense agreement from mRNA RiboTherapeutics (the "**Cellscript Sublicense Agreement**"); and

WHEREAS, Company desires a sublicense from mRNA RiboTherapeutics under Patents Rights (as defined below) for diagnostic and prognostic uses in humans and non-human animals and for certain other uses pertaining thereto and mRNA RiboTherapeutics is willing to grant to Company a sublicense under Patents Rights for such uses under the terms and conditions herein;

NOW, THEREFORE, in consideration of the mutual obligations contained in this Agreement, and intending to be legally bound, the Parties agree as follows:

1. SUBLICENSE

1.1 Sublicense Grant. mRNA RiboTherapeutics hereby grants to Company and Company hereby accepts from mRNA RiboTherapeutics a worldwide, non-exclusive sublicense under the Patent Rights during the Term to make, have made, import, use, offer for sale, sell and/or have sold Licensed Products according to the terms and conditions herein: (1) in Field of Use B for all uses in the Diagnostic and Prognostic Field of Use that pertain to or are used in conjunction with products for therapeutic, prophylactic, cosmetic or other uses in or on humans or non-human animals in the *In Vivo* Field of Use in Field of Use B; and (2) in Field of Use A for research and screening uses, including pre-clinical research and screening comprising *ex vivo* uses in human or non-human animal cells or *in vivo* uses in animals, that pertain to and support research, development, manufacture, regulatory approval and commercialization of diagnostic and prognostic products used in conjunction with therapeutic, prophylactic, cosmetic, veterinary or other products for the *In Vivo* Field of Use in Field of Use B, as said terms are defined in Sections 1.2 and 6.1 herein (the "**Sublicense**"). The Sublicense includes the right for Company to grant sublicenses to its affiliates and Third Parties for all or any part of the rights and fields of use granted to Company, under terms that are consistent with this Agreement. No other rights or licenses are granted to Company hereunder by mRNA RiboTherapeutics; [***]

1.2 Related Definitions.

Whenever the words or terms "comprising," "containing," "having," "include," includes," "including," "such as," "for example," "an example," "examples," "e.g.," "for further clarification" or the like are used in this Agreement, they shall be understood to be followed by the words "without limitation" or "but without limitation". The terms "a," "an," and "the" and the use of such terms or nouns in definitions in either the singular or the plural are to be construed to cover both the singular and the plural unless otherwise noted.

"**Licensed Products**" means products that are made, made for, used, imported, offered for sale or sold by Company or its Affiliates or Third Party sublicensees and that, in the absence of a license to Patent Rights, (i) would infringe (or, in the case of pending patent applications, upon issuance, would infringe) at least one claim of the Patent Rights or (ii) use a process or machine covered by a claim of Patent Rights, whether the claim is issued or pending. For clarity, Licensed Products includes any method, procedure or process, the use of which by Company or its Affiliates or Third Party sublicensees, in the absence of a license to Patent Rights by the user, would infringe, induce to infringe or contribute to infringing one or more claims of Patent Rights whether the claim is issued or pending.

"**Exhibit A-1 Patent Rights**" means [***]

"**Exhibit A-2 Patent Rights**" means [***]

"**Patent Rights**" means Exhibit A-1 Patent Rights and/or Exhibit A-2 Patent Rights.

"**Affiliate**" means a legal entity that is controlling, controlled by or under common control with Company and that has executed either this Agreement, a sublicense for at least a portion of the rights granted to Company under this Agreement, or a written joinder agreement agreeing to be bound by all of the terms and conditions of this Agreement. The uncapitalized term "**affiliate**" means, with respect to a first legal entity, any other legal entity that is controlling, controlled by or under common control with said first legal entity. For purposes of the definitions of "Affiliate" and "affiliate" herein, the word "**control**" means (x) the direct or indirect ownership of fifty percent (50%) or more of the outstanding voting securities of a legal entity, (y) the right to receive fifty percent (50%) or more of the profits or earnings of a legal entity, or (z) the right to determine the policy decisions of a legal entity.

"**Field of Use A**" means and is limited to internal laboratory research or screening [***]. For clarity, Field of Use A includes laboratory research use in animals or human or animal cells, living or dead, from any source, including for pre-clinical laboratory research in laboratory animals or cultured human or non-human animal cells for the purpose of generating data and information prior to use in clinical trials for a use that requires approval by the FDA or another regulatory organization. For further clarity, a party that has a sublicense in Field of Use A pertaining to sublicensed therapeutic or prophylactic or diagnostic or prognostic products in Field of Use B shall have the right under Patent Rights to perform pre-clinical research in Field of Use A comprising *in vivo* uses in non-human animals or *ex vivo* uses in human or non-human animal cells in order to obtain data and information to support pre-clinical development of such therapeutic or prophylactic or diagnostic or prognostic products.

[***]

"**Field of Use B**" means the field other than Field of Use A and includes but is not limited to therapeutic, prophylactic, diagnostic, prognostic and cosmetic uses in humans and agricultural, animal improvement and veterinary uses in animals. For clarity, Field of Use B includes any and all fields of use, including the *In Vivo* Field of Use and *Ex Vivo* Field of Use, other than for Field of Use A.

"**Fields of Use**" means Field of Use A and Field of Use B.

"***Ex Vivo* Field of Use**" is a subfield of Field of Use A or Field of Use B wherein a product or method that is covered by Patent Rights is used in cells, tissues or organs that are *ex vivo* or outside of a living human or animal body or organism, whether those cells, tissues or organs are subsequently used only *ex vivo*, such as in culture, or are subsequently introduced into, used in or administered or applied to or on a living body or organism. [***]

"***In Vivo* Field of Use**" is a subfield of Field of Use A or Field of Use B wherein a product or method that is covered by Patent Rights is used *in vivo*, [***]

"**Diagnostic and Prognostic Field of Use**" is a subfield of use within Field of Use B wherein a product or service covered by Patent Rights is used for diagnosis, prognosis or testing of a human or non-human animal or a sample therefrom in order to detect, identify, determine a cause, evaluate, analyze, understand, predict, rule in, or rule out a medical condition or disease or to predict an effect or response to treatment, and/or to monitor the effect of a treatment of such medical condition or disease. [***]

"**Veterinary Product**" means a product that is covered by Patent Rights which is used for the care, treatment, breeding or use of livestock or companion animals.

"**Third Party**" means any person, corporation, partnership, association, consortium or business, legal or governmental entity other than Penn, mRNA RiboTherapeutics, Company or any of their respective affiliates.

1.3 Reservation of Rights by Penn. Penn reserves the right to use, and to permit other non-commercial entities to use, the Patent Rights for educational and non-commercial research purposes.

1.4 U.S. Government Rights. The Parties acknowledge that the United States government retains rights in intellectual property funded under any grant or similar contract with a Federal agency. The License is expressly subject to all applicable United States government rights, including, but not limited to, any applicable requirement that products, which result from such intellectual property and are sold in the United States, must be substantially manufactured in the United States. To the extent any such U.S. manufacturing requirements apply, mRNA RiboTherapeutics shall, upon request of Company, use commercially reasonable efforts to cause Penn to seek a waiver from the United States government for Company in respect of such U.S. manufacturing requirements.

1.5 Sublicense Conditions. Company's right to extend any or all of the rights granted to Company by mRNA RiboTherapeutics via a sublicense to affiliates or Third Parties is subject to each of the following conditions:

1.5.1 Company will have the right to grant further sublicenses to its affiliates and to Third Parties ("**sub-sublicensees**") that permit multiple levels of sublicensing, including in Third Party sub-sublicenses that permit further levels of sublicensing (e.g., to "sub-sub-sublicensees"). In each further sub-sublicense agreement to an affiliate or Third Party, Company will require the sub-sublicensee to comply with terms and conditions that are consistent with this Agreement, and in each agreement for further sublicensing (e.g., by a sub-sublicensee of Company to a sub-sub-sublicensee), the party granting the further sublicense will require the party receiving the further sublicense to comply with terms and conditions that are consistent with its sub-sublicense agreement from Company. Except when used to clarify the meaning of the different terms in this Section 1.5.1, the term sublicense in this Agreement includes any permitted sub-sublicense, sub-sub-sublicense, etc. and the term sublicensee includes any permitted sub-sublicensee, sub-sub-sublicensee, etc.

1.5.2 Within [***] days after Company enters into a sublicense agreement, Company will deliver to mRNA RiboTherapeutics a complete and accurate copy of the entire sublicense agreement written in the English language, provided that Company will have the right to redact the terms and conditions of such sublicense agreement that are not necessary for mRNA RiboTherapeutics to confirm compliance with all terms and conditions required under this Sublicense, including Section 1.5 hereof. mRNA RiboTherapeutics' receipt of the sublicense agreement will not constitute a waiver of any right or obligation of mRNA RiboTherapeutics or of Company under this Agreement.

1.5.3 In the event that Company causes or experiences a Trigger Event (as defined in Section 6.4), to the extent permissible by law, all payments due to Company from its direct sublicensees pursuant to a sublicense to this Agreement that are payable by Company to Cellscript hereunder, including milestone payments and royalty payments, will, upon notice from mRNA RiboTherapeutics to such sublicensees, become payable directly to mRNA RiboTherapeutics for the account of Company. Upon receipt of any such funds, mRNA RiboTherapeutics will remit to Penn the amounts owed to Penn and will remit to Company the amount (if any) by which such payments from such sublicensees exceed the amounts owed by Company to mRNA RiboTherapeutics. Still further, in the event that mRNA RiboTherapeutics causes or experiences a trigger event according to the terms of the Penn License Agreement, Company agrees that, upon notification from Penn, Company will remit to Penn all amounts payable by Company to mRNA RiboTherapeutics under this Agreement (including but not limited to all milestone payments and royalty payments) for the account of mRNA RiboTherapeutics.

1.5.4 Company's execution of a sublicense agreement will not relieve Company of any of its obligations under this Agreement. Company is primarily liable to mRNA RiboTherapeutics for any act or omission of a sublicensee that would be a breach of this Agreement if performed or omitted by Company, and Company will be deemed to be in breach of this Agreement as a result of such act or omission. Upon learning of any such breach of this Agreement due to an act or omission of a sublicensee of Company, Company will immediately take appropriate actions to stop such act or omission, including termination of the sublicense by Company. Provided that Company takes such appropriate actions and stops such act or omission, a breach by said sublicensee shall not be considered a breach by Company that will be considered a cause for termination of this Agreement under Section 6.3.

1.5.5 A sublicense granted by the Company or a further sublicensee thereof will not be assignable or transferable by said sublicensee or further sublicensee thereof without the prior written consent of mRNA RiboTherapeutics, except to an affiliate of the sublicensee of Company or an affiliate of said further sublicensee thereof, or to a Third Party company that: (i) can demonstrate based on reliable financial information that it has all technical knowledge, capabilities and/or financial resources needed to perform in all respects in the place and stead of said sublicensee or further sublicensee thereof; (ii) agrees to assume all duties and responsibilities under the sublicense; (iii) warrants that it will invest an amount of money that Company agrees is sufficient to develop and/or commercialize the sublicensed Licensed Product(s); (iv) purchases more than fifty percent (50%) of all of the sublicensee's or the further sublicensee's shares or assets to which the sublicense pertains; and (v) agrees in writing to be bound by all of the terms and conditions of the sublicense and a copy of such written undertaking is promptly provided to Company, which will provide a copy to mRNA RiboTherapeutics, which, in turn, will provide a copy to Penn as required in the Penn License Agreement.

1.6 No License by Implication. Nothing in this Agreement confers by estoppel implication or otherwise, any license or rights under any Penn patent other than rights under a patent included in the Patent Rights, regardless whether such patents are dominant or subordinate to the Patent Rights.

1.7 Relation of this Agreement to the Sublicense Agreement from Cellscript. **C**oncurrent with the execution of this Agreement, Company is entering into a separate sublicense agreement with Cellscript (the "**Sublicense Agreement from Cellscript**"), pursuant to which Cellscript is granting Company a sublicense under Patent Rights with respect to certain fields of use that are different from and are not included within the scope of the Sublicense granted to Company in this Agreement.

2 DILIGENCE

2.1 Development Plan and Sublicense Disclosure Report. By [***] and by [***] of every calendar year thereafter that encompasses the Term, Company will deliver to mRNA RiboTherapeutics: (1) a copy of an annual development plan, including a projected timeline, for the Patent Rights and a summary of material development efforts for Licensed Products since the last development plan ("**Development Plan**"); and [***], certified as correct by the accounting services manager or chief financial officer, that includes all additional information as listed on Exhibit B for the period since the last SDR.

2.2 Company's Efforts. Company will use commercially reasonable efforts to develop, commercialize, market and sell Licensed Products in the sublicensed Fields of Use in a manner consistent with the Development Plan. In addition to Company's own efforts to develop, commercialize, market and sell Licensed Products, the efforts of other parties, including Affiliates, Third Party sublicensees, contractors, Third Parties funded by Company under a research or service agreement, and distributors, will also be deemed as efforts of Company.

[*Remainder of page left blank*]

3 FEES AND ROYALTIES

3.1 Sublicense Grant Fees. In partial consideration for the Sublicense, Company will pay to mRNA RiboTherapeutics: (i) [***] and (ii) [***]

3.2 Sublicense Maintenance Fees. In partial consideration of the Sublicense, Company will pay to mRNA RiboTherapeutics [***] on each anniversary of the Effective Date until the date of first Sale of the first Licensed Product in Field of Use B, regardless of whether the Sale is achieved by Company, mRNA RiboTherapeutics, or an affiliate or sublicensee of any of the foregoing. For clarity, the next annual sublicense maintenance fee under this Agreement is payable to mRNA RiboTherapeutics on July 1, 2018 if no Sale of a Licensed Product in Field of Use B occurs prior to July 1, 2018.

3.3 Milestone Payments. In partial consideration of the Sublicense, Company will pay to mRNA RiboTherapeutics the applicable milestone payment listed in Table D in this Section 3.3 the first time after achieving each milestone event for each Licensed Product in Field of Use B, regardless of whether the milestone is achieved by Company or an Affiliate or Third Party sublicensee. Company will provide mRNA RiboTherapeutics with written notice within [***] days after each milestone is achieved by Company or a sublicensee and Company will pay to mRNA RiboTherapeutics all applicable milestone payments owed therefor within [***] days of the end of the calendar quarter in which the milestone event is achieved. For clarity, each time a milestone is achieved with respect to a Licensed Product, then any other milestone payments with respect to earlier milestones that have not yet been paid will be due and payable together with the milestone payment that is actually achieved.

Section 3.3 Table D
MILESTONES for each Licensed Product that is
a Diagnostic, Prognostic or Other Medical Device Product

[***]

3.4 Earned Royalties. In partial consideration of the Sublicense, Company will pay to mRNA RiboTherapeutics royalties on Net Sales of Licensed Products in the sublicensed Fields of Use as stated below.

3.4.1 Earned Royalties on Licensed Products in Field of Use A. In partial consideration of the Sublicense, Company will pay to mRNA RiboTherapeutics a [***] royalty on Net Sales of Licensed Products by Company or its Affiliates or Third Party sublicensees for use in [***]. For clarity, Company and its Affiliates or Third Party sublicensees shall only have the right to sell Licensed Products for use in Field of Use A to Third Parties that have either a sublicense from or a contract with Company or an Affiliate or Third Party sublicensee to research, develop, test, evaluate, screen, manufacture and/or commercialize a Licensed Product for diagnostic or prognostic use pertaining to a therapeutic, prophylactic or other product for humans or non-human animals in the *In Vivo* Field of Use in Field of Use B.

3.4.2 Earned Royalties on Licensed Products for the Diagnostic and Prognostic Use in Field of Use B. In partial consideration of the Sublicense, Company will pay to mRNA RiboTherapeutics a [***] royalty on Net Sales of Licensed Products for [***] for the *In Vivo* Field of Use in Field of Use B during the Quarter. For the avoidance of doubt, if Company or its Affiliates or Third Party sublicensees grant sublicenses to sell Licensed Products for such a diagnostic or prognostic use in Field of Use B, Company will pay to mRNA RiboTherapeutics [***]

3.4.3 Royalty Reduction. If Company or an Affiliate or Third Party sublicensee of Company is obligated to pay Third Party Royalties (defined below) for a Licensed Product in Field of Use B, then Company may deduct [***] of such Third Party Royalties from any royalties on Net Sales in Field of Use B due to mRNA RiboTherapeutics under Section 3.4.2 of this Agreement, provided that:

(a) On an ongoing basis and prior to reduction of any royalty on Net Sales for a given calendar quarter, Company first provides written evidence to mRNA RiboTherapeutics of Company's or applicable sublicensee's obligation to pay such Third Party Royalties; and

(b) In no event shall royalties on Net Sales due to mRNA RiboTherapeutics in any reporting period be so reduced to less than [***] for Licensed Products in Field of Use B.

"**Third Party Royalties**" means any royalty obligation [***] that Company or its Affiliates or a Third Party sublicensee owes to one or more other parties pursuant to one or more licenses for patent rights comprising [***] and that are determined to be necessary to avoid infringement-related litigation with respect to the manufacture, use or sale of any Licensed Product.

3.5 Related Definitions.

3.5.1 The term "**Sale**" means any bona fide transaction for which consideration is received or expected by Company or its Affiliates or Third Party sublicensees for the sale, use, lease, transfer or other disposition of a Licensed Product to a Third Party. A Sale is deemed completed at the time that Company or an Affiliate or Third Party sublicensee invoices, ships or receives payment for a Licensed Product, whichever occurs first.

3.5.2 The term "**Quarter**" means each three-month period beginning on the first day of January, April, July or October.

3.5.3 The term "**Net Sales**" means the consideration received or expected from, or the fair market value attributable to, each Sale, less Qualifying Costs that are directly attributable to a Sale, specifically identified on an invoice or other documentation and actually borne by Company or its Affiliates or Third Party sublicensees. For purposes of determining Net Sales, the words "fair market value" mean the cash consideration that Company or its Affiliates or Third Party sublicensees would realize from an unrelated buyer in an arm's length sale of an identical item sold in the same quantity and at the time and place of the transaction.

3.5.4 The term "**Qualifying Costs**" means: (a) credits or refunds for claims or returns that do not exceed the original invoice amount; (b) prepaid outbound transportation expenses and transportation insurance premiums; and (c) sales and use taxes and other fees imposed by and indefeasibly paid to a governmental agency.

3.6 Minimum Royalties. In partial consideration of the Sublicense, [***], Company will pay to mRNA RiboTherapeutics the amount, if any, by which the applicable minimum royalties listed in the tables below exceed Company's actual earned royalties under Section 3.4 for each Quarter after the first Sale of a Licensed Product by Company or its Affiliates or Third Party sublicensees in the applicable Categories. The minimum royalties are divided into two Categories and outlined in the tables below and are tiered, cumulative and individually payable after first Sale of Licensed Product in each of the two respective Categories. For clarity, the highest minimum royalty owed by Company to mRNA RiboTherapeutics under this Agreement would be [***]. For additional clarification, Company is not obligated to pay minimum royalties to mRNA RiboTherapeutics on Category 1 Licensed Products until after the first Sale of a Licensed Product in Field of Use A by Company or its Affiliates or Third Party sublicensees, and Company is not obligated to pay minimum royalties to mRNA RiboTherapeutics on a Category 3 Licensed Product until after the first Sale of Licensed Product in Field of Use B by Company or its Affiliates or Third Party sublicensees in the Diagnostic and Prognostic Field of Use.

MINIMUM:	]	]

4 REPORTS AND PAYMENTS

4.1 Royalty Reports. Within [***] days after the end of each Quarter following the first Sale, Company will deliver to mRNA RiboTherapeutics a report, certified as accurate by the accounting services manager or chief financial officer of Company, detailing the calculation of all royalties, fees and other payments due to mRNA RiboTherapeutics for such Quarter. The report will include, at a minimum, the following information for the Quarter, each listed by product, by country: [***]

4.2 Payments. Company will pay all royalties, fees and other payments due to mRNA RiboTherapeutics under Sections 3.3, 3.4 and 3.6 within [***] days after the end of the Quarter in which the royalties, fees or other payments accrued. mRNA RiboTherapeutics agrees that it will pay to Penn all royalties, fees and other payments due to Penn according to and within the time periods required by the Penn License Agreement. For clarity, only one royalty will be due with respect to the Sale of the same unit of Licensed Product.

4.3 Records. Company will maintain, and will cause its Affiliates and Third Party sublicensees to maintain, complete and accurate books, records and related background information to verify Sales, Net Sales, and all of the royalties, fees, and other payments due or paid under this Agreement, as well as the various computations reported under Section 4.1. The records for each Quarter will be maintained for at least [***] years after submission of the applicable report required for Section 4.1.

4.4 Audit Rights. Upon reasonable prior written notice to Company, Company and its Affiliates and Third Party sublicensees will provide Penn and its accountants (or mRNA RiboTherapeutics and its accountants in the event that mRNA RiboTherapeutics is Penn's designated auditor) with access to all of the books, records, key personnel and related background information required by Section 4.3 to conduct a review or audit of Sales, Net Sales, and all of the royalties, fees, and other payments payable under this Agreement. Access will be made available: (a) during normal business hours; (b) in a manner reasonably designed to facilitate such accountant's review or audit without unreasonable disruption to Company's business; and (c) no more than once each calendar year during the Term (as defined below) and for a period of [***] years thereafter. Company will promptly pay to mRNA RiboTherapeutics the amount of any underpayment determined by the review or audit, plus accrued interest. If the review or audit determines that Company has underpaid any payment by [***] or more, then Company will also promptly pay the costs and expenses of the auditing party's accountants in connection with the review or audit. In addition, once annual Sales of Licensed Products exceed [***], Company will conduct, at least once every [***] years at its own expense, an independent audit of Sales, Net Sales, and all of the royalties, fees, and other payments due or paid under this Agreement. Promptly after completion of the audit, Company will provide to mRNA RiboTherapeutics a copy of the report of the independent auditors along with any underpayments and interest thereon.

4.5 Currency. All dollar amounts referred to in this Agreement are expressed in United States dollars. All payments will be made in United States dollars. If Company receives payment from a sublicensee in a currency other than United States dollars for which a royalty or fee is owed under this Agreement, then (a) the payment will be converted into United States dollars at the conversion rate for the foreign currency as published in the eastern edition of the Wall Street Journal as of the last business day of the Quarter in which the payment was received by Company, and (b) the conversion computation will be documented by Company in the applicable report delivered to mRNA RiboTherapeutics under Section 4.1.

4.6 Place of Payment. All payments by Company to "mRNA RiboTherapeutics, Inc." and will be made to the following addresses:

[***]

(Payment should include the necessary amount to cover Sender's bank wire fees)

4.7 Interest. All amounts that are not paid by Company when due will accrue interest from the date due until paid at a rate equal to [***] (or the maximum allowed by law, if less).

5 CONFIDENTIALITY AND USE OF NAMES

5.1 Confidentiality. Each Party agrees that it will not, under this Agreement, provide to the other Party or its affiliates any Confidential Information of such Party unless (i) such Party has first identified the general nature of such Confidential Information to such other Party in writing and such other Party has affirmatively agreed in writing to receive such Confidential Information, or (ii) such other Party has specifically requested such Confidential Information in writing. For clarity, any such consent or request issued by email or other written electronic means shall satisfy the foregoing "writing" requirements. Any Confidential Information disclosed by a Party to the other Party other than in accordance with this Section 5.1 will be deemed not to be Confidential Information of such Party. Notwithstanding the foregoing, mRNA RiboTherapeutics is obligated to accept and treat as confidential any Confidential Information disclosed by Company in the reports or notices required by Sections 2.1, 2.3, 3.3, 3.4.3(a), 4.1, 4.4, 4.5, 4.6 and 6.6, which information Company agrees mRNA RiboTherapeutics may disclose to Penn without the prior written consent of Company.

5.2 Confidential Information. Each Party ("**Disclosing Party**") may disclose to the other Party ("**Receiving Party**"), and Receiving Party may acquire during the course and conduct of activities under the Agreement, certain proprietary or confidential information of Disclosing Party in connection with this Agreement. The term "Confidential Information" shall mean all ideas and information of any kind, whether in written, oral, graphical, machine-readable or other form, whether or not marked as confidential or proprietary, which are transferred, disclosed or made available by Disclosing Party in accordance with Section 5.1.

5.3 Restrictions. During the Term and for **[***]** years thereafter, Receiving Party shall keep all Disclosing Party's Confidential Information in confidence with the same degree of care with which Receiving Party holds its own confidential information. Receiving Party shall not use Disclosing Party's Confidential Information except in connection with the performance of its obligations and exercise of its rights under this Agreement. Receiving Party has the right to disclose Disclosing Party's Confidential Information without Disclosing Party's prior written consent, to the extent and only to the extent reasonably necessary, to Receiving Party's affiliates and their employees, subcontractors, consultants or agents who have a need to know such

Confidential Information in order to perform Receiving Party's obligations or exercise Receiving Party's rights under this Agreement, provided said affiliates and their employees, subcontractors, consultants or agents are required to comply with a written confidentiality agreement having restrictions on use and disclosure of Disclosing Party's Confidential Information which are no less stringent than those in this Section 5.3. Receiving Party assumes responsibility for compliance with such restrictions by its affiliates and their employees, subcontractors, consultants or agents.

5.4 Exceptions. Receiving Party's obligation of nondisclosure and the limitations upon the right to use the Disclosing Party's Confidential Information shall not apply to the extent that Receiving Party can demonstrate, as evidenced by contemporaneous written records, that the Disclosing Party's information: (i) was known to Receiving Party or any of its affiliates prior to the time of disclosure; (ii) is or becomes public knowledge through no fault or omission of Receiving Party or any of its affiliates; (iii) is obtained by Receiving Party or any of its affiliates from a Third Party under no obligation of confidentiality to Disclosing Party; (iv) has been independently developed by employees, subcontractors, consultants or agents of Receiving Party or any of its affiliates without the aid, application or use of Disclosing Party's Confidential Information or (v) is not Confidential Information under Section 5.1.

5.5 Permitted Disclosures. Receiving Party may disclose Disclosing Party's Confidential Information to the extent (and only to the extent) such disclosure is reasonably necessary in the following instances:

5.5.1 in order to comply with applicable law (including any securities law or regulation or the rules of a securities exchange) or with a legal or administrative proceeding;

5.5.2 in connection with prosecuting or defending litigation, regulatory approvals and other regulatory filings and communications, and filing, prosecuting and enforcing Patents in connection with Receiving Party's rights and obligations pursuant to this Agreement; and

5.5.3 in connection with exercising its rights hereunder, to its affiliates; to potential and future collaborators and sublicensees; permitted acquirers or assignees; and investment bankers, investors and lenders, except that, mRNA RiboTherapeutics will obtain the prior written consent of Company before disclosing any information disclosed to mRNA RiboTherapeutics pursuant to Sections 2.1, 2.3, 3.3, 3.4.3(a), 4.1, 4.4, 4.6 and 6.6;

provided that (1) with respect to Sections 5.5.1 or 5.5.2, where reasonably possible, Receiving Party shall notify Disclosing Party of Receiving Party's intent to make any disclosure pursuant thereto sufficiently prior to making such disclosure so as to allow Disclosing Party adequate time to take whatever action it may deem appropriate to protect the confidentiality of the information to be disclosed, and (2) with respect to Section 5.5.3, each of those named people and entities are required to comply with the restrictions on use and disclosure in Section 5.3 (other than investment bankers, investors and lenders, which must be bound prior to disclosure by commercially reasonable obligations of confidentiality).

5.6 Terms of this Agreement. The Parties agree that the terms of this Agreement shall be treated as Confidential Information of both Parties, and thus may be disclosed only as permitted by Section 5.5. Each Party agrees not to issue any press release or public statement disclosing information relating to this Agreement or the terms hereof without the prior written consent of the other Party not to be unreasonably withheld.

5.7 Relationship to the Confidentiality Agreement. This Agreement is in addition to a certain "Confidentiality Agreement" between the Parties dated December 7, 2015, as amended and extended on December 1, 2016, and (a) all "Confidential Information" as defined therein that was disclosed or received by the Parties prior to the Effective Date shall continue to be subject to the terms and conditions of the Confidentiality Agreement and (b) all Confidential Information disclosed or received by the Parties following the Effective Date shall be subject to the terms and conditions of this Agreement. For the avoidance of doubt, all other confidentiality agreements concluded between mRNA RiboTherapeutics and Company prior to the Effective Date of this Agreement shall be superseded by this Agreement.

5.8 Use of Penn's, mRNA RiboTherapeutics' or Company's Name. Company and its Affiliates, Third Party sublicensees, employees, and agents are not granted any rights hereunder to use the name, logo, seal, trademark, or service mark (including any adaptation of them) of Penn or any Penn school, or their respective organizations, employees, students or representatives, without the prior written consent of Penn. Except to the extent permitted pursuant to this Article 5, neither Party shall have any right, express or implied, to use in any manner the name or other designation of the other Party or any other trade name or trademark of the other Party for any Purpose, except as may be required by applicable law or regulation.

6 TERM AND TERMINATION

6.1 Term. This Agreement will commence on the Effective Date and terminate upon the expiration or abandonment of the last patent to expire or become abandoned of the Patent Rights (the "**Term**").

6.2 Early Termination by Company. Company may terminate this Agreement at any time effective upon completion of each of the following conditions: (a) providing at least [***] days prior written notice to mRNA RiboTherapeutics of such intention to terminate; (b) ceasing to make, have made, use, import, offer for sale and sell all Licensed Products; (c) providing documentation stating that all sublicenses granted by Company which are still in force at the date of termination can be assigned to mRNA RiboTherapeutics and working with mRNA RiboTherapeutics to assign or terminate such sublicenses based on the specific circumstances related thereto; and (d) paying all amounts owed to mRNA RiboTherapeutics under this Agreement through the effective date of termination. For clarity, Company may individually terminate either the Sublicense to Exhibit A-1 Patent Rights or the Sublicense to Exhibit A-2 Patent Rights provided that each of the conditions stipulated in Section 6.2 is met with respect to the Patent Rights terminated from the Sublicense. [***]

6.3 Early Termination by mRNA RiboTherapeutics. mRNA RiboTherapeutics may, to the extent permissible by law, terminate this Agreement if: (a) Company is more than [***] late in paying to mRNA RiboTherapeutics any amounts owed under this Agreement and does not pay mRNA RiboTherapeutics in full, including accrued interest, within [***] days after receiving written notice of the breach from mRNA RiboTherapeutics (a "**Payment Default**"); or (b) other than a Payment Default, Company materially breaches this Agreement and Company does not cure the breach [***] days after receiving written notice of the breach from mRNA RiboTherapeutics; or (c) Company causes or experiences a Trigger Event, or an Affiliate or Third Party sublicensee of Company commences or causes a Patent Challenge (as defined Section in 6.4 below) and Company does not terminate the sublicense or cause the Patent Challenge to be terminated prior to or promptly upon learning of said Patent Challenge. It is understood that, with respect to both of (a) and (b), Company is also responsible for its Affiliates and Third Parties sublicensees.

6.4 Trigger Event. The term "**Trigger Event**" means any of the following: (a) Company (i) becomes insolvent, bankrupt or generally fails to pay its debts as such debts become due, (ii) is adjudicated insolvent or bankrupt, (iii) admits in writing its inability to pay its debts, (iv) suffers the appointment of a custodian, receiver or trustee for its assets and, if appointed without its consent, not discharged [***], (v) makes an assignment of its assets for the benefit of creditors, or (vi) suffers proceedings being instituted against it under any law related to bankruptcy, insolvency, dissolution, liquidation or the reorganization, readjustment or release of multiple debtors and, if contested by it, not dismissed or stayed within [***]; (b) the institution or commencement by Company of any proceeding under any law related to bankruptcy, insolvency, liquidation or the reorganization, readjustment or release of multiple debtors; (c) the entering of any order for relief relating to any of the proceedings described in Section 6.4(a) or (b) above; (d) the calling by Company of a meeting of multiple creditors with a view to arranging a composition of adjustment of its debts; (e) the act or failure to act by Company that results in its consent to, approval of, or acquiescence in any of the proceedings described in Section 6.4(a)—(d) above; or (f) the commencement by Company or an Affiliate or Third Party sublicensee of Company of any action against Penn to declare or render invalid or unenforceable the Patent Rights or any claim thereof, including but not limited to an action for declaratory judgment (a "**Patent Challenge**").

6.5 Effect of Termination.

6.5.1 Effect of Termination Except under Section 6.2 Upon the termination of this Agreement prior to expiration of the Term for any reason except pursuant to Section 6.2: (a) the Sublicense to the Patent Rights will terminate; (b) Company and all its Affiliates will cease all making, having made, using, importing, offering for sale and selling of all Licensed Products with respect to Patent Rights under the Sublicense, except to the extent permitted by Section 6.5.1(f) and Section 6.6; (c) Company will pay to mRNA RiboTherapeutics all amounts, including accrued interest, owed to mRNA RiboTherapeutics under this Agreement through the date of termination, including royalties on Licensed Products invoiced or shipped through the date of termination and any sell off period permitted by Section 6.6, whether or not payment is received prior to termination or expiration of the sell off period permitted by Section 6.6; (d) Company will, at mRNA RiboTherapeutics' request, return to mRNA RiboTherapeutics all Confidential Information of mRNA RiboTherapeutics (if any) related to exploitation of Patent Rights and provide to mRNA RiboTherapeutics one summary of all work related thereto for Licensed Products generated by Company during the Term in order to facilitate the further development of the technology licensed under this Agreement; (e) in the case of termination under Section 6.3, all duties of mRNA RiboTherapeutics and all rights (but not duties) of Company under this Agreement immediately terminate without further action required by either mRNA RiboTherapeutics or Company; and (f) all outstanding Third Party sublicenses, to the extent each is not in default, will be assigned by Company to mRNA RiboTherapeutics, such assignment, will be accepted by mRNA RiboTherapeutics and each Third Party sublicense agreement will remain in full force and effect with mRNA RiboTherapeutics as the sublicensor instead of Company, but the duties and obligations of mRNA RiboTherapeutics under the assigned sublicense agreements will not be greater than the duties of mRNA RiboTherapeutics under this Agreement and the rights of mRNA RiboTherapeutics under the assigned sublicenses will not be less than those of mRNA RiboTherapeutics under this Agreement, including all financial consideration and other rights of mRNA RiboTherapeutics and mRNA RiboTherapeutics may, at its sole discretion, amend such assigned agreements to contain terms and conditions found in this Agreement. [***]

6.5.2 Effect of Termination under Section 6.2. Upon the termination of this Agreement under Section 6.2: (a) the Sublicense to Company and all further sublicenses to Affiliates and Third Parties terminate (except to the extent that said Third Party sublicenses become direct sublicenses of mRNA RiboTherapeutics pursuant to Section 6.5.2(e)); (b) Company, its Affiliates and Third Party sublicensees will cease all making, having made, using, importing, offering for sale and

selling all Licensed Products under the Sublicense, except to the extent permitted pursuant to Section 6.5.2(e) and Section 6.6; (c) Company will pay to mRNA RiboTherapeutics all amounts, including accrued interest, owed to mRNA RiboTherapeutics under this Agreement through the date of termination, including royalties on Licensed Products invoiced or shipped through the date of termination and any sell off period permitted by Section 6.6, whether or not payment is received prior to termination or expiration of the sell off period permitted by Section 6.6, and (d) Company will, at mRNA RiboTherapeutics' request, return to mRNA RiboTherapeutics all confidential information of mRNA RiboTherapeutics; and (e) all outstanding sublicenses of Company to Third Parties and all outstanding sublicenses of Company's Affiliates to Third Parties, to the extent each is not in default, will be assigned by Company or its Affiliates to mRNA RiboTherapeutics (and Company will contractually obligate its Affiliates to make or cause such assignments), and each such assigned sublicense agreement will remain in full force and effect (including for Exhibit A-1 Patent Rights and Exhibit A-2 Patent Rights) with mRNA RiboTherapeutics as the sublicensor instead of Company, but the duties and obligations of mRNA RiboTherapeutics under the assigned sublicense agreements will not be greater than the duties and obligations of Company under this Agreement, and the rights of mRNA RiboTherapeutics under the assigned sublicense agreements will not be less than the rights of Company under this Agreement, including all financial consideration and other rights of Company. mRNA RiboTherapeutics may, at its sole discretion, amend such assigned sublicense agreements to contain financial or other terms and conditions found in this Agreement (excluding payment obligations which have already been satisfied by Company).

6.6 Inventory & Sell Off. Subject to the remainder of this Section 6.6, upon the termination of this Agreement for any reason, Company will: (1) cause physical inventories to be taken immediately of (a) all completed Licensed Products on hand under the control of Company and its Affiliates and Third Party sublicensees and (b) such Licensed Products as are in the process of manufacture and any component parts on the date of termination of this Agreement; (2) deliver promptly to mRNA RiboTherapeutics a copy of said written inventory, certified by an officer of Company; (3) promptly remove, efface or destroy or require or cause to be removed, effaced or destroyed all references to Penn and mRNA RiboTherapeutics from any advertising, labels, web sites or other materials used in the promotion of the business of Company or its Affiliates or Third Party sublicensees; and (4) not represent in any manner that it has rights in or to the Patent Rights or the Licensed Products under this Sublicense and cause its Affiliates and Third Party sublicensees not to represent that they have any rights in or to the Patent Rights or the Licensed Products. Subject to this Section 6.6, Company and its Affiliates and Third Party sublicensees may sell off its inventory of Licensed Products existing on the date of termination for a period of [***] months and pay mRNA RiboTherapeutics royalties on Sales of such inventory within [***] days following the expiration of such [***] month period. Notwithstanding the foregoing: (i) Company's obligations under this Section 6.6 will not apply to the Sublicense or to Company's sublicense agreements if the Sublicense is assigned to Penn pursuant to Section 6.5.1; and (ii) the obligations of each of Company's sublicensees pursuant to this Section 6.6 will not apply to Company's or its Affiliates' or Third Party sublicensees' sublicense agreements that are assigned to mRNA RiboTherapeutics pursuant to Sections 6.5.1(f) or 6.5.2(e).

6.7 Survival. Company's obligation to pay all amounts, including accrued interest, owed to mRNA RiboTherapeutics under this Agreement will survive the termination of this Agreement for any reason. Articles 5, 6, 11, 12 and 13 and Sections 4.1 (until all Licensed Products which have been manufactured during the Term have been Sold), 4.2, 4.3 (for the time period set forth therein for all Sales of Licensed Products which have been manufactured during the Term), 4.4 (for the time period set forth therein), 9.1.3 (for all amounts paid by Company to

mRNA RiboTherapeutics that are payable to Penn following termination), and 4.5-4.7, 9.1.7 and 9.2.3 will survive the termination of this Agreement in accordance with their respective terms. The Parties acknowledge and agree that the Sublicense is, for the purposes of section 365(n) of the U.S. Bankruptcy Code, a license to "intellectual property" as defined under Section 101 of the U.S. Bankruptcy Code. The Parties intend that all payments under Article 3 of this Agreement constitute "royalties" within the meaning of section 365(n) of the U.S. Bankruptcy Code.

7 PATENT PROSECUTION AND MAINTENANCE

7.1 Patent Control. Penn and mRNA RiboTherapeutics control the preparation, prosecution and maintenance of the Patent Rights and the selection of patent counsel, subject to the remainder of this Section 7.1. For purposes of this Article 7, the word "maintenance" includes any interference negotiations, claims, or proceedings, in any forum, brought by Penn, mRNA RiboTherapeutics, a Third Party, or the United States Patent and Trademark Office or any foreign equivalent pertaining to Patent Rights, and any requests by Penn or mRNA RiboTherapeutics that the United States Patent and Trademark Office or any foreign equivalent re-examine or reissue any patent in the Patent Rights. **[***]**

8 INFRINGEMENT

8.1 Control. As between Company and mRNA RiboTherapeutics, mRNA RiboTherapeutics shall have the exclusive right to initiate litigation with respect to infringement of the Patent Rights, [***] Subject to the terms of [***], mRNA RiboTherapeutics will provide Company and its counsel with reasonable opportunities to consult with mRNA RiboTherapeutics regarding the enforcement of Patent Rights. Subject to the foregoing, mRNA RiboTherapeutics will: (a) notify Company in writing prior to undertaking an enforcement action or initiating litigation with respect to infringement of any such Patent Rights; (b) provide Company with copies of drafts of substantive communications (including legal briefs or filings) intended to be made by mRNA RiboTherapeutics or its representatives reasonably in advance to permit Company to review and comment on such drafts and incorporate reasonable comments by Company thereon, (c) provide Company with copies of substantive communications made by the relevant infringer in connection with the infringement issue; and (d) take requests and comments made by Company in relation to the infringement issue into account and not unreasonably reject such requests or comments.

8.2 Cooperation. Subject to mRNA RiboTherapeutics' obligations pursuant to the terms and conditions of the Penn License Agreement, mRNA RiboTherapeutics will cooperate with Company on matters related to infringement in a reasonable and prudent manner, preferably without litigation. In any litigation under this Article 8, each Party, at the reasonable request and sole expense of the other Party, will provide reasonable cooperation to such other Party. This Article 8 will not be construed to require either Party to undertake any activities, including legal discovery, at the request of any Third Party, except as may be required by lawful process of a court of competent jurisdiction.

9 REPRESENTATIONS, WARRANTIES, COVENANTS AND DISCLAIMER OF WARRANTIES

9.1 Covenants of mRNA RiboTherapeutics. mRNA RiboTherapeutics covenants to Company that, during the Term:

9.1.1 mRNA RiboTherapeutics will not breach, and to the extent within its power, will ensure that its sublicensed affiliates do not cause a breach of, the Penn License Agreement in any manner that would result in Penn having the right to terminate the Penn License Agreement, and mRNA RiboTherapeutics will use diligent efforts to cure (or cause to be cured) any such breach of the Penn License Agreement by mRNA RiboTherapeutics or its affiliates or Third Party sublicensees.

9.1.2 Upon mRNA RiboTherapeutics learning of any breach of a sublicense agreement by any of its affiliate or Third Party sublicensees in any manner that would result in Penn having the right to terminate the Penn License Agreement, mRNA RiboTherapeutics will expeditiously take appropriate actions to stop such act or omission, up to and including termination of the applicable sublicense pursuant to the terms of the Penn License Agreement.

9.1.3 mRNA RiboTherapeutics will make all payments due under the Penn License Agreement, and make all required disclosures to Penn in connection therewith, in each case in a timely manner in accordance with the terms thereof.

9.1.4 Promptly following mRNA RiboTherapeutics' or any of its affiliates' receipt of any material written notice or correspondence about an issue pertaining to the Sublicense or to any matter that would reasonably be expected to adversely affect in any respect Company's rights under this Agreement, mRNA RiboTherapeutics will, to the extent permissible, furnish a copy of such notice or correspondence to Company, provided that mRNA RiboTherapeutics may redact portions of any such notice or correspondence that do not relate to or impact Company's rights hereunder.

9.1.5 mRNA RiboTherapeutics will promptly notify Company if mRNA RiboTherapeutics receives a notice from Penn of an intent to terminate the Penn License Agreement.

9.1.6 mRNA will not amend the Penn License Agreement in any way that would negatively affect the rights or obligations of Company under this Agreement.

9.1.7 mRNA RiboTherapeutics agrees that mRNA RiboTherapeutics and its affiliates will not sue, bring an action against, or otherwise assert any claim against Company or its Affiliates or Third Party sublicensees or their successors in ownership (to which this Agreement or a sublicense under this Agreement is assigned according to terms and conditions for assignment pursuant to Section 15.5 or Section 1.5.5 herein) for infringement of or misappropriation of any Patent Rights (as defined in Section 1.2) that are used by Company or its Affiliates or Third Party sublicensees or their successors in ownership in the Sublicensed Fields of Use, as Fields of Use in the Sublicensed Fields of Use are defined in Section 1.2. [***] This covenant shall terminate with the termination of this Agreement unless the termination is: (a) made under Section 6.3, and (b) within [***] days following Company's receipt of notice of termination under Section 6.3, is either: (i) resolved by Company and mRNA RiboTherapeutics in writing, or (ii) Company initiates a state or federal lawsuit contesting said termination ("Contested Termination"). In the event of a Contested Termination, this covenant shall continue to run during the [***] days, and if a lawsuit is initiated, until said state or federal court enters a final decision from which no appeal has been or can be taken.

9.2 Covenants of Company. Company covenants to mRNA RiboTherapeutics that, during the Term:

9.2.1 Upon Company learning of any breach of a sublicense agreement by any of its Affiliates or Third Party sublicensees in any manner that would result in Penn having the right to terminate the Penn License Agreement, Company will use diligent efforts to cure (or cause to be cured) any such breach, up to and including termination of the applicable sublicense, as stated in Section 1.5.4 of this Agreement.

9.2.2 Company will not breach this Agreement, and to the extent within its legal power, will ensure that its Affiliates do not breach or cause breach of any sublicense under this Agreement in any manner that would result in Penn having the right to terminate the Penn License Agreement, and Company will use diligent efforts to cure (or cause to be cured) any such breach of this Agreement by Company or any breach of any sublicense under this Agreement by its Affiliates or Third Party sublicensees.

9.2.3 Company will pay to mRNA RiboTherapeutics all payments due under this Agreement pursuant to Article 3 and in accordance with the terms in Articles 3 and Section 4.2 and will provide to mRNA RiboTherapeutics all information, reports and notices required in accordance with Sections 2.1, 2.3, 3.3, 3.4.3(a), 4.1, 4.4 and 6.6 and in the form of the sample report attached as Exhibit C, in each case in accordance with the time periods set forth therein.

9.2.4 Promptly following Company's or any of its Affiliates' receipt of any material written notice or correspondence pertaining to the Sublicense or to any matter that could reasonably be expected to adversely affect in any respect mRNA RiboTherapeutics' rights or obligations under this Agreement, Company will, to the extent permissible, furnish a copy of such notice or correspondence to mRNA RiboTherapeutics, provided that Company may redact portions of any such letter that do not relate to or impact mRNA RiboTherapeutics' rights hereunder.

9.3 Representations and Warranties of mRNA RiboTherapeutics. As of the Effective Date, mRNA RiboTherapeutics, on behalf of itself and its affiliates, hereby represents and warrants to Company that:

9.3.1 mRNA RiboTherapeutics has provided Company a true and correct redacted copy of the Penn License Agreement (including all exhibits and amendments thereto), and there are no other agreements, written or verbal, between Penn and mRNA RiboTherapeutics.

9.3.2 mRNA RiboTherapeutics has provided Company a true, correct redacted copy of the Cellscript Sublicense Agreement, and: (a) there are no other agreements between mRNA RiboTherapeutics and Cellscript relating to the Penn License Agreement or the Patent Rights; (b) neither mRNA RiboTherapeutics nor Cellscript has granted any other sublicenses under the Patent Rights with respect to Field of Use B; and (c) neither mRNA RiboTherapeutics nor Cellscript has made any agreements with any Third Party not to sue, or granted any liens or other rights or encumbrances in or to its rights in Patent Rights or the Penn License Agreement.

9.3.3 Since the date of the Penn License Agreement, neither mRNA RiboTherapeutics nor any of its affiliates has proposed to Penn, or received from Penn, any correspondence challenging the validity or enforceability of the Penn License Agreement or proposing to amend any provision of the Penn License Agreement.

9.3.4 mRNA RiboTherapeutics has not (a) breached or defaulted under any provision of the Penn License Agreement in any material respect or (b) received any written notice from Penn of any claims for indemnification pursuant to the Penn License Agreement.

9.3.5 To the knowledge of mRNA RiboTherapeutics, (a) there are no facts that would preclude Penn from having clear title to the Patent Rights, (b) there are no pending or threatened litigations, interferences, reexaminations, oppositions or like procedures involving any such Patent Rights and (c) all of the issued patents within the Patent Rights are valid and enforceable, are in full force and effect and have not lapsed, expired or otherwise terminated.

9.3.6 mRNA RiboTherapeutics believes the terms and conditions of this Agreement are fully consistent with the terms and conditions of the Penn License Agreement.

9.3.7 mRNA RiboTherapeutics has not received, and to mRNA RiboTherapeutics' knowledge, Penn has not received, any written notice of any claim by any person or entity challenging the license rights of mRNA RiboTherapeutics, or the ownership of or rights of Penn in and to the Patent Rights, or the validity or enforceability of the Patent Rights.

9.3.8 mRNA RiboTherapeutics does not own or have any licenses for any other patent rights other than Patent Rights.

9.3.9 The Fields of Use sublicensed to Company in this Agreement are distinct from and do not overlap with the fields of use granted to Company in the Sublicense Agreement from Cellscript, and any products researched, developed, manufactured and commercialized in fields of use granted under the Sublicense Agreement from Cellscript are subject only to the payment and other obligations of the Sublicense Agreement from Cellscript, and not under this Agreement.

9.3.10 mRNA RiboTherapeutics believes that the representations and warranties of mRNA RiboTherapeutics in this Agreement, do not, taken as a whole, (i) contain any untrue statement of a material fact; or (ii) omit to state any material fact necessary to make the statements or facts contained therein, in light of the circumstances under which they were made, not misleading. mRNA RiboTherapeutics has not knowingly withheld any information with respect to the Penn License Agreement or the Patent Rights that would reasonably be expected to be material to Company's decision to enter into this Agreement.

9.4 Representations and Warranties of Company. Company, on behalf of itself and its affiliates, hereby represents and warrants to mRNA RiboTherapeutics that, as of the Effective Date:

9.4.1 Company is duly organized and validly existing under the laws of the jurisdiction of its incorporation and has full corporate power and authority to enter into this Agreement.

9.4.2 Company is in good standing with all relevant governmental authorities.

9.4.3 Company has taken all corporate actions necessary to authorize the execution and delivery of this Agreement and the performance of its obligations under this Agreement.

9.4.4 The performance of the obligations of Company under this Agreement do not conflict with or constitute a default under its charter documents, any contractual obligation of Company or any court order.

9.4.5 Company and its attorneys and technical experts have reviewed the patents and patent applications comprising Patent Rights including both Exhibit A-1 Patent Rights and Exhibit A-2 Patent Rights that are listed in Exhibit A attached hereto.

9.4.6 Company has experience with and is familiar with the inventions covered by Patent Rights and understands the use, purpose and benefits thereof.

9.4.7 Company believes that the representations and warranties of Company in this Agreement, do not, taken as a whole, (i) contain any untrue statement of a material fact; or (ii) omit to state any material fact necessary to make the statements or facts contained therein, in light of the circumstances under which they were made, not misleading. Company has not knowingly withheld any information with respect to the any of Company's above statements that would reasonably be expected to be material to mRNA RiboTherapeutics' decision to enter into this Agreement.

[*Remainder of page left blank*]

9.5 Disclaimer of Warranties. EXCEPT AS SPECIFICALLY SET FORTH IN THIS ARTICLE 9, NO PARTY MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS OR SUFFICIENCY OF PATENT RIGHTS FOR A PARTICULAR PURPOSE, APPLICATION OR USE, NON-INFRINGEMENT, OR ANY OTHER STATUTORY WARRANTY.

10 ADDITIONAL TERMS REGARDING SUBLICENSING

10.1 Purpose of this Article. This Article 10 sets forth terms and conditions for further sublicensing by Primary Sublicensors in the Human *In Vivo* Therapeutics Field, wherein, for the purposes of this Article 10:

(a) "**sublicensing**" herein means any grant of a sublicense, covenant not to sue, or option for current or future rights under Patent Rights, and the noun "**sublicense**" herein means a document that grants such sublicense, covenant not to sue, or option for current or future rights under Patent Rights;

(b) "**Primary Sublicensors**" herein means (i) mRNA RiboTherapeutics, (ii) Cellscript, and (iii) any affiliate of (i) or (ii) that is granted a sublicense in the Human *In Vivo* Therapeutics Field; and

(c) "**Human *In Vivo* Therapeutics Field**" herein means any or all therapeutic and prophylactic use(s) in humans in the *In Vivo* Field of Use in Field of Use B.

For clarity and the absence of doubt, Article 10 shall not be interpreted in any way so as to limit, restrict or impose any terms or conditions on Primary Sublicensors' rights to grant sublicenses under Patent Rights to any party at any time for any Field of Use other than the Human *In Vivo* Therapeutics Field.

10.2 Human *In Vivo* Therapeutics Field Sublicenses. Subject to the rights of the Primary Sublicensors and their respective owners under Section 10.4, mRNA RiboTherapeutics and Company agree that, from the Effective Date **[***]**, mRNA RiboTherapeutics will not grant and will ensure that other Primary Sublicensors will not grant Human *In Vivo* Therapeutics Field Sublicenses, including this Sublicense, to **[***]**

"**Human *In Vivo* Therapeutics Field Sublicense**" means a sublicense to make, have made, use, import, offer for sale, sell and/or have sold any number of products covered by Patent Rights comprising or incorporating modified RNA for the Human *In Vivo* Therapeutics Field, but excluding Product Sublicenses.

10.3 Product Sublicenses. Subject to the rights of the Primary Sublicensors and their respective owners under Section 10.4, mRNA RiboTherapeutics and Company agree that, from the Effective Date until **[***]**, mRNA RiboTherapeutics will (and will ensure that the other Primary Sublicensors will):

(a) grant Product Sublicenses only to **[***]**

wherein "**Product Sublicenses**" herein mean sublicenses under Patent Rights to research, develop, manufacture and/or commercialize specific products **[***]**, for a therapeutic or prophylactic use in humans in the *In Vivo* Field of Use, and

wherein **[***]**

(b) only grant Product Sublicenses for a total of **[***]** in the aggregate by all of the Primary Sublicensors across all such Product Sublicenses, **[***]**

(c) except as set forth in Sections 10.2 and 10.3, not otherwise grant sublicenses under the Patent Rights to research, develop, manufacture and/or commercialize products comprising or incorporating **[***]**.

10.4 Sale of a Primary Sublicensor. Company understands and agrees that the owners of each of mRNA RiboTherapeutics and Cellscript shall have the right to sell all or any part of the outstanding stock or ownership interest or the business or the assets thereof, as applicable, of mRNA RiboTherapeutics and/or Cellscript and/or any of their respective affiliates **[***]** at any time and without any conditions pursuant to this Agreement other than the requirements under Section 15.5, except that, as a condition to any such sale occurring prior to April 1, 2020:

[*Remainder of page left blank*]

(a) the owners of each of mRNA RiboTherapeutics and Cellscript will sell mRNA RiboTherapeutics or Cellscript to only one (1) Third Party purchaser, **[***]**; and

(b) without in any way negating or ceding or giving up any of their current rights to sell all or any part of the stock, ownership interest, business or assets of mRNA RiboTherapeutics and/or Cellscript or to discuss any such sale with any potential purchaser at any time, including from the Effective Date of this Agreement **[***]**, the owners of mRNA RiboTherapeutics and Cellscript agree not to conduct Active Marketing of such sale of a Primary Sublicensor prior to **[***]**,

wherein "**[***]**" herein means **[***]**; and

for the avoidance of doubt, Company agrees that this Section 10.4(a) shall not be interpreted so as to prohibit the owners of mRNA RiboTherapeutics and/or Cellscript from proposing or discussing **[***]**;

(c) the purchaser of mRNA RiboTherapeutics or Cellscript, respectively, will pay **[***]**;

[*Remainder of page left blank*]

(d) on the effective date of any such sale of **[***]** and the purchaser and their assignees and successors in ownership thereof shall have all the same rights as are held by Company under this Agreement to:

(i) grant Human *In Vivo* Therapeutics Field Sublicenses to affiliates and Third Parties without being subject to any restrictions, limitations, or terms and conditions that apply to the Primary Sublicensors under Sections 10.2, and

(ii) grant Product Sublicenses to affiliates and any Third Parties to research, develop, manufacture and/or commercialize any number of products comprising modified RNA covered by Patent Rights for any therapeutic or prophylactic use in humans in the *In Vivo* Field of Use without being subject to any of the restrictions, limitations or requirements that the sublicensee is a Small Biotech Company as is required of the Primary Sublicensors in Section 10.3; and

(e) on the effective date of any such sale of more than fifty percent (50%) of the outstanding stock or ownership interest or all of the business or assets of mRNA RiboTherapeutics or Cellscript, all of the rights of the Primary Sublicensors to grant Product Sublicenses pursuant to Section 10.3 shall remain only with the Primary Sublicensors for which their stock, ownership interest, business and assets were not sold.

[***].

10.5 From **[***]**, Primary Sublicensors and any owners, assignees or successors in ownership thereof shall have the right to grant any number of Human *In Vivo* Therapeutics Field Sublicense(s) to any parties without any conditions (other than those imposed by the Penn License Agreement or the Cellscript Sublicense Agreement) and to grant any number of Product Sublicenses or any other sublicenses of any kind under Patent Rights to any parties without any limitations or restrictions or requirements whatsoever under this Article 10.

[*Remainder of page left blank*]

11 LIMITATION OF LIABILITY; DISCLAIMER.

11.1 Limitation of Liability. PENN AND mRNA RIBOTHERAPEUTICS WILL NOT BE LIABLE TO COMPANY, ITS AFFILIATES, SUBLICENSEES, SUCCESSORS OR ASSIGNS, OR ANY THIRD PARTY WITH RESPECT TO ANY CLAIM: ARISING FROM COMPANY'S USE OF THE PATENT RIGHTS, LICENSED PRODUCTS OR ANY OTHER TECHNOLOGY LICENSED UNDER THIS AGREEMENT; OR ARISING FROM THE COMPANY'S, COMPANY'S AFFILIATES' OR COMPANY'S SUBLICENSEES' DEVELOPMENT, TESTING, MANUFACTURE, USE OR SALE OF LICENSED PRODUCTS. NOTWITHSTANDING ANYTHING IN THIS AGREEMENT OR OTHERWISE, NONE OF PENN, mRNA RIBOTHERAPEUTICS OR COMPANY WILL BE LIABLE TO THE OTHER OR ANY THIRD PARTY WITH RESPECT TO ANY SUBJECT MATTER OF THIS AGREEMENT FOR ANY INDIRECT, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES, EVEN IF SUCH PARTY HAS BEEN INFORMED OR SHOULD HAVE KNOWN OF THE POSSIBILITY OF SUCH DAMAGES; PROVIDED THAT THIS SECTION 11.1 WILL NOT APPLY: (a) TO A PARTY'S INDEMNIFICATION RIGHTS AND OBLIGATIONS UNDER ARTICLE 12 OR ARTICLE 13; (b) IN CIRCUMSTANCES OF GROSS NEGLIGENCE OR INTENTIONAL MISCONDUCT BY A PARTY OR ITS AFFILIATES; OR (c) WITH RESPECT TO A PARTY'S LIABILITY FOR BREACH OF ARTICLE 5 or 10.

11.2 Disclaimer. THE PATENT RIGHTS, LICENSED PRODUCTS AND ANY OTHER TECHNOLOGY LICENSED UNDER THIS AGREEMENT ARE PROVIDED ON AN "AS IS" BASIS. EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NONE OF PENN, mRNA RIBOTHERAPEUTICS OR COMPANY MAKE ANY REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF ACCURACY, COMPLETENESS, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, COMMERCIAL UTILITY, NON-INFRINGEMENT, VALIDITY OR TITLE.

12 PENN INDEMNIFICATION

12.1 Indemnification. Company will defend, indemnify, and hold harmless each Penn Indemnified Party from and against any and all Penn Liabilities with respect to an Indemnification Event. The term "**Penn Indemnified Party**" means each of Penn and its trustees, officers, faculty, students, employees, contractors, and agents. For clarity, mRNA RiboTherapeutics is not a Penn Indemnified Party. The term "Penn Liabilities" means all damages, awards, deficiencies, settlement amounts, defaults, assessments, fines, dues, penalties, costs, fees, liabilities, obligations, taxes, liens, losses, lost profits and expenses (including, but not limited to, court costs, interest and reasonable fees of attorneys, accountants and other experts) that are incurred by a Penn Indemnified Party or awarded or otherwise required to be paid to Third Parties by a Penn Indemnified Party. The term "Indemnification Event" means any Claim against one or more Penn Indemnified Parties arising out of or resulting from: **[***]** The term *"***Claim***"* in this Article 12 means any charges, complaints, actions, suits, proceedings, hearings, investigations, claims or demands.

12.2 Reimbursement of Costs. Company will pay directly all Penn Liabilities incurred for defense or negotiation of any Claim or will reimburse Penn for all documented Penn Liabilities incident to the defense or negotiation of any Claim within **[***]** days after Company's receipt of invoices for such fees, expenses and charges.

12.3 Control of Litigation. Company controls any litigation or potential litigation involving the defense of any Claim, including the selection of counsel, with input from Penn. Penn reserves the right to protect its interest in defending against any Claim by selecting its own counsel, with any attorneys' fees and litigation expenses paid for by Company, pursuant to Sections 12.1 and 12.2.

12.4 Other Provisions. Company will not settle or compromise any Claim giving rise to Penn Liabilities in any manner that imposes any restrictions or obligations on Penn or grants any rights to the Patent Rights or the Licensed Products without Penn's prior written consent. If Company fails or declines to assume the defense of any Claim within **[***]** days after notice of the Claim, or fails to reimburse a Penn Indemnified Party for any Penn Liabilities pursuant to Sections 12.1 and 12.2 within the **[***]** day time period set forth in Section 12.2, then Penn may assume the defense of such Claim for the account and at the risk of Company, and any Penn Liabilities related to such Claim will be conclusively deemed a liability of Company. The indemnification rights of the Penn Indemnified Parties under this Article 12 are in addition to all other rights that a Penn Indemnified Party may have at law, in equity or otherwise.

13 OTHER INDEMNIFICATION

13.1 Indemnification by Company. Company will indemnify, defend and hold harmless mRNA RiboTherapeutics and its affiliates, and its or their respective directors, officers, employees and agents ("**mRNA RiboTherapeutics Indemnified Parties**"), from and against any and all liabilities, damages, losses, costs and expenses including the reasonable fees of attorneys (collectively "**Losses**") arising out of or resulting from any and all Third Party suits, claims, actions, proceedings, payment obligations or demands ("**Claims**" in this Article 13) to the extent based upon:

13.1.1 the gross negligence or willful misconduct of Company, its Affiliates or Third Party sublicensees and its or their respective directors, officers, employees and agents, in connection with Company's performance of its obligations or exercise of its rights under this Agreement;

13.1.2 any breach of any representation or warranty or express covenant made by Company under this Agreement; or

13.1.3 the development, testing, use, manufacture, commercialization, sale or other disposition of Licensed Products by or on behalf of Company or its Affiliates or Third Party sublicensees, assignees or vendors or Third Parties, including, but not limited to, for (x) any product liability or other Claim of any kind related to use by a Third Party of a Licensed Product, (y) any Claim by a Third Party that Company's practice of any of the Patent Rights or the design, composition, manufacture, use, sale or other disposition of any Licensed Product infringes or violates any patent, copyright, trade secret, trademark or other intellectual property right of such Third Party, and (z) any Claim by a Third Party relating to clinical trials or studies for Licensed Products;

except, in each case above, to the extent such Claim arose out of or resulted from or is attributable to any acts or omissions of mRNA RiboTherapeutics or its directors, officers, employees and agents, or other circumstances for which mRNA RiboTherapeutics has an indemnity obligation pursuant to Section 13.2 below.

13.2 Indemnification by mRNA RiboTherapeutics. mRNA RiboTherapeutics will indemnify, defend and hold harmless Company and its Affiliates, and its or their respective directors, officers, employees and agents ("**Company Indemnified Parties**"), from and against any and all Losses arising out of or resulting from any and all Claims to the extent based upon:

13.2.1 the gross negligence or willful misconduct of mRNA RiboTherapeutics or its directors, officers, employees and agents, in connection with mRNA RiboTherapeutics' performance of its obligations or exercise of its rights under this Agreement; or

13.2.2 any breach of any representation or warranty or express covenant made by mRNA RiboTherapeutics under this Agreement;

except, in each case above, to the extent such Claim arose out of or resulted from or is attributable to any acts or omissions of Company or its Affiliates or Third Party sublicensees and its or their respective directors, officers, employees and agents or other circumstances for which Company has an indemnity obligation pursuant to Section 13.1 above.

13.3 Procedure. If an Indemnified Party entitled to indemnification under Sections 13.1 or 13.2 seeks such indemnification (wherein "**Indemnified Party**" in this Article 13 means a "Company Indemnified Party" and/or an "mRNA RiboTherapeutics Indemnified Party"), such Indemnified Party will:

(i) inform the indemnifying Party in writing of a Claim as soon as reasonably practicable after such Indemnified Party receives notice of such Claim;

(ii) permit the indemnifying Party to assume direction and control of the defense of the Claim (including the sole right to settle such Claim at the sole discretion of the indemnifying Party, *provided that* (a) such settlement or compromise does not admit any fault or negligence on the part of the Indemnified Party, or impose any obligation on, or otherwise materially adversely affect, the Indemnified Party or other Party and (b) the indemnifying Party first obtains the written consent of the Indemnified Party with respect to such settlement, which consent will not be unreasonably withheld);

(iii) cooperate as reasonably requested (at the expense of the indemnifying Party) in the defense of the Claim; and

(iv) undertake reasonable steps to mitigate any Losses with respect to the Claim.

Notwithstanding anything in this Agreement to the contrary, the indemnifying Party will have no liability under Sections 13.1 or 13.2, as the case may be, for Claims settled or compromised by the Indemnified Party without the indemnifying Party's prior written consent.

14 INSURANCE

14.1 Coverages. Company will procure and maintain insurance or self-insurance that covers the following minimum liability amounts with respect to personal injury, bodily injury and property damage arising out of Company's performance under this Agreement: (a) during the Term, comprehensive general liability, including broad form and contractual liability, in a minimum amount of **[***]** combined single limit per occurrence and in the aggregate; (b) prior to the commencement of clinical trials involving Licensed Products, clinical trials a minimum amount of **[***]** combined single limit per occurrence and in the aggregate; and (c) prior to the Sale of the first Licensed Product, product liability a minimum amount of **[***]** combined single limit per occurrence and in the aggregate. Penn and mRNA RiboTherapeutics may review periodically the adequacy of the minimum amounts of insurance or self-insurance for each liability coverage area required by this Section 14.1, and Penn and mRNA RiboTherapeutics reserve the right to request Company to adjust the limits accordingly to the extent existing limits are not commercially reasonable. The required minimum amounts of insurance or self-insurance do not constitute a limitation on Company's liability or indemnification obligations to Penn or mRNA RiboTherapeutics under this Agreement.

15 ADDITIONAL PROVISIONS

15.1 Independent Contractors. The Parties are independent contractors. Nothing contained in this Agreement is intended to create an agency, partnership or joint venture between the Parties. At no time will either Party make commitments or incur any charges or expenses for or on behalf of the other Party.

15.2 No Discrimination. Company will not discriminate against any employee or applicant for employment because of race, color, sex, sexual or affectional preference, age, religion, national or ethnic origin, handicap, or veteran status.

15.3 Compliance with Laws. Company must comply with all prevailing laws, rules and regulations that apply to its activities or obligations under this Agreement. For example, Company will comply with applicable United States export laws and regulations. The transfer of certain technical data and commodities may require a license from the applicable agency of the United States government and/or written assurances by Company that Company will not export data or commodities to certain foreign countries without prior approval of the agency. Penn and mRNA RiboTherapeutics do not represent that no license is required, or that, if required, the license will issue.

[*Remainder of page left blank*]

15.4 Modification, Waiver & Remedies. This Agreement may only be modified by a written amendment that is executed by an authorized representative of each Party. Any waiver must be express and in writing. No waiver by either Party of a breach by the other Party will constitute a waiver of any different or succeeding breach. Unless otherwise specified, all remedies are cumulative.

15.5 Assignment. This Agreement may not be assigned (by operation of law or otherwise) by either Party without the prior written consent of the other Party (which consent will not be unreasonably withheld); *except that*, that either Party may assign this Agreement without such consent to an affiliate or to a successor that purchases greater than fifty percent (>50%) of the outstanding stock or ownership interest or all or substantially all of such Party's business or assets to which this Agreement relates, whether by sale of shares or ownership interest, merger, consolidation, sale of assets or otherwise, *provided* that the assignee agrees in writing to be legally bound by this Agreement in the place and stead of the assignor and provides the non-assigning Party with a copy of said assignee's written undertaking. Neither Party will grant a security interest in the Sublicense or this Agreement during the Term. Any prohibited assignment or security interest in contravention of the foregoing will be null and void. The rights and obligations of the Parties under this Agreement will be binding upon and inure to the benefit of the successors and permitted assigns of the Parties, and the name of a Party appearing herein will be deemed to include the name of such Party's successors and permitted assigns to the extent necessary to carry out the intent of this Section 15.5.

15.6 Notices. Any notice or other required communication (each, a "**Notice**") must be in writing, addressed to the Party's respective Notice Address listed on the signature page, and delivered: (a) personally, with signed receipt; (b) by certified mail, postage prepaid, return receipt requested; (c) by recognized overnight courier service, charges prepaid; or (d) by facsimile. A Notice will be deemed received: if delivered personally, on the date of delivery; if mailed, **[***]** days after deposit in the United States mail; if sent via courier, **[***]** business day after deposit with the courier service; or if sent via facsimile, upon receipt of confirmation of transmission provided that a confirming copy of such Notice is sent by certified mail, postage prepaid, return receipt requested.

15.7 Severability & Reformation. If any provision of this Agreement is held to be invalid or unenforceable by a court of competent jurisdiction, then the remaining provisions of this Agreement will remain in full force and effect. Such invalid or unenforceable provision will be automatically revised to be a valid or enforceable provision that comes as close as permitted by law to the Parties' original intent.

15.8 Headings & Counterparts. The headings of the articles and sections included in this Agreement are inserted for convenience only and are not intended to affect the meaning or interpretation of this Agreement. This Agreement may be executed in one or more counterparts, each of which when executed and delivered by facsimile, electronic transmission, or by mail delivery, will be an original and all of which shall constitute one and the same instrument.

15.9 Governing Law. This Agreement will be governed in accordance with the laws of the Commonwealth of Pennsylvania, without giving effect to the conflict of law provisions of any jurisdiction.

15.10 Dispute Resolution. If a dispute arises between the Parties concerning any right or duty under this Agreement, then the Parties will confer, as soon as practicable, in an attempt to resolve the dispute. If the Parties are unable to resolve the dispute amicably, then the Parties will submit to the exclusive jurisdiction of, and venue in, the state and Federal courts located in the Eastern District of Pennsylvania with respect to all disputes arising under this Agreement. Notwithstanding anything herein to the contrary, in the event of an actual or threatened breach of this Agreement, the aggrieved Party may seek provisional equitable relief (including restraining orders, specific performance or other injunctive relief) in any court of competent jurisdiction to protect the interests of such Party.

15.11 Further Assurance. Each Party shall duly execute and deliver, or cause to be duly executed and delivered, such further instruments and do and cause to be done such further acts and things, including the filing of such assignments, agreements, documents and instruments, as may be necessary or as the other Party may reasonably request in connection with this Agreement or to carry out more effectively the provisions and purposes hereof, or to better assure and confirm unto such other Party its rights and remedies under this Agreement.

15.12 Interpretation. Except where the context otherwise requires, wherever used, the singular shall include the plural, the plural the singular, the use of any gender shall be applicable to all genders and the word “or” is used in the inclusive sense (and/or). The captions of this Agreement are for convenience of reference only and in no way define, describe, extend or limit the scope or intent of this Agreement or the intent of any provision contained in this Agreement. The term “including” as used herein shall mean including, without limiting the generality of any description preceding such term. The language of this Agreement shall be deemed to be the language mutually chosen by the Parties and no rule of strict construction shall be applied against either Party hereto. The Parties acknowledge and agree that new products and uses for products that are covered by Patent rights may be developed based on new advances in scientific knowledge. As such, the Parties’ agree that, if Company is of the opinion that such advances have resulted in changes which warrant interpretation of whether such new products or uses are included within the Sublicensed Fields of Use granted to Company herein, the Parties agree to discuss and negotiate in good faith the need for an amendment or clarification of the meaning of the rights or Fields of Use granted to Company in Section 1.1 of this Agreement in order to try to find a solution that is agreeable to the Parties. Then, if the Parties have not agreed on the necessity or the wording of such amendment within **[***]** days after beginning good faith discussions, the Parties agree that, either both Parties will jointly agree on and appoint one independent Third Party, or each of the Parties will appoint one independent Third Party and those Third Parties will appoint one additional independent Third Party (all of which Third Parties will be qualified and skilled in the scientific field and have knowledge of law related to patents and licenses) to decide whether such amendment is required to properly reflect this intention. If the appointed independent Third Party or Third Parties decide(s) that said amendment is required, the Parties hereby agree to so amend this Agreement accordingly. If the appointed independent Third Party or Third Parties decide(s) that said amendment is not required, there is no obligation on either Party to amend this Agreement. The costs of the appointed independent Third Party or Third Parties will be borne by the Party whose view has not been confirmed by such Third Party(ies).

15.13 Integration. This Agreement with its Exhibits and the Confidentiality Agreement contain the entire agreement between the Parties with respect to the Patent Rights and the Sublicense and supersede all other oral or written representations, statements, or agreements with respect to such subject matter.

15.14 Condition Precedent to Execution of this Agreement. The Parties understand and agree that each Party's willingness to enter into this Agreement is conditioned upon the execution of both this Agreement and the Sublicense Agreement from Cellscript which grants certain other rights to Company under Patent Rights than the rights granted to Company in this Agreement.

15.15 Entire Agreement. This Agreement and the separate Sublicense Agreement from Cellscript set forth the complete, final and only agreements with respect to the subject matter hereof and supersede all other agreements and understandings between the Parties with respect to the subject matter hereof. The Parties acknowledge and agree that this Agreement and the Sublicense Agreement from Cellscript are separate and distinct agreements and there will be no "cross default" with respect to this Agreement and the Sublicense Agreement from Cellscript.

Each Party has caused this Agreement to be executed by its duly authorized representative.

LICENSE AND CO-DEVELOPMENT AGREEMENT

THIS LICENSE AGREEMENT ("**Agreement**") is made as of July 4, 2018 ("**Effective Date**"), by and between **BioNTech RNA Pharmaceuticals GmbH**, a corporation organized and existing under the laws of Germany ("**BioNTech**"), having its principal place of business at An der Goldgrube 12, 55131 Mainz, Germany, and **Genevant Sciences GmbH**, a corporation organized and existing under the laws of Switzerland ("**Genevant**"), having an address of Viaduktstrasse 8, 4051 Basel, Switzerland. BioNTech and Genevant are referred to individually as a "**Party**" and collectively as the "**Parties**."

RECITALS

WHEREAS, Genevant has an exclusive license to certain intellectual property rights relating to

RNA-based therapeutics enabled by lipid nanoparticle delivery technologies;

WHEREAS, BioNTech is developing certain mRNA payloads for treatment in the field of oncology and infectious diseases and is also developing alone and in

collaboration with third parties certain formulations useful for the delivery of mRNA payloads;

WHEREAS, the Parties wish to jointly develop pharmaceutical products that combine the best mRNA payloads with the best lipid nanoparticle technology in the fields of rare diseases and liver diseases, under the terms and conditions set forth herein; and

WHEREAS, BioNTech wishes to obtain from Genevant a license to utilize the lipid nanoparticle delivery technologies in conjunction with its development of mRNA payloads and delivery technologies in the oncology field, and Genevant is willing to grant such license to BioNTech, all under the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the foregoing premises and the mutual covenants herein contained, the receipt and sufficiency which are hereby acknowledged, BioNTech and Genevant hereby agree as follows.

ARTICLE 1
DEFINITIONS

Unless the context otherwise requires, the terms in this Agreement with initial letters capitalized, shall have the meanings set forth below, or the meaning as designated in the indicated places throughout this Agreement.

1.1 "**Accounting Standards**" means internationally recognized accounting principles (including IFRS, US GAAP, and the like), in each case, as then in effect and as consistently applied by the applicable Party or its Affiliate or Sublicensee.

1.2 "**Affiliate**" means, (a) with respect to Genevant, any Person that, directly or indirectly through one or more intermediaries is controlled by Genevant Sciences Ltd., but for only so long as such control exists; and (b) with respect to BioNTech, any Person that, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with BioNTech, but for only so long as such control exists. For the purpose of this definition, "**control**" (including, with correlative meaning, the terms "controlled by" and "under common control") means (a) to possess, directly or indirectly, the power to direct the management

or policies of an entity, whether through ownership of voting securities, by contract relating to voting rights or corporate governance, or otherwise; or (b) direct or indirect beneficial ownership of more than fifty percent (50%) of the voting share capital or other equity interest in such entity. Notwithstanding the above, for purposes of this Agreement, [***] and its Affiliates will not be deemed to be Affiliates of Genevant, and AT Impf GmbH, having its place of business at Rosenheimer Platz 6, 81669 Munich, Germany, and any person or entity that, during the Term, directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with AT Impf GmbH (other than BioNTech AG or any person or entity that is directly or indirectly controlled by BioNTech AG) shall not be considered an Affiliate of BioNTech.

1.3 "**Alliance Manager**" has the meaning set forth in Section 3.5 (Alliance Managers).

1.4 "Allowable Expenses" has the meaning set forth in Exhibit F.

1.5 "**Applicable Laws**" means the applicable provisions of any and all national, supranational, regional, state and local laws, treaties, statutes, rules, regulations, administrative codes, guidances, ordinances, judgments, decrees, directives, injunctions, orders, permits (including MAAs) of or from any court, arbitrator, Regulatory Authority or Governmental Authority having jurisdiction over or related to the subject item.

1.6 [***] means [***].

1.7 "[***] **Agreement**" means the April 11, 2018, Cross License Agreement by and between Genevant Sciences Ltd. and [***].

1.8 "**Auditor**" has the meaning set forth in Section 8.8 (Audit Dispute).

1.9 "**BioNTech Development Milestone Plan**" has the meaning set forth in Section 4.2.

1.10 "**BioNTech Field**" means the treatment, prevention and diagnosis of illnesses in the field of oncology.

1.11 "**BioNTech Indemnitees**" has the meaning set forth in Section 15.1 (Indemnification by Genevant).

1.12 "**BioNTech Joint Inventions**" has the meaning set forth in Section 11.1(c) (Joint Patent Committee).

1.13 "**BioNTech Joint Patents**" has the meaning set forth in Section 11.1(c) (Joint Patent Committee).

1.14 "**BioNTech Know-How**" means all Know-How that BioNTech Controls as of the Effective Date or during the Term that is necessary or reasonably useful for the Development, Manufacture or Commercialization of: (a) any BioNTech Product in the BioNTech Field; and/or (b) any Co-Development Product in the Co-Development Field. BioNTech Know-How includes BioNTech Joint Inventions, BioNTech Sole Inventions and BioNTech's interest in Co-Owned Joint Inventions.

1.15 "**BioNTech mRNA Payloads**" means the five (5) mRNA payloads created by BioNTech and the [***] identified in Exhibit A. The Parties agree that Exhibit A will include [***] mRNA payloads at the time of execution of this Agreement. Within twelve (12) months from execution of this Agreement, BioNTech may propose [***] additional mRNA payloads to be included in the BioNTech mRNA Payloads and [***] the proposal made by BioNTech, [***]. Upon written agreement by the Parties to such final mRNA payload, Exhibit A will be updated to include such mRNA payload.

1.16 "**BioNTech Patents**" means all Patents that BioNTech Controls as of the Effective Date or during the Term that are necessary or reasonably useful for the Development, Manufacture or Commercialization of: (a) any BioNTech Product in the BioNTech Field; and/or (b) any Co-Development Product in the Co-Development Field. BioNTech Patents includes BioNTech Joint Patents BioNTech's interest in Co-Owned Joint Patents. A list of BioNTech Patents existing as of the Effective Date is attached as Exhibit H. While the Parties intend Exhibit H to be exhaustive, the failure to list a Patent on Exhibit H will not exclude it from the definition of BioNTech Patents if it otherwise meets the definition provided herein.

1.17 "**BioNTech Product**" means any pharmaceutical product that contains a BioNTech mRNA Payload encapsulated within a LNP (irrespective of whether such LNP is Contolled by Genevant or BioNTech).

1.18 "**BioNTech Product Infringement**" has the meaning set forth in Section 11.4(a) (Notice).

1.19 "BioNTech Product Manufacturing Know-How" means Genevant Know-How that is necessary or reasonably useful to Manufacture any BioNTech Product in the BioNTech Field.

1.20 "**BioNTech Product Pharmacovigilance Agreement**" has the meaning set forth in Section 5.4 (Pharmacovigilance).

1.21 "**BioNTech Product Supply Agreement**" has the meaning set forth in Section 6.1 (Manufacture of BioNTech Products).

1.22 "**BioNTech Products Collaboration Plan**" has the meaning set forth in Section 4.4 (Conduct of Development Activities by Genevant).

1.23 "**BioNTech Sole Inventions**" means any Inventions made solely by BioNTech's or its Affiliates' employees, agents or independent contractors.

1.24 "**BioNTech Technology**" means the BioNTech Know-How and the BioNTech Patents.

1.25 "**Blocker Entity**" has the meaning set forth in Section 16.5(b) (Taxes of Co-Entrepreneurship).

1.26 "**Board of Directors**" has the meaning set forth in Section 1.49(a) (Competitor Change of Control).

1.27 "**Business Day**" means a day other than a Saturday, Sunday or a bank or other public holiday in Mainz, Basel or New York.

1.28 "**Calendar Quarter**" means each respective period of three (3) consecutive months ending on March 31, June 30, September 30, and December 31.

1.29 "**Calendar Year**" means each respective period of twelve (12) consecutive months ending on December 31.

1.30 "**CFR**" means the U.S. Code of Federal Regulations.

1.31 "**Claims**" means all Third Party demands, claims, actions, proceedings and liability (whether criminal or civil, in contract, tort or otherwise) for losses, damages, legal costs and other expenses of any nature.

1.32 "**CMC**" means chemistry, Manufacturing, and controls.

1.33 "**CMO**" means contract Manufacturing organization.

1.34 "**Code**" has the meaning set forth in Section 3.3 (JSC Decision-Making).

1.35 "**Co-Development Field**" means the treatment, prevention and diagnosis of liver diseases (as defined by the FDA and/or the EMA), excluding any oncology diseases.

1.36 "**Co-Development Joint Inventions**" has the meaning set forth in Section 11.1(c) (Joint Patent Committee).

1.37 "**Co-Development Joint Patents**" has the meaning set forth in Section 11.1(c) (Joint Patent Committee).

1.38 "**Co-Development mRNA Payloads**" means the six (6) mRNA payloads to be created by BioNTech in the Co-Development Field and the [***] identified in Exhibit B of which five (5) will be selected for Development as part of Co-Development Products.

1.39 "**Co-Development Product**" means any pharmaceutical product that contains a Co-Development mRNA Payload encapsulated within a Genevant LNP and/or, if agreed between the Parties in the JSC, within another LNP.

1.40 **"Co-Development Product Development Plan"** has the meaning set forth in Section 9.2.

1.41 “**Co-Development Product Commercialization Plan**” has the meaning set forth in Section 10.2 (Commercialization Plan and Report).

1.42 “**Co-Development Product Infringement**” has the meaning set forth in Section 11.4(a) (Notice).

1.43 “**Co-Development Product Pharmacovigilance Agreement**” has the meaning set forth in Section 9.10 (Co-Development Product Pharmacovigilance).

1.44 "**Co-Development Product Supply Agreement**" has the meaning set forth in Section 9.11 (Manufacturing Responsibilities).

1.45 "**Combination Product**" means any product containing (i) at least one Product and (ii) at least one additional active ingredient that is not a Product.

1.46 "**Commercialization**" means the conduct of all activities undertaken before and after Regulatory Approval relating to the promotion, marketing, sale and distribution (including importing, exporting, transporting, customs clearance, warehousing, invoicing, handling and delivering products to customers) of products, including: (a) sales force efforts, detailing, advertising, medical education, planning, marketing, sales force training, and sales and distribution; and (b) scientific and medical affairs. For clarity, Commercialization does not include any Development activities, whether conducted before or after Regulatory Approval. "**Commercialize**" and "**Commercializing**" have correlative meanings.

1.47 "**Commercially Reasonable Efforts**" means, with respect to an entity's obligations under this Agreement relating to BioNTech Products or Co-Development Products, those efforts and resources that are consistent with the exercise of customary scientific and business practices as applied in the pharmaceutical industry for a company of a similar stage and size as the entity and having similar resources (viewed in relation to such Party and all of its Affiliates plus, in the case of Genevant, [***] (applying that term to [***] mutatis mutandis as with respect to Genevant)) for Development, regulatory, Manufacturing and Commercialization activities conducted with respect to products at a similar stage of Development or Commercialization and having similar commercial potential, taking into account relative safety and efficacy, product profile, the regulatory environment, payors' policies and regulations, competitiveness of the marketplace and the market potential of such products, the nature and extent of market exclusivity, including patent coverage and regulatory data protection, price and reimbursement status, and all other relevant commercial, technical, legal, scientific, regulatory, or medical factors.

1.48 "**Competitor**" means any of the competitive entities identified and separately agreed to in writing by the Parties or their Affiliates (applying that term mutatis mutandis to such entity).

1.49 "**Competitor Change of Control**" shall be deemed to have occurred if any of the following occurs after the Effective Date:

(a) any Competitor (i) becomes the beneficial owner, directly or indirectly, of shares of capital stock or other interests (including partnership interests) of such Party then outstanding and normally entitled (without regard to the occurrence of any contingency) to vote in the election of the directors, managers or similar supervisory positions ("**Voting Stock**") of such Party representing more than fifty percent (50%) of the total voting power of all outstanding classes of Voting Stock of such Party or (ii) has the power, directly or indirectly, to appoint a majority of the Party's managing directors or to elect a majority of the members of the Party's board of directors, supervisory board or similar governing body ("**Board of Directors**"); or

(b) such Party enters into a merger, consolidation or similar transaction with a Competitor (whether or not such Party is the surviving entity) and as a result of such merger, consolidation or similar transaction (i) the managing directors or the members of the Board of Directors of such Party immediately prior to such transaction constitute less than a majority of the

managing directors or the members of the Board of Directors of such Party or such surviving Person immediately following such transaction or (ii) the Persons that beneficially owned, directly or indirectly, the shares of Voting Stock of such Party immediately prior to such transaction cease to beneficially own, directly or indirectly, shares of Voting Stock of such Party representing a majority of the total voting power of all outstanding classes of Voting Stock of the surviving Person in substantially the same proportions as their ownership of Voting Stock of such Party immediately prior to such transaction; or

(c) such Party sells or transfers to a Competitor, in one or more related transactions, properties or assets representing all or substantially all of such Party's consolidated total assets to which this Agreement relates.

Notwithstanding the foregoing, the occurrence of neither of the following shall, by itself, be considered a Change in Control, the sale of capital stock of a Party in an initial public offering on an internationally recognized securities exchange, including the NYSE, NASDAQ, London Stock Exchange, Frankfurt Stock Exchange, and Hong Kong Stock Exchange shall not constitute a Competitor Change of Control if entered into in the ordinary course of business and not for the purpose or effect of circumventing any other Party's rights hereunder.

1.50 "**Confidential Information**" of a Party means all Know-How, unpublished patent applications and other information and data of a financial, commercial, business, operational or technical nature of such Party that is disclosed or made available by or on behalf of such Party or any of its Affiliates to the other Party or any of its Affiliates, whether made available orally, in writing or in electronic or other form. The terms of this Agreement are the Confidential Information of both Parties. All Inventions made under this Agreement will constitute the Confidential Information of the party that owns such Inventions as set forth in Section 11.1 (Ownership). All other data and results generated under this Agreement in relation to BioNTech Products shall constitute Confidential Information of BioNTech, and all other data and results generated under this Agreement in relation to Co-Development Products shall constitute Confidential Information of both Parties.

1.51 "**Control**" or "**Controlled**" means, with respect to any Know-How, Patent or other intellectual property rights, that a Party has the legal authority or right (whether by ownership, license or otherwise, other than by virtue of any license granted to such Party by the other Party pursuant to this Agreement) to grant a license, sublicense, access or other right (as applicable) under such Know-How, Patent, or other intellectual property rights to the other Party on the terms and conditions set forth herein, in each case without breaching the terms of any agreement with a Third Party.

1.52 "**Develop**" or "**Development**" means to develop (including clinical, non-clinical and CMC development), analyze, test and conduct preclinical, clinical and all other regulatory trials for a product, including all post-approval clinical trials, as well as all related regulatory activities and any and all activities pertaining to new indications, pharmacokinetic studies and all related activities including work on new formulations, new methods of treatment, and CMC activities including new Manufacturing methods. "**Developing**" and "**Development**" have correlative meanings.

1.53 "**Development Costs"** means FTE Costs and Out-of-Pocket Costs incurred by the Parties and their Affiliates in Developing the Co-Development Products in the Co-Development Field, in each case to the extent incurred in accordance with this Agreement and the budget approved by the JSC as follows:

(a) all Out-of-Pocket Costs and FTE Costs incurred for activities specified in the Co-Development Product Development Plan including the FTE Costs of scientific, medical, technical and other personnel directly engaged in performing Development activities under the Co-Development Product Development Plan, which costs shall be determined based on time actually spent performing the applicable activities, unless another basis is otherwise agreed in advance by the Parties in writing;

(b) all Out-of-Pocket Costs and FTE Costs in connection with any Manufacturing activities for pre-clinical or clinical supplies as set forth in the Co-Development Product Development Plan, including (i) the Manufacturing Expenses for the Co-Development mRNA Payloads, Genevant LNPs, and Co-Development Products; (ii) costs and expenses incurred to purchase or package Third Party comparator or Third Party combination drugs or devices; and (iii) costs and expenses of disposal of clinical samples;

(c) all Out-of-Pocket Costs and FTE Costs incurred in connection with Regulatory Filings with respect to Co-Development Products in the Co-Development Field;

(d) all Out-of-Pocket Costs and FTE Costs associated with [***] commitments mandated by Governmental Authorities, to the extent incurred with respect to Co-Development Products;

(e) all Out-of-Pocket Costs and FTE Costs identifiable to establishing, updating and maintaining a global safety database for Co-Development Products;

(f) all Out-of-Pocket Costs and FTE Costs associated with companion and in vitro diagnostics, if applicable to the Development of a Co-Development Product; and

(g) any other Out-of-Pocket Costs and FTE Costs incurred that are explicitly included in the budget under the Co-Development Product Development Plan approved by the JSC.

Development Costs shall exclude all Allowable Expenses, capital expenditures not previously agreed to by the Parties as part of the Co-Development Product Development Plan, and any other cost not included in Development Costs, including by way of example, costs attributable to general corporate activities, executive management, investor relations, treasury services, business development, corporate government relations, external financial reporting and other overhead unless otherwise agreed to in writing by the Parties. For the avoidance of doubt, Development Costs do not include Out-of-Pocket Costs, FTE Costs, or other amounts that are attributable and allocable to post-approval commercialization studies other than as specified in (d) above.

1.54 "**Development Reconciliation Procedures**" has the meaning set forth in Section 9.12(b) (Development Costs Reports).

1.55 "**Direct Expenses**" means, with respect to Co-Development mRNA Payload, Genevant LNP, BioNTech Products or Co-Development Products, those material and services expenses captured in invoices and the like which are specifically attributable to Manufacture of the Co-Development mRNA Payload, Genevant LNP, BioNTech Product or Co-Development Product, including expenses of raw materials, Manufacturing supplies, solvents, containers, container components, packaging, labels and other printed materials used in production.

1.56 "Disclosing Party" has the meaning set forth in Section 12.1(a) (Duty of Confidence - subsection (a)).

1.57 "**Dollar**" means U.S. dollars, and "$" shall be interpreted accordingly.

1.58 "**EMA**" means the European Medicines Agency or any successor entity thereto.

1.59 "**Excluded Claim"** has the meaning set forth in Section 16.10(f) (Dispute Resolution - subsection (f)).

1.60 "**Executive Officers**" has the meaning set forth in Section 3.3 (JSC Decision-Making).

1.61 "**FDA**" means the United States Food and Drug Administration or any successor entity thereto.

1.62 "**First Commercial Sale**" means, (a) with respect to any BioNTech Product in any country or jurisdiction in the Territory, the first arm's length sale of such BioNTech Product by BioNTech, its Affiliates or Sublicensees to a Third Party for distribution, use or consumption in such country or jurisdiction after Regulatory Approval has been obtained for such BioNTech Product in such country or jurisdiction; and (b) with respect to any Co-Development Product in any country or jurisdiction in the Territory, the first arm's length sale of such Co-Development Product by a Party, its Affiliates or Sublicensees to a Third Party for distribution, use or consumption in such country or jurisdiction after Regulatory Approval has been obtained for such Co-Development Product in such country or jurisdiction.

1.63 "**FTE**" means a full day of work by one employee recorded in the conduct of the specified activities.

1.64 "**FTE Costs**" means the product of: (a) that number of FTEs (proportionately, on a per-FTE basis) used by a Party or its Affiliates in directly performing activities assigned to such Party under and in accordance with the Co-Development Product Development Plan or the BioNTech Products Collaboration Plan, multiplied by (b) the applicable FTE Rate.

1.65 "**FTE Rate**" means [***].

1.66 "**Genevant Indemnitees**" has the meaning set forth in Section 15.2 (Indemnification by BioNTech).

1.67 "**Genevant Joint Inventions**" has the meaning set forth in Section 11.1(c) (Joint Patent Committee).

1.68 "**Genevant Joint Patents**" has the meaning set forth in Section 11.1(c) (Joint Patent Committee).

1.69 "**Genevant Know-How**" means all Know-How that Genevant Controls as of the Effective Date or during the Term that is necessary or reasonably useful for the Development,

Manufacture or Commercialization of: (a) any BioNTech Product in the BioNTech Field; or (b) any Co-Development Product in the Co-Development Field. Genevant Know-How includes Genevant Sole Inventions, Genevant Joint Inventions, and Genevant's interest in Co-Owned Joint Inventions.

1.70 "**Genevant LNP"** means the LNP delivery platform Controlled by Genevant. The Parties will identify during Development of the BioNTech Products and/or Co-Development Products which part(s) of the Genevant LNP will be used in the BioNTech Products and/or Co-Development Products in accordance with the terms of this Agreement.

1.71 "**Genevant Patents**" means all Patents in the Territory that Genevant Controls as of the Effective Date or during the Term that are necessary or reasonably useful for the Development, Manufacture or Commercialization of: (a) any BioNTech Product in the BioNTech Field; or (b) any Co-Development Product in the Co-Development Field. Genevant Patents include Genevant Joint Patents, and Genevant's interest in Co-Owned Joint Patents. A list of Genevant Patents existing as of the Effective Date is attached as Exhibit G. While the Parties intend Exhibit G to be exhaustive, the failure to list a Patent on Exhibit G will not exclude it from the definition of Genevant Patents if it otherwise meets the definition provided herein.

1.72 "**Genevant Sole Inventions**" means any Inventions made solely by Genevant's or its Affiliates' employees, agents or independent contractors.

1.73 "**Genevant Technology**" means the Genevant Know-How and Genevant Patents.

1.74 "**Government Authority**" means any federal, state, national, state, provincial or local government, or political subdivision thereof, or any multinational organization or any authority, agency or commission entitled to exercise any administrative, executive, judicial, legislative, police, regulatory or taxing authority or power, any court or tribunal (or any department, bureau or division thereof, or any governmental arbitrator or arbitral body).

1.75 "**Incremental Withholding Taxes**" has the meaning set forth in Section 16.5(b) (Tax Cooperation).

1.76 "**IND**" means any investigational new drug application, clinical trial application, clinical trial exemption or similar or equivalent application or submission for approval to conduct human clinical investigation filed with or submitted to a Regulatory Authority in conformance with the requirements of such Regulatory Authority.

1.77 "**Indemnified Party**" has the meaning set forth in Section 15.3 (Indemnification Procedure).

1.78 "**Indemnifying Party**" has the meaning set forth in Section 15.3 (Indemnification Procedure).

1.79 "**Indirect Expenses**" means, with respect to either a BioNTech Product or Co-Development Product, labor expenses, including allocated FTE expenses for personnel directly involved in the Manufacturing the Co-Development mRNA Payload, Genevant LNP, BioNTech Products or Co-Development Products in accordance with GMP requirements such as production, quality control, quality assurance, microbiology, and other similar departments as needed and to the extent such personnel participate directly in the

production of the Co-Development mRNA

9

Payload, Genevant LNP, BioNTech Product or Co-Development Product and components thereof, and other indirect production expenses such as a reasonable allocation of expenses associated with a either Party's Manufacturing of Co-Development mRNA Payload, Genevant LNP, BioNTech Product or Co-Development Product, including facility costs and personnel costs directly supporting the Manufacturing of the Co-Development mRNA Payload, Genevant LNP, BioNTech Product or Co-Development Product in accordance with GMP requirements, including labor for and indirect expenses of quality control, quality assurance, raw material acquisition and acceptance, microbiology, document control, calibration/validation, and expenses for process development and analytical methods development, but excluding, in each case, any Direct Expenses.

1.80 "**Initiation**" means, with respect to a clinical trial, the first dosing (whether with investigational drug, comparator drug or placebo) of the third subject in such clinical trial.

1.81 "**Initial BioNTech Product Manufacturing Know-How**" has the meaning set forth in Section 6.3(a) (BioNTech Product Initial Manufacturing Know-How).

1.82 "**Invention**" shall mean any process, method, composition of matter, article of Manufacture, discovery or finding, patentable or otherwise, that is made, generated, conceived or otherwise invented as a result of a Party exercising its rights or carrying out its obligations under this Agreement, whether directly or via its Affiliates, agents or independent contractors, including all rights, title and interest in and to the intellectual property rights therein.

1.83 "**Joint Inventions**" means any Inventions that are made jointly by one or more employees, agents or independent contractors of one Party or its Affiliates and one or more employees, agents or independent contractors of the other Party or its Affiliates.

1.84 "**Joint Patent Committee**" or "**JPC**" has the meaning set forth in Section 11.1(c) (Joint Patent Committee).

1.85 "**Joint Steering Committee**" or "**JSC**" has the meaning set forth in Section 3.1 (Joint Steering Committee).

1.86 "**Know-How**" means any information, including discoveries, improvements, modifications, processes, methods, techniques, protocols, formulas, data, inventions, know-how, trade secrets and results, patentable or otherwise, including physical, chemical, biological, toxicological, pharmacological, safety, and pre-clinical and clinical data, dosage regimens, control assays, and product specifications, but excluding any Patents.

1.87 "**Lead Commercialization Party**" has the meaning set forth in Section 10.1.

1.88 "**LNP**" means lipid nanoparticle.

1.89 "**Manufacture**" or "**Manufacturing**" means performing all steps of the manufacturing of any BioNTech mRNA Payload, Co-Development mRNA Payload, Genevant LNP, BioNTech Products or Co-Development Products, including: (a) acquisition, testing and release of

raw materials, excipients or active pharmaceutical ingredients and stability testing; (b) manufacturing and filling; (c) in-process quality control testing; (d) labeling and packaging; (e) final quality release; and (f) storage prior to shipping and the related controls.

1.90 "**Manufacturing Transfer**" has the meaning set forth in Section 6.4 (Manufacturing Transfer).

1.91 "**MAA**" or "**Marketing Authorization Application**" means an application to the appropriate Regulatory Authority for approval to market a product (but excluding Pricing Approval) in any particular jurisdiction and all amendments and supplements thereto, including an NDA filed with the FDA in the U.S.

1.92 "**Manufacturing Expenses"** means (a) with respect to a Co-Development mRNA Payload, BioNTech Product or a Co-Development Product that is Manufactured by a Third Party [***] paid by either Party or its Affiliate to such Third Party for such Co-Development mRNA Payload, Genevant LNP, BioNTech Product or Co-Development Product, and (b) with respect to a Co-Development mRNA Payload, Genevant LNP, BioNTech Product or Co-Development Product that is Manufactured directly by either Party or its Affiliate the Direct Expenses and Indirect Expenses incurred in connection with the Manufacture of the BioNTech Product or Co-Development Product [***]. Manufacturing Expenses shall not include any: (x) Manufacturing variances due to idle plant capacity, (y) expenses allocable to other products, or (z) any profit related to intercompany transfer pricing.

1.93 "**mRNA Payload**" means one or more mRNA constructs, each for the expression of a Protein of Interest, which are contained in a BioNTech Product or in a Co-Development Product.

1.94 "**NDA**" means a New Drug Application (as more fully defined in 21 C.F.R. § 314.5 *et seq.* or successor regulation) and all amendments and supplements thereto filed with the FDA.

1.95 "**Net Sales**" means, with respect to any Product, the gross amounts invoiced for sales or other dispositions of such product by or on behalf of a Party, its Affiliates and Sublicensees to Third Parties, less the following deductions to the extent included in the gross invoiced sales price for such Product or otherwise paid or incurred by the Party or its Affiliates or Sublicensees, as applicable, with respect to the sale or other disposition of such Product:

(a) normal and customary trade and quantity discounts, allowances, and credits actually allowed and properly taken with respect to sales of such Product;

(b) credits or allowances given or made for rejection or return of previously sold Products or for retroactive price reductions and billing errors;

(c) discounts, rebates, reimbursements, and chargeback payments granted to managed health care organizations or other health care institutions (including hospitals), health care administrators, patient assistance or similar programs, pharmacy benefit managers (or equivalents thereof), wholesalers and other distributors, pharmacies and other retailers, group purchasing organizations or other buying groups, health maintenance organizations, national, state/provincial, local, and other governments, their agencies and purchasers and reimbursors (including Medicaid, Medicare and similar federal and state programs and other government programs), any other providers of health insurance coverage, or to trade customers related to such Product;

(d) costs of freight, insurance, and other transportation charges related to the distribution of such Product (excluding any Taxes imposed on or with respect to net income, however denominated);

(e) import taxes, export taxes, excise taxes sales taxes, VAT, consumption taxes, duties or other taxes levied on or measured by the billing amount with respect to sales of such Product (for avoidance of doubt, excluding any Taxes imposed on or with respect to net income, however denominated);

(f) the portion of administrative fees paid during the relevant time period to group purchasing organizations or pharmaceutical benefit managers relating to such Product; and

(g) that portion of the annual fee on prescription drug Manufacturers imposed by the Patient Protection and Affordable Care Act, Pub. L. No. 111-148 (as amended) or any similar Applicable Law in any other jurisdiction that [***] allocates to sales of such Product.

Such amounts shall be determined in accordance with the applicable Accounting Standards. Even if there is overlap between any of the deductions described above, each individual item shall only be deducted once in the overall Net Sales calculation. To the extent that a Party, its Affiliates or Sublicensees receives any consideration other than monies for the sales of any products, Net Sales shall include the fair market value of such consideration.

In the event that the Product is sold as a Combination Product, Net Sales will be determined by multiplying Net Sales of such Combination Product by the fraction A/(A+B), where A is the invoice price of the Product, when sold separately, and B is the invoice price of any other active ingredient(s) in the combination, when sold separately, in each case in the same country and similar class, purity and dosage as in the Combination Product. If, on a country-by-country basis, the Product or the other active ingredient(s) in the Combination Product is/are not sold separately in such country, Net Sales shall be determined by multiplying actual Net Sales of such Combination Product by the fraction C/(C+D), where C is the fair market value of the Product portion of such combination and D is the fair market value of the other active ingredient(s) (such fair market value is to be determined by mutual agreement of the Parties or, in the absence of such mutual agreement, by a neutral Third Party).

1.96 "**On-Going Clinical Study**" has the meaning set forth in Section 13.6(b)(iv) (Effect of Termination - subsection (iv)).

1.97 "**Opt-Out**" has the meaning set forth in Section 13.6(a) (Opt-out).

1.98 "**Opt-Out Party**" has the meaning set forth in Section 13.6(a) (Opt-out).

1.99 "**Out-of-Pocket Costs**" means amounts paid to Third Party vendors or contractors, for services or materials provided by them directly in the performance of activities under the Co-Development Product Development Plan or BioNTech Products Collaboration Plan to the extent such services

or materials apply directly to the Development of any Co-Development Product or BioNTech Product (or such amounts paid to Third Parties for other activities not included in determination of Development Costs or Allowable Expenses, but for which sharing of Out-of-Pocket Costs is otherwise specified in this agreement). For clarity, Out-of-Pocket Costs do not include payments for internal: salaries or benefits; facilities; utilities; general office or facility supplies; insurance; information technology, capital expenditures or the like unless such expenses were pre-approved in writing by the Parties or agreed in the Co-Development Product Development Plan.

1.100 "**Patent**" means all patents and patent applications, including all provisionals, substitutions, divisionals, reissues, reexaminations, renewals, continuations, continuations-in-part, substitute applications, priority applications and inventors' certificates, extensions and supplemental certificates and any and all foreign equivalents of the foregoing.

1.101 "**Person**" means any individual, partnership, limited liability company, firm, corporation, association, trust, unincorporated organization or other entity.

1.102 "Phase 1 Clinical Trial" means a human clinical trial that would satisfy the requirements of 21 C.F.R. § 312.21(a) or any amended or successor regulations) or any equivalent regulations in other countries in the Territory, regardless of where such clinical trial is conducted.

1.103 "**Phase 2 Clinical Trial**" means a human clinical trial that would satisfy the requirements for a Phase 2 study as defined in 21 CFR § 312.21(b) (or any amended or successor regulations) or any equivalent regulations in other countries in the Territory, regardless of where such clinical trial is conducted.

1.104 "**Phase 3 Clinical Trial**" means a human clinical trial that would satisfy the requirements for a Phase 3 study as defined in 21 CFR § 312.21(c) (or any amended or successor regulations) or any equivalent regulations in other countries in the Territory, regardless of where such clinical trial is conducted.

1.105 "**PMDA**" means Japan's Pharmaceuticals and Medical Devices Agency or any successor entity thereto.

1.106 "**Pricing Approval**" means such governmental approval, agreement, determination or decision establishing prices for a BioNTech Product that can be charged and/or reimbursed in a regulatory jurisdiction where the applicable Governmental Authorities approve or determine the price and/or reimbursement of pharmaceutical products and where such approval or determination is necessary for the commercial sale of such BioNTech Product in such jurisdiction.

1.107 "**Product**" shall mean any BioNTech Product and/or any Co-Development Product, as applicable.

1.108 "**Protein of Interest**" means a protein as identified by a describing name and its amino acid sequence. For the avoidance of doubt, the term "Protein of Interest" comprises [***] protein, including but not limited to [***] (for example: [***] of the Protein of Interest [***]), provided however that [***] possesses [***] the protein as identified by a describing name and its amino acid sequence. If the Protein of Interest is an antibody or another molecule comprised of separated amino acid chains which might be delivered as separate mRNA constructs, such protein will be a single Protein of Interest for the purposes of this definition.

1.109 "**Receiving Party"** has the meaning set forth in Section 12.1(a) (Duty of Confidence - subsection (a)).

1.110 "**Regulatory Approval**" means all approvals, including Pricing Approvals and MAAs, that are necessary for the commercial sale of a product in a given country or regulatory jurisdiction.

1.111 "**Regulatory Authority**" means any applicable Government Authority responsible for granting Regulatory Approvals for products, including the FDA, the EMA, the PMDA, and any corresponding national or regional regulatory authorities.

1.112 "**Regulatory Exclusivity**" means any exclusive marketing rights or data exclusivity rights conferred by any Regulatory Authority with respect to a pharmaceutical product other than Patents, including orphan drug exclusivity, new chemical entity exclusivity, data exclusivity, or pediatric exclusivity.

1.113 "**Regulatory Filings**" means, with respect to a BioNTech Product or Co-Development Product, any submission to a Regulatory Authority of any appropriate regulatory application specific to BioNTech Product or Co-Development Product, and shall include any submission to a regulatory advisory board and any supplement or amendment thereto. For the avoidance of doubt, Regulatory Filings shall include any IND, NDA, MAA or the corresponding application in any other country or jurisdiction.

1.114 "**Remedial Action**" means any recall, corrective action or other regulatory action with respect to BioNTech Product or Co-Development Product taken by virtue of Applicable Laws.

1.115 "**Royalty Term**" has the meaning set forth in Section 8.3(b) (Royalty Term).

1.116 "**SEC**" has the meaning set forth in Section 12.6(a) (Publicity/Use of Names - subsection (a)).

1.117 "**Sole Inventions**" means any Inventions made solely by a Party's or its Affiliates' employees, agents or independent contractors.

1.118 "**Sublicense**" means: (a) a license or sublicense to Develop, make, have made, use, distribute, sell, offer for sale, have sold, import, export or otherwise Commercialize any BioNTech Product and (b) a license or sublicense to Develop, make, use, distribute, sell, offer for sale, have sold, import, export or otherwise Commercialize any Co-Development Product.

1.119 "**Sublicensee**" means a Third Party to whom BioNTech and/or Genevant has granted a Sublicense in accordance with the terms of this Agreement.

1.120 "**Tax**" or "**Taxes**" means any (a) federal, provincial, territorial, state, municipal, local, foreign or other taxes and other charges in the nature of a tax, including all income, excise, franchise, gains, capital, real property, goods and services, transfer, value added, gross receipts, windfall profits, severance, ad valorem, personal property, production, sales, use, license, stamp, documentary stamp, estimated or withholding taxes, and all customs and import duties; (b) any liability for the payment of any amounts of the type described in clause (a) as a result of being or having been a member of an affiliated, consolidated, combined or unitary group; and (c) any liability for the payment of any amounts as a result of being party to any tax sharing agreement or arrangement or as a result of any express or implied obligation to indemnify any other person with respect to the payment of any amounts of the type described in clause (a) or (b).

1.121 "Tax Payment" has the meaning set forth in Section 16.5(b) (Tax Cooperation).

1.122 "Term" has the meaning set forth in Section 13.1 (Term).

1.123 "**Territory**" means worldwide.

1.124 "**Third Party**" means any Person other than a Party or an Affiliate of a Party.

1.125 "**Third Party Products Liability Action**" has the meaning set forth in Section 15.6(a) (Conduct of Product Liability Claims - subsection (a)).

1.126 "**Transfer Plan**" has the meaning set forth in Section 2.4 (Initial Transfer of Know-How and Materials).

1.127 "Transfer Taxes" has the meaning set forth in Section 16.5(e) (Value Added Tax).

1.128 "**United States**" or "**U.S.**" means the United States of America including its territories and possessions.

1.129 "**Valid Claim**" means (a) a claim of an issued and unexpired Patent that has not been revoked or held unenforceable, unpatentable or invalid by a decision of a court or other governmental agency of competent jurisdiction that is not appealable or has not been appealed within the time allowed for appeal, and that has not been abandoned, disclaimed, denied or admitted to be invalid or unenforceable through reissue, re-examination or disclaimer or otherwise, or (b) a claim of a Patent application pending for no more than seven (7) years that has not been cancelled, withdrawn or abandoned or finally rejected by an administrative agency action from which no appeal can be taken.

1.130 "VAT" has the meaning set forth in Section 16.5(e) (Value Added Tax).

1.131 "**Voting Stock**" has the meaning set forth in Section 1.49(a) (Competitor Change of Control - subsection (a)).

1.132 "**Withholding Taxes**" has the meaning set forth in Section 16.5(b) (Tax Cooperation).

1.133 Interpretation. In this Agreement, unless otherwise specified:

(a) "includes" and "including" shall mean, respectively, includes without limitation and including without limitation;

(b) words denoting the singular shall include the plural and vice versa and words denoting any gender shall include all genders;

(c) words such as "herein", "hereof", and "hereunder" refer to this Agreement as a whole and not merely to the particular provision in which such words appear; and

(d) the Exhibits and other attachments form part of the operative provision of this Agreement and references to this Agreement shall include references to the Exhibits and attachments.

ARTICLE 2
LICENSES

2.1 License for BioNTech Products.

(a) **License Grant.** Subject to the terms and conditions of this Agreement, Genevant hereby grants to BioNTech an exclusive (even as to Genevant, except as expressly set forth herein), royalty-bearing license (or, where applicable, sublicense), with the right to grant sublicenses in accordance with Section 2.1(b) (Sublicense Rights), under the Genevant Technology to research, Develop, make, have made, use, distribute, sell, offer for sale, have sold, import, export and otherwise Commercialize BioNTech Products solely in the BioNTech Field in the Territory. For the avoidance of doubt, the above license to make and have made BioNTech Products shall only apply to the extent BioNTech is permitted to conclude a Manufacturing Transfer pursuant to Section 6.4 (Manufacturing Transfer).

(b) **Sublicense Rights.** Subject to the terms of this Section 2.1(b) (Sublicense Rights), BioNTech may grant a sublicense of the licenses granted in Section 2.1(a) (License Grant) to an Affiliate of BioNTech [***] without the prior written authorization of Genevant. BioNTech will provide Genevant with a copy of each fully executed Third Party sublicense agreement promptly upon execution. To the extent reasonably necessary, BioNTech may redact financial and other sensitive terms to the extent not necessary to confirm BioNTech's compliance with the terms of this Agreement. Each authorized sublicense, and each Sublicensee's rights, shall be in compliance with the following terms and conditions of this Agreement: Article 1 (Definitions), Article 2 (Licenses) (except Sections 2.2 (License for Co-Development Products) and 2.4 (Initial Transfer of Know-How and Materials)), Articles 4-8, Article 11 (Intellectual Property Rights) (except Section 11.4(c)), Article 12 (Confidentiality; Publication), Article 13 (Term and Termination); (except Sections 13.4 (Effect of Termination by BioNTech), 13.5(b)(ii) (Effect of Termination by Genevant - subsection (b)(ii)), 13.5(b)(iii) (Effect of Termination by Genevant - subsection (b)(iii)), 13.5(d) (Effect of Termination by Genevant - subsection (d)), and 13.6 (Opt-Out in Relation to Co-Development Product Development)), Article 15 Indemnification; Liability) (except Section 15.6 (Conduct of Product Liability Claims)), and Article 16 (General Provisions). . BioNTech shall cause each Sublicensee to comply with the following terms and conditions of this Agreement as if such Sublicensee were a Party to this Agreement: Article 1 (Definitions), Article 2 (Licenses) (except Sections 2.2 (License for Co-Development Products) and 2.4 (Initial Transfer of Know-How and Materials)), Articles 4-8, Article 11 (Intellectual Property Rights) (except Section 11.4(c)), Article 12 (Confidentiality; Publication), Article 13 (Term and Termination); (except Sections 13.4 (Effect of Termination by BioNTech),), 13.5(b)(ii) (Effect of Termination by Genevant - subsection (b)(ii)), 13.5(b)(iii) (Effect of Termination by Genevant - subsection (b)(iii)), 13.5(d) (Effect of Termination by Genevant - subsection (d)), and 13.6 (Opt-Out in Relation to Co-Development Product Development)), Article 15 Indemnification; Liability) (except Section 15.6 (Conduct of Product Liability Claims)), and Article 16 (General Provisions). No such permitted sublicense shall relieve BioNTech of any of its obligations or liabilities hereunder, for which obligations and liabilities BioNTech shall remain fully responsible and liable.

2.2 License for

Co-Development Products.

(a) **License Grant to BioNTech.** Subject to the terms and conditions of this Agreement, Genevant hereby grants to BioNTech: a co-exclusive license (or, where applicable, sublicense) with Genevant, with the right to grant sublicenses including through multiple tiers in accordance

with Section 2.2(c) (Sublicense Rights), under the Genevant Technology to research,

Develop, make, have made, use, distribute, sell, offer for sale, have sold, import, export and otherwise Commercialize Co-Development Products solely in the Co-Development Field in the Territory and solely as provided in the Co-Development Product Development Plan and Co-Development Product Commercialization Plan. For the avoidance of doubt, (i) the above license to distribute, sell, offer for sale, have sold, import, export and otherwise Commercialize Co-Development Products shall only apply to BioNTech to the extent BioNTech is the Lead Commercialization Party for such Co-Development Product in accordance with the terms of this Agreement; and (ii) the above license to make and have made Co-Development Products shall only apply to BioNTech to the extent the Parties agree in writing to modify Section 9.11 (Manufacturing Responsibilities) to permit the manufacture of Co-Development Products by BioNTech.

(b) **License Grant to Genevant.** Subject to the terms and conditions of this Agreement, BioNTech hereby grants to Genevant a co-exclusive license with BioNTech, with the right to grant sublicenses including through multiple tiers in accordance with Section 2.2(c) (Sublicense Rights), under the BioNTech Technology to research, Develop, make, have made, use, distribute, sell, offer for sale, have sold, import, export and otherwise Commercialize Co-Development Products solely in the Co-Development Field in the Territory and solely as provided in Co-Development Product Development Plan and Co-Development Product Commercialization Plan. For the avoidance of doubt, the above license to distribute, sell, offer for sale, have sold, import, export and otherwise Commercialize Co-Development Products shall only apply to Genevant to the extent Genevant is the Lead Commercialization Party for such Co-Development Product in accordance with the terms of this Agreement.

(c) **Sublicense Rights.**

(i) Subject to the terms of this Section 2.2(c) (Sublicense Rights), each Party may grant a sublicense of the licenses granted in Sections 2.2(a) (License Grant to BioNTech) and 2.2(b) (License Grant to Genevant) to an Affiliate of the Party without the prior written authorization of the other Party.

(ii) [***] prior to the anticipated Regulatory Approval for any Co-Development Product in any country in accordance with the then-current Co-Development Product Development Plan, neither Party may grant a sublicense of the licenses granted in Sections 2.2(a) (License Grant to BioNTech) and 2.2(b) (License Grant to Genevant) in recognition of the fact that the Parties believe the unique nature of their contributions is necessary for the successful development of Co-Development Products. If any Party is approached by a Third Party interested in a Sublicense for a Co-Development Product that has not yet received Regulatory Approval in any country or wishes to consider the possibility of offering a Sublicense for a Co-Development Product that has not yet received Regulatory Approval in any country, that Party will raise such matter with the JSC which will consider it in good faith taking into account the best interests of the Development of all the Co-Development Products and with the understanding that the Parties' intention as expressed in this Agreement is not to grant such Sublicenses.

(iii) [***] prior to the anticipated Regulatory Approval for any Co-Development Product in any country in accordance with the then-current Co-Development Product Development Plan, the Lead Commercialization Party for such Co-Development Product may grant a sublicense of the licenses granted in Sections 2.2(a) (License Grant to BioNTech) or 2.2(b) (License Grant to Genevant), as applicable, with respect to that Co-Development Product without the prior written authorization of the Party only in accordance with the following procedure:

Before granting any such sublicense, the Lead Commercialization Party will notify the other Party and give the other Party the opportunity to negotiate the terms of such a sublicense with the Party before negotiating with any Third Party. If the Parties cannot reach agreement within [***] on the terms of a sublicense, then the Party may grant such a sublicense to a Third Party, provided that (i) the terms of such sublicense granted to the Third Party are not more favorable than those offered to the other Party and (ii) prior to executing the sublicense with the Third Party such Party shall notify the other Party of the terms of the sublicense agreed with the Third Party and [***] with such Third Party [***] If the other Party does not notify the Lead Commercialization Party that [***] upon its receipt of the above notice, the Lead Commercialization Party shall be free to execute the sublicense agreement with the Third Party at the terms notified to the other Party.

(iv) The Party granting any Third Party sublicense hereunder will provide the other Party with a copy of each fully executed Third Party sublicense agreement promptly upon execution. To the extent reasonably necessary, such Party may redact financial and other sensitive terms to the extent not necessary to confirm such Party's compliance with the terms of this Agreement. Each authorized sublicense shall be in compliance with the following terms and conditions of this Agreement Article 1 (Definitions), Article 2 (Licenses) (except Sections 2.1 (Licenses for BioNTech) and 2.4 (Initial Transfer of Know-How and Materials)); Articles 9-10; Article 11 (Intellectual Property Rights) (except Section 11.4 (Infringement by Third Parties)); Article 12 (Confidentiality; Publication); Article 13 (Term and Termination) (except Sections 13.2(a) (Termination by BioNTech), 13.3 (Effect of Termination), 13.4 (Effect of Termination by BioNTech), and 13.5(c) (Effect of Termination by Genevant - subsection (c)); Article 15 (Indemnification; Liability) (except Section 15.2(d) (Indemnification by BioNTech - subsection (d)) and Article 16 (General Provisions). BioNTech shall cause each Sublicensee to comply with the following terms and conditions of this Agreement as if such Sublicensee were a Party to this Agreement: Article 1 (Definitions), Article 2 (Licenses) (except Sections 2.1 (Licenses for BioNTech)and 2.4 (Initial Transfer of Know-How and Materials)); Articles 9-10; Article 11 (Intellectual Property Rights) (except Section 11.4 (Infringement by Third Parties)); Article 12 (Confidentiality; Publication); Article 13 (Term and Termination) (except Sections 13.2(a) (Termination by BioNTech), 13.3 (Effect of Termination), 13.4 (Effect of Termination by BioNTech), and 13.5(c) (Effect of Termination by Genevant - subsection (c)); Article 15 (Indemnification; Liability) (except Section 15.2(d) (Indemnification by BioNTeech - subsection (d)) and Article 16 (General Provisions). No such permitted sublicense shall relieve such Party of any of its obligations or liabilities hereunder, for which obligations and liabilities such Party shall remain fully responsible and liable.

2.3 Retained Rights. Genevant retains the right under the Genevant Technology to exercise its rights and perform its obligations under this Agreement. In addition, Genevant retains, and hereby expressly reserves, the exclusive right to practice, and to grant licenses under, the Genevant Technology (a) for any and all purposes outside the BioNTech Field and Co-Development Field; (b) in the BioNTech Field with any product that is not a BioNTech Product; and (c) in the Co-Development Field with any product that is not a Co-Development Product. BioNTech retains the right under the BioNTech Technology to exercise its rights and perform its obligations under this Agreement. In addition, BioNTech retains, and hereby expressly reserves, the exclusive right to practice, and to grant licenses under, the BioNTech Technology (a) for any and all purposes outside the Co-Development Field and (b) in the Co-Development Field with any product that is not a Co-Development Product, subject to the limitations of Section 2.6 (Exclusivity).

2.4 Initial Transfer of Know-How and Materials. As of the Effective Date, the Parties have agreed on a plan for the transfer of Genevant Know-How (including the data therein) and certain tangible materials Controlled by Genevant as of the Effective Date to BioNTech and the transfer of BioNTech Know-How (including the data therein) and certain tangible materials Controlled by BioNTech as of the Effective Date to Genevant which plan is attached hereto as Exhibit D (the "**Transfer Plan**"). The Parties shall commence disclosing and making available to each other their respective Know-How and materials listed in the Transfer Plan according to the timeline set forth in the Transfer Plan. The Parties shall cooperate with each other in good faith to enable a smooth transfer of their respective Know-How to each other. Upon reasonable request by a Party, the other Party shall provide reasonable technical assistance of no more than two (2) FTEs working for three (3) months at the FTE Rate, including making appropriate employees available at reasonable times, places and frequency, and upon reasonable prior notice, for the purpose of assisting the Party to understand and use the other Party's Know-How in connection with the Party's Development of BioNTech Products and/or Co-Development Products. If a Party reasonably requests additional FTEs beyond that provided for in the preceding sentence, the Parties will negotiate for the provision of a reasonable amount of additional FTEs. Nothing in this Section 2.4 (Initial Transfer of Know-How and Materials) will apply to the transfer of any Genevant Know-How relating to the Manufacture of BioNTech Products. The transfer of any Genevant Know-How relating to the Manufacture of BioNTech Products is addressed in Article 6 (Manufacturing of BioNTech Products).

2.5 No Implied Licenses; Negative Covenant. Except as set forth herein, neither Party shall acquire any license or other intellectual property interest, by implication or otherwise, under any Know-How, Patents, trademarks or other intellectual property rights owned or controlled by the other Party. BioNTech hereby covenants not to practice, and not to permit or cause any of its Affiliate or any Third Party to practice, any Genevant Technology for any purpose other than as expressly authorized in this Agreement, and Genevant hereby covenants not to practice, and not to permit or cause any of its Affiliate or any Third Party to practice, any BioNTech Technology for any purpose other than as expressly authorized in this Agreement. Without limiting the generality of the foregoing, (a) BioNTech shall not, directly or indirectly: (i) practice Genevant Technology to Develop, make, have made, use, distribute, sell, offer for sale, have sold, import, export and otherwise Commercialize any BioNTech Product for use outside the BioNTech Field or any Co-Development Product for use outside the Co-Development Field; or (ii) permit or cause any of its Affiliates or any Third Party to engage in any of the activities described in the preceding clause (i); and (b) Genevant shall not, directly or indirectly: (i) practice BioNTech Technology to Develop, make, have made, use, distribute, sell, offer for sale, have sold, import, export and otherwise Commercialize any Co-Development Product for use outside the Co-Development Field; or (ii) permit or cause any of its Affiliates or any Third Party to engage in any of the activities described in the preceding clause (i).

2.6 Exclusivity. During the Term of this Agreement for the relevant BioNTech Product or any Co-Development Product, BioNTech shall not conduct, itself or through an Affiliate or Third Party, and shall not enable a Third Party to conduct, any clinical Development, promotion or Commercialization of any product involving the use of LNP with any BioNTech mRNA Payload or any Co-Development mRNA Payload contained in such BioNTech Product or Co-Development Product other than in collaboration with Genevant pursuant to the terms of this Agreement.

2.7 [***] **Agreement.** BioNTech understands and agrees that any sublicenses granted by Genevant hereunder to any Genevant Technology owned by [***] is subject to the terms of the

[***] Agreement. If the [***] Agreement is terminated, any such sublicenses will convert to a direct license from [***] provided that BioNTech: (a) is not then in breach of this Agreement; (b) agrees in writing to be bound to [***] as a licensee under the terms and conditions of the [***] Agreement; and (c) agrees in writing that in no event shall [***] assume any obligations or liability, or be under any obligation or requirement of performance that extends beyond [***] obligations and liabilities, as applicable, under the [***] Agreement. BioNTech further consents to Genevant providing a copy of this Agreement to [***].

ARTICLE 3
GOVERNANCE

3.1 Joint Steering Committee. Within thirty (30) days after the Effective Date, the Parties shall establish a Joint Steering Committee (the "**Joint Steering Committee**" or the "**JSC**"), composed of two (2) representatives of each Party, to guide the collaboration of the Parties under this Agreement and to oversee the exchange of information between the Parties with respect to (a) the Development and Manufacturing of BioNTech Products (only to the extent it involves or affects Development or Manufacturing activities to be performed by Genevant under the BioNTech Products Collaboration Plan or the Co-Development Product Development Plan) and (b) the Development, Manufacturing and Commercialization of Co-Development Products. For the avoidance of doubt, all Development or Manufacturing activities for BioNTech Products which do not involve or affect Development or Manufacturing activities to be performed by Genevant under this Agreement as well as all Commercialization activities relating to BioNTech Products shall not be subject to guidance or oversight by the JSC pursuant to this Section 3.1. Each JSC representative shall have appropriate knowledge and expertise and sufficient seniority within the applicable Party to make decisions arising within the scope of the JSC's responsibilities. The JSC shall in particular:

(a) provide a forum for the discussion of and decision making regarding the Development of BioNTech Products (only to the extent it involves or affects Development or Manufacturing activities to be performed by Genevant under the BioNTech Products Collaboration Plan or the Co-Development Product Development Plan);

(b) provide a forum for BioNTech to keep Genevant informed regarding the Development of BioNTech Products in the BioNTech Field by BioNTech, its Affiliates, and Sublicensees, including the status of any Regulatory Filings, Regulatory Approvals, or clinical trials;

(c) oversee the transfer of Genevant Know-How and materials to BioNTech under Section 2.4 (Initial Transfer of Know-How and Materials);

(d) oversee the transfer of BioNTech Know-How and materials to Genevant under Section 2.4 (Initial Transfer of Know-How and Materials);

(e) provide a forum for the discussion of and decision making regarding the Development, Manufacturing and Commercialization of Co-Development Products by the Parties, their Affiliates, and Sublicensees;

(f) review and discuss in good faith any updates to any

Co-Development Product Development Plan, and approve any updates to such Co-Development Product Development Plan;

(g) to the extent not set forth in any Co-Development Product Development Plan, allocate responsibility for activities under any Co-Development Product Development Plan;

(h) create and approve budgets for all activities under any Co-Development Product Development Plan;

(i) discuss and agree on the Lead Commercialization Party for each Co-Development Product for the Territory in accordance with Section 10.1 and allocate responsibility for Commercialization of such Co-Development Product in accordance with Section 10.2 (Commercialization Plan and Report);

(j) to the extent not set forth in the Co-Development Commercialization Plan, allocate responsibility for activities under the Co-Development Commercialization Development Plan;

(k) create and approve budgets for all activities under the Co-Development Product Commercialization Plan;

(l) create subcommittees to govern activities under the Agreement;

(m) discuss any proposed Sublicense that a Party wishes to grant for a Co-Development Product; and

(n) discuss and agree which technology developed by BioNTech outside of the collaboration of this Agreement shall be included in the Co-Development Products.

The JSC shall have only such powers as are expressly assigned to it in this Agreement, and such powers shall be subject to the terms and conditions of this Agreement. The JSC, Executive Officers, Subcommittees, and Alliance Managers shall not have any right, power or authority: (i) to determine any issue in a manner that would conflict with the express terms and conditions of this Agreement; or (ii) to modify or amend the terms and conditions of this Agreement. In addition, to the extent a Party grants any Sublicenses in accordance with Section 2.1(b) (Sublicense Rights) or Section 2.2(c) (Sublicense Rights), the Party will be responsible for obtaining from its Sublicensees all information necessary to allow the Party to meet its obligations to the JSC with respect to the subject matter of the Sublicense.

3.2 JSC Membership and Meetings.

(a) **Members.** Genevant's initial JSC representatives will be Peter Lutwyche and James Heyes and BioNTech's initial JSC representatives will be Andreas Kuhn and Katalin Kariko. BioNTech shall designate one of its JSC representatives to act as chairperson of the JSC. Each Party may replace its JSC representatives (and, for BioNTech, the chairperson) on written notice to the other Party, but each Party shall strive to maintain continuity. The JSC members shall jointly prepare an agenda and shall direct the preparation of reasonably detailed minutes for each JSC meeting, which shall be circulated and approved within thirty (30) days of such meeting.

(b) **Meetings.** The JSC shall hold meetings at such times as it elects to do so, but in no event, shall such meetings be held less frequently than once per Calendar Quarter. Meetings may be held in person, or by audio or video teleconference; *provided*, that unless otherwise agreed by both Parties, at least one (1) meeting per year shall be held in person, and all in-person JSC meetings shall be held at locations mutually agreed upon by the Parties. Each Party shall be responsible for all of its own expenses of participating in JSC meetings.

(c)

Non-Member Attendance. Each Party may from time to time invite a reasonable number of participants, in addition to its representative, to attend JSC meetings in a non-voting capacity; *provided*, that if either Party intends to have any Third Party (including any consultant) attend such a meeting, such Party shall provide at least three (3) days prior written notice to the other Party and obtain the other Party's approval for such Third Party to attend such meeting, which approval shall not be unreasonably withheld or delayed. Such Party shall ensure that such Third Party is bound by confidentiality and non-use obligations consistent with the terms of this Agreement.

3.3 JSC Decision-Making. All decisions of the JSC shall be made by unanimous vote, with each Party's representatives collectively having one (1) vote. If after reasonable discussion and good faith consideration of each Party's view on a particular matter before the JSC, the representatives of the Parties cannot reach an agreement as to such matter within [***] Business Days after such matter was brought to the JSC for resolution, such disagreement shall be referred to the Chief Executive Officer of BioNTech (or his or her designe e) and the Chief Executive Officer or Executive Chairman of Genevant (or his or her designee) (collectively, the "**Executive Officers**") for resolution, who shall use good faith efforts to resolve such matter within ten (10) Business Days after it is referred to them. If the Executive Officers are unable to reach consensus on any such matter during such period, then:

(a) for any decision [***] BioNTech Products (except for decisions primarily relating to the Manufacture of BioNTech Products prior to any Manufacturing Transfer); or the

Co-Development mRNA Payloads; the Development of any Co-Development Product for which BioNTech is the Lead Commercialization Party after completion of the first Phase 1 Clinical Trial for such Co-Development Product; or Commercialization of any Co-Development Product for which BioNTech is the Lead Commercialization Partner, the Chief Executive Officer of BioNTech shall have the right to decide in good faith, provided that (i) such decision is in compliance with the then-current Co-Development Products Development Plan and does not result in any additional efforts to be provided by Genevant and (ii) the Chief Executive Officer of Genevant has not demonstrated on reasonable grounds before the expiry of the abovementioned period of [***] Business Days (1) that any such decision could reasonably be expected to have a material negative tax impact on Genevant, any of its Affiliates, or any of its direct or indirect shareholders including by causing (A) Genevant or any of its Affiliates to be subject to net income taxation in any jurisdiction in which it does not have a taxable presence or nexus immediately prior to the Effective Date or (B) Genevant, any of its Affiliates, or any of its direct and indirect shareholders to be treated as earning "passive income" for purposes of Section 1297 of the Internal Revenue Code of 1986, as amended (the "**Code**") or "subpart F income" for purposes of Section 952 of the Code, in each case, as a result of or in connection with Commercialization activities and (2) that such material negative tax impact prevails the Parties' business interest, ignoring such tax impact, in the implementation of the relevant decision; and

(b) for any decision [***] Genevant LNPs; the Manufacture of BioNTech Products prior to any Manufacturing Transfer; the Development of any Co-Development Product for which BioNTech is the Lead Commercialization Party prior to completion of the first Phase 1 Clinical Trial for such Co-Development Product; or the Development or Commercialization of any Co-Development Product for which Genevant is the Lead Commercialization Party, the Executive Officer of Genevant shall have the right to decide, provided that (i) such decision is in

compliance with the then-current Co-Development Products Development Plan and does not result in any additional efforts to be provided by BioNTech and (ii) the Chief Executive Officer of BioNTech has not demonstrated on reasonable grounds before the expiry of the abovementioned period of [***] that (1) any such decision could reasonably be expected to have a material negative tax impact on BioNTech, any of its Affiliates, or any of its direct or indirect shareholders including by causing (A) BioNTech or any of its Affiliates to be subject to net income taxation in any jurisdiction in which it does not already have a taxable presence or nexus immediately prior to the Effective Date or (B) Genevant, any of its Affiliates, or any of its direct and indirect shareholders to be treated as earning "passive income" for purposes of the Code or "subpart F income" for purposes of Section 952 of the Code, in each case, as a result of or in connection with Commercialization activities and (2) that such material negative tax impact prevails the Parties' business interest, ignoring such tax impact, in the implementation of the relevant decision; and

(c) for all other decisions, no Party shall have any final decision-making power. Notwithstanding anything to the contrary in (a) and (b) above, for any decision primarily related to the dosing of a Co-Development mRNA Payload or issues with the safety of a Co-Development mRNA Payload, no Party shall have any final decision-making power.

3.4 Subcommittees. Within two (2) weeks following the Effective Date, the JSC will form the following subcommittees to govern and monitor their collaboration with respect to Co-Development Products: (i) a Joint Development Subcommittee, (ii) a Joint Manufacturing Subcommittee, (iii) a Joint Financial Subcommittee as well as any other subcommittee that the Parties deem appropriate. The related membership, meeting frequencies, responsibilities will be agreed between the Parties prior to forming those subcommittees. Decisions of each subcommittee shall require unanimous consent. Issues that cannot be agreed on subcommittee level shall be escalated to the JSC.

3.5 Alliance Managers. Promptly after the Effective Date, each Party shall appoint an individual to act as the alliance manager for such Party (the "**Alliance Manager**"), which individual may also be a JSC member. Each Alliance Manager shall be responsible for alliance management between the Parties on a day-to-day basis throughout the Term. If not a member of the JSC, each Alliance Manager shall be permitted to attend meetings of the JSC as non-voting participants. The Alliance Managers shall be the primary contact for the Parties regarding the activities contemplated by this Agreement and shall facilitate all such activities hereunder. Each Party may replace its Alliance Manager with an alternative representative at any time upon written notice to the other Party. Any Alliance Manager may designate a substitute to temporarily perform the functions of that Alliance Manager upon written notice to the other Party. Each Alliance Manager shall be charged with creating and maintaining a collaborative work environment within the JSC and between the Parties.

ARTICLE 4
DEVELOPMENT OF BIONTECH PRODUCTS

4.1 General. Subject to the terms and conditions of this Agreement, BioNTech shall be solely responsible for the Development of BioNTech Products in the BioNTech

Field in the Territory, including the performance of preclinical and clinical studies of any BioNTech Product in the BioNTech Field.

4.2 BioNTech Products Development. BioNTech shall use Commercially Reasonable Efforts to conduct all Development of BioNTech Products in the BioNTech Field in

the Territory in accordance with a general development plan (as amended in accordance with this Agreement, the "**BioNTech Development Milestone Plan**"), the initial version of which is set forth in Exhibit E. From time to time, but at least every [***], BioNTech will confirm whether the estimated timelines in the BioNTech Development Milestone Plan are still expected to be met or will update the BioNTech Development Milestone Plan to reflect any changes.

4.3 Conduct of Development Activities by BioNTech. BioNTech shall Develop BioNTech Products in the Field in the Territory in compliance with all Applicable Laws, including good scientific and clinical practices under the Applicable Laws of the country in which such activities are conducted.

4.4 Conduct of Development Activities by Genevant. Notwithstanding the above, Genevant will assist BioNTech in the Development and Manufacture of LNP formulations for use in BioNTech Products in accordance with a development plan to be agreed between the Parties (the "**BioNTech Products Collaboration Plan**"), the initial version of which is set forth in Exhibit I. Within the framework of the BioNTech Products Collaboration Plan, Genevant will also assist in the identification of the final LNP to be used with each BioNTech Product to create BioNTech Products. As set forth in Article 6 (Manufacturing of BioNTech Products), Genevant will also be responsible for Manufacture of the BioNTech Products. All activities of Genevant under this Section 4.4 shall be made in compliance with all Applicable Laws, including good scientific and clinical practices under the Applicable Laws of the country in which such activities are conducted.

4.5 Records and Updates. Each Party shall maintain records, in sufficient detail and in good scientific manner appropriate for patent and regulatory purposes, which shall fully and properly reflect all work done and results achieved by or on behalf of such Party in the performance of Development or Manufacturing activities in relation to BioNTech Products pursuant to this Agreement. BioNTech shall keep the JSC regularly informed of the status of material Development activities conducted with respect to BioNTech Products in the BioNTech Field in the Territory pursuant to this Agreement. Without limiting the foregoing, at least once every [***] months beginning with the third Calendar Quarter of the Calendar Year 2018, BioNTech shall provide the JSC or Genevant with a summary report about its current and planned development activities for BioNTech Products in the BioNTech Field in the Territory, covering subject matter at a level of detail sufficient to enable Genevant to determine BioNTech's compliance with its diligence obligations under Section 4.6 ("**Development Diligence**"). BioNTech agrees that Genevant can provide such status reports and summaries to [***] to the extent required under the [***] Agreement.

4.6 Development Diligence. BioNTech, directly and/or with or through Affiliates or Sublicensees, shall use Commercially Reasonable Efforts to Develop, and to obtain Regulatory Approval for, the BioNTech Products in the BioNTech Field in the U.S., Germany, United Kingdom, France, Spain and Italy. It is understood and agreed by the Parties that BioNTech intends to seek Regulatory Approval in the above listed countries first. Following Regulatory Approval in those countries of a BioNTech Product, if it is commercially reasonable to do so, BioNTech will also use Commercially Reasonable Efforts to seek Regulatory Approval for such BioNTech Product in Asia and any other countries in Europe.

4.7 Development Costs. As between the Parties, BioNTech shall be solely responsible for the cost for the Development of BioNTech Products in the BioNTech Field in the Territory. All assistance provided by Genevant pursuant to Section 4.4 (Conduct of Development Activities by Genevant) shall [***] BioNTech, unless otherwise specified in Article 6 (Manufacturing of BioNTech Products).

4.8 Compliance. Each Party agrees that in performing its obligations under this Agreement in relation to BioNTech Products: (a) it shall comply with all Applicable Laws; and (b) it will not employ or engage any Person who has been debarred or disqualified by any Regulatory Authority, or, to its knowledge, is the subject of debarment or disqualification proceedings by a Regulatory Authority.

4.9 Subcontractor. BioNTech shall have the right to engage subcontractors for the performance of its obligations under the Agreement in relation to BioNTech Products, and shall cause the subcontractor(s) engaged by it to be bound by written obligations of confidentiality and non-use of Genevant's Confidential Information and invention assignment consistent with those contained herein, and BioNTech shall remain primarily responsible for the performance of such subcontractor(s).

ARTICLE 5
REGULATORY ACTIVITIES FOR BIONTECH PRODUCTS

5.1 Regulatory Responsibilities. BioNTech shall be responsible for all regulatory activities necessary to obtain and maintain Regulatory Approval of BioNTech Products in the BioNTech Field in the Territory. BioNTech shall keep Genevant informed of regulatory developments related to BioNTech Products in the BioNTech Field in the Territory both via the JSC and BioNTech's reports pursuant to Section 4.5 (Records and Updates).

5.2 Regulatory Filings. BioNTech shall prepare and submit all Regulatory Filings for BioNTech Products in the BioNTech Field in the Territory and shall own all Regulatory Filings and Regulatory Approvals for BioNTech Products in the BioNTech Field in the Territory. Genevant will have the right to review and comment on any portions of Regulatory Filings relating to Genevant LNP or the manufacture of BioNTech Products other than the manufacture of the BioNTech mRNA Payloads prior to the submission of such Regulatory Filings. [***], BioNTech agrees to provide to Genevant copies of any Regulatory Filings or data contained therein requested by Genevant for [***].

5.3 Remedial Actions. BioNTech will notify Genevant without undue delay (and in any event within timelines set by Applicable Law), and promptly confirm such notice in writing, if it obtains information indicating that a BioNTech Product may be subject to any Remedial Action. The Parties will assist each other in gathering and evaluating such information as is necessary to determine the necessity of conducting a Remedial Action. BioNTech shall, and shall ensure that its Affiliates and Sublicensees will, maintain adequate records to permit BioNTech to trace the Manufacture, distribution and use of the BioNTech Products. BioNTech shall have the sole discretion with respect to any matters relating to any Remedial Action with respect to any BioNTech Product in the BioNTech Field in the Territory, including the decision to commence such Remedial Action and the control over the conduct of such Remedial Action, provided that BioNTech shall notify Genevant prior to making any public disclosure of Remedial Action and shall keep Genevant regularly informed regarding any such Remedial Action. BioNTech shall be solely responsible for the cost and expense of any such Remedial Action in the BioNTech Field, except [***] such Remedial Action [***].

5.4 Pharmacovigilance. At least [***] prior to the filing of an IND for any BioNTech Product, the Parties shall define and finalize the actions that the Parties shall employ with respect to such BioNTech Product to protect patients and promote their well-being in a written pharmacovigilance agreement (each a "**BioNTech Product Pharmacovigilance Agreement**"), with BioNTech as the global safety database holder. These responsibilities shall include mutually acceptable guidelines and procedures for the receipt, investigation, recordation, communication, and exchange (as between the Parties) of adverse event reports and any other information concerning the safety of the BioNTech Products. Such guidelines and procedures shall be in accordance with, and enable the Parties to fulfill, local and national regulatory reporting obligations under applicable laws and regulations. Each Party hereby agrees to comply with its respective obligations under such Pharmacovigilance Agreement and to cause its Affiliates and Sublicensees to comply with such obligations. BioNTech will maintain the global safety database pursuant to its own policy and as necessary to comply with Applicable Laws governing adverse experiences in the Territory.

5.5 Development Disparity for BioNTech Products. In recognition of the fact that the Parties do not intend for the Development of BioNTech Products to take precedence over the

Co-Development Products and vice versa, the Parties agree to use Commercially Reasonable Efforts to ensure that the Development of both such products are treated equally.

ARTICLE 6
MANUFACTURING OF BIONTECH PRODUCTS

6.1 Manufacture of BioNTech Products. Unless BioNTech requests a Manufacturing Transfer and such Manufacturing Transfer has been fully completed in accordance with Section 6.4 (Manufacturing Transfer), Genevant shall be solely responsible for all preclinical, clinical and commercial Manufacture and supply of all BioNTech Products for all uses under this Agreement. BioNTech will supply to Genevant all BioNTech mRNA Payloads for such Manufacture at BioNTech's sole expense. Genevant may conduct such Manufacturing activities itself or through a Third Party CMO under Genevant's control, subject to Section 4.9 (Subcontractor). Within a reasonable time after the Effective Date (and no later than six (6) months following the Effective Date), the Parties will execute a supply agreement to govern the supply of BioNTech Products to BioNTech from Genevant or the Third Party CMO selected and controlled by Genevant ("**BioNTech Product Supply Agreement**").

6.2 Payment for BioNTech Product Manufacture. BioNTech shall pay Genevant for supply of BioNTech Products at a price equal to Genevant's Manufacturing Expenses. The mechanism for invoicing, forecasting, and payment for such BioNTech Products will be set forth in the BioNTech Product Supply Agreement.

6.3 Initial Transfer of BioNTech Product Manufacturing

Know-How.

(a) **BioNTech Product Initial Manufacturing**

Know-How. During a mutually agreed time period prior to any Regulatory Filing for BioNTech Products planned by BioNTech, Genevant shall make available and transfer to BioNTech, copies of the BioNTech Product Manufacturing Know-How that is listed in Exhibit L and is necessary to enable BioNTech to prepare Regulatory Filings and clinical trials for the BioNTech Products. If a Regulatory Authority requests that BioNTech provide additional BioNTech Product Manufacturing Know-How concerning the manufacture of the BioNTech Products beyond the information listed in Exhibit

L, BioNTech will inform Genevant of such request and Genevant will provide such

information to BioNTech without any undue delay (and in any event reasonably in advance prior to any timelines set by the Regulatory Authority), provided that Genevant has such information in its possession or control. If BioNTech believes any BioNTech Product Manufacturing Know-How related to the manufacture of the BioNTech Products other than that listed in Exhibit L is necessary to enable BioNTech to prepare Regulatory Filings or clinical trials for the BioNTech Products, BioNTech may request such additional Know-How from Genevant. Provided BioNTech can demonstrate that such additional BioNTech Product Manufacturing Know-How is reasonably necessary to enable BioNTech to prepare Regulatory Filings or clinical trials for the BioNTech Products, Genevant will produce such additional BioNTech Product Manufacturing Know-How to BioNTech without any undue delay. All Genevant Manufacturing Know-How provided to BioNTech pursuant to this Section 6.3(a) (BioNTech Product Initial Manufacturing Know-How) including the BioNTech Product Manufacturing Know-How listed on Exhibit L is herein after referred to as "**BioNTech Product Initial Manufacturing Know-How**." All services associated with transfer of any BioNTech Product Initial Manufacturing Know-How will be paid by BioNTech in accordance with the FTE Rate.

(b) **Use of BioNTech Product Initial Manufacturing Know-How.** BioNTech hereby covenants and agrees that BioNTech Product Initial Manufacturing Know-How will be used solely for purposes of the preparation of Regulatory Filings and clinical trials and will not be used in the research and development of any products other than BioNTech Products. Only those employees with a need to know such information to prepare Regulatory Filings or clinical trials will be granted access to the BioNTech Product Initial Manufacturing Know-How. Prior to granting access to the BioNTech Product Initial Manufacturing Know-How to any BioNTech employee, BioNTech will identify such employee to Genevant in writing. In addition, prior to granting access to such employee, the employee will sign a nondisclosure agreement with BioNTech relating to the BioNTech Product Initial Manufacturing Know-How, which will include terms requiring the employee to maintain the BioNTech Product Initial Manufacturing Know-How in strict confidence and not to use the BioNTech Product Initial Manufacturing Know-How in the research and development of any products or technology including or relating to LNP (other than BioNTech Products).

(c) **Batch Records.** To the extent any batch records related to the manufacture of BioNTech Products by Genevant are required to be reviewed in order for BioNTech to conduct any clinical trials, such batch records may only be made available to employees of BioNTech or its Affiliates who have signed a separate non-disclosure agreement relating to the use of the batch records under which such employees will agree to only use such batch records for quality purposes relating to the relevant batches Manufactured by Genevant, to maintain the batch records in strict confidence and not to use the batch records in the research and development of any products or technology including or relating to LNP (other than BioNTech Products). Such employees will not be involved in or have any responsibility or decision making authority for the research and development of any products or technology including or relating to LNP (other than BioNTech Products).

6.4 Manufacturing Transfer. With respect to any BioNTech Product, and on a BioNTech Product-by-BioNTech Product basis, at a time following the completion of the first Phase 1 Clinical Trial for such BioNTech Product, BioNTech may request from Genevant that (a) Genevant collaborate with BioNTech to transfer the Manufacturing of such BioNTech Product to BioNTech, a collaboration partner of BioNTech in relation to such BioNTech Product or a CMO selected and controlled by BioNTech or such collaboration partner or (b) Genevant permit BioNTech or such collaboration partner to conclude a direct manufacturing and supply agreement

with the CMO selected by Genevant or such collaboration partner ("**Manufacturing Transfer**"). In the event of any request for Manufacturing Transfer, Genevant shall provide support that is reasonably necessary or useful for BioNTech, the collaboration partner or the CMO to take over the Manufacturing of the relevant BioNTech Product within a reasonable period of time following such request. Further details of the Manufacturing Transfer shall be reasonably agreed between the Parties in a Manufacturing Transfer plan. A Manufacturing Transfer shall be deemed completed, per BioNTech Product, upon both (i) completion of [***] successful batch Manufactured at the facility to which the Manufacturing is transferred and (ii) approval of the change of Manufacturing facility by the Governmental Entity(ies) relevant for the Manufacturing or Commercialization of such BioNTech Product. All Manufacturing Transfer services to be provided by Genevant under this Section 6.4 (Manufacturing Transfer) shall be paid by BioNTech in accordance with the FTE Rate.

6.5

Pre-existing or Publicly Available Manufacturing Know-how. For the avoidance of doubt, nothing in this Article 6 (Manufacturing of BioNTech Products) shall restrict BioNTech or its Affiliates or collaboration partners to use any Manufacturing Know-how that (i) was in the possession of BioNTech or such Affiliate or collaboration partner prior to disclosure of such Manufacturing Know-how by Genevant, as shown by contemporaneous evidence, or (ii) is in the public domain by use and/or publication before its receipt from Genevant, or thereafter enters the public domain through no fault of, or breach of this Agreement by, BioNTech.

ARTICLE 7
COMMERCIALIZATION

7.1 General. Subject to the terms and conditions of this Agreement, BioNTech shall be responsible for all aspects of the Commercialization of the BioNTech Products in the BioNTech Field in the Territory, including: (a) developing and executing a commercial launch and pre-launch plan, (b) negotiating with applicable governmental authorities regarding the price and reimbursement status of the BioNTech Products and obtaining and maintaining Pricing Approvals; (c) marketing, medical affairs, and promotion; (d) booking sales and distribution and performance of related services; (e) handling all aspects of order processing, invoicing and collection, inventory and receivables; (f) providing customer support, including handling medical queries, and performing other related functions; and (g) conforming its practices and procedures to Applicable Law relating to the marketing, detailing and promotion of BioNTech Products in the BioNTech Field in the Territory. As between the Parties, BioNTech shall be solely responsible for the costs and expenses of Commercialization of the BioNTech Products in the BioNTech Field in the Territory.

7.2 Commercial Diligence. BioNTech, directly and/or with or through Affiliates or Sublicensees, shall use Commercially Reasonable Efforts to Commercialize BioNTech Products in the BioNTech Field in countries in the Territory in which a BioNTech Product has received Regulatory Approval.

7.3 Commercialization Reports. BioNTech shall keep Genevant reasonably informed of BioNTech's, its Affiliates' and Sublicensees' Commercialization activities with respect to the BioNTech Products in the BioNTech Field in the Territory. Without limiting the foregoing, on [***] of each Calendar Year, beginning in the Calendar Year of BioNTech's first submission of an MAA for a BioNTech Product in the BioNTech Field in the Territory, BioNTech shall provide Genevant with a written report summarizing material Commercialization activities with respect to the BioNTech Products in the BioNTech Field in the Territory performed in the [***] and material

Commercialization activities with respect to the BioNTech Products in the BioNTech Field in the Territory planned for the [***]. BioNTech shall promptly respond to Genevant's reasonable questions or requests for additional information relating to the progress and results of its and its Affiliates' and Sublicensees' Commercialization activities under this Agreement.

ARTICLE 8
BIONTECH PRODUCT FINANCIAL PROVISIONS

8.1 [***] **Milestone Payments.** Within [***] after the first achievement of each milestone event below for each BioNTech Product by or on behalf of BioNTech or any of its Affiliates or Sublicensees, BioNTech shall notify Genevant of the achievement of such milestone event and shall remit payment to Genevant within [***] of its receipt of Genevant's invoice for such payment.

[***]

For clarity, (a) if a BioNTech Product undergoes [***] only one payment of [***] is due for such BioNTech Product; (b) [***] payments above are payable on each BioNTech Product (for example, if BioNTech [***] for all five (5) BioNTech Products, BioNTech will make [***] and (c) each milestone payment is only due once per BioNTech Product.

8.2 Commercial Milestones.

(a) Within [***] after the end of the Calendar Quarter in which aggregate annual Net Sales of any BioNTech Product by or on behalf of BioNTech or any of its Affiliates or Sublicensees in the BioNTech Field in the Territory first reach any threshold indicated in the milestone events listed below, BioNTech shall notify Genevant of the achievement of such milestone event and shall remit payment to Genevant within [***] of its receipt of Genevant's invoice for such payment.

[***]

For clarity, the commercial milestone payments above are payable only once per BioNTech Product on aggregate annual Net Sales of such BioNTech Product. For example, if aggregate annual Net Sales for each of the five (5) BioNTech Products in a Calendar Year equal [***].

(b) If a commercial milestone event in Section 8.2(a) (Commercial Milestones - subsection(a)) is achieved for a BioNTech Product and payment with respect to any previous milestone event has not been made for the same BioNTech Product, then such previous milestone event shall be deemed achieved for such BioNTech Product and BioNTech shall pay Genevant such unpaid previous milestone payment(s) at the same time it pays the milestone payment for the commercial milestone event it achieved.

8.3 Royalty Payments.

(a) **Royalty Rate.** During the Royalty Term, BioNTech shall pay to Genevant non-refundable, non-creditable royalty of [***] on aggregate annual Net Sales of all BioNTech Products in the BioNTech Field in the Territory in each Calendar Year.

(b) **Royalty Term.** Royalties under this Section 8.3 (Royalty Payments) shall be payable on a country-by-country and BioNTech Product-by-BioNTech Product basis from the First Commercial Sale of each BioNTech Product in a country until the latest of: (i) expiration of the last-to-expire Valid Claim of the Genevant Patents that would, but for the licenses granted hereunder, be infringed by the Manufacture, use or sale of such BioNTech Product in such country in the Territory; (ii) expiration of Regulatory Exclusivity for such BioNTech Product in such country (provided that during such Regulatory Exclusivity no mRNA-based product directed to the same Protein of Interest and the same indication competitive to the relevant BioNTech Product comes on the market in the relevant country); and (iii) the [***] anniversary of the First Commercial Sale of such BioNTech Product in such country (the "**Royalty Term**" for such BioNTech Product and country).

(c) **Royalty Reports and Payment.** Within [***] Calendar Quarter, commencing with the Calendar Quarter during which the First Commercial Sale of any BioNTech Product is made anywhere in the Territory, BioNTech shall provide Genevant with a report that contains the following information for such period, on a BioNTech Product-by-BioNTech Product and country-by-country basis: (i) gross sales and Net Sales in the Territory; (ii) deductions from gross sales permitted pursuant to Section 1.95 (Net Sales) in a reasonable level of detail (by each subsection set forth in the definition of Net Sales); (iii) a calculation of the royalty payment due on Net Sales in the Territory; and (iv) the exchange rates used. BioNTech will pay Genevant all royalties owed with respect to Net Sales for such Calendar Quarter within thirty (30) days of its receipt of Genevant's invoice for such royalties.

8.4 Royalty Adjustment for Third Party License Payments. If BioNTech, its Affiliates or Sublicensees, in their reasonable judgment, is required or determines it is reasonably necessary to make any payments to a Third Party for a license under any Patent to make, have

made, use, offer for sale, sell and/or import BioNTech Products in the BioNTech Field in any country in the Territory, then the amount of royalties payable under Section 8.3(a) (Royalty Rate) shall be reduced by [***] of the amount of any royalties paid to such Third Party on account of the sale of the BioNTech Products in such country in such Calendar Quarter; *provided, however*, that the royalties payable under Section 8.3(a) (Royalty Rate) shall not be reduced by more than [***] of the amounts set forth in Section 8.3(a) (Royalty Rate) by reason of the adjustment provided for in this Section 8.4 (Royalty Adjustment for Third Party License Payments).

8.5 Currency; Exchange Rate. All payments to be made by BioNTech to Genevant under this Agreement shall be made in Dollars by bank wire transfer in immediately available funds to a bank account designated by written notice from Genevant. If any currency conversion shall be required in connection with any payment hereunder, such conversion shall be made by in accordance with the currency conversion methodology generally applied by BioNTech in accordance with its group accounting practice provided such methodology is consistent with generally accepted accounting principles.

8.6 Late Payments. Late payments shall be subject to an interest charge of [***], or the maximum rate permitted by law, whichever is lower, which additional interest shall be compounded daily.

8.7 Financial Records and Audit. BioNTech shall (and shall ensure that its Affiliates and Sublicensees will) maintain complete and accurate records in sufficient detail to permit Genevant to confirm the accuracy of any royalty payments and other amounts payable under this Agreement and to verify the achievement of milestone events under this Agreement. Upon[***], such records shall be open for examination, during regular business hours, for a period of [***] from the end of the Calendar Year to which such records pertain, and not more often than once each Calendar Year, by an independent certified public accountant selected by Genevant and reasonably acceptable to BioNTech, for the sole purpose of verifying for Genevant the accuracy of the financial reports furnished by BioNTech under this Agreement or of any payments made, or required to be made, by BioNTech to Genevant pursuant to this Agreement. The independent certified public accountant shall disclose to Genevant only whether the audited reports are correct or incorrect and the specific details concerning any discrepancies. No other information shall be provided to Genevant. Genevant shall bear the full cost of such audit unless such audit reveals an underpayment by BioNTech of more than [***] percent ([***]%) of the amount actually due for any Calendar Year being audited, in which case BioNTech shall reimburse Genevant for the reasonable costs for such audit. BioNTech shall pay to Genevant any underpayment discovered by such audit within thirty (30) days after the accountant's report, plus interest (as set forth in Section 8.6 (Late Payments)) from the original due date. If the audit reveals an overpayment by BioNTech, then BioNTech may take a credit for such overpayment against any future payments due to Genevant.

8.8 Audit Dispute. If BioNTech disputes the results of any audit conducted pursuant to Section 8.7 (Financial Records and Audit), the Parties shall work in good faith to resolve the disagreement. If the Parties are unable to reach a mutually acceptable resolution of any such dispute within thirty (30) days, the dispute shall be submitted for resolution to a certified public accounting firm jointly selected by each Party's certified public accountants or to such other Person as the Parties shall mutually agree (the "**Auditor**"). The decision of the Auditor shall be final and the costs of such procedure as well as the initial audit shall be borne between the Parties in such manner as the Auditor shall determine. If the Auditor determines that there has been an underpayment by BioNTech, BioNTech shall pay to Genevant the underpayment within thirty (30)

days after the Auditor's decision, plus interest (as set forth in Section 8.6 (Late Payments)) from the original due date. If the Auditor determines that there has been an overpayment by BioNTech, then BioNTech may take a credit for such overpayment against any future payments due to Genevant.

ARTICLE 9
DEVELOPMENT AND MANUFACTURING OF
CO-DEVELOPMENT PRODUCTS

9.1 General. Subject to the terms and conditions of this Agreement and as further set forth in the Co-Development Product Development Plan, BioNTech and Genevant shall be jointly responsible for the Development of the Co-Development Products in the Co-Development Field in the Territory.

9.2 Co-Development Product Development Plan. BioNTech and Genevant shall conduct all Development of Co-Development Products in the Co-Development Field in the Territory in accordance with a comprehensive development plan ("**Co-Development Product Development Plan**"), the initial version of which is set forth in Exhibit J. From time to time, but at least every [***], the Parties will update the Co-Development Product Development Plan to reflect any new planned Development activities with respect to Co-Development Products. The updated Co-Development Product Development Plan will be submitted to the JSC for review, discussion and approval. If the terms of the Co-Development Product Development Plan contradict, or create inconsistencies or ambiguities with, the terms of this Agreement, then the terms of this Agreement shall govern.

9.3 Conduct of Activities by Both Parties. To the extent such responsibility is allocated to it in the Co-Development Product Development Plan, each Party shall Develop Co-Development Products in the Co-Development Field in the Territory in compliance with all Applicable Laws, including good scientific and clinical practices under the Applicable Laws of the country in which such activities are conducted.

9.4 Records and Updates. The Parties shall maintain records, in sufficient detail and in good scientific manner appropriate for patent and regulatory purposes, which shall fully and properly reflect all work done and results achieved by or on behalf of each Party in the performance of Development activities pursuant to this Agreement. Each Party shall keep the JSC regularly informed of the status of all material Development activities including regulatory activities conducted with respect to Co-Development Products in the Co-Development Field in the Territory pursuant to this Agreement. Without limiting the foregoing, at least once every [***] beginning with [***] of the Calendar Year 2018 and at least every [***] thereafter, each Party shall provide the JSC or the other Party with summaries in reasonable detail of all data and results generated or obtained in the course of such Party's and its Affiliates' or Sublicensees' performance of activities with respect to Co-Development Products in the Co-Development Field in the Territory, covering subject matter at a level of detail reasonably requested by the other Party and sufficient to enable the other Party to determine the Party's compliance with its diligence obligations under Section 9.6 (Development Diligence).

9.5 Regulatory Filings. The Lead Commercialization Party will own all Regulatory Filings and Regulatory Approvals for Co-Development Products in the Co-Development Field in the Territory, unless otherwise agreed in writing by the JSC.

9.6 Development Diligence. Each Party, directly and/or with or through Affiliates or Sublicensees, shall use Commercially Reasonable Efforts to perform the activities allocated to it in the Co-Development Product Development Plan in order to Develop, and to obtain Regulatory Approval for the Co-Development Products in the Co-Development Field in the Territory.

9.7 Compliance. Each Party agrees that in performing its obligations under this Agreement: (a) it shall comply with all Applicable Laws; and (b) it will not employ or engage any Person who has been debarred or disqualified by any Regulatory Authority, or, to its knowledge, is the subject of debarment or disqualification proceedings by a Regulatory Authority.

9.8 Rights of Reference. Each Party will have the right to use and reference all Regulatory Filings (including data contained therein) and Regulatory Approvals for the BioNTech Products as part of Development of the Co-Development Products. In addition, BioNTech will have the right to use and reference all Regulatory Filings (including data contained therein) and Regulatory Approvals for Co-Development Products as part of Development of the BioNTech Products

9.9 Remedial Actions. Each Party will notify the other Party without undue delay (and in any event within timelines set by Applicable Law), and promptly confirm such notice in writing, if it obtains information indicating that a Co-Development Product may be subject to any Remedial Action. The Parties will assist each other in gathering and evaluating such information as is necessary to determine the necessity of conducting a Remedial Action. The Parties shall, and shall ensure that their Affiliates and Sublicensees will, maintain adequate records to permit the Parties to trace the Manufacture, distribution and use of the Co-Development Products. The JSC will decide any matters relating to any Remedial Action with respect to any Co-Development Product in the Co-Development Field in the Territory, including the decision to commence such Remedial Action and the control over the conduct of such Remedial Action. To the extent a Remedial Action is caused by a Party's failure to comply with the terms of this Agreement, such Party shall bear the costs of such Remedial Action. In all other event, the costs of the Remedial Action shall be allocated in accordance with profit and loss sharing pursuant to Section 10.4 (Profit or Loss).

9.10 Co-Development Product Pharmacovigilance. At least sixty (60) days prior to the filing of an IND for any Co-Development Product, the Parties shall define and finalize the actions that the Parties shall employ with respect to the Co-Development Products to protect patients and promote their well-being in a written pharmacovigilance agreement (the "**Co-Development Product Pharmacovigilance Agreement**"). The Lead Commercialization Party will be the global safety database holder for each Co-Development Product. These responsibilities shall include mutually acceptable guidelines and procedures for the receipt, investigation, recordation, communication, and exchange (as between the Parties) of adverse event reports and any other information concerning the safety of the Co-Development Products. Such guidelines and procedures shall be in accordance with, and enable the Parties to fulfill, local and national regulatory reporting obligations under applicable laws and regulations. Each Party hereby agrees to comply with its respective obligations under such Co-Development Product Pharmacovigilance Agreement and to cause its Affiliates and Sublicensees to comply with such obligations. The Party responsible for the global safety database will maintain the global safety database pursuant to its own policy and as necessary to comply with Applicable Laws governing adverse experiences in the Territory.

9.11 Manufacturing Responsibilities. Unless otherwise determined by the JSC, Genevant shall be solely responsible for all preclinical, clinical and commercial Manufacture and

supply of all Co-Development Products for all uses under this Agreement. BioNTech will supply to Genevant all Co-Development mRNA Payloads for such Manufacture. The Manufacturing Expenses for Co-Development mRNA Payloads Manufactured for preclinical or clinical use will be included in Development Costs and the Manufacturing Expenses for Co-Development mRNA Payloads Manufactured for commercial use will be included in Allowable Expenses. Genevant may conduct such Manufacturing activities itself or through a Third Party CMO under Genevant's control, subject to Section 4.9 (Subcontractor). Within a reasonable time after the Effective Date, the Parties will execute one or more supply agreements to govern (i) the Manufacturing and supply of Co-Development Products by Genevant or the Third Party CMO selected and controlled by Genevant ("**Co-Development Product Supply Agreement**") and (ii) the Manufacturing and supply of Co-Development mRNA Payloads by BioNTech.

9.12 Costs of Joint Development.

(a) **Cost Sharing.** Development Costs for Co-Development Products incurred during the Term by the Parties shall be borne 50% by Genevant and 50% by BioNTech. For the avoidance of double-counting, the Parties acknowledge and agree that Development Costs shall not include Allowable Expenses for purposes of calculating Profit or Loss in accordance with Section 10.4 (Profit or Loss) and, likewise, that any amounts included in Allowable Expenses shall not be included in Development Costs.

(b) **Development Costs Reports**. Development Costs shall initially be borne by the Party incurring the cost or expense, subject to reimbursement as provided in Section 9.12(c) (Reimbursement of Development Costs). Each Party shall calculate and maintain records of Development Costs incurred by it and its Affiliates, in coordination with the JSC, and the procedures for monthly reporting of actual results, monthly review and discussion of potential discrepancies, quarterly reconciliation, reasonable cost forecasting, and other finance and accounting matters related to Development Costs will be determined by the JSC (the "**Development Reconciliation Procedures**"). Such procedures will provide the ability to comply with financial reporting requirements of each Party. The Development Reconciliation Procedures shall provide that within fifteen (15) days after the end of each Calendar Quarter, each Party shall submit to the Joint Financial Subcommittee of the JSC a report, in such reasonable detail and format as is established by the Joint Financial Subcommittee of all Development Costs incurred by such Party during such Calendar Quarter. Within fourteen (14) days following the receipt of such report, each Party shall have the right to request reasonable additional information related to the other Party's and its Affiliates' Development Costs during such Calendar Quarter in order to confirm that such other Party's spending conforms with the approved budget. The Joint Financial Subcommittee shall establish reasonable procedures for the Parties to share estimated Development Costs for each Calendar Quarter prior to the end of such Calendar Quarter, to enable each Party to appropriately accrue its share of Development Costs for financial reporting purposes, which shall include submission by each Party to the Joint Financial Subcommittee of the JSC, [***], all Development Costs incurred by such Party [***] in such reasonable detail and format as is established by the Joint Financial Subcommittee.

(c) **Reimbursement of Development Costs.**

(i) The Party (with its Affiliates) that incurs more than its share of the total actual Development Costs for the Co-Development Products shall be paid by the other Party an amount of cash sufficient to reconcile to its agreed percentage of actual Development

Costs in each Calendar Quarter. Notwithstanding the foregoing, on a Calendar Year-to-date basis, the

Parties shall not share any Development Costs in excess of the amounts allocated for such Calendar Year-to-date period in the budget approved by the JSC; provided, however, that Development Costs in excess of the such budget shall be included in the calculation of Development Costs to be shared by the Parties if (i) the JSC approves such excess Development Costs (either before or /after they are incurred), which approval shall not be unreasonably withheld to the extent the Development Costs in excess of the budget were not within the reasonable control of the Party (or Affiliate) incurring such expense or (ii) to the extent such excess Development Costs do not exceed by more than 10% the total Development Costs allocated to be incurred by such Party and its Affiliates in the applicable Calendar Year-to-date period in accordance with the applicable budget for such Calendar Year. If any excess Development Costs are excluded from sharing by the Parties for a particular Calendar Year-to-date period pursuant to the foregoing sentence, such excess Development Costs shall be carried forward to the subsequent Calendar Quarters (provided that such Calendar Quarters fall within the same Calendar Year) and, to the extent the total Development Costs incurred by such Party and its Affiliates for the Calendar Year-to-date as of the end of such subsequent Calendar Quarter are less than 110% of the aggregate Development Costs allocated to such Party under the budget for such Calendar Year-to-date period, such carried forward amounts shall be included in Development Costs to be shared by the Parties for such Calendar Year-to-date-period (i.e., so that the total Development Costs incurred by such Party and its Affiliates that are shared pursuant to this Section 9.12 (Costs of Joint Development) during any Calendar Year do not exceed 110% of the Development Costs allocated to such Party under the budget for such Calendar Year, unless otherwise approved by the JSC).

(ii) The Development Reconciliation Procedures shall provide for the JSC to develop a written report setting forth in reasonable detail the calculation of any net amount owed by one Party to the other, as necessary to accomplish the sharing of Development Costs as well as any reimbursement payments that become due from one Party to the other during such Calendar Quarter, and to prepare such reports promptly following delivery of the report described in Section 9.12(b) (Development Costs Reports) and in a reasonable time (to be defined in the Development Reconciliation Procedures) in advance of payment. The net amount payable to accomplish the sharing of Development Costs as provided under this Agreement shall be paid by Genevant or BioNTech, as the case may be, within sixty (60) days after the end of the applicable Calendar Quarter.

(iii) Sections 8.5 to 8.8 shall apply mutatis mutandis to the payment or reimbursement of Development Costs pursuant to this Section 9.12 (Costs of Joint Development).

ARTICLE 10
COMMERCIALIZATION; PROFIT/LOSS SHARING

10.1 General. The Parties have defined in Exhibit B per Co-Development Product which Party shall take the lead responsibility for the Commercialization of such Co-Development Product in the relevant Co-Development Field in the Territory (such Party the "**Lead Commercialization Party**").

10.2 Commercialization Plan and Report. Within a reasonable time (but no later than [***] prior to the first anticipated Regulatory Approval of a Co-Development Product in each country in the Territory, the Parties shall prepare and provide to the JSC for approval a plan for the Commercialization

(including marketing, promotion, or joint co-promotion by the Parties, booking of revenues and pricing) of such Co-Development Products in the relevant Co-Development Field in such country during the [***] after First Commercial Sale in such country,

which plan shall be reasonable in scope and detail and may be amended by the Parties (the "**Co-Development Product Commercialization Plan**" for such country). The Parties shall update each Commercialization Plan [***] (to cover the subsequent [***] period) and shall promptly provide each such update and any material amendments to each Commercialization Plan to the JSC. On an annual basis commencing on the First Commercial Sale of any Co-Development Product anywhere in the Territory, the Parties shall provide the JSC with a report detailing their Commercialization activities with respect to Co-Development Products in the previous [***] period, covering subject matter at a level of detail reasonably requested by the JSC.

10.3 Commercialization Diligence. Each Party, directly and/or with or through Affiliates or Sublicensees, shall use Commercially Reasonable Efforts to perform the activities allocated to it in the Co-Development Product Commercialization Plan and/or by the JSC in order to Commercialize the Co-Development Products in the Co-Development Field in the Territory.

10.4 Profit or Loss. The Parties shall share in the Profit or Loss for Co-Development Products in the Territory as follows: BioNTech shall bear (and be entitled to) 50%, and Genevant shall bear (and be entitled to) 50%. The procedure for calculating Profit or Loss for Co-Development Products is set forth in Exhibit F. The Joint Financial Subcommittee shall establish reasonable procedures to enable each Party to comply with its financial reporting requirements related to its share of Profit or Loss, which shall include submission by each Party to the Joint Financial Subcommittee of the JSC a report, within fifteen (15) days after the end of each Calendar Quarter [***], commencing with the Calendar Quarter during which the First Commercial Sale of any Co-Development Product is made anywhere in the Territory, its Net Sales of Co-Development Products, any Other Income and the Allowable Expenses incurred during such period, in each case in such reasonable detail and format as is established by the Joint Financial Subcommittee. To the extent any other matter relating to calculating Profit or Loss for Co-Development Products is not explicitly addressed in Exhibit F it will be determined by the JSC. Sections 8.5 to 8.8 shall apply mutatis mutandis to the payment of profits or losses pursuant to this Section 10.4.

ARTICLE 11
INTELLECTUAL PROPERTY RIGHTS

11.1 Ownership.

(a) **Ownership of Sole Inventions.** Ownership of all Sole Inventions shall be based on inventorship, as determined in accordance with the rules of inventorship under United States patent laws. Genevant shall solely own any Genevant Sole Inventions and BioNTech shall solely own any BioNTech Sole Inventions.

(b) **Disclosure of Inventions.** Genevant shall promptly disclose to BioNTech all Sole Inventions that are related to BioNTech Products. In addition, each Party shall promptly disclose to the other Party (i) all Sole Inventions that are related to Co-Development Products and (ii) all Joint Inventions. For the avoidance of doubt, all such Invention disclosure shall include any invention disclosures

or other similar documents submitted by its respective employees, agents or independent contractors describing such Inventions, and shall promptly respond to reasonable requests from the other Party for additional information relating to such Inventions.

(c) **Joint Patent Committee.** Within thirty (30) days after the Effective Date, the Parties shall establish a Joint Patent Committee (the "**Joint Patent Committee**" or the "**JPC**"), composed of two (2) representatives of each Party. Any Invention that a Party believes is a Joint

Invention will be brought to the attention of the JPC. The JPC will first determine if the Invention is a Joint Invention and, if so, whether patent protection should be filed for such Joint Invention. If the JPC determines that the Invention is a Sole Invention, then ownership of the Invention will be as set forth in Section 11.1(a) (Ownership of Sole Inventions). If the JPC determines that the Invention is a Joint Invention, then the JPC will determine whether the Joint Invention shall be solely owned by BioNTech ("**BioNTech Joint Inventions**"), solely owned by Genevant ("**Genevant Joint Inventions**"), or jointly owned by both Parties ("**Co-Owned Joint Inventions**"). Such determination will be made based on the Parties relative contributions to the Joint Invention and the degree to which the Joint Invention is an improvement on any pre-exisiting BioNTech Technology or Genevant Technology. All Patents claiming BioNTech Joint Inventions shall be referred to herein as "**BioNTech Joint Patents.**" All Patents claiming Genevant Joint Inventions shall be referred to herein as "**Genevant Joint Patents**." All Patents claiming Co-Owned Joint Inventions shall be referred to herein as "**Co-Owned Joint Patents**." Genevant agrees to assign, and hereby assigns, to BioNTech its entire right, title, and interest in and to all BioNTech Joint Inventions and BioNTech Joint Patents. BioNTech agrees to assign, and hereby assigns, to Genevant its entire right, title, and interest in and to all Genevant Joint Inventions and Genevant Joint Patents. The JPC may also be used by the Parties to coordinate any other activities of the Parties under this Article 11 (Intellectual Property Rights). If the JPC is unable to agree on any matter in this Section 11.1(c) (Joint Patent Committee), then any such disagreement shall be referred to the Executive Officers for resolution, who shall use good faith efforts to resolve such matter within [***] after it is referred to them.

(d) **Use of Joint Inventions.** Subject to the exclusive licenses granted in Article 2 (Licenses) above, each Party shall be entitled to use and commercialize (including granting licenses to Third Parties) itself any BioNTech Joint Inventions, Genevant Joint Inventions, Co-Owned Joint Inventions, BioNTech Joint Patents, Genevant Joint Patents, and Co-Owned Joint Patents in any field in any country without any payment obligation to the other Party. Notwithstanding the above, either Party may only grant a license to a Third Party under any BioNTech Joint Inventions, Genevant Joint Inventions, Co-Owned Joint Inventions, BioNTech Joint Patents, Genevant Joint Patents, or Co-Owned Joint Patents with the prior written consent of the other Party, such consent not to be unreasonably withheld. In the event one Party desires to grant a license under any BioNTech Joint Inventions, Genevant Joint Inventions, Co-Owned Joint Inventions, BioNTech Joint Patents, Genevant Joint Patents, or Co-Owned Joint Patents to any Third Party, such Party shall inform the other Party thereof by disclosing to other Party the relevant licensee as well as the licensed field. BioNTech hereby expressly consents to the grant by Genevant to [***] of a license under Genevant's shares in the BioNTech Joint Inventions, Genevant Joint Inventions, Co-Owned Joint Inventions, BioNTech Joint Patents, Genevant Joint Patents, or Co-Owned Joint Patents consistent with Genevant's obligations under the [***] Agreement.

11.2 Patent Prosecution and Maintenance.

(a) **BioNTech Patents and Genevant Patents.** BioNTech shall have the sole right, but not the obligation, to control the preparation, filing, prosecution (including any interferences, reissue proceedings and reexaminations) and maintenance of all BioNTech Patents (excluding Co-Owned Joint Patents) worldwide, at its sole cost and expense and by counsel of its own choice. Genevant shall have the sole right, but not the obligation, to control the preparation, filing, prosecution (including any interferences, reissue proceedings and reexaminations) and maintenance of all Genevant Patents (excluding Co-Owned Joint Patents) worldwide, at its sole cost and expense and by counsel of its own choice.

(b)

Co-Owned Joint Patents.

(i) Genevant shall have the first right, but not the obligation, to control the preparation, filing, prosecution (including any interferences, reissue proceedings and reexaminations) and maintenance of all Co-Owned Joint Patents (except Co-Owned Joint Patents that relate primarily to BioNTech Products), at its sole cost and expense and by counsel selected by Genevant and reasonably acceptable to BioNTech. Genevant shall consult with BioNTech and keep BioNTech reasonably informed of the status of such Patents and shall promptly provide BioNTech with all material correspondence received from any patent authority in connection therewith. In addition, Genevant shall promptly provide BioNTech with drafts of all proposed material filings and correspondence to any patent authority with respect to such Patents for BioNTech's review and comment prior to the submission of such proposed filings and correspondence. Genevant shall confer with BioNTech and consider in good faith BioNTech's comments prior to submitting such filings and correspondence, provided that BioNTech provides such comments within fourteen (14) days (or a shorter period reasonably designated by Genevant if fourteen (14) days is not practicable given the filing deadline) of receiving the draft filings and correspondence from Genevant. In the event that Genevant desires to abandon or cease prosecution or maintenance of any such Patent in any country or jurisdiction, Genevant shall provide reasonable prior written notice to BioNTech of such intention to abandon (which notice shall, to the extent possible, be given no later than [***] prior to the next deadline for any action that must be taken with respect to any such Patent in the relevant patent office). In such case, upon BioNTech's written election provided no later than [***] after such notice from Genevant, BioNTech shall have the right to assume prosecution and maintenance of such Patent at BioNTech's expense. If BioNTech does not provide such election within [***] after such notice from Genevant, Genevant may, in its sole discretion, continue prosecution and maintenance of such Patent or discontinue prosecution and maintenance of such Patent.

(ii) BioNTech shall have the first right, but not the obligation, to control the preparation, filing, prosecution (including any interferences, reissue proceedings and reexaminations) and maintenance of Co-Owned Joint Patents that relate primarily to BioNTech Products, at its sole cost and expense and by counsel selected by BioNTech and reasonably acceptable to Genevant. BioNTech shall consult with Genevant and keep Genevant reasonably informed of the status of such Patents and shall promptly provide Genevant with all material correspondence received from any patent authority in connection therewith. In addition, BioNTech shall promptly provide Genevant with drafts of all proposed material filings and correspondence to any patent authority with respect to such Patents for Genevant's review and comment prior to the submission of such proposed filings and correspondence. BioNTech shall confer with Genevant and consider in good faith Genevant's comments prior to submitting such filings and correspondence, provided that Genevant provides such comments within fourteen (14) days (or a shorter period reasonably designated by BioNTech if fourteen (14) days is not practicable given the filing deadline) of receiving the draft filings and correspondence from BioNTech. In the event that BioNTech desires to abandon or cease prosecution or maintenance of any such Patent in any country or jurisdiction, BioNTech shall provide reasonable prior written notice to Genevant of such intention to abandon (which notice shall, to the extent possible, be given no later than [***] prior to the next deadline for any action that must be taken with respect to any such Patent in the relevant patent office). In such case, upon Genevant's written election provided no later than [***] after such notice from BioNTech, Genevant shall have the right to assume prosecution and maintenance of such Patent at Genevant's expense. If Genevant does not provide such

election within [***] after such notice from BioNTech, BioNTech may, in its sole discretion, continue prosecution and maintenance of such Patent or discontinue prosecution and maintenance of such Patent.

11.3 Cooperation of the Parties. Each Party agrees to cooperate fully in the preparation, filing, prosecution and maintenance of Patents under Section 11.2 (Patent Prosecution and Maintenance), at its own cost. Such cooperation includes: (a) executing all papers and instruments, or requiring its employees or contractors, to execute such papers and instruments, so as enable the other Party to apply for and to prosecute patent applications in any country as permitted by Section 11.2 (Patent Prosecution and Maintenance); and (b) promptly informing the other Party of any matters coming to such Party's attention that may affect the preparation, filing, prosecution or maintenance of any such patent applications.

11.4 Infringement by Third Parties.

(a) **Notice.** In the event that either Genevant or BioNTech becomes aware of (i) any infringement or threatened infringement by a Third Party of any Genevant Patent, BioNTech Patent, Genevant Joint Patent, BioNTech Joint Patent, or Co-Owned Joint Patent in the Territory, which infringing activity involves the using, making, importing, offering for sale or selling of a product competing with a BioNTech Product or Co-Development Product (regardless of whether or not a Party is currently Developing using, making, importing, offering for sale, selling, or otherwise Commercializing the same BioNTech Product or Co-Development Product), or the submission to a Party or a Regulatory Authority in the Territory of an application for a product referencing a BioNTech Product or Co-Development Product, or any declaratory judgment or equivalent action (including an action before the U.S. Patent and Trademark Office such as an inter partes review) challenging any Genevant Patent, BioNTech Patent, Genevant Joint Patent, BioNTech Joint Patent, or Co-Owned Joint Patent in connection with any such infringement (each, a "**BioNTech Product Infringement**" or a "**Co-Development Product Infringement**," as applicable), or (ii) any infringement or threatened infringement by a Third Party of any Co-Owned Joint Patent, which infringing activity is unrelated to a BioNTech Product or a Co-Development Product, it will promptly notify the other Party in writing to that effect. Any such notice shall include evidence to support an allegation of infringement or threatened infringement, or declaratory judgment or equivalent action, by such Third Party.

(b) **Enforcement of Patents against BioNTech Product Infringements.**

(i) BioNTech Patents and Co-Owned Joint Patents. BioNTech shall have the sole right, as between Genevant and BioNTech, but not the obligation, to bring an appropriate suit or take other action against any Person or entity engaged in, or to defend against, a BioNTech Product Infringement of any BioNTech Patent or Co-Owned Joint Patent at its own expense and by counsel of its own choice. Notwithstanding the above, if in the event of the filing of any declaratory judgment or equivalent action (including an action before the U.S. Patent and Trademark Office such as an inter partes review) challenging any Co-Owned Joint Patent, BioNTech does not inform Genevant of an intent to defend such action with respect to such Co-Owned Joint Patent within (A) [***] days following the notice of such action or (B) [***] days before the time limit, if any, set forth in the appropriate laws and regulations for responding to such action, whichever comes first, Genevant shall have the right, but not the obligation, to bring and control the defense of any such action at its own expense and by counsel of its own choice, and BioNTech shall have the right, at its own expense, to be represented in any such action by counsel of its own choice. If such declaratory judgment or action challenging an Co-Owned Joint Patent was brought in response to BioNTech initiating a suit or other action or otherwise making

a claim for a BioNTech Product Infringement or if BioNTech initiates a suit or other action for a BioNTech Product Infringement in response to such challenge to an Co-Owned Joint Patent, then BioNTech will reimburse Genevant for all costs, expenses, and fees (including attorney's fees) spent defending such action.

(ii) Genevant Patents. Genevant shall have the first right, as between Genevant and BioNTech, but not the obligation, to bring an appropriate suit or take other action against any Person or entity engaged in, or to defend against, a BioNTech Product Infringement of any Genevant Patent at its own expense and by counsel of its own choice. BioNTech shall have the right, at its own expense, to be represented in any such action by counsel of its own choice, and Genevant and its counsel will reasonably cooperate with BioNTech and its counsel in strategizing, preparing and prosecuting any such action or proceeding. If Genevant fails to bring an action or proceeding with respect to such BioNTech Product Infringement of any Genevant Patent within (A) [***] days following the notice of alleged infringement or declaratory judgment or (B) [***] days before the time limit, if any, set forth in the appropriate laws and regulations for the filing of such actions, whichever comes first, BioNTech shall have the right, but not the obligation, to bring and control any such action at its own expense and by counsel of its own choice, and Genevant shall have the right, at its own expense, to be represented in any such action by counsel of its own choice.

(iii) Recovery. Except as otherwise agreed by the Parties as part of a cost-sharing arrangement, any recovery or damages realized as a result of any action or proceeding with respect to any BioNTech Product Infringement shall be used first to reimburse the Parties' documented out-of-pocket legal expenses relating to the action or proceeding, and any remaining damages relating to BioNTech Product Infringement (including lost sales or lost profits) shall be retained by the Party responsible for the action or proceeding except that any remaining damages retained by BioNTech shall be deemed to be Net Sales subject to royalty payments to Genevant in accordance with the royalty provisions of Section 8.3 (Royalty Payments).

(c) **Enforcement of Patents against Co-Development Product Infringements.**

(i) Genevant shall have the first right, as between Genevant and BioNTech, but not the obligation, to bring an appropriate suit or take other action against any Person or entity engaged in, or to defend against, a Co-Development Product Infringement of any Genevant Patent or Co-Owned Joint Patent at its own expense and by counsel of its own choice. BioNTech shall have the right, at its own expense, to be represented in any such action by counsel of its own choice, and Genevant and its counsel will reasonably cooperate with BioNTech and its counsel in strategizing, preparing and prosecuting any such action or proceeding. If Genevant fails to bring an action or proceeding with respect to such Co-Development Product Infringement of any Genevant Patent or Co-Owned Joint Patent within (A) [***] days following the notice of alleged infringement or declaratory judgment or (B) [***] days before the time limit, if any, set forth in the appropriate laws and regulations for the filing of such actions, whichever comes first, BioNTech shall have the right, but not the obligation, to bring and control any such action at its own expense and by counsel of its own choice, and Genevant shall have the right, at its own expense, to be represented in any such action by counsel of its own choice. Except as otherwise agreed by the Parties as part of a cost-sharing arrangement, any recovery or damages realized as a result of such action or proceeding with respect to such Co-Development Product Infringement of any Genevant Patent or Co-Owned Joint Patent shall be used first to reimburse the Parties' documented out-of-pocket legal expenses relating to the action or proceeding, and any remaining

compensatory and punitive damages relating to such
Co-Development Product Infringement of a Genevant Patent or Co-Owned Joint Patent (including lost sales or lost profits) shall be deemed to be Net Sales subject to the sharing of profits in accordance with the provisions of Section 10.4 (Profit or Loss).

(ii) BioNTech shall have the first right, as between Genevant and BioNTech, but not the obligation, to bring an appropriate suit or take other action against any Person or entity engaged in, or to defend against, a
Co-Development Product Infringement of any BioNTech Patent at its own expense and by counsel of its own choice. Genevant shall have the right, at its own expense, to be represented in any such action by counsel of its own choice, and BioNTech and its counsel will reasonably cooperate with Genevant and its counsel in strategizing, preparing and prosecuting any such action or proceeding. If BioNTech fails to bring an action or proceeding with respect to such Co-Development Product Infringement of any BioNTech Patent within (A) [***] days following the notice of alleged infringement or declaratory judgment or (B) [***] days before the time limit, if any, set forth in the appropriate laws and regulations for the filing of such actions, whichever comes first, Genevant shall have the right, but not the obligation, to bring and control any such action at its own expense and by counsel of its own choice, and BioNTech shall have the right, at its own expense, to be represented in any such action by counsel of its own choice. Except as otherwise agreed by the Parties as part of a cost-sharing arrangement, any recovery or damages realized as a result of such action or proceeding with respect to such Co-Development Product Infringement of any BioNTech Patent shall be used first to reimburse the Parties' documented out-of-pocket legal expenses relating to the action or proceeding, and any remaining damages relating to such Co-Development Product Infringement of a BioNTech Patent (including lost sales or lost profits) shall be deemed to be Net Sales subject to the sharing of profits in accordance with the provisions of Section 10.4 (Profit or Loss).

(d) **Enforcement of**
Co-Owned Joint Patents against Infringements unrelated to BioNTech Products or Co-Development Products

(i) Genevant shall have the first right, as between Genevant and BioNTech, but not the obligation, to bring an appropriate suit or take other action against any Person or entity engaged in, or to defend against, an infringement of any
Co-Owned Joint Patent, if such infringing activity is unrelated to a BioNTech Product or a Co-Development Product and occurs in any field other than the BioNTech Field, at its own expense and by counsel of its own choice. BioNTech shall have the right, at its own expense, to be represented in any such action by counsel of its own choice, and Genevant and its counsel will reasonably cooperate with BioNTech and its counsel in strategizing, preparing and prosecuting any such action or proceeding. If Genevant fails to bring an action or proceeding with respect to such infringement within (A) [***] days following the notice of alleged infringement or declaratory judgment or (B) [***] days before the time limit, if any, set forth in the appropriate laws and regulations for the filing of such actions, whichever comes first, BioNTech shall have the right, but not the obligation, to bring and control any such action at its own expense and by counsel of its own choice, and Genevant shall have the right, at its own expense, to be represented in any such action by counsel of its own choice.

(ii) BioNTech shall have the first right, as between Genevant and BioNTech, but not the obligation, to bring an appropriate suit or take other action against any Person or entity engaged in, or to defend against, an infringement of any

Co-Owned Joint Patent, if such infringing activity is unrelated to a BioNTech Product or a Co-Development Product and occurs in the BioNTech Field, at its own expense and by counsel of its own choice. Genevant shall have the right, at its own expense, to be represented in any such action by counsel of its own

choice, and BioNTech and its counsel will reasonably cooperate with Genevant and its counsel in strategizing, preparing and prosecuting any such action or proceeding. If BioNTech fails to bring an action or proceeding with respect to such infringement within (A) [***] days following the notice of alleged infringement or declaratory judgment or (B) [***] days before the time limit, if any, set forth in the appropriate laws and regulations for the filing of such actions, whichever comes first, Genevant shall have the right, but not the obligation, to bring and control any such action at its own expense and by counsel of its own choice, and Genevant shall have the right, at its own expense, to be represented in any such action by counsel of its own choice.

(e) **Cooperation.** In the event a Party brings an action in accordance with this Section 11.4, the other Party shall cooperate fully, including, if required to bring such action, the furnishing of a power of attorney or being named as a party to such action.

11.5 Infringement of Third Party Rights.

(a) Each Party shall promptly notify the other in writing of any allegation by a Third Party that the Manufacture, Development, importation, use, marketing, offer for sale, or sale of any BioNTech Product or

Co-Development Product in the Territory infringes or may infringe the intellectual property rights of a Third Party.

(b) If a Third Party asserts that any of its Patents or other rights are infringed by the Manufacture, Commercialization or Development by BioNTech or its Affiliates of any BioNTech Product in the Territory, BioNTech shall have the sole right but not the obligation to defend against any such assertions at its sole cost and expense. Genevant shall cooperate fully and shall provide full access to documents, information and witnesses as reasonably requested by BioNTech in connection with such defense. BioNTech will reimburse to Genevant all Third Party costs incurred in connection with such requested cooperation.

(c) If a Third Party asserts that any of its Patents or other rights are infringed by the Manufacture, Commercialization or Development by either Party or its Affiliates of any

Co-Development Product in the Territory, the Parties shall jointly defend against any such assertions and share equally the costs and expenses of such defense.

11.6 Consent for Settlement. Neither Party shall unilaterally enter into any settlement or compromise of any action or proceeding under this Article 11 (Intellectual Property Rights) that would in any manner alter, diminish, or be in derogation of the other Party's rights under this Agreement without the prior written consent of such other Party, which shall not be unreasonably withheld.

11.7 Patent Extensions. The JSC will make all decisions concerning patent term restoration, supplemental protection certificates or their equivalents, and patent term extensions with respect to the BioNTech Patents, Genevant Patents, and

Co-Owned Joint Patents in any country in the Territory where applicable with respect to Co-Development Products.

11.8 Trademarks. The JSC will determine who shall own and be responsible for all trademarks, trade names, branding or logos related to

Co-Development Products in the Co-Development Field in the Territory.

11.9 Delegation to [***] BioNTech understand and agrees that, to the extent required by the [***] Agreement, Genevant may permit [***] to exercise any of Genevant's rights under this Article 11 (Intellectual Property Rights) with respect to the Genevant Patents.

ARTICLE 12
CONFIDENTIALITY; PUBLICATION

12.1 Duty of Confidence. Subject to the other provisions of this Article 12 (Confidentiality; Publication):

(a) all Confidential Information disclosed by a Party (the "**Disclosing Party**") or its Affiliates under this Agreement will be maintained in confidence and otherwise safeguarded by the recipient Party (the "**Receiving Party**") and its Affiliates using at least the same standard of care as the Receiving Party uses to protect its own proprietary or Confidential Information (but in no event less than reasonable care);

(b) the Receiving Party may only use any such Confidential Information for the purposes of performing its obligations or exercising its rights under this Agreement; and

(c) the Receiving Party may disclose Confidential Information of the Disclosing Party only to: (i) the Receiving Party's Affiliates; and (ii) employees, directors, agents, contractors, consultants and advisers of the Receiving Party and its Affiliates, in each case to the extent reasonably necessary for the purposes of, and for those matters undertaken pursuant to, this Agreement; *provided*, that such Persons are bound to maintain the confidentiality, and not to make any unauthorized use, of the Confidential Information in a manner consistent with this Article 12 (Confidentiality; Publication).

12.2 Exceptions. The foregoing obligations as to particular Confidential Information of a Disclosing Party shall not apply to the extent that the Receiving Party can demonstrate by competent evidence that such Confidential Information:

(a) is known by the Receiving Party at the time of its receipt, and not through a prior disclosure by the Disclosing Party, as shown by contemporaneous written documents of the Receiving Party;

(b) is in the public domain by use and/or publication before its receipt from the Disclosing Party, or thereafter enters the public domain through no fault of, or breach of this Agreement by, the Receiving Party;

(c) is subsequently disclosed to the Receiving Party on a
non-confidential basis by a Third Party who may lawfully do so and is not under an obligation of confidentiality to the Disclosing Party; or

(d) is developed by the Receiving Party independently and without use of or reference to any Confidential Information disclosed to it by or on behalf of the Disclosing Party, as shown by contemporaneous written documents of the Receiving Party.

12.3 Authorized Disclosures. Notwithstanding the obligations set forth in Section 12.1 (Duty of Confidence), the Receiving Party may disclose Confidential Information of the Disclosing Party and the terms of this Agreement to the extent such disclosure is reasonably necessary in the following instances:

(a) filing or prosecuting of Patents as permitted by this Agreement;

(b) enforcing the Receiving Party's rights under this Agreement or performing the Receiving Party's obligations under this Agreement;

(c) in Regulatory Filings that such Party has the right to file under this Agreement;

(d) prosecuting or defending litigation as permitted by this Agreement;

(e) to the Receiving Party's directors, Affiliates, actual or potential Sublicensees, commercial partners, independent contractors, consultants, attorneys, independent accountants or financial advisors who, in each case, have a need to know such Confidential Information in order for the Receiving Party to exercise its rights or fulfill its obligations under this Agreement, *provided*, in each case, that any such Person agrees to be bound by terms of confidentiality and non-use (or, in the case of the Receiving Party's attorneys and independent accountants, such Person is obligated by applicable professional or ethical obligations) at least as restrictive as those set forth in this Article 12 (Confidentiality; Publication);

(f) to actual or potential investors, investment bankers, lenders, other financing sources or acquirors (and attorneys and independent accountants thereof) in connection with potential investment, acquisition, collaboration, merger, public offering, due diligence or similar investigations by such Third Parties or in confidential financing documents, *provided*, in each case, that any such Third Party agrees to be bound by terms of confidentiality and non-use (or, in the case of the Receiving Party's attorneys and independent accountants, such Third Party is obligated by applicable professional or ethical obligations) that are no less stringent than those contained in this Agreement (except to the extent that a shorter confidentiality period is customary in the industry); and

(g) such disclosure is required by court order, judicial or administrative process or Applicable Law, *provided* that in such event the Receiving Party shall promptly inform the Disclosing Party of such required disclosure and provide the Disclosing Party an opportunity to challenge or limit the disclosure obligations. Confidential Information that is disclosed as required by court order, judicial or administrative process or Applicable Law shall remain otherwise subject to the confidentiality and non-use provisions of this Article 12 (Confidentiality; Publication), and the Receiving Party shall take all steps reasonably necessary, including seeking of confidential treatment or a protective order, to ensure the continued confidential treatment of such Confidential Information.

12.4 Publication in relation to BioNTech Products. Genevant shall not publish nor otherwise publicly disclose any data or results regarding any BioNTech Product without the prior written consent of BioNTech. Prior to publishing the results of any studies carried out by Genevant in relation to BioNTech Products under this Agreement, BioNTech shall provide Genevant with the opportunity to review and comment on the proposed publication at least thirty (30) days prior to its intended submission for publication. BioNTech shall: (i) consider in good faith any comments thereto provided by Genevant within such thirty (30) day period; and (ii) remove any Confidential Information of Genevant identified by Genevant as part of its review.

12.5 Publication in relation to Co-Development Products. Neither Party shall publish or otherwise publicly disclose any data or results regarding any Co-Development Products without the prior written consent of the other Party.

12.6 Publicity/Use of Names. No disclosure of the existence, or the terms, of this Agreement may be made by either Party or its Affiliates, and neither Party shall use the name, trademark, trade name or logo of the other Party, its Affiliates or their respective employee(s) in any publicity, promotion, news release or disclosure relating to this Agreement or its subject matter, without the prior express written permission of the other Party, except as may be required by law. Notwithstanding the above, each Party and its Affiliates may disclose on its website and in its promotional materials that the other Party is a development partner of such Party for the BioNTech Products and may use the other Party's name and logo in conjunction with such disclosure.

(a) A Party may disclose this Agreement and its terms, and material developments or material information generated under this Agreement, in securities filings with the U.S. Securities and Exchange Commission ("**SEC**") (or equivalent foreign agency) to the extent required by law after complying with the procedure set forth in this Section 12.6 (Publicity/Use of Names). In such event, the Party seeking to make such disclosure will, to the extent and permitted under Applicable Law, prepare a draft confidential treatment request and proposed redacted version of this Agreement to request confidential treatment for this Agreement, and the other Party agrees to promptly (and in any event, [***] days after receipt of such confidential treatment request and proposed redactions) give its input in a reasonable manner in order to allow the Party seeking disclosure to file its request within the time lines prescribed by applicable SEC regulations. The Party seeking such disclosure shall exercise Commercially Reasonable Efforts to obtain confidential treatment of this Agreement from the SEC (or equivalent foreign agency) as represented by the redacted version reviewed by the other Party.

(b) Further, each Party acknowledges that the other Party may be legally required, or may be required by the listing rules of any exchange on which the other Party's or its Affiliate's securities are traded, to make public disclosures (including in filings with the SEC or other agency) of certain material developments or material information generated under this Agreement and agrees that each Party may make such disclosures as required by law or such listing rules, *provided* that the Party seeking such disclosure shall provide the other Party with a copy of the proposed text of such disclosure sufficiently in advance of the scheduled release to afford such other Party a reasonable opportunity to review and comment thereon.

(c) If either Party desires to issue a press release or make a public announcement concerning the material terms of this Agreement or the Development or Commercialization of the BioNTech Product under this Agreement, such as the achievement of Regulatory Approvals of the BioNTech Product, such Party shall provide the other Party with the proposed text of such announcement for prior review and, except to the extent such press release or public announcement is permitted by subsection (a) or (b) above, approval by such other Party.

(d) The Parties agree that after a public disclosure has been made or a press release or other public announcement has been issued in compliance with subsection (a), (b) or (c) hereof, each Party may make subsequent public disclosures or issue press releases or other public announcements disclosing the same content without having to obtain the other Party's prior consent and approval.

12.7 Prior Confidentiality Agreement. As of the Effective Date, the terms of this Article 12 (Confidentiality; Publication) shall supersede any prior non-disclosure, secrecy or confidentiality agreement between the Parties (or their Affiliates) relating to the subject of this Agreement, including the Operationally Enabling Agreement dated 23 April 2018. Any information disclosed pursuant to any such prior agreement shall be deemed Confidential Information for purposes of this Agreement.

ARTICLE 13
TERM AND TERMINATION

13.1 Term. Unless earlier terminated as permitted by this Agreement, the term of this Agreement will commence upon the Effective Date and continue in full force and effect, until the later of (a) the expiration of the last Royalty Term for any BioNTech Product in the Territory; or (b) the date on which all Co-Development Products have ceased being Developed or Commercialized by the Parties (the "**Term**"). Upon the expiration (but not early termination) of the Term, the licenses granted herein for BioNTech Products and Co-Development Products shall continue in effect, as non-exclusive, fully paid-up, royalty-free, transferable, perpetual and irrevocable.

13.2 Termination.

(a) **Termination by BioNTech for Convenience with respect to BioNTech Products.** At any time, BioNTech may terminate this Agreement with respect to one or more BioNTech Products, at its sole discretion and for any reason or no reason, by providing written notice of termination to Genevant, which notice includes an effective date of termination at least (i) ninety (90) days after the date of the notice if the notice is given before the Regulatory Approval of the relevant BioNTech Product; or (ii) one hundred eighty (180) days after the date of the notice if the notice is given after the Regulatory Approval of the relevant BioNTech Product.

(b) **Termination for Cause.** If either Party believes that the other is in material breach of its obligations hereunder, then the non-breaching Party may deliver notice of such breach to the other Party. The allegedly breaching Party shall have ninety (90) days (or forty-five (45) days in the case of any payment breach) to cure such breach from the receipt of the notice. If the allegedly breaching Party fails to cure that breach within the applicable period set forth above, then the Party originally delivering the notice of breach may terminate this Agreement, entirely or in relation to the Products affected by such breach only at such Party's discretion, on written notice of termination. Any right to terminate this Agreement under this Section 13.2(b) (Termination for Cause) shall be stayed and the applicable cure period tolled in the event that, during such cure period, the Party alleged to have been in material breach shall have initiated dispute resolution in accordance with Section 16.10 (Dispute Resolution) with respect to the alleged breach, which stay and tolling shall continue until such dispute has been resolved in accordance with Section 16.10 (Dispute Resolution). If a Party is determined to be in material breach of this Agreement, the other Party may terminate this Agreement if the breaching Party fails to cure the breach within thirty (30) days after the conclusion of the dispute resolution procedure (and such termination shall then be effective upon written notification from the notifying Party to the breaching Party).

(c) **Termination for Patent Challenge.** Except to the extent the following is unenforceable under the laws of a particular jurisdiction, (i) Genevant may

terminate this

Agreement immediately upon written notice to BioNTech if BioNTech or its Affiliates or Sublicensees, individually or in association with any other person or entity, commences a legal action challenging the validity, enforceability or scope of any Genevant Patents and does not dismiss or withdraw such legal action within thirty (30) days of receiving notice from Genevant; and (ii) BioNTech may terminate this Agreement immediately upon written notice to Genevant if Genevant or its Affiliates or Sublicensees, individually or in association with any other person or entity, commences a legal action challenging the validity, enforceability or scope of any BioNTech Patents and does not dismiss or withdraw such legal action within thirty (30) days of receiving notice from BioNTech. For purposes of this Section, "challenging" includes (i) filing a declaratory judgment action in which the applicable Patent is alleged to be invalid or unenforceable, (ii) becoming party to an interference with the applicable Patent pursuant to 35 U.S.C. §135 or similar provisions under non-US law or (iii) filing or commencing any reexamination, opposition, cancellation, nullity or similar proceedings against the applicable Patent, or petitioning for any form of administrative or judicial (or arbitration) review of the applicable Patent, including post-grant review, inter partes review, or opposition proceedings. Notwithstanding the above, nothing in this clause will prevent a Party from challenging the validity, enforceability or scope of any Patent in response to a claim of infringement made against it concerning that Patent.

(d) **Termination for Bankruptcy.** This Agreement may be terminated at any time during the Term by either Party upon the other Party's filing or institution of bankruptcy, reorganization, liquidation or receivership proceedings, or upon an assignment of a substantial portion of the assets for the benefit of creditors by the other Party; *provided, however*, that in the case of any involuntary bankruptcy proceeding such right to terminate shall only become effective if the Party consents to the involuntary bankruptcy or such proceeding is not dismissed within ninety (90) days after the filing thereof.

(e) **Termination for Competitor Change of Control.** This Agreement may be terminated by either Party immediately upon written notice to the other Party if the other Party undergoes a Competitor Change of Control before the earlier of (i) three (3) years from the Effective Date or (ii) the other Party undergoing an Initial Public Offering.

13.3 Effect of Termination for Convenience pursuant to Section 13.2(a). Upon termination of this Agreement by BioNTech pursuant to Section 13.2(a) (Termination by BioNTech for Convenience), the following consequences shall apply and shall be effective as of the effective date of such termination:

(a) BioNTech's licenses under Section 2.1 (License for BioNTech Products) as well as either Party's rights and obligations under Article 4 (Development of BioNTech Products), Article 5 (Regulatory Activities for BioNTech Products), Article 6 (Manufacturing of BioNTech Products), Article 7 (Commercialization), and Article 8 (BioNTech Product Financial Provisions) shall terminate for the BioNTech Product(s) which are the subject matter of the relevant termination.

(b) [***] following the termination of this Agreement with respect to any BioNTech Product pursuant to Section 13.2(a) (Termination by BioNTech for Convenience), before granting any Third Party a license with respect to the BioNTech mRNA Payload included in the terminated BioNTech Product, BioNTech will notify Genevant and give Genevant the opportunity to negotiate the terms of such a license with BioNTech before negotiating with any Third Party. If the Parties cannot reach agreement within [***] on the terms of a license, then BioNTech may grant such a license to a Third Party, provided that the terms of such license granted to the Third Party are not more favorable than those offered to Genevant.

(c) For the avoidance of doubt, all other licenses granted to BioNTech under this Agreement and either Party's rights and obligations in relation to any other BioNTech Product or any Co-Development Product shall remain unaffected by such termination.

13.4 Effect of Termination by BioNTech for Cause, Patent Challenge, Bankruptcy or Competitor Change of Control. Upon termination of this Agreement by BioNTech pursuant to Section 13.2(b) (Termination for Cause), 13.2(c) (Termination for Patent Challenge), 13.2(d) (Termination for Bankruptcy) or 13.2(e) (Termination for Competitor Change of Control), the following consequences shall apply and shall be effective as of the effective date of such termination:

(a) All rights and obligations of either Party under this Agreement shall terminate unless otherwise specified in this Section 13.4 (Effect of Termination by BioNTech) or Section 13.7 (Survival). To the extent termination is limited to certain Products only, only the rights and obligations of the Parties related to such Products shall terminate and all rights and obligations relating to all other Products shall survive such termination.

(b) BioNTech shall (i) keep all licenses granted to BioNTech under this Agreement, (ii) have the sole right, but not the obligation, to Develop, Manufacture and Commercialize any BioNTech Products in the BioNTech Field and Co-Development Products in the Co-Development Field, at its sole cost and expense, and (iii) become the Lead Commercialization Party for all Co-Development Products in the Co-Development Field in the Territory. To the extent that any royalties will be owed to [***] pursuant to the terms of the [***] Agreement for BioNTech's continued exercise of any of the licenses granted to BioNTech under this Agreement, BioNTech will contact [***] and arrange to pay such royalties directly to [***].

(c) Genevant shall transfer to BioNTech or destroy, at BioNTech's election, all Confidential Information relating to its activities under this Agreement, including any copies thereof, and all materials, substances and compositions generated under this Agreement and shall provide reasonable technical assistance to BioNTech in connection with the understanding and use of such Confidential Information, materials, substances and compositions at its own cost and expense, except that Genevant shall be permitted to retain electronic copies of Confidential Information that are created pursuant to automatic IT backup or disaster recovery procedures (and any Confidential Information so retained will continue to be subject to Article 12(Confidentiality; Publication).

(d) Upon request of BioNTech, Genevant shall comply with its obligations pursuant to Section 6.4 (Manufacturing Transfer) [***] BioNTech under such Section.

(e) Genevant shall assign to BioNTech all Regulatory Filings and Regulatory Approvals for any BioNTech Product and Co-Development Product, and any Genevant Know-How contained in such Regulatory Filings and Regulatory Approvals shall be subject to the licenses granted Section 2.1 (License for BioNTech Products) and 2.2(a) (License Grant to BioNTech).

(f) Genevant shall disclose to BioNTech all Genevant Know-How and all Joint Inventions to the extent not already known to BioNTech, which may be necessary or reasonably

useful for BioNTech to continue to Develop, Manufacture and Commercialize BioNTech Products in the BioNTech Field and/or Co-Development Products in the Co-Development Field. In addition, Genevant shall, at BioNTech's request, provide reasonable technical assistance and transfer all Genevant Know-How and Joint Inventions necessary to Manufacture BioNTech Products and Co-Development Products to BioNTech or its designee.

(g) Genevant shall, at BioNTech's request and election, use Commercially Reasonably Efforts to facilitate negotiations between BioNTech and Genevant's Third Party providers of clinical research, Manufacturing and/or Commercialization services.

(h) Genevant shall, and hereby does, effective on such termination, assign to BioNTech all of Genevant's and its Affiliates' right, title and interest in and to any and all trademarks used by Genevant and its Affiliates in the Territory in connection with its Development, Manufacture or Commercialization of Co-Development Products (excluding any such trademarks that include, in whole or part, any corporate name or logo of Genevant or its Affiliates), including all goodwill therein, and Genevant shall promptly take such actions and execute such instruments, assignments and documents as may be necessary to effect, evidence, register and record such assignment.

(i) All rights of Genevant to prosecute, maintain or enforce any Co-Owned Joint Patent pursuant to Section 11.2 (Patent Prosecution and Maintenance) and 11.4 (Infringement by Third Parties) shall terminate, and all such rights shall solely vest in BioNTech.

13.5 Effect of Termination by Genevant for Cause, Patent Challenge, Bankruptcy or Competitor Change of Control. Upon termination of this Agreement by Genevant pursuant to Section 13.2(b) (Termination for Cause), 13.2(c) (Termination for Patent Challenge), 13.2(d) (Termination for Bankruptcy) or) or 13.2(e) (Termination for Competitor Change of Control), the following consequences shall apply and shall be effective as of the effective date of such termination:

(a) All rights and obligations of either Party under this Agreement shall terminate unless otherwise specified in this Section 13.5 (Effect of Termination by Genevant) or Section 13.7 (Survival). To the extent termination is limited to certain Products only, only the rights and obligations of the Parties related to such Products shall terminate and all rights and obligations relating to all other Products shall survive such termination.

(b) Genevant shall (i) keep all licenses granted to Genevant under this Agreement, (ii) have the sole right, but not the obligation, to Develop, Manufacture and Commercialize any Co-Development Products in the Co-Development Field, at its sole cost and expense, and (iii) become the Lead Commercialization Party for all Co-Development Products in the Co-Development Field in the Territory. To the extent that any royalties will be owed by BioNTech to any Third Party pursuant to the terms of any agreement concluded by BioNTech or its Affiliates with such Third Party for Genevant's continued exercise of any of the licenses granted to Genevant under this Agreement, the Parties will work together with the Third Party to arrange for the payment of such royalties directly from Genevant to such Third Party.

(c) Upon request of Genevant, the Parties shall enter into good faith negotiations relating to the grant by BioNTech to Genevant of an exclusive, worldwide license, with the right to grant sublicenses through multiple tiers, under the BioNTech Technology and the

Co-Owned Joint Patents, to research, Develop, make, have made, use, distribute, sell, offer for

sale, have sold, import, export and otherwise Commercialize the BioNTech Product(s) which are the subject matter of the relevant termination in the BioNTech Field at commercial terms then to be agreed.

(d) BioNTech shall transfer to Genevant or destroy, at Genevant's election, all Confidential Information relating to its activities under this Agreement, including any copies thereof, and all materials, substances and compositions generated under this Agreement and shall provide reasonable technical assistance to Genevant in connection with the understanding and use of such Confidential Information, materials, substances and compositions at its own cost and expense, except that BioNTech shall be permitted to retain electronic copies of Confidential Information that are created pursuant to automatic IT backup or disaster recovery procedures (and any Confidential Information so retained will continue to be subject to Article 12 (Confidentiality; Publication).

(e) BioNTech shall assign to Genevant all Regulatory Filings and Regulatory Approvals for any Co-Development Product, and any BioNTech Know-How contained in such Regulatory Filings and Regulatory Approvals shall be subject to the licenses granted Section 2.2(b) (License Grant to Genevant).

(f) BioNTech shall disclose to Genevant all BioNTech Know-How and all Joint Inventions to the extent not already known to Genevant, which may be necessary or reasonably useful for Genevant to continue to Develop, Manufacture and Commercialize Co-Development Products in the Co-Development Field. In addition, BioNTech shall, at Genevant's request, provide reasonable technical assistance and transfer all BioNTech Know-How and Joint Inventions necessary to Manufacture Co-Development Products to Genevant or its designee.

(g) BioNTech shall, at Genevant's request and election, use Commercially Reasonably Efforts to facilitate negotiations between Genevant and BioNTech's Third Party providers of clinical research, Manufacturing and/or Commercialization services.

(h) BioNTech shall, and hereby does, effective on such termination, assign to Genevant all of BioNTech's and its Affiliates' right, title and interest in and to any and all trademarks used by BioNTech and its Affiliates in the Territory in connection with its Development, Manufacture or Commercialization of Co-Development Products (excluding any such trademarks that include, in whole or part, any corporate name or logo of BioNTech or its Affiliates), including all goodwill therein, and BioNTech shall promptly take such actions and execute such instruments, assignments and documents as may be necessary to effect, evidence, register and record such assignment.

(i) All rights of BioNTech to prosecute, maintain or enforce any Co-Owned Joint Patent pursuant to Section 11.2 (Patent Prosecution and Maintenance) and 11.4 (Infringement by Third Parties) shall terminate, and all such rights shall solely vest in Genevant.

.

13.6

Opt-out in relation to Co-Development Product Development.

(a) **Opt-out.** At any time after the filing of an IND (or equivalent foreign filing) of any Co-Development Product, either Party ("**Opt-Out Party**") may elect to terminate its participation in the Development of such Co-Development Products ("**Opt-Out**") at its sole discretion and for any reason or no reason, by providing written notice of termination to the other Party, which notice includes an effective date of the Opt-Out at least [***] after the date of the notice.

(b) **Effect of Termination.** Upon any Opt-Out pursuant to Section 13.6(a) (Opt-out), the following consequences shall apply and shall be effective as of the effective date of such Opt-Out:

(i) the Opt-Out Party's license under Section 2.2 (License for Co-Development Products) shall terminate and the license granted to the other Party under Section 2.2 (License for Co-Development Products) shall become an exclusive license (even as to the Opt-Out Party);

(ii) if BioNTech is the Opt-Out Party, BioNTech will continue to support GMP Manufacturing of Co-Development Products in accordance with Section 9.11 (Manufacturing Responsibilities);

(iii) if Genevant is the Opt-Out Party, Genevant will continue to support GMP Manufacturing of Co-Development Products in accordance with Section 9.11 (Manufacturing Responsibilities) until [***] to Co-Development Products;

(iv) except as provided above, the other Party shall be solely responsible for all future Development, Manufacture and Commercialization of such Co-Development Product in the Co-Development Field, at its sole cost and expense;

(v) the Opt-Out Party shall assign to the other Party all Regulatory Filings and Regulatory Approvals for such Co-Development Product, shall transfer control and responsibility for the global safety database to the other Party, and any Know-How contained in such Regulatory Filings and Regulatory Approvals shall be subject to the license grants in 2.2 (License for Co-Development Products), as amended by Section 13.6(b)(i) (Effect of Termination - subsection (i)) above;

(vi) if any clinical studies with respect to the Co-Development Product have been initiated and are on-going as of the effective date of any Opt-Out (each, an "**On-Going Clinical Study**"), the Opt-Out Party shall continue to fund its share of Development Costs with respect to such On-Going Clinical Study for [***]. In addition, if there are any On-

Going Clinical Studies being conducted by or under authority of the Opt-Out Party or its Affiliates at the time of notice of the Opt-Out, the Opt-Out Party agrees, as the other Party may request, to (A) promptly transition to the other Party or its designee some or all of such On-Going Clinical Studies and the activities related to or supporting such trials, (B) continue to conduct such On-Going Clinical Studies after the effective date of such Opt-Out until they have been completed, or (C) terminate such On-Going Clinical Studies in a manner consistent with Applicable Laws;

(vii) the Opt-Out Party shall disclose to the other Party all Know-How and all Joint Inventions to the extent not already known to the other Party, which may be necessary

or reasonably useful for the other Party to continue to Develop, Manufacture and Commercialize Co-Development Products in the Co-Development Field. In addition, shall, at the other Party's request, provide reasonable technical assistance and transfer all Know-How and Joint Inventions necessary to Manufacture Co-Development Products to the other Party or its designee;

(viii) the other Party shall pay the Opt-Out Party the milestone and royalties set forth in Exhibit K (and the terms of Article 8 (BioNTech Product Financial Provisions) shall apply mutatis mutandis);

(ix) the Opt-Out Party shall, at the other Party's request and election, use Commercially Reasonably Efforts to facilitate negotiations between the other Party and the Opt-Out Party's Third Party providers of clinical research, Manufacturing and/or Commercialization services;

(x) the Opt-Out Party shall, and hereby does, effective on such termination, assign to the other Party all of its and its Affiliates' right, title and interest in and to any and all trademarks used by it in the Territory in connection with its Development, Manufacture or Commercialization of Co-Development Products (excluding any such trademarks that include, in whole or part, any corporate name or logo of the Opt-Out Party or its Affiliates), including all goodwill therein, and the Opt-Out Party shall promptly take such actions and execute such instruments, assignments and documents as may be necessary to effect, evidence, register and record such assignment; and

(xi) the other Party may choose to terminate its efforts with respect to the Co-Development Products in its sole-discretion for any reason or no reason at any time after the Opt-Out Party elects to terminate.

13.7 Survival. Expiration or termination of this Agreement shall not relieve the Parties of any obligation accruing prior to such expiration or termination, nor shall expiration or any termination of this Agreement preclude either Party from pursuing all rights and remedies it may have under this Agreement, at law or in equity, with respect to breach of this Agreement. In addition, the provisions of Article 1 (Definitions), Sections 6.3(b) (Use of BioNTech Product Initial Manufacturing Know-How); 6.3(c) (Batch Records) 6.5 (Pre-existing or Publicly Available Manufacturing Know-How); 8.6 (Late Payments); 8.7 (Financial Records and Audit; 8.8 (Audit Dispute) 11.1(a) (Ownership of Sole Inventions); 11.1(b) (Disclosure of Inventions), 11.1(d) (Use of Joint Inventions); 11.2 (Patent Prosecution and Maintenance); 11.3 (Cooperation of the Parties); Article 12 (Confidentiality; Publication); Article 13 (Term and Termination); Article 15 (Indemnification; Liability) and Article 16 (General Provisions) hereof shall survive the expiration or termination of this Agreement.

13.8 Termination Not Sole Remedy. Termination is not the sole remedy under this Agreement and, whether or not the Agreement is terminated and notwithstanding anything contained in this Agreement to the contrary, all other remedies will remain available except as agreed to otherwise herein.

ARTICLE 14
REPRESENTATIONS AND WARRANTIES

14.1 Representations and Warranties of Each Party. Each Party represents and warrants to each other Party as of the Effective Date that:

(a) it has the full right, power and authority to enter into this Agreement, to perform its obligations hereunder; and

(b) this Agreement has been duly executed by it and is legally binding upon it, enforceable in accordance with its terms, and does not conflict with any agreement, instrument or understanding, oral or written, to which it is a party or by which it may be bound, nor violate any material law or regulation of any court, governmental body or administrative or other agency having jurisdiction over it.

14.2 Representations and Warranties by Genevant. Genevant represents and warrants to BioNTech as of the Effective Date that:

(a) it has not previously assigned, transferred, conveyed or otherwise encumbered its right, title and interest in Genevant Technology in a manner that is inconsistent with the licenses granted to BioNTech under Section 2.1 (Licenses for BioNTech) and Section 2.2(a) (License Grant to BioNTech) or its obligations under this Agreement;

(b) Genevant has not received any notice from a Third Party that the Genevant LNP infringes any Patents of any Third Party or misappropriates any other intellectual property of any Third Party and is not aware of any imminent or likely threat from a Third Party of such infringement or misappropriation;

(c) Genevant has not as of the Effective Date, and will not during the Term, grant any right to any Third Party under the Genevant Technology that would conflict with the rights granted to BioNTech hereunder;

(d) Genevant has no knowledge as of the Effective Date of any Third Party that is infringing or misappropriating any of the Genevant Technology;

(e) no Claim or action has been brought or, to Genevant's knowledge, threatened in writing by any Third Party alleging that the Genevant Patents are invalid or unenforceable, and no Genevant Patent is the subject of any interference, opposition, cancellation or other similar proceeding except as identified in Exhibit G; and

(f) the patents and patent applications listed on **Exhibit G** constitute all existing Genevant Patents as of the Effective Date.

14.3 Representations and Warranties by BioNTech. BioNTech represents and warrants to Genevant as of the Effective Date that:

(a) it has not previously assigned, transferred, conveyed or otherwise encumbered its right, title and interest in the BioNTech mRNA Payloads, Co-Development mRNA Payloads, or BioNTech Technology in a manner that is inconsistent with the licenses granted to Genevant under Section 2.2(b) (License Grant to Genevant) its obligations under this Agreement;

(b) BioNTech has not received any notice from a Third Party that any BioNTech mRNA Payload or

Co-Development mRNA Payloads infringes any Patents of any Third Party or misappropriates any other intellectual property of any Third Party and is not aware of any imminent or likely threat from a Third Party of such infringement or misappropriation;

(c) BioNTech has not as of the Effective Date, and will not during the Term, grant any right to any Third Party under the BioNTech Technology that would conflict with the rights granted to Genevant hereunder;

(d) BioNTech has no knowledge as of the Effective Date of any Third Party that is infringing or misappropriating any of the BioNTech Technology;

(e) no Claim or action has been brought or, to BioNTech's knowledge, threatened in writing by any Third Party alleging that the BioNTech Patents are invalid or unenforceable, and no BioNTech Patent is the subject of any interference, opposition, cancellation or other similar proceeding; and

(f) the patents and patent applications listed on **Exhibit H** constitute all existing BioNTech Patents as of the Effective Date.

14.4 No Other Warranties. EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER PARTY MAKES, AND EACH PARTY EXPRESSLY DISCLAIMS, ANY AND ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING THE WARRANTIES OF DESIGN, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, VALIDITY OF PATENTS,
NON-INFRINGEMENT OF THE INTELLECTUAL PROPERTY RIGHTS OF THIRD PARTIES, OR ARISING FROM A COURSE OF DEALING, USAGE OR TRADE PRACTICES.

ARTICLE 15
INDEMNIFICATION; LIABILITY

15.1 Indemnification by Genevant. Genevant shall indemnify and hold BioNTech, its Affiliates and Sublicensees, and their respective officers, directors, agents and employees ("**BioNTech Indemnitees**") harmless from and against any Claims arising under or related to this Agreement against them to the extent arising or resulting from:

(a) the gross negligence or willful misconduct of or violation of Applicable Laws by any of the Genevant Indemnitees;

(b) the material breach of any of the covenants, warranties or representations made by Genevant to BioNTech under this Agreement; or

(c) any material breach by Genevant of its obligations pursuant to this Agreement;

except in each case, to the extent such Claims result from the material breach by BioNTech of any covenant, representation, warranty or other agreement made by BioNTech in this Agreement or the negligence or willful misconduct of any BioNTech Indemnitee. Notwithstanding the above, Genevant will have no obligation to defend or indemnify BioNTech or its Affiliates for any claim brought by a shareholder or a class of shareholders of BioNTech or its Affiliates including, but not limited to, securities fraud claims, shareholder direct claims, and shareholder derivative claims, expect to the extent resulting from the gross negligence or willful misconduct on the part of Genevant or any Affiliate.

15.2 Indemnification by BioNTech. BioNTech shall indemnify and hold Genevant, its Affiliates and Sublicensees, and their respective officers, directors, agents and employees ("**Genevant Indemnitees**") harmless from and against any Claims arising under or related to this Agreement against them to the extent arising or resulting from:

(a) the gross negligence or willful misconduct of or violation of Applicable Laws by any of the BioNTech Indemnitees;

(b) the material breach of any of the covenants, warranties or representations made by BioNTech to Genevant under this Agreement; or

(c) any material breach by BioNTech of its obligations pursuant to this Agreement; or

(d) product recall, products' liability, infringement claims, or similar claims based on the research, Development, Manufacture or Commercialization of a BioNTech Product including any such claims made against [***]

except in each case, to the extent such Claims result from the material breach by Genevant of any covenant, representation, warranty or other agreement made by Genevant in this Agreement or the negligence or willful misconduct of any Genevant Indemnitee. Notwithstanding the above, BioNTech will have no obligation to defend or indemnify Genevant or its Affiliates for any claim brought by a shareholder or a class of shareholders of Genevant or its Affiliates including, but not limited to, securities fraud claims, shareholder direct claims, and shareholder derivative claims, expect to the extent resulting from the gross negligence or willful misconduct on the part of BioNTech or any Affiliate.

15.3 Indemnification Procedure. If either Party is seeking indemnification under Sections 15.1 (Indemnification by Genevant) or 15.2 (Indemnification by BioNTech) (the **"Indemnified Party"**), it shall inform the other Party (the **"Indemnifying Party"**) of the Claim giving rise to the obligation to indemnify pursuant to such section as soon as reasonably practicable after receiving notice of the Claim. The Indemnifying Party shall have the right to assume the defense of any such Claim for which it is obligated to indemnify the Indemnified Party. The Indemnified Party shall cooperate with the Indemnifying Party and the Indemnifying Party's insurer as the Indemnifying Party may reasonably request, and at the Indemnifying Party's cost and expense. The Indemnified Party shall have the right to participate, at its own expense and with counsel of its choice, in the defense of any Claim or suit that has been assumed by the Indemnifying Party. Neither Party shall have the obligation to indemnify the other Party in connection with any settlement made without such Party's written consent, which consent shall not be unreasonably withheld or delayed. If the Parties cannot agree as to the application of Section 15.1 (Indemnification by Genevant) or 15.2 (Indemnification by BioNTech) as to any Claim, pending resolution of the dispute pursuant to Section 16.10 (Dispute Resolution), the Parties may conduct separate defenses of such Claims, with each Party retaining the right to claim indemnification from the other Party in accordance with Section 15.1 (Indemnification by Genevant) or 15.2 (Indemnification by BioNTech) upon resolution of the underlying Claim.

15.4 Mitigation of Loss. Each Indemnified Party will take and will procure that its Affiliates take all such reasonable steps and action as are reasonably necessary or as the Indemnifying Party may reasonably require in order to mitigate any Claims (or potential losses or damages) under this Article 15 (Indemnification; Liability). Nothing in this Agreement shall or shall be deemed to relieve any Party of any common law or other duty to mitigate any losses incurred by it.

15.5 Special, Indirect and Other Losses. EXCEPT IN THE EVENT OF A PARTY'S BREACH OF SECTION 2.6 (EXCLUSIVITY) OR Article 10 (CONFIDENTIALITY; PUBLICATION), NEITHER PARTY SHALL BE ENTITLED TO RECOVER FROM THE OTHER PARTY ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THIS AGREEMENT OR ANY LICENSE GRANTED HEREUNDER; *provided, however,* that this Section 15.5 shall not be construed to limit either Party's indemnification obligations under Section 15.1 (Indemnification by Genevant) or Section 15.2 (Indemnification by BioNTech), as applicable.

15.6 Conduct of Product Liability Claims.

(a) Each of the Parties shall promptly notify the other in the event that any Third Party asserts or files any products liability claim or other Claim relating to alleged defects in the Co-Development Product (whether design defects, Manufacturing defects or defects in sales or marketing) ("**Third Party Products Liability Action**") against such Party. In the event of a Third Party Products Liability Action against such a single Party, the unnamed Party shall have the right, in the unnamed Party's sole discretion, to join or otherwise participate in such legal action with legal counsel selected by the unnamed Party and reasonably acceptable to the named Party. The Party named in such Third Party Products Liability Action shall have the right to control the defense of the action, but shall notify and keep the unnamed Party apprised in writing of such action and shall consider and take into account the unnamed Party's reasonable interests and requests and suggestions regarding the defense of such action. In the event of a Third Party Products Liability Action against both Parties, the Parties shall mutually agree upon which Party shall control the response to such Third Party Products Liability Action.

(b) The non-controlling Party of a Third Party Products Liability Action shall reasonably cooperate with the controlling Party in the preparation and formulation of a defense to such Third Party Products Liability Action, and in taking other steps reasonably necessary to respond to such Third Party Products Liability Action. The controlling Party shall have the sole and exclusive right to select its counsel for the defense to such Third Party Products Liability Action. If required under Applicable Law in order for the controlling Party to maintain a suit in response to such Third Party Products Liability Action, the non-controlling Party shall join as a party to the suit. The controlling Party shall assume and pay all of its own costs incurred in connection with any litigation or proceedings related to such Third Party Products Liability Action, including the fees and expenses of the counsel selected by it, as well as the costs of the non-controlling Party associated with providing assistance requested by the controlling Party or joining the suit if requested by the controlling Party or required to maintain the suit. The non-controlling Party shall also have the right to participate and be represented in any such suit by its own counsel at its own expense. All Out-of-Pocket Costs and FTE Costs incurred in connection with any litigation or proceeding related to such Third Party Products Liability Action shall be taken into account in determining Profit or Loss as, and to the extent, provided in Exhibit F. The controlling Party shall not settle or compromise any Third Party Products Liability Action without the consent of the other Party, which consent shall not be unreasonably withheld.

15.7 Insurance. Each Party, at its own expense, shall maintain product liability and other appropriate insurance (or self-insure) in an amount consistent with sound business practice and reasonable in light of its obligations under this Agreement during the Term. Each Party shall provide a certificate of insurance (or evidence of self-insurance) evidencing such coverage to the other Party upon request.

ARTICLE 16
GENERAL PROVISIONS

16.1 Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the United Kingdom without reference to any United Kingdom rules of conflict of laws.

16.2 Assignment. Except as expressly provided hereunder, neither this Agreement nor any rights or obligations hereunder may be assigned or otherwise transferred by either Party without the prior written consent of the other Party (which consent shall not be unreasonably withheld); *provided, however,* that either Party may assign or otherwise transfer this Agreement and its rights and obligations hereunder without the other Party's consent (a) in connection with the transfer or sale of all or substantially all of the business or assets of such Party to which this Agreement relates to a Third Party (except where such transfer or sale results in termination of the Agreement pursuant to Section 13.2(e) (Termination for Competitor Change of Control)), whether by merger, consolidation, divesture, restructure, sale of stock, sale of assets or otherwise; *provided* that in the event of any such transaction (whether this Agreement is actually assigned or is assumed by the acquiring party by operation of law (e.g., in the context of a reverse triangular merger)), intellectual property rights of the acquiring party to such transaction (if other than one of the Parties to this Agreement) and its affiliates existing prior to the transaction shall not be included in the technology licensed hereunder; or (b) to an Affiliate, *provided* that the assigning Party shall remain liable and responsible to the non-assigning Party hereto for the performance and observance of all such duties and obligations by such Affiliate. The rights and obligations of the Parties under this Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties, and the name of a Party appearing herein will be deemed to include the name of such Party's successors and permitted assigns to the extent necessary to carry out the intent of this section. Any assignment not in accordance with this Section 16.2 (Assignment) shall be null and void.

16.3 Entire Agreement; Modification. This Agreement is both a final expression of the Parties' agreement and a complete and exclusive statement with respect to all of its terms. This Agreement supersedes all prior and contemporaneous agreements and communications, whether oral, written or otherwise, concerning any and all matters contained herein. This Agreement may only be modified or supplemented in a writing expressly stated for such purpose and signed by the Parties to this Agreement.

16.4 Relationship Between the Parties. The Parties' relationship with one another, as established by this Agreement, is solely that of independent contractors. This Agreement does not create any partnership, joint venture or similar business relationship between the Parties. Neither Party is a legal representative of the other Party. Neither Party can assume or create any obligation, representation, warranty or guarantee, express or implied, on behalf of the other Party for any purpose whatsoever.

16.5 Taxes

(a) **Taxes on Income.** Except as otherwise set forth in this Section 16.5 (Taxes), each Party shall be solely responsible for the payment of all Taxes imposed on such Party's income arising directly or indirectly from the activities of the Parties under this Agreement.

(b) **Taxes of Co-Entrepreneurship.** If and to the extent the Parties are considered to be partners of a co-entrepreneurship for Tax purposes because of their collaboration governed by this Agreement and Taxes allocated to the co-entrepreneurship (e.g. German trade tax, but excluding any Taxes imposed on or with respect to net income other than German trade tax) are owed by either of the Parties such Tax (as well as any related cost of reporting and preparation of relevant Tax returns) shall be considered a cost item to be borne by the Parties in accordance with the Profit and Loss split set out in Section 10.4 and the principles set out in Exhibit C. The Parties shall cooperate in good faith to agree on a mutual tax filing position for their collaboration governed by this Agreement in due course after the Effective Date. Each Party shall have the right to assign its contractual position under this Agreement to a wholly owned corporate subsidiary ("**Blocker Entity**") provided that the relevant Party (i) remains secondarily liable for any liabilities of the Blocker Entity under this Agreement and (ii) shall indemnify the other Party from any Taxes triggered by the transfer of the contractual position to the Blocker Entity.

(c) **Taxes as Development Costs.** For the avoidance of doubt, any non-recoverable import taxes, export taxes, excise taxes, sales taxes, VAT, consumption taxes and comparable taxes and duties accruing in connection with any activity to be performed under the Co-Development Product Development Plan, including any Taxes described in Section 16.5(e) that accrue in connection with any activity to be performed under the Co-Development Product Development Plan, shall qualify as Development Costs and considered a cost item to be borne by the Parties in accordance with the Profit and Loss split set out in Section 10.4.

(d) **Tax Cooperation.** The Parties agree to use commercially reasonable efforts to cooperate with one another and use commercially reasonable efforts to avoid or reduce, to the extent permitted by Applicable Laws, Tax withholding or similar obligations in respect of royalties, milestone payments, and other payments made by the paying Party to the receiving Party under this Agreement ("**Withholding Taxes**"). If Withholding Taxes are imposed on any payment under this Agreement, the liability for such Withholding Taxes shall be the sole responsibility of the receiving Party, and the paying Party shall (i) deduct or withhold such Withholding Taxes from the payment made to the receiving Party, (ii) timely pay such Withholding Taxes to the proper taxing authority, and (iii) send proof of payment to the receiving Party within thirty (30) days following such payment. If and to the extent the paying Party failed to retain Withholding Taxes (e.g. because the Parties assumed that Withholding Taxes will not be imposed) or if Withholding Taxes are imposed on "deemed payments" the receiving Party shall reimburse the paying Party for any Withholding Tax obligation vis-à-vis the tax authorities. Each Party shall comply with (or provide the other Party with) any certification, identification or other reporting requirements that may be reasonably necessary in order for the paying Party to not withhold Withholding Taxes or to withhold Withholding Taxes at a reduced rate under an applicable bilateral income tax treaty. Each Party shall provide the other with commercially reasonable assistance to enable the recovery, as permitted by Applicable Laws, of Withholding Taxes or similar obligations resulting from payments made under this Agreement, such recovery to be for the benefit of the Party bearing the cost of such Withholding Taxes under this Section 16.5(d) (Tax Cooperation). Notwithstanding the foregoing, if as a result of any assignment or sublicense by the paying Party, any change in the paying Party's tax residency, any change in the entity that originates the

payment, or any failure on the part of the paying Party to comply with Applicable Laws with respect to Withholding Taxes (including filing or record retention requirements), Withholding Taxes are imposed that would not

otherwise have been imposed ("**Incremental Withholding Taxes**"), then the paying Party shall be solely responsible for the amount of such Incremental Withholding Taxes and shall increase the amounts payable to the receiving Party so that the receiving Party receives a sum equal to the sum which it would have received had there been no such imposition of Incremental Withholding Taxes. If a Party makes a payment in accordance with the sentence above (gross-up) ("**Tax Payment**") and

(i) a credit against, relief or remission for, or repayment of any Tax ("**Tax Credit**") is attributable to that Tax Payment and

(ii) the receiving Party determines in good faith that it has obtained and utilised that Tax Credit on an affiliated group basis,

the receiving Party shall pay to the paying Party an amount equal to such Tax Credit, net of all out-of-pocket expenses (including Taxes) of such receiving Party and without interest (other than interest paid by the relevant taxing authority with respect to such Tax Credit). Notwithstanding anything else in this Section 16.5(d), in no event will the receiving Party be required to pay any amount to paying Party pursuant to this Section 16.5(d) the payment of which would place the receiving Party in a less favorable net after-Tax position than the receiving Party would have been in if the Tax giving rise to such Tax Credit had not been deducted, withheld or otherwise imposed and the applicable Tax Payment had never been paid. This paragraph shall not be construed to require the receiving Party to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the paying Party or any other Person. The receiving Party shall use its commercially reasonable efforts to obtain and utilise that Tax Credit on an affiliated group basis.

(e) **Value Added Tax**. All payments between the Parties under this Agreement are exclusive of applicable statutory value added tax ("**VAT**"), if any, which shall be listed separately on each invoice. If and to the extent any VAT will become payable due to any supplies or services rendered under this Agreement and if and to the extent such VAT is to be paid by the Party providing the supply or service to the competent tax authorities, the receiving Party shall pay an amount equal to such VAT to the providing Party upon receipt of a valid invoice allowing for the recovery of such VAT. The same shall apply mutatis mutandis for potential other transfer taxes such as stamp, sales, use or similar taxes ("**Transfer Tax**") imposed on any payments under this Agreement. In case there will be new Transfer Taxes introduced after the Effective Date, the Parties will agree on the burden of such Transfer Taxes in good faith. The Parties shall cooperate in good faith to minimize and/or recover (such recovery to be for the benefit of the Party bearing the cost of such Transfer Tax) any Transfer Tax, as permitted by Applicable Laws.

16.6

Non-Waiver. The failure of a Party to insist upon strict performance of any provision of this Agreement or to exercise any right arising out of this Agreement shall neither impair that provision or right nor constitute a waiver of that provision or right, in whole or in part, in that instance or in any other instance. Any waiver by a Party of a particular provision or right shall be in writing, shall be as to a particular matter and, if applicable, for a particular period of time and shall be signed by such Party.

16.7 Force Majeure. Neither Party shall be held liable to the other Party nor be deemed to have defaulted under or breached this Agreement for failure or delay in performing any obligation under this Agreement to the extent such failure or delay is caused by or results from causes beyond the reasonable control of the affected Party, potentially including embargoes, war,

acts of war (whether war be declared or not), acts of terrorism, insurrections, riots, civil commotions, strikes, lockouts or other labor disturbances, fire, floods, or other acts of God, or acts, omissions or delays in acting by any governmental authority or unavailability of materials related to the Manufacture of Products. The affected Party shall notify the other Party of such force majeure circumstances as soon as reasonably practical, and shall promptly undertake and continue diligently all reasonable efforts necessary to cure such force majeure circumstances or to perform its obligations in spite of the ongoing circumstances.

16.8 Severability. If any one or more of the provisions contained in this Agreement is held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein shall not in any way be affected or impaired thereby, unless the absence of the invalidated provision(s) adversely affects the substantive rights of the Parties. The Parties shall in such an instance use their best efforts to replace the invalid, illegal or unenforceable provision(s) with valid, legal and enforceable provision(s) which, insofar as practical, implement the purposes of this Agreement.

16.9 Notices. Any notice to be given under this Agreement must be in writing and delivered either (a) in person, (b) by air mail (postage prepaid) requiring return receipt, (c) by overnight courier, or (d) by
e-mail with delivery and return receipts requested and confirmation of delivery thereafter, to the Party to be notified at its address(es) given below, or at any address such Party may designate by prior written notice to the other. Notice shall be deemed sufficiently given for all purposes only upon receipt.

16.10 Dispute Resolution

(a) The Parties shall negotiate in good faith and use reasonable efforts to settle any dispute, controversy or claim arising from or related to this Agreement or the breach thereof. Subject to Section 16.10(g) (Dispute Resolution - subsection (g)), in the event the Parties cannot resolve such dispute, controversy or claim within a period of thirty (30) days, then the matter shall be referred to designated senior executives of the Parties for resolution. The initial designated senior executives shall be BioNTech's Head Alliance Management . Each Party shall be entitled to name substitute senior executives upon written notice to the other Party.

(b) Except as expressly set forth in Section 16.10(g) (Dispute Resolution - subsection (g)), if, after going through this procedure, the Parties do not fully settle, and a Party wishes to pursue the matter, each such dispute, controversy or claim that is not an Excluded Claim (defined in Section 16.10(f) (Dispute Resolution - subsection (f)) below) shall be finally resolved by binding arbitration according to the International Chamber of Commerce (ICC) Rules of Arbitration, as applicable on the date of commencement of the arbitration proceedings. Place of arbitration shall be London, England. Exclusive language of the proceedings shall be English. In addition to the ICC Rules of Arbitration, the procedural law in force at the seat of arbitration shall apply. The arbitration shall be conducted by a panel of three (3) neutral arbitrators who shall be attorneys and have (i) at least [***] of dispute resolution experience (which may include judicial experience) or (ii) at least [***] of legal or business experience in the biotechnology or pharmaceutical industry, none of whom shall be a current or former employee or director, or a current stockholder, of either Party or any of their respective Affiliates or any Sublicensee: within thirty (30) days after initiation of arbitration, each Party shall select one (1) person to act as arbitrator and the two (2) Party-selected arbitrators shall select a third (3rd) arbitrator within thirty (30) days of their appointment. If the arbitrators selected by the Parties are unable or fail to agree upon the third (3rd) arbitrator, the third (3rd) arbitrator shall be appointed in accordance with the ICC Rules. In addressing any of the subjects within the scope of the Preliminary Conference, the arbitrators shall take into account both the desirability of making discovery efficient and cost-effective and the needs of the Parties for an understanding of any legitimate issue raised in the arbitration. The award rendered by the arbitrators shall be final, binding and non-appealable, and judgment may be entered upon it in any court of competent jurisdiction.

(c) Either Party may apply to the arbitrators for interim injunctive relief until the arbitration award is rendered or the controversy is otherwise resolved. The arbitrators' authority to award punitive or any other type of damages not measured by a Party's compensatory

damages shall be subject to the limitation set forth in Section 15.5 (Special, Indirect and Other Losses). Each Party shall bear its own costs and expenses and attorneys' fees and an equal share of the arbitrators' fees and any administrative fees of arbitration.

(d) Except to the extent necessary to confirm or enforce an award or as may be required by law, neither Party nor an arbitrator may disclose the existence, content, or results of an arbitration without the prior written consent of the other Party. In no event shall an arbitration be initiated after the date when commencement of a legal or equitable proceeding based on the dispute, controversy or claim would be barred by the applicable statute of limitations of the United Kingdom.

(e) The Parties agree that, in the event of a dispute over the nature or quality of performance under this Agreement, neither Party may terminate this Agreement until final resolution of the dispute through arbitration or other judicial determination. The Parties further agree that any payments made pursuant to this Agreement pending resolution of the dispute shall be refunded if an arbitrator or court determines that such payments are not due.

(f) As used in this Section, the term "**Excluded Claim**" means a dispute, controversy or claim that concerns (i) the construction, scope, validity, enforceability, inventorship or infringement of a patent, patent application, trademark or copyright; or (ii) any antitrust, anti-monopoly or competition law or regulation, whether or not statutory.

(g) Nothing contained in this Agreement shall deny either Party the right to seek injunctive or other equitable relief from a court of competent jurisdiction in the context of a *bona fide* emergency or prospective irreparable harm, and such an action may be filed and maintained notwithstanding any ongoing discussions between the Parties or any ongoing arbitration proceeding. In addition, either Party may bring an action in any court of competent jurisdiction to resolve disputes pertaining to the validity, construction, scope, enforceability, infringement or other violations of Patents or other intellectual property rights, and no such claim shall be subject to arbitration pursuant to subsections (b) and (c) of this Section 16.10 (Dispute Resolution).

16.11 Performance by Affiliates. Each Party may discharge any obligations and exercise any rights hereunder through any of its Affiliates. Each Party hereby guarantees the performance by its Affiliates of such Party's obligations under this Agreement, and shall cause its Affiliates to comply with the provisions of this Agreement in connection with such performance. Any breach by a Party's Affiliate of any of such Party's obligations under this Agreement shall be deemed a breach by such Party, and the other Party may proceed directly against such Party without any obligation to first proceed against such Party's Affiliate.

16.12 Headings. The captions to the several Articles, Sections and subsections hereof are not a part of this Agreement, but are merely for convenience to assist in locating and reading the several Articles and Sections hereof.

16.13 Waiver of Rule of Construction. Each Party has had the opportunity to consult with counsel in connection with the review, drafting and negotiation of this Agreement. Accordingly, the rule of construction that any ambiguity in this Agreement shall be construed against the drafting Party shall not apply.

16.14 Business Day Requirements. In the event that any notice or other action or omission is required to be taken by a Party under this Agreement on a day that is not a Business Day then such notice or other action or omission shall be deemed to require to be taken on the next occurring Business Day.

16.15 English Language. This Agreement has been prepared in the English language, and the English language shall control its interpretation. In addition, all notices required or permitted to be given hereunder, and all written, electronic, oral or other communications between the Parties regarding this Agreement shall be in the English language.

16.16 Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

{REMAINDER OF PAGE INTENTIONALLY LEFT BLANK}

IN WITNESS WHEREOF, the Parties intending to be bound have caused this License and Co-Development Agreement to be executed by their duly authorized representatives.

TAXES OF
CO-ENTREPRENEURSHIP

Burden-sharing trade tax in case of a co-entrepreneurship

If and to the extent the Parties are considered to be partners of a co-entrepreneurship for Tax purposes because of their collaboration governed by this Agreement and trade tax (including possible ancillary charges related thereto) with regard to this co-entrepreneurship (***Common Tax***) accrues, this Common Tax shall be borne and, where required, compensated between the Parties (***Tax Equalization***) according to the following provisions:

In principle, both Parties bear Common Taxes at a ratio of 50% | 50%.

If and to the extent

i. attributions from special business balance sheets (assets, equity and liabilities, special business income, special business expenses) or from (positive or negative) supplementary tax balance sheets of a Party or

ii. the transfer of the interest in the co-entrepreneurship of a Party or the withdrawal of a Party from the co-entrepreneurship

Lastenverteilung Gewerbesteuer im Fall einer Mitunternehmerschaft

1. Wenn und soweit die Parteien wegen ihrer Zusammenarbeit unter dieser Vereinbarung als Mitunternehmer einer Mitunternehmerschaft anzusehen sind und Gewerbesteuer (einschließlich etwaiger damit zusammenhängender steuerlicher Nebenleistungen) betreffend dieser Mitunternehmerschaft (***Gemeinsame Steuer***) geschuldet wird, soll diese Gemeinsame Steuer von den Parteien nach Maßgabe der folgenden Bestimmungen getragen und ggf. ausgeglichen (***Steuerausgleich***) werden:

2. Die Parteien tragen eine Gemeinsame Steuer grundsätzlich im Verhältnis 50% | 50%.

3. Wenn und soweit eine Gemeinsame Steuer

i. durch Zurechnungen aus Sonderbilanzen (Aktiva, Passiva, Sonderbetriebseinnahmen, Sonderbetriebsaufwendungen) oder (positiven oder negativen) Ergänzungsbilanzen einer Partei oder

ii. durch Übertragung des Mitunternehmeranteils einer Partei oder durch das Ausscheiden einer Partei aus der Mitunternehmerschaft

cause either in this or (e.g. due to a bigger or smaller loss carry-forward) one of the following years an additional Common Tax (***Additional Tax Burden***) or a reduced Common Tax (***Reduced Tax Burden***), the following shall apply: Additional Tax Burdens are, in derogation from No. 2 of this Exhibit, borne solely by the causative Party and, where required, refunded to the other Party in accordance with this burden-sharing; Reduced Tax Burdens are, in derogation from No. 2 of this Exhibit, exclusively for the benefit of the causative Party and, where required, partly refunded by the other Party to the causative Party in accordance with this burden-sharing; for the avoidance of doubt, the Parties clarify that a Tax Equalization shall also take place if a Common Tax is saved.

If an Additional Tax Burden or a Reduced Tax Burden is caused by a direct or indirect shareholder of a Party, this Additional Tax Burden or Reduced Tax Burden shall be deemed to have been caused by this Party for the purposes of this Exhibit.

4. Trade tax disadvantages which result from the fact that, due to the termination of the co-entrepreneurship or a relevant transfer of a participation (section 10a sentence 10 German Trade Tax Act, section 8c German Corporate Income Tax Act), trade tax losses carried-forward may be forfeited, shall not be compensated by the causative Party.

in diesem oder (z.B. wegen eines erhöhten oder geminderten Verlustvortrags) einem der folgenden Jahre höher ausfällt (***Steuerliche Mehrbelastungen***) oder niedriger ausfällt (***Steuerliche Minderbelastungen***), wird im Fall einer Steuerlichen Mehrbelastung diese Steuerliche Mehrbelastung abweichend von Ziffer 2 dieses Exhibit ausschließlich von der verursachenden Partei getragen und ggf. entsprechend dieser Lastenverteilung der anderen Partei erstattet, und kommt im Fall einer Steuerlichen Minderbelastung diese Steuerliche Minderbelastung abweichend von Ziffer 2 dieses Exhibit ausschließlich der verursachenden Partei zugute und hat die andere Partei der verursachenden Partei die Steuerliche Minderbelastung ggf. entsprechend dieser Lastenverteilung anteilig zu erstatten; die Parteien stellen klar, dass auch im Fall einer ersparten Gemeinsamen Steuer ein Steuerausgleich stattfinden soll.

Werden Steuerliche Mehrbelastungen oder Steuerliche Minderbelastungen durch einen direkten oder indirekten Anteilseigner einer Partei verursacht, gilt dies für Zwecke dieses Exhibit als durch die jeweilige Partei verursacht.

4. Gewerbesteuerliche Nachteile, die dadurch entstehen, dass gewerbesteuerliche Fehlbeträge wegen der Beendigung der Mitunternehmerschaft oder eines schädlichen Beteiligungserwerbs (§§ 10a S. 10 GewStG, 8c KStG) nicht mehr genutzt werden können, sind von der verursachenden Partei nicht auszugleichen.

Confidential **Execution Copy**

5. The amounts of the Tax Equalization according to this Exhibit are to be calculated by way of an iterative calculation process which takes into account the respective additional or reduced income tax or corporate income tax of the Parties which results from the fact that, on the one hand, the Common Tax is not tax deductible, while, on the other hand, the equalization payment is taxable by the receiving Party and possibly tax deductible by the paying Party.

5. Bei der Berechnung des Steuerausgleichs nach diesem Exhibit ist im Rahmen eines iterativen Rechenprozesses jeweils eine einkommen- bzw. körperschaftsteuerliche Mehr- bzw. Minderbelastung der Parteien zu berücksichtigen, die aus dem Umstand resultiert, dass einerseits die Gemeinsame Steuer einem steuerlichen Abzugsverbot unterliegt, hingegen andererseits die Ausgleichszahlung bei der erstattungsberechtigten Partei steuerpflichtig und ggf. bei der erstattungspflichtigen Partei steuerlich abzugsfähig ist.

6. To the extent the Tax Equalization has neither yet taken place nor can take place in the course of the application of section 10.4 of the Agreement, the Party entitled to the compensation shall have a compensation claim against the other Party pursuant to this Exhibit. This claim shall become time-barred upon expiration of six months after the relevant tax trade tax assessment has become formally and substantially binding. Additional Tax Burdens or Reduced Tax Burdens, which arise after the termination of the co-entrepreneurship, are to be compensated (notwithstanding a possible termination of the Agreement) between the Parties as well.

6. Soweit der Steuerausgleich einer Gemeinsamen Steuer nicht bereits im Rahmen von Section 10.4 der Vereinbarung erfolgt ist oder erfolgen kann, hat die zum Ausgleich berechtigte Partei einen Ausgleichsanspruch gegen die andere Partei nach Maßgabe dieses Exhibit. Dieser Anspruch verjährt 6 Monate nach formeller und materieller Bestandskraft des jeweiligen Gewerbesteuerbescheides. Steuerliche Mehr- oder Minderbelastungen, die erst nach Beendigung der Mitunternehmerschaft eintreten, sind zwischen den Parteien (auch nach Vertragsbeendigung) ebenfalls auszugleichen.

7. If and to the extent the Parties are considered to be partners of a co-entrepreneurship for Tax purposes because of their collaboration governed by this Agreement and there are, due to a

7. Wenn und soweit die Parteien wegen ihrer Zusammenarbeit unter dieser Vereinbarung als Mitunternehmer einer Mitunternehmerschaft anzusehen sind und es aufgrund von Abzugsverboten

deduction prohibition (e.g. the German interest barrier or royalty barrier), other special income tax effects (especially regarding corporate income tax and trade tax), which are caused by the respective other Party, an equalization shall take place between the Parties according to the principles set out in this Exhibit.

(z.B. der deutschen Zins- und/oder Lizenzschranke) zu anderen ertragsteuerlichen Sondereffekten (insbesondere betreffend Körperschaftsteuer und Gewerbesteuer) kommt, die durch die jeweils andere Partei verursacht sind, soll ein Aus-gleich zwischen den Parteien entsprechend den in diesem Exhibit festgelegten Grundsätzen erfolgen.

In the event of discrepancies between the German and the English version of this Exhibit, the German version of this Exhibit shall prevail.

8. Im Falle von Abweichungen zwischen der deutschen und der englischen Fassung dieses Exhibit geht die deutsche Fassung vor.

EXHIBIT F

PROCEDURE FOR CALCULATING PROFIT OR LOSS
OF
CO-DEVELOPMENT PRODUCTS

Profit or Loss from Co-Development Products in the Territory shall be calculated in accordance with this Exhibit F.

Calculation of Profit or Loss

Profit or Loss shall be calculated for each Calendar Quarter by determining the Net Sales of Co-Development Products, adding any Other Income and subtracting the sum of the Allowable Expenses incurred during such Calendar Quarter. Notwithstanding the foregoing, on a Calendar Year-to-date basis, Allowable Expenses shall not be included in such calculation if such expenses are in excess of the amounts allocated for such Calendar Year-to-date period, in the budget for Commercialization approved by the JSC; provided, however, that Allowable Expenses in excess of the Commercialization budget shall be included in the calculation of Profit or Loss in (i) if the JSC approves such excess Allowable Expenses (either before or after they are incurred), which approval shall not be unreasonably withheld to the extent the Allowable Expenses in excess of the applicable budget were not within the reasonable control of the Party (or Party's Affiliate) incurring such expense or (ii) to the extent such excess does not [***] in the applicable Calendar Year-to-date period in accordance with the Commercialization budget for such Calendar Year. If any excess Allowable Expenses are excluded from sharing by the Parties for a particular Calendar Year-to-date period pursuant to the foregoing sentence, such excess Allowable Expenses shall be carried forward to subsequent Calendar Quarters (provided that such Calendar Quarters fall within the same Calendar Year) and, to the extent the total Allowable Expenses incurred by such Party and its Affiliates for the Calendar Year-to-date as of the end of such subsequent Calendar Quarter are less than [***] of the aggregate Allowable Expenses allocated to such Party under the commercialization budget for such Calendar Year-to-date period, such carried forward amounts shall be included in Allowable Expenses to be shared by the Parties for such Calendar Year-to-date period (*i.e.,* so that the total Allowable Expenses incurred by such Party and its Affiliates that are shared pursuant to this paragraph do not exceed [***] of the Allowable Expenses allocated to such Party under the commercialization budget, unless otherwise approved by the JSC).

Definitions

The following definitions shall apply for purposes of calculating Profit or Loss in accordance this Exhibit F.

(1) "**Allowable Expenses**" means [***]

(2) "**Blocking Third Party Patent Costs**" means [***]

(3) "**Distribution Costs**" means [***]

(4) [***]

(5) [***]

RESEARCH COLLABORATION AND LICENSE AGREEMENT

This Research Collaboration and License Agreement (the "Agreement") is entered into as of July 20, 2018 (the "Execution Date"), by and between Pfizer Inc., a corporation organized and existing under the laws of Delaware and having a principal place of business at 235 East 42nd Street, New York, New York, 10017 United States ("Pfizer") and BioNTech RNA Pharmaceuticals GmbH, a corporation organized and existing under the laws of Germany and having a place of business at An der Goldgrube 12,
D-55131 Mainz, Germany ("BioNTech RNA") and BioNTech AG, a corporation organized and existing under the laws of Germany and having a place of business at An der Goldgrube 12, D-55131 Mainz, Germany ("BioNTech AG"). BioNTech RNA and BioNTech AG are collectively referred to herein as "BioNTech").Pfizer and BioNTech may each be referred to herein individually as a "Party" and collectively as the "Parties."

WHEREAS, BioNTech owns or otherwise Controls (as defined below) certain patents, patent applications, technology,
know-how, scientific and technical information and other proprietary rights and information relating to the identification, research and development of Candidates (as defined below);

WHEREAS, Pfizer has extensive experience and expertise in the development and commercialization of pharmaceutical and biopharmaceutical products;

WHEREAS, subject to the terms of this Agreement, BioNTech wishes to grant to Pfizer, and Pfizer wishes to receive from BioNTech, an exclusive license in the Field (as defined below) in the Territory (as defined below) under BioNTech's and its licensors' patents, patent applications, technology,
know-how, scientific and technical information and other proprietary rights and information relating to Candidates and Products (as defined below) to use, research, develop, manufacture and commercialize Candidates and Products; and

WHEREAS, Pfizer and BioNTech wish to engage in collaborative research pursuant to the Research Plan (as defined below) to identify and develop Candidates for inclusion in Products for further development and commercialization by Pfizer.

NOW THEREFORE, in consideration of the mutual promises and covenants set forth below and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereby agree as follows:

1. DEFINITIONS

As used in this Agreement, the following terms will have the meanings set forth below:

1.1. "Affiliate" means any entity directly or indirectly controlled by, controlling, or under common control with, a Person, but only for so long as such control will continue. For purposes of this definition, "control" (including, with correlative meanings, "controlled by", "controlling" and "under common control with") means (a) possession, direct or indirect, of the power to direct or cause direction of the management or policies of an entity (whether through ownership of securities or other ownership interests, by contract or otherwise), or (b) beneficial ownership of more than 50% of the voting securities or other ownership or general partnership interest (whether directly or pursuant to any option, warrant or other similar arrangement) or other comparable equity interests of an entity; *provided*, *however*, that where an entity

owns a majority of the voting power necessary to elect a majority of the board of directors or other

governing board of another entity, but is restricted from electing such majority by contract or otherwise, such entity will not be considered to be in control of such other entity until such time as such restrictions are no longer in effect. Notwithstanding the foregoing, for the purposes of this Agreement, AT Impf GmbH, having its place of business at Rosenheimer Platz 6, 81669 Munich, Germany, and any entity that directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with AT Impf GmbH (other than BioNTech AG or any entity that is directly or indirectly controlled by BioNTech AG) (collectively, the "Impf Group") shall not be considered Affiliates of BioNTech.

1.2. "Antigen" means a non-human polypeptide that is capable of eliciting an immune response.

1.3. "Antitrust Clearance Date" means the earliest date on which the Parties have actual knowledge that all applicable waiting periods under the HSR Act and any Foreign Antitrust Laws with respect to consummation of the transactions contemplated hereunder have expired or have been terminated.

1.4. "Bankruptcy Code" means Section 101(35A) of Title 11 of the United States Code, as amended, or such other legislation, Law or code with effect in another jurisdiction to which BioNTech or its Affiliates is subject having equivalent or reasonably similar purpose or provisions to the foregoing.

1.5. "Binding Obligation" means, with respect to a Party (a) any oral or written agreement or arrangement that binds or affects such Party's operations or property, including any assignment, license agreement, loan agreement, guaranty, or financing agreement, (b) the provisions of such Party's charter, bylaws or other organizational documents or (c) any order, writ, injunction, decree or judgment of any court or Governmental Authority entered against such Party or by which any of such Party's operations or property are bound.

1.6. "BioNTech Improvement" means any Research Program Technology, regardless of inventorship, that is a modification or improvement made to the RNA Technology or RNA Process Technology and (a) would also be applicable to one or more candidates or products other than the Candidates or Products (b) is not predominantly directed to the Candidates, or Products or the Pfizer Technology and (c) could have reasonable been developed without the aid, use or application of Pfizer Materials, Pfizer Improvements or Pfizer's Confidential Information or any improvements or enhancements thereto. For avoidance of doubt, BioNTech Improvements excludes RNA Improvements.

1.7. "BioNTech Know-How" means any Know-How, other than any Research Program Know-How or Pfizer Technology that (a) is Controlled by BioNTech or any of its Affiliates as of the Effective Date or that comes into the Control of BioNTech or any of its Affiliates during the Research Term (other than through the grant of a license by Pfizer) and (b) relates to (i) any Replicons or Modified RNA; or (ii) the Development, Manufacture or Commercialization of any immunogenic composition comprising RNA in the Field, provided that BioNTech Know-How shall exclude any Know-How Controlled by BioNTech or any of its Affiliates that predominantly relates to Payloads (including, for example, cytokines or antibodies) other than Antigens.

1.8. "BioNTech Materials" means any tangible materials (but not information about or contained in such materials) owned or Controlled by BioNTech that relate to or embody the BioNTech Know-How or BioNTech Patent Rights.

1.9. "BioNTech Patent Right" means any Patent Right (other than Research Program Patent Rights and Pfizer Patent Rights) in any form and whether pending or issued that (a) is Controlled by BioNTech or any of

its Affiliates as of the Effective Date or comes into the Control of BioNTech or any of its Affiliates during the Research Term (other than through the grant of a license by Pfizer) and (b) claims any (i) Candidate, or Product (including the composition of matter thereof), (ii) method of making any Candidate or Product, (iii) methods of using any Candidate or Product or (iv) BioNTech

Know-How, provided that BioNTech Patent Rights shall exclude any Patent Right Controlled by BioNTech or any of its Affiliates that predominantly relates to Payloads (including, for example, cytokines or antibodies) other than Antigens. BioNTech Patent Rights include the existing Patent Rights listed in Schedule 9.3.4.

1.10. "BioNTech Technology" means the BioNTech Patent Rights, BioNTech Materials and BioNTech

Know-How.

1.11. "BioNTech Third Party Agreement" means any agreement between BioNTech (or any of its Affiliates) and any Third Party (such Third Party, a "Third Party Licensor") that (a) relates to any of the BioNTech Technology or Research Program Technology (b) otherwise grants a license or otherwise transfers any right to practice under any Patent Rights or

Know-How, in each case that relate to the Candidates or Products or activities under this Agreement. For clarity, all Current Licenses shall be deemed BioNTech Third Party Agreements hereunder and all Current Licensors shall be deemed Third Party Licensors hereunder.

1.12. "Biologics License Application" or "BLA" means an application requesting permission from the FDA to introduce, or deliver for introduction, a biological product into interstate commerce, or any similar application or submission for marketing authorization of a product filed with a Regulatory Authority to obtain Regulatory Approval for such product in a country or group of countries.

1.13. "Biosimilar Notice" means a copy of any application submitted by a Third Party to the FDA under 42 U.S.C. § 262(k) of the Public Health Service Act (or, in the case of a country of the Territory outside the United States, any similar law) for Regulatory Approval of a biopharmaceutical product, which application identifies a Product as the Reference Product with respect to such product, and other information that describes the process or processes used to manufacture the biopharmaceutical product.

1.14. "Biosimilar Version" means, with respect to a Product that is being sold in a country or regulatory jurisdiction in the Territory (the "Reference Product"), a biopharmaceutical product sold by a Third Party (other than a Third Party acting on behalf of or in concert with Pfizer or any Pfizer Affiliate or Sublicensee) in such country or regulatory jurisdiction in the Territory that through reference to the Regulatory Approval of the Reference Product, is eligible for and has achieved Regulatory Approval in such country or regulatory jurisdiction pursuant to an abbreviated

follow-on biological approval pathway established by the Regulatory Authority in such country or regulatory jurisdiction pursuant to the applicable Law, or otherwise is approved for marketing and sale in such country or regulatory jurisdiction by an abridged procedure in reliance, in whole or in part, on the prior Regulatory Approval of the Reference Product or on the safety and efficacy data generated for the prior Regulatory Approval (in such country or regulatory jurisdiction) of the Reference Product, including any such biopharmaceutical product that (i) with respect to such biopharmaceutical product in the United States, has been approved as a biosimilar or interchangeable product by the FDA pursuant to 42 U.S.C. § 262 of the Public Health Service Act, (ii) with respect to such biopharmaceutical product subject to the regulatory jurisdiction of the EMA, has been approved as a similar biological medicine product by EMA as described in CHMP/437/04, issued 30 October 2005, as may be amended, or any subsequent or superseding

law, statute or regulation or (iii) with respect to such biopharmaceutical product outside the United States and in a country which is not subject to the regulatory jurisdiction of the EMA, has otherwise obtained Regulatory Approval from a Regulatory Authority pursuant to similar statutory or regulatory requirement as that described in the foregoing subsections (i) and (ii) in such other country or regulatory jurisdiction in the Territory.

1.15. "Business Day" means a day other than a Saturday, Sunday or bank or other public holiday in New York, New York, United States of America or Mainz, Germany.

1.16. "CAN Selection Criteria" means the criteria used by Pfizer's Vaccines Research and Development organization to determine whether to select a candidate as a CAN. Pfizer's current CAN Selection Criteria is set forth in Schedule 1.16, which may be updated from time-to-time by Pfizer during the term.

1.17. "Candidate" means an immunogenic composition in the Field that comprises Modified RNA Technology or Replicon Technology that (a) arises from the Research Plan, (b) is Controlled by BioNTech and exists as of the Effective Date or (c) is Exploited by Pfizer, its Affiliates or Sublicensees pursuant to the exercise or use of the rights licensed under Section 2.1 of this Agreement. Those Candidates Controlled by BioNTech and existing as of the Execution Date are set forth on Schedule 9.3.3.

1.18. "Calendar Quarter" means the respective periods of three consecutive calendar months ending on March 31, June 30, September 30 and December 31.

1.19. "Calendar Year" means any twelve (12) month period beginning on January 1 and ending on the next subsequent December 31.

1.20. "Change of Control" means, with respect to a Party (a) the acquisition of beneficial ownership, directly or indirectly, by any Person (other than such Party or an Affiliate of such Party, and other than by virtue of obtaining irrevocable proxies) of securities or other voting interest of such Party representing of the combined voting power of such Party's then outstanding securities or other voting interests, (b) any merger, reorganization, consolidation or business combination involving such Party with a Third Party that results in the holders of beneficial ownership (other than by virtue of obtaining irrevocable proxies) of the voting securities or other voting interests of such Party (or, if applicable, the ultimate parent of such Party) immediately prior to such merger, reorganization, consolidation or business combination ceasing to hold beneficial ownership of at least 50% of the combined voting power of the surviving entity immediately after such merger, reorganization, consolidation or business combination, (c) any sale, lease, exchange, contribution or other transfer (in one transaction or a series of related transactions) of all or substantially all of the assets of such Party to which this Agreement relates, other than a sale or disposition of such assets to an Affiliate of such Party or (d) the approval of any plan or proposal for the liquidation or dissolution of such Party (other than in circumstances where such Party is deemed a Debtor pursuant to Section 10.8).

1.21. "Clinical Trial" means a human clinical study conducted on sufficient numbers of human subjects that is designed to (a) establish that a pharmaceutical product is reasonably safe for continued testing, (b) investigate the safety and efficacy of the pharmaceutical product for its intended use, and to define warnings, precautions and adverse reactions that may be associated with the pharmaceutical product in the dosage range to be prescribed or (c) support Regulatory Approval of such pharmaceutical product or label expansion of such pharmaceutical product. Without limiting the foregoing, Clinical Trial includes any Phase I Clinical Trial, Phase II Clinical Trial or Phase III Clinical Trial conducted by or on behalf of one or both Parties in connection with this Agreement.

1.22. "Clinical Trial Material" or "CTM" means a batch of one or more Candidates or Products, as applicable, Manufactured to cGMP by or on behalf of either Party for Clinical Trials.

1.23. "Combination Product" means a product comprising a Candidate or Product in combination with one or more other therapeutically active ingredients (which includes any prophylactic activity) that are co-formulated as part of the same dosage form or packaged and administered to patient together. For the avoidance of doubt, adjuvants, including molecular adjuvants, are not considered therapeutically active ingredients for the purposes of this definition regardless of whether or not such adjuvant is packaged together with a Candidate or Product but in a separate container.

1.24. "Commercialize" or "Commercializing" means to (a) market, promote, distribute, offer for sale, sell, have sold, import, have imported, export, have exported or otherwise commercialize a compound or product and (b) conduct discovery, pre-clinical, research or other Development activities with respect to a compound or product after such compound or product has received Regulatory Approval. When used as a noun, "Commercialization" means any and all activities involved in Commercializing.

1.25. "Commercially Reasonable Efforts" means, with respect to the efforts to be expended by a Party with respect to any objective, those reasonable, good faith efforts to accomplish such objective as such Party would normally use to accomplish a similar objective under similar circumstances. With respect to any efforts relating to the Development, Regulatory Approval or Commercialization of a Candidate or Product by a Party, generally or with respect to any particular country in the Territory, a Party will be deemed to have exercised Commercially Reasonable Efforts if such Party has exercised those efforts normally used by such Party, in the relevant country, with respect to a compound or protein, product or product candidate, as applicable (a) of similar modality Controlled by such Party, (b) to which such Party has similar rights, (c) which is of similar market potential in such country, and (d) which is at a similar stage in its development or product life cycle, as any Candidate or Product, in each case, taking into account all Relevant Factors in effect at the time such efforts are to be expended. Further, to the extent that the performance of a Party's obligations hereunder is adversely affected by the other Party's failure to perform its obligations hereunder, the impact of such performance failure will be taken into account in determining whether such Party has used its Commercially Reasonable Efforts to perform any such affected obligations.

1.26. "Compassionate Use Purposes" means, with respect to the Product, providing Product under compassionate use or expanded access programs, or in jurisdictions or to vulnerable populations experiencing emergency pandemic, or crisis epidemic, flu conditions.

1.27. "Competitive Product" means a pharmaceutical product [***] that has been or is being Exploited by a Third Party. For avoidance of doubt, Competitive Product does not include Candidates or Products.

1.28. "Compliance" means the adherence by the Parties in all material respects to all applicable Laws and Party Specific Regulations, in each case with respect to the activities to be conducted under this Agreement.

1.29. "Confidential Information" means, with respect to each Party, all Know-How or other information, including proprietary information and materials (whether or not patentable) regarding or embodying such Party's or its Representatives' technology, products, business information or objectives, that is communicated by or on behalf of the Disclosing Party to the

Receiving Party or its permitted recipients, on or after the Execution Date, but only to the extent that: (a) such Know-How or other

information in written form is marked in writing as "confidential" at the time of disclosure, (b) such Know-How or other information disclosed orally or in non-tangible form is identified by the Disclosing Party as "confidential" at the time of disclosure or within 30 days thereafter, or (c) such Know-How or other information (regardless of the form of disclosure) is disclosed in circumstances of confidence or would be understood by the Parties, exercising reasonable business judgment, to be confidential. Confidential Information does not include any Know-How or other information to the extent the Receiving Party can demonstrate by competent proof that such Know-How or other information (a) was already known by the Receiving Party (other than under an obligation of confidentiality to the Disclosing Party) at the time of disclosure by or on behalf of the Disclosing Party, (b) was generally available to the public or otherwise part of the public domain at the time of its disclosure to the Receiving Party, (c) became generally available to the public or otherwise part of the public domain after its disclosure to the Receiving Party, other than through any act or omission of the Receiving Party in breach of its obligations under this Agreement, (d) was disclosed to the Receiving Party, other than under an obligation of confidentiality, by a Third Party who had no obligation to the Disclosing Party not to disclose such information to the Receiving Party or (e) was independently discovered or developed by or on behalf of the Receiving Party without the use of any Confidential Information belonging to the Disclosing Party. The terms and conditions of this Agreement will be considered Confidential Information of both Parties. Joint Know-How shall be deemed Confidential Information of either Party and either Party shall be deemed the Receiving Party in respect of Joint Know-How.

1.30. "Control" or "Controlled" means with respect to any Intellectual Property Right or material (including any Patent Right, Know-How or other data, information or material), the ability (whether by sole, joint or other ownership interest, license or otherwise, other than pursuant to this Agreement) to, without violating the terms of any agreement with a Third Party, grant a license or sublicense or provide access or other right in as provided in this Agreement, to or under such Intellectual Property Right or material.

1.31. "Copyright" means any copyright which pertains to the promotional materials and literature utilized by Pfizer in connection with the Commercialization of Products in the Territory.

1.32. "Core BioNTech Patent Rights" means those of the BioNTech Patent Rights (excluding any Patent Rights solely owned by a Third Party and licensed hereunder pursuant to a Current Licence to the extent BioNTech has no enforcement rights in the Field in respect of the same) and Patent Rights Covering BioNTech Improvements that are material to and used by BioNTech, its Affiliates or its or their licensees in connection with the Development or Commercialization of products outside the Field (excluding those Patent Rights and countries for which Pfizer is paying for maintenance or Prosecution Proceedings pursuant to Section 7.3.1). Once any such product is Commercialized, a Patent Right shall be regarded as "material" for such product if the Manufacturing or sale of such product would, but for the ownership of or licence to the applicable Patent Right, infringe such Patent Right. The Core BioNTech Patent Rights identified at the time of the Execution Date are designated as such in Schedule 9.3.4.

1.33. "Core RNA Technology" means the mRNA technology platform [***].

1.34. "Cover" means, with respect to a given Candidate or Product and Patent Right, that a Valid Claim of such Patent Right would, absent a license thereunder or ownership thereof, be infringed by the making, sale, offer for sale or importation of such Candidate or Product.

1.35. "Current Good Manufacturing Practices" or "cGMP" means all applicable standards and applicable Laws relating to manufacturing practices for products (including ingredients, testing, storage, handling, intermediates) promulgated by the U.S. Food and Drug Administration and any other governmental authority (including, European Union or member state level and Japan), including, but not limited to, standards in the form of applicable laws, guidelines, advisory opinions and compliance policy guides, and current interpretations of the applicable authority or agency thereof (as applicable to pharmaceutical and biological products and ingredients), as the same may be updated, supplemented or amended from time to time, in each case of those jurisdictions in which the products are Manufactured.

1.36. "Current Licenses" means any agreement (a) that BioNTech or its Affiliates has entered into or enters into prior to the Effective Date with a Third Party and (b) pursuant to which BioNTech or its Affiliates are (i) granted rights to any BioNTech Technology as of the Effective Date or (ii) granted a license or otherwise transferred any right to practice under any Patent Rights or Know-How, in each case that relate to the Candidates or Products or activities under this Agreement. BioNTech's Current Licenses are disclosed on Schedule 9.3.12.

1.37. "Current Licensor" means any Third Party that is a party to a Current License.

1.38. "Delivery Technology" means the BioNTech Know-How applicable to formulating nucleic acids to enable the delivery of such nucleic acids to target cells *in vivo*. For clarity, Delivery Technology does not include Replicon Technology or Modified RNA Technology.

1.39. "Develop" or "Developing" means to discover, research or otherwise develop or improve a process, compound or product, including planning and conducting non-clinical and clinical research and development activities prior to Regulatory Approval. When used as a noun, "Development" means any and all activities involved in Developing.

1.40. "Development Event" means each Development event listed in the table that appears in Section 3.3.

1.41. "Effective Date" means the later of (a) the Execution Date, (b) if a determination is made pursuant to Section 10.2 that a notification of this Agreement is not required to be made under the HSR Act or under any antitrust, competition or other similar laws, rules, regulations and judicial doctrines of jurisdictions other than the United States ("Foreign Antitrust Laws"), the date of such determination, or (c) if notification of this Agreement is required to be made under the HSR Act or any Foreign Antitrust Laws, the Antitrust Clearance Date.

1.42. "EMA" means the European Medicines Agency or any successor agency thereto.

1.43. "Exploit" means to Develop, Manufacture, Commercialize, use or otherwise exploit. Cognates of the word "Exploit" will have correlative meanings.

1.44. "FD&C Act" means the United States Federal Food, Drug, and Cosmetic Act, as amended, and the rules and regulations promulgated thereunder.

1.45. "FDA" means the United States Food and Drug Administration or any successor agency thereto.

1.46. "FIH Study" means one or more limited Phase I Clinical Trials sponsored by BioNTech and conducted in Germany for the purpose of initial clinical translation and evaluation of one or more Candidates or Products selected by the JSC for such clinical evaluation, as further described in the Research Plan.

1.47. "Field" means [***].

1.48. "First Commercial Sale" means, with respect to any Product and with respect to any country of the Territory, the first sale of such Product by Pfizer or an Affiliate or Sublicensee of Pfizer to a Third Party in the Field in such country after such Product has been granted Regulatory Approval by the appropriate Regulatory Authority in such country.

1.49. "GAAP" means United States generally accepted accounting principles, consistently applied.

1.50. "GEIA" means the German Employee Invention Act.

1.51. "GEIA Technology" means all BioNTech Technology and Research Program Technology invented by employees of BioNTech or its Affiliates (solely or jointly with employees of Third Parties) under the jurisdiction of GEIA.

1.52. "Governmental Authority" means any court, agency, department, authority or other instrumentality of any national, state, county, city or other political subdivision.

1.53. "Government Official", to be broadly interpreted, means (a) any elected or appointed government official (e.g., a member of a ministry of health), (b) any employee or person acting for or on behalf of a government official, Governmental Authority, or other enterprise performing a governmental function, (c) any political party, candidate for public office, officer, employee, or person acting for or on behalf of a political party or candidate for public office, and (d) any employee or person acting for or on behalf of a public international organization (e.g., the United Nations). For clarity, healthcare providers employed by government-owned hospitals will be considered Government Officials.

1.54. "HSR Act" means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and the rules and regulations promulgated thereunder.

1.55. "HSR Filing" means filings by Pfizer and BioNTech with the United States Federal Trade Commission and the Antitrust Division of the United States Department of Justice of a Notification and Report Form for Certain Mergers and Acquisitions (as that term is defined in the HSR Act) with respect to the matters set forth in this Agreement, together with all required documentary attachments thereto.

1.56. "Human Material" means any biological samples of one or more Subjects collected, provided or utilized by BioNTech during the Research Plan pursuant to this Agreement.

1.57. "ICF" means an informed consent form that was approved by a qualified Institutional Review Board or Independent Ethics Committee ("IRB / IEC") in accordance with all applicable Laws and recognized international standards for the protection of human research subjects.

1.58. "IND" means an Investigational New Drug Application submitted under the FD&C Act, or an analogous application or submission with any analogous agency or Regulatory Authority outside of the United States for the purposes of obtaining permission to conduct Clinical Trials.

1.59. "Intellectual Property Rights" means any and all (a) Patent Rights, (b) proprietary rights in Know-How, including trade secret rights, (c) proprietary rights associated with works of authorship and software, including copyrights, moral rights, and copyrightable works, and all applications, registrations, and renewals relating thereto, and derivative works thereof, (d) other forms of proprietary or intellectual property rights however denominated throughout the world, other than trademarks, service marks, trade names, domain names and other indicators of origin.

1.60. "Joint Steering Committee" or "JSC" means the steering committee described in Section 4.3.2(a).

1.61. "Joint Know-How" means any Research Program Know-How, whether or not patentable, made or created jointly by (a) BioNTech or any of its Representatives and (b) Pfizer or any of its Representatives.

1.62. "Joint Patent Rights" means Research Program Patent Rights that claim or disclose any invention included in Joint Know-How.

1.63. "Joint Technology" means the Joint Know-How and the Joint Patent Rights.

1.64. "Know-How" means any proprietary invention, discovery, development, data, information, process, method, technique, technology, result, cell line, cell, antibody or other protein, compound, probe, nucleic acid, (including RNAi) or other sequences or other know-how, whether or not patentable, and any physical embodiments of any of the foregoing or any information contained in any of the foregoing.

1.65. "Law" means any law, statute, rule, regulation, order, judgment or ordinance of any Governmental Authority.

1.66. "Major EU Market Country" means any of France, Germany, Italy, Spain or the United Kingdom.

1.67. "Major Market Country" means the Major EU Market Countries, the United States and Japan.

1.68. "Manufacture" or "Manufacturing" means to make, produce, manufacture, process, fill, finish, package, label, perform quality assurance testing, release, ship or store, and for the purposes of further Manufacturing, distribute, import or export, a compound or product or any component thereof. When used as a noun, "Manufacture" or "Manufacturing" means any and all activities involved in Manufacturing a compound or protein, device or product or any component thereof.

1.69. "Modified RNA Product" means any Product comprising Modified RNA Technology.

1.70. "Modified RNA" means an mRNA that has been modified by the incorporation of one or more modified nucleotides, excluding the 5' CAP.

1.71. "Modified RNA Technology" means the BioNTech Know-How applicable to Modified RNA. For clarity, Modified RNA Technology does not include Replicon Technology or Delivery Technology.

1.72. "Net Sales" means with respect to a Product, gross receipts from sales by Pfizer and its Affiliates and Sublicensees of such Product to Third Parties in the Territory, less in each case (a) bad debts and (b) sales returns and allowances actually paid, granted or accrued, including trade, quantity and cash discounts and any other adjustments, including those granted on account of price adjustments, billing errors, rejected goods, damaged or defective goods, recalls, returns, rebates, chargeback rebates, reimbursements or similar payments granted or given to wholesalers or other distributors, buying groups, health care insurance carriers, chain pharmacies, mass merchandisers, staff model HMO's, pharmacy benefit managers or other institutions, adjustments arising from consumer discount programs or other similar programs, customs or excise duties, sales tax, consumption tax, value added tax, and other taxes (except income taxes) or duties relating to sales, any payment in respect of sales to the United States government, any state government or any foreign government, or to any other Governmental Authority, or with respect to any government-subsidized program or managed care organization, and freight and insurance (to the extent that Pfizer, its Affiliates or its Sublicensees bear the cost of freight and insurance for the Product).

Net Sales will be determined from books and records maintained in accordance with GAAP, as consistently applied by Pfizer with respect to sales of the Product. If, in respect of Product, Pfizer, its Affiliates or Sublicensees receive non-cash consideration or in the case of transactions not at arm's length (except in each case where the case of disposal of Product is in furtherance of Compassionate Use Purposes), Net Sales will be calculated based on the fair market value of such consideration or transaction, at the time of the transaction, assuming an arm's length transaction made in the ordinary course of business.

Net Sales for Products sold as part of a Combination Product in a country shall be calculated as follows: Net Sales will be calculated by multiplying the Net Sales (as described above) of the Combination Product during the applicable royalty reporting period by the fraction A/(A+B), where A is the average sale price of the Product when sold separately in finished form (or where such average sale price cannot be determined, the fair market value of such Product), and B is the average sale price of the other therapeutically active ingredient(s) included in the Combination Product when sold separately in finished form (or where such average sale price cannot be determined, the fair market value of such other therapeutically active ingredient(s)), in each case in the applicable country of sale during the applicable royalty reporting period. To the extent Net Sales are calculated on the basis of fair market values, the Parties shall seek to determine such fair market values by mutual agreement and, in the absence of such mutual agreement, the Parties shall engage an independent valuation firm (and equally bear the costs of engaging such firm) to determine such fair market values.

1.73. "Party Specific Regulations" means all non-monetary judgments, decrees, orders or similar decisions issued by any Governmental Authority specific to a Party, and all consent decrees, corporate integrity agreements, or other agreements or undertakings of any kind by a Party with any Governmental Authority, in each case as the same may be in effect from time to time and applicable to a Party's activities contemplated by this Agreement.

1.74. "Patent Rights" means any and all (a) issued patents, (b) pending patent applications, including all provisional applications, non-provisional applications, substitutions, continuations, continuations-in-part, divisions and renewals, applications sharing a priority claim and all patents granted thereon, (c) patents-of-addition, reissues, reexaminations and extensions or restorations by existing or future

extension or restoration mechanisms, including patent term adjustments, patent term extensions, supplementary protection certificates or the equivalent thereof, (d) inventor's certificates, (e) other forms of government-issued rights substantially similar to any of the foregoing and (f) United States and foreign counterparts of any of the foregoing.

1.75. "Payload" means a [***]. The term "Payload" excludes polypeptides that are used to enable expression of a payload from the RNA, such as an RNA-dependent RNA polymerase.

1.76. "Person" means an individual, sole proprietorship, partnership, limited partnership, limited liability partnership, corporation, limited liability company, business trust, joint stock company, trust, incorporated association, joint venture or similar entity or organization, including a government or political subdivision or department or agency of a government.

1.77. "Pfizer Diligence Obligations" means Pfizer's Development and Regulatory Approval diligence obligations under Section 6.2.1 and Pfizer's Commercialization diligence obligations under Section 6.2.2.

1.78. "Pfizer Improvements" means any Research Program Technology, regardless of inventorship, that is a modification or improvement to the Pfizer Technology and (a) would also be applicable to one or more candidates or products other than the Candidates or Products, (b) is not predominantly directed to the Candidates or Products or the RNA Technology or RNA Process Technology and (c) could have reasonable been developed without the aid, use or application of BioNTech Materials, BioNTech Improvements or BioNTech's Confidential Information or any improvements or enhancements thereto.

1.79. "Pfizer Know-How" means any Know-How that (a) is Controlled by Pfizer or any of its Affiliates on the Effective Date or that comes into the Control of Pfizer or any of its Affiliates during the Term (other than through the grant of a license by BioNTech), including Pfizer's rights in any Research Program Know-How, and (b) relates to one or more Candidates or Products or the Development, Manufacture or Commercialization of any of the foregoing.

1.80. "Pfizer Patent Right" means any Patent Right that (a) is Controlled by Pfizer or any of its Affiliates on the Effective Date or that comes into the Control of Pfizer or any of its Affiliates during the Term (other than through the grant of a license by BioNTech), including Pfizer's rights in any Research Program Patent Rights, and (b) claims any (i) Candidate or Product (including the composition of matter thereof), (ii) method of making any Candidate or Product, (iii) methods of using any Candidate or Product or (iv) Pfizer Know-How.

1.81. "Pfizer Quarter" means each of the four (4) thirteen (13) week periods (a) with respect to the United States, commencing on January 1 of any Pfizer Year and (b) with respect to any country in the Territory other than the United States, commencing on December 1 of any Pfizer Year.

1.82. "Pfizer Technology" means the Pfizer Patent Rights, Pfizer Materials and Pfizer Know-How.

1.83. "Pfizer Year" means the twelve month fiscal periods observed by Pfizer (a) commencing on January 1 with respect to the United States and (b) commencing on

December 1 with respect to any country in the Territory other than the United States.

1.84. "Phase I Clinical Trial" means a Clinical Trial that generally provides for the first introduction into humans of a pharmaceutical product with the primary purpose of determining safety, metabolism and pharmacokinetic properties and clinical pharmacology of such product, in a manner that is generally consistent with 21 CFR § 312.21(a), as amended (or its successor regulation), provided, however, a Phase I Clinical Trial does not include any study generally characterized by the FDA as an "exploratory IND study" in CDER's Guidance for Industry, Investigators, and Reviewers Exploratory IND Studies, January 2006, irrespective of whether or not such study is actually performed in the United States or under an IND. A so-called Phase I/II Clinical Trial shall be deemed to be a Phase I Clinical Trial unless such trial, when completed, allows Pfizer to proceed directly to a Phase III Clinical Trial.

1.85. "Phase II Clinical Trial" means a Clinical Trial, the principal purpose of which is to make a preliminary determination as to whether a pharmaceutical product is safe for it intended use and to obtain sufficient information about such product's efficacy, in a manner that is generally consistent with 21 CFR § 312.21(b), as amended (or its successor regulation), to permit the design of further Clinical Trials.

1.86. "Phase III Clinical Trial" means a pivotal Clinical Trial with a defined dose or a set of defined doses of a pharmaceutical product designed to ascertain efficacy and safety of such product, in a manner that is generally consistent with 21 CFR § 312.21(c), as amended (or its successor regulation), for the purpose of enabling the preparation and submission of an NDA.

1.87. "Price Approval" means, in any country where a Governmental Authority authorizes reimbursement for, or approves or determines pricing for, pharmaceutical products, receipt (or, if required to make such authorization, approval or determination effective, publication) of such reimbursement authorization or pricing approval or determination (as the case may be).

1.88. "Product" means any pharmaceutical product in a formulation suitable for administration to human subjects that incorporates (a) a Candidate selected by Pfizer for further Development in a Phase I Clinical Trial (other than the FIH Study) or Phase II Clinical Trial, including by selection as CAN based on Pfizer's CAN Selection Criteria, or (b) any derivative of such Candidate Developed by or on behalf of Pfizer or its Affiliates or Sublicensees in the Field comprising Modified RNA Technology or Replicon Technology.

1.89. "Product Know-How" means (a) any Research Program Know-How or (b) any BioNTech Know-How Controlled by BioNTech as of the Effective Date, in each case of (a) and (b) that is predominantly directed to the composition of matter, treatment with, or the delivery of, Manufacture, form, formulation, or use of a Candidate or Product in the Field. For avoidance of doubt, Product Know-How shall exclude Know-How Controlled by BioNTech as of the Effective Date that is predominantly directed to the use or application of Modified RNA Technology or Replicon Technology that are generally applicable to products in the field of infectious disease or oncology.

1.90. "Product Patent Rights" means any Patent Right that claims any invention included in Product Know-How.

1.91. "Product Technology" means all Product

Know-How and Product Patent Rights.

1.92. "Public Health Service Act" or "PHS Act" means the United States Public Health Service Act (42 U.S.C. 201 *et seq*), as amended from time to time (including any rules and regulations promulgated thereunder) or any subsequent or superseding law, statute or regulation

1.93. "RNA Improvement" means any Intellectual Property Right arising after the expiration of the Research Term and [***] solely or jointly made by Pfizer's Representatives, and solely to the extent such Intellectual Property Right is an improvement or modification made to the Replicon Technology, Modified RNA Technology, Delivery Technology or RNA Process Technology and provided that such Replicon Technology, Modified RNA Technology, Delivery Technology or RNA Process Technology used (a) had been disclosed to Pfizer or Pfizer's Representatives by BioNTech prior to the time of improvement or modification and (b) was BioNTech's Confidential Information at the time of such disclosure.

1.94. "RNA Process Technology" means the BioNTech
Know-How used to Manufacture Candidates or Products.

1.95. "RNA Technology" means Replicon Technology, Modified RNA Technology and Delivery Technology that is, in each case, used by BioNTech in the Research Program

1.96. "Regulatory Approval" means all technical, medical and scientific licenses, registrations, authorizations and approvals (including approvals of NDAs, supplements and amendments,
pre- and post-approvals and labeling approvals) of any Regulatory Authority, necessary or useful for the use, Development, Manufacture, and Commercialization of a pharmaceutical or biopharmaceutical product in a regulatory jurisdiction, including commercially reasonable Price Approvals and commercially reasonable Third Party reimbursement approvals.

1.97. "Regulatory Authority" means, with respect to a country in the Territory, any national (e.g., the FDA), supra-national (e.g., the European Commission, the Council of the European Union, or the European Medicines Agency), regional, state or local regulatory agency, department, bureau, commission, council or other Governmental Authority involved in the granting of a Regulatory Approval or, to the extent required in such country, Price Approval, for pharmaceutical products in such country.

1.98. "Relevant Factors" means all relevant factors that may affect the Development, Regulatory Approval or Commercialization of a Candidate or Product, including (as applicable): [***].

1.99. "Replicon" means an RNA molecule(s) that comprises a gene encoding a polymerase that can, when the RNA molecule(s) is introduced into a cell, replicate the same or a different RNA molecule(s), that also comprises a gene encoding at least one Antigen and does not comprise the full set of genes required to make an infectious virus and is capable, when introduced into a cell, of expressing detectable levels of the encoded Antigen.

1.100. "Replicon Product" means any Product comprising Replicon Technology.

1.101. "Replicon Technology" means the BioNTech
Know-How applicable to Replicons. For clarity, Replicon Technology does not include Modified RNA Technology or Delivery Technology.

1.102. "Representatives" means (a) with respect to Pfizer, Pfizer, its Affiliates, its Sublicensees and each of their respective officers, directors, employees, consultants, contractors and agents and (b) with respect to BioNTech, BioNTech, its Affiliates and each of their respective officers, directors, employees, consultants, contractors and

agents.

1.103. "Research Plan" means the research plan attached hereto as Exhibit A, as it may be amended from time to time pursuant to Section 4.1.

1.104. "Research Program" means the program of collaboration between the Parties to Develop and Manufacture Candidates and Products in the Field including the activities described in the Research Plan.

1.105. "Research Program Know-How" means any and all Know-How, Candidates and Products, whether or not patentable, made or created solely by or on behalf of either Party or its Representatives in the conduct of activities under the Research Plan or made jointly by or on behalf of (i) BioNTech or its Representatives and (ii) Pfizer or its Representatives in the conduct of activities under the Research Plan.

1.106. "Research Program Patent Rights" means any and all Patent Rights claiming or disclosing any invention included in Research Program Know-How.

1.107. "Research Program Technology" means the Research Program Patent Rights and Research Program Know-How.

1.108. "Research Term" means the period of time beginning on the Effective Date and expiring on the date that is the third anniversary thereof or such later date as may be established pursuant to Section 4.4, unless earlier terminated pursuant to the terms of this Agreement.

1.109. "Residual Knowledge" means knowledge, techniques, experience and Know-How that (a) are, or are based on, any Confidential Information of the Disclosing Party and (b) are retained in the unaided memory of any authorized Representative of the Receiving Party after having access to such Confidential Information. An individual's memory will be considered to be unaided if the individual has not intentionally memorized the Confidential Information for the purpose of retaining and subsequently using or disclosing it.

1.110. "Reversion Technology" means, as of the effective date of termination of this Agreement and with respect to a Continuation Product, (a) Pfizer's rights in any Research Program Know-How and (b) any Pfizer Patent Right if and solely to the extent such Pfizer Patent Right claims any Research Program Know-How described in clause (a) above, in each case of clause (a) and (b) to the extent necessary or useful to Develop, Commercialize or Manufacture such Continuation Product.

1.111. "Royalty Term" means (a) for all Modified RNA Products, on a country-by-country basis, the period of time from the First Commercial Sale of the first Modified RNA Product in such country in the Field until the later of (i) the period during which the manufacture, sale, offer for sale or importation of such first Modified RNA Product in such country would infringe, but for the license granted herein, a Valid Claim Covering such first Modified RNA Product in such country, (ii) the tenth (10th) anniversary of the date of the First Commercial Sale of such first Modified RNA Product in such country in the Field, or (iii) lapse of regulatory data exclusivity for such first Modified RNA Product in such country (or region to which the country is a member state); and (b) for all Replicon Products, on a country-by-country basis, the

period of time from the First Commercial Sale of the first Replicon Product in such country in the Field until the later of (i) the period during which the manufacture, sale, offer for sale or importation of such first Replicon Product in such country would infringe, but for the license granted herein, a Valid Claim Covering such first Replicon Product in such country, (ii) the tenth (10th) anniversary of the date of the First Commercial Sale of such first Replicon Product in such country in the Field, or (iii) lapse of regulatory data exclusivity for such first Replicon Product in such country (or region to which the country is a member state). If a Product comprises both Modified RNA Technology and Replicon Technology ("Combined Product"), where it is the first Product to achieve a First Commercial Sale in any country in the Territory, it shall be

classified by Pfizer as either a Modified RNA Product or a Replicon Product (but not both) for the purposes of this definition in such country until such time as a different Product that comprises either Modified RNA Technology or Replicon Technology (but not both) achieves a First Commercial Sale in such country, whereupon the second Product shall be classified under this definition as either a Modified RNA Product or Replicon Product according to the technology it comprises and the Combined Product shall thereafter be deemed to fall within the other definition. If a Combined Product is the second Product to achieve a First Commercial Sale in a country in the Territory, it will be deemed to fall within the definition of Modified RNA Product if the first Product was a Replicon Product and vice versa. For the avoidance of doubt, per country there will be no more than two (2) different Royalty Terms for all Products in such country.

1.112. "Specified Persons" means the list of companies set forth in Schedule 1.112, their subsidiaries and any of their successors and assigns in respect of their vaccines business.

1.113. "Subject" means the individual donor of the Human Material or of the original tissues from which the Human Material was derived.

1.114. "Sublicensee" means any Person to whom Pfizer grants or has granted, directly or indirectly, a sublicense of rights licensed by BioNTech to Pfizer under this Agreement.

1.115. "Territory" means worldwide.

1.116. "Third Party" means any Person other than Pfizer, BioNTech or their respective Affiliates.

1.117. "Trademark" means any trademark, trade name, service mark, service name, brand, domain name, trade dress, logo, slogan or other indicia of origin or ownership, including the goodwill and activities associated with each of the foregoing.

1.118. "UPC Agreement" means the treaty Agreement on the Unified Patent Court signed 19 February 2013, as may be amended or superseded from time.

1.119. "Valid Claim" means, with respect to a particular country, (a) a claim of an issued and unexpired Patent Right included within the BioNTech Patent Rights, or Research Program Patent Rights claiming the Product or the Manufacture or use thereof that (i) has not been held permanently revoked, unenforceable or invalid by a decision of a court or other governmental authority of competent jurisdiction, which decision is unappealed or unappealable within the time allowed for appeal, and (ii) has not been cancelled, withdrawn, abandoned, disclaimed or admitted to be invalid or unenforceable through reissue, disclaimer or otherwise; or (b) a bona fide claim of a pending patent application included within the BioNTech Patent Rights or Research Program Patent Rights claiming the Product or the Manufacture or use thereof that has not been (i) cancelled, withdrawn or abandoned without being refiled in another application in the applicable jurisdiction or (ii) finally rejected by an administrative agency action from which no appeal can be taken or that has not been appealed within the time allowed for appeal, provided that any claim in any patent application pending for more than seven (7) years from the earliest date on which such patent application claims priority shall not be considered a Valid Claim for purposes of the Agreement from and after such seven (7) year date; provided, further, that in no event will any claim of Patent Right that would otherwise be expired except for a Patent Term Extension with respect to a product that is not a Product or Candidate be considered a Valid Claim.

1.120. The following terms are defined in the section of this Agreement listed opposite each term:

Defined Term	Section in Agreement
Acquirer	10.10.2
Acquisition Program	2.10.3
Additional Patent Jurisdictions	7.3.1(a)
Additional Third Party License	3.5.3(a)
Agreement	Preamble
Antitrust Filings	10.1
Approved Subcontractors	4.2.2
BioNTech	Preamble
BioNTech AG	Preamble
BioNTech Indemnified Party	11.2
BioNTech JSC Members	4.3.2(a)
BioNTech Owned Research Program Patent Rights	7.3.1(b)
BioNTech Prosecution Patent Rights	7.3.1(a)
BioNTech Review Period	8.5.3
BioNTech RNA	Preamble
BioNTech ROFN Notice	2.12.1
BioNTech ROFR Notice	2.11.1
Change of Control Party	8.6
Change of Control Term	10.9
CMO	5.4
Combined Product	1.111
Competitive Product Infringement	7.3.2(b)
Continuation Product	10.7.1(a)(ii)(A)
Continuation Product Net Sales	Schedule 10.7.1(a)
Continuation Product Royalty Term	Schedule 10.7.1(a)
Continuing Party	7.3.1(c)
Cure Plan	2.8.3
Debtor	10.8.1
Declining Party	7.3.1(c)
Development Payment	3.3
Diligence Issue	6.2.5

Disputed Matter	4.3.2(e)
Disclosing Party	8.1
Enforcement Action	7.3.2(a)
Execution Date	Preamble
Foreign Antitrust Laws	1.41
Future BioNTech Third Party Agreement	2.9
Global Trade Control Laws	12.11
hCMV	2.11
HCPs	9.3.23
Impf Group	1.1
Incremental Withholding Tax	3.6.4(a)
Indemnified Party	11.4.1
Indemnifying Party	11.4.1
Infringement Claim	7.3.6

Defined Term	Section in Agreement
IRB / IEC	1.57
JSC Chair	4.3.2(b)
Key Patent Jurisdictions	7.3.1(a)
Liabilities	11.2
Licensed Activities	7.3.5(a)
Litigation Conditions	11.4.2
Marginal Royalty Rate	3.5.1
Manufacturing Technology Transfer Plan	5.4
Necessary	3.5.3(a)
Notice of Dispute	12.12.1
Other BioNTech Technology	2.13
Partnered Field and Partnered Fields	2.11
Party or Parties	Preamble
Patent Committee	7.1
Patent Term Extension	7.3.1(e)
Pfizer	Preamble
Pfizer Indemnified Party	11.3
Pfizer JSC Members	4.3.2(a)
Pfizer Materials	4.6.1
Pfizer Review Period	8.5.2
Product Technology Transfer Plan	4.3.2(d)(x)
Prosecution Proceedings	7.3.1(f)
Policies	9.3.24
Program Director and Program Directors	4.3.1(a)
Receiving Party	8.1
Reference Product	1.14
Regulatory Materials	Schedule 10.7.1(a)
Restricted Market	12.11.1
Restricted Parties	12.11.2
Right of First Negotiation	2.12
Right of First Refusal	2.11
RNA	1.33
ROFN Negotiation Period	2.12.2

ROFN Partnering Terms	2.12.2
ROFN Term	2.12
ROFR Negotiation Period	2.11.3
ROFR Partnering Terms	2.11.3
ROFR Term	2.11
RSV	2.11
Sales Milestone Payment	3.4
Term	10.4
Third Party Claim	11.4.1
Third Party IP Rights	7.3.5(b)
Third Party Licensor	1.11
Total Annual Net Sales	3.4
Transition Plan	Schedule 10.7.1(a)

Defined Term	Section in Agreement
Useful	3.5.3(a)
VAT	3.6.4(b)
Withholding Tax	3.6.4(a)

2. LICENSE GRANTS (/Ticker/GRANTS), TECHNOLOGY TRANSFER, EXCLUSIVITY AND OTHER RIGHTS

2.1. Exclusive License from BioNTech to Pfizer**.** Subject to the terms and conditions of this Agreement, effective as of the Effective Date, BioNTech on behalf of itself and its Affiliates hereby grants (and will procure that its Affiliates grant) to Pfizer an exclusive (exclusive even as to BioNTech and its Affiliates except to the extent necessary (a) to perform BioNTech's activities under the Research Plan during the Research Term and (b) to Manufacture Clinical Trial Material as provided in this Agreement or the Supply Agreement) sublicensable (through multiple tiers) license and, to the extent any BioNTech Technology is Controlled by BioNTech or its Affiliates pursuant to a BioNTech Third Party Agreement existing as of the Effective Date and, subject to Section 2.9, Future BioNTech Third Party Agreements, a sublicense, as applicable, under the BioNTech Technology and BioNTech's and its Affiliates' interest in the Research Program Technology (including any BioNTech Improvements), to use, have used, Develop, have Developed, Manufacture, have Manufactured, Commercialize, have Commercialized and otherwise Exploit Candidates, Products and [***] in the Territory. Without prejudice to Section 2.10.2, the foregoing license shall not prevent BioNTech and its Affiliates from conducting internal research directed outside the Field where flu antigens or BioNTech Technology are used solely as comparators in such research. For avoidance of doubt, [***]: (i) which is not a Candidate or Product, (ii) which is Exploited by Pfizer under the foregoing license, and (iii) the Exploitation of which would, absent such foregoing license, infringe a valid claim under the BioNTech Patent Rights or BioNTech's rights in the Research Program Patent Rights (with "valid claim" being construed by applying Section 1.119 *mutatis mutandis*) shall be considered a Candidate or Product for the purposes of this Agreement.

2.2. Non-Exclusive License from BioNTech to Pfizer**.** Without limiting any other license or sublicense granted under this Agreement and subject to the terms and conditions of this Agreement, BioNTech on behalf of itself and its Affiliates, effective as of the Effective Date, hereby grants (and will procure that its Affiliates grant) to Pfizer a non-exclusive, royalty-free, fully paid-up, sublicensable license and, to the extent any BioNTech Technology is Controlled by BioNTech or its Affiliates pursuant to a BioNTech Third Party Agreement existing as of the Effective Date and, subject to Section 2.9, Future BioNTech Third Party Agreements, a sublicense, as applicable, under all Patent Rights, Know-How and other Intellectual Property Rights Controlled by BioNTech or its Affiliates and existing as of or after the Effective Date (to the extent such Patent Rights, Know-How and other Intellectual Property Rights are not exclusively licensed or sublicensed to Pfizer pursuant to Section 2.1), to use, have used, Develop, have Developed, Manufacture, have Manufactured, Commercialize, have Commercialized and otherwise Exploit Candidates and Products in the Field in the Territory during the Term.

2.3. Additional Licenses.

2.3.1. **To Pfizer**.

Without limiting any other license or sublicense granted under this Agreement and subject to the terms and conditions of this Agreement, BioNTech on behalf of itself and its Affiliates, effective as of the Effective Date, hereby grants (and will procure that its Affiliates grant) to Pfizer a non-exclusive, royalty-free, fully paid-up, sublicensable license under all BioNTech Improvements that were solely or jointly invented by Pfizer Representatives to use, have used, Develop, have Developed, Manufacture, have Manufactured, Commercialize, have Commercialized and otherwise Exploit any products or processes in any field. In addition to the obligations set forth in Section 2.10 for the avoidance of doubt, the license granted in this Section 2.3.1 shall not include or imply a right of Pfizer to use any BioNTech's Confidential Information (that is not a BioNTech Improvement) outside the Field.

2.3.2. **To BioNTech**.

(a) Without limiting any other license or sublicense granted under this Agreement and subject to the terms and conditions of this Agreement, Pfizer, effective as of the Effective Date, hereby grants to BioNTech a non-exclusive, royalty-free, fully paid-up, sublicensable license under all Pfizer Improvements that were solely or jointly invented by BioNTech Representatives to use, have used, Develop, have Developed, Manufacture, have Manufactured, Commercialize, have Commercialized and otherwise Exploit any products or processes outside the Field.

(b) Without limiting any other license or sublicense granted under this Agreement and subject to the terms and conditions of this Agreement, Pfizer, effective as of the Effective Date, hereby grants to BioNTech a non-exclusive, royalty-free, fully paid-up, sublicensable license under (i) all RNA Improvements and (ii) Pfizer's interest in the Research Program Technology, in each case of (i) and (ii) to use, have used, Develop, have Developed, Manufacture, have Manufactured, Commercialize, have Commercialized and otherwise Exploit any products or processes outside the Field.

(c) For the avoidance of doubt, the licenses granted in this Section 2.3.2 shall not include or imply a right of BioNTech to use any Pfizer Confidential Information (that is not a Pfizer Improvement, RNA Improvements or Research Program Technology).

2.4. Pfizer Sublicensees. Pfizer will have the right through multiple tiers to grant sublicenses and, as applicable, sub-sublicenses to its Affiliates and Third Parties of any and all rights granted to Pfizer under this Agreement by BioNTech, including any and all rights licensed to Pfizer pursuant to Section 2.1 or Section 2.2. In respect of such sublicenses (or sub-sublicenses):

(a) Pfizer will remain responsible for the payment to BioNTech of all Sales Milestone Payments and royalties payable under this Agreement with respect to Net Sales of Products made by such Pfizer Affiliates or Sublicensees;

(b) Pfizer shall be responsible for failure by its Sublicensees to comply with the terms and conditions of this Agreement;

(c) Pfizer shall notify BioNTech in writing of any sublicenses granted to Third Parties and, upon BioNTech's written request, provide BioNTech with a written summary of key terms of the respective sublicense agreement (excluding any terms reasonably deemed commercially sensitive or confidential by Pfizer); and

(d) Unless otherwise agreed between the Parties on a case-by-case basis (e.g. with a view of converting certain sublicenses into direct licenses with BioNTech), all sublicenses shall automatically terminate (and Pfizer shall ensure that all sublicenses automatically terminate) upon termination (for whatever reason) of a license granted hereunder, but only to the extent necessary to terminate the sublicense in so far as it corresponds to any terminated licenses granted in this Agreement.

2.5. Direct Licenses to Affiliates**.** Pfizer may, from time to time, request that BioNTech grants on behalf of itself and its Affiliates (and will procure that its Affiliates grant) licenses or sublicenses directly to Affiliates of Pfizer by giving written notice, upon receipt of which BioNTech and its Affiliates will enter into and sign a separate direct license or sublicense agreement with such designated Affiliate of Pfizer. All such direct license or sublicense agreements will be consistent with the terms and conditions of this Agreement, except for such modifications as may be required by applicable Laws in the country in which the direct license or sublicense will be exercised. The Parties further agree to make any amendments to this Agreement that are necessary to conform the combined terms of such direct licenses or sublicenses and this Agreement to the terms of this Agreement as set forth on the Execution Date. All reasonable costs of making such direct license or sublicense agreement(s), including BioNTech's reasonable attorneys' fees, under this Section 2.5 will be borne by Pfizer.

2.6. Non-Exclusive License from Pfizer to BioNTech. Subject to the terms and conditions of this Agreement, Pfizer hereby grants to BioNTech a non-exclusive, royalty-free, fully paid-up license in the Territory in the Field, with no right to grant sublicenses other than to its Affiliates, and to permitted subcontractors under Section 4.2.2, under the Pfizer Technology solely: (i) during the Research Term to the extent necessary to perform BioNTech's activities under the Research Plan; and (ii) to the extent necessary to Manufacture Clinical Trial Material as provided in this Agreement or the Supply Agreement.

2.7. Right of Reference. BioNTech on behalf of itself and its Affiliates hereby grants (and will procure that its Affiliates grant) to Pfizer, its Affiliates and its Sublicensees a "Right of Reference," as that term is defined in 21 C.F.R. § 314.3(b) (or any analogous Law recognized outside of the United States), to all data (including any regulatory filings or Regulatory Approvals) Controlled by BioNTech or its Affiliates that relates to any Candidate or Product, and BioNTech will provide a signed statement to this effect, if requested by Pfizer, in accordance with 21 C.F.R. § 314.50(g)(3) (or any analogous Law outside of the United States).

2.8. Current Licenses.

2.8.1. **Maintenance of Current Licenses**. BioNTech will maintain in full effect and will perform all of its obligations in a timely manner under each of the Current Licenses. Absent Pfizer's prior written consent (which may be provided, conditioned or withheld in Pfizer's sole discretion), BioNTech will not terminate, modify or amend any Current License in any manner that would adversely affect any of the rights granted or that may be granted to Pfizer under this Agreement or that would impose any obligations upon Pfizer hereunder that are in addition to those obligations that would exist under this Agreement based on the Current Licenses as they exist on the Effective Date or adversely affect BioNTech's ability to perform its obligations under this Agreement. Further, BioNTech will not take any action or omit to take any action that would cause it to be in breach of any Current License or that would give rise to a right of any Current Licensor to terminate the applicable Current License.

2.8.2. **Communications and Performance**. Notwithstanding anything to the contrary in this Agreement, BioNTech will use Commercially Reasonable Efforts to facilitate any communications between Pfizer and any Current Licensor required for Pfizer to exercise the rights granted to it pursuant to Section 2 and will use Commercially Reasonable Efforts to cause each applicable Current Licensor to perform all of its obligations under the applicable Current License.

2.8.3. **Breach of Current License by BioNTech**. If BioNTech receives notification of any actual or potential breach or otherwise becomes aware of its breach of any Current License (and if uncured, such breach could give rise to the termination of the applicable Current License), then BioNTech will immediately notify Pfizer of such breach. To the extent that any act or omission on the part of Pfizer is the cause of such breach of a Current License, Pfizer will take all actions and provide BioNTech with all cooperation necessary to cure such breach, in each case as reasonably requested by BioNTech and at Pfizer's sole cost and expense. To the extent that Pfizer is not the cause of such breach of a Current License, BioNTech will have the first opportunity to cure such breach in accordance with a plan to be mutually agreed upon by the Parties in writing, acting reasonably (each, a "Cure Plan"). If (a) BioNTech, at any time, is not using diligent efforts to cure such breach pursuant to the applicable Cure Plan or (b) BioNTech is unable to cure such breach in accordance with the applicable Cure Plan or it becomes reasonably apparent that BioNTech will not be able to cure such breach pursuant to the applicable Cure Plan, then Pfizer may, at its election and in its sole discretion and without prejudice to its other remedies against BioNTech, act reasonably to cure such breach and BioNTech will take all actions and provide Pfizer with all cooperation to cure such breach, in each case as directed by Pfizer. Further, if Pfizer is not the cause of such breach of a Current License, then BioNTech will, at Pfizer's sole election, (i) reimburse Pfizer for all out-of-pocket costs and expenses incurred by or on behalf of Pfizer or any of its Representatives in connection with curing such breach; or (ii) permit Pfizer to offset any such costs and expenses incurred by or on behalf of Pfizer or any of Pfizer's Representatives in connection with curing such breach against Pfizer's future payment obligations to BioNTech (or any of its successor or assigns) under this Agreement.

2.8.4. **Termination of any Current License**. In the event that any Current License is terminated by the applicable Current Licensor and this Agreement, as of the effective date of such termination, has not otherwise been terminated, Pfizer, to the extent permitted by such Current License (or if not permitted or addressed in such Current License, to the extent permitted by the applicable Current Licensor), will have the right without prejudice to its other remedies against BioNTech, at Pfizer's election, to convert the sublicenses granted under this Agreement by BioNTech to Pfizer under such Current License to a direct license from the applicable Current Licensor to Pfizer on the terms and conditions contained in such Current License (with Pfizer assuming the applicable obligations of BioNTech thereunder) or such other terms and conditions as may be negotiated by Pfizer and the applicable Current Licensor. In the event Pfizer enters into any such direct license with a Current Licensor, BioNTech will, at Pfizer's sole election and without prejudice to its other remedies hereunder:

(a) in respect of royalties payable by Pfizer under such direct license to the Current Licensor, to the extent such royalties are due in connection with the sale of Candidates or Products hereunder, reimburse to Pfizer the difference between (i) the amount that would have been payable by BioNTech to the Current Licensor under the Current License if the Current License had not been terminated and (ii) the account that would have to be reimbursed by Pfizer to BioNTech in accordance with Section 3.5.3(b) in relation to the Current License if the Current License had not been terminated; or

(b) permit Pfizer to offset any such reimbursement amounts (to the extent not reimbursed pursuant to clause (a) above), against Pfizer's future payment obligations to BioNTech (or any of its successor or assigns) under this Agreement.

2.8.5. **Consents and Waivers**. BioNTech represents, warrants and covenants to Pfizer that, to the extent any terms and conditions of this Agreement do not (or will not at any time during the Term) conform to any requirements relating to the grant of sublicenses under any Current License, it has obtained the irrevocable consent (or, if applicable, the waiver of any resultant conflict) from the applicable Current Licensor that is necessary to permit the activities contemplated under this Agreement, including, such that BioNTech may grant the applicable sublicenses granted or to be granted hereunder and perform all of its obligations hereunder and Pfizer may exercise all of its rights and perform all of its obligations hereunder, in each case, without breaching the applicable Current License. In the event that any provision in any Current License which conflicts with this Agreement or adversely impacts the activities contemplated under this Agreement comes to the attention of either BioNTech or Pfizer or which otherwise, at any time during the Term, would cause the representation, warranty and covenant set forth in the preceding sentence to be untrue, BioNTech, in consultation with Pfizer, will obtain any and all additional required consents or waivers from the applicable Current Licensor(s) which may be necessary to align the conflicting provision(s) of the applicable Current License with this Agreement and to permit the activities contemplated by this Agreement.

2.9. Future BioNTech Third Party Agreements. If BioNTech enters into bona fide discussions with a Third Party after the Effective Date which would, if an agreement is finally executed with such Third Party, give BioNTech rights to any Intellectual Property Rights that could reasonably be applicable to the Candidates or Products in the Field, then BioNTech shall notify the JSC for discussion pursuant to Section 4.3.2(d)(vii). Any Intellectual Property Rights Controlled by BioNTech pursuant to a BioNTech Third Party Agreement executed between BioNTech and such Third Party (each, a "Future BioNTech Third Party Agreement") shall only be included in the licenses granted to Pfizer under this Agreement if and when Pfizer: (a) notifies BioNTech in writing that such Intellectual Property Rights be included in the licenses granted to Pfizer under this Agreement; (b) agrees to reimburse BioNTech [***] of the royalties payable by BioNTech to the Third Party Licensor under such Future BioNTech Third Party Agreements (i) solely to the extent such royalties are due in connection with the sale of Candidates or Products hereunder and (ii) provided that the [***] cap on royalties payable by Pfizer to BioNTech set forth in Section 3.5.3(b)(y) shall not apply in respect of such reimbursement; and (c) agrees to comply with the terms of such Future BioNTech Third Party Agreement applicable to Pfizer as a sublicensee. BioNTech shall not in any circumstance conclude any agreement with a Third Party so as to prevent Pfizer gaining access to such Third Party's Intellectual Property Rights within the Field for any Candidate or Product.

2.10. No Implied Rights**.** Except as expressly provided in this Agreement, neither Party will be deemed to have granted the other Party (by implication, estoppel or otherwise) any right, title, license or other interest in or with respect to any Patent Rights,

Know-How or other Intellectual Property Rights or information Controlled by such Party.

2.10.1. **Exclusivity.**

2.10.2. Except for the Research Program, during the Term, BioNTech shall not, and shall procure that its Affiliates shall not Develop, have Developed, Manufacture, have Manufactured, Commercialize, have Commercialized or otherwise Exploit or have Exploited any [***] itself or with or on behalf of a Third Party in the Field, except that BioNTech may continue any BioNTech Third Party Agreement for non-clinical research in the Field with academic institutions and consortia. As of the Effective Date, BioNTech shall not (and shall procure that its Affiliates shall not) enter into any new agreements with any Third Party in the Field without a discussion at and pre-approval by the JSC pursuant to Section 4.3.

2.10.3. During the Research Term, Pfizer and its existing Affiliates shall not enter into any research collaboration or other license agreement with [***] unless and until the JSC mutually agrees pursuant to Section 4.3. For avoidance of doubt, the foregoing exclusivity obligation shall not apply to any agreement with a Third Party possessing supplementary technology to RNA that may enhance the efficiency of a Candidate or Product in the Field, including bioinformatics, automation, DNA synthesis, formulations, selection of epitopes, syringe or other delivery device companies, or the like.

Notwithstanding the foregoing, if a Change of Control occurs with respect to Pfizer and a Third Party during the Research Term, or if Pfizer or any of its existing Affiliates acquires or merges with a Third Party during the Research Term, and such Third Party is, at the time of such Change of Control or acquisition or merger, conducting activities that would cause Pfizer or one of its Affiliates to violate this Section 2.10.3 (such activities, a "Acquisition Program"), then Pfizer or such Third Party shall be permitted to continue such Acquisition Program and such continuation will not constitute a violation of this Section 2.10.3; provided that (a) no Confidential Information of BioNTech or its Affiliates is used in such Acquisition Program and (b) Pfizer shall implement and maintain, in accordance with Pfizer's internal commercially reasonable practices, an information barrier between the working teams involved in the day to day conduct of Pfizer's internal program of Development and Manufacture of Candidates and Products under this Agreement and the equivalent teams under such Acquisition Program.

2.11. Right of First Refusal. Commencing on the Effective Date and expiring on the [***] anniversary thereof ("ROFR Term"), BioNTech on behalf of itself and its Affiliates hereby grants (and procures the grant to) Pfizer the exclusive right of first refusal ("Right of First Refusal") to acquire a worldwide, exclusive license, with the right to sublicense (through multiple tiers), under Intellectual Property Rights Controlled by BioNTech and its Affiliates to use, have used, Develop, have Developed, Manufacture, have Manufactured, Commercialize, have Commercialized and otherwise Exploit immunogenic compositions comprising RNA that encodes at least one Antigen for prophylaxis against respiratory syncytial virus ("RSV") or human cytomegalovirus ("hCMV") in the Territory (each a "Partnered Field" and collectively, the "Partnered Fields") as follows:

2.11.1. During the ROFR Term,BioNTech shall notify Pfizer in writing before it or any Affiliate enters into an agreement with a Third Party in the Territory in one or both of the Partnered Fields. BioNTech's writing shall identify the Partnered Field(s) and provide reasonable details of the terms of the proposed agreement with the Third Party, including the financial terms, and a written report in reasonable detail of any of BioNTech's and its Affiliates' existing data that may be relevant to candidates/products in the Partnered Field(s) that Pfizer is otherwise unaware of

("BioNTech ROFR Notice"), and, if Pfizer so requests, BioNTech shall provide access to the same set of data and information that such Third Party has had access via a data room or other means. For avoidance of doubt, if BioNTech's written notice applies to only one Partnering Field, then Pfizer's Right of First Refusal for the other Partnering Field shall not be affected and continue to apply.

2.11.2. Within [***] days after receiving a BioNTech ROFR Notice, Pfizer shall respond in writing as to whether Pfizer has a good faith desire to obtain such rights on the same terms as set out in the BioNTech ROFR Notice. If Pfizer responds in the negative, or fails to respond within the [***] days, then Pfizer shall have no further rights under this Section 2.11 as to the applicable Partnering Field(s), provided however, that under no circumstances may BioNTech nor its Affiliate during the ROFR Term enter into an agreement with a Third Party with respect to such Partnering Field(s) containing terms, taken as a whole, that are more favorable to such Third Party than the terms and conditions set forth in the BioNTech ROFR Notice.

2.11.3. If Pfizer responds in the affirmative within the [***] days, then this shall commence a [***] day period ("ROFR Negotiation Period") of good faith exclusive negotiations between the Parties acting reasonably as to the terms upon which BioNTech would partner with or license to Pfizer in the applicable Partnering Field(s) ("ROFR Partnering Terms"). During the ROFR Negotiation Period, BioNTech shall not and shall procure its Affiliates shall not negotiate with any Third Party the terms upon which BioNTech or its Affiliates would partner with or license to such Third Party in the Partnering Field(s). If the Parties are unable to agree on the ROFR Partnering Terms and conclude a respective definitive written agreement during the ROFR Negotiation Period, then Pfizer shall have no further rights under this Section 2.11 as to the Partnering Field(s), provided, however, that under no circumstances may BioNTech nor its Affiliates during the ROFR Term enter into an agreement with a Third Party with respect to such Partnering Field(s) containing terms, taken as a whole, that are more favorable to such Third Party than the terms and conditions set forth in the BioNTech ROFR Notice.

2.11.4. The ROFR excludes agreements for research in the Field with academic institutions and consortia, which are subject to JSC approval under Section 4.3.2(d).

2.12. Right of First Negotiation. Effective as of the expiration of the ROFR Term and terminating as of the expiration of the Research Term ("ROFN Term"), if BioNTech or its Affiliate elects to license or otherwise grant rights to a Third Party under Intellectual Property Rights Controlled by BioNTech or its Affiliates in Partnering Field(s), then Pfizer shall have a right of first negotiation with respect to the first license or other partnership agreement for each of the Partnering Field(s) ("Right of First Negotiation") as follows:

2.12.1. During the ROFN Term, upon the request of the JSC, such request not to be made more than twice per Calendar Year, BioNTech shall provide the JSC with an oral summary regarding any Development activities it may have conducted or is planning to conduct in respect of the Partnering Fields. During the ROFN Term, (a) if Pfizer provides BioNTech with a written notice electing the Right of First Negotiation with respect to one or both Partnering Fields or (b) prior to BioNTech entering into bona fide negotiations with a Third Party with respect to the negotiation of a definitive legal agreement for a grant of rights to Intellectual Property Rights Controlled by BioNTech and its Affiliates for the Partnering Field(s), BioNTech shall first notify Pfizer in writing. BioNTech's written notice shall identify the Partnered Field(s) and provide a

written report in reasonable detail of any of BioNTech's and its Affiliates' existing data that may be relevant to candidates/products in the Partnered Field(s) that Pfizer is otherwise unaware of ("BioNTech ROFN Notice"), and, if Pfizer so requests, provide access to any relevant data and information via a data room or by other mutually agreed upon means. For avoidance of doubt, if BioNTech's written notice applies to only one Partnering Field, then Pfizer's Right of First Negotiation for the other Partnering Field shall not be affected and shall continue.

2.12.2. Within [***] days after receiving a BioNTech ROFN Notice, Pfizer shall respond in writing as to whether Pfizer elects to negotiate terms with BioNTech. If Pfizer responds in the negative, or fails to respond within the [***] days, then Pfizer shall have no further rights under this Section 2.13, as to the applicable Partnering Field(s). If Pfizer elects to commence a ROFN or responds to a ROFN Notice in the affirmative within the [***] days, then this shall commence an exclusive [***] day negotiation period ("ROFN Negotiation Period") during which the Parties shall negotiate, in good faith and acting reasonably, a definitive written agreement between the Parties as to the terms upon which BioNTech and its Affiliates would partner with or license to Pfizer Intellectual Property Rights Controlled by BioNTech and its Affiliates for the Partnering Field(s) ("ROFN Partnering Terms"). During the ROFN Negotiation Period, BioNTech shall not and shall procure its Affiliates shall not negotiate with any Third Party the terms upon which BioNTech or its Affiliates would partner with or license to such Third Party Intellectual Property Rights Controlled by BioNTech and its Affiliates for the Partnering Field(s).If the Parties are unable to agree on the ROFN Partnering Terms and do not conclude a respective definitive written agreement during the ROFN Negotiation Period, then the ROFN Negotiation Period shall expire and BioNTech shall be free to continue discussions with Pfizer or institute discussions on the same opportunity for the applicable Partnering Field(s) with Third Parties. For clarity, the Right of First Negotiation set forth in this Section 2.12 shall apply a maximum of [***] times only; once for each of the RSV and hCMV fields.

2.13. Access to Other BioNTech Technology. From time to time, Pfizer may, in addition to the licences granted hereunder, request a license from BioNTech to Other BioNTech Technology for use in a Candidate or Product in the Field as Pfizer may identify, such license to be of comparable scope and comparable terms to the licenses granted under Sections 2.1 in respect of Candidates and Products in the Field.For the purposes of this Agreement, "Other BioNTech Technology" means those Intellectual Property Rights Controlled by BioNTech or its Affiliates from time to time that do not constitute BioNTech Know-how or BioNTech Patent Rights.Upon Pfizer's election for such as license, the Parties shall negotiate such license terms in good faith and acting reasonably (which shall be based on the terms of this Agreement) for a period of not more than [***] days and BioNTech shall neither seek nor require any royalty rate or other financial provisions greater than (i) the mean royalty rate due to BioNTech by other licensees of the same Other BioNTech Technology (reasonably adjusted in so far as it is licensed with other Intellectual Property Rights) in existence as of the date of any notice electing for such a licence pursuant to this Section or (ii) if no such other licenses are in existence as of the date of such notice, the average royalty rate applied in comparable license agreements for similar technologies in the market.Any such license fees agreed pursuant to this Section shall be deemed license payments due under Additional Third Party Licenses for the purposes of Section 3.5.3(a) and accordingly Pfizer shall be entitled to deduct [***] of such license fees. If, however, the Parties cannot reach an agreement within such [***] day period, then the terms of such license for such Other BioNTech Technology shall be determined, taking into account all then-relevant factors including the provisions of this Section 2.13, by an independent Third Party expert knowledgeable in pharma licensing to be agreed between the Parties (and if the Parties cannot agree on such Third Party expert within [***]days of the expiration of the above negotiation period, the Third Party expert shall be

independently appointed upon either Party`s request by the International Chamber of Commerce). Each Party shall be obliged to submit its final proposal for the terms of such transition of or license to the Other BioNTech Technology to the Third Party expert, and such proposal shall remain confidential and shall not be disclosed to the other Party. The decision of the Third Party expert shall be final and binding on both Parties. The costs of the Third Party Expert shall be borne by both Parties at equal shares.

3. PAYMENTS BY PFIZER TO BIONTECH

3.1. Up-Front Payment. Pfizer will make a one-time payment of Fifty Million Dollars ($50,000,000) to BioNTech RNA within 30 days of receipt of BioNTech RNA's invoice (such invoice to be delivered on or following the Effective Date of this Agreement).

3.2. Equity Investment. Pfizer and BioNTech AG shall enter into an "Investment Agreement" contemporaneously with this Agreement pursuant to which Pfizer shall agree to subscribe for shares in BioNTech AG subject to achievement of certain conditions as prescribed in such Investment Agreement.

3.3. Development Payments**.** Pfizer will pay BioNTech RNA the one-off amounts set forth below within 60 days following the first occurrence of each event described below for the first Candidate or Product (as applicable) Covered by a Valid Claim in the applicable country of Development or Commercialization in the Territory to achieve such event (each, a "Development Payment").

	Development Event	Development Payment
(i)	Initiation of Manufacture of the CTM for such Candidate for the FIH Study (whereas "Initiation of Manufacture" shall mean the start of the Manufacturing of the first batch of CTM by BioNTech that is suitable for use in the FIH Study)	[***]
(ii)	Dosing of the first subject in the first FIH Study of such Candidate	[***]
(iii)	Pfizer's selection of such Candidate for further Development in a Phase I Clinical Trial (other than the FIH Study) or Phase II Clinical Trial including by selection as CAN based on Pfizer's CAN Selection Criteria	[***]

(iv)	Dosing of the first subject in the first Phase I or Phase I/II Clinical Trial (neither being the FIH Study) of a Product	[***]
(v)	Initiation of Manufacture of the CTM that is suitable for a Product for a Phase III Clinical Trial by or on behalf of Pfizer following technology transfer (whereas "Initiation of Manufacture" shall mean the first successful completion of the Manufacturing of an engineering run by or on behalf of Pfizer	[***]
(vi)	Dosing of the first subject in the first Phase III Clinical Trial of such Product in a Major Market Country	[***]

	Development Event	Development Payment
(vii)	First Commercial Sale of such Product by Pfizer, its Affiliates or Sublicensees in the United States	[***]
(viii)	First Commercial Sale of such Product by Pfizer, its Affiliates or Sublicensees in at least three of the Major EU Market Countries	[***]
(ix)	First Commercial Sale of such Product by Pfizer, its Affiliates or Sublicensees in Japan	[***]

Each of the Development Payments set forth above will be payable one time only (regardless of the number of Candidates or Products with respect to which, or the number of times with respect to any Candidate or Product, the specified Development Event occurs). No Development Payments will be payable by Pfizer for any subsequent Candidate or Product regardless of the number of Candidates or Products Developed. For clarification, if one Candidate or Product replaces another Candidate or Product in Development, then such replacement Candidate or Product will only be subject to Development Payments that have not previously been triggered by one or more prior Candidates or Products. The maximum amount payable by Pfizer under this Agreement with respect to all Development Payments if all Development Events occur will be [***].

If Pfizer achieves one of the Development Events set forth in rows (iii), (iv) or (vi) of the table set forth in Section 3.3, but had not achieved the preceding Development Event set forth (as applicable) in rows (iii) or (iv) of the table set forth in Section 3.3, then those preceding Development Event(s) set forth (as applicable) in rows (iii) or (iv) of the table set forth in Section 3.3 shall be deemed to have occurred and all Development Payments for such preceding Development Event(s) shall become payable. If Pfizer achieves one of the Development Events set forth in rows (vii), (viii) or (ix) of the table set forth in Section 3.3, but had not achieved any of Development Events set forth in rows (iii), (iv) or (vi) of the table set forth in Section 3.3, then those Development Event(s) set forth (as applicable) in rows (iii), (iv) or (vi) of the table set forth in Section 3.3 shall be deemed to have occurred and all Development Payments for such Development Event(s) shall become payable. Notwithstanding the foregoing, Pfizer's achievement of one of the Development Events set forth in rows (iii), (iv), (vi), (vii), (viii) or (ix) of the table set forth in Section 3.3 in response to a request by a Governmental Authority or Regulatory Authority to perform such Development Event due to pandemic flu emergency conditions shall not trigger the payment of any preceding Development Event.

3.4. Sales Milestone Payments. Pfizer will pay BioNTech RNA the following one-time payments (each, a "Sales Milestone Payment") when aggregate Net Sales of all Products on which royalties have been paid to BioNTech under Section 3.5.1 in a Pfizer Year in the Territory (the "Total Annual Net Sales") first reach the respective thresholds indicated below:

[***]

Pfizer will make any Sales Milestone Payment payable with respect to a Pfizer Year within [***] days after the end of the applicable Pfizer Year, and such payment will be accompanied by a report identifying the Products, Net Sales of each Product (including breakdown of gross receipts and permitted deductions), and the amount payable to BioNTech under this Section 3. 4. For the avoidance of doubt: (a) each of the Sales Milestone Payments set forth above will be payable one time only, regardless of the number of times the corresponding Total Annual Net Sales levels are achieved in any number of Pfizer Years; and (b) if Total Annual Net Sales first reach multiple thresholds indicated above in the same Pfizer Year, all respective Sales Milestone Payments shall be payable with respect to that Pfizer Year and shall not be payable again.

3.5. Royalty Payments.

3.5.1. **Royalties**. Subject to the provisions of Section 3.5.3, Pfizer will pay BioNTech RNA royalties on a tiered marginal royalty rate basis during the course of a Pfizer Year as set forth below (the "Marginal Royalty Rates") based on the applicable royalty percentage calculated against the applicable proportion of the annual aggregate Territory-wide Net Sales resulting from the sale of all Products in all countries in the Territory for which the applicable Royalty Term is in effect, during each Pfizer Year:

[***]

Each Marginal Royalty Rate set forth in the table above will apply only to that portion of the Net Sales of the Products in all countries in the Territory for which the applicable Royalty Term is in effect during a given Pfizer Year and that falls within the indicated range. An example calculation of royalties under this Section 3.5.1 is set forth in Schedule 3.5.1.

3.5.2. **Fully Paid-Up, Royalty Free License**. Following expiration of the Royalty Term for any Product in a given country, no further royalties will be payable in respect of sales of such Product in such country and, thereafter the licenses granted to Pfizer under Sections 2.1, 2.2, 2.3.1 and 2.7 with respect to such Product in such country will automatically become exclusive, fully paid-up, perpetual, irrevocable and royalty-free.

3.5.3. **Royalty Adjustments**. The following adjustments will be made, on a Product-by-Product and country-by-country basis, to the royalties payable pursuant to Section 3.5.1:

(a) **Third Party Patents**. If it is Necessary or Useful for Pfizer to license one or more Patent Rights from one or more Third Parties in respect of the Development, Manufacture, Commercialization, Exploitation or use of any Product in any country, whether directly or through any Pfizer Affiliate or Sublicensee, then Pfizer may, in its reasonable discretion, negotiate and obtain a license under such Patent Right(s) (each such Third Party license referred to herein as an "Additional Third Party License"). Any royalty otherwise payable to BioNTech under this Agreement with respect to Net Sales of such Product in such country by Pfizer, its Affiliates or Sublicensees will be [***] For the avoidance of doubt, this Section 3.5.3(a) shall not apply to any direct licenses entered into

by Pfizer with a Current Licensor in accordance with Section 2. 8. 4. For the purposes of this Section 3.5.3(a): (i) "Necessary" means that, without a license to use the Patent Right in question, the Development, Manufacture, Commercialization or use of any Candidate or Product, in Pfizer's opinion, infringes such Patent Right and (ii) "Useful" means that Pfizer has determined that such Third Party's Patent Right would reasonably enhance the potential, including by reducing cost or complexity of Manufacture, of such Licensed Product.

(b) **No Adjustment for BioNTech Third Party Agreements**. Subject to Section 2.9, BioNTech will be solely responsible for (i) all obligations (including any royalty or other obligations that relate to the BioNTech Technology or BioNTech's interest in the Research Program Technology) under its agreements with Third Parties that are in effect as of the Effective Date or that BioNTech enters into during the Term and (ii) all payments to inventors (other than inventors that are Representatives of Pfizer) of BioNTech Technology or Research Program Technology, including payments under inventorship compensation Laws, except that Pfizer will [***] (x) solely to the extent such royalties are due in connection with the sale of Candidates or Products hereunder and (y) provided that, notwithstanding anything in the Agreement to the contrary, [***].

(c) **Expiry of Valid Claim Coverage**. In the event that, with respect to any particular Product in any particular country in the Territory, the Royalty Term for such Product in such country extends beyond the date on which such Product is not Covered by any Valid Claim in such country, Net Sales in any such country shall be reduced by [***] for the remainder of the applicable Royalty Term, provided, however, that if this Section 3.5.3(c) applies to a Product, Pfizer may not also apply Section 3.5.3(e).

(d) **Existing Pfizer Third Party Agreements**. Pfizer will be solely responsible for all obligations (including royalty obligations) that relate to Products under its agreements with Third Parties that are in effect on or prior to the Effective Date.

(e) **Biosimilar Entry**. Notwithstanding the foregoing, for any royalty otherwise payable to BioNTech under this Agreement with respect to Net Sales based on sales of a Product in a given country in the Territory, any payments owed with respect to such Product in such country pursuant to this Section 3.5 [***].

(f) **Royalty Floor**. Notwithstanding the provisions of this Section 3.5.3, the maximum reduction of royalties [***].

3.6. Reports and Payments.

3.6.1. **Cumulative Royalties**. The obligation to pay royalties under this Agreement will be imposed only once with respect to any sale of any Product.

3.6.2. **Single Payee**. All payments due and payable by Pfizer or its Affiliates or sublicenses under this Section 3 shall be solely made to BioNTech RNA in full satisfaction of all consideration due hereunder in exchange for the rights granted by BioNTech.

3.6.3. **Royalty Statements and Payments**. Within [***] days of the end of each Calendar Quarter, Pfizer will deliver to BioNTech a report setting forth, for the most recent Pfizer Quarter ending during such Calendar Quarter, the following information, on a country-by-country and Territory-wide basis: [***]. No such reports will be due for any such Product (i) before the First Commercial Sale of such Product or (ii) after the Royalty Term for such Product has expired in all countries in the Territory. The total royalty due for the sale of all such Products during such Pfizer Quarter will be remitted at the time such report is made; *provided* that to the extent any royalties are payable by Pfizer hereunder on Net Sales of a Product in a country solely due to a Valid Claim Covering such Product in such country that is subject to a revocation, invalidity or unenforceability ruling that is appealable or being appealed, during the time of such appeal or appealability, such royalties payable by Pfizer shall be placed into an escrow account and either (x) returned to Pfizer upon a final, unappealable determination that such revocation, invalidity or unenforceability ruling is upheld or (y) released to BioNTech in the event such revocation, invalidity or unenforceability ruling is not upheld in a final, unappealable determination. In the event that BioNTech disagrees with the basis of Pfizer's calculations of royalties due because BioNTech believes that a Valid Claim Covering a Product was incorrectly omitted from Pfizer's royalty calculations, BioNTech shall notify Pfizer within [***] days of receipt of the relevant royalty statement.

3.6.4. **Taxes and Withholding.**

(a) **Withholding Taxes**. The Parties agree to use commercially reasonable efforts to cooperate with one another and use commercially reasonable efforts to avoid or reduce, to the extent permitted by applicable Law, tax withholding or similar obligations in respect of royalties, milestone payments, and other payments made by the paying Party to the receiving Party under this Agreement ("Withholding Taxes"). If Withholding Taxes are imposed on any payment under this Agreement, the liability for such Withholding Taxes shall be the sole responsibility of the receiving Party, and the paying Party shall (i) deduct or withhold such Withholding Taxes from the payment made to the receiving Party, (ii) timely pay such Withholding Taxes to the proper taxing authority, and (iii) send proof of payment to the receiving Party within [***] days following such payment. Each Party shall comply with (or provide the other Party with) any certification, identification or other reporting requirements that may be reasonably necessary in order for the paying Party to not withhold Withholding Taxes or to withhold Withholding Taxes at a reduced rate under an applicable bilateral income tax treaty. Each Party shall provide the other with commercially reasonable assistance to enable the recovery, as permitted by applicable Law, of Withholding Taxes or similar obligations resulting from payments made under this Agreement, such recovery to be for the benefit of the Party bearing the cost of such Withholding Taxes under this Section 3.6.4 (Taxes and Withholding). Notwithstanding the foregoing, if as a result of any assignment or sublicense by the paying Party, any change in the paying Party's tax residency, any change in the entity that originates the payment, or any failure on the part of the paying Party to comply with applicable Law with respect to Withholding Taxes (including filing or record retention requirements), Withholding Taxes are imposed that would not otherwise have been imposed ("Incremental Withholding Taxes"), then the paying Party shall be solely responsible for the amount of such Incremental Withholding Taxes and shall increase the amounts payable to the receiving Party so that the receiving Party receives a sum equal to the sum which it would have received had there been no such imposition of Incremental Withholding Taxes.

(b) **Value Added Tax**. All payments between the Parties under this Agreement are exclusive of applicable statutory value added tax or similar taxes ("VAT"), if any, which shall be listed separately on each invoice. If and to the extent any VAT will become payable due to any supplies or services rendered under this Agreement and if and to the extent such VAT is to be paid by the Party providing the supply or service to the competent tax authorities, the receiving Party shall pay an amount equal to such VAT to the providing Party upon receipt of a valid invoice allowing for the recovery of such VAT.

3.6.5. **Currency, Source of Payments.** All amounts payable and calculations under this Agreement will be in United States dollars, and Pfizer agrees to make all payments from a source in the United States of America. As applicable, Net Sales and any royalty deductions will be translated into United States dollars at the exchange rate used by Pfizer for public financial accounting purposes. If, due to restrictions or prohibitions imposed by national or international authority, a given payment cannot be made as provided in this Section 3.6.5, the Parties will consult with a view to finding a prompt and acceptable solution. If the Parties are unable to identify a mutually acceptable solution regarding such payment, then Pfizer may elect, in its sole discretion, to deliver such payment in the relevant jurisdiction and in the local currency of the relevant jurisdiction.

3.6.6. **Method of Payment**. Except as permitted pursuant to Section 3.6.5, each payment hereunder will be made by electronic transfer in immediately available funds via either a bank wire transfer, an ACH (automated clearing house) mechanism, or any other means of electronic funds transfer, at Pfizer's election, to such bank account set forth below or as BioNTech RNA will designate in writing to Pfizer at least [***] days before the payment is due. All invoice or billing related questions should be referred to Pfizer's Accounting Department at 800.601.1357 or go to the Accounts Payable Invoice Portal at ap.pfizer.com.

[***]

3.6.7. **Record Keeping**. Pfizer will keep and will cause its Affiliates and use Commercially Reasonable Efforts to cause its Sublicensees to keep books and accounts of record in connection with the sale of Products in sufficient detail to permit accurate determination of all figures necessary for verification of royalties and Sales Milestone Payments to be paid hereunder. Pfizer and its Affiliates will maintain, and Pfizer shall use Commercially Reasonable Efforts to cause its Sublicensees to maintain, such records for a period of at least [***] years, or such longer period of time required under a Current License, insofar as applicable to the rights sub-licensed pursuant to such Current License and used by Pfizer, its Affiliates and Sublicensees, after the end of the Pfizer Quarter in which they were generated.

3.6.8. **Audits**. Upon [***] days prior notice from BioNTech, Pfizer will permit (and shall use Commercially Reasonable Efforts to cause its Sublicensees to permit) an independent certified public accounting firm of nationally recognized standing selected by BioNTech and reasonably acceptable to Pfizer, to examine, at BioNTech's sole expense, the relevant books and records of Pfizer and its Affiliates (and where possible, its Sublicensees) as may be reasonably necessary to verify the amounts reported by Pfizer in accordance with Section 3.6.3 and the payment of royalties and Sales Milestone Payments hereunder. An examination by BioNTech under this Section 3.6.8 will occur not more than once in any Calendar Year and will be limited to the pertinent books and records for any Calendar Year ending not more than [***] years before the date of the request. The

accounting firm will be provided access to such books and records at Pfizer's or its Affiliates' (or where possible its Sublicensees') facility(ies) where such books and records are normally kept and such examination will be conducted during Pfizer's or its Affiliates' (or, where possible, its Sublicencees') normal business hours. Pfizer may require the accounting firm to sign a reasonably acceptable non-disclosure agreement before providing the accounting firm with access to Pfizer's or its Affiliates' (or where possible its Sublicensees') facilities or records. Upon completion of the audit, the accounting firm will provide both Pfizer and BioNTech the same written report disclosing any discrepancies in the reports submitted by Pfizer or the royalties or Sales Milestone Payments paid by Pfizer, and, in each case, the specific details concerning any discrepancies. No other information will be provided to BioNTech. Where Pfizer is not able to cause its Sublicensees to permit an audit according to this Section 3.6.8 (despite using Commercially Reasonable Efforts), Pfizer shall on BioNTech's request exercise its own audit rights under the relevant sublicense agreement; provided, however, that (a) BioNTech shall not request such audit exercise more than once in a Calendar Year, (b) the audit shall be limited to the pertinent books and records for any Calendar Year ending not more than [***] years before the date of the request and (c) if the amount of any underpayment of royalties by any such Sublicensee is less than [***] of the royalties properly payable to BioNTech, then BioNTech shall reimburse Pfizer for Pfizer's out-of-pocket costs in connection with the audit.

3.6.9. **Underpayments/Overpayments**. If such accounting firm concludes that additional royalties or Sales Milestone Payments were due to BioNTech, then Pfizer will pay to BioNTech the additional royalties or Sales Milestone Payments within [***] days of the date Pfizer receives such accountant's written report. Further, if the amount of such underpayments exceeds more than [***] of the amount that was properly payable to BioNTech, then Pfizer will reimburse BioNTech for BioNTech's out-of-pocket costs in connection with the audit. If such accounting firm concludes that Pfizer overpaid royalties or Sales Milestone Payments to BioNTech, then BioNTech will refund such overpayments to Pfizer, within [***] days of the date BioNTech receives such accountant's report.

3.6.10. **Confidentiality**. Notwithstanding any provision of this Agreement to the contrary, all reports and financial information of Pfizer, its Affiliates or its Sublicensees which are provided to or subject to review by BioNTech will be deemed to be Pfizer's Confidential Information and subject to the provisions of Section 8.

3.7. No Guarantee of Success.

3.7.1. Pfizer and BioNTech acknowledge and agree that payments to BioNTech pursuant to Section 3.3, Section 3.4 and Section 3.5: (a) have been included in this Agreement on the basis that they are only payable or otherwise relevant if a certain Product is successfully Developed or Commercialized in such country, as applicable; (b) are solely intended to allocate amounts that may be achieved upon successful Development or Commercialization of such Product as applicable, between Pfizer (who will receive all Product sales revenues) and BioNTech; (c) are not intended to be used as a measure of damages if this Agreement is terminated for any reason, including pursuant to Pfizer's right to terminate for convenience, before any such success is achieved and such amounts become due; and (d) will only be triggered, and will only be relevant as provided, in accordance with the terms and conditions of such provisions.

3.7.2. Pfizer and BioNTech further acknowledge and agree that nothing in this Agreement, or in any document or presentation provided by Pfizer to BioNTech prior to the Effective Date will be construed as representing any estimate or projection of (i) the successful Development or Commercialization of any Product under this Agreement, (ii) the number of Products that will or may be successfully Developed or Commercialized under this Agreement, (iii) anticipated sales or the actual value of any Products that may be successfully Developed or Commercialized under this Agreement or (iv) the damages, if any, that may be payable if this Agreement is terminated for any reason.

3.7.3. Pfizer makes no representation, warranty or covenant, either express or implied, that (A) it will successfully Develop, Manufacture, Commercialize or continue to Develop, Manufacture or Commercialize any Product in any country, (B) if Commercialized, that any Product will achieve any particular sales level, whether in any individual country or cumulatively throughout the Territory or (C) Pfizer will devote, or cause to be devoted, any level of diligence or resources to Developing or Commercializing any Product in any country, or in the Territory in general, other than is expressly required under Section 6.2.

4. RESEARCH PLAN

4.1. Scope of Research and Research Plan. Pfizer and BioNTech will collaborate during the Research Term to conduct research to identify, Develop and evaluate Candidates and Products in accordance with the Research Plan and the terms and conditions set forth in this Section 4. Pfizer reserves the right to modify the Research Plan, in its sole discretion, at any time during the Research Term; provided that any such changes shall be approved by JSC pursuant to Section 4.3.

4.2. Allocation of Responsibilities**.**

4.2.1. **General**. Each Party will use Commercially Reasonable Efforts to perform its obligations and activities identified under the Research Plan in a professional manner in accordance with target dates set forth in Research Plan. Further, each Party will perform its obligations under the Research Plan in compliance with all Laws applicable to its activities under the Research Plan.

4.2.2. **Subcontractors**. BioNTech will not subcontract any of its responsibilities under the Research Plan or otherwise under this Agreement without Pfizer's prior written consent; *provided* that (a) any Affiliates of BioNTech, (b) any subcontractors expressly identified in the Research Plan to conduct specific activities thereunder and (c) those subcontractors set forth on Schedule 4.2.2 ("Approved Subcontractors") shall be deemed to have received such consent from Pfizer. BioNTech shall be responsible for the management of all permitted subcontractors (which will include any BioNTech Affiliate). The engagement by BioNTech or its Affiliate of any subcontractor in compliance with this Section 4.2.2, including the Approved Subcontractors, shall be in writing and shall not relieve BioNTech of its obligations under this Agreement or the Research Plan. Any agreement between BioNTech or its Affiliate and a permitted subcontractor or Approved Subcontractor pertaining to the Research Plan activities shall be consistent with the provisions of this Agreement including (i) an obligation to assign all Intellectual Property rights generated during its performance of such Research Plan to BioNTech free of any encumbrance such that BioNTech may fulfil its licensing and assignment obligations hereunder and (ii) terms and conditions under which such Third Party is obligated to preserve the confidentiality of the Research Program, Research Program Technology and any Confidential Information of Pfizer received by such Third Party from the BioNTech that are at least as restrictive as those described in Section 8.2.1.

4.2.3. **Personnel Matters**. Each Party acknowledges and agrees that it is solely responsible for the compensation of its personnel assigned to the Research Plan, and shall be responsible for withholding all national, state, local or other applicable taxes and similar items for such personnel. Each Party also shall be responsible for all other of its employer related obligations, including providing appropriate insurance coverage and employee benefits, and making all other deductions required by law affecting the gross wages of each of its employees. BioNTech personnel assigned to the Research Plan activities are not nor shall they be deemed to be employees of Pfizer, and Pfizer personnel assigned to the Research Plan activities are not nor shall they be deemed to be employees of BioNTech.

4.2.4. **BioNTech Disclosure and Knowledge Transfer Obligations**. Without limiting BioNTech's obligations pursuant to Section 4.2.1, during the Research Term, BioNTech will:

(a) disclose to Pfizer all newly developed RNA Technology and RNA Process Technology and all other newly generated data developed in connection with the Research Plan, in each case in such format as Pfizer may reasonably request (including by download of digital files to a secure website or e-room designated and controlled by Pfizer);

(b) upon Pfizer's request, disclose and provide to Pfizer research grade samples of each Candidate identified by BioNTech as a potential development candidate within a commercially reasonable period not to exceed [***] days;

(c) provide to Pfizer a written summary of all activities, discoveries, developments and results attained by BioNTech under the Research Plan in the regular course of research and no less frequently than every [***] days;

(d) promptly notify Pfizer of any suspected or actual research misconduct, issues pertaining to data integrity or any other information that could reasonably signify or result in a lack of confidence in the accuracy or collection methods of data, each as such may relate to the activities being conducted under the Research Plan;

(e) in accordance with the Product Technology Transfer Plan agreed upon by the JSC pursuant to Section 4.3.2(d)(x), or earlier upon request by Pfizer in the event that BioNTech commits a material breach of any of its obligations under this Agreement and such material breach remains uncured for [***] Business Days, measured from the date written notice of such material breach is given to BioNTech, transfer the Candidates or Products requested by Pfizer and all BioNTech Know-How relating to such Candidates or Products

4.3. Research Governance.

4.3.1. **Collaboration Management**.

(a) *Program Directors*. Each Party will appoint a program director to oversee all activities conducted under the Research Plan (each, a "Program Director" and together the "Program Directors"). Each Party may change its designated Program Director at any time upon written notice to the other Party. The Program Directors will coordinate the efforts of their respective Party in conducting activities under the Research Plan. The Program Directors for Pfizer and BioNTech are Philip Dormitzer and Birgit Pless, respectively.

4.3.2. **Joint Steering Committee**.

(a) *Composition*. As of the Effective Date, the Parties will establish a Joint Steering Committee, comprised of at least two (2) representatives of BioNTech (including the Program Director for BioNTech) and at least two (2) representatives of Pfizer (including the Program Director for Pfizer). The JSC representatives for each of Pfizer and BioNTech will be referred to herein as the "Pfizer JSC Members" and the "BioNTech JSC Members," respectively. As of the Effective Date, the Pfizer JSC Members shall be (1) [***] and (2) [***] and the BioNTech JSC Members shall be (1) [***] and (2) [***].

Each Party may replace its representatives to the JSC at any time upon notice to the other Party, *provided that* at all times an equal number of representatives from each Party are appointed to the JSC and each Party shall be responsible for ensuring any replaced representative is fully briefed and apprised of the Research Project. Each Party shall procure that its JSC representatives shall make themselves available to attend JSC meetings upon reasonable notice and in accordance with this Agreement. Each Party may invite non-voting employees and consultants to attend meetings of the JSC. All members of the JSC and any invitees of either Party described above will agree in writing to be bound to obligations of confidentiality and assignment of Intellectual Property Rights no less restrictive than those that bind the Parties under this Agreement.

(b) *Committee Chair*. The JSC will be chaired by a Pfizer JSC Member (the "JSC Chair"). Pfizer may replace the JSC Chair at any time upon notice to BioNTech. The responsibilities of the JSC Chair will be:

(i) to notify each Party at least 30 days in advance of each JSC meeting;

(ii) to collect and organize agenda items for each JSC meeting; and

(iii) to prepare the written minutes of each JSC meeting and circulate such minutes for review and approval by the Parties, and identify action items to be carried out by the Parties.

(c) *Meetings.* During the Research Term, the JSC will meet on a Calendar Quarter basis (or less or more frequently as the JSC so determines), either in-person or by audio or video teleconference. Meetings of the JSC will occur at such times and places as mutually agreed by the Parties; provided, however, that no more than two (2) in-person meetings will be required in any Calendar Year. Any sub-committees or working groups established in accordance with Section 4.3.2(d) may meet via audio or video teleconference on a regular basis and in-person at such times and places as the Parties may agree. Meetings of the JSC will only occur if at least one representative of each Party is present at the

meeting or participating by teleconference or videoconference. Each Party will be responsible for, and will not be entitled to any reimbursement from the other Party with respect to, any and all personnel costs or expenses (including travel expenses) which are incurred by or on behalf of its personnel in connection with participation in any JSC meetings or sub-committee or working group meetings, or any other travel required to be undertaken by either Party's personnel in connection with the performance of the Agreement. The Parties will endeavor to schedule meetings of the JSC at least [***] months in advance. The JSC Chair will use good faith efforts to (i) prepare and circulate to BioNTech each JSC meeting agenda no later than five Business Days prior to the scheduled date for each JSC meeting and (ii) circulate for review and approval by BioNTech written minutes of each JSC meeting within [***] days after such meeting. The Parties will agree on the minutes of each meeting promptly, but in no event later than the next meeting of the JSC.

(d) *Responsibilities*. The JSC will coordinate and provide operational and strategic oversight of the activities to be performed under the Research Plan by each Party and, within such scope will:

(i) monitor and assess the progress of activities under the Research Plan;

(ii) determine whether to initiate GLP toxicology studies for any Candidate prior to the FIH Study;

(iii) select the Candidates or Products that will be studied in the FIH Study on a schedule that takes into account BioNTech's manufacturing schedule capacity;

(iv) determine the design of the FIH Study, including the protocol governing the FIH Study;

(v) revise and approve any revisions of the Research Plan, except that (i) any modification to the Research Plan that would result in an increase in more than [***] by BioNTech ([***]) (ii) any decision who will bear the costs which exceed [***] and (iii) subject to Section 2.13, any revision to the Research Plan that would require BioNTech to use, disclose or license any Other BioNTech Technology, would require the JSC's unanimous vote, *provided that* if BioNTech's Representatives withhold their consent, the fact that BioNTech has refused (in whole or part) to participate in additional or revised Development or Manufacturing activities, or to share in the respective costs, or to use, disclose or license such Other BioNTech Technology, as applicable, shall be a factor considered in determining whether Pfizer has exercised its Commercially Reasonable Efforts under this Agreement;

(vi) assess and discuss any future agreement between BioNTech and a Third Party involving the use or application of the RNA Technology in the Field or any future agreement between Pfizer and a Third Party for the research or development of Core RNA Technology in the Field during the Research Term, in each case which would require a unanimous vote of the JSC;

(vii) discuss any Intellectual Property Rights of a Third Party which may be relevant to Candidates and Products that are brought to the JSC pursuant to Section 2.9;

(viii) oversee the Development of Manufacturing processes relating to the Candidates or Products; any decisions relating to such Development shall require a unanimous vote;

(ix) form such other committees and sub-committees as the JSC may deem appropriate, *provided that* such committees and sub-committees may make recommendations to the JSC but may not be delegated JSC decision-making authority;

(x) develop a plan, upon Pfizer's written request and not later than [***] days prior to completion of the FIH Study to transfer and oversee the transfer of BioNTech Know-How to Pfizer to enable the rights licensed to Pfizer in Sections 2.1 and 2.3.1 which shall set out at minimum the responsibilities of each Party in connection with the transfer, deliverables and estimated timelines and budgets ("Product Technology Transfer Plan");

(xi) address such other matters relating to the activities of the Parties under the Research Plan as either Party may bring before the JSC, including any matters that are expressly for the JSC to decide as provided in this Agreement; and

(xii) attempt to resolve any disputes between the Parties with respect to (i) the performance of activities under the Research Plan on an informal basis or (ii) matters before the Patent Committee, in each case subject to Section 4.3.2(e).

(e) *Decision-making*. Notwithstanding the number of Pfizer JSC Members or BioNTech JSC Members, each Party will have one (1) vote, and the JSC will make decisions on a unanimous basis. The JSC will use good faith efforts to reach agreement on any and all matters properly brought before it. If, despite such good faith efforts, the JSC is unable to reach unanimous agreement on a particular matter, within [***] days after the JSC first meets to consider such matter, or such later date as may be mutually acceptable to the Parties (each such matter, a "Disputed Matter"), then either Party may refer that Disputed Matter for resolution by the appropriate senior officer of each Party, and such senior officers will promptly initiate discussions in good faith to resolve such Disputed Matter. If the senior officers of each Party are unable to resolve the Disputed Matter within [***] days of it being referred to them, then Pfizer will have final decision-making authority with respect to all Disputed Matters, subject only to specific issues identified in this Agreement as expressly requiring mutual consent or unanimous vote of the Parties.

(f) *Limits on JSC Authority*. Notwithstanding any provision of this Section 4.3 to the contrary, (i) each Party will retain the rights, powers and discretion granted to it under this Agreement and no such rights, powers, or discretion will be delegated to or vested in the JSC unless such delegation or vesting of rights is expressly provided for in

this Agreement or the Parties expressly so agree in writing, (ii) the JSC will not have the power to amend this Agreement or otherwise modify or waive compliance with this Agreement in any manner and (iii) neither Party will require the other Party to (A) breach any obligation or agreement that such other Party may have with or to a Third Party to the extent such obligation or agreement existed prior to the Execution Date or (B) perform any activities that are materially different or greater in scope or more costly than those provided for in the Research Plan then in effect.

(g) *JSC Term*. The JSC will be dissolved immediately upon the later of the expiration of the Research Term or the completion of the Manufacturing technology transfer described in Section 5.4.

4.4. Research Term Extension. During the Research Term, to the extent the completion of the activities or deliverables set forth in the Research Plan in accordance with the specifications set forth for such activities or deliverables in the Research Plan is delayed as a consequence of BioNTech's material breach of its obligations under the Research Plan notified by Pfizer to BioNTech in writing, then the Research Term shall be automatically extended by a reasonable amount of time corresponding to the amount of time between the time predicted for completion of such activity in the Research Plan and actual time the activity is completed. In addition, Pfizer may in its sole discretion extend the Research Term at its option by (a) up to [***] days or (b) until the [***] of the initial Research Term. The extension option pursuant to (a) above must be exercised by providing notice to BioNTech no later than on the last JSC meeting before the end of the initial Research term. The extension option pursuant (b) above must be exercised by providing notice to BioNTech no later than on the last JSC meeting before the end of the initial Research term or, if the option according to (a) has already been exercised, no later than [***] days after the end of the initial Research Term. [***]

4.5. Research Plan Expenses**.** Except as expressly set forth otherwise in this Agreement (including in Section 4.3.2(d)(v), each Party will bear all costs and expenses it incurs in connection with its activities under the Research Plan.

4.6. Materials and Permitted Activities**.**

4.6.1. **Transfer**. From time to time during the Research Term, Pfizer shall provide BioNTech with tangible chemical or biological materials (the "Pfizer Materials") as set forth in the Research Plan or as otherwise mutually agreed between the Parties (if any). Pfizer represents and warrants to BioNTech as of the date of delivery of the Pfizer Material (i) to Pfizer's knowledge, Pfizer has the right to provide the Pfizer Materials to BioNTech for the uses in accordance with the Research Plan, (ii) the Pfizer Materials comply with any requirements set forth in the Research Plan or otherwise mutually agreed between the Parties (if any) in writing and (iii) to Pfizer's knowledge, the use of the Pfizer Materials authorized herein does not infringe any Third Party rights. Except as expressly set forth in the preceding sentence, the Pfizer Materials are provided by Pfizer on an

"as-is" basis without any representation or warranty of any type, express or implied, including any representation or warranty of merchantability or fitness for a particular purpose, each of which is hereby expressly disclaimed by Pfizer.

4.6.2. **Title to Pfizer Materials and BioNTech Materials**. All right, title and interest in and to the Pfizer Materials (including any modifications or progeny thereof) will remain the sole and exclusive property of Pfizer notwithstanding the transfer to and use by BioNTech of the same. All right, title and interest in and to the BioNTech Materials will remain the sole and exclusive property of BioNTech notwithstanding the transfer to and use by Pfizer of the same.

4.6.3. **Permitted Activities**. Notwithstanding anything to the contrary in this Agreement save for BioNTech's exclusivity obligations and restrictions (including those at Section 2.1 and 2.10.2) and Pfizer's exclusivity obligations and restrictions (including those at Section 2.10.3, nothing in this Agreement shall be deemed to prevent or restrict in any way the ability of either Party or its Affiliates to conduct any activities in the Territory, which activities would be allowed under any safe harbor, research exemption, government or executive declaration of urgent public health need, or similar right available in law or equity if conducted by a Third Party.

4.6.4. **Return of Proprietary Materials**. Upon termination or expiration of the Research Term, BioNTech shall, at Pfizer's option, either destroy or return to Pfizer all unused Pfizer Materials.

5. MANUFACTURING AND SUPPLY

5.1. Development of Manufacture Process. Beginning on the Effective Date of the Agreement and throughout the Research Term (including any extension pursuant to Section 4.4), BioNTech and Pfizer shall jointly Develop a scalable process for Manufacture of Candidates and Products in the Field. Should Pfizer request any assistance from BioNTech to Develop (or continue to Develop) a scalable process for Manufacture of the Candidates and Products in the Field after the Research Term (including any extension pursuant to Section 4.4), BioNTech shall provide such assistance after such Research Term at an hourly rate of [***] for its support and efforts in connection with such Development. Such payments shall be governed by the terms of Section 3.6 and BioNTech shall be required to keep, and provide to Pfizer, detailed reports and timesheets for those personnel involved.

5.2. Manufacture of CTM for FIH Study. BioNTech shall Manufacture, at its cost, all CTM for the Candidates or Products that are the subject of the FIH Study described in the Research Plan.

5.3. Supply of CTM to Pfizer. BioNTech shall supply Pfizer with CTM for the Products it studies in any Phase I Clinical Trial and Phase II Clinical Trial. Without prejudice to that obligation, the Parties shall negotiate in good faith and acting reasonably a mutually agreed upon Quality Agreement and Supply Agreement which shall be executed on or before [***]; such Supply Agreement shall be consistent with the heads of terms set forth in Schedule 5.3. Pfizer's schedule for Clinical Trials would take into account the Manufacturing capacity available at BioNTech and the Parties would agree on a [***] month Manufacturing capacity plan for Clinical Trial batches no later than [***] months in advance of any delivery date for such batch. If Pfizer so requests during the term of such Supply Agreement, Pfizer and BioNTech shall discuss an extension of such Supply Agreement at an appropriate time and negotiate in good faith if Pfizer requires a bridge to Pfizer for CTM for Pfizer's Phase III Clinical Trials or for Pfizer's commercial supply.

5.4. Technology Transfer of Manufacturing Process. BioNTech will provide Pfizer with all reasonable assistance necessary or useful to effect the timely and orderly transfer of the process for Manufacturing Products in the Field to enable Pfizer or Pfizer's named contract manufacturing organization ("CMO") to successfully Manufacture such Products on Pfizer's behalf. Without limiting BioNTech's obligations set forth elsewhere under this Agreement, the Parties will use their Commercially Reasonable Efforts to perform all technology transfer activities as set forth under the initial Manufacturing technology

transfer plan set forth in Exhibit D (the "Manufacturing Technology Transfer Plan"). BioNTech will cause all technology transfer activities to be performed under the Manufacturing Technology Transfer Plan to be carried out by the specific individuals identified to perform such activities in the Manufacturing Technology Transfer Plan (if any) and otherwise by appropriately skilled and experienced individuals familiar with the Manufacture of such Products. Such Manufacturing Technology Transfer Plan will be updated by the JSC no later than [***] months after the Effective Date. In case of a technology transfer to a CMO, technology transfer shall only be initiated if and when: (a) such CMO has entered into confidentiality undertakings in respect of BioNTech Technology, Research Program Technology and Confidential Information of BioNTech or its Representatives on customary terms comparable to and no less restrictive than those that bind the Parties under this Agreement either (i) directly with BioNTech or (ii) with Pfizer but including BioNTech as third party beneficiary, and (b) BioNTech has been provided with a copy of such confidentiality undertakings. For clarity, such CMO would not have the right to use any BioNTech Technology, Research Program Technology or Confidential Information of BioNTech or its Representatives licensed to and transferred to Pfizer or the CMO for any purpose other than the Manufacture of Products in the Field on Pfizer's behalf.

5.5. Transfer Activities and Consulting Support. In addition to the support provided under the Manufacturing Technology Transfer Plan and the Product Technology Transfer Plan,BioNTech will provide Pfizer with up to [***] hours of FTE support reasonably requested by Pfizer and associated with Pfizer's Development, Manufacture or Commercialization of the Candidates and Products. Pfizer will pay BioNTech [***] for each FTE. Such payments shall be governed by the terms of Section 3.6 and BioNTech shall be required to keep, and provide to Pfizer, detailed reports and timesheets for those personnel involved. Any Intellectual Property Rights generated pursuant to services under this Section shall be deemed work product from a work for hire arrangement and shall be owned by Pfizer.

6. PRODUCT DEVELOPMENT AND COMMERCIALIZATION

6.1. General. Subject to the provisions of Sections 4.2, 4.3, 5.2, 5.3 and 6.2, Pfizer will have sole authority over and control of the Development, Manufacture, Regulatory Approval and Commercialization of Candidates and Products and will retain final decision-making authority with respect thereto.

6.2. Diligence.

6.2.1. **Development Diligence**. Pfizer will use its Commercially Reasonable Efforts to Develop and seek Regulatory Approval for one Product in the Field in [***]. Pfizer will have no other diligence obligations with respect to the Development or Regulatory Approval of Products under this Agreement.

6.2.2. **Commercial Diligence**. Pfizer will use its Commercially Reasonable Efforts to Commercialize a given Product in the Field in each Major Market Country in the Territory where Pfizer or its designated Affiliates or Sublicensees has received Regulatory Approval for such Product. Pfizer will have no other diligence obligations with respect to the Commercialization of Products under this Agreement.

6.2.3. **Exceptions to Diligence Obligations**. Notwithstanding any provision of this Agreement to the contrary, Pfizer will be relieved from and will have no obligation to undertake any efforts with respect to any diligence obligation under Section 6.2.1 or Section 6.2.2 with respect to a given Candidate or Product in the event that:

(a) Pfizer or BioNTech receives or generates any safety, tolerability or other data reasonably indicating or signaling, as measured by Pfizer's safety and efficacy evaluation criteria and methodology, that such Candidate or Product has or would have an unacceptable risk-benefit profile or is otherwise not reasonably suitable for initiation or continuation of Clinical Trials;

(b) Pfizer or BioNTech receive any notice, information or correspondence from any applicable Regulatory Authority, or any applicable Regulatory Authority takes any action, that reasonably indicates that such Candidate or Product is unlikely to receive Regulatory Approval; or

(c) that BioNTech fails to fulfill its Development or other obligations under the Research Plan or this Agreement and such failure prevents Pfizer from fulfilling the Pfizer Diligence Obligations.

For the avoidance of doubt, the Pfizer Diligence Obligations in respect of Candidates and Products not affected by the circumstances described in this Section 6.2.3 shall continue to apply.

6.2.4. **Deemed Satisfaction of Pfizer Diligence Obligations**. Without in any way expanding Pfizer's obligations under this Agreement:

(a) Pfizer's achievement of any Development Event entitling BioNTech to receive a specific Development Payment described in Section 3.3 will be conclusive evidence that Pfizer has satisfied all Pfizer Diligence Obligations under this Agreement up to the date that such Development Event is achieved;

(b) on a Major Market

Country-by-Major Market Country basis, Pfizer's payment, and BioNTech's acceptance, of any royalties to BioNTech pursuant to Section 3.5 with respect to Net Sales in such Major Market Country will be conclusive evidence that Pfizer has satisfied all Pfizer Diligence Obligations under this Agreement in respect of such Major Market Country to the date of such payment; provided that if BioNTech does not return in full a payment of royalties by Pfizer with a written rejection of such payment within ten days of receipt, BioNTech shall be deemed to have accepted such royalty payment; and

(c) Pfizer's payment of any Sales Milestone Payment as set forth in Section 3.4 will be conclusive evidence that Pfizer has satisfied all Pfizer Diligence Obligations under this Agreement to the date of such payment.

For the avoidance of doubt, the provisions of Sections 6.2.4(a) through 6.2.4(c) are intended only as examples of diligence constituting satisfaction of the Pfizer Diligence Obligations.Pfizer may fully satisfy the Pfizer Diligence Obligations without achieving any of the specific diligence examples set forth in Sections 6.2.4(a) through 6.2.4(c) above, *provided that* Pfizer otherwise complies with the provisions of Section 6.2.1 or Section 6.2.2, as applicable.

6.2.5. **Assertion of Pfizer Diligence Obligation Claims**. If BioNTech is or becomes aware of facts that might form a reasonable basis to allege that Pfizer has failed to meet any Pfizer Diligence Obligation, then BioNTech will promptly notify Pfizer in writing of such potential alleged performance failure (each such potential alleged performance failure, a "Diligence Issue"). Promptly upon Pfizer's receipt of any notice of a Diligence Issue pursuant to this Section 6.2.5, the Pfizer Program Director will contact the BioNTech Program Director to discuss the specific nature of such Diligence Issue and seek to identify an appropriate corrective course of action. If, no later than [***] days after Pfizer's receipt of such a notice, (a) the Parties have not reached consensus regarding whether Pfizer has failed to satisfy its obligations pursuant to Section 6.2.1 or Section 6.2.2 and (b) the Parties' respective Program Directors have not agreed upon an appropriate corrective course of action for such Diligence Issue, then such Diligence Issue will be escalated and resolved pursuant to the dispute resolution provisions set forth in Section 12.12. If BioNTech fails to notify Pfizer of a Diligence Issue pursuant to this Section 6.2.5 within [***] days after the date on which BioNTech first discovers such Diligence Issue, then Pfizer will be deemed to have satisfied its Diligence Obligations with respect to such Diligence Issue.

6.2.6. **Remedies for Breach of Pfizer Diligence Obligations**. If Pfizer materially breaches any Pfizer Diligence Obligation and fails to remedy such breach within [***] days of Pfizer's receipt of notice of such breach from BioNTech, then BioNTech may, in its sole discretion, elect to either: (a) terminate this Agreement pursuant to the provisions of Section 10.5, but only to the extent that a Product in a given Major Market Country in the Territory is directly and adversely impacted by such uncured material breach (and for the avoidance of doubt, the [***] day period set forth in this Section 6.2.6, shall be deemed the same [***] day cure period set out pursuant to Section 10.5); or (b) convert any exclusive license or sublicense granted to Pfizer under this Agreement with respect to a Product in a given Major Market Country in the Territory where such breach occurred and remains unremedied into a non-exclusive license or sublicense, as applicable, but only to the extent that such Product in such Major Market Country is directly and adversely impacted by such uncured material breach. BioNTech acknowledges and agrees that the elections set forth in this Section 6.2.6: (i) have been negotiated by the Parties to fully address any harm that BioNTech may incur as a result of Pfizer's material breach of the Pfizer Diligence Obligations and (ii) constitute BioNTech's sole and exclusive remedies with respect to any breach by Pfizer of any Pfizer Diligence Obligation.

6.2.7. **Performance by Pfizer's Affiliates or Sublicensees**. For avoidance of doubt, any actions taken by Pfizer's Affiliates or Sublicensees (or their respective subcontractors) under this Agreement shall be treated as actions taken by Pfizer in regard to satisfaction of the requirements of this Section 6.2.

6.3. Regulatory Matters.

6.3.1. Regulatory Reporting. Pfizer or its designated Affiliate(s) will have the sole authority to make or file all filings, reports and communications with all Regulatory Authorities with respect to any Candidate or Product in the Field in the Territory, including all reports required to be filed in order to obtain or maintain any Regulatory Approvals granted for Products in the Field in the Territory and adverse drug experience reports with the exception of the FIH Study, which will be managed and sponsored by BioNTech. Upon Pfizer's request, BioNTech will provide to Pfizer the data arising from the FIH Study, as well as any data or other information in BioNTech's possession or Control reasonably necessary or useful to support its filings, reports or communications with Regulatory Authorities and otherwise provide reasonable assistance to Pfizer in connection with any such filings, reports and communications with Regulatory Authorities.

6.3.2. **Regulatory Approvals**. Pfizer or its designated Affiliate(s) will have the sole authority to prepare and file applications, in its own name, for Regulatory Approval for Candidates or Products in the Field in the Territory, including communicating with any Regulatory Authority both prior to and following Regulatory Approval. BioNTech hereby assigns any and all INDs, Regulatory Approvals or any other rights or permissions granted by any Regulatory Authority to Pfizer, together with all other regulatory filings and development data, to the extent such assignment is permissible under applicable Law and requested by Pfizer. Further, BioNTech will take all actions and provide all assistance reasonably requested by Pfizer to effect the assignments in this Section 6.3.2.

6.3.3. **Cooperation**. If reasonably requested by Pfizer, BioNTech shall assist and cooperate with Pfizer in connection with the preparation of filings, reports and communications to Regulatory Authorities with respect to any Candidate or Product in the Field in the Territory, at Pfizer's sole expense. BioNTech will and will cause its Affiliates to cooperate with Pfizer and all Pfizer Representatives in the event of any inspection by a Regulatory Authority related to any Candidate or Product or any activities to be performed under this Agreement.

6.4. Commercialization Activities.

6.4.1. **General**. Subject to Section 6.2, Pfizer will have sole and exclusive control over all matters relating to the Commercialization of Products in the Field in the Territory, including sole and exclusive control over (a) pricing of Products and (b) the negotiation of Product pricing with Regulatory Authorities and other Third Parties, in each case in the Field in the Territory.

6.4.2. **Branding and Product Packaging**. Pfizer or its designated Affiliates or Sublicensees will select and own all Trademarks and Copyrights used in connection with the Commercialization of any and all Products in the Field in the Territory. Neither BioNTech nor its Affiliates will use or seek to register, anywhere in the world, any Trademark which is confusingly similar to any Trademark used by or on behalf of Pfizer, its Affiliates or Sublicensees in connection with any Product. [***].

6.5. Manufacturing. With respect to Candidates or Products to be Commercialized in the Field in the Territory and except to the extent BioNTech has Manufacturing obligations under the Research Plan or as described in Section 5, Pfizer will have the exclusive right to Manufacture such Candidates or Products itself or through one or more Affiliates or Third Parties selected by Pfizer in its sole discretion. For clarity, Pfizer will have no diligence obligations with respect to the Manufacture of Products except to the extent necessary to fulfill its obligations under Section 6.2.1 or Section 6.2.2.

6.6. Progress Reporting. After the first to occur of expiration of the Research Term or dissolution of the JSC and expiring on the First Commercial Sale of a Product, Pfizer will provide BioNTech with annual written reports summarizing Pfizer's activities to Develop and Commercialize Products in the preceding year. Any information or written report provided by Pfizer to BioNTech pursuant to this Section 6.6 will be deemed to be Pfizer's Confidential Information and subject to the provisions of Section 7.1.

6.7. Other Pfizer Programs**.** Subject to Pfizer's exclusivity obligations set forth in Section 2.10.3, BioNTech understands and acknowledges that Pfizer may have present or future initiatives or opportunities, including initiatives or opportunities with its Affiliates or Third Parties, involving products, programs, technologies or processes that are similar to, and in some instances may compete with, a Candidate or Product, program, technology or process covered by this Agreement. BioNTech acknowledges and agrees that nothing in this Agreement will be construed as a representation, warranty, covenant or inference that Pfizer will not itself Develop, Manufacture or Commercialize or enter into business relationships with one or more of its Affiliates or Third Parties to Develop, Manufacture or Commercialize products, programs, technologies or processes that are similar to or that may compete with any Candidate or Product, program, technology or process covered by this Agreement, *provided that*, for clarity, Pfizer will not use BioNTech's Confidential Information in breach of this Agreement.

7. INTELLECTUAL PROPERTY

7.1. Patent Committee. Within the first [***] months following the Effective Date, the Parties will establish a patent committee (the "Patent Committee"), comprised of at least one (1) representative of BioNTech and at least one (1) representative of Pfizer (which representative may be replaced by either Party at any time through written notice to the other Party). The Patent Committee shall coordinate all activities in relation to Patent Rights applicable to the terms of this Agreement. In particular, the Patent Committee shall:

7.1.1. coordinate all activities in relation to the filing and prosecution of Patent Rights relating to this Agreement pursuant to Sections 7.2.1 and 7.3.1 of this Agreement,

7.1.2. discuss any actual, potential or suspected infringement of such Patent Rights pursuant to Section 7.3.2(a),

7.1.3. regularly review which BioNTech Patent Rights may be relevant to Candidates and Products, and

7.1.4. regularly review and update the Core BioNTech Patent Rights listed in Schedule 9.3.4 on the basis of the then-existing Development or Commercialization activities and programs of BioNTech, its Affiliates and licensees outside the Field, and acting in good faith to add and remove BioNTech Patent Rights from time to time, provided that no Core BioNTech Patent Rights shall be removed from the list in Schedule 9.3.4 which BioNTech continues to regard in good faith as material for Development or Commercialization activities and programs of BioNTech, its Affiliates and licensees outside the Field.

The Patent Committee shall meet (either in-person or by audio or video conference) as often as determined by the Patent Committee as well as upon the reasonable request of either Party. It is acknowledged that particularly in the case of any Enforcement Action the Patent Committee may need to meet at very short notice and be required to expedite and make decisions very quickly and the Parties shall procure that the Patent Committee shall meet urgently as quickly as reasonably required in connection with any Enforcement Action. The Patent Committee will be chaired by a Pfizer Patent Committee member. The Patent Committee shall operate in good faith and acting reasonably. Sections 4.3.2(b) and 4.3.2(c), unless otherwise mutually agreed between the Parties, shall apply *mutatis mutandis*. The Patent Committee will use good faith efforts to reach agreement on all matters properly brought before it. If, despite such good faith efforts, the Patent Committee is unable to reach unanimous agreement on a particular matter, such matter shall be escalated in accordance with Section 4.3.2(e), and following the JSC's dissolution, such Section being interpreted omitting the reference to the JSC in such provision.

7.2. Ownership of Intellectual Property.

7.2.1. **Ownership of Research Program Technology.** Except for BioNTech Improvements and Pfizer Improvements, the ownership of Research Program Technology will be allocated based on inventorship as defined under the Laws of the United States. Notwithstanding the foregoing:

(a) During the Term, and without prejudice to Section 7.3 the Parties (through the Patent Committee) shall cooperate and discuss in good faith with respect to the timing, scope and filing of any Patent Rights claiming or disclosing any Research Program Technology; and

(b) Except as otherwise agreed in writing by the Parties, neither Party shall file any patent applications under the Product Patent Rights without Pfizer's prior consent.

7.2.2. **Ownership of Joint Technology.** Subject to Section 7.2.1 (and excluding Pfizer Improvements and BioNTech Improvements), the Parties will jointly own any Joint Technology. Subject to (a) the grant of licenses or sublicenses to Pfizer under Section 2.1, (b) BioNTech's representations, warranties and covenants under Section 9 and (c) the Parties' other rights and obligations under this Agreement (including Section 2.10.1), each Party will be free to exploit, either itself or through the grant of licenses to Third Parties (which Third Party licenses may be further sublicensed), Joint Technology throughout the world without restriction, without the need to obtain further consent from or provide notice to the other Party, and without any duty to account or otherwise make any payment of any compensation to the other Party.

7.2.3. **Ownership of BioNTech Improvements and Pfizer Improvements**. As between the Parties, BioNTech will own all BioNTech Improvements and Pfizer will own all Pfizer Improvements and RNA Improvements.

7.2.4. **Ownership of Other Intellectual Property**. Except as set forth in Sections 7.2.1, 7.2.2 and 7.2.3, each Party will own all right, title and interest in and to any and all

Know-How, Patent Rights or other Intellectual Property Rights that such Party owns as of the Effective Date or otherwise acquires during the Term. For the purposes of determining ownership under this Agreement, as applicable, inventorship will be determined in accordance with United States patent laws.

7.3. Patent Rights**.**

7.3.1. **Filing, Prosecution and Maintenance of Patent Rights.**

(a) *Prosecution by BioNTech*. BioNTech will have the first right, and a Commercially Reasonable Efforts obligation, to file, prosecute and maintain the BioNTech Patent Rights owned by BioNTech or its Affiliates and Patent Rights claiming BioNTech Improvements (together the "BioNTech Prosecution Patent Rights") at BioNTech's sole

expense using counsel of its own choice reasonably acceptable to Pfizer in Australia, Canada, the member states of the European Patent Convention, Japan, the United States, Brazil, Russia, India, China, Mexico and South Korea ("Key Patent Jurisdictions"). Upon request of Pfizer, BioNTech shall file one or more BioNTech Prosecution Patent Rights in one or more jurisdictions other than the Key Patent Jurisdictions ("Additional Patent Jurisdictions"), and BioNTech will have the first right, and a Commercially Reasonable Efforts obligation, to file, prosecute and maintain such BioNTech Prosecution Patent Rights in such Additional Patent Jurisdictions at Pfizer's sole expense (until such time as Pfizer elects not to maintain such Patent Rights in such Additional Patent Jurisdictions whereupon BioNTech can elect to abandon or surrender the same or to continue the prosecution and maintenance of such Patent Rights at its own expense) using counsel of its own choice reasonably acceptable to Pfizer. BioNTech will keep Pfizer advised on the status of the preparation, filing, prosecution, and maintenance of the Patent Rights included within BioNTech Prosecution Patent Rights in all the jurisdictions where filed. Further, in respect of any jurisdiction, BioNTech will (i) allow Pfizer a reasonable opportunity and reasonable time to review and provide comments to BioNTech's patent counsel regarding relevant substantive communications to BioNTech and drafts of any responses or other proposed substantive filings by BioNTech before any applicable filings are submitted to any relevant patent office (or Governmental Authority) with respect to any BioNTech Prosecution Patent Rights and (ii) reflect any reasonable and timely comments offered by Pfizer in any final filings submitted by BioNTech to any relevant patent office (or Governmental Authority) with respect to any BioNTech Prosecution Patent Rights. If BioNTech elects not to file a Patent Right included in the BioNTech Prosecution Patent Rights in any Key Patent Jurisdiction or Additional Patent Jurisdiction or elects to cease the prosecution or maintenance of one or more Patent Rights included in the BioNTech Prosecution Patent Rights in any Key Patent Jurisdiction or Additional Patent Jurisdiction and no Third Party has agreed to continue the prosecution or maintenance of such Patent Rights under agreements concluded before the Effective Date, BioNTech will provide Pfizer with written notice of its decision not to file, prosecute or maintain not less than 60 days before any action is required to avoid abandonment or lapse. In the event of any such notice, if Pfizer elects to file or continue such prosecution or maintenance in the name of BioNTech at Pfizer's sole expense, (x) Pfizer shall be entitled to do so and take all steps in such prosecution and maintenance at its sole discretion; (y) BioNTech will reasonably cooperate to promptly transfer the necessary files and execute the necessary forms regarding such transfer and (z) Pfizer will keep BioNTech advised on the status of such filing, prosecution and maintenance and will reasonably consider any comments made by BioNTech in connection therewith. If Pfizer elects not to file or continue such prosecution or maintenance, then BioNTech may immediately abandon, allow to lapse, or omit to prosecute such Patent Right, as the case may be. BioNTech will promptly, and no later than 60 days after written request by Pfizer, by written notice to Pfizer update Schedule 9.3.4 to identify all BioNTech Patent Rights to be added thereto.

(b) *Prosecution by Pfizer*.

(i) *BioNTech Owned Research Program Patent Rights*. Pfizer will have the first right, but not the obligation, to file, prosecute and maintain any Research Program Patent Rights (excluding Patent Rights claiming BioNTech Improvements) that are solely owned by BioNTech or its Affiliates (the

"BioNTech Owned Research Program Patent Rights") at Pfizer's sole expense using counsel of its own choice reasonably acceptable to BioNTech in the Key Patent Jurisdictions. Upon request of BioNTech, Pfizer shall file one or more BioNTech Owned Research Patent Rights in Additional Patent Jurisdictions, and Pfizer will have the first right, but not the obligation, to file, prosecute and maintain such BioNTech Owned Research Program Patent Rights in such Additional Patent Jurisdictions at BioNTech's sole expense (until such time as BioNTech elects not to maintain such Patent Rights in such Additional Patent Jurisdictions whereupon Pfizer can elect to abandon or surrender the same or to continue the prosecution and maintenance of such Patent Rights at its own expense) using counsel of its own choice reasonably acceptable to BioNTech. Pfizer will keep BioNTech advised on the status of the preparation, filing, prosecution, and maintenance of the Patent Rights included within BioNTech Owned Research Program Patent Rights in all the jurisdictions where filed. Further, in respect of any jurisdiction, Pfizer will (i) allow BioNTech a reasonable opportunity and reasonable time to review and provide comments to Pfizer's patent counsel regarding relevant substantive communications to Pfizer and drafts of any responses or other proposed substantive filings by Pfizer before any applicable filings are submitted to any relevant patent office (or Governmental Authority) with respect to any BioNTech Owned Research Program Patent Rights and (ii) reflect any reasonable and timely comments offered by BioNTech in any final filings submitted by Pfizer to any relevant patent office (or Governmental Authority) with respect to any BioNTech Owned Research Program Patent Rights. If Pfizer elects not to file a Patent Right included in the BioNTech Owned Research Program Patent Rights in any Key Patent Jurisdiction or Additional Patent Jurisdiction or elects to cease the prosecution or maintenance of one or more Patent Rights included in the BioNTech Owned Research Program Patent Rights in any Key Patent Jurisdiction or Additional Patent Jurisdiction, Pfizer will provide BioNTech with written notice of its decision not to file, prosecute or maintain not less than 60 days before any action is required to avoid abandonment or lapse. In the event of any such notice, if BioNTech elects to file or continue such prosecution or maintenance at BioNTech's sole expense, (x) BioNTech shall be entitled to do so and take all steps in such prosecution and maintenance at its sole discretion; (y) Pfizer will reasonably cooperate to promptly transfer the necessary files and execute the necessary forms regarding such transfer and (z) BioNTech will keep Pfizer advised on the status of such filing, prosecution and maintenance and will reasonably consider any comments made by Pfizer in connection therewith. If BioNTech elects not to file or continue such prosecution or maintenance, then Pfizer may immediately abandon, allow to lapse, or omit to prosecute such Patent Right, as the case may be.

(ii) *Other Patent Rights.* Except as provided in Sections 7.3.1(a), 7.3.1(b)(i) and 7.3.1(c), Pfizer will have the sole right, but not the obligation, to file, prosecute and maintain the Product Patent Rights, the Research Program Patent Rights, the Pfizer Patent Rights (including RNA Improvements) and Patent Rights that it owns or to which it otherwise has control of prosecution rights in its sole discretion. At BioNTech's reasonable request, Pfizer will provide to BioNTech status information for any Research Program Patent Right in any Key Patent Jurisdiction and will consider in good faith any recommendations made by BioNTech in regard to the filing, prosecution or maintenance of any such Patent Right.

(iii) *Reference of Research Program Know-how.* If Pfizer chooses to file, and thereafter prosecute and maintain, Patent Rights after the expiration of the Research Term, including any extension to the Research Term under Section 4.4, Pfizer may use or incorporate Research Program Know-How in the filing or prosecution of such Patent Rights filed after the Research Term, if Pfizer determines in its sole discretion that it is necessary or useful to use or incorporate such Research Program Know-How.

(c) *Joint Patent Rights*. In the event the Parties make any Joint Know-How, the Parties will promptly meet to discuss and determine, based on mutual consent, whether to seek patent protection thereon. Neither Party will file any Joint Patent Right without mutual consent. Unless otherwise agreed between the Parties, if the Parties decide to seek patent protection for any Joint Know-How: (i) BioNTech will have the first right, but not the obligation, to prepare, file, prosecute and maintain any Joint Patent Right predominantly relating to the RNA Technology or RNA Process Technology throughout the world, and (ii)Pfizer will have the first right, but not the obligation, to prepare, file, prosecute and maintain any other Joint Patent Right throughout the world, in each case of (i) and (ii) with the respective provisions of Section 7.3.1(a) or 7.3.1(b)(i) to apply *mutatis mutandis* except as provided in this Section 7.3.1(c). The non-filing Party will reimburse the filing Party for 50% of the costs reasonably incurred by the filing Party in preparing, filing, prosecuting and maintaining such Joint Patent Rights, which reimbursement will be made pursuant to, and within 75 days of, invoices (including supporting documentation) submitted by the filing Party to the non-filing Party no more often than once per Calendar Quarter. The non-prosecuting Party will cooperate with the prosecuting Party in taking reasonable measures to control costs and non-prosecuting Party shall be responsible for 100% of (x) any fees or costs related to any correspondence of outside counsel with or instructions to outside counsel by such Party (or any of such Party's Representatives) which is independent of joint prosecution efforts, or (y) any patent office fees, and associated counsel/agent fees and costs, for extensions which are not incurred at the request of, and not due to the actions of, the prosecuting Party. If, once the Parties have agreed to prepare and file an application of Joint Patent Rights, either Party (the "Declining Party") at any time thereafter declines to participate in the preparation, filing, prosecution or maintenance of any Joint Patent Right or share in the costs of filing, prosecuting and maintaining any Joint Patent Right, on a country-by-country basis, the Declining Party will provide the other Party (the "Continuing Party") with 30 days prior written notice to such effect, in which event, the Declining Party will (A) have no responsibility with respect to the filing, prosecution or maintenance of the applicable Joint Patent Right after the end of such 30 day period, (B) have no responsibility for any expenses incurred in connection with such Joint Patent Right after the end of such 30 day period and (C) if the Continuing Party elects to continue filing, prosecution or maintenance, the Declining Party, upon the Continuing Party's request, will execute such documents and perform such acts, at the Continuing Party's expense, as may be reasonably necessary (1) to assign to the Continuing Party all of the Declining Party's right, title and interest in and to such Joint Patent Right and (2) to permit the Continuing Party to file, prosecute and maintain such Joint Patent Right at its

sole expense. Where such Joint Patent Right is assigned to Pfizer as the Continuing Party, BioNTech will retain a non-exclusive, sublicensable, perpetual, irrevocable, royalty-free, fully paid-up worldwide right and license to practice and exploit such Patent Right for any and all purposes excluding, during the Term, in the Field in the Territory; and where such Joint Patent Right is assigned to BioNTech as the Continuing Party, it will be excluded from the definition of BioNTech Patent Rights, and Pfizer will retain a non-exclusive, sublicensable, perpetual, irrevocable, royalty-free, fully paid-up worldwide right and license to practice and exploit such Joint Patent Right for any and all purposes.

(d) *Prosecution by Third Party Licensors.* Except in the ordinary course of filing continuation applications, BioNTech shall not decline to pay for or participate in the filing, prosecution or maintenance of any Patent Right under any BioNTech Third Party Agreement in any Key Patent Jurisdiction (or other country to the extent doing so may result in BioNTech's loss of license to such Patent Right in such country), to the extent BioNTech is obligated to pay for, or has the right to participate in, such filing, prosecution or maintenance, that is included in the BioNTech Patent Rights and that, in Pfizer's reasonable opinion, covers any Candidate, Product [***] in the Field, and the loss of which would result in loss of right to or would materially diminish the overall protection of such Candidate or Product, without Pfizer's prior written consent, not to be unreasonably withheld or delayed.

(e) *Patent Term Restoration and Extension.* Upon the request of either Party, the Parties will (through the Patent Committee) reasonably discuss patent term extension and supplemental protection certificate strategies in relation to Patent Rights Covering Candidates or Products at any time. Notwithstanding the above, within the time period specified by applicable Law upon receiving Regulatory Approval for a Product in any country in the Territory, Pfizer will have the right, but not the obligation, exercisable through written notice to BioNTech, to seek, in BioNTech's name, if so required, patent term extensions, and supplemental protection certificates and the like available under Law, including 35 U.S.C. § 156 and applicable foreign counterparts (the "Patent Term Extension"), in such country in the Territory in relation to (i) any Research Program Patent Right other than Patent Rights claiming BioNTech Improvements and (ii) any BioNTech Prosecution Patent Right which is still eligible for Patent Term Extension at that time under the applicable Law in such country, in each case of (i) and (ii) that Cover such Product. If Pfizer exercises such right, BioNTech and Pfizer will cooperate in connection with all such activities at Pfizer's expense. Pfizer, its agents and attorneys will give due consideration to all suggestions and comments of BioNTech regarding any such activities, but, in the event of a disagreement between the Parties in relation to a Patent Term Extension for a BioNTech Prosecution Patent Right or Research Program Patent Right, Pfizer will have the final decision-making authority. For the avoidance of doubt, nothing in this Section 7.3.1(e) shall prevent BioNTech from seeking, or allowing any other collaboration partner of BioNTech to seek, any Patent Term Extension in relation to any BioNTech Prosecution Patent Right prior to Pfizer exercising its rights under this Section 7.3.1(e). Notwithstanding the foregoing, BioNTech shall not seek any Patent Term Extension in relation to any Patent Right with respect to any Product or Candidate without Pfizer's prior written consent.

(f) *Clarifications.* For clarity, prosecution under this Section 7.3.1 includes opposition, revocation and post-grant review proceedings before the granting patent office or other patent office proceedings ("Prosecution Proceeding"). If such Prosecution Proceedings are concurrent with Third Party litigation under Section 7.3.2 and are applicable to or part of a coordinated enforcement of such rights, the prosecuting Party and the enforcing Party shall work together and closely align their prosecution and enforcement strategy in accordance with Section 7.3.3 (including the right for one Party to have final control as stipulated in Section 7.3.3).

(g) *Liability.* To the extent that a Party is obtaining, prosecuting or maintaining a Patent Right or otherwise exercising its rights under this Section 7.3.1, such Party, and its Affiliates, employees, agents or representatives, will not be liable to the other Party in respect of any act, omission, default or neglect on the part of any such Party, or its Affiliates, employees, agents or representatives, in connection with such activities undertaken in good faith.

(h) *Recording*. If either Party deems it necessary or useful to register or record this Agreement or evidence of this Agreement with any patent office or other appropriate Governmental Authority(ies) in one or more jurisdictions in the Territory, the other Party will reasonably cooperate to execute and deliver to such Party any documents accurately reflecting or evidencing this Agreement that are necessary or useful, in such Party's reasonable judgment, to complete such registration or recordation.

(i) *Joint Research Agreement.* This Agreement shall be understood to be a joint research agreement under 35 U.S.C. § 103(c)(3) for pre-AIA Patent Rights and 35 U.S.C. § 100(h) for post-AIA Patent Rights entered into for the purpose of researching, identifying and Developing Candidates and Products.

7.3.2. **Enforcement of Patent Rights.**

(a) *Notification of Infringement and Decision about Enforcement Actions*. Each Party will promptly notify the other (through the Patent Committee) in the event of any actual, potential or suspected infringement of a patent under the BioNTech Patent Rights or Research Program Patent Rights by any Third Party. In the event of any such notification, the Parties will (through the Patent Committee) discuss in good faith the relevant actual, potential and suspected infringement and the risks and chances of success as well as chances of settlement connected with the institution of any litigation or other step to remedy infringement (any such steps, or threat of or assertion or enforcement of a Patent Right being an "Enforcement Action") taking into account the possible uses of the relevant Patent Rights by each Party, its respective Affiliates or its or their licensees and the revenues relating to or impacted by such Patent Rights, with the goal to agree on whether or not any Enforcement Action should be taken and, if yes, to closely coordinate so far as reasonably possible their respective efforts and strategies. The Parties acknowledge that time shall be of the essence in connection with any Enforcement Action and each shall move urgently and expeditiously to discuss and seek agreement on any actual or proposed Enforcement Action.

(b) *Enforcement of Core BioNTech Patent Rights*. Subject to Section 7.3.2(a), and unless otherwise agreed between the Parties on a case-by-case basis, as between Pfizer and BioNTech, BioNTech shall have the first right, but not the obligation, to institute any Enforcement Action in connection with the Core BioNTech Patent Rights in the Field, and any such Enforcement Action will be at BioNTech's expense including BioNTech indemnifying and holding harmless Pfizer and its Affiliates from and against any adverse cost award, where Pfizer or its Affiliates join any such Enforcement Action upon BioNTech's request or where required by Law. BioNTech will not, without the prior written consent of Pfizer, enter into any compromise or settlement relating to such litigation that (i) admits the invalidity or unenforceability of any Core BioNTech Patent Right or (ii) requires BioNTech to abandon any Core BioNTech Patent Right. Pfizer, upon request of BioNTech, agrees to timely commence or to join in any such Enforcement Action, at BioNTech's expense, and in any event to cooperate with BioNTech in such Enforcement Action at BioNTech's expense. Pfizer will have the right to consult with, and provide comments to, BioNTech about such Enforcement Action and to participate in and be represented by independent counsel in such Enforcement Action at Pfizer's own expense, and BioNTech shall take into account any reasonable comments provided by Pfizer in such Enforcement Action. Neither Party will incur any liability to the other Party (other than that related to a Party's indemnification obligation pursuant to Section 11) as a consequence of any Enforcement Action initiated or pursued pursuant to this Section 7.3.2(b)or any unfavorable decision resulting therefrom, including any decision holding any Core BioNTech Patent Right invalid or unenforceable. Any infringement recoveries resulting from such litigation or steps relating to a claim of Third Party infringement, after deducting BioNTech's out of pocket expenses (including counsel fees and expenses including any adverse cost award) in pursuing such claim, will be for Pfizer's sole account and be deemed Net Sales on which Pfizer will pay royalties.

In respect of an infringement of a BioNTech Core Patent Right in the Field in connection with a Competitive Product in a Major Market Country ("Competitive Product Infringement"), if, following (i) discussion of any potential Enforcement Action pursuant to Section 7.3.2(a) and (ii) a subsequent written request by Pfizer to initiate any Enforcement Action in connection with such Competitive Product Infringement, BioNTech does not initiate any Enforcement Action in connection with such Competitive Product Infringement within thirty (30) days following receipt of such notices, or as soon as possible and in any event no later than ten (10) Business Days if preliminary injunction proceedings are a potential or likely recourse to remedy the infringement), or ten (10) days before the time limit, if any, set forth in the applicable Laws for the filing of such actions, Pfizer shall have the right, but not the obligation, in place of BioNTech to institute any Enforcement Action in connection with such Competitive Product Infringement (including Enforcement Actions in countries in which the Manufacturing of the Competitive Product (or part thereof) reasonably believed to be designated for Major Market Countries takes place as well as Enforcement Actions in Belgium, Ireland or the Netherlands that are in parallel with Enforcement Actions in any of the Major EU Market Countries), and any such Enforcement Action will be at Pfizer's expense and the provisions set forth in the first paragraph of this Section 7.3.2(b) shall apply mutatis mutandis, *provided that* any infringement recoveries resulting from such litigation or steps relating to a claim of Third Party infringement, after deducting Pfizer's out of pocket expenses (including counsel fees and expenses including any adverse cost award) in pursuing such claim, shall be for Pfizer's sole account and be deemed Net Sales on which Pfizer will pay royalties.

(c) *Pfizer Enforcement in the Field*. Subject to Section 7.3.2(a) and unless otherwise agreed between the Parties on a case-by-case basis, as between Pfizer and BioNTech, Pfizer shall have the sole right, but not the obligation, to institute any Enforcement Action in the Territory in connection with any BioNTech Patent Right (other than Core BioNTech Patent Rights or those solely owned by Third Parties and licensed pursuant to a Current Licence to the extent BioNTech has no enforcement rights in the Field in respect of the same) or Research Program Patent Rights in the Field, and any such Enforcement Action will be at Pfizer's expense including Pfizer indemnifying and holding harmless BioNTech and its Affiliates from and against any adverse cost award, where BioNTech or its Affiliates join any such Enforcement Action upon Pfizer's request or where required by Law, subject to BioNTech's obligation to indemnify Pfizer for such expenses pursuant to Section 11; *provided that* any infringement recoveries resulting from such litigation or steps relating to a claim of Third Party infringement, after deducting Pfizer's out of pocket expenses (including counsel fees and expenses including any adverse cost award) in pursuing such claim, will be deemed Net Sales. Pfizer will not, without the prior written consent of BioNTech, enter into any compromise or settlement relating to such Enforcement Action that (i) admits the invalidity or unenforceability of any BioNTech Patent Right or Research Program Patent Right or (ii) requires Pfizer or BioNTech to abandon any BioNTech Patent Right or Research Program Patent Right. BioNTech, upon request of Pfizer, agrees to timely commence or to join in any such Enforcement Action, at Pfizer's expense, and in any event to cooperate with Pfizer in such Enforcement Action at Pfizer's expense. BioNTech will have the right to consult with, and provide comments to, Pfizer about such Enforcement Action and to participate in and be represented by independent counsel in such Enforcement Action at BioNTech's own expense, and Pfizer shall take into account any reasonable comments provided by BioNTech in such Enforcement Action. Neither Party will incur any liability to the other Party (other than that related to a Party's indemnification obligation pursuant to Section 11 or otherwise in this sub-section) as a consequence of any Enforcement Action initiated or pursued pursuant to this Section 7.3.2(c) or any unfavorable decision resulting therefrom, including any decision holding any Patent Right invalid or unenforceable.

(d) *BioNTech Enforcement outside the Field*. Subject to Section 7.3.2(b) and 7.3.2(c)and unless otherwise agreed between the Parties on a case-by-case basis, as between Pfizer and BioNTech, BioNTech shall have the sole right, but not the obligation, to institute any Enforcement Action in the Territory in connection with any BioNTech Patent Right or Research Program Patent Right (excluding the Product Patent Rights) solely or jointly owned by BioNTech outside the Field, and any such Enforcement Action will be at BioNTech's expense including BioNTech indemnifying and holding harmless Pfizer and its Affiliates from and against any adverse cost award, where Pfizer or its Affiliates join any such Enforcement Action upon BioNTech's request or where required by Law. BioNTech will not, without the prior written consent of Pfizer, enter into any compromise or settlement relating to such Enforcement Action that (i) admits the invalidity or unenforceability of any BioNTech Patent Right or Research Program Patent Right solely or jointly owned by BioNTech or (ii) requires BioNTech to abandon any BioNTech Patent Right or Research Program Patent Right solely or jointly owned by BioNTech. Pfizer, upon

request of BioNTech, agrees to timely commence or to join in any such Enforcement Action, at BioNTech's expense, and in any event to cooperate with BioNTech in such Enforcement Action at BioNTech's expense. Pfizer will have the right to consult with, and provide comments to, BioNTech about such Enforcement Action and to participate in and be represented by independent counsel in such Enforcement Action at Pfizer's own expense, and BioNTech shall take into account any reasonable comments provided by Pfizer in such Enforcement Action. Neither Party will incur any liability to the other Party (other than that related to a Party's indemnification obligation pursuant to Section 11 or otherwise in this sub-section) as a consequence of any Enforcement Action initiated or pursued pursuant to this Section 7.3.2(d) or any unfavorable decision resulting therefrom, including any decision holding any BioNTech Patent Right or Research Program Patent Right invalid or unenforceable.

(e) *Pfizer Patent Rights*. Subject to Sections 7.3.2(b) and 7.3.2(c), Pfizer shall have the sole right, but no obligation, to institute litigation or take other steps to remedy infringement in connection with in any field in respect of any Patent Rights that it solely owns including any Pfizer Patent Right. In the event that any such Patent Rights are based on inventions made or created solely or jointly by BioNTech, its Affiliates or its Representatives acting on BioNTech's behalf, BioNTech shall provide reasonable assistance to Pfizer at Pfizer's expense in connection with such litigation.

(f) *Biosimilar Notices*.

(i) *BioNTech Cooperation*. Upon Pfizer's request, BioNTech will use Commercially Reasonable Efforts to assist and cooperate with Pfizer in (A) establishing a strategy for responding to requests for information from Regulatory Authorities and Third Party requestors and (B) preparing submissions responsive to any Biosimilar Notices received by Pfizer; *provided* that Pfizer will make the final decisions with respect to such strategy and any such responses.

(ii) *Compliance with Biosimilar Notices*. Pfizer will have the sole right in its discretion to comply with the applicable provisions of 42 U.S.C. § 262(l) (or any amendment or successor statute thereto), any similar statutory or regulatory requirement enacted in the future regarding biologic products in the United States, or any similar statutory or regulatory requirement in any non-U.S. country or other regulatory jurisdiction, in each case, with respect to any Biosimilar Notice received by Pfizer from any Third Party regarding any Product that is being Commercialized in the Field in the applicable jurisdiction, and the exchange of information between any Third Party and Pfizer pursuant to such requirements; *provided that*, prior to any submission of information by Pfizer to a Third Party, BioNTech will have the right to review the patent information included in such proposed submission, solely with respect to BioNTech Patent Rights, and to make suggestions as to any changes to such patent information that BioNTech reasonably believes to be necessary; *provided further* that Pfizer will determine the final content of any such submission. In the case of a Product approved in the United States under the PHS Act (or, in the case of a country in the Territory other than the United States, any similar Law), to the extent permitted by applicable Law, Pfizer, as the sponsor of the application for the Product, will be the "reference

product sponsor" under the PHS Act. Pfizer will give written notice to BioNTech of receipt of a Biosimilar Notice received by Pfizer with respect to a Product, and Pfizer will consult with BioNTech with respect to the selection of any BioNTech Patent Rights to be submitted pursuant to 42 U.S.C. § 262(l) (or any similar law in any country of the Territory outside the United States); *provided* that Pfizer will have final say on such selection of BioNTech Patent Rights. BioNTech agrees to be bound and will cause its Affiliates and use Commercially Reasonable Efforts to cause all Third Party Licensors to be bound by the confidentiality provisions of 42 U.S.C. § 262(l)(1)(B)(iii). In connection with any action brought by Pfizer under this Section 7.3.2(f), BioNTech, upon Pfizer's request, will reasonably cooperate and will cause its Affiliates and use Commercially Reasonable Efforts to cause all Third Party Licensors to reasonably cooperate with Pfizer in any such action, including timely commencing or joining in any action brought by Pfizer under this Section 7.3.2(f). Solely to the extent any BioNTech Patent Rights are involved in any such action, the Parties' rights and responsibilities regarding any action will be determined in accordance with this Section 7.3.2(f).

(g) *Unified Patent Court*. In respect of BioNTech Patent Rights, Research Program Patent Rights, Product Patent Rights and Pfizer Patent Rights, for each and every such Patent Right having effect anywhere within any member state that was or is, from time to time, a signatory to the UPC Agreement, the Party in control of the filing, prosecution and maintenance of such Patent Right (as determined in accordance with Section 7.3.1) shall have the sole discretion to decide whether to (i) opt in or opt out (and to opt in again), pursuant to Article 83 of the UPC Agreement, of the Unified Patent Court system; and (ii) elect if such Patent Rights should, during their prosecution, be designated as a Unitary Patent or a European Patent. The other Party shall promptly do all things necessary and execute all documents and make all necessary elections required to give effect to such decision(s) or election(s).

(h) Settlement Cross-Licensing. If pursuant to a bona fide settlement of any Enforcement Action or Infringement Claim controlled by Pfizer, Pfizer grants to a Third Party (that was a party to the Enforcement Action or Infringement Claim) any sublicense to any of the Patent Rights licensed to Pfizer under this Agreement in respect of that Third Party's Competitive Product, then Pfizer shall pay to BioNTech (i) at a minimum, if such sublicense includes any of the rights granted to Pfizer under a Current License or Future BioNTech Third Party Agreement (subject to Sections 2.1, 2.2, 2. 9), all royalties due by BioNTech to the relevant Third Party for such sublicense under any Current License and Future BioNTech Third Party Agreement in respect of licensed sales of such Competitive Product and (ii) all other royalties received by Pfizer shall be deemed Net Sales pursuant to Section 7.3.2(c) provided that in no event shall such payment obligations exceed the maximum royalty that would be due had such Third Party become a Sublicensee. For the avoidance of doubt, should the Third Party as part of the same agreement grant any cross-license to Pfizer for any Candidates or Products, such cross-license shall not be deemed "non-cash" consideration for the purpose of the Net Sales definition.

7.3.3. **Other Actions by Third Parties**. Separate from Prosecution Proceedings, each Party will promptly notify the other Party in the event of any legal action by any Third Party involving any BioNTech Patent Right or Research Program Patent Right of which it becomes aware, including any nullity, revocation, declaratory judgment, interference, *inter partes* reexamination, reexamination or compulsory license proceeding. The right to defend against any such action shall be with the Party controlling the filing, prosecution and maintenance of the affected Patent Right (as determined in accordance with Section 7.3.1), and the provisions of Section 7.3.1 shall apply *mutatis mutandis* in respect of such defense. If any such action has been instituted by any Third Party in response to, or in connection with, any Enforcement Action pursuant to Section 7.3.2, or any Enforcement Action is to be pursued as a consequence of such action being instituted by any Third Party, the Party controlling the Enforcement Action and the Party controlling the defense shall work together and closely align their enforcement and defense strategy, which may include the (joint) appointment of the same patent counsel for all concurrent Third Party litigation and patent office proceedings taking into account the impact on enforcement and potential for revenues relating to such Patent Rights, and in the absence of agreement, the enforcing Party shall have the final say over the Prosecution Proceedings in so far as the Prosecution Proceeding will adversely impact the ongoing enforcement of such right, subject to having given good faith consideration to the comments and suggestions of the prosecuting Party. Further details of such joint proceeding may be agreed between the Parties from time to time.

7.3.4. **Purple Book Listings**. To the extent of any BioNTech Patent Rights Covering a Product, the Parties shall cooperate with each other to enable Pfizer to make filings with Regulatory Authorities, as required or allowed in connection with (i) in the United States, the FDA's Purple Book and the Biologics Price Competition and Innovation Act and (ii) outside the United States, under the national implementations of Article 10.1(a)(iii) of Directive 2001/EC/83 or other international equivalents thereof. Pfizer shall consider BioNTech's reasonable requests in connection therewith, including meeting any submission deadlines, in each case, to the extent required or permitted by applicable Law.

7.3.5. **Allegations of Infringement and Right to Seek Third Party Licenses**.

(a) *Notice*. If either Party becomes aware that the Development, Manufacture, Commercialization or use of any Candidate or Product, the practice of any BioNTech Technology or Research Program Technology in the Field, or the exercise of any other right granted by BioNTech to Pfizer or any of its Affiliates or Sublicensees hereunder (collectively, the "Licensed Activities") is alleged by a Third Party to infringe, misappropriate or otherwise violate such Third Party's Patent Rights or other Intellectual Property Rights or either Party otherwise identifies any Third Party Patent Rights or other Intellectual Property Rights that may be relevant to such Licensed Activities, such Party will, as soon as reasonably practicable, notify the other Party in writing.

(b) *Pfizer Option to Negotiate*. If Pfizer determines, in its sole discretion, that, in order for Pfizer, its Affiliates or Sublicensees to engage in the Licensed Activities, it is necessary or useful to obtain a license under one or more Patent Rights or other Intellectual Property Rights Controlled by a Third Party (collectively, "Third Party IP Rights"), then Pfizer will have the sole right, but not the obligation, to negotiate and enter into a license or other agreement with such Third Party. The amounts payable under any such license or agreement with a Third Party will reduce Pfizer's royalty obligations under this Agreement as and to the extent provided in Section 3.5.3(a) or as otherwise agreed between the Parties.

7.3.6. **Third Party Infringement Suits**. Each of the Parties will promptly notify the other in the event that any Third Party files any suit or brings any other action alleging patent infringement by Pfizer or BioNTech or any of their respective Affiliates or Sublicensees with respect to the Development, Manufacture, Commercialization or use of any Candidate or Product or the practice of any BioNTech Technology or Research Program Technology (any such suit or other action referred to herein as an "Infringement Claim"). In the case of any Infringement Claim against Pfizer (including its Affiliates or Sublicensees) alone or against both Pfizer and BioNTech (including its Affiliates), Pfizer will have the right, but not the obligation, to control the defense of such Infringement Claim, including control over any related litigation, settlement, appeal or other disposition arising in connection therewith. BioNTech, upon request of Pfizer, agrees to cooperate with Pfizer at Pfizer's expense. BioNTech will have the right to consult with Pfizer concerning any Infringement Claim and to participate in and be represented by independent counsel in any associated litigation in which BioNTech is a party at BioNTech's own expense. If Pfizer elects to control the defense of any Infringement Claim and BioNTech is obligated under Section 11.3 to indemnify Pfizer (including any Pfizer Indemnified Party) with respect to such Infringement Claim, then (a) Pfizer will bear 50% of its own attorneys' fees incurred in investigating, preparing or defending such Infringement Claim notwithstanding the provisions of Section 11.3 and (b) BioNTech will otherwise indemnify Pfizer and any applicable Pfizer Indemnified Parties to the full extent provided for under Section 11.3. In the case of any Infringement Claim against BioNTech alone, Pfizer will have the right to consult with BioNTech concerning such Infringement Claim and Pfizer, upon request of BioNTech, will reasonably cooperate with BioNTech at BioNTech's expense. Neither Party will enter into any compromise or settlement in respect of an Infringement Claim admitting or implying that the Development, Manufacture, Commercialization or use of any Candidate or Product or the practice of any BioNTech Technology or Research Program Technology infringes Third Party patents without the other Party's written consent.

7.4. Enforcement of

Know-How.

7.4.1. **Notification of Misappropriation**. Each Party will promptly notify the other in the event of any actual, potential or suspected misappropriation of any BioNTech

Know-How or Research Program Know-How in the Territory by any Third Party.

7.4.2. **Pfizer Enforcement in the Field**. As between Pfizer and BioNTech, Pfizer will have the sole right, but not the obligation, to institute litigation or take other steps to remedy misappropriation in the Territory in connection with any BioNTech

Know-How (excluding BioNTech Know-How solely owned by Third Parties the subject of a Current Licence in so far as BioNTech has no enforcement rights in respect of the same) or Research Program Know-How in the Field, and any such litigation or steps will be at Pfizer's expense including Pfizer indemnifying and holding harmless BioNTech and its Affiliates from and against any adverse cost award, where BioNTech or its Affiliates join any such Enforcement Action upon Pfizer's request or where required by Law, subject to BioNTech's obligation to indemnify Pfizer for such expenses pursuant to Section 11; *provided that* any infringement recoveries resulting from such litigation or steps relating to a claim of Third Party misappropriation, after deducting Pfizer's out of pocket expenses (including counsel fees and expenses including any adverse cost award) in pursuing such claim, will be deemed Net Sales. BioNTech will have no obligation to cooperate with Pfizer in any such litigation except as set forth in this Section 7.4.2. Pfizer will not, without the prior written consent of BioNTech, enter into any compromise or settlement relating to such litigation or steps that (a) admits that all or any portion of the BioNTech Know-How or Research Program Know-how is not

protectable under relevant trade secret or confidentiality Laws or (b) requires Pfizer to abandon trade secret protection for any BioNTech Know-How or Research Program Know-how. In order to establish standing, BioNTech, upon request of Pfizer, agrees to timely commence or to join in any such litigation or steps, at Pfizer's expense, and in any event to cooperate with Pfizer in such litigation or steps at Pfizer's expense. BioNTech will have the right to consult with Pfizer about such litigation or steps and to participate in and be represented by independent counsel in such litigation or steps at BioNTech's own expense, and Pfizer shall take into account any reasonable comments provided by BioNTech in such litigation or steps.

7.4.3. **BioNTech Enforcement**. As between Pfizer and BioNTech, BioNTech will have the sole right, but not the obligation, to institute litigation or take other steps to remedy misappropriation in connection with any BioNTech Know-How or Research Program Know-how solely owned by BioNTech outside the Field, provided that any such Know-how does not lose its confidential status as part of or in consequence of any such litigation or steps, and any such litigation or steps will be at BioNTech's expense including BioNTech indemnifying and holding harmless Pfizer and its Affiliates from and against any adverse cost award, where Pfizer or its Affiliates join any such Enforcement Action upon BioNTech's request or where required by Law, and Pfizer will have no obligation to cooperate with BioNTech in any such litigation except as set forth in this Section 7.4.3. BioNTech will not, without the prior written consent of Pfizer, enter into any compromise or settlement relating to such litigation or steps that (a) admits that all or any portion of the BioNTech Know-How or Research Program Know-how is not protectable under relevant trade secret or confidentiality Laws or (b) requires BioNTech to abandon trade secret protection for any BioNTech Know-How or Research Program Know-How. In order to establish standing, Pfizer, upon request of BioNTech, agrees to timely commence or to join in any such litigation or steps at BioNTech's expense, and in any event to cooperate with BioNTech in such litigation or steps at BioNTech's expense. Pfizer will have the right to consult with BioNTech about such litigation or steps and to participate in and be represented by independent counsel in such litigation or steps at Pfizer's own expense, and BioNTech shall take into account any reasonable comments provided by Pfizer in such litigation or steps.

7.4.4. **Pfizer Know-How**. Subject to Section 7.4.2, Pfizer will have the sole right, but no obligation, to institute litigation or take other steps to remedy misappropriation in connection with any Know-How that it solely owns including any Pfizer Know-How.

8. CONFIDENTIALITY

8.1. Confidentiality**.** Except to the extent expressly authorized by this Agreement, the Parties agree that, during the Term and for [***] years thereafter (except to the extent a longer period is required by a Current License applicable for such Confidential Information disclosed pursuant to that Current License), each Party (the "Receiving Party") receiving any Confidential Information of the other Party (the "Disclosing Party") hereunder will: (a) keep the Disclosing Party's Confidential Information confidential; (b) not disclose, or permit the disclosure of, the Disclosing Party's Confidential Information; and (c) not use, or permit to be used, the Disclosing Party's Confidential Information for any purpose other than as expressly permitted under the terms of this Agreement (including under any license or right of use granted hereunder).

8.2. Authorized Disclosure**.**

8.2.1. **Disclosure to Party Representatives**. Notwithstanding the foregoing provisions of Section 8.1, the Receiving Party may disclose Confidential Information belonging to the Disclosing Party to the Receiving Party's Representatives who (a) have a need to know such Confidential Information in connection with the performance of the Receiving Party's obligations or the exercise of the Receiving Party's rights under this Agreement and (b) have agreed in writing to non-disclosure and non-use provisions with respect to such Confidential Information that are at least as restrictive as those set forth in this Section 8.

8.2.2. **Disclosure to Third Parties**. Notwithstanding the foregoing provisions of Section 8.1, each Party may disclose Confidential Information belonging to the other Party to the extent such disclosure is reasonably necessary:

(a) to Governmental Authorities (i), to the extent useful, to obtain or maintain INDs or Regulatory Approvals, in the case of Pfizer or its Affiliates, or any Regulatory Approvals related to the FIH Study, in the case of BioNTech or its Affiliates, for any Candidate or Product within the Territory, and (ii) in order to respond to inquiries, requests or investigations relating to Candidates or Products or this Agreement;

(b) to outside consultants (including any professional advisor), potential acquisition partners (including any potential successors in interest), private investors or financing sources, contractors, advisory boards, managed care organizations, and non-clinical and clinical investigators, in each case to the extent useful to develop, register or market any Candidate or Product; provided that the Receiving Party will obtain the same confidentiality obligations from such Third Parties as it obtains with respect to its own similar types of confidential information;

(c) in connection with filing or prosecuting Research Program Patent Rights or Trademark rights as permitted by this Agreement;

(d) in connection with any prosecution or litigation actions or defenses undertaken pursuant to Section 7 or any other litigation directly related to a Candidate or Product in the Field;

(e) subject to the provisions of Section 8.5.2, in connection with or included in scientific presentations and publications relating to Candidates or Products, including abstracts, posters, journal articles and the like, and posting results of and other information about clinical trials to clinicaltrials.gov or PhRMA websites;

(f) subject to the obligations in Section 2. 10. 3, by Pfizer in respect of Confidential Information belonging to BioNTech (including the terms of the Agreement) to any bona fide or potential sublicensee or manufacturer in respect of any Candidate or Product, or any co-development or co-promotion partner in the Field , in each case who has agreed in writing to non-disclosure and non-use provisions with respect to such Confidential Information that are at least as restrictive as those set forth in this Section 7.1; and

(g) to the extent necessary or useful in order to enforce its rights under this Agreement.

If a Party deems it reasonably necessary to disclose Confidential Information belonging to the other Party pursuant to clause (a) or any of clauses (c) through (e) of this Section 8.2.2, then the disclosing Party will to the extent possible give reasonable advance written notice of such disclosure to the other Party and take such measures to ensure confidential treatment of such information as is reasonably required by the other Party, at the other Party's expense.

8.3. SEC Filings and Other Disclosures**.** Either Party may disclose the terms of this Agreement and make any other public written disclosure regarding the existence of, or performance under, this Agreement, to the extent required, in the reasonable opinion of such Party's legal counsel, to comply with (a) applicable Law, including the rules and regulations promulgated by the United States Securities and Exchange Commission or (b) any equivalent Governmental Authority, securities exchange or securities regulator in any country in the Territory. Before disclosing this Agreement or any of the terms hereof pursuant to this Section 8.3, the Parties will consult with one another on the terms of this Agreement to be redacted in making any such disclosure, with the Party disclosing pursuant to this Section 8.3 providing as much advance notice as is feasible under the circumstances, and giving consideration to the comments of the other Party. Further, if a Party discloses this Agreement or any of the terms hereof in accordance with this Section 8.3, such Party will, at its own expense, seek such confidential treatment of confidential portions of this Agreement and such other terms, as may be reasonably requested by the other Party and limit its disclosure of such Confidential Information to only that required to comply with applicable Law.

8.4. Residual Knowledge Exception**.** Notwithstanding any provision of this Agreement to the contrary, Residual Knowledge will not be considered Confidential Information for purposes of this Section 8; provided that, for clarity, a Party's rights to Residual Knowledge hereunder shall not include the right to practice any Patent Right owned or Controlled by the other Party that claims such Residual Knowledge unless otherwise expressly granted in another provision of this Agreement or in another agreement between the Parties.

8.5. Public Announcements; Publications**.**

8.5.1. **Announcements**. Except as may be expressly permitted under Section 8.3, neither Party will make any public announcement regarding this Agreement without the prior written approval of the other Party. For the sake of clarity, nothing in this Agreement will prevent Pfizer from making any scientific publication or public announcement with respect to any Candidate or Product under this Agreement; *provided, however*, that, except as permitted under Section 8.2, Pfizer will not disclose any of BioNTech's Confidential Information in any such publication or announcement without obtaining BioNTech's prior written consent to do so. The Parties agree that the Parties will issue a mutually agreed upon joint press release regarding the signing of this Agreement following the Effective Date, but in any event no later than ten (10) days after HSR clearance or September 5, 2018 (whichever is later).

8.5.2. **BioNTech Publications**. During the Term, BioNTech will submit to Pfizer for review and approval any proposed academic, scientific and medical publication or public presentation which contains Confidential Information of Pfizer or its Representatives. In addition, BioNTech will submit to Pfizer for review and approval any proposed publication or public presentation proposed by BioNTech or its Affiliates or any of their respective Representatives that relates to the activities conducted under this Agreement, including the Research Plan, or otherwise relating to the BioNTech Technology, the Research Program Technology, the Pfizer Technology or any Candidate or Product in the Field. In both instances, such review and approval will be

conducted for the purposes of preserving the value of the BioNTech Technology, the Research Program Technology and the Pfizer Technology and the rights granted or to be granted to Pfizer hereunder and determining whether any portion of the proposed publication or presentation containing Pfizer's Confidential Information should be modified or deleted. Written copies of such proposed publication or presentation required to be submitted hereunder will be submitted to Pfizer no later than [***] days before submission for publication or presentation (the "Pfizer Review Period"). Pfizer will provide its comments with respect to such publications and presentations within [***] days of its receipt of such written copy. The Pfizer Review Period may be extended for an additional [***] days in the event Pfizer can, within ten days of receipt of the written copy, demonstrate reasonable need for such extension including for the preparation and filing of patent applications. BioNTech will comply with standard academic practice regarding authorship of scientific publications and recognition of contribution of other parties in any publication governed by this Section 8.5.2, including International Committee of Medical Journal Editors standards regarding authorship and contributions.

8.5.3. **Pfizer Publications**. During the Research Term, Pfizer will submit to BioNTech for review and approval any proposed academic, scientific and medical publication or public presentation which contains Confidential Information of BioNTech or its Representatives. Such review and approval will be conducted for the purposes of determining whether any portion of the proposed publication or presentation containing Confidential Information of BioNTech or its Representatives should be modified or deleted. Written copies of such proposed publication or presentation required to be submitted hereunder will be submitted to BioNTech no later than [***] days before submission for publication or presentation (the "BioNTech Review Period"). BioNTech will provide its comments with respect to such publications and presentations within [***] days of its receipt of such written copy. The BioNTech Review Period may be extended for an additional [***] days in the event BioNTech can, within ten days of receipt of the written copy, demonstrate reasonable need for such extension including for the preparation and filing of patent applications. Pfizer will comply with standard academic practice regarding authorship of scientific publications and recognition of contribution of other parties in any publication governed by this Section 8.5.3, including International Committee of Medical Journal Editors standards regarding authorship and contributions.

8.6. Obligations in Connection with Change of Control. If a Party is subject to a Change of Control ("Change of Control Party"), such Change of Control Party will, and it will cause its Representatives to, ensure that no Confidential Information of the other Party is released to (a) any Affiliate of the Change of Control Party that becomes an Affiliate of the Change of Control Party as a result of the Change of Control or (b) any other Representatives of the Change of Control Party (or of the relevant surviving entity of such Change of Control) who become Representatives of the Change of Control Party as a result of the Change of Control, unless such Affiliate or other Representatives, as applicable, have signed individual confidentiality agreements which include equivalent obligations to those set out in this Section 8. Upon occurrence of a Change of Control, the Change of Control Party will promptly notify the other Party, share with the other Party the policies, procedures and technical and organizational measures it plans to implement in order to protect the confidentiality of the other Party's Confidential Information prior to such implementation and make any adjustments to such policies and procedures that are reasonably requested by the other Party.

9. REPRESENTATIONS AND WARRANTIES

9.1. Mutual Representations and Warranties. Each of BioNTech and Pfizer hereby represents and warrants to the other Party that:

9.1.1. it is duly organized, validly existing and in good standing under the laws of the jurisdiction of its organization;

9.1.2. the execution, delivery and performance of this Agreement by such Party has been duly authorized by all requisite action under the provisions of its charter, bylaws and other organizational documents, and does not require any action or approval by any of its shareholders or other holders of its voting securities or voting interests;

9.1.3. it has the power and authority to execute and deliver this Agreement and to perform its obligations hereunder;

9.1.4. this Agreement has been duly executed and is a legal, valid and binding obligation on each Party, enforceable against such Party in accordance with its terms; and

9.1.5. the execution, delivery and performance by such Party of this Agreement and its compliance with the terms and provisions hereof does not and will not conflict with or result in a breach of or default under any Binding Obligation existing as of the Execution Date.

9.2. Mutual Covenants. In addition to the covenants made by the Parties elsewhere in this Agreement, each of BioNTech and Pfizer hereby covenants to the other Party that, from the Execution Date until expiration or termination of this Agreement it will perform its obligations under this Agreement in compliance with applicable Laws.

9.3. Representations and Warranties of BioNTech**.** BioNTech hereby represents and warrants to Pfizer that, unless otherwise disclosed in Schedule 9.3 (or otherwise as accepted to have been disclosed between BioNTech's external counsel and Pfizer's external counsel other than in writing), and provided that those provisions of the Current Licenses set forth in Schedule 9.6.3 shall be deemed disclosed against the representations and warranties given by BioNTech at sections 9.3.1, 9.3.2, 9.3.4, 9.3.11 and 9.3.12 of this Agreement:

9.3.1. as of the Execution Date, except with respect to BioNTech Technology Controlled by BioNTech pursuant to a Current License, BioNTech or its Affiliates are the sole and exclusive owner of the BioNTech Technology, and all BioNTech Technology is free and clear of any claims, liens, charges or encumbrances;

9.3.2. as of the Execution Date, BioNTech has, and to its knowledge will have, the full right, power and authority to (i) grant all of the right, title and interest in the licenses and other rights granted or to be granted to Pfizer, Pfizer's Affiliates or Pfizer's Sublicensees under this Agreement and (ii) perform its obligations under this Agreement;

9.3.3. Schedule 9.3.3 sets forth a true and complete list of all Candidates discovered or developed by BioNTech or its Affiliates on or prior to the Execution Date;

9.3.4. as of the Execution Date, (a) Schedule 9.3.4 sets forth a true and complete list of all Patent Rights (i) owned or otherwise Controlled by BioNTech or its Affiliates or (ii) to which BioNTech or its Affiliates have been granted or otherwise transferred any right to practice under, in each case of (i) and (ii), that relate to the Candidates, the Products, the BioNTech Technology, or the Parties' activities in the Research Program, (b) each such Patent Right is in full force and effect, (c) BioNTech or its Affiliates have timely paid, or caused the appropriate Third Parties to pay, all filing and renewal fees payable with respect to such Patent Rights; and (d) BioNTech Controls all Patent Rights listed in Schedule 9.3.4;

9.3.5. as of the Execution Date, BioNTech has disclosed to Pfizer all material scientific and technical information and all information relating to safety and efficacy or suitability for infectious disease arising from the application or use of the BioNTech Technology that are known to it or its Affiliates that relates to the Candidates or Products;

9.3.6. to BioNTech's knowledge as of the Execution Date, (a) the BioNTech Patent Rights issued as of the Execution Date are, valid and enforceable patents, (b) for the inventions that are the subject of BioNTech Patent Rights that are pending Patent Rights as of the Execution Date, there is no prior art or other facts or circumstances that BioNTech believes would preclude validity or enforceability of any Patent Rights issued from such pending Patent Rights and (c) as of the Execution Date, no Third Party (i) is infringing any BioNTech Patent Right or (ii) has challenged or threatened in writing to challenge the ownership, scope, validity or enforceability of, or BioNTech's or any Current Licensor's rights in or to, any BioNTech Patent Right (including, by way of example, through the institution or written threat of institution of interference, nullity or similar invalidity proceedings before the United States Patent and Trademark Office or any analogous foreign Governmental Authority);

9.3.7. as of the Execution Date, BioNTech and its Affiliates and, to BioNTech's knowledge, their Representatives and all Current Licensors have complied with all applicable Laws, including any disclosure requirements, in connection with the filing, prosecution and maintenance of the BioNTech Patent Rights;

9.3.8. as of the Execution Date, BioNTech has independently developed all BioNTech Know-How and BioNTech Materials or otherwise has a valid right to use, and to permit Pfizer, Pfizer's Affiliates and Pfizer's Sublicensees to use, the BioNTech Know-How and BioNTech Materials for all permitted purposes under this Agreement;

9.3.9. except with respect to BioNTech Technology Controlled by BioNTech pursuant to a Current License, BioNTech or its Affiliates have obtained from all inventors of BioNTech Technology existing as of the Execution Date, valid and enforceable agreements assigning to BioNTech or its Affiliates each such inventor's entire right, title and interest in and to all such BioNTech Technology (except to the extent applicable Law provides that all right, title and interest in and to such BioNTech Technology automatically vests in BioNTech or its Affiliates by operation of law);

9.3.10. in respect of BioNTech Technology solely or jointly owned by BioNTech existing as of the Execution Date, neither BioNTech nor its Affiliates are subject to any funding agreement with any government or Governmental Authority;

9.3.11. neither BioNTech nor any of its Affiliates are party to or otherwise subject to any agreement or arrangement which limits the ownership or licensed or sublicensed rights of Pfizer or its Affiliates with respect to, or limits the ability of Pfizer or its Affiliates to grant a license, sublicense or access, or provide or provide access or other rights in, to or under, any Intellectual Property Right or material (including any Patent Right, Know-How or other data or information), in each case, that would, but for such agreement or arrangement, be included in the rights licensed or assigned to Pfizer or its Affiliates pursuant to this Agreement;

9.3.12. as of the Execution Date (a) there are no BioNTech Third Party Agreements other than the Current Licenses set forth on Schedule 9.3.12, (b) true and complete copies of each Current License have been provided to Pfizer, (c) except as provided in the Current Licenses, no Third Party has any right, title or interest in or to, or any license under, any BioNTech Technology in the Field, (d) no rights granted by or to BioNTech or its Affiliates under any Current License conflict with any right or license granted to Pfizer or its Affiliates hereunder and (e) BioNTech and its Affiliates are in compliance in all material respects with all Current Licenses;

9.3.13. as of the Execution Date, to BioNTech's knowledge, the use by BioNTech or Pfizer (or their respective Affiliates or Sublicensees) of the BioNTech Technology in accordance with this Agreement, and the Development, Manufacture or Commercialization of those Candidates listed in Schedule 9.3.3 or Products incorporating such Candidates in accordance with this Agreement (a) does not and will not infringe any Patent Right of any Third Party or (b) will not infringe the claims of any published Third Party pending Patent Right when and if such claims issue;

9.3.14. as of the Execution Date, there is no (a) written claim, demand, suit, proceeding, arbitration, inquiry, investigation or other legal action of any nature, civil, criminal, regulatory or otherwise, pending or, to BioNTech's knowledge, made or threatened (irrespective of whether or not in writing) against BioNTech or any of its Affiliates or (b) judgment or settlement against or owed by BioNTech or any of its Affiliates, in each case in connection with the BioNTech Technology, the Current Licenses, any Candidate or Product or relating to the transactions contemplated by this Agreement;

9.3.15. except with respect to BioNTech Technology Controlled by BioNTech pursuant to a Current License, BioNTech has valid and enforceable agreements with all Persons acting by or on behalf of BioNTech or its Affiliates under this Agreement which require such Persons to assign to BioNTech their entire right, title and interest in and to all BioNTech Technology or Research Program Technology (except to the extent applicable Law provides that all right, title and interest in and to such BioNTech Technology or Research Program Technology automatically vests in BioNTech or its Affiliates by operation of law);

9.3.16. as of the Execution Date, BioNTech and its Affiliates have claimed and remunerated all employee inventions of their respective employees comprised within the GEIA Technology in accordance with the provisions of the GEIA;

9.3.17. as of the Execution Date, BioNTech and its Affiliates are entitled to unrestrictedly claim all rights to employee inventions of their employees comprised within the GEIA Technology;

9.3.18. as of the Execution Date, BioNTech has obtained all necessary assignment documents for the BioNTech Technology or Research Program Technology inventions in its files and maintains written track records of the proper claiming of any inventions made by employees of BioNTech, its Affiliates or Third Parties included in BioNTech Technology or Research Program Technology by the employer and/or the proper assignment of the inventors of their rights in the invention, including the right to claim priority to said invention, to the employer;

9.3.19. as of the Execution Date, BioNTech has no knowledge of (a) any inequitable conduct or fraud on any patent office with respect to any of the BioNTech Patent Rights or (b) any Person (other than Persons identified in the applicable patent applications or patents, as inventors of inventions disclosed in the BioNTech Patent Rights) who claims to be an inventor of an invention disclosed in the BioNTech Patent Rights;

9.3.20. as of the Execution Date, BioNTech and its Affiliates are not, and to BioNTech's knowledge, no Current Licensor or Representative of BioNTech (in each case, as applicable) is, debarred by any Regulatory Authority or the subject of debarment proceedings by any Regulatory Authority and, in the course of the discovery or
pre-clinical development of any Candidate or Product, BioNTech and its Affiliates have not and, to the knowledge of BioNTech, no Current Licensor or Representative of BioNTech (in each case, as applicable) have used any employee or consultant that is debarred by any Regulatory Authority or, to the knowledge of BioNTech, is the subject of debarment proceedings by any Regulatory Authority;

9.3.21. BioNTech, its Affiliates, and to BioNTech's knowledge, all third parties and Representatives acting on BioNTech's behalf, have and will comply in all material respects with all applicable Law and accepted pharmaceutical industry business practices in connection with this Agreement, including, to the extent applicable, the FD&C Act (21 U.S.C. § 301, et seq.), the Anti-Kickback Statute (42 U.S.C. §
1320a-7b), Civil Monetary Penalty Statute (42 U.S.C. § 1320a-7a), the False Claims Act (31 U.S.C. § 3729 et seq.), comparable state statutes, the regulations promulgated under all such statutes, and the regulations issued by the FDA, consistent with the 'Compliance Program Guidance for Pharmaceutical Manufacturers' published by the Office of Inspector General, U.S. Department of Health and Human Services;

9.3.22. with respect to any Candidates, Products, or payments or services provided under this Agreement, BioNTech, its Affiliates, and to its knowledge all third parties and Representatives acting on BioNTech's behalf, have not taken and will not during the Term take any action directly or indirectly to offer, promise or pay, or authorize the offer or payment of, any money or anything of value in order to improperly or corruptly seek to influence any Government Official or any other person in order to gain an improper advantage, and has not accepted, and will not accept in the future such payment;

9.3.23. BioNTech, its Affiliates, and to its knowledge all third parties and Representatives acting on BioNTech's behalf, have and will continue to comply with the laws and regulations of the countries where it operates, including anti-bribery and anti-corruption laws, including, to the extent applicable, the U.S. Foreign Corrupt Practices Act of 1977 and the U.K. Bribery Act 2010, accounting and record keeping laws, and laws relating to interactions with healthcare professionals or healthcare providers (collectively, "HCPs") and Government Officials;

9.3.24. BioNTech has implemented or will implement within a reasonable period of time following the Effective Date of this Agreement (but in no event greater than March 30, 2020) policies and procedures, including but not limited to anti-corruption policies and procedures, commensurate with its current risk profile, and shall review said policies from time to time setting out rules governing interactions with HCPs and Government Officials, engagement of Third Parties, including, where appropriate, due diligence ("Policies"), and its Policies will mandate a robust set of internal controls, including accounting controls, designed to ensure the making and keeping of fair and accurate books, records and accounts, on its operations around the world and apply worldwide to all its employees, subsidiaries, and Third Parties acting on its behalf to provide reasonable assurance that BioNTech, its subsidiaries and such Third Parties will comply with Laws, including but not limited to Anti-Corruption Laws to the extent required by such Laws. BioNTech will reasonably monitor its operations and the operations of its Affiliates with the purpose of ensuring its Policies are effective at the reasonable assurance level and make necessary changes from time to time, in particular as its business activities expand;

9.3.25. BioNTech is, as between the Parties, solely responsible to ensure Compliance by it and its Affiliates; and

9.3.26. the Impf Group does not own or Control any Intellectual Property Rights used by BioNTech or that BioNTech may reasonably require or be useful to exploitation of any of the RNA Technology.

9.4. Accuracy of Representations and Warranties.

9.4.1. BioNTech will take no action which would render any representation or warranty made by BioNTech and contained in Section 9.1 or Section 9.2 inaccurate or untrue; provided that such covenant shall not apply to representations and warranties expressly given as of the Execution Date;

9.4.2. BioNTech will promptly notify Pfizer of any lawsuits, claims, administrative actions, regulatory inquiries or investigations, or other proceedings asserted or commenced against BioNTech or its Representatives involving in any material way the ability of BioNTech to deliver the rights, licenses and sublicenses granted herein; and

9.4.3. BioNTech will promptly notify Pfizer in writing of any facts or circumstances which come to its attention and which cause, or through the passage of time may cause, any of the representations and warranties contained in Section 9.1, Section 9.2, Section 12.11 or otherwise in this Agreement to be untrue or misleading in any material respect at any time during the Term; and in addition to the foregoing, with regard to any of the representations under Section 12.11, BioNTech will suspend all affected activities (including making any related payments) under this Agreement, unless and until Pfizer determines that such activities may be resumed; provided that such covenant shall not apply to representations and warranties expressly given as of the Execution Date.

9.5. BioNTech Covenants**.** In addition to the covenants made by BioNTech elsewhere in this Agreement, BioNTech hereby covenants to Pfizer that, from the Execution Date until expiration or termination of this Agreement:

9.5.1. BioNTech will not, and will cause its Affiliates not to (a) license, sell or assign (other than in a connection with a permitted assignment of this Agreement by BioNTech pursuant to Section 12.2) or otherwise transfer to any Person (other than Pfizer or its Affiliates or Sublicensees pursuant to the terms of this Agreement) any BioNTech Technology or Research Program Technology (or agree to do any of the foregoing) or (b) incur or permit to exist, with respect to any BioNTech Technology or Research Program Technology, any lien, encumbrance, charge, security interest, mortgage, liability, assignment, grant of license or other Binding Obligation, in each case of (a) and (b) that is inconsistent with the licenses and other rights granted (or that may be granted) to Pfizer or its Affiliates under this Agreement;

9.5.2. Except as explicitly permitted under this Agreement, BioNTech will not (a) take, or omit to take, any action that diminishes the rights under the BioNTech Technology or Research Program Technology granted (or that may be granted) to Pfizer or Pfizer's Affiliates under this Agreement or (b) take, or omit to take, any action that is reasonably necessary to avoid diminishing the rights under the BioNTech Technology or Research Program Technology granted (or that may be granted) to Pfizer or Pfizer's Affiliates under this Agreement (for the avoidance of doubt, BioNTech shall not be in breach of the covenants set forth in this Section 9.5.2 due to any reasonable act or position taken in connection with the filing, prosecution, maintenance, defense or enforcement of BioNTech Technology or Research Program Technology as permitted in Section 7);

9.5.3. BioNTech will (a) not enter into any BioNTech Third Party Agreement that adversely affects (i) the rights granted (or that may be granted) to Pfizer, Pfizer's Affiliates or Sublicensees hereunder or (ii) BioNTech's ability to fully perform its obligations hereunder; (b) not amend or otherwise modify any BioNTech Third Party Agreement (including any Current License) or consent or waive rights with respect thereto in any manner that (A) adversely affects the rights granted (or that may be granted) to Pfizer or Pfizer's Affiliates or Sublicensees hereunder or (B) BioNTech's ability to fully perform its obligations hereunder; (c) promptly furnish Pfizer with true and complete copies of all (1) amendments to the Current Licenses and (2) BioNTech Third Party Agreements and related amendments executed following the Execution Date (in each case with redactions only in respect of sensitive information which is not relevant for the purposes of this Agreement); (d) remain, and cause its Affiliates to remain, in compliance in all material respects with all BioNTech Third Party Agreements; and (e) furnish Pfizer with copies of all notices received by BioNTech or its Representatives relating to any alleged breach or default by BioNTech or its Representatives under any BioNTech Third Party Agreement within ten (10) Business Days after receipt thereof (in each case with redactions only in respect of sensitive information which is not relevant for the purposes of this Agreement); and

9.5.4. BioNTech will not enter into or otherwise allow itself or its Representatives to be subject to any agreement or arrangement, other than the Current Licenses, which limits the ownership or licensed rights of Pfizer or its Affiliates with respect to, or limits the ability of Pfizer or its Affiliates to grant a license, sublicense or access, or provide or provide access or other rights in, to or under, any Intellectual Property Right or material (including any Patent Right, Know-How or other data or information), in each case, that would, but for such agreement or arrangement, be included in the rights licensed or assigned (or that may be licensed or assigned) to Pfizer or its Affiliates pursuant to this Agreement

9.5.5. BioNTech and its Affiliates will maintain or obtain valid and enforceable agreements with or from all inventors of BioNTech Technology or Research Program Technology who are employed by or otherwise acting on behalf of BioNTech or its Affiliates assigning to BioNTech or its Affiliates each such inventor's entire right, title and interest in and to all such BioNTech Technology or Research Program Technology (except to the extent applicable Law provides that all right, title and interest in and to such BioNTech Technology or Research Program Technology automatically vests in BioNTech or its Affiliates by operation of law).

9.5.6. BioNTech will unrestrictedly claim and remunerate (and procure that its Affiliates will unrestrictedly claim and remunerate) all employee inventions of their respective employees comprised within the GEIA Technology in accordance with the provisions of the GEIA.

9.5.7. In respect of GEIA Technology created after the Effective Date to which Pfizer shall obtain a license hereunder, BioNTech will use Commercially Reasonable Efforts (and will procure that its Affiliates use Commercially Reasonable Efforts) to conclude agreements with BioNTech employee inventors regarding the respective inventions by which the respective inventors: (a) waive the employer's obligation to release the employee invention and to enable the employee inventor upon request to apply for foreign Intellectual Property Rights for such foreign countries in which it does not intend to apply for Intellectual Property Rights (Sec. 14 GEIA); and (b) waive the employer's obligation to notify the employee inventor and to transfer the right in the invention to the employee inventor at the latter's request and expense, if it does not intend to pursue the application for the grant on an Intellectual Property Right for the invention any further or if it does not want to maintain the Intellectual Property Right granted for the

job-related invention (Sec. 16 GEIA); and (c) waive the employer's obligation to acknowledge protectability of the invention in case the employer decides not to file a registration, but to keep the invention secret (Sec. 17 GEIA);

9.5.8. To the extent BioNTech Technology or Research Program Technology is created after the Effective Date by inventors employed by or acting on behalf of BioNTech's or its Affiliates' Third Party subcontractors, BioNTech will use Commercially Reasonable Efforts (and will procure that its Affiliates use Commercially Reasonable Efforts) to obtain valid and enforceable agreements with their respective Third Party subcontractors imposing on their Third Party subcontractors the obligation to claim the rights in the invention in accordance with applicable law and to conclude agreements with its employee inventors assigning to the respective Third Party subcontractor each such inventor's entire right, title and interest in and to all such BioNTech Technology or Research Program Technology (except to the extent applicable Law provides that all right, title and interest in and to such BioNTech Technology or Research Program Technology automatically vests in the Third Party subcontractor by operation of law) and, to the extent GEIA applies to such BioNTech Technology or Research Program Technology, (ii) using Commercially Reasonable Efforts to obtain a waiver of inventor in his rights in Sec. 14, 16 and 17 GEIA;

9.5.9. with respect to any BioNTech Technology or Research Program Technology to which Pfizer shall obtain a license hereunder that is made after the Effective Date in the jurisdiction of the GEIA by an inventor on behalf of BioNTech or its Affiliates who is employed by a university pursuant to Sec. 42 GEIA (e.g. university professors, research assistants), BioNTech will use Commercially Reasonable Efforts (and will procure that its Affiliates use Commercially Reasonable Efforts) to obtain valid and enforceable trifold agreements with such inventor and the

respective university by which the university (a) waives its entire right, title and interest in and to that BioNTech Technology or Research Program Technology made by the inventor, (b) the inventor assigns its rights, title and interest in and to that BioNTech Technology or Research Program Technology to BioNTech or its Affiliates, (c) the inventor waives its rights pursuant to Sec. 14, 16 and 17 GEIA as well as (d) waives its negative publication right (Sec. 42 Nr. 2 GEIA)

vis-a-vis BioNTech or its Affiliates;

9.5.10. with respect to animals used in conducting activities under this Agreement, BioNTech will, and will cause its Affiliates and permitted subcontractors to, comply with Pfizer's Corporate Policy regarding Animal Care and Use, attached hereto as Exhibit C (except where in conflict with applicable Law);

9.5.11. with respect to Human Material used, including collection or transfer, by BioNTech, its Affiliates or permitted subcontractors in conducting activities under this Agreement, (a) such use shall be in accordance with the Research Plan and FIH Studies and shall be within the scope of and consistent with its ethical approval policies, (b) BioNTech will, and will cause its Affiliates or permitted subcontractors to, handle and use the Human Material in accordance with all applicable Laws and the ICF, which shall permit Pfizer to use the Human Material for the research purposes contemplated by this Agreement, (c) BioNTech will provide the ICF to Pfizer upon request by Pfizer, (d) the Human Material will be used for research purposes only and not be used for treatment of or administration to humans and (e) if BioNTech procures any Human Material from a Third Party such as a sample bank, it will ensure that the collection and transfer of the Human Material and the use of the Human Material for purposes of the Research Plan is in accordance with all applicable Laws and recognized international standards for the protection of human research subjects; and

9.5.12. BioNTech has received a copy of and will comply with Pfizer's Anti-Bribery and Anti-Corruption Principles attached hereto as Exhibit B.

9.6. Pfizer Covenants. In addition to the covenants made by Pfizer elsewhere in this Agreement, Pfizer hereby covenants to BioNTech that, from the Execution Date until expiration or termination of this Agreement,

9.6.1. Pfizer and its Affiliates maintain or will obtain valid and enforceable agreements with or from all inventors of Pfizer Improvements, Research Program Technology, RNA Improvements or Reversion Technology who are employed by or otherwise acting on behalf of Pfizer or its Affiliates valid and enforceable agreements assigning to Pfizer or its Affiliates each such inventor's entire right, title and interest in and to all such Pfizer Improvements, Research Program Technology or RNA Improvements (except to the extent applicable Law provides that all right, title and interest in and to such Pfizer Improvements, Research Program Technology or RNA Improvements automatically vests in Pfizer or its Affiliates by operation of law), and Pfizer and its Affiliates have made or will make any payments owing to any such inventors in respect of any Pfizer Improvements, Research Program Technology or RNA Improvements or any other Person that is required in connection with the creation or exploitation of or transfer of rights to such Pfizer Improvements, Research Program Technology or RNA Improvements;

9.6.2. with respect to Human Material used, including collection or transfer, by Pfizer, its Affiliates or permitted subcontractors in conducting activities under this Agreement, (a) such use shall be within the scope of and consistent with its ethical approval policies, (b) Pfizer will, and will cause its Affiliates or permitted subcontractors to, handle and use the Human Material in accordance with all applicable Laws and the ICF, (c) Pfizer will provide the ICF to BioNTech upon request by BioNTech, (d) the Human Material will be used for research purposes only and not be used for treatment of or administration to humans and (e) if Pfizer procures any Human Material from a Third Party such as a sample bank, it will ensure that the collection and transfer of the Human Material and the use of the Human Material for purposes of the Research Plan is in accordance with all applicable Laws and recognized international standards for the protection of human research subjects; and

9.6.3. Pfizer will comply with the provisions of the Current Licenses set forth in Schedule 9.6.3 in respect of BioNTech Technology sublicensed to Pfizer under the respective Current Licenses insofar as Pfizer is using such BioNTech Technology.

9.7. Notifications. During the Term, BioNTech will promptly notify Pfizer in writing or orally in the event that it learns of:

9.7.1. any prior art or other facts that BioNTech believes would result in the invalidity or unenforceability of any of the claims included in any of the BioNTech Patent Rights or Research Program Patent Rights; or

9.7.2. any inequitable conduct or fraud on the patent office with respect to any of the BioNTech Patent Rights or Research Program Patent Rights; or

9.7.3. any Person (other than Persons identified as inventors of inventions disclosed in the BioNTech Patent Rights or Research Program Patent Rights) who claims to be an inventor of an invention disclosed in the BioNTech Patent Rights or Research Program Patent Rights; and

9.7.4. any lawsuits, claims, administrative actions, government inquiries or investigations, or other proceedings related to the activities contemplated under this Agreement.

9.8. Representation by Legal Counsel**.** Each Party hereto represents that it has been represented by legal counsel in connection with this Agreement and acknowledges that it has participated in the drafting hereof. In interpreting and applying the terms and provisions of this Agreement, the Parties agree that no presumption will exist or be implied against the Party which drafted such terms and provisions.

9.9. BioNTech's knowledge. All references in this Section 9 to BioNTech's knowledge (or equivalent) shall refer to the actual knowledge after reasonable internal inquiry of BioNTech's management comprising those individuals set forth in Schedule 9.9.

9.10. Disclaimer**.** THE FOREGOING REPRESENTATIONS AND WARRANTIES OF EACH PARTY ARE IN LIEU OF ANY OTHER REPRESENTATIONS AND WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR ANY IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE HEREBY SPECIFICALLY EXCLUDED AND DISCLAIMED.

10. GOVERNMENT APPROVALS; TERM AND TERMINATION

10.1. Antitrust Filing. Each of BioNTech and Pfizer will, within [***] days after the Execution Date (or such later time as may be agreed to in writing by the Parties) make an appropriate filing under the HSR Act or any Foreign Antitrust Laws (the "Antitrust Filings") if applicable in the reasonable opinion of either Party with respect to the transactions contemplated under this Agreement. The Parties will cooperate with one another to the extent necessary in the preparation of any such Antitrust Filings. BioNTech will not agree to any voluntary extension or delay of any statutory waiting period or withdraw any of its Antitrust Filings pursuant to the HSR Act or any Foreign Antitrust Laws unless Pfizer has given its prior written consent to such extension or delay. Each Party will be responsible for its own costs, expenses, and filing fees associated with any Antitrust Filing; *provided, however*, that Pfizer will be solely responsible for any fees (other than penalties that may be incurred as a result of actions or omissions on the part of BioNTech) required to be paid to any Governmental Authority in connection with submitting any such HSR Filing.

10.2. Termination Upon Antitrust Filing Denial. In the event that the Parties make an Antitrust Filing under Section 10.1, this Agreement will terminate (a) at Pfizer's option, immediately upon notice to BioNTech, in the event that any Governmental Authority seeks a temporary restraining order, preliminary or permanent injunction or other legal restraint under the HSR Act or any Foreign Antitrust Laws against BioNTech and Pfizer to enjoin the transactions contemplated by this Agreement, (b) at the election of either Party, immediately upon notice to the other Party, in the event that any Governmental Authority obtains a temporary restraining order, preliminary or permanent injunction or other legal restraint under the HSR Act or any Foreign Antitrust Laws against BioNTech or Pfizer to enjoin the transactions contemplated by this Agreement or (c) at the election of either Party, immediately upon notice to the other Party, in the event that the Antitrust Clearance Date will not have occurred on or prior to 180 days after the effective date of any applicable Antitrust Filings.

10.3. Other Government Approvals**.** Each of BioNTech and Pfizer will cooperate with the other Party and to make all registrations, filings and applications, to give all notices and to obtain as soon as practicable all governmental or other consents, transfers, approvals, orders, qualifications authorizations, permits and waivers, if any, and to do all other things necessary or useful for the consummation of the transactions as contemplated hereby including the collection of Human Material.

10.4. Term**.** Except with respect to the provisions of Sections 10.1 and 10.2 and the provisions of Section 7.1, the term of this Agreement (the "Term") will commence on the Effective Date and extend on a

country-by-country basis (in the Territory), unless this Agreement is terminated earlier in accordance with this Section 10, until the last to expire of any Royalty Term for any Product in such country in the Territory. Notwithstanding any provision of this Agreement to the contrary, upon expiration of this Agreement, Pfizer will retain the fully paid-up, perpetual, irrevocable royalty-free license to each Product as set forth in Section 3.5.2.

10.5. Termination for Cause by BioNTech. BioNTech may terminate this Agreement for cause, at any time during the Term, by giving written notice to Pfizer in the event that Pfizer commits a material breach of its obligations under this Agreement and such material breach remains uncured (a) 90 days for a material breach that is a failure of Pfizer to make an undisputed payment owed to BioNTech under this Agreement and (b) 180 days for all other material breaches, in each case measured from the date written notice of such material breach is given to Pfizer; *provided, however*, that if any breach is not reasonably curable within 180 days and if Pfizer is making a bona fide effort/using Commercially Reasonable Efforts to cure such breach, such termination will be delayed for a time period to be agreed by both Parties in order to permit Pfizer a reasonable period of time to cure such breach. If the alleged material breach relates to

non-payment of any amount due under this Agreement, the cure period will be tolled pending resolution of any bona fide dispute between the Parties as to whether such payment is due.

10.6. Termination by Pfizer**.**

10.6.1. **Termination for Convenience**. Upon at least [***] days' prior written notice to BioNTech, Pfizer may terminate this Agreement on a Product-by-Product and country-by-country basis, or in its entirety, without cause, for any or no reason.

10.6.2. **Termination for Cause**.

(a) *General.* Pfizer may terminate this Agreement for cause in its entirety, at any time during the Term, by giving written notice to BioNTech in the event that BioNTech commits a material breach of its obligations under this Agreement and such material breach remains uncured for [***] days, measured from the date written notice of such material breach is given to BioNTech; *provided, however*, that if any breach is not reasonably curable within [***] days and if BioNTech is making a bona fide effort/using its Commercially Reasonable Efforts to cure such breach, such termination will be delayed for a time period to be agreed by both Parties in order to permit BioNTech a reasonable period of time to cure such breach.

(b) Notwithstanding anything to the contrary in this Agreement, Pfizer may terminate this Agreement in whole, immediately and without regard to any cure period, if BioNTech or its Affiliates have committed a violation of Global Trade Control Laws in connection with this Agreement. Any such termination will be deemed for cause under Section 10.7.1(b) and Pfizer will not be responsible for any payments due relating to such violation of Global Trade Control Laws even if such activities have already occurred. BioNTech will be responsible for reimbursing Pfizer for any payments made to BioNTech or due to Pfizer under this Agreement that are blocked due to violation of Global Trade Control Laws.

10.6.3. **Termination for Law-related Breach**. Pfizer may terminate this Agreement if BioNTech breaches any of the representations and warranties set forth in Sections 9.3.21 through 9.3.23 or if Pfizer learns that improper payments are being or have been made to Government Officials by BioNTech with respect to services performed in connection with this Agreement. Further, in the event of such termination BioNTech shall be liable for damages or remedies as provided by Law.

10.7. Effects of Termination.

10.7.1. **Effect of Termination**.

(a) *Termination for Cause by BioNTech; Termination for Convenience by Pfizer*. In the event that BioNTech terminates this Agreement for cause pursuant to Section 10.5 or Pfizer terminates this Agreement for convenience pursuant to Section 10.6.1, the following will apply:

(i) Except as otherwise expressly provided herein, all rights and obligations of each Party hereunder will cease (including all rights and licenses and sublicenses granted by either Party to the other Party hereunder, and all sublicenses granted to Affiliates or Third Parties under the rights granted hereunder).

(ii) On BioNTech's written notice to Pfizer, which notice may only be delivered no later [***] days following the effective date of termination:

(A) effective as of receipt of BioNTech' notice and subject to the remaining obligations of this Section 10.7.1(a), (1) Pfizer shall grant, and hereby grants, BioNTech a royalty-bearing, non-exclusive, sublicensable license under the Reversion Technology permitting BioNTech to continue to Develop, Commercialize and Manufacture any Product under this Agreement that is being Developed or Commercialized by Pfizer or its Affiliates at the time of termination, in the form in which such Product then exists (a "Continuation Product") and the other provisions of Schedule 10.7.1(a) shall apply; (2) BioNTech shall pay royalties to Pfizer in accordance with paragraphs 6 through 8 of Schedule 10.7.1(a), and (3) BioNTech and its Affiliates shall release and, upon Pfizer's receipt of such notice, hereby do release Pfizer, its Affiliates and sublicensees with respect to any and all claims of any nature that BioNTech or its Affiliates may have had against Pfizer relating to this Agreement that arose on or before the effective date of termination; and

(B) the Parties will negotiate in good faith for a period not to exceed [***] days regarding an agreement (x) governing the further terms of transition of the Continuation Product from Pfizer to BioNTech comprising at minimum the elements set forth in Schedule 10.7.1(a) and (y) for a license to such Continuation Product under the Pfizer Technology actually used by Pfizer or its Affiliates or Sublicensees before the effective date of termination; provided that if the Parties cannot reach an agreement within such [***] day period, then the provisions of Section 10.7.1(a)(ii)(C) and (D) shall apply;

(C) if the Parties cannot reach an agreement within such [***] day period set forth in of Section 10.7.1(a)(ii)(B) with respect to the terms of the transition of the Continuation Product or the license described in Section 10.7.1(a)(ii)(B), then the terms of such transition of the Continuation Product or license shall be determined, taking into account all then-relevant factors, by an independent Third Party expert knowledgeable in pharma licensing to be agreed between the Parties (and if the Parties cannot agree on such Third Party expert within [***] days of the expiration of the above negotiation period, the Third Party expert shall be independently appointed upon either Party's request by the International Chamber of Commerce). Each Party shall be obliged to submit its final proposal for the terms of such transition of or license to the Continuation Product to the Third Party expert, and such proposal shall remain confidential and shall not be disclosed to the other Party. The decision of the Third Party expert shall be final and binding on both Parties. The costs of the Third Party Expert shall be borne by both Parties at equal shares.

(D) for the period between the receipt of BioNTech' notice until an agreement is concluded in accordance with Section 10.7.1(a)(ii)(B) and (C) above, Pfizer hereby covenants not to sue (and to procure that its Affiliates will not sue) BioNTech or its Affiliates for infringement of the Pfizer Technology actually used by Pfizer or its Affiliates or Sublicensees before the effective date of termination.

(b) *Termination for Cause by Pfizer*.

(i) In the event that Pfizer terminates this Agreement pursuant to Section 10.6.2, all rights and obligations of each Party hereunder shall cease (including all non-perpetual, revocable rights and licenses granted by either Party to the other Party hereunder), except as otherwise expressly provided herein.

(ii) In the event that Pfizer has the right, but elects not, to terminate this Agreement pursuant to Section 10.7.1(b)(i) (after notice and failure of BioNTech to cure such breach as provided in Section 10.6.2), Pfizer shall notify BioNTech promptly and: (A) Pfizer's obligations to pay Development Milestones and Sales Milestones and royalties with respect to Net Sales of such Licensed Products shall be reduced by an amount equal to [***] of the amount that would otherwise have been payable under this Agreement such amount to be paid in accordance with and subject to the other terms of this Agreement, provided that any such reduction of royalty payments shall not result in any royalty rate that is below the royalty amount which BioNTech or its Affiliates have to pay under any BioNTech Third Party Agreement to Third Party licensors in connection with the relevant sale of Candidates or Products, and shall be offset against any damage claim of Pfizer in relation to such material breach; and (B) and at Pfizer's sole discretion Pfizer will have the right to offset, against any payments due to BioNTech under this Agreement, any damages finally awarded to Pfizer on account of such material breach. If, following Pfizer's exercise of the rights under this Section 10.7.1(b)(ii), a competent English court decides through final and binding decision that Pfizer was not entitled to exercise its rights hereunder, BioNTech shall be entitled to terminate this Agreement immediately without any option to cure for Pfizer.

10.7.2. **Accrued Rights**. Subject to the release granted pursuant to Section , expiration or termination of this Agreement for any reason will be without prejudice to any right which will have accrued to the benefit of either Party prior to such termination, including damages arising from any breach under this Agreement. Expiration or termination of this Agreement will not relieve either Party from any obligation which is expressly indicated to survive such expiration or termination.

10.7.3. **Survival Period**. The following sections, together with any sections that expressly survive (including any perpetual licenses and sublicenses granted hereunder), will survive expiration or termination of this Agreement for any reason: Sections 1 (Definitions), 3.6.3 (Royalty Statements and Payments) only in relation to any Calendar Quarter in which sales have occurred prior to the termination, 3.6.7 (Record Keeping), 3.6.8 (Audits), 3.6.9 (Underpayments/Overpayments), 3.6.10 (Confidentiality), 4.6.2 (Title to Pfizer Materials and BioNTech Materials), 4.6.4 (Return of Proprietary Materials), 7.2 (Ownership of Intellectual Property), 7.3.17.3.1(c) (Filing, Prosecution and Maintenance of Joint Patent Rights), 8 (Confidentiality), 10.7 (Effects of Termination), 10.8 (Provision for Insolvency), 11.1 (No Consequential Damages), 11.2 (Indemnification by Pfizer), 11.3 (Indemnification by BioNTech), 11.4 (Procedure), 12 (Miscellaneous)and, to the extent this Agreement expires or is terminated, either in whole or in part, for any reason except by BioNTech for cause pursuant to Section 10.5 or by Pfizer without cause pursuant to Section 10.6.1, Sections 7.2.4 (Patent Rights) and 7.4 (Enforcement and Defense of Know-How), and to the extent an Enforcement Action or Infringement Claim is active, live or pending at the time of expiry or termination Sections 7.3.2 or 7.3.6, as applicable.

10.8. Provision for Insolvency.

10.8.1. **Termination Right**. BioNTech will be deemed a "Debtor" under this Agreement if, at any time during the Term (a) a case is commenced by or against BioNTech under the Bankruptcy Code, (b) BioNTech files for or is subject to the institution of bankruptcy, reorganization, liquidation or receivership proceedings (other than a case under the Bankruptcy Code), (c) BioNTech assigns all or a substantial portion of its assets for the benefit of creditors, (d) a receiver or custodian is appointed for BioNTech's business or (e) a substantial portion of BioNTech's business is subject to attachment or similar process; *provided, however*, that in the case of any involuntary case under the Bankruptcy Code, BioNTech will not be deemed a Debtor if the case is dismissed within 60 days after the commencement thereof. If BioNTech is deemed a Debtor, then Pfizer may terminate this Agreement by providing written notice to BioNTech. If Pfizer terminates this Agreement pursuant this Section 10.8.1, then: (i) all licenses granted to Pfizer under this Agreement will become irrevocable and perpetual, and Pfizer will have no further obligations to BioNTech under this Agreement other than (A) those obligations that expressly survive termination in accordance with Section 10.7.3 and (B) an obligation to pay royalties with respect to Net Sales of Products in an amount equal to 100% of the amount that would otherwise have been payable under this Agreement, such amount to be paid in accordance with and subject to the other terms of this Agreement governing the payment of royalties; (ii) such termination will not be construed to limit BioNTech's right to receive payments that accrued before the effective date of such termination; (iii) Pfizer will have the right to offset, against any payment owing to BioNTech as provided for under clause (i), above, any damages found or agreed by the Parties to be owed by BioNTech to Pfizer; and (iv) nothing in this Section 10.8.1 will limit any other remedy Pfizer may have for any breach by BioNTech of this Agreement.

10.8.2. **Rights to Intellectual Property**. All rights and licenses now or hereafter granted by BioNTech to Pfizer under or pursuant to any Section of this Agreement, including Sections 2.1, 2.2, 2.3.1, 2.7 and Section 7 hereof, are rights to "intellectual property" (as defined in the Bankruptcy Code). The Parties hereto acknowledge and agree that the payments provided for under Sections 3.1 through 3.4 and all other payments by Pfizer to BioNTech hereunder, other than royalty payments pursuant to Section 3.5, do not constitute royalties within the meaning of Section 365(n) of the Bankruptcy Code or relate to licenses of intellectual property hereunder. If (a) a case under the Bankruptcy Code is commenced by or against BioNTech, (b) this Agreement

is rejected as provided in the Bankruptcy Code and (c) Pfizer elects to retain its rights hereunder as provided in Section 365(n) of the Bankruptcy Code, then BioNTech (in any capacity, including debtor-in-possession) and its successors and assigns (including any trustee) will provide to Pfizer all intellectual property licensed hereunder, and agrees to grant and hereby grants to Pfizer and its Affiliates a right to access and to obtain possession of and to benefit from and, in the case of any chemical or biological material or other tangible item of which there is a fixed or limited quantity, to obtain a pro rata portion of, each of the following to the extent related to any Candidate or Product, or otherwise related to any right or license granted under or pursuant to this Agreement: (i) copies of pre-clinical and clinical research data and results; (ii) all of the following (to the extent that any of the following are so related): BioNTech Materials, cell lines, antibodies, assays, reagents and other biological materials; (iii) samples or Candidates and Products; (iv) BioNTech Technology and RNA Technology, (v) laboratory notes and notebooks; (vi) Candidate and Product data or filings, and (vii) Rights of Reference in respect of regulatory filings and approvals, all of which constitute "embodiments" of intellectual property pursuant to Section 365(n) of the Bankruptcy Code, and (viii) all other embodiments of such intellectual property, whether any of the foregoing are in BioNTech's possession or control or in the possession and control of any Third Party but which BioNTech has the right to access or benefit from and to make available to Pfizer. BioNTech will not interfere with the exercise by Pfizer or its Affiliates of rights and licenses to intellectual property licensed hereunder and embodiments thereof in accordance with this Agreement and agrees to use Commercially Reasonable Efforts to assist Pfizer and its Affiliates to obtain such intellectual property and embodiments thereof in the possession or control of Third Parties as reasonably necessary or useful for Pfizer or its Affiliates or Sublicensees to exercise such rights and licenses in accordance with this Agreement.

10.8.3. **No Limitation of Rights**. All rights, powers and remedies of Pfizer provided in this Section 10.8 are in addition to and not in substitution for any and all other rights, powers and remedies now or hereafter existing at Law or in equity (including the Bankruptcy Code) in the event of the commencement of a case under the Bankruptcy Code involving BioNTech. To the extent equivalent rights exist under the Bankruptcy Code existing from time to time in the jurisdiction where BioNTech is established the foregoing provisions shall be interpreted in accordance with such equivalent rights, and where such equivalent rights to not exist Pfizer shall be entitled to avail of itself all remedies and rights available to it as a creditor and licensee of Intellectual Property Rights under such local Bankruptcy Code.

10.9. Change of Control of BioNTech. If a Change of Control of BioNTech by a Specified Person is consummated prior to the date Pfizer has paid the Development Milestone in row (v) of the table included in Section 3.3 ("Change of Control Term"), then Pfizer shall have the right to terminate the Research Plan (and BioNTech's involvement in performance of the Research Plan) in its entirety, as applicable, immediately upon written notice to BioNTech within [***] days after Pfizer receives notice from BioNTech of consummation of such Change of Control of BioNTech and, at Pfizer's option, it may request (which BioNTech shall deliver) a technology transfer under the Technology Transfer Plan as soon as reasonably practicable. Such termination of the Research Plan and/or BioNTech's involvement in its performance (a) shall not constitute termination of this Agreement, (b) shall not affect the Parties' rights and obligations under this Agreement other than those relating to such Research Plan including Pfizer's diligence obligations and (c) shall not relieve either Party of any obligation that arose prior to such termination. Following termination pursuant to this Section 10.9, Pfizer shall have no further obligations under Section 4.2.

10.10. Effects of Change of Control. In the event of a Change of Control of BioNTech by a Specified Person during the Change of Control Term, the following provisions of this Section 10.10 shall apply:

10.10.1. **BioNTech Intellectual Property**. All BioNTech Technology and Research Program Technology, Controlled by BioNTech immediately prior to such BioNTech Change of Control shall continue to be BioNTech Technology and Research Program Technology licensed to Pfizer for purposes of this Agreement.

10.10.2. **Existing Acquirer Intellectual Property**. Patent Rights and Know-How that were Controlled by the entity acquiring BioNTech or such entity's Affiliates that were not Affiliates of BioNTech prior to such BioNTech Change of Control (collectively, the "Acquirer") shall not be included within the licenses granted to Pfizer hereunder.

10.10.3. **Independent Intellectual Property**. Patent Rights and Know-How that, following such BioNTech Change of Control, are developed, made or otherwise acquired or Controlled by the Acquirer outside of the Research Plan and without use of Pfizer's Confidential Information or Research Program Technology, BioNTech Improvements or BioNTech Technology shall not be included within the Research Program Technology or BioNTech Technology or BioNTech Third Party Agreements (it being understood, however, for the avoidance of doubt, that all BioNTech Technology, Research Program Technology, and Intellectual Property Rights developed by BioNTech or the Acquirer in the course of, or used by BioNTech or the Acquirer under the Research Plan or used in the Manufacture of the Candidates or Products by BioNTech shall be licensed to Pfizer pursuant to the licenses set forth in this Agreement).

10.10.4. **Research Program Technology**. No Research Program Technology Controlled by Pfizer or RNA Improvements or Pfizer Improvements shall be licensed or sub-licensable to the Acquirer, and no Confidential Information of Pfizer or its Representatives shall be disclosed to the Acquirer, in each case without the prior written consent of Pfizer.

10.11. Effect on Certain Agreement Provisions. From and after the effective date of a BioNTech Change of Control by a Specified Person, the Acquirer shall not be considered an "Affiliate" for the purposes of this Agreement, provided that the Acquirer does not engage in any activities otherwise restricted under Section 10.10 using any Research Program Technology, Pfizer Technology, Pfizer Improvements or Confidential Information of Pfizer.

11. LIMITATION ON LIABILITY, INDEMNIFICATION AND INSURANCE

11.1. No Consequential Damages. Except with respect to liability arising from a breach of Sections 7 or 8, from any willful misconduct or intentionally wrongful act, or to the extent such Party may be required to indemnify the other Party under this Section 11, in no event will either Party or its Representatives be liable under this Agreement for any special (only as related to indirect, incidental or consequential damages), indirect, incidental, consequential or punitive damages, whether in contract, warranty, tort, negligence, strict liability or otherwise, including loss of indirect profits or revenue suffered by the other Party or any of its Representatives. Without limiting the generality of the foregoing, "consequential damages" will be deemed to include, and neither Party will be liable to the other Party or any of such other Party's Representatives or stockholders for any damages based on or measured by loss of projected or speculative future sales of the Products, any Development Payment due upon any unachieved Development Event under Section 3.3, any Sales Milestone Payment due upon any unachieved Total Annual Net Sales level under Section 3.4, any unearned royalties under

Section 3.5 or any other unearned, speculative or otherwise contingent payments provided for in this Agreement.

11.2. Indemnification by Pfizer**.** Pfizer will indemnify, defend and hold harmless BioNTech, each of its Affiliates, and each of its and its Affiliates' employees, officers, directors and agents (each, a "BioNTech Indemnified Party") from and against any and all claims, causes, or allegations (whether threatened or pending), judgments, expenses, damages, liabilities, obligations, fees (including the reasonable fees of attorneys and other consulting or testifying professionals), costs and losses (collectively, "Liabilities") that the BioNTech Indemnified Party may be required to pay to one or more Third Parties resulting from or arising out of:

(a) (a) Development, Manufacture, Commercialization or use of any Product by, on behalf of, or under the authority of, Pfizer (other than by any BioNTech Indemnified Party), other than (i) claims by Third Parties relating to patent infringement arising out of the exercise of rights under the BioNTech Patent Rights, (ii) claims by Third Parties relating to misappropriation of trade secrets arising out of the exercise of rights under the BioNTech Know-How or (iii) claims for which BioNTech is required to indemnify Pfizer pursuant to Section 11.3; or

(b) (b) the material breach by Pfizer of any of its representations, warranties or covenants set forth in Section 4.6.1, 9.1 or 9.1.1;

except, in each case, to the extent caused by the negligence, recklessness or intentional acts of BioNTech or any BioNTech Indemnified Party.

11.3. Indemnification by BioNTech. BioNTech will indemnify, defend and hold harmless Pfizer, its Affiliates, Sublicensees, contractors, distributors and each of its and their respective employees, officers, directors and agents (each, a "Pfizer Indemnified Party") from and against any and all Liabilities that the Pfizer Indemnified Party may be required to pay to one or more Third Parties resulting from or arising out of (i) the FIH Study, (ii) use of the BioNTech name or logo pursuant to Section 6.4.2, (iii) rights or obligations under the GEIA relating to inventions made by employees of BioNTech or its Affiliates or Third Party Licensors in relation to BioNTech Technology or Research Program Technology used in any Candidate or Product; or (iv) the material breach by BioNTech or any of its Representatives of any of its representations, warranties or covenants set forth in Section 9.1, Section 9.1.1, Section 9. 2, Section 9.3, Section 9.4 or Section 9.5 except to the extent caused by the negligence, recklessness or intentional acts of Pfizer or any Pfizer Indemnified Party.

11.4. Procedure.

11.4.1. **Notice**. Each Party will notify the other Party in writing in the event it becomes aware of a claim for which indemnification may be sought hereunder. In the event that any Third Party asserts a claim or other proceeding (including any governmental investigation) with respect to any matter for which a Party (the "Indemnified Party") is entitled to indemnification hereunder (a "Third Party Claim"), then the Indemnified Party will promptly notify the Party obligated to indemnify the Indemnified Party (the "Indemnifying Party") thereof; *provided, however,* that no delay on the part of the Indemnified Party in notifying the Indemnifying Party will relieve the Indemnifying Party from any obligation hereunder unless (and then only to the extent that) the Indemnifying Party is prejudiced thereby.

11.4.2. **Control**. Subject to either Party's right to control any actions described in Section 7 (even where the other Party is the Indemnifying Party), the Indemnifying Party will have the right, exercisable by notice to the Indemnified Party within ten Business Days after receipt of notice from the Indemnified Party of the commencement of or assertion of any Third Party Claim, to assume direction and control of the defense, litigation, settlement, appeal or other disposition of the Third Party Claim (including the right to settle the claim solely for monetary consideration) with counsel selected by the Indemnifying Party and reasonably acceptable to the Indemnified Party; provided that (a) the Indemnifying Party has sufficient financial resources, in the reasonable judgment of the Indemnified Party, to satisfy the amount of any adverse monetary judgment that is sought, (b) the Third Party Claim seeks solely monetary damages and (c) the Indemnifying Party expressly agrees in writing that as between the Indemnifying Party and the Indemnified Party, the Indemnifying Party will be solely obligated to satisfy and discharge the Third Party Claim in full (the conditions set forth in clauses (a), (b) and (c) above are collectively referred to as the "Litigation Conditions"). Within ten Business Days after the Indemnifying Party has given notice to the Indemnified Party of its exercise of its right to defend a Third Party Claim, the Indemnified Party will give notice to the Indemnifying Party of any objection thereto based upon the Litigation Conditions. If the Indemnified Party reasonably so objects, the Indemnified Party will continue to defend the Third Party Claim, at the expense of the Indemnifying Party, until such time as such objection is withdrawn. If no such notice is given, or if any such objection is withdrawn, the Indemnifying Party will be entitled, at its sole cost and expense, to assume direction and control of such defense, with counsel selected by the Indemnifying Party and reasonably acceptable to the Indemnified Party. During such time as the Indemnifying Party is controlling the defense of such Third Party Claim, the Indemnified Party will cooperate, and will cause its Affiliates and agents to cooperate upon request of the Indemnifying Party, in the defense or prosecution of the Third Party Claim, including by furnishing such records, information and testimony and attending such conferences, discovery proceedings, hearings, trials or appeals as may reasonably be requested by the Indemnifying Party. In the event that the Indemnifying Party does not satisfy the Litigation Conditions or does not notify the Indemnified Party of the Indemnifying Party's intent to defend any Third Party Claim within ten Business Days after notice thereof, the Indemnified Party may (without further notice to the Indemnifying Party) undertake the defense thereof with counsel of its choice and at the Indemnifying Party's expense (including reasonable,

out-of-pocket attorneys' fees and costs and expenses of enforcement or defense). The Indemnifying Party or the Indemnified Party, as the case may be, will have the right to join in (including the right to conduct discovery, interview and examine witnesses and participate in all settlement conferences), but not control, at its own expense, the defense of any Third Party Claim that the other party is defending as provided in this Agreement.

11.4.3. **Settlement**. The Indemnifying Party will not, without the prior written consent of the Indemnified Party, enter into any compromise or settlement that commits the Indemnified Party to take, or to forbear to take, any action. The Indemnified Party will have the sole and exclusive right to settle any Third Party Claim, on such terms and conditions as it deems reasonably appropriate, to the extent such Third Party Claim involves equitable or other

non-monetary relief, but will not have the right to settle such Third Party Claim to the extent such Third Party Claim involves monetary damages without the prior written consent of the Indemnifying Party. Each of the Indemnifying Party and the Indemnified Party will not make any admission of liability in respect of any Third Party Claim without the prior written consent of the other party, and the Indemnified Party will use reasonable efforts to mitigate Liabilities arising from such Third Party Claim.

11.5. Insurance**.** Each Party further agrees to obtain and maintain, during the Term, commercial general liability insurance, including products liability insurance (or clinical trials insurance, if applicable), with minimum

"A-" A.M. Best rated insurance carriers to cover its indemnification obligations under Section 11.2 or Section 11.3, as applicable, in each case with limits of not less than $5,000,000 (Five Million U.S. Dollars) per occurrence and in the aggregate. All deductibles and retentions will be the responsibility of the named insured. Within [***] days of the Effective Date, BioNTech will amend its existing insurance policies in such a way that (i) Pfizer Inc. and its Affiliates will be indemnified as principal on BioNTech's commercial general liability and products liability policies (or clinical trials insurance, if applicable) and (ii) Pfizer Inc. and its Affiliates will be provided a waiver of subrogation on BioNTech's commercial general liability and products liability policies (or clinical trials insurance, if applicable). For U.S. exposures, additional insured status on BioNTech's commercial general liability and products liability policies shall be via form CG20101185 or its equivalent. Products liability coverage shall be maintained for three years following termination of this Agreement. To the extent of its culpability or negligence, all coverages of BioNTech will be primary and non-contributing with any similar insurance, carried by Pfizer. Notwithstanding any provision of this Section 11.5 to the contrary, Pfizer may meet its obligations under this Section 11.5 through self-insurance. Neither Party's insurance will be construed to create a limit of liability with respect to its indemnification obligations under this Section 11.

12. MISCELLANEOUS

12.1. BioNTech AG. BioNTech AG and BioNTech RNA shall each be jointly and severally liable to Pfizer with respect to this Agreement and their obligations hereunder.

12.2. Assignment**.** Neither this Agreement nor any interest hereunder will be assignable by a Party without the prior written consent of the other Party, except as follows: (a) subject to the provisions of this Agreement in respect of Change of Control, as applicable, a Party may assign its rights and obligations under this Agreement by way of sale of itself or the sale of the portion of its business to which this Agreement relates, through merger, sale of assets and/or sale of stock or ownership interest, *provided that* the assignee will expressly agree to be bound by such Party's obligations under this Agreement and that such sale is not primarily for the benefit of its creditors, (b) such Party may assign its rights and obligations under this Agreement to any of its Affiliates, *provided that* the assignee will expressly agree to be bound by such Party's obligations under this Agreement and that such Party will remain liable for all of its rights and obligations under this Agreement. In addition, Pfizer may assign its rights and obligations under this Agreement to a Third Party where Pfizer or its Affiliate is required, or makes a good faith determination based on advice of counsel, to divest a Product in order to comply with Law or the order of any Governmental Authority as a result of a merger or acquisition, *provided that* the assignee will expressly agree to be bound by Pfizer's obligations under this Agreement. Each Party will promptly notify the other Party of any assignment or transfer under the provisions of this Section 12.2. This Agreement will be binding upon the successors and permitted assigns of the Parties and the name of a Party appearing herein will be deemed to include the names of such Party's successors and permitted assigns to the extent necessary to carry out the intent of this Agreement. Any assignment not in accordance with this Section 12.2 will be void.

12.3. Further Actions**.** Each Party agrees to execute, acknowledge and deliver such further instruments, and to do all such other acts, as may be necessary or appropriate in order to carry out the purposes and intent of the Agreement.

12.4. Force Majeure**.** Each Party will be excused from the performance of its obligations under this Agreement to the extent that such performance is prevented by force majeure (defined below) and the nonperforming Party promptly provides notice of the prevention to the other Party. Such excuse will be continued so long as the condition constituting force majeure continues and the nonperforming Party takes Commercially Reasonable Efforts to remove the condition. For purposes of this Agreement, "force majeure" will include conditions beyond the control of the Parties, including an act of God, voluntary or involuntary compliance with any regulation, Law or order of any government, war, act of terror, civil commotion, labor strike or lock-out, epidemic, failure or default of public utilities or common carriers, destruction of production facilities or materials by fire, earthquake, storm or like catastrophe.

12.5. Interpretation**.** Except where the context expressly requires otherwise, (a) the use of any gender herein will be deemed to encompass references to either or both genders, and the use of the singular will be deemed to include the plural (and vice versa), (b) the words "include", "includes" and "including" will be deemed to be followed by the phrase "without limitation", (c) the word "will" will be construed to have the same meaning and effect as the word "shall", (d) any definition of or reference to any agreement, instrument or other document herein will be construed as referring to such agreement, instrument or other document as from time to time amended, supplemented or otherwise modified (subject to any restrictions on such amendments, supplements or modifications set forth herein), (e) any reference herein to any Person will be construed to include the Person's successors and assigns, (f) the words "herein", "hereof" and "hereunder", and words of similar import, will be construed to refer to this Agreement in its entirety and not to any particular provision hereof, (g) all references herein to Sections, Exhibits or Schedules will be construed to refer to Sections, Exhibits or Schedules of this Agreement, and references to this Agreement include all Exhibits and Schedules hereto, (h) the word "notice" means notice in writing (whether or not specifically stated) and will include notices, consents, approvals and other written communications contemplated under this Agreement, (i) provisions that require that a Party, the Parties or any committee hereunder "agree," "consent" or "approve" or the like will require that such agreement, consent or approval be specific and in writing, whether by written agreement, letter, approved minutes or otherwise (excluding e-mail or instant messaging, but a signed PDF document being acceptable), (j) references to any specific law, rule or regulation, or article, section or other division thereof, will be deemed to include the then-current amendments thereto or any replacement or successor law, rule or regulation thereof, and (k) the term "or" will be interpreted in the inclusive sense commonly associated with the term "and/or".

12.6. Notices**.** Any notice or notification required or permitted to be provided pursuant to the terms and conditions of this Agreement (including any notice of force majeure, breach, termination, change of address, etc.) will be in writing and will be deemed given upon receipt if delivered personally or by facsimile transmission (receipt verified), and upon delivery if mailed by registered or certified mail or courier. Where delivery occurs outside normal working hours, notice will be deemed given at the start of normal working hours on the next Business Day.Notice shall be given to the Parties at the following addresses or facsimile numbers (or at such other address or facsimile number for a Party as will be specified by like notice, *provided, however*, that notices of a change of address will be effective only upon receipt thereof):

All correspondence to Pfizer will be addressed as follows:

Pfizer Inc.
Notices: R&D Business Development
235 East 42nd Street
New York, NY 10017
Attention: Attn.: R&DBD Contract Notice
Fax:

+1-646-563-9619

with a copy to:

Pfizer Inc.
Notices: Pfizer Legal Division
235 East 42nd Street
New York, NY 10017
Attn.: Chief Counsel, R&D
Fax:

+1-646-563-9619

To help expedite Pfizer's awareness and response, copies of notices may be provided to Pfizer by email but must be supplemented by one of the following methods: (a) personal delivery, (b) first class certified mail with return receipt requested, or

(c) next-day delivery by major international courier, with confirmation of delivery. Electronic copies may be sent via email to [***].

All correspondence to BioNTech will be addressed as follows:

BioNTech AG
An der Goldgrube 12

D-55131

Mainz, Germany
Attn: Vice President, Legal and Intellectual Property
Fax:

+49-6131-576-270-28

12.7. Amendment**.** No amendment, modification or supplement of any provision of this Agreement will be valid or effective unless made in writing and signed by a duly authorized officer of each Party.

12.8. Waiver**.** No provision of this Agreement will be waived by any act, omission or knowledge of a Party or its agents or employees except by an instrument in writing expressly waiving such provision and signed by a duly authorized officer of the waiving Party. The waiver by either of the Parties of any breach of any provision hereof by the other Party will not be construed to be a waiver of any succeeding breach of such provision or a waiver of the provision itself.

12.9. Severability**.** If any clause or portion thereof in this Agreement is for any reason held to be invalid, illegal or unenforceable, the same will not affect any other portion of this Agreement, as it is the intent of the Parties that this Agreement will be construed in such fashion as to maintain its existence, validity and enforceability to the greatest extent possible. In any such event, this Agreement will be construed as if such clause of portion thereof had never been contained in this Agreement, and there will be deemed substituted therefor such provision as will most nearly carry out the intent of the Parties as expressed in this Agreement to the fullest extent permitted by applicable Law.

12.10. Descriptive Headings**.** The descriptive headings of this Agreement are for convenience only and will be of no force or effect in construing or interpreting any of the provisions of this Agreement.

12.11. Global Trade Control Laws**.** The Parties acknowledge that certain activities covered by or performed under this Agreement may be subject to laws, regulations or orders regarding economic sanctions, import controls or export controls ("Global Trade Control Laws"). Each of the Parties will perform all activities under this Agreement in compliance with all applicable Global Trade Control Laws. Furthermore, with respect to the activities performed under this Agreement, each of the Parties represents, warrants and covenants that:

12.11.1. Each Party will not, for activities under this Agreement, (i) engage in any such activities in a Restricted Market; (ii) involve individuals ordinarily resident in a Restricted Market; or (iii) include companies, organizations, or Governmental Authorities from or located in a Restricted Market. "Restricted Market" for purposes of this Agreement means the Crimean Peninsula, Cuba, the Donbass Region, Iran, North Korea, Sudan, and Syria, or any other country or region sanctioned by the United States or European Union.

12.11.2. Each Party represents and warrants that it is not a Restricted Party and is not owned or controlled by a Restricted Party. With respect to activities performed under this Agreement, neither Party will engage or delegate to any Restricted Parties for any activities under this Agreement. Each Party will screen all relevant Third Parties involved by such Party in the activities under this Agreement under the relevant Restricted Party Lists. "Restricted Parties" for purposes of this Agreement means any individual or entity on any of the following "Restricted Party Lists": the list of sanctioned entities maintained by the United Nations; the Specially Designated Nationals List and the Sectoral Sanctions Identifications List of the U.S. Treasury Department's Office of Foreign Assets Control; the U.S. Denied Persons List, the U.S. Entity List, and the U.S. Unverified List of the U.S. Department of Commerce; entities subject to restrictive measures and the Consolidated List of Persons, Groups and Entities Subject to E.U. Financial Sanctions, as implemented by the E.U. Common Foreign & Security Policy; the List of Excluded Individuals / Entities published by the U.S. Health and Human Services' Office of Inspector General; any lists of prohibited or debarred parties established under the U.S. Federal Food Drug and Cosmetic Act; the list of parties suspended or debarred from contracting with the U.S. government; and similar lists of restricted parties maintained by the Governmental Authorities of the countries that have jurisdiction over the activities conducted under this Agreement.

12.11.3. Neither Party will knowingly transfer to the other Party any goods, software, technology or services that are (i) controlled under the U.S. International Traffic in Arms Regulations or at a level other than EAR99 under the U.S. Export Administration Regulations; or (ii) specifically identified as an E.U. Dual Use Item or on an applicable export control list of another country.

12.12. Dispute Resolution**.** If any dispute or disagreement arises between Pfizer and BioNTech in respect of this Agreement, they will follow the following procedures in an attempt to resolve the dispute or disagreement:

12.12.1. The Party claiming that such a dispute exists will give notice in writing ("Notice of Dispute") to the other Party of the nature of the dispute.

12.12.2. Within 30 days of receipt of a Notice of Dispute and in advance of any meeting pursuant to Section 12.12.3, the receiving Party will provide a written response to the other Party's claims regarding the dispute.

12.12.3. Within 45 days of receipt of a Notice of Dispute, the Chief Scientific Officer, Vaccine Research and Development of Pfizer and the Chief Scientific Officer of BioNTech AG will meet at a mutually agreed-upon time and location for the purpose of resolving such dispute to discuss the dispute or disagreement.

Notwithstanding any provision of this Agreement to the contrary, either Party may immediately initiate litigation in any court of competent jurisdiction seeking any remedy at law or in equity, including the issuance of a preliminary, temporary or permanent injunction, to preserve or enforce its rights under this Agreement. The provisions of this Section 12.12 will survive for five years from the date of termination or expiration of this Agreement.

12.13. Governing Law**.** This Agreement is governed by, and all disputes arising under or in connection with this Agreement shall be resolved in accordance with, laws of England and Wales, without regard to conflict of law principles thereof.

12.14. Consent to Jurisdiction and Venue**.** The Parties irrevocably submit to the exclusive jurisdiction of the courts of England and Wales as regards any claim, dispute or matter (whether contractual or non-contractual) arising out of or in connection with this Agreement (including its formation). Notwithstanding the foregoing, this clause shall not prevent either Party from being entitled to seek urgent interim or emergency relief (such as a preliminary injunction) before any other court of competent jurisdiction in respect of any claim, dispute or matter (whether contractual or non-contractual) arising out of or in connection with this Agreement (including its formation).

12.15. Entire Agreement**.** This Agreement constitutes and contains the complete, final and exclusive understanding and agreement of the Parties and cancels and supersedes any and all prior negotiations, correspondence, understandings and agreements, whether oral or written, between the Parties respecting the subject matter hereof and thereof, including that certain Confidential-Disclosure Agreement between the Parties dated [***] which is hereby terminated effective as of the Execution Date, *provided that* such Confidential Disclosure Agreement will continue to govern the treatment of Confidential Information disclosed by the Parties prior to the Execution Date in accordance with its terms**.**

12.16. Independent Contractors**.** Both Parties are independent contractors under this Agreement. Nothing herein contained will be deemed to create an employment, agency, joint venture or partnership relationship between the Parties hereto or any of their agents or employees, or any other legal arrangement that would impose liability upon one Party for the act or failure to act of the other Party. Neither Party will have any express or implied power to enter into any contracts or commitments or to incur any liabilities in the name of, or on behalf of, the other Party, or to bind the other Party in any respect whatsoever.

12.17. Counterparts**.** This Agreement may be executed in two (2) counterparts, each of which will be an original and both of which will constitute together the same document. Counterparts may be signed and delivered by facsimile or digital (e.g., PDF) file, each of which will be binding when received by the applicable Party.

12.18. No Third Party Rights or Obligations**.** No provision of this Agreement will be deemed or construed in any way to result in the creation of any rights or obligation in any Person not a Party to this Agreement, and this Agreement does not give rise to any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Agreement. However, Pfizer may decide, in its sole discretion, to use one or more of its Affiliates to perform its obligations and duties hereunder, *provided that* Pfizer will remain liable hereunder for the performance by any such Affiliates of any such obligations.

(Signature page follows.)

IN WITNESS WHEREOF, authorized representatives of the Parties have duly executed this Agreement as of the Execution Date to be effective as of the Effective Date.

PFIZER ANTI-BRIBERY AND ANTI-CORRUPTION PRINCIPLES

Pfizer has a longstanding corporate policy that prohibits colleagues or anyone acting on our behalf from providing any payment or benefit to any person or entity in order to improperly influence a government official or to gain an unfair business advantage. Pfizer is committed to performing with integrity, and acting ethically and legally in accordance with all applicable laws and regulations, including, but not limited to, anti-bribery and anti-corruption laws. We expect the same commitment from the consultants, agents, representatives or other companies and individuals acting on our behalf ("Business Associates"), as well as those acting on behalf of Business Associates, in connection with work for Pfizer.

Bribery of Government Officials

Most countries have laws that forbid making, offering or promising any payment or anything of value (directly or indirectly) to a government official when the payment is intended to influence an official act or decision to award or retain business. Under Pfizer's policies, "government official" is broadly interpreted and includes: (i) any elected or appointed government official (e.g., a member of a ministry of health); (ii) any employee or person acting for or on behalf of a government official, agency, or enterprise performing a governmental function; (iii) any political party, candidate for public office, officer, employee, or person acting for or on behalf of a political party or candidate for public office; or (iv) an employee or person acting for or on behalf of a public international organization (e.g., the United Nations). "Government" is meant to include all levels and subdivisions of governments (i.e., local, regional, or national and administrative, legislative, or executive). Because this definition of "government official" is so broad, it is likely that Business Associates will interact with a government official in the ordinary course of their business on behalf of Pfizer. For example, doctors employed by government-owned hospitals would be considered "government officials" under Pfizer's policies.

The U.S. Foreign Corrupt Practices Act of 1977 (the "FCPA") prohibits making, promising, or authorizing the making of a payment or providing anything of value to a non-U.S. government official to improperly or corruptly induce that official to make any governmental act or decision to assist a company in obtaining or retaining business, or to otherwise obtain an improper advantage. The FCPA also prohibits a company or person from using another company or individual to engage in any of the foregoing activities. As a U.S. company, Pfizer must comply with the FCPA and could be held liable as a result of acts committed anywhere in the world by a Business Associate.

Anti-Bribery and Anti-Corruption Principles Governing Interactions with Governments and Government Officials

Business Associates must communicate and abide by the following principles with regard to their interactions with governments and government officials:

- Business Associates, and those acting on their behalf in connection with work for Pfizer, may not directly or indirectly make, promise, or authorize the making of a corrupt payment or provide anything of value to any government official to induce that government official to make any governmental act or decision to help Pfizer obtain or retain business. Business Associates, and those acting on their behalf in connection with work for Pfizer, may never make a payment to or offer a government official any item or benefit, regardless of value, as an improper inducement for such government official to approve, reimburse, prescribe, or purchase a Pfizer product, to influence the outcome of a clinical trial, or otherwise improperly to benefit Pfizer’s business activities.

- Business Associates, and those acting on their behalf in connection with work for Pfizer, need to understand whether local laws, regulations, or operating procedures (including requirements imposed by government entities such as government-owned hospitals or research institutions) impose any limits, restrictions, or disclosure requirements on compensation, financial support, donations, or gifts that may be provided to government officials. Business Associates, and those acting on their behalf in connection with work for Pfizer, must take into account and comply with any applicable restrictions in conducting their Pfizer-related activities. If a Business Associate is uncertain as to the meaning or applicability of any identified limits, restrictions, or disclosure requirements with respect to interactions with government officials, that Business Associate should consult with his or her primary Pfizer contact before undertaking their activities.

- Business Associates, and those acting on their behalf in connection with work for Pfizer, are not permitted to offer facilitation payments. A “facilitation payment” is a nominal, unofficial payment to a government official for the purpose of securing or expediting the performance of a routine, non-discretionary governmental action. Examples of facilitation payments include payments to expedite the processing of licenses, permits or visas for which all paperwork is in order.In the event that a Business Associate, or someone acting on their behalf in connection with work for Pfizer, receives or becomes aware of a request or demand for a facilitation payment or bribe in connection with work for Pfizer, the Business Associate shall report such request or demand promptly to his or her primary Pfizer contact before taking any further action.

Commercial Bribery

Bribery and corruption can also occur in non-government, business to business relationships.Most countries have laws which prohibit offering, promising, giving, requesting, receiving, accepting, or agreeing to accept money or anything of value in exchange for an improper business advantage. Examples of prohibited conduct could include, but are not limited to, the provision of inappropriate gifts or hospitality, kickbacks, or investment opportunities offered to improperly induce the purchase of goods or services. Pfizer colleagues are not permitted to offer, give, solicit or accept bribes, and we expect our Business Associates, and those acting on their behalf in connection with work for Pfizer, to abide by the same principles.

Anti-Bribery and Anti-Corruption Principles Governing Interactions with Private Parties and Pfizer Colleagues

Business Associates must communicate and abide by the following principles with regard to their interactions with private parties and Pfizer colleagues:

- Business Associates, and those acting on their behalf in connection with work for Pfizer, may not directly or indirectly make, promise, or authorize the making of a corrupt payment or provide anything of value to any person to induce that person to provide an unlawful business advantage for Pfizer.
- Business Associates, and those acting on their behalf in connection with work for Pfizer, may not directly or indirectly, solicit, agree to accept, or receive a payment or anything of value as an improper inducement in connection with their business activities performed for Pfizer.
- Pfizer colleagues are not permitted to receive gifts, services, perks, entertainment, or other items of more than token or nominal monetary value from Business Associates, and those acting on their behalf in connection with work for Pfizer. Moreover, gifts of nominal value are only permitted if they are received on an infrequent basis and only at appropriate occasions.

Reporting Suspected or Actual Violations

Business Associates, and those acting on behalf in connection with work for Pfizer, are expected to raise concerns related to potential violations of these International Anti-Bribery and Anti-Corruption Principles or the law. Such reports can be made to a Business Associate's primary point of contact at Pfizer, or if an Associate prefers, to Pfizer's Compliance Group, by

e-mail at corporate.compliance@pfizer.com or by phone at 1-212-733-3026.

Exhibit C

Pfizer's Corporate Policy regarding Animal Care and Use (v. 1.2, June 18, 2017)

BACKGROUND

Pfizer is dedicated to helping people and animals live longer, healthier lives through the discovery and development of breakthrough medicines and therapies. Animal-based biomedical research in the pharmaceutical industry remains a vital component of the discovery, evaluation and regulatory processes, which lead to the development of products that save or improve human lives throughout the world. Pfizer's Animal Care and Use policy reflects our absolute commitment that all animals used by our business are treated humanely. This means that any research involving animals is conducted only after appropriate ethical consideration and review. This review ensures that we provide a high level of care to all animals used, and that a scientifically appropriate and validated alternative to the use of animals is not available.

Why We Conduct Animal-based Biomedical Research

Pfizer is ethically and legally obliged to rigorously evaluate potential new medicines and therapies. Many of these evaluations can be, and are, accomplished by techniques that do not require the use of animals. However, given the present state of scientific knowledge, testing potential new medicines and therapies in animals is frequently critical to their evaluation, and is required by regulatory authorities worldwide to ensure the quality, efficacy and safety of the medicines we discover.

Pfizer's Commitment to Ethical and Humane Treatment of Animals

Pfizer accepts its responsibility to use animals in a humane and ethical manner and expects all Colleagues to treat animals with respect. We approach the use of animals in our business with a high level of humane and ethical concern for those animals. All use is carefully planned and conducted in such a way as to minimize or avoid pain, distress, or discomfort to the animals. Every proposed use is thoroughly evaluated before being undertaken as the health and well-being of all animals under our care is a primary concern. Similarly, we expect any Third Party organization we engage to conduct animal-based research on our behalf to adhere to this Policy and to comply with all applicable laws and regulations.

Pfizer's Commitment to Alternatives to Animal-based Biomedical Research

Pfizer is fully committed to the development and use of scientifically validated alternative testing methods that are acceptable to regulatory authorities and do not compromise patient safety or the effectiveness of our medicines. Pfizer continues to engage and lead cross-industry efforts aimed at developing and refining new in-vitro testing and predictive informatics-based systems that hold promise for future reduction of animal usage. Pfizer works directly with regulators and through pharmaceutical trade organizations to increase the recognition and acceptance of alternative models where such alternatives can be used appropriately.

POLICY

For as long as it remains necessary to use animals in the discovery, development,evaluation and production of new medicines, we commit to maintaining high standards in the humane treatment of these animals. Significantly, we embrace the principles known as the "3Rs" of animal research first proposed in 1959 by Russell and Burch to describe

the use of alternatives in animal research. These are:

Replacement of animal experiments with non-animal experiments such as mathematical models, computer simulations, and in-vitro biological systems wherever appropriate; and where animals must be used;

Reduction of the numbers of animals used in each study, and of the number of studies involving animals, to the absolute minimum necessary to obtain valid results and achieve our research objectives; and

Refinement of procedures involving animals to minimize the potential for pain and distress.

In addition to the 3R's, and to further assure we maintain high standards for our animals, we have adopted the following guidelines:

- When animal experimentation is necessary, great care is taken to choose the most appropriate animal species for the research and to optimize the study design to ensure that the results will be as meaningful as possible.
- Non-human primates will only be used when scientifically justified, for example in cases where other species will not provide sufficiently close analogues to the biological pathways and responses expected in humans.
- All studies are carefully designed to gain the maximum information from the fewest number of animals possible.
- Each proposed use of animals is reviewed and approved by a panel of objective experts prior to performing any experiments to ensure that the use of the animals is consistent with sound scientific practices and ethical considerations.
- Our standards of animal care and welfare meet or exceed those required by applicable local, national, or international laws and regulations.
- We regularly monitor our animals for signs of ill health or distress and take prompt action wherever appropriate. We make veterinary care available to our animals at all times.

- Our veterinarians and scientists evaluate every proposed animal procedure with an emphasis on eliminating or minimizing any potential for pain or distress which may be experienced by the animals.
- We train all Colleagues involved in the care, welfare and use of animals to ensure (a) that they are competent in the care of the animals and in the procedures required to complete the proposed work; (b) that they are aware of the ethical issues involved in the use of animals; and (c) that they demonstrate respect and humane treatment towards the animals in their care.
- We expect our contract research organizations, collaborators and vendors to maintain similar high standards. Parties conducting animal based research for Pfizer at their facilities are required to adhere to this Policy and to comply with all applicable laws and regulations. We perform welfare audits of Third Party facilities in accordance with our quality assurance policies.

•	Because respect is a key tenant in our use of animals, we have also established standards regarding the use of animals in the marketing of Pfizer products. If advertisements featuring animals are used, any animal shown should be healthy and in a natural or appropriate setting. Non-human primates should not be used in the advertising of Pfizer products, and other wild animals will also not be used unless they are shown in their natural setting or portrayed through animation or computer-generated graphics.

This Policy represents Pfizer's commitment to high-quality animal care and welfare throughout our business, and to the replacement, reduction and refinement of the use of animals in research. We are equally committed to bringing important and safe new medicines to patients.

Schedule 10.7.1(a)

Effects of Reversion Rights in case of Termination for Cause by BioNTech or Termination for Convenience by Pfizer

In the event BioNTech notifies Pfizer pursuant to Section 10.7.1(a)(ii) that it desires a license to the Continuation Product, the following terms and conditions shall apply:

1.	Within the time periods set forth in Section 10.7.1(a)(ii), if requested by BioNTech, the Parties will, subject to the terms of the license described in Section 10.7.1(a)(ii)(C), mutually agree upon a transition plan to effect an orderly and timely transition to BioNTech of all Development, Manufacture and Commercialization activities and responsibilities with respect to Continuation Products (a "Transition Plan"). Any and all support provided by Pfizer with respect to the Transition Plan shall be at the BioNTech's cost and expense.

2.

To the extent permitted by Law and requested by BioNTech, assignment and transfer by Pfizer to BioNTech of all Regulatory Materials Controlled by Pfizer solely relating to the Continuation Products in the Territory, and not relating to any other product. If Pfizer is restricted from assigning or transferring ownership of any of the foregoing items to BioNTech, and in respect of Regulatory Materials Controlled by Pfizer and necessary or useful for the Development, Manufacturing or Commercialization of the Continuation Products in the Territory, Pfizer shall use its Commercially Reasonable Efforts to grant BioNTech (or its designee) a right of reference or use to such item and Pfizer shall take reasonable actions that are reasonably necessary to effect such assignment and transfer or grant of right of reference or use to BioNTech (or its designee), at BioNTech's sole expense, including by making such filings as may be reasonably required with Regulatory Authorities in the Territory that may be necessary to record such assignment or effect such transfer and, at BioNTech's written request complete any pending regulatory filings with respect to all Continuation Products. For purposes of this Schedule 10.7.1(a), "Regulatory Materials" means all regulatory registrations, applications, authorizations and approvals (including approvals of BLAs, supplements and amendments,
pre- and post-approvals, pricing and Third Party reimbursement approvals, and labeling approvals), Regulatory Approvals or other submissions made to or with any Regulatory Authority necessary for the Development (including the conduct of clinical studies), Manufacture or Commercialization of a Continuation Product in a regulatory jurisdiction, together with all related correspondence to or from any Regulatory Authority and all documents referenced in the complete regulatory chronology for each BLA, including all INDs,

clinical trial applications and foreign equivalents of any of the foregoing.

3. Upon BioNTech's written request, assignment and transfer by Pfizer to BioNTech of its entire right, title, and interest in and to all pharmacological, toxicological and clinical test data and results, research data, reports and batch records, safety data and all other data Controlled by Pfizer and reasonably in its possession as of the effective date of termination and generated in the Development, Manufacture or Commercialization of Continuation Products, at BioNTech's sole expense, subject to a retained
non-exclusive right by Pfizer to use such data for research purposes and to continue prosecution of any Patent Rights Controlled by Pfizer and its Affiliates in the course of conducting its activities under this Agreement.

4. Any supply agreement entered into by the Parties pursuant to the Agreement shall terminate. If Pfizer has, at such time of termination, established its own supply and is capable of supplying the Continuation Product without breaching applicable Law and to the extent not prevented by technical or force majeure

(as defined in Section 12.4 of the Agreement) conditions, and if BioNTech so requests, the Parties shall negotiate in good faith as soon as reasonably possible (with a target date of [***] days from the termination effective date) a supply agreement under which Pfizer would supply BioNTech with transitional supply of such Continuation Product at [***] and on commercially reasonable terms for a commercially reasonable period of time of up to [***]months. During the negotiation period, Pfizer will provide a continued supply of the Continuation Product to BioNTech for BioNTech's demand of Continuation Product for BioNTech's or its Affiliates Development or Commercialization of the Product at [***] (provided that such demand does not exceed Pfizer's anticipated forecasts (prior to termination of this Agreement). The transfer of the applicable Manufacturing process from Pfizer to BioNTech or its designee will be part of the transition planning pursuant to Section 1 above.

5. BioNTech shall have the first right to file, prosecute, maintain, defend and enforce any Product Patent Rights included in the Reversion Technology; provided, however, that if Pfizer requests, Pfizer shall be granted the right to review and comment on such Product Patent Rights.

6. Pfizer shall receive the following percentage of the royalties set forth in the table in Section 3.5.1 of the Agreement in respect of Continuation Product Net Sales during the Continuation Product Royalty Term:

[***]

(A) "Continuation Product Net Sales" shall be on the same basis as if BioNTech was Pfizer in the definition of Net Sales.

(B) "Continuation Product Royalty Term" shall be on the same basis as if BioNTech was Pfizer in the definition of Royalty Term (or defined terms used in that definition).

7. Pfizer shall have the same reporting, audit and other rights with respect to the royalties to be paid by BioNTech to Pfizer under this Schedule 10.7.1(a) as are afforded by Pfizer to BioNTech under the Agreement.

8. Section 3.5.3 of the Agreement would apply *mutatis mutandis* to BioNTech with respect to the Continuation Product, provided, however that:

(A) BioNTech shall maintain its books and records in accordance with IFRS, as consistently applied by BioNTech with respect to sales of the Product, rather than GAAP;

(B) Pfizer shall not be obliged to share or be responsible for any payments to any Third Party in respect of the Candidates or Products under any royalty stacking provisions or Third Party Patents, and BioNTech shall be responsible for all Third Party payment obligations and responsibilities concerning Third Party Patents; and

	(C)	BioNTech shall be responsible for and indemnify Pfizer for any breach or liability arising under any agreement between Pfizer and a Third Party concerning Patent Rights licensed in by Pfizer in connection with any Candidate or Product.

COLLABORATION & LICENSE AGREEMENT

This Collaboration & License Agreement (this "**Agreement**") is dated as of October 9th 2018 (the "**Effective Date**") by and between The Trustees of the University of Pennsylvania, a Pennsylvania nonprofit corporation ("**Penn**"), and BioNTech RNA Pharmaceuticals GmbH, a German corporation having its principal office at An der Goldgrube 12, 55131 Mainz, Germany ("**Licensee**"). Penn and Licensee may be referred to herein as a "**Party**" or, collectively, as "**Parties**".

RECITALS:

WHEREAS, Licensee is a biopharmaceutical company with expertise in the development, manufacture and commercialization of mRNA vaccines, including RNA synthesis, formulation and GMP manufacturing;

WHEREAS, Penn, through Dr. Drew Weissman and the Weissman Laboratory, have technology and expertise in RNA synthesis and purification, immunogen discovery and development, and the use of mRNA as prophylactic vaccines against infectious diseases; and

WHEREAS, the Research Program contemplated by this Agreement is of mutual interest to Licensee and Penn and furthers the educational, scholarship and research objectives of Penn as a nonprofit, tax-exempt, educational institution, and may benefit Licensee and Penn through the creation or discovery of new inventions and the development and commercialization of Products (as defined below).

NOW, THEREFORE, in consideration of the various promises and undertakings set forth herein, the Parties agree as follows:

ARTICLE 1
DEFINITIONS

Unless otherwise specifically provided herein, the following terms shall have the following meanings:

1.1 "**Acceptance Criteria**" means the target criteria set forth in the Research Plan with respect to the development of any Product; provided that on an Indication-by-Indication basis these criteria shall be deemed to have been achieved no later than upon completion of an IND-ready data package for such Product for such Indication.

1.2	"**Accounting Standards**" means the United States generally accepted accounting principles applied on a consistent basis (GAAP) or the International Financial Reporting Standards (IFRS).
1.3	"**Affiliate**" means a Person that controls, is controlled by or is under common control with a Party, but only for so long as such control exists. For the purposes of this Section 1.2, the word "control" (including, with correlative meaning, the terms "controlled by" or "under the common control with") means the actual power, either directly or indirectly through one or more intermediaries, to direct the management and policies of such Person or entity, whether by the ownership of more than fifty percent (50%) of the voting securities of such entity, or by contract or otherwise.
1.4	"**Arbitration Rules"** has the meaning as set forth in Section 11.10(b).
1.5	"**BioNTech Background IP**" means the BioNTech Background Patents and the BioNTech Background Know-How.

Table of Contents

1.6	"**BioNTech Background Know-How**" means Know-How that (i) is Controlled by Licensee and/or its Affiliates as of the Effective Date or thereafter during the Research Term and (ii) is necessary or reasonably useful for the research, development, manufacturing, use or exploitation of any Product.
1.7	"**BioNTech Background Patents**" means the Patent Rights that are listed on Exhibit A, and any Patent Rights issuing therefrom.
1.8	"**BioNTech Foreground IP**" means the BioNTech Foreground Patents and the BioNTech Foreground Know-How.
1.9	"**BioNTech Foreground Patents**" means any Patent Rights solely conceived or conceived and reduced to practice by Licensee or its subcontractors under the Research Program.
1.10	"**BioNTech Foreground Know-How**" means Know-How solely developed by Licensee or its subcontractors under the Research Program.
1.11	"**BioNTech Materials**" means any biological or chemical materials Controlled by Licensee and provided to Penn under this Agreement.
1.12	"**BioNTech Patent Family"** means Patent Rights that (i) are related to each other through priority claims, (ii) claim or cover one or more Licensed Product or the manufacturing or use thereof, (iii) are Controlled by Licensee and (iv) excludes Penn Patent Rights.

1.13	"**BLA**" means an application submitted to a Regulatory Authority for marketing approval of a product, including (a) a Biologics License Application or New Drug Application submitted to the FDA, (b) a Marketing Authorization Application ("**MAA**") in the European Union, (c) any equivalent or comparable application, registration or certification in any other country or region, or (d) any successor applications or procedures, supplements or amendments that may be submitted with respect to the foregoing.
1.14	"**Calendar Quarter**" mean the respective periods of three (3) consecutive calendar months ending on March 31, June 30, September 30 and December 31 of each Calendar Year.
1.15	"**Calendar Year**" means each successive period of twelve (12) months commencing on January 1 and ending on December 31.
1.16	"**cGLP**" means the current good laboratory practice regulations promulgated by the FDA, published at 21 C.F.R. § 58, and all applicable FDA rules, regulations, orders and guidances and equivalent or comparable non-United States regulations, rules, orders, guidances and standards in the Territory, as applicable, as such current laboratory practices, rules, regulations, orders, guidances and standards may be amended from time to time.
1.17	"**cGMP**" means those current good manufacturing practices promulgated by the FDA, published at 21 C.F.R §§ 210 and 211, and all applicable FDA rules, regulations, orders and guidances, and the requirements with respect to current good manufacturing practices prescribed by the European Community under provisions of "The Rules Governing Medicinal Products in the European Community, Volume 4, Good Manufacturing Practices, Annex 13, Manufacture of Investigational Medicinal Products, July 2003", as such practices, rules, orders, guidances, guidelines, regulations and standards may be amended from time to time.

1.18 "**Clinical Trial**" means a human clinical trial conducted on human subjects that is designed to (a) evaluate whether a pharmaceutical product is reasonably safe for continued testing, (b) investigate the safety and efficacy of the pharmaceutical product for its intended use, and to define warnings, precautions and adverse reactions that may be associated with the pharmaceutical product in the dosage range to be prescribed or (c) support Regulatory Approval of such pharmaceutical product or label expansion of such pharmaceutical product.

2

Table of Contents

1.19 "**Combination Product**" means any Product containing a) at least one Licensed Product and b) at least one additional therapeutically active ingredient that is not a Product; in each case where the foregoing is co-formulated, co-packaged or sold under one price (whether payment of such price is paid to the same or more than one seller). For the avoidance of doubt, adjuvants, including molecular adjuvants or lipid nanoparticles, are not considered therapeutically active ingredients for the purposes of this definition regardless of whether or not such adjuvant or lipid nanoparticle is co-packaged with a Licensed Product.

1.20 "**Commercially Reasonable Efforts**" means the efforts and resources that a similarly situated biopharmaceutical company or research institution, as applicable, would use for its own internally discovered technology of similar commercial potential and similar stage of development, taking into consideration the likely timing of the technology's entry into the market, any patent and other proprietary position and issues of safety and efficacy. For clarity, Commercially Reasonable Efforts will not mean that a Party guarantees that it will actually accomplish the applicable task or objective.

1.21 "**Companion Diagnostic**" means an *ex vivo* medical test used as a companion to a Licensed Product in the Field for diagnosis, screening, or evaluation of a disease, or the progress of, or response to, treatment in the Field.

1.22 "**Controlled**" means, with respect to intellectual property rights, that a Party or one of its Affiliates owns or has a license or sublicense to such intellectual property rights and has the ability to provide to, grant a license or sublicense to, or assign its right, title and interest in and to, such intellectual property rights as provided for in this Agreement without violating the terms of any agreement or other arrangement with any Third Party.

1.23 "**Development Candidate**" means any Product developed under the Research Plan that meets the Acceptance Criteria, and/or for which Licensee decides to enter into the clinical development and file an IND.

1.24 "**Distributor**" means any Third Party that: [***].

1.25 "**Distributor Fees**" means, with respect to a Licensed Product, any consideration received by Licensee or its Affiliates or Sublicensees from a Distributor that is allocable to such Licensed Product [***].

1.26 "**EMA**" means the European Medicines Agency and any successor entity thereto.

1.27 "**FDA**" means the United States Food and Drug Administration and any successor entity thereto.

1.28 "**FD&C Act**" means the United States Federal Food, Drug and Cosmetic Act, as amended.

1.29 "**Field**" means mRNA vaccines and mRNA diagnostics for the diagnosis, detection, evaluation, prophylaxis and treatment of infectious diseases in humans and animals.

1.30 "**First Commercial Sale**" means, on a country-by-country basis, the first Sale of a Licensed Product in such country to a Third Party by Licensee, or any of its Affiliates or Sublicensees, in each case, after all Governmental Approvals have been obtained for such country.

1.31 "**Foreground IP**" means the BioNTech Foreground IP, the Joint Foreground IP, the Penn Foreground IP, and all Research Results.

1.32 "**Foreground Patents**" means any Patent Rights covering any Foreground IP.

1.33 "**Governmental Approval**" means, with respect to a Licensed Product in a country or region, all approvals, licenses, registrations and authorizations of the relevant Governmental Body, if applicable, required for the commercialization of such Licensed Product in such country.

1.34 "**Governmental Body**" means any: (a) nation, principality, state, commonwealth, province, territory, county, municipality, district or other jurisdiction of any nature; (b) federal, provincial, state, local, municipal, foreign or other government; (c) governmental or quasi-governmental authority of any nature (including any governmental division, subdivision, department, agency, bureau, branch, office, commission, council, board, instrumentality, officer, official, representative, organization, unit, body or entity and any court or other tribunal); (d) multi-national or supranational organization or body; or (e) individual, entity, or body exercising, or entitled to exercise, any executive, legislative, judicial, administrative, regulatory, police, military or taxing authority or power of any nature.

1.35 "**IND**" means an Investigational New Drug Application as defined in the FD&C Act and the regulations promulgated thereunder, or (b) the equivalent application to the equivalent regulatory authority in any other regulatory jurisdiction, including a Clinical Trial Authorization ("**CTA**") to the European Medicines Agency, the filing of which is necessary to initiate or conduct clinical testing of a pharmaceutical product in humans in such jurisdiction.

1.36 "**Indication**" means, with respect to the Field, a distinct disease or disorder; in each case regardless of the severity, frequency or route of any treatment. One Indication shall be distinguished from another Indication by reference to the then current World Health Organization (WHO) International Classification of Diseases at the time such Indication is selected for inclusion in the Research Program, as agreed upon by the Parties. Indication consists of Licensed Indications and Research Indications, which shall be listed in Exhibits D and E.

1.37 **"Joint Foreground IP"** means the Joint Foreground Patents and the Joint Foreground Know-How.

1.38	"**Joint Foreground Know-How**" means Know-How that is Controlled by the Parties and developed jointly by Licensee and Penn in the Weissman Laboratory during the Research Term under the Research Program.
1.39	"**Joint Foreground Patents**" means any Patent Rights Controlled by the Parties and conceived or conceived and reduced to practice jointly by Licensee and Penn (or their relevant subcontractors) under the Research Program.
1.40	"**Know-How**" means proprietary and confidential intellectual property, data, results, pre-clinical and clinical protocols and study data, chemical structures, chemical sequences, information, inventions, formulas, trade secrets, techniques, methods, processes, procedures and developments, and regulatory documentation, whether or not patentable; except that "Know-How" does not include Patent Rights claiming any of the foregoing (for as long as such Patent Rights exist).
1.41	"**Law**" or "**Laws**" means all applicable laws, statutes, rules, regulations, ordinances and other pronouncements having the binding effect of law of any Governmental Body.
1.42	"**Licensed Indication**" means an Indication for which a Product has achieved the Acceptance Criteria as determined by the JSC and/or formal notice is provided to Penn as set forth in Section 2.7. Licensed Indications shall be listed in Exhibit D, which exhibit shall be updated by the Parties as new Licensed Indications are added or removed.

Table of Contents

1.43 "**Licensed Product**" means any Product for an Indication covered by a Valid Penn Claim or whose manufacture, import, use, offer for sale or sale would, absent the License, constitute an infringement, inducement of infringement or contributory infringement of any Valid Penn Claim.

1.44 "**MHLW**" means the Ministry of Health, Labor and Welfare of Japan.

1.45 "**Net Revenue**" means the gross monetary consideration received by Penn for a sublicense to a Product developed under this Agreement directed against a terminated Licensed Indication in accordance with the provisions of Section 5.5.4 of this Agreement that would meet the definition of Product if licensed to Licensee under this Agreement less (a) payments made to Penn under sponsored research agreements or research awards, grants and contracts, (b) accrued interest, (c) reimbursement for intellectual property or legal expenses, and (d) reimbursement for research and development costs [***].

1.46 "**Net Sales**" means the gross consideration invoiced or received by Licensee or any of its Affiliates or Sublicensees for Sales of Licensed Product (including any cash amounts plus the fair market value of any other forms of consideration), less the following deductions (to the extent included in and not already deducted from the gross amounts invoiced or otherwise charged) to the extent reasonable and customary and solely related to the sale of the Licensed Product:

(a) trade discounts, including trade, cash and quantity discounts or rebates, credits or refunds;

(b) allowances or credits granted upon claims, returns or rejections of products, including recalls, regardless of the party requesting such recall;

(c) charges included in the gross sales price for freight, insurance, transportation, postage, handling and any other charges relating to the sale, transportation, delivery or return of such Licensed Product;

(d)	customs duties, sales, excise and use taxes and any other governmental charges (including value added tax) actually paid in connection with the transportation, distribution, use or sale of such Licensed Product (but excluding what is commonly known as income taxes);
(e)	rebates and chargebacks or retroactive price reductions made to federal, state or local governments (or their agencies), or any Third Party payor, administrator or contractor, including managed health organizations; and
(f)	payments required by law to be made under Medicaid, Medicare or other government special medical assistance programs (including, but not limited to, payments made under the new “Medicare Part D Coverage Gap Discount Program” and the “Annual Fee on Branded Pharmaceutical Manufacturers”, specific to the Licensed Product for which the deduction is taken).

Even if there is overlap between any of deductions described above, each individual item shall only be deducted once in the overall Net Sales calculation. Each of the above deductions to Net Sales shall be calculated in accordance with the Accounting Standards (with the applicable Accounting Standard used clearly indicated on any reports).

In the event that the Licensed Product is sold as a Combination Product, Net Sales will be determined by multiplying Net Sales of such Combination Product by the fraction A/(A+B), where A is the invoice price of the Licensed Product, when sold separately, and B is the invoice

price of any other therapeutically active ingredient(s) in the combination, when sold separately, in each case in the same country and similar class, purity and dosage as in the Combination Product. If, on a country-by-country basis, the Licensed Product or the other therapeutically active ingredient that is not a Product in the Combination Product is/are not sold separately in such country, Net Sales shall be determined by multiplying actual Net Sales of such Combination Product by the fraction C/(C+D), where C is the fair market value of the Licensed Product portion of such combination and D is the fair market value of the other therapeutically active ingredient that is not a Product (such fair market value is to be determined by mutual agreement of the Parties or, in the absence of such mutual agreement, by a neutral Third Party).

1.47 "**Option Patents**" means the Patent Rights Controlled by Penn that are listed on Exhibit F, and any Patent Rights issuing therefrom.

1.48 "**Patent Rights**" means patents and patent applications, together with any unlisted patents and patent applications claiming priority thereto, and any continuations, continuations-in-part (to the extent related directly to the subject matter of the parent application or containing new information developed pursuant to the Research Program), reissues, reexamination certificates, substitutions, divisionals, supplementary protection certificates, renewals, registrations, extensions including all confirmations, revalidations, patents of addition, PCTs, and pediatric exclusivity periods and all foreign counterparts thereof, and any patents issued or issuing with respect to any of the foregoing.

1.49 "**Penn Background IP**" means the Penn Background Patents and the Penn Background Know-How.

1.50 "**Penn Background Know-How**" means Know-How that (i) is Controlled by Penn and a) existing in the Weissman Laboratory as of the Effective Date or b) developed by Penn in the Weissman Laboratory thereafter during the Research Term but outside of the Research Program and (ii) is necessary or reasonably useful for the research, development, manufacturing, use or exploitation of any Product in the Field (excluding Penn Foreground Know-How).

1.51 "**Penn Background Patents**" means the Patent Rights Controlled by Penn that are listed on Exhibit B, and any Patent Rights issuing therefrom.

1.52 "**Penn Foreground IP**" means the Penn Foreground Patents and the Penn Foreground Know How.

1.53 "**Penn Foreground Know-How**" means Know-How that (i) is Controlled by Penn and developed by Penn in the Weissman Laboratory during the Research Term under the Research Program and (ii) is necessary or reasonably useful for the research, development, manufacturing, use or exploitation of any Product in the Field.

1.54 "**Penn Foreground Patents**" means any Patent Rights Controlled by Penn and solely conceived or conceived and reduced to practice by Penn or its subcontractors under the Research Program.

1.55 "**Penn Know-How**" means (a) the Penn Background Know-How, (b) the Penn Foreground Know-How, and (c) Penn's interest in the Joint Foreground Know-How.

1.56 "**Penn Materials**" means any biological or chemical materials Controlled by Penn and provided to Licensee under this Agreement, including any progeny or unmodified derivatives thereof, including without limitation, portions and sequence information, made, used or developed by or on behalf of Licensee.

Table of Contents

1.57 "**Penn Patent Family**" means Penn Patent Rights that (i) are related to each other through priority claims, and (ii) claim or cover one or more Licensed Product or the manufacturing or use thereof.

1.58 "**Penn Patent Rights**" means (a) the Penn Background Patents, (b) the Penn Foreground Patents, (c) the Joint Foreground Patents and (d) Third Party Patents.

1.59 "**Person**" means any natural person, corporation, firm, business trust, joint venture, association, organization, company, partnership or other business entity, or any government or agency or political subdivision thereof.

1.60 "**Phase 1 Study**" means a Clinical Trial of a Licensed Product in patients with the primary objective of characterizing its safety, tolerability, and pharmacokinetics and identifying a recommended dose and regimen for future studies as described in 21 C.F.R. § 312.21(a), or a comparable Clinical Trial prescribed by the relevant regulatory authority in a country other than the United States. The Licensed Product can be administered to patients as a single agent or in combination with other investigational or marketed agents.

1.61 "**Phase 1/2 Study**" means a Clinical Trial of a Licensed Product in diseased patients that satisfies the requirements of a Phase 1 Study and a Phase 2 Study.

1.62 "**Phase 2 Study**" means a Clinical Trial of a Licensed Product in patients with the primary objective of characterizing its activity in a specific disease state as well as generating more detailed safety, tolerability, and pharmacokinetics information as described in 21 C.F.R. § 312.21(b), or a comparable Clinical Trial prescribed by the relevant regulatory authority in a country other than the United States including a human Clinical Trial that is also designed to satisfy the requirements of 21 C.F.R. § 312.21(a) or corresponding foreign regulations and is subsequently optimized or expanded to satisfy the requirements of 21 C.F.R. § 312.21(b) (or corresponding foreign regulations) or otherwise to enable a Phase 3 Study (e.g., a phase 1/2 trial). The relevant Licensed Product may be administered to patients as a single agent or in combination with other investigational or marketed agents.

1.63 "**Phase 2/3 Study**" means a Clinical Trial of a Licensed Product in diseased patients that satisfies the requirements of a Phase 2 Study and a Phase 3 Study.

1.64	"**Phase 3 Study**" means a Clinical Trial of a Licensed Product in patients that incorporates accepted endpoints for confirmation of statistical significance of efficacy and safety with the aim to obtain regulatory approval in any country as described in 21 C.F.R. § 312.21(c), or a comparable Clinical Trial prescribed by the relevant regulatory authority in a country other than the United States. The relevant Licensed Product may be administered to patients as a single agent or in combination with other investigational or marketed agents.
1.65	"**Product**" means any article, composition, substance, or any other material identified, discovered or developed under the Research Program that incorporates, consists of, is made through use of, or otherwise uses a formulated mRNA or a defined combination of formulated mRNAs encoding one or more immunogens for applications in the Field.
1.66	"**Program Data**" means the data resulting from the performance of the Research Program.
1.67	"**Regulatory Approval**" means, with respect to a product in any regulatory jurisdiction, approval from the applicable Regulatory Authority sufficient for the manufacture, commercialization, use, marketing and sale of such pharmaceutical product in such jurisdiction in accordance with Laws. "Regulatory Approval" does not include authorization by a Regulatory Authority to conduct named patient, compassionate use or other similar activities.

Table of Contents

1.68 "**Regulatory Authority**" means any Governmental Authority, including the FDA, EMA or MHLW, or any successor agency thereto, that has responsibility for granting any licenses or approvals or granting pricing or reimbursement approvals necessary for the marketing and sale of a pharmaceutical product in any country.

1.69 "**Research Indication**" means an Indication for which Products are being developed under the Research Program prior to achievement of the Acceptance Criteria. The initial Research Indications are listed in Exhibit E attached hereto, which shall be updated by the Parties as Research Indications are added or removed.

1.70 "**Research Plan**" means the research plan setting forth the Parties' roles and responsibilities for the Research Program as set forth in Exhibit C hereto, respectively, and as may be agreed upon by the JSC and amended from time to time by the JSC.

1.71 "**Research Program**" means the research and development program of Products in the Field funded by Licensee and to be conducted by the Parties hereunder in accordance with the Research Plan.

1.72 "**Research Results**" means all any and all information, inventions, developments, animate and inanimate materials, including live animals, discoveries, software, know-how, methods, techniques, formulae, data, software, processes, methodologies, techniques, biological materials, software and works of authorship, whether patentable or copyrightable, that are first conceived, discovered, developed or reduced to practice, or generated in the performance of the Research Program, including any unpatentable inventions discovered, developed or conceived in the conduct of the Research Program. Research Results expressly exclude any Foreground Patents.

1.73	"**Sale**" means any transaction for which consideration is received or expected by Licensee, its Affiliates or Sublicensees for sale, use, lease, transfer or other disposition of a Licensed Product to or for the benefit of a third party. For clarity, sale, use, lease, transfer or other disposition of a Licensed Product by Licensee or any of its Affiliates or Sublicensees to another of these entities for resale by such entity to a third party shall not be deemed a Sale. For the avoidance of doubt, the provision of a Licensed Product for clinical studies, named patient or similar programs or compassionate use prior to the grant of a Governmental Approval shall not be regarded as First Commercial Sale.
1.74	"**Sublicense**" means any sublicense granted by Licensee to another Person, in whole or in part, under its rights received under the License, as permitted under Section 3.4, but excluding any Person acting solely as a contract manufacturer or contract research organization on behalf of Licensee or its Affiliates or Sublicensees and for clarity not marketing or selling Licensed Product. The term Sublicense shall include any grant of rights under the License by a Sublicensee to any downstream Third Party, and such applicable downstream Third Party shall be considered a Sublicensee for purposes of this Agreement.
1.75	"**Sublicensee**" means a Person (including any Affiliate) to which a Sublicense is granted pursuant to the terms of Section 3.4.
1.76	"**Sublicense Documents**" means any and all agreements, amendments or written understandings entered into with a Sublicensee or any of its Affiliates pertaining to a Sublicense.
1.77	"**Sublicense Income**" means income received by Licensee or its Affiliates in consideration for a Sublicense granted to a Third Party. Sublicense Income includes income received from a Third Party Sublicensee in the form of license issue fees, milestone payments and the like but specifically excludes [***].

Table of Contents

1.78	"**Tax**" means all taxes, duties, fees, premiums, assessments, imposts, levies, rates, withholdings, dues, government contributions and other charges of any kind whatsoever, whether direct or indirect, together with all interest, penalties, fines, additions to tax or other additional amounts, imposed by any Governmental Body.
1.79	"**Territory**" means worldwide.
1.80	"**Third Party**" means any Person other than Penn, Licensee or any of their respective Affiliates.
1.81	"**Third Party Patents"** means Third Party Patent Rights in the Field directly related to the Research Program or any Licensed Product that are in-licensed by Penn pursuant to Section 2.2.7 during the Research Term, to the extent Controlled by Penn and added to the Agreement as Exhibit K. For clarity, Third Party Patent Rights under this Agreement does not include any Patent Rights that are jointly owned by Penn and a Third Party.
1.82	"**United States**" or "**US**" means the United States of America, its territories and possessions.
1.83	"**USD**" or "**$**" means the lawful currency of the United States of America.
1.84	"**Valid Claim**" means a claim of (i) a good faith patent application pending for less than [***] from the filing date of such patent application, or (ii) an issued patent, in each case of (i) and (ii) which has not expired or lapsed, or been cancelled, abandoned or dedicated to the public and which has not been disclaimed, cancelled, or held invalid or unenforceable by a court or administrative agency of competent jurisdiction from which no further appeal can be taken or was timely taken.
1.85	"**Valid Penn Claim**" means a Valid Claim in any of the Penn Patent Rights but excluding a Valid Claim in a Third Party Patent.
1.86	"**Weissman Laboratory**" means all individuals within the Weissman Laboratory at Penn that report directly to or are under the direct supervision or control of Drew Weissman, MD or any successor.

1.87

Other Terms. The definition of each of the following terms is set forth in the section of the Agreement indicated below:

Defined Term	Section
Advance Payment	6.3.3
Agreement	Introductory Clause
Alliance Management Fee	4.2
Arbitration Rules	11.10
BioNTech/mRT License	4.3.1
Cellscript	4.3.1
Commercial Milestone	4.3.3(a)
Commercial Milestone Payment	4.3.3(a)
Confidential Information	7.1
CTA	1.35
Development Milestone	4.3.2(a)
Development Milestone Payment	4.3.2(a)

ARTICLE 2
COLLABORATION PROGRAMS; GOVERNANCE

2.1 **Overall Project.** The Parties desire to collaborate with respect to the research and development of Products, as set forth in more detail in this Article 2, with the goal of identifying one or more Development Candidates for clinical development and commercialization in the Field.

2.2 **Research.**

2.2.1 Under the Research Program, the Parties will use Commercially Reasonable Efforts to develop Products that meet the Acceptance Criteria for up to ten (10) Indications in the Field. The Research Program will be performed in accordance with the Research Plan and the other terms and conditions of this Agreement. Unless otherwise agreed in the Research Plan, Penn will be responsible for the conduct of the Research Plan for the research and development work up to completion of IND enabling studies, including animal model development, and IND supporting preclinical work (toxicology and pharmacokinetics) of Products within the Field, and Licensee shall be responsible for the manufacture of mRNA amounts in excess [***] to support pre-clinical studies and IND-enabling studies.

2.2.2 The Research Program shall begin on the Effective Date and continue for a period of [***] years, unless otherwise mutually agreed by the Parties ("**Research Term**"). Notwithstanding the foregoing, the Research Term shall end immediately upon termination or conclusion of funding provided by Licensee to Penn to conduct the Research Program.

2.2.3	All personnel, contractors and others who participate in the conduct of the Research Program on behalf of either Party shall be bound by confidentiality obligations that are at least as restrictive as the confidentiality obligations set forth in this Agreement and are consistent with the intellectual property assignment provisions set forth in this Agreement during the Research Term. For all researchers working on the Research Program in the Weissman Laboratory, such confidentiality obligations shall be agreed in writing.
2.2.4	The JSC shall review the Research Plan (i) within [***] of the Effective Date, and (ii) thereafter at least once per Calendar Year or upon request by either Party in accordance with Section 2.3.1. The JSC may discuss and approve amendments the Research Plan at any time, including amendments to include further activities, including corresponding revisions to the budget.

2.2.5	Each Party shall maintain records of its activities and any results obtained under the Research Program in sufficient detail and in good scientific manner appropriate for patent and regulatory purposes to properly reflect all work done and results achieved. Upon reasonable request of Licensee during the Research Term and [***] thereafter, Penn shall provide to Licensee copies of any such records or results (including nonclinical data (*in vitro* and *in vivo*) and mRNA development data and results) generated or obtained under the Research Program. Notwithstanding the above, within [***] days after the conclusion of each year of the Research Program, Penn will provide Licensee with a written report setting forth the research conducted and results obtained. For a period of [***] months after delivery of such written report, and at Licensee's sole cost and expense, Penn shall, through the Weissman Laboratory, provide reasonable technical assistance as Licensee may reasonably request to assist Licensee

in connection with questions arising from such written report; provided, however, that such assistance shall not include performance of any additional activities that are not set forth in the Research Plan.

2.2.6 Through the JSC, during the performance of activities under the applicable Research Plan, the Parties will discuss potential Development Candidates arising out of the applicable Research Program.

2.2.7 In addition to the Research Plan, Penn shall provide to Licensee through the JSC the proposed constructs for a Product such that the Parties may consider known freedom-to-operate issues related thereto. For clarity, this Section 2.2.7 will not change the governance of the Research Program and does not require that Penn engage in a freedom-to-operate analysis with respect to any technology or intellectual property relating to a Product or Penn's performance of the Research Plan. If the Parties identify additional intellectual property owned or controlled by a Third Party that is necessary to develop Products, the JSC will decide which Party, if any, will enter into a license with such Third Party (the "**Third Party License**"). If the Parties agree that the Third Party License shall be concluded by Penn and sublicensed to Licensee hereunder, Licensee shall reimburse to Penn all costs which relate to the license rights sublicensed to Licensee hereunder, provided that Licensee has given its prior written consent to such costs. In all other cases, Licensee will bear all Third Party License costs necessary to achieve freedom-to-operate for any Product. If the Parties cannot agree on which Party shall enter into a Third Party License, Licensee shall have the first right to enter into such Third Party License.

2.2.8	The Parties hereby acknowledge that there are inherent uncertainties involved in the research and development of Products and such uncertainties form part of the business risk involved in undertaking the Research Program. Accordingly, in the event that, at any time during the Research Term and on an Indication-by-Indication basis, the JSC determines that the Parties are not able to develop or identify a suitable Product to propose as a Development Candidate in such Indication, then the JSC may decide to terminate the Research Program with respect to such Indication and such Indication shall immediately be excluded from the license grants to Licensee set forth in Section 3.1 of this Agreement.
2.2.9	Each Party will have the right to engage Third Party subcontractors to perform certain of its obligations under this Agreement; provided that Penn's right to engage commercial Third Party subcontractors is subject to Licensee's prior written consent, which shall not be unreasonably withheld. Any subcontractor to be engaged by either Party to perform a Party's obligations set forth in this Agreement shall meet the qualifications typically required by such Party for the performance of work similar in scope and complexity to the subcontracted activity and will enter into such Party's standard agreement for such activity consistent with such Party's standard practices, subject to modifications to ensure that such agreement shall be as least as protective as the nondisclosure obligations and consistent with the assignment of intellectual property rights set forth herein. Any Party engaging a subcontractor hereunder will remain responsible and obligated for such activities and will not grant rights to such subcontractor that interfere with the rights of the other Party under this Agreement.

2.3 **Funding of the Research Program.**

2.3.1 During the initial Research Term, Licensee intends to provide funding of Twenty Million United States Dollars ($20,000,000) to Penn as a research funding commitment to fund research activities under the Research Program (the "**Research Funding**

Commitment"). The activities to be performed by Penn under the Research Program shall be funded in their entirety by Licensee. All such activities shall be charged at cost. [***]

2.3.2 On the Effective Date, Licensee shall pay to Penn an upfront one-time non-refundable research payment of Five Million United States Dollars ($5,000,000) to start work on the initial development programs under the Research Plan selected by the JSC. Prior to the beginning of each Calendar Year, the Parties, via the JSC, shall estimate, on a per Calendar Quarter basis, what additional funds are required for Penn to perform its activities planned such Calendar Year under the Research Plan (each such amount a "**Quarterly Budget Amount**"). [***]

2.3.3 Penn shall maintain records of the use of the funds provided by Licensee under this Agreement and shall make such records available to Licensee in accordance with the terms of this Agreement including Section 4.10.2. In addition, within [***] days following the end of each Calendar Quarter, Penn shall provide to Licensee a detailed report of all costs incurred by Penn under the Research Plan in the respective previous Calendar Quarter (each such report a "**Quarterly Financial Report**"). [***].

2.3.4 Unless otherwise determined by the JSC, title to any equipment, laboratory animals, or any other tangible materials made or acquired (in whole or in part) with funds provided under this Agreement will vest in Penn, and such equipment, animals, or tangible materials will remain the property of Penn following termination or expiration of this Agreement (but subject to any license grants to Licensee hereunder).

2.3.5 Licensee will be responsible, at its sole cost and expense, for the manufacture of mRNA in amounts in excess of [***].

2.4 **Unavailability of Dr. Drew Weissman.** If Drew Weissman, MD becomes unavailable to oversee and support the performance of the activities under the Research Plan for any reason, Penn may propose another member of its faculty to oversee the performance of the Research Program whom Licensee may accept nor not in its sole discretion. If a substitute faculty member acceptable to Licensee has not been agreed upon within [***] days after Drew Weissman, MD is no longer available to oversee and support the performance of the Research Plan, Licensee may terminate this Agreement upon written notice thereof to Penn, subject to the provisions of Article 10.

2.5 **Transfer of Materials.** Upon reasonable request of Licensee, Penn shall transfer to Licensee a portion or sample of any materials generated or obtained under the Research Program. All Penn Materials and BioNTech Materials shall be transferred by the Parties pursuant to a material transfer protocol to be executed by both Parties and the terms set forth in this Agreement and the terms of material transfer set forth on Exhibit H. The use of such Penn Materials shall be limited to the rights granted to Licensee herein and in Exhibit H and the use of such BioNTech Materials shall be limited to Penn's performance of the Research Program.

2.6 **Governance.**

2.6.1 **Joint Steering Committee**.

(a) Formation; Composition. Within [***] days of the Effective Date, the Parties will establish a joint steering committee (the "**Joint Steering Committee**" or "**JSC**") comprised of a minimum of two (2) representatives from each Party with sufficient

seniority within the applicable Party to make decisions arising within the scope of the JSC's responsibilities. The Penn JSC will include a representative from the Penn Center for Innovation and the Penn principal investigator. The JSC may change its size from time to time by mutual consent of its members, provided that the JSC will consist at all times of an equal number of representatives of each of Penn and Licensee. Each Party may replace its JSC representatives at any time upon written notice to the other Party.

(b) Specific Responsibilities. The JSC will:

(i) oversee the Research Program;

(ii) determine the Acceptance Criteria;

(iii) determine whether a Product for an Indication satisfies the Acceptance Criteria for such Indication;

(iv) determine whether the development of Products in relation to a specific Research Indication shall be terminated in accordance with Section 2.2.8;

(v) review
freedom-to-operate issues related to proposed constructs of Products;

(vi) on or before October 1 of each year, approve an updated budget, including capital expenditures, in accordance with Section 2.3.1;

(vii) determine and monitor the Quarterly Budget Amounts in accordance with Section 2.3.2,

(viii) consider and decide on any amendments to the Research Plan;

(ix) resolve any disagreement between the Parties relating to the Research Program or Research Plan;

(x)	discuss and decide on the use of any Patent Rights in connection with the Research Program or any Product (including any Penn Patent Rights);
(xi)	designate patent representatives from each Party to consider, and resolve as necessary to the extent possible, any intellectual property matters;
(xii)	oversee, manage, coordinate and integrate the activities of the Parties under the Research Plan;
(xiii)	make key decisions during the progress of the Research Plan;
(xiv)	address any issues identified by Licensee with respect to Third Party intellectual property rights necessary for the performance of the Research Program, including Licensee's analysis of whether a license is required from such Third Party for the exploitation of a Product;
(xv)	decide which Party, if any, will enter into a license with a Third Party to secure rights necessary to develop Products;
(xvi)	establish such additional subcommittees as it deems necessary to achieve the objectives and intent of the Research Program; and
(xvii)	perform such other functions as appropriate, and as agreed in writing by the parties.

(c) Reporting. Each Party shall keep the JSC informed on the progress of the activities under the Research Program then currently ongoing under the Research Plan, including delivering quarterly written updates of its progress under the Research Plan to the JSC at least one (1) week in advance of each JSC meeting.

(d) Meetings. During the performance of the Research Plan, the JSC will meet quarterly. Following the completion of the performance under the Research Plan, the Parties may agree to meet to discuss items previously addressed by the JSC. The JSC may meet in person, by videoconference or by teleconference. Notwithstanding the foregoing, at least two (2) meetings per Calendar Year will be in person unless the parties mutually agree in writing to waive such requirement.
In-person JSC meetings will be held at locations alternately selected by Penn and by Licensee. Meetings of the JSC will be effective only if all representatives of each Party are present or participating in such meeting, and each Party shall use Commercially Reasonable Efforts to ensure that all representatives of each Party are present and participate in every meeting. The JSC shall keep accurate minutes of its deliberations which shall record all proposed decisions and all actions recommended or taken. The secretary of the JSC (as appointed by the Licensee) shall be responsible for the preparation of draft minutes. Draft minutes shall be sent to all members of the JSC within [***] working days after each meeting and shall be approved, if appropriate, at the next meeting. All records of the JSC shall at all times be available to both Penn and Licensee.

	(e)	Decision-Making. The representatives from each Party on the JSC will have, collectively, one (1) vote on behalf of that Party, and all decision making will be by unanimous consent of both Parties. If the JSC is unable to reach agreement on any issue or matter for which it is responsible, such disputed matter will be escalated to Licensee's Chief Executive Officer and Penn's Associate Vice Provost for Research or his/her designee, for discussion in good faith. In the event that after escalation the Parties are unable to reach agreement with respect to the disputed matter within [***] days, then Licensee shall have the final decision-making authority; provided that Penn and the Weissman Laboratory cannot be forced to conduct work or other activities that it believes to be unsafe or not legally permissible. [***]
	2.6.2	**Joint IP Sub-Committee**. The Parties will establish a joint intellectual property sub-committee (the "**Joint IP Sub-Committee**") consisting of an equal number of members from each Party, and such Joint IP Sub-Committee will oversee and steer intellectual property filings, prosecution, management and freedom-to-operate analysis; however, the Joint IP Sub-Committee shall have no authority to make financial decisions. The representatives from each Party on the Joint IP Sub-Committee will have, collectively, one (1) vote on behalf of that Party, and all decision making will be by unanimous consent by the Parties. Disputes at the Joint IP Sub-Committee will be referred to the JSC for resolution.

2.7 **Licensed Indication Election.** During the Research Term, on a Research Indication-by-Research Indication basis, the JSC shall determine if the Acceptance Criteria have been achieved for a Product for such Research Indication. Upon achievement of the Acceptance Criteria for a Product for a specific Research Indication, Licensee may elect, by providing Penn with formal written notice, to convert such Research Indication to a Licensed Indication within [***], provided, however, that Licensee shall not be obligated to make an election decision for more than one (1) Research Indication in any [***] time period following the achievement of the Acceptance Criteria for the first Product as determined by the JSC [***].

Table of Contents

ARTICLE 3
LICENSES AND OTHER RIGHTS

3.1 **Grant of License to Licensee.** Subject to the terms and conditions of this Agreement, Penn hereby grants to Licensee and its Affiliates (the "**License**"):

3.1.1 an exclusive (even as to Penn but subject to Section 3.2), worldwide, royalty-bearing right and license (with the right to sublicense (through multiple tiers) as provided in, and subject to, the provisions of Section 3.4) under Penn's interest in the Penn Patent Rights which are necessary or useful, to research, develop, make, have made, use, sell, offer for sale, commercialize and import Products in the Field in the Territory for the Licensed Indications during the Term;

3.1.2 a non-exclusive, worldwide, royalty-bearing right and license (with the right to sublicense (through multiple tiers) as provided in, and subject to, the provisions of Section 3.4) under Penn Know-How and Penn Materials to the extent necessary or useful to research, develop, make, have made, use, sell, offer for sale, commercialize and import Products in the Field in the Territory for the Licensed Indications during the Term; and

	3.1.3	an exclusive (even as to Penn but subject to Section 3.2), worldwide right and license (without the right to sublicense) under Penn's interest in the Penn Patent Rights and a non-exclusive, worldwide right and license (without the right to sublicense) under Penn Know-How and Penn Materials, in each case which are necessary or useful, to research and develop Products in the Field in the Territory for the Research Indications during the Research Term.
3.2		**Retained Rights and Grant of License to Penn.** Notwithstanding the License set forth in Section 3.1, Penn retains the right under the Penn Patent Rights and the Foreground IP (including Penn Materials which have been generated under the Research Program) to: (a) conduct educational, research and patient care activities itself and (b) authorize non-commercial Third Parties to conduct educational, research and patient care activities. For clarity, the foregoing retained rights of Penn are in all fields (including the Field). Licensee hereby grants to Penn a non-exclusive license to Licensee's interest in BioNTech Foreground IP and Joint Foreground IP to conduct educational, research and patient care activities at Penn. Notwithstanding anything in this Section 3.2 to the contrary, the foregoing patient care activities shall not include the use of any Product in the Field outside the conduct of the Research Program.

3.3	**U.S. Government Rights.** The License is expressly subject to all applicable provisions of any license to the United States Government executed by Penn and is subject to any overriding obligations to the United States Federal Government under 35 U.S.C. §§200-212 or applicable governmental implementing regulations or guidelines, including the requirement that products that result from intellectual property funded by the United States Federal Government that are sold in the United States be substantially manufactured in the United States. In the event that Licensee believes in good faith that substantial manufacture of such product is not commercially feasible in the United States and makes a request to Penn in writing to assist in obtaining a waiver of such requirement from the United States Government, then Penn shall, at the expense of Licensee with respect to Penn's documented out-of-pocket expenses, use reasonable efforts to assist in obtaining such waiver.

Table of Contents

3.4 **Grant of Sublicense by Licensee.**

3.4.1 Penn grants to Licensee the right to grant Sublicenses (through multiple tiers), in whole or in part, under the License in Sections 3.1.1 and 3.1.2 subject to the terms and conditions of this Agreement and specifically this Section 3.4.

3.4.2 All Sublicenses will be (a) issued in writing, (b) to the extent applicable, include all of the retained rights of Penn and the U.S. Government pursuant to Section 3.2 and 3.3 and (c) shall explicitly list all Products, and include no less than the following terms and conditions, and in each such instance shall be consistent with the provisions applicable to Licensee under this Agreement:

(i) Reasonable record keeping, audit and reporting obligations sufficient to enable Licensee to reasonably verify the payments due to Licensee under such Sublicense and to reasonably monitor such Sublicensee's progress in developing and/or commercializing Product, provided that such obligations shall be no less stringent that those provided in this Agreement for Licensee.

(ii) Infringement and enforcement provisions that do not conflict with the restrictions and procedural requirements imposed on Licensee and do not provide greater rights to Sublicensee than as provided in Section 6.4.

(iii) Confidentiality provisions with respect to Confidential Information of Penn consistent with the restrictions on Licensee in Article 7 of this Agreement.

(iv) Covenants by Sublicensee that are equivalent to those made by Licensee in Section 8.3.

(v)	A requirement of indemnification of Penn by Sublicensee that is equivalent to the indemnification of Penn by Licensee under Section 9.1 of this Agreement.
(vi)	A requirement of obtaining and maintaining commercially reasonable insurance by Sublicensee.
(vii)	Restriction on use of Penn's names etc. consistent with Section 11.4 of this Agreement.

Any Sublicense that does not include all of the terms and conditions set forth in this Section 3.4.2 or which is not issued in accordance with the terms and conditions set forth in this Section 3.4, shall be considered null and void with no further notice from Penn.

3.4.3	Within [***] after the execution of a Sublicense Document, Licensee shall provide a complete and accurate copy of such Sublicense Document to Penn (which copy may be redacted solely to remove confidential information of Licensee that is not applicable to determining compliance with this Agreement and confidential information of such Sublicensee), in the English Language, and such copies will be the Confidential Information of Licensee and may only be used to determine Licensee's compliance with this Agreement. Penn's receipt of a Sublicense Document, however, will constitute neither an approval nor disapproval of the Sublicense Document nor a waiver of any right of Penn or obligation of Licensee under this Agreement. In the event Penn cannot, in its reasonable discretion, interpret the Sublicense Document due to the redacted information, Penn may request, and Licensee shall be obligated to provide to Penn counsel a copy of the unredacted Sublicense Document (other than any research and development plans included as an exhibit to such Sublicense Document).

3.4.4 Licensee shall provide an annual Sublicense Development Report on or before December 1 of each year during the Term ("**SDR Report**"), which shall contain the information set forth on Exhibit I attached hereto.

3.5 **No Implied License.** Each Party acknowledges that the rights and licenses granted in this Agreement are limited to the scope expressly granted. Accordingly, except for the rights expressly granted under this Agreement, no right, title, or interest of any nature whatsoever is granted whether by implication, estoppel, reliance, or otherwise, by either Party to the other Party. All rights with respect to any know-how, patent or other intellectual property right rights that are not specifically granted herein are reserved to the owner thereof.

3.6 **Additional Weissman Patent Rights. [***]**.

3.7 **Covenants of Penn.**

3.7.1 During the Research Term, Penn shall not directly (or indirectly through license grant from Penn to a non-commercial Third Party that is sub-licensable or transferrable to a commercial Third Party) grant a license to any commercial Third Party to use any Penn Foreground IP or Joint Foreground IP for development, manufacture, use or exploitation of any Product in the Field without the prior written permission of Licensee. [***].

3.7.2 [***].

3.7.3 [***].

3.7.4 [***].

3.8 **Time-Limited Option.** Subject to the terms and conditions of this Agreement, Penn hereby grants an option to Licensee for **[***]** months after the Effective Date, exercisable through written notice to Penn, to obtain a license under Penn's interest in the Option Patent Rights set forth in Exhibit F to research, develop, make, have made, use, sell, offer for sale, commercialize and import Products in the Field in the Territory for the Licensed Indications during the Term (the "**Option**"). Upon exercise of such Option, the Option Patents shall become Penn Background Patents under this Agreement. During the term of the Option, Licensee shall be responsible for reimbursing Penn for Historical and Ongoing Patent Costs associated with the Option Patents in accordance with Sections 6.3.1 and 6.3.2 of this Agreement. The Option shall terminate immediately if the Agreement is terminated for any reason prior to Licensee's exercise of such Option.

ARTICLE 4
FINANCIAL PROVISIONS

4.1 **Research Funding.** The research funding to be provided by Licensee to Penn in connection with the performance of the Research Program is set forth in Section 2.3.

4.2 **Alliance Management Fee.** During the Research Term, Licensee shall pay Penn an active alliance management fee of [***] to cover all alliance management activities at the Penn Center for Innovation related to managing and overseeing the intellectual property and contractual obligations of Penn under this Agreement (including managing permitted subcontractors and

attending JSC meetings) ("**Alliance Management Fee**"). Such Alliance Management Fee shall be payable to Penn in advance on the Effective Date and each one year anniversary thereafter during the Research Term per contract year to cover all alliance management activities at the Penn Center for Innovation related to managing and overseeing the intellectual property and contractual obligations of Penn under this Agreement (including managing permitted subcontractors and attending JSC meetings). For the avoidance of doubt, the Alliance Management Fee shall be in addition to, and shall not reduce, the Research Funding Commitment. [***] of all Alliance Management Fees paid by Licensee shall be [***].

4.3 **Milestone Payments.**

4.3.1 [***]

4.3.2 **Development Milestones**.

(a)

As consideration for the License, [***] Licensee will pay Penn each of the following milestone payments (each, a "**Development Milestone Payment**") upon the first, second and third achievement of the corresponding milestone by any Licensed Product (assessed on a milestone-by-milestone basis) irrespective of the Licensed Product for which such milestone has been achieved (each, a "**Development Milestone**"), whether achieved by Licensee or an Affiliate or Sublicensee. For the avoidance of doubt, no Development Milestone Payment shall be due upon the fourth, fifth or any subsequent achievement of any of the below milestones in this Section 4.3.2(a). Licensee shall promptly notify Penn in writing of the achievement of any such Development Milestone and Licensee shall pay Penn in full the corresponding Development Milestone Payment within forty-five (45) days of such achievement. For clarity, each Development Milestone Payment is non-refundable, is not an advance against Royalties due to Penn or any other amounts due to Penn. For further clarity, the maximum cumulative amount of Development Milestone Payments potentially payable under this Agreement is [***].

Development Milestone	Milestone Payment (in U.S. dollars, each payable up to three (3) times)	Maximum mRT Offset

Initiation of Phase 1 Study (as defined by the enrollment of the 3rd patient)	[***]	[***]
Initiation of Phase 2 or Phase 1/2 Study (as defined by the enrollment of the 5th patient)	[***]	[***]
Initiation of Phase 3 or Phase 2/3 Study (as defined by the enrollment of the 5th patient)	[***]	[***]
Approval of first BLA	[***]	[***]
Approval of second BLA	[***]	[***]
Approval of third BLA	[***]	[***]

(b)	Each time a Development Milestone is achieved for any Licensed Product, then any other Development Milestone Payments with respect to earlier Development Milestones for the same Licensed Product that have not yet been paid will be due and payable together with the Development Milestone Payment for the Development Milestone that is achieved.

(c) Each Development Milestone in the Table above will be payable for the first three (3) Licensed Products to achieve such Development Milestone and for no Licensed Product thereafter.

4.3.3 **Commercial Milestone Payments**.

(a) As additional consideration for the License [***] Licensee will pay Penn the following commercial milestone payments (each, a "**Commercial Milestone Payment**") on a Licensed Product-per-Licensed Product basis upon the achievement of the corresponding milestone (each, a "**Commercial Milestone**"), whether achieved by Licensee or an Affiliate, or a combination of Licensee and/or an Affiliate. Licensee shall promptly notify Penn in writing of the achievement of any such Commercial Milestone and Licensee shall pay Penn in full the corresponding Commercial Milestone Payment within forty-five (45) days of such achievement. For clarity, each Commercial Milestone Payment is non-refundable and is not an advance against Royalties due to Penn or any other amounts due to Penn.

Commercial Milestone Event	Milestone Payment (U.S. Dollars, each payable once per Licensed Product)	Maximum mRT Offset

Worldwide annual Net Sales of a Licensed Product by Licensee and/or Affiliates equal or exceed [***] US Dollars	[***]	[***]
Worldwide annual Net Sales of a Licensed Product by Licensee and/or Affiliates equal or exceed [***] US Dollars	[***]	[***]
Worldwide annual Net Sales of a Licensed Product by Licensee and/or Affiliates equal or exceed [***] US Dollars	[***]	[***]

(b) For clarity, each of the foregoing Commercial Milestone Payments shall only be due once per Licensed Product and Net Sales made by any Third Party Sublicensee shall be disregarded in the calculation of the Commercial Milestone event.

4.4 **Royalties.**

4.4.1 **Royalty**. As further consideration for the License [***] during the Royalty Term, Licensee shall pay to Penn a non-refundable, non-creditable royalty of [***] on worldwide annual Net Sales for all Licensed Products sold by Licensee, its Affiliates, or Sublicensees ("**Royalty**").

4.4.2 **Royalty Term**. Licensee's obligations to pay Penn the Royalty will continue on a country-by country and Licensed Product-by-Licensed Product basis from the date of the First Commercial Sale of such Licensed Product in such country until the expiration or abandonment of the last Valid Penn Claim within the Penn Patent Rights in the country in which such Licensed Product is made, used, imported, or sold (such term, the "**Royalty Term**").

Table of Contents

4.4.3 **Licensed Products for Animal Health, Diagnostics and Companion Diagnostics**.

(a) Licensed Products developed and sold solely (i) for animal health applications or (ii) as diagnostic tests shall not be subject to the Development Milestones and Commercial Milestones set forth in Section 4.3 and shall only be subject to the Royalty payment to Penn as set forth in Section 4.4.1 above.

(b) Licensed Products that are developed and sold solely as Companion Diagnostics shall not be subject to Development Milestones, Commercial Milestones or Royalty payments.

4.4.4 **Reductions for Third Party Licenses.** If Licensee determines upon the advice of independent intellectual property counsel that a license to Patent Rights from a Third Party is necessary to develop, make, have made, use, sell, offer for sale, commercialize or import a Licensed Product, Licensee may obtain such a Third Party license to such Patent Rights. Licensee may deduct from any Royalty payments due to Penn under Section 4.4.1 of this Agreement an amount equal to [***] of any royalty paid by Licensee to a Third Party on Sales of a particular Licensed Product in a particular country under a Third Party license obtained by Licensee pursuant to this Section 4.4.4 ("**Reduction License**"); provided that the royalty deductions shall not reduce the Royalty payable to Penn to less than [***].

	4.4.5	**Distributor Fees.** With respect to any Distributor Fees received by Licensee or its Affiliates or Sublicensees with respect to a Licensed Product in any Calendar Quarter, Licensee shall pay to Penn [***] of all such Distributor Fee [***].
	4.4.7	**Calculations**. Licensee must pay Royalties owed to Penn on a Calendar Quarter basis on or before the following dates:
	(a)	February 28 for any Sales that took place on or before the last day of the Calendar Quarter ending December 31, of the prior year;
	(b)	May 31 for any Sales that took place on or before the last day of the Calendar Quarter ending March 31 of such calendar year;
	(c)	August 31 for any Sales that took place on or before the last day of the Calendar Quarter ending June 30 of such calendar year; and
	(d)	November 30 for any Sales that took place on or before the last day of the Calendar Quarter ending September 30 of such calendar year; or
	(e)	In case of Royalties on Sublicense Income, on or before the dates specified in Section 4.5.5.
4.5	**Penn Sublicense Income.**	

4.5.1 **Sublicense Income A**. As further consideration for the License, Penn will receive a percentage of all Sublicense Income assessed on a Licensed Product-by-Licensed Product basis for the [***] Licensed Products sublicensed to any Third Party Sublicensee (including, for clarity, commercial sales milestones), tiered according to the schedule set forth in Section 4.5.3 below ("**Sublicense Income A**"). [***]. Any payments made by Licensee to Penn under Section 4.5.1 shall be credited towards future Development Milestone payments under Section 4.3.2. [***].

4.5.2 **Sublicense Income B**. As further consideration for the License, Penn will receive a percentage of Sublicense Income from commercial sales milestones assessed on a Licensed Product-by-Licensed Product basis for the [***] Licensed Product sublicensed to any Third Party Sublicensee, tiered according to Section 4.5.3 below ("**Sublicense Income B**"). [***].

4.5.3 Subject to the respective caps and other stipulations in Sections 4.5.1 and 4.5.2 above, Licensee will pay to Penn the following percentage of Sublicense Income A and Sublicense Income B received by Licensee (the "**Penn Sublicense Income Share**"), on a Licensed Product-by-Licensed Product basis:

[***]

4.5.4 When multiple products are being licensed under a Sublicense, [***], the relative value of the sublicensed products will be based on the stage of development of each product at the time of Sublicensing, and weighted in accordance with the following chart:

[***]

4.5.5 Licensee will make such payment to Penn on or before the following dates:

(a) February 28 for any Sublicense Income received by Licensee on or before the last day of the Calendar Quarter ending December 31, of the prior year;

(b) May 31 for any Sublicense Income received by Licensee on or before the last day of the Calendar Quarter ending March 31 of such calendar year;

(c) August 31 for any Sublicense Income received by Licensee on or before the last day of the Calendar Quarter ending June 30 of such calendar year; and

(d) November 30 for any Sublicense Income received by Licensee on or before the last day of the Calendar Quarter ending September 30 of such calendar year.

4.6 **Mode of Payment and Currency.** All payments to Penn hereunder shall be made by deposit of USD in the requisite amount to the "The Trustees of the University of Pennsylvania" and will be made by delivery to any one of the following:

For funding of the performance of the Research Program by Penn:

By ACH/Wire:
[***]

For all other payments to Penn under this Agreement:

By ACH/Wire:
[***]

By Check (lockbox):
[***]

All payments owed to Penn by Licensee will be invoiced by Penn in the format provided in Exhibit L. Payments under this Agreement shall be made in USD. All Royalties, Commercial Milestones, and Penn Sublicense Income Share payable shall be calculated first in the currency of the jurisdiction in which payment was made, and if not in the United States, then converted into USD. The exchange rate for such conversion shall be the average of the rate quoted in The Wall Street Journal for the last business day of each month in the Calendar Quarter for such Royalty payment made.

4.7 **Royalty and Sublicense Income Reports.** Within sixty (60) days after the end of each Calendar Quarter, Licensee shall deliver to Penn a report ("**License Fee Report**") setting out all details necessary to calculate the Royalty and the Penn Sublicense Income Share due under this Article 4 for such Calendar Quarter, including:

4.7.1 Number of the Licensed Products Sold by Licensee, its Affiliates and Sublicensees in each country and the corresponding name of each such Licensed Product;

4.7.2 Gross sales, Net Sales of each Licensed Product made by Licensee, its Affiliates and Sublicensees;

4.7.3 Royalties (including calculation of any applicable mRT Offset) or (only if applicable) the [***].

4.7.4 Distributor Fees for Licensed Product;

4.7.5	Sublicense Income and the calculation of the Penn Sublicense Income Share broken down by Sublicense Income A and Sublicense Income B, the respective caps on such Sublicense Income and any credits being applied to unpaid Development Milestones based on the Penn Sublicense Income Share paid to Penn;

4.7.6 The method and currency exchange rates (if any) used to calculate the Royalties and the Penn Sublicense Income Share;

4.7.7 A specification of all deductions and their dollar value that were taken to calculate Net Sales;

4.7.8 A list of all countries in which Licensed Product is being manufactured (on a product by product basis); and

4.7.9 Date of First Commercial Sale in the United States (this needs only to be reported in the first royalty report following such First Commercial Sale in the United States).

Each License Fee Report shall be substantially in the form of the sample report attached hereto as Exhibit J.

4.8 **Late Payments.** In addition to any other remedies available to Penn, including the right to terminate this Agreement, any failure by Licensee to make an undisputed (in good faith) payment within [***] days after the date when due shall obligate Licensee to pay computed interest, the interest period commencing on the due date and ending on the actual payment date, to Penn at a rate per annum equal to [***].

4.9 **Accounting.** Each Party shall calculate all amounts, and perform other accounting procedures required, under this Agreement and applicable to it in accordance with Accounting Standards.

4.10 **Books and Records.**

4.10.1 Licensee will keep accurate books and records of all Licensed Products developed, manufactured or sold and all Sublicenses entered into by Licensee that involve Penn Patent Rights. Licensee will preserve these books and records for at least [***] years from the date to which they pertain.

4.10.2 Penn will keep accurate books and records of all work performed under the Research Program. Penn will preserve these books and records for at least [***] from the date to which they pertain.

4.11 **Audits.**

4.11.1 Penn, at its own cost, through an independent auditor reasonably acceptable to Licensee (and who has executed an appropriate confidentiality agreement reasonably acceptable to Licensee that requires the auditor to keep any information learned by it confidential except as needed to report its audit conclusions to Penn), may inspect and audit only the relevant records of Licensee pertaining to the calculation of any Milestones, Royalties and Penn Sublicense Income Share due to Penn under this Agreement. Licensee shall provide such auditors with reasonable access to the records during reasonable business hours and at mutually agreed upon times. Such access need not be given to any such set of records more often than once each year, not more frequently than once with respect to records covering any specific period of time and not more than [***] years after the date of any report to be audited. Penn shall provide Licensee

with written notice of its election to inspect and audit the records related to the Milestones, Royalties and Penn Sublicense Income Share due hereunder not less than [***] days prior to the proposed date of review of Licensee's records by Penn's auditors. Should the auditor find any underpayment of Milestones, Royalties or Penn Sublicense Income Share by Licensee, Licensee shall (a) promptly pay Penn the amount of such underpayment; and (b) reimburse Penn for the cost of the audit, if such underpayment equals or exceeds [***] of the total Milestones, Royalties and Penn Sublicense Income Share paid during the time period audited. If the auditor finds overpayment by Licensee, then Licensee shall have the right to deduct the overpayment from any future Milestones, Royalties or Penn Sublicense Income Share due to Penn by Licensee or, if no such future Milestones, Royalties or Penn Sublicense Income Share are payable, then Penn shall refund the overpayment to Licensee within [***] days after Penn receives the audit report. Licensee may designate competitively sensitive information which such auditor may see and review but which it may not disclose to Penn; provided, however, that such designation shall not restrict the auditor's investigation or conclusions.

	4.11.2	Licensee, at its own cost, through an independent auditor reasonably acceptable to Penn (and who has executed an appropriate confidentiality agreement reasonably acceptable to Penn that requires the auditor to keep any information learned by it confidential except as needed to report its audit conclusions to Licensee), may inspect and audit only the relevant records of Penn pertaining to the costs and expenses incurred by and reduction of Royalties due to Penn under this Agreement. Penn shall provide such auditors with reasonable access to the records during reasonable business hours at mutually agreed upon times. Such access need not be given to any such set of records more often than once each year, not more frequently than once with respect to records covering any specific period of time and not more than [***] years after the date of any report to be audited. Licensee shall provide Penn with written notice of its election to inspect and audit such records not less than [***] days prior to the proposed date of review of Penn's records by Licensee's auditors. Should the auditor find any over reporting of costs and expenses or underreporting of reduction of Royalties, then Penn shall promptly issue to Licensee a credit against future payments due or, in the case that no future payments are expected, issue a refund, in each case, in the amount of such overpayment. If the auditor finds underpayment by Licensee to Penn, then Licensee shall pay the difference between the underpayment and the actual payment made for the relevant time period to Penn within [***] days after Licensee receives the audit report. Penn may designate competitively sensitive information which such auditor may see and review but which it may not disclose to Licensee; provided, however, that such designation shall not restrict the auditor's investigation or conclusions.
4.12	**Withholdings.**	

4.12.1	Licensee may withhold from payments due to Penn amounts for payment of any withholding tax that is required by Law to be paid to any taxing authority with respect to such payments. Licensee will provide Penn all relevant documents and correspondence, and will also provide to Penn any other cooperation or assistance on a reasonable basis as may be necessary to enable Penn to claim exemption from such withholding taxes and to receive a refund of such withholding tax or claim a foreign tax credit. Licensee will give proper evidence from time to time as to the payment of any such tax. The Parties will cooperate with each other in seeking deductions under any double taxation or other similar treaty or agreement from time to time in force.

	4.12.2	Apart from any such permitted withholding and those deductions expressly included in the definition of Net Sales, the amounts payable hereunder will not be reduced on account of any taxes, charges, duties or other levies.

ARTICLE 5

MANUFACTURING, CLINICAL DEVELOPMENT, REGULATORY AFFAIRS; COMMERCIALIZATION

5.1	**Clinical Development.** Licensee will have sole responsibility for and sole decision making over the clinical development of any Product arising from the Research Program in the Field. Notwithstanding the foregoing, if Licensee wishes to conduct clinical development of a Development Candidate at Penn and Penn has the clinical expertise, interest and ability to run such a trial as assessed at Penn's sole discretion, such a study will be conducted under a separate Clinical Trial Agreement to be negotiated by the Parties prior to initiation of such study. Such separate clinical trial agreement will include a detailed clinical development plan, including costs and time lines for conducting the Clinical Trial.
5.2	**Commercialization**. Licensee will have sole responsibility for and sole decision making over all commercialization activities of Products arising from the Research Program in the Field, and will be solely responsible for the associated costs of such commercialization activities.
5.3	**Manufacturing.** Except as otherwise provided in this Agreement or in the Research Plan, Licensee will be responsible for all manufacturing activities and associated costs to support the clinical development (including GMP manufacturing for Clinical Trials) of the Products developed under the Research Program, and commercialization of the Products for Licensed Indications arising from the Research Program. Any transfer of materials in support of the manufacturing activities will be managed in accordance with Section 2.5 of this Agreement. Any manufacturing activities conducted under this Agreement (including manufacturing activities conducted by or on behalf of Licensee, or Licensee's fully-owned Affiliate, BioNTech Innovative Manufacturing Services GmbH) will be done at Licensee's sole cost and expense.

5.4 **Regulatory.**

5.4.1 It is anticipated that Licensee (or any Sublicensee) will be the regulatory sponsor for Clinical Trials, and in such instance Licensee (or any Sublicensee) will: (a) have responsibility for all regulatory activities for the Products arising from the Research Program in the Field; (b) have the right to conduct all communications with Regulatory Authorities, including all meetings, conferences and discussions (including advisory committee meetings), with regard to Products arising from the Research Program in the Field; (c) lead and have control over preparing and submitting all regulatory filings related to the Products arising from the Research Program in the Field, including all applications for Regulatory Approval (provided, however, that Licensee shall provide Penn with copies of all such applications made by Licensee prior to submission; for the avoidance of doubt, this bracket shall not apply to applications made by Sublicensees); and (d) own any and all applications for Regulatory Approvals (including INDs), Regulatory Approvals, and other regulatory filings related to the Product arising from the Research Program in the Field which will be held in the name of Licensee or its designees. Notwithstanding any of the foregoing, for Clinical Trials conducted at and solely by Penn, the JSC may decide that the applications for Regulatory Approvals (including INDs), Regulatory Approvals, and other regulatory filings related to the Product arising from the Research Program will be owned by, and held in the name of, Penn.

5.4.2 At the discretion of Licensee, Penn shall have the right to participate as an observer in all material meetings, conferences, and discussions by Licensee with Regulatory Authorities pertaining to Development of the corresponding Products and Regulatory Approvals, provided that such right shall expire with respect to each Product upon the submission of an IND for such Product (the period of time during which Penn may participate in such meetings, conferences and discussions, the "**Observer Period**"). During the Observer Period, Licensee shall provide Penn with reasonable advance notice of all such meetings and other contact and shall provide advance copies of all related documents and other relevant information relating to such meetings or other contact, including any documents that Licensee proposes to submit to any Regulatory Authority. During any meetings with Regulatory Authorities, which shall be at Licensee's expense, Penn shall not initiate any interactions with any Regulatory Authority and will only communicate with a Regulatory Authority if (a) such Regulatory Authority asks a question of Penn or (b) Licensee instructs Penn to communicate with such Regulatory Authority. For the avoidance of doubt, this Section 5.4.2 shall not apply to any regulatory activities of any Sublicensee.

5.5 **General Diligence.**

5.5.1 **General Diligence**. Licensee will use Commercially Reasonable Efforts to clinically develop, obtain Regulatory Approval and commercialize at least one (1) Product for each Licensed Indication selected by Licensee pursuant to Section 2.7 ("**General Diligence**").

5.5.2 **Diligence Events**. Licensee, itself and/or through its Affiliates, Sublicensees or Third Party subcontractors, shall achieve each Diligence Event set forth in the table below by the corresponding Achievement Date (each a "**Diligence Event**") for the first Product for each Licensed Indication. [***]

Diligence Event for each Licensed Indication, on a Licensed Indication-by-Licensed Indication basis	**Achievement Date**
[***]	[***]

5.5.3 Penn's sole and exclusive remedy with respect to Licensee's failure to comply with its obligations under this Section 5.5 shall be its right to terminate this Agreement on an Indication-by-Indication basis with respect to the Licensed Indication for which a Diligence Event or General Diligence has not been achieved, upon written notice to Licensee.

5.5.4 **Returned Indications**

(a) [***]

(b) If Licensee exercises its option to enter into such collaboration and/or license with Penn, the financial terms of this Agreement shall apply to such collaboration or license, provided that each Development Milestone in Section 4.3.2 shall be increased by [***]. In addition, the Royalty under Section 4.4.1 shall be increased by [***]provided that at least [***] patients have been dosed in a Phase 1 Study that has been initiated for the Product. In addition, Licensee shall pay Penn [***]of the development costs for the

development of the Product for the Indication incurred by Penn since the termination of the license for such Indication pursuant to Section 5.5.3 or the decision by Licensee not to elect such Indication as a Licensed Indication pursuant to Section 2.7.

(c) If Licensee does not exercise its option, Penn shall be free to enter into any agreement with a Third Party regarding such Product for the Indication. For agreements entered into by Penn within the first [***] after an Indication becomes a Returned Indication, Penn will pay Licensee [***]of the Net Revenue Penn receives in such sublicensing transaction for any Product for such Returned Indication.

5.6 **Progress Reports.**

5.6.1 Licensee, on an annual basis, but in no event later than December 1st of each Calendar Year, shall submit to Penn a progress report (each, a "**Progress Report**") covering Licensee's (and any Affiliates' and Sublicensees') activities related to the development of all Products and the obtaining of Governmental Approvals necessary for commercialization of Products.

5.6.2 Each Progress Report must include all of the following for each annual period:

(a) Summary of work completed;

(b) Summary of work in progress;

(c) Current schedule of anticipated events or milestones;

(d) An updated SDR report listing of any and all Third Party Sublicenses granted by Licensee; and

(e) The names and addresses of all Sublicensees, and a current and valid phone number and e-mail address for a principal point of contact at each such Sublicensee who is responsible for administering the Sublicensee.

ARTICLE 6
INTELLECTUAL PROPERTY

6.1 **Ownership and Inventorship.**

6.1.1 **Penn Intellectual Property**. Penn will be the sole owner of all Penn Foreground IP and will retain all right, title and interest in and to the Penn Background IP, Penn Foreground IP and Penn Materials, subject to the rights and licenses granted to Licensee set forth herein.

6.1.2 **Licensee Intellectual Property**. Licensee will be the sole owner of all BioNTech Foreground IP and will retain all right, title and interest in and to all BioNTech Background IP, BioNTech Foreground IP and BioNTech Materials, subject to the rights and licenses granted to Penn set forth herein.

6.1.3 **Joint Intellectual Property**. All Joint Foreground IP will be jointly owned by the Parties.

6.1.4 **Inventorship**. Inventorship shall be determined in accordance with United States patent laws with ownership following inventorship.

6.2 **Patent Filing Prosecution and Maintenance.**

6.2.1 **Penn Background Patents and Penn Foreground Patents**. Penn Background Patents and Penn Foreground Patents will be held in the name of Penn. Penn shall have the first right, but not the obligation, to control the preparation, filing, prosecution and maintenance of Penn Background Patents and Penn Foreground Patents subject to the provisions of this Section 6.2.1:

(a) The filing, prosecution and maintenance of any Penn Background Patents and Penn Foreground Patents shall be made by a qualified patent counsel selected by Penn and reasonably acceptable to Licensee, taking also the costs into account ("**Penn Patent Counsel**").

(b)	Penn shall (through the Penn Patent Counsel) (i) provide Licensee with written notice as early as possible in advance of undertaking to prepare, file, prosecute and maintain any Patent Rights for any Penn Background Patents or Penn Foreground Patents, (ii) provide Licensee with any draft patent application to be filed by Penn as early as reasonably possible in advance of filing and use reasonable efforts to incorporate all reasonable comments by Licensee thereon; (iii) provide Licensee with any patent application filed by Penn after such filing; (iv) provide Licensee with copies of all substantive communications received from or filed in patent office(s) with respect to such filings and use reasonable efforts to incorporate all reasonable comments by Licensee thereon; (v) notify Licensee of any interference, opposition, reexamination request, nullity proceeding, appeal or other interparty action, review it with Licensee as reasonably requested, and use reasonable efforts to incorporate all reasonable comments by Licensee thereon; and (vi) provide Licensee with written notice at least [***] days prior to abandoning or forfeiting any such Patent Rights, to permit Licensee to undertake such filing, prosecution and/or maintenance without a loss of rights.

(c) In the event that Penn provides Licensee with the written notice described in sub-section (b)(vi) above, prior to abandoning or forfeiting any such Patent Rights, Licensee shall have the option, exercisable by delivery to Penn of written notice thereof within [***] days thereafter, to assume the right (but not the obligation), at its sole expense and sole discretion, to control the preparation, filing, prosecution and maintenance of such Patent Rights. If Licensee timely exercises such option, then with respect to such Patent Rights, (i) Licensee shall thereafter assume the rights and obligations attributed to Penn under sub-section (b) above, and (ii) Penn shall thereafter assume the rights and obligations attributed to Licensee under sub-section (b) above.

6.2.2 **Joint Foreground Patents**. Licensee shall have the first right, but not the obligation, to control the preparation, filing, prosecution and maintenance of any Joint Foreground Patents subject to the provisions of this Section 6.2.2:

(a) The filing, prosecution and maintenance of any Joint Foreground Patents shall be made by a qualified patent counsel selected by Licensee and reasonably acceptable to Penn ("**Licensee Patent Counsel**").

(b) Licensee shall (through Licensee Patent Counsel) (i) provide Penn with written notice as early as possible in advance of undertaking to prepare, file, prosecute and maintain any Patent Rights for any Joint Foreground Patents, (ii) provide Penn with any draft of patent application to be filed by Licensee as early as reasonably possible in advance of

filing and incorporate all reasonable comments by Penn thereon; (iii) provide Penn with any patent application filed by Licensee after such filing; (iv) provide Penn with copies of all substantive communications received from or filed in patent office(s) with respect to such filings and incorporate all reasonable comments by Penn thereon; (v) notify Penn of any interference, opposition, reexamination request, nullity proceeding, appeal or other interparty action, review it with Penn as reasonably requested, and incorporate all reasonable comments by Penn thereon; and (vi) provide Penn with written notice at least [***] days prior to abandoning or forfeiting such Patent Rights, sufficiently in advance to permit Penn to undertake such filing, prosecution and/or maintenance without a loss of rights.

(c) In the event that Licensee provides Penn with the written notice described in sub-section (b)(vi) above, prior to abandoning, or forfeiting any such Patent Rights, Penn shall have the option, exercisable by delivery to Licensee of written notice thereof within thirty (30) days thereafter, to assume the right (but not the obligation), at its sole expense and sole discretion, to control the preparation, filing, prosecution and maintenance of such Patent Rights. If Penn timely exercises such option, then with respect to such Patent Rights, the License to such Patent Rights will terminate, and Licensee shall have no rights, and Penn shall have no obligations, with respect to such Patent Rights.

6.2.3 **BioNTech Background Patents and BioNTech Foreground Patents**. Licensee shall have the sole right, but not the obligation, to control the preparation, filing, prosecution and maintenance of BioNTech Background Patents and BioNTech Foreground Patents at its sole cost and expense and at its sole discretion.

	6.2.4	**Clarification**. For the purposes of Section 6.2.1 to 6.2.3, "maintenance" of Patent Rights includes interference proceedings, re-examinations, inter parties patent review proceedings before the USPTO or a similar patent administration outside the US (including opposition proceedings at the EPO). For further clarity, validity challenges raised in infringement litigation will be handled per Section 6.4.
	6.2.5	**Patent Term Extensions**. Penn will have the exclusive right to decide whether to elect and file for patent term restoration or extension, supplemental protection certificate or any of their equivalents with respect to Penn Background Patents and Penn Foreground Patents in the Territory where Licensee is not the only licensee for such Penn Background Patents or Penn Foreground Patents, and Licensee will have the exclusive right to decide whether to elect and file for patent term restoration or extension, supplemental protection certificate or any of their equivalents with respect to Penn Background Patents and Penn Foreground Patents in the Territory where Licensee is the only licensee for such Penn Patent Rights as well as any Joint Foreground Patents and shall, if required, direct Penn regarding such filings with respect to such Patent Rights. Penn will cooperate and follow all instructions received from Licensee with respect to electing and filing for such restoration or extension, supplemental protection certificate or the equivalent of any of the foregoing for Penn Background Patents and Penn Foreground Patents where Licensee is the only licensee as well as any Joint Foreground Patents.
6.3	**Patent Costs.**	

6.3.1 **Historic Patent Costs**. Within [***] days of the Effective Date, Licensee will reimburse Penn an amount of [***] all unreimbursed
out-of pocket costs for the filing, prosecution and maintenance of Penn Background Patents and Option Patents, including all accrued attorney fees, expenses, official and filing fees ("**Patent Costs**")

incurred prior to the Effective Date; provided, however, that if the Parties agree to include any additional Patent Rights to Exhibit B after the Effective Date, Licensee will reimburse Penn for all unreimbursed Patent Costs that have been incurred by Penn as of the date that such additional Patent Rights are added to Exhibit B. If additional Penn Background Patents are added at a later time during the Term, Licensee will reimburse Penn for Patent Costs incurred by Penn prior to the date such additional Background Patents are added to the Agreement.

6.3.2 **Ongoing Patent Costs**. During the Term of this Agreement, Licensee will bear all Patent Costs incurred by either Penn or Licensee in connection with the preparation, filing, maintenance or prosecution of any Patent Rights under Section 6.2 and the Option Patents except for the Patent Costs incurred by Penn after Licensee has notified Penn of its abandonment or forfeiture of such Penn Foreground Patent or Joint Foreground Patent and the [***] day notice period has expired pursuant to Section 6.2.2(b)(vi) or Patent Costs incurred by Penn after expiration of the term of an unexercised Option for the Option Patents ("**Ongoing Patent Costs**"). Licensee will reimburse Penn for all Ongoing Patent Costs incurred by Penn in relation to Penn Background Patents and Penn Foreground Patents pursuant to Section 6.2.1 within [***] days of receipt of an invoice for such costs. In the event that Penn licenses any Penn Patent Right in a field separate from the Field to a Third Party, then, upon execution of such Third Party license agreement, Licensee's Ongoing Patent Costs obligation will be a
pro-rata portion of such Ongoing Patent Costs.

	6.3.3		**Advance Payments**. At any time, at Penn's request, Licensee shall pay in advance the Penn Patent Counsel's estimated costs for undertaking material patent actions in relation to Penn Background Patents and Penn Foreground Patents before Penn authorizes the Penn Patent Counsel to proceed ("**Advance Payment**"). Notwithstanding whether Licensee makes an Advance Payment for any patent action, Licensee shall bear all Ongoing Patent Costs incurred during the Term in accordance with Section 6.3.2.
	6.3.4		[***].
6.4		**Infringement.**	
	6.4.1		**Infringement Notice**. If either Party believes that an infringement by a Third Party with respect to any Penn Background Patents or any Foreground Patents is occurring or may potentially occur, the knowledgeable Party will provide the other Party with (a) written notice of such infringement or potential infringement (if enforcement action is intended, reasonably in advance of taking such enforcement action), and (b) evidence of such infringement or potential infringement (the "**Infringement Notice**").

6.4.2

Enforcement in the Field. As between the Parties, Licensee will have the first right, under its sole control and at its sole expense, to institute suit against an infringer asserting patent infringement of any Penn Background Patent, any Penn Foreground Patents and any Joint Foreground Patents in the Field, provided that Penn has been appropriately notified in advance, and Penn has determined that Licensee is the sole licensee for such Patent Rights at the time when such enforcement action is to be initiated. If required by Law, Penn will permit any action under this Section 6.4.2 to be brought in its name, including being joined as a party-plaintiff, provided that Licensee will reimburse Penn for its documented
out-of-pocket costs incurred in connection with such action. Licensee will have the right to settle any such action with Penn's consent (such consent not to be unreasonably withheld or delayed). In the event that Penn provides an Infringement Notice to Licensee regarding an infringement of a Penn

Background Patent or Penn Foreground Patent in the Field and Licensee does not within [***] days of receipt of such notice abate the infringement or file suit to enforce such Penn Background Patent or Penn Foreground Patent, then Penn shall have the right to take any action reasonably appropriate to enforce such Penn Background Patent or Penn Foreground Patent, provided that (i) all such actions shall be closely coordinated with Licensee and (ii) Penn shall have no enforcement step-in right with respect to such Penn Background Patent or Penn Foreground Patent in the event that Licensee notifies Penn in advance of such enforcement action that Licensee does not wish to enforce such Penn Background Patent or Penn Foreground Patent for strategic reasons. If Penn has determined that Licensee is not the sole licensee for such Patent Rights at the time when such enforcement action is to be initiated, Penn shall have the first right, under its sole control and at its sole expense, to institute suit against an infringer asserting patent infringement of such Patent Rights, provided that all such enforcement actions shall be closely coordinated with Licensee.

6.4.3 **Enforcement of Penn Background Patents and Penn Foreground Patents outside the Field**. As between the Parties, Penn will have the first right, under its sole control and at its sole expense, to institute suit against an infringer asserting patent infringement of any Penn Background Patent and any Penn Foreground Patent outside the Field, provided that Licensee has been appropriately notified in advance and Licensee's reasonable comments have been taken into account by Penn. All such enforcement actions shall be reasonably coordinated with Licensee.

6.4.4 **Recoveries**. Any recovery or settlement received in connection with any suit will first be shared by Penn and Licensee equally to cover any litigation costs each incurred and next shall be paid to Penn or Licensee to cover any litigation costs it incurred in excess of the litigation costs of the other. Any remaining recoveries shall be allocated as follows:

	(a)	for any suit that is initiated by Licensee with respect to infringement of any Penn Patent Right in the Field, Penn shall receive [***] (other than amounts attributable to enhanced damages for willful infringement) and the Licensee shall receive the remainder;
	(b)	for any suit that is initiated by Penn with respect to infringement of any Penn Patent Right, Penn shall receive [***] of the recovery; and
	(c)	for any portion of the recovery or settlement paid as enhanced damages for willful infringement, (a) for a suit that is initiated by a Party and the other Party voluntarily joins such suit, then the Parties shall share equally the enhanced damages, and (b) for any suit that is initiated by Licensee and Penn is not a party to the litigation, Penn shall receive [***] and Licensee shall receive the remainder.
	6.4.5	**Cooperation**. Each Party will reasonably cooperate and assist with the other in litigation proceedings instituted hereunder but the Party who initiated the suit shall reimburse the cooperating Party for documented out-of-pocket expenses with respect to such cooperation. For clarity, such requirement does not require a Party to join a suit unless otherwise specifically required under this Agreement. If Penn is subjected to third party discovery related to the Penn Patent Rights or Licensed Products, Licensee will pay Penn's reasonable, documented out-of-pocket expenses with respect to same.
6.5		**Patent Marking.** Licensee shall place in a conspicuous location on any Licensed Product (or its packaging where appropriate and practicable) made or sold under this Agreement a patent notice in accordance with the Laws concerning the marking of patented articles where such Licensed Product is made or sold, as applicable.

ARTICLE 7
CONFIDENTIALITY& PUBLICATION

7.1 **Confidential Information.** Each Party shall use reasonable efforts to limit the disclosure of Confidential Information hereunder to the information that is required to be disclosed pursuant to the terms of this Agreement and that is reasonably necessary for either Party to fulfill its obligations and exercise its rights under this Agreement. Except to the extent expressly authorized by this Agreement or otherwise agreed in writing, the Parties agree that, during the Term and for [***] years thereafter, the receiving Party (the "**Receiving Party**") and its Affiliates will keep confidential and will not publish or otherwise disclose or use for any purpose, other than as necessary to satisfy obligations or exercise rights under this Agreement, any confidential or proprietary information or materials, patentable or otherwise, in any form (written, oral, photographic, electronic, magnetic, or otherwise), including trade secrets, Know-How, inventions or discoveries, proprietary information, formulae, processes, techniques and information relating to the past, present and future marketing, financial, and research and development activities of any product or potential product or useful technology of the Disclosing Party or its Affiliates and the pricing thereof (collectively, "**Confidential Information**"), which is disclosed by or on behalf of such Party (the "**Disclosing Party**") to the Receiving Party or its Affiliates or otherwise received or accessed by a Receiving Party in the course of performing its obligations or exercising its rights under this Agreement. The Parties agree that all Research Results generated under the Research Program solely by Licensee shall be regarded as Confidential Information of Licensee and treated by Penn accordingly. All other Research Results shall be treated as confidential by Penn and Licensee until publication in accordance with Section 7.4 below.

7.2

Exceptions to Confidentiality. "Confidential Information" does not include information that the Receiving Party can show (a) was in the lawful knowledge and possession of the Receiving Party or its Affiliates prior to the time it was disclosed to, or learned by, the Receiving Party or its Affiliates, or was otherwise developed independently by the Receiving Party or its Affiliates, as evidenced by written records kept in the ordinary course of business, or other documentary proof of actual use by the Receiving Party or its Affiliates; (b) was generally available to the public or otherwise part of the public domain at the time of its disclosure to the Receiving Party or its Affiliates, as evidenced by written records of the Receiving Party or its Affiliates; (c) became generally available to the public or otherwise part of the public domain after its disclosure and other than through any act or omission of the Receiving Party or its Affiliates in breach of this Agreement; or (d) was disclosed to the Receiving Party or its Affiliates, other than under an obligation of confidentiality, by a Third Party who had no obligation to the Disclosing Party or its Affiliates not to disclose such information to others. In the event a Party is required to make a disclosure under Law or regulation, the order of a court of competent jurisdiction, or the rules of the U.S. Securities and Exchange Commission or any foreign equivalent (including by reason of any securities offering by Licensee), any stock exchange or listing entity, the Receiving Party shall be entitled to make such disclosure, provided that it provides prompt prior written notice to the Disclosing Party and takes all reasonable steps (including cooperating with the Disclosing Party in seeking to secure confidential treatment of, or otherwise limit, such Confidential Information required to be disclosed) to limit the extent of the disclosure and obtain confidential treatment for any remaining required disclosure.

Table of Contents

7.3 **Penn Intellectual Property.** In order to preserve the patentability of intellectual property and to preserve Penn's publication rights, each Party shall maintain Penn Patent Rights Foreground IP, BioNTech Background IP, Penn Background IP, Research Results and information provided pursuant to the Research Program (whether oral or written) as confidential and shall not disclose such information to any Third Party until the earlier of (i) publication of such information pursuant to the terms of this Agreement or (ii) with respect to intellectual property or Patent Rights Controlled by a Party pursuant to the terms of this Agreement, such Party's written confirmation that all desirable patentable inventions relating to such information have been protected.

7.4 **Publications.**

7.4.1 **Alignment of Publications in JSC**. The Parties will use commercially reasonable efforts to agree upon publications of Research Results or other information and material resulting from the Research Program in the JSC.

7.4.2

Coordination of Publications. Notwithstanding the above, Penn shall have the first right to publish Research Results generated by Penn. If either Party wishes to publish, present or otherwise disclose Research Results or other information and material resulting from the Research Program for any purpose, such Party shall furnish the other Party with a copy of any proposed publication, presentation or other disclosure at least [***] days in advance of the date of such presentation or disclosure or the submission of said proposed publication in order for the other Party to review and comment on said proposed publication, disclosure or presentation to (a) determine whether such contains any Confidential Information of the other Party and (b) enable the other Party to identify any intellectual property that it wishes to file patent applications on or to seek other intellectual property protection for. If within the [***] day review period (i) the other Party notifies publishing Party that it requires deletion from the publication, disclosure or presentation of its Confidential Information, the Parties will cooperate to modify the disclosure to ensure that Confidential Information of the other Party is not disclosed or (ii) if the other Party requests that publication or presentation be delayed to allow for patent filings or other intellectual property protection on certain items in the proposed publication, disclosure or presentation, the publishing Party shall delay the publication or presentation for up to [***] days, subject to reasonable extension as mutually agreed upon by the Parties, to allow for the filing of patent applications or other intellectual property protection.

	7.4.3	**Naming of Other Party**. Either Party shall name the other Party as collaboration partner in accordance with good scientific practice in all of its publications, presentations or other disclosures relating to any Research Results or other information and material resulting from the Research Program.
7.5		**Other Permitted Disclosures.** Notwithstanding anything herein to the contrary, either Party may disclose Confidential Information of the other Party to (a) its Affiliates, and to its and their directors, employees, consultants, agents, licensees, sublicensees, collaborators, subcontractors, potential or actual investors, acquirers or merger partners (each a "**Representative**") in each case who have a need to know such Confidential Information, are bound by commercially reasonable obligations of confidentiality and such Party remains liable for any breach by such Representative of the non-disclosure and restrictions on use set forth in this Agreement and (b) the extent such disclosure is required to file or prosecute patent applications, prosecute or defend litigation, or to submit filings to Regulatory Authorities, provided, however, that in each case in this subsection (b), the prosecuting or filing Party shall provide to the other Party prior written notice of such disclosure.

Table of Contents

ARTICLE 8
REPRESENTATIONS, WARRANTIES AND COVENANTS

8.1 **Mutual Representations and Warranties.** Each Party represents and warrants to the other Party that, as of the Effective Date:

8.1.1 such Party is duly organized and validly existing under the Laws of the jurisdiction of its incorporation or organization;

8.1.2 such Party has taken all action necessary to authorize the execution and delivery of this Agreement and the performance of its obligations under this Agreement;

8.1.3 this Agreement is a legal and valid obligation of such Party, binding upon such Party and enforceable against such Party in accordance with the terms of this Agreement, except as enforcement may be limited by applicable bankruptcy, fraudulent conveyance, insolvency, reorganization, moratorium and other laws relating to or affecting creditors' rights generally and by general equitable principles; and

8.1.4 such Party has all right, power and authority to enter into this Agreement and to perform its obligations under this Agreement without violating any prior agreements or legal obligations.

8.2 **Penn Representations.** Penn represents to Licensee that, as of the Effective Date:

8.2.1 it has not granted any commercial license to any Third Party under any of the Penn Background Patents in the Field;

8.2.2 to the knowledge of the current staff of the Penn Center for Innovation, Penn has not received any claim in writing from any Third Party contesting the validity, enforceability, licensability, use, or ownership of any Penn Background Patents;

8.2.3 [***]; and

8.2.4 [***].

8.3 **Disclaimer of Representations and Warranties.**

8.3.1 Other than the representations and warranties provided in Sections 8.1 and 8.2 above, NEITHER PENN NOR LICENSEE MAKES ANY REPRESENTATIONS OR WARRANTIES, WHETHER EXPRESS OR IMPLIED, AND PENN AND LICENSEE EACH EXPLICITLY DISCLAIMS ANY REPRESENTATION AND WARRANTY, INCLUDING WITH RESPECT TO ANY ACCURACY, COMPLETENESS, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, COMMERCIAL UTILITY, NON-INFRINGEMENT OR TITLE FOR THE INTELLECTUAL PROPERTY, PATENT RIGHTS, LICENSE AND ANY LICENSED PRODUCT.

8.3.2 Furthermore, nothing in this Agreement will be construed as:

(a) A representation or warranty by Penn as to the validity or scope of any Penn Patent Right;

Table of Contents

(b) A representation or warranty that anything made, used, sold or otherwise disposed of under the License is or will be free from infringement of patents, copyrights, trademarks or any other forms of intellectual property rights or tangible property rights of Third Parties;

(c) Obligating Penn to bring or prosecute actions or suits against Third Parties for patent, copyright or trademark infringement; and

(d) Conferring by implication, estoppel or otherwise any license or rights under any Patent Rights of Penn other than Penn Patent Rights as defined herein, regardless of whether such Patent Rights are dominant or subordinate to Penn Patent Rights.

8.4 **Mutual Covenants.**

8.4.1 Licensee and its Affiliates will not, directly or indirectly (including where such is done by a Third Party on behalf of Licensee or its Affiliates, at the urging of Licensee or its Affiliates or with the assistance of the Licensee or its Affiliates) challenge the validity, scope, or enforceability of or otherwise oppose any Penn Patent Right, [***].

8.4.2 Both Parties will comply with all Laws that apply to its activities or obligations under this Agreement. For example, both Parties will comply with applicable United States export laws and regulations. The transfer of certain technical data and commodities may require a license from the applicable agency of the United States government and/or written assurances by the relevant Party that such Party will not export data or commodities to certain foreign countries without prior approval of the agency.

8.4.3 Licensee will not grant a security interest in the License or this Agreement without Penn's prior written consent. [***].

ARTICLE 9

INDEMNIFICATION; INSURANCE AND LIMITATION OF LIABILITY

9.1 **Indemnification.**

9.1.1 **Indemnification by Licensee**. Licensee shall defend, indemnify and hold Penn and its respective trustees, officers, faculty, students, employees, contractors and agents (the "**Penn Indemnitees**") harmless from and against any and all liability, damage, loss, cost or expense (including reasonable attorneys' fees), including, without limitation, bodily injury, risk of bodily injury, death and property damage to the extent arising out of Third Party claims or suits related to:

(a) the gross negligence, recklessness or wrongful intentional acts or omissions of Licensee, its Affiliates or Sublicensees and its or their respective directors, officers, employees and agents, in connection with Licensee's performance of its obligations or exercise of its rights under this Agreement;

(b) any breach of this Agreement by Licensee (including violation of the representations and warranties set forth in Section 8.1); or

(c) any violation of Law by Licensee or its Affiliates or Sublicensees; or

(d) the development, manufacturing or commercialization (including commercial manufacturing, packaging and labeling of Products, and all product liability losses) of a Product by or on behalf of Licensee or its Affiliates or Sublicensees; or

(e) the use of licensed Penn Know-How or Penn Materials in the development, manufacturing or commercialization (including commercial manufacturing, packaging and labeling of Products) by or on behalf of Licensee or its Affiliates or Sublicensees; or

(f) the use of BioNTech Background IP, Penn Background IP, any Foreground IP or Research Results by or on behalf of Licensee or its Affiliates or Sublicensees; or

(g) any enforcement action or suit brought by Licensee against a Third Party for infringement of Penn Patent Rights or any Joint Foreground Patent;

provided that Licensee's obligations pursuant to this Section 9.1 shall not apply to the extent such claims or suits result from the gross negligence or willful misconduct of any of Penn Indemnitees.

	9.1.2	As a condition to a Penn Indemnitee's right to receive indemnification under this Section 9.1, Penn shall: (a) promptly notify Licensee as soon as it becomes aware of a claim or suit for which indemnification may be sought pursuant hereto; (b) reasonably cooperate, and cause the individual Penn Indemnitees to reasonably cooperate, with Licensee in the defense, settlement or compromise of such claim or suit; and (c) permit the Licensee to control the defense, settlement or compromise of such claim or suit, including the right to select defense counsel. In no event, however, may Licensee compromise or settle any claim or suit in a manner which (i) admits fault or negligence on the part of Penn or any other Penn Indemnitee; (ii) commits Penn or any other Penn Indemnitee to take, or forbear to take, any action, without the prior written consent of Penn, or (iii) grant any rights under the Penn Patent Rights except for Sublicenses permitted under Article 3. Penn shall reasonably cooperate with Licensee and its counsel in the course of the defense of any such suit, claim or demand, such cooperation to include without limitation using reasonable efforts to provide or make available documents, information and witnesses.
	9.1.3	Notwithstanding Section 9.1.2 above, in the event that Penn believes in good faith that a bona fide conflict exists between Licensee and Penn or any other Penn Indemnitee with respect to a claim or suit subject to indemnification hereunder, then Penn or any other Penn Indemnitee shall have the right to defend against any such claim or suit itself at its own expense, including by selecting its own counsel.
9.2	**Insurance.**	

9.2.1	Licensee, at its sole cost and expense, must insure its activities in connection with the exercise of its rights under this Agreement and obtain, and keep in force and maintain Commercial Form General Liability Insurance (contractual liability included) with limits as follows:	
(a)	Each occurrence	[***]
(b)	General aggregate	[***]

Prior to the commencement of Clinical Trials, if applicable, involving Product:

(c) Clinical trials liability insurance [***]

Prior to the First Commercial Sale of a Product:

(d) Products liability insurance [***]

The Parties may review periodically the adequacy of the minimum amounts of insurance for each coverage required by this Section 9.2.1, and adjust the limits in the Parties' reasonable discretion but in no event will Licensee be required to increase such limits beyond the limits of insurance carried by similarly-situated companies.

9.2.2 Licensee expressly understands that the coverages and limits in Section 9.2.1 do not in any way limit Licensee's liability of indemnification obligations.

9.2.3 Upon request by Penn but not to exceed once per year, Licensee must furnish to Penn with valid certificate of insurance evidencing compliance with all requirements of this Agreement.

9.3 **LIMITATION OF LIABILITY.** IN NO EVENT SHALL EITHER PARTY OR ANY OF ITS AFFILIATES BE LIABLE TO THE OTHER PARTY OR ANY OF ITS AFFILIATES FOR SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, INCLUDING LOSS OF PROFITS, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE TRANSACTIONS CONTEMPLATED HEREIN OR ANY BREACH HEREOF. NOTWITHSTANDING THE FOREGOING, NOTHING IN THIS AGREEMENT SHALL LIMIT EITHER PARTY'S INDEMNIFICATION OBLIGATIONS UNDER SECTION 9.1 ABOVE.

ARTICLE 10
TERM AND TERMINATION

10.1 **Term.** The term of this Agreement (the "**Term**") shall commence on the Effective Date and, unless terminated sooner as provided below, shall continue in full force and effect until the expiration or abandonment of the last Penn Patent Right covering any Development Candidate or Licensed Product in the Field. [***].

10.2 **Termination of the Agreement for Convenience.** At any time during the Term beginning [***] months after the Effective Date, Licensee may, at its convenience, terminate this Agreement, entirely or in relation to one or more Indications only, upon providing at least [***] days prior written notice to Penn of such intention to terminate, and provided that Licensee ceases using the License or making, using, or selling Products in relation to the Indications that have been terminated.

10.3 **Termination For Cause.**

10.3.1 If either Party materially breaches any of its material obligations under this Agreement, the non-breaching Party may give to the breaching Party a written notice specifying the nature of the default, requiring the breaching Party to cure such breach, and stating the non-breaching Party's intention to terminate this Agreement. If such breach is not cured within ninety (90) days of such notice, such termination shall become effective with respect to the relevant Indication(s) upon a notice of termination by the terminating Party thereafter.

Table of Contents

	10.3.2		Either Party may terminate this Agreement, upon written notice, with immediate effect if, at any time, the other Party is unable to pay its debts, including any debts related to exclusive sublicensees, when they come due, or files in any court or agency pursuant to any statute or regulation of any state, country or jurisdiction, a petition in bankruptcy or insolvency or for reorganization or for an arrangement or for the appointment of a receiver or trustee of the other Party or of its assets, or if the other Party proposes a written agreement of composition or extension of its debts, or if the other Party is served with an involuntary petition against it, filed in any insolvency proceeding, and such petition is not dismissed within ninety (90) days after the filing thereof, or if the other Party proposes or is a party to any dissolution or liquidation, or if the other Party makes an assignment for the benefit of its creditors of all or substantially all its assets.
10.4		**Effects of Termination.**	
	10.4.1		In the event of any expiration of this Agreement pursuant to Section 10.1, the following provisions shall survive: [***] All other provisions set forth in this Agreement shall terminate upon expiration of this Agreement.
	10.4.2		In the event of any termination by Licensee pursuant to Section 10.2 or by Penn pursuant to Section 10.3, the following provisions shall survive: [***] All other provisions set forth in this Agreement shall terminate upon termination of this Agreement.

10.4.3	In the event of any termination of this Agreement by Licensee pursuant to Section 10.3, the following provisions shall survive: Sections [***] All other provisions set forth in this Agreement shall terminate upon termination of this Agreement.
10.4.4	Termination or expiration of this Agreement shall not relieve the Parties of any obligation or liability that, at the time of termination or expiration, has already accrued hereunder, or which is attributable to a period prior to the effective date of such termination or expiration. Termination or expiration of this Agreement shall not preclude either Party from pursuing all rights and remedies it may have hereunder or at Law or in equity with respect to any breach of this Agreement nor prejudice either Party's right to obtain performance of any obligation.
10.4.5	If this Agreement is terminated for any reason, all outstanding Sublicenses (including all Sublicense Documents for each Sublicense) not in default will be assigned by Licensee to Penn, and such assignment will be accepted by Penn. Each assigned Sublicense will remain in full force and effect with Penn as the licensor or sublicensor instead of Licensee, but the duties and obligations of Penn under the assigned Sublicenses will not be greater than the duties of Penn under this Agreement, and the rights of Penn under the assigned Sublicenses will not be less than the rights of Penn under this Agreement, including all financial consideration and other rights of Penn. Penn may, at its sole discretion, amend such outstanding Sublicenses to contain the terms and conditions found in this Agreement.

10.4.6	Within [***] days of termination of this Agreement by Licensee pursuant to pursuant to Section 10.2 with respect to any Indication(s), Licensee shall pay Penn all costs not previously paid and attributable solely to the terminated Indication(s) through the effective termination date per the budget of the Research Plan for services performed by, or on behalf of, Penn, as well as all commitments related to the performance of the

Research Plan for such Indication(s) that are reflected in the budget (i.e., all costs or non-cancellable commitments incurred prior to the receipt, or issuance, by Penn of the notice of termination, and the cost of each employee, student and faculty member supported under the Research Plan for such Indication until the earlier of (a) [***] days of termination of this Agreement and (b) reassignment of such employee, student and faculty member supported under the Research Plan; and subject to Penn's written notification to Licensee and Licensee's acknowledgement of all costs and non-cancellable commitments as they arise) incurred by Penn under this Agreement for the terminated Indication(s), as applicable.

10.4.7 Upon termination pursuant to Section 10.2 or Section 10.3, Licensee and its Affiliates will promptly cease selling the Product(s) in the Indications subject to such termination. Each Party will return (or destroy, as directed by the other Party) all data, files, records and other materials containing or comprising the other Party's Confidential Information with respect to Product(s) in the Indications subject to such termination, except to the extent such Confidential Information is necessary or useful to conduct activities in connection with surviving portions of this Agreement. Notwithstanding the foregoing, the Parties will be permitted to retain one copy of such data, files, records, and other materials for archival and legal compliance purposes.

10.5 **Tolling.** [***].

ARTICLE 11
ADDITIONAL PROVISIONS

11.1 **Relationship of the Parties.** Nothing in this Agreement is intended or shall be deemed, for financial, tax, legal or other purposes, to constitute a partnership, agency, joint venture or employer-employee relationship between the Parties. The Parties are independent contractors and at no time will either Party make commitments or incur any charges or expenses for or on behalf of the other Party.

11.2 **Expenses.** Except as otherwise provided in this Agreement, each Party shall pay its own expenses and costs incidental to the preparation of this Agreement and to the consummation of the transactions contemplated hereby

11.3 **Third Party Beneficiary.** The Parties agree that each Sublicensee is a third party beneficiary of this Agreement with respect to Section 10.4.4.

11.4 **Use of Names.**

11.4.1 Licensee, its Affiliates and Sublicensees may not use the name, logo, seal, trademark, or service mark (including any adaptation of them) of Penn or any Penn school, organization, employee, student or representative, without the prior written consent of Penn. Notwithstanding the foregoing, Licensee may use the name of Penn in a non-misleading and factual manner solely in (a) executive summaries, business plans, offering memoranda and other similar documents used by Licensee for the purpose of raising financing for the operations of Licensee, or entering into commercial contracts with Third Parties, but in such case only to the extent necessary to inform a reader that the Penn Patent Rights have been licensed by Licensee from Penn, and to inform a

reader of the identity and published credentials of inventors of intellectual property, and (b) any securities reports required to be filed with the US Securities and Exchange Commission or any foreign equivalent.

11.4.2 Penn will not use Licensee's name without Licensee's prior written consent except that Penn may (a) acknowledge Licensee's funding of the Research Program, (b) use Licensee's name in connection with any scientific contributions in scientific publications and in listings of sponsored research projects as well as required under Section 7.4.3, (c) use Licensee's name as required by Law, and (d) use Licensee's name in connection with institutional compliance policies; provided that, Penn shall not use Licensee's name for publicity purposes without Licensee's prior written consent.

11.5 **No Discrimination.** Neither Penn nor Licensee will discriminate against any employee or applicant for employment because of race, color, sex, sexual or affectional preference, age, religion, national or ethnic origin, handicap, or veteran status.

11.6 **Successors and Assignment.**

11.6.1 The terms and provisions hereof shall inure to the benefit of, and be binding upon, the Parties and their respective successors and permitted assigns.

11.6.2 Neither Party may not assign or transfer this Agreement or any of its rights or obligations created hereunder, by operation of law or otherwise, without the prior written consent of the other Party, provided that the other Party shall not unreasonably withhold, condition or delay its consent; provided, however, that each Party may assign this Agreement to any Affiliate of such Party or to any entity with which such Party merges or consolidates, or to which it sells or transfers all of its stock or all or substantially all of its assets to which this Agreement relates without the other Party's consent ("**Permitted Assignment**"). For any Permitted Assignment, the assigning Party will provide the other Party with notice of such assignment containing at minimum the contact information of the assignee within [***] days after closing of such Permitted Assignment, and such Permitted Assignment shall be in accordance with this Section 11.6.

11.6.3 Any assignment not in accordance with this Section 11.6 shall be void.

11.7 **Further Actions.** Each Party agrees to execute, acknowledge and deliver such further instruments and to do all such other acts as may be necessary in order to carry out the purposes and intent of this Agreement.

11.8 **Entire Agreement of the Parties; Amendments.** This Agreement and the Exhibits and Appendices or Schedules hereto constitute and contain the entire understanding and agreement of the Parties respecting the subject matter hereof and cancel and supersede any and all prior negotiations, correspondence, understandings and agreements between the Parties, whether oral or written, regarding such subject matter. No waiver, modification or amendment of any provision of this Agreement shall be valid or effective unless made in a writing referencing this Agreement and signed by a duly authorized officer of each Party.

Table of Contents

11.9 **Governing Law.** This Agreement shall be governed by and interpreted in accordance with the laws of the [***], excluding application of any conflict of laws principles that would require application of the law of a jurisdiction outside of the [***].

11.10 **Dispute Resolution.** If a dispute arises between the Parties concerning this Agreement, then the Parties will confer, as soon as practicable, in an attempt to resolve the dispute.

(a) The Parties shall attempt in good faith to resolve any dispute arising out of or relating to this Agreement promptly by negotiation between senior individuals who have the authority to settle the controversy. Either Party may give the other Party written notice of a dispute not resolved in the normal course of business. If the matter has not been resolved by these persons within [***] days of a disputing Party's notice, the dispute shall be referred to a more senior individual of the Parties with the decision-making authority for resolution. If the dispute is not resolved within [***] days from the referral to a more senior individual the parties will have no further obligation under this Section 11.10(a).

(b)

With respect to any claim or controversy that has not been resolved under 11.10(a), the Parties will consider in good faith whether to enter into an agreement to resolve any such claim or controversy by mediation under the International Institute for Conflict Prevention & Resolution ("CPR") Mediation Procedure then currently in effect. Unless otherwise mutually agreed, any such mediation shall be held in New York City. Such agreement may provide that (a) the mediator would be selected from the CPR Panels of Distinguished Neutrals and (b) if any such claim or controversy remains unresolved [***] days after the appointment of a mediator or [***] days after good faith efforts by either Party to proceed to mediation, the Parties shall discuss in good faith whether to submit the dispute to binding arbitration in accordance with the arbitration rules of the International Chamber of Commerce (ICC) ("**Arbitration Rules**"). In such case, the arbitration shall be conducted in the English language in London, United Kingdom, by one arbitrator appointed in accordance with the Arbitration Rules. The arbitrator, by accepting appointment, undertakes to exert their best efforts to conduct the process so as to issue an award within [***] of the appointment of the arbitrator. The arbitrator shall decide the dispute in accordance with the law governing this Agreement. The procedural rules of the seat of the arbitration tribunal shall not apply; no discovery proceedings shall take place, unless the Parties otherwise agree in writing.

(c) However, absent a separate agreement concerning mediation and/or an agreement of the Parties to submit any dispute to binding arbitration, each Party shall remain free to enforce its rights in a court of law, and the Parties agree that such dispute shall be litigated in the United States District Court for the Southern District of New York, or in the state courts of the State of New York, New York County, and each Party hereby irrevocably submits to the exclusive jurisdiction of such courts for all purposes with respect to any such legal action or proceeding in connection with this Agreement and subject to this Section 11.10.

11.11 **Injunctive Relief.** Notwithstanding anything herein to the contrary, in the event of an actual or threatened breach of this Agreement, the aggrieved Party may seek provisional equitable relief (including restraining orders, specific performance or other injunctive relief).

11.12 **Notices and Deliveries.** Any notice, request, approval or consent required or permitted to be given under this Agreement shall be in writing and directed to a Party at its address shown below or such other address as such Party shall have last given by notice to the other Party. A

notice will be deemed received: if delivered personally, on the date of delivery; if mailed, five (5) days after deposit in the United States mail or if sent via courier, one (1) business day after deposit with the courier service.

	For Penn	***with a copy to:***
	[***]	[***]

11.13 **Waiver.** A waiver by either Party of any of the terms and conditions of this Agreement in any instance shall not be deemed or construed to be a waiver of such term or condition for the future, or of any other term or condition hereof. All rights, remedies, undertakings, obligations and agreements contained in this Agreement shall be cumulative and none of them shall be in limitation of any other remedy, right, undertaking, obligation or agreement of either Party.

11.14 **Severability.** When possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under law, but if any provision of this Agreement is held to be prohibited by or invalid under law, such provision will be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of this Agreement. The Parties shall make a good faith effort to replace the invalid or unenforceable provision with a valid one which in its economic effect is most consistent with the invalid or unenforceable provision.

11.15 **Interpretation.** The words “include,” “includes” and “including” shall be deemed to be followed by the phrase “without limitation”. All references herein to Articles, Sections, Schedules and Exhibits shall be deemed references to Articles and Sections of, Schedules and Exhibits to, this Agreement unless the context shall otherwise require. “Herein,” “hereby,” “hereunder,” “hereof” and other equivalent words refer to this Agreement as an entirety and not solely to the particular portion of this Agreement in which any such word is used. The term “or” means “and/or” hereunder. All definitions set forth herein will be deemed applicable whether the words defined are used herein in the singular or the plural. Except as otherwise expressly provided herein, all terms of an accounting or financial nature shall be construed in accordance with Accounting Standards, as in effect from time to time. Unless the context otherwise requires, countries shall include territories. References to any specific Law or article, section or other division thereof, shall be deemed to include the then-current amendments or any replacement Law thereto.

11.16 **Counterparts.** This Agreement may be executed in counterparts, each of which will be deemed an original, and all of which together will be deemed to be one and the same instrument. A facsimile or a portable document format (PDF) copy of this Agreement, including the signature pages, will be deemed an original.

Table of Contents

11.17 **Force Majeure.** Neither Party will be liable for any failure to perform as required by this Agreement to the extent such failure to perform is due to circumstances reasonably beyond such Party's control, including, without limitation, labor disturbances or labor disputes of any kind, accidents, failure of any governmental approval required for full performance, civil disorders or commotions, terrorism, acts of aggression, acts of God, energy or other conservation measures imposed by law or regulation, explosions, failure of utilities, mechanical breakdowns, material shortages, disease, or other such occurrences.

Research Program

Penn-BioNTech Vaccine Development Alliance Program

Initial Research Plan

General points that should be considered in plans:

- I am assuming that all vaccines will pass through toxicity testing without incident, based on macaque studies, use of similar lipids in Phase 3 trials, and physiologic nature of mRNA.
- We do not know the optimal dosing interval. This may need to be incorporated into each macaque study or could be done as a single study, whose results are used for all vaccines. Potentially, some of the vaccines could be a single injection.
- All of the Year 1 studies are underfunded, due to the limitation of 5 million dollars total, but all are currently ongoing with good potential to move into clinical trials. We would not want to delay any of them.
- The remaining 4 vaccines have not been selected. Discussions with BioNTech scientists and business advisors, as well as, the potential addition of a pharmaceutical partner, are needed.

- I believe a human experimental phase 1 clinical trial of LNPs, 3-5, empty or poly(C) containing, should be part of the selection criteria for LNPs to use for vaccination for all vaccine studies. While expensive, it would likely increase the success and reduce the toxicity observed in all vaccine trials that follow.

Other potential programs need to be discussed with BioNTech to identify desired targets through the JSC. Potential pathogens may include:

[***]

Additional pathogens – many of these are currently under investigation with academic collaborators. Positive vaccine results would move them to the active investigation list either replacing a pathogen whose vaccine is not performing well or bumping a pathogen to later study.

Other potential pathogens that can be considered for vaccine development. Some studies are ongoing:

Material Transfer Terms

Penn agrees to provide certain Penn Materials to Licensee, and Licensee agrees to provide certain BioNTech Materials to Penn, under the following conditions:

1.	The Penn Materials and the BioNTech Materials are considered proprietary to the providing Party. The providing Party shall be free, in its sole discretion, to distribute its proprietary Materials to others and to use such Materials for its own purposes, unless otherwise stated in the Agreement.
2.	Materials provided by a Party may only be utilized for research by the receiving Party at the receiving Party's facility and the facility of any permitted third party. The receiving Party shall not distribute or release the other Party's Materials to any person other than laboratory personnel under the receiving Party's direct supervision, or other personnel and third parties permitted by the Agreement. The receiving Party shall ensure that no one will be allowed to take or send Materials received from the providing Party to any location in violation of the Agreement.
3.	The transfer of Materials are for the receiving Party's use of the Materials solely for the performance of the Research Program, subject to the terms of the Agreement. Each Party agrees that nothing herein shall be deemed to grant any additional rights under any Patent Rights except to those contained in the Agreement and to the extent provided therein. Materials received from the providing Party will not be used by or on behalf of the receiving Party in research that is subject to consulting or licensing obligations to any Third Party, other than obligations to the U.S. government resulting from research that is funded by the U.S. government.
4.	Each Party agrees to use Materials received from the providing Party in compliance with all laws and regulations, including current EPA, FDA, USDA, and NIH guidelines. All Materials are supplied solely for research purposes.

5.	Neither Party shall have rights in the Materials received from the providing Party other than as provided in this Agreement, and at the request of the providing Party, the receiving Party will return all unused Materials received from the providing Party. It is understood that any and all proprietary rights, including Patent Rights, trademarks, and proprietary rights, in and to the Materials and replications or derivatives of the Materials shall be and remain in the providing Party, subject to the rights granted herein.
6.	Materials will be considered Confidential Information of the providing Party, and subject to the terms of Article 7 of the Agreement.
7.	Each Party acknowledges that Materials received from the providing Party are experimental in nature and they are provided WITHOUT WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED. THE PROVIDING PARTY MAKES NO REPRESENTATION OR WARRANTY THAT THE USE OF THE MATERIALS WILL NOT INFRINGE ANY PATENT OR OTHER PROPRIETARY RIGHTS.
8.	For clarity, the terms of this Exhibit H shall not be interpreted to limit any rights granted, or to grant any rights other than those granted, elsewhere in the body Agreement. The terms set forth in the body of the Agreement shall prevail in the event of a conflict between this Exhibit H and any term set forth in the body of the Agreement.

RECITALS

(A) This Agreement (the "**Agreement**") in its original form has been entered into on 29 December 2017 and has subsequently been amended with effect as from 20 July 2018, 31 May 2019 and 27 August 2019. It has most recently been further amended by way of the procedure stipulated in Clause 29.2 of the Agreement, which most recent amendment has taken effect on 30 August 2019 (the "**Summer 2019 Amendment Date**"), to receive this current form. As a result of certain parties acceding to the Agreement in its original form or ceasing to be parties to the Agreement as in effect at the relevant time, as of the Summer 2019 Amendment Date the parties to the Agreement are those listed in Annex Summer 2019 Parties (the "**Summer 2019 Parties**") and BioNTech SE, a *Societas Europaea* (SE) organized and existing under the laws of Germany, having its registered office at An der Goldgrube 12, 55131 Mainz, Germany, and being registered with the commercial register of the local court of Mainz under HRB 48720 (the "**Company**").

(B) It is expected that more parties will accede to this Agreement. Each of the Summer 2019 Parties, each of the parties that will so accede hereto (after having acceded hereto) and the Company, in each case other than any party that has ceased to be a party to this Agreement, is hereinafter referred to as a "**Party**" and several or all of them, as the context may suggest, are referred to as (the) "**Parties**".

(C) The Parties other than the Company and those certain Parties who are referred to in para. (D) are the sole shareholders of the Company. The Company's business is the research, development and manufacture of pharmaceuticals for individualized immunotherapies (diagnosis and treatment) of cancer and other diseases.

(D) The purpose of this Agreement is to coordinate the Parties' interests in connection with the shareholders' respective (current and future) direct and, with respect to Mr. Marett, Dr. Poetting, Prof. Dr. Sahin and Prof. Dr. Huber indirect, shareholdings in the Company and, to that end, supplement the general provisions of the Company's articles of association (*Satzung*) as amended from time to time.

1.	**General Obligations, Prior Agreements, Preferences, Definitions**
1.1	The Shareholders shall at all times exercise their powers as Shareholders of the Company, including, without limitation, their voting rights, in accordance with the terms and conditions of this Agreement. For the sake of clarification, this Agreement shall apply to any shares of the Company existing from time to time (the "**Shares**") and any party being a shareholder in the Company shall be a "**Shareholder**" as such term is used in this Agreement. Any breach of any obligation set forth in this Agreement by one of the Parties shall entitle the other Parties to this Agreement to all remedies available by law, including but not limited to, claims for damages and/ or the remedies provided for in this Agreement.
1.2	Where the terms and conditions of this Agreement conflict with anything within the Company's articles of association (*Satzung*) (the "**Articles**") the Shareholders shall exercise their rights as shareholders of the Company such that the purposes of this Agreement will be achieved to the greatest extent permitted by law and upon request of any Shareholder the Articles shall be amended accordingly.
1.3	Except (i) as far as any provision has already been fully executed and/or (ii) as expressly set forth otherwise herein, any agreement by and between the Parties regarding the rights of any Party with respect to its shareholding in the Company, including, but not limited to, the shareholders' agreement dated 10 November 2008, as amended through and as of the date hereof including on 10 May 2010 and 7/12 February 2014, shall cease to apply and shall be superseded by this Agreement as in effect from time to time.
1.4	Each Share carries one vote in the general meeting. In addition, certain of the Shares provide for certain preferences as attributed to them by this Agreement.
1.5	Capitalized terms not defined in this Agreement shall have the meaning given to them in the Investment Agreement dated 29 December 2017 (the "**Investment Agreement**"). In addition to the definitions made elsewhere in this Agreement, the following terms shall have the meanings ascribed to them:
1.5.1	"**2017 Capital Increase**" means the capital increase of the Company that has been registered with the commercial register on 1 February 2018.

1.5.2	"**2017/2018 LiqPref Share**" means any Series A Share and any 2018 Qualifying Share.
1.5.3	"**2017/2018 LP Shareholder**" means any holder of 2017/2018 LiqPref Shares.
1.5.4	"**2018 Qualifying Investment**" means any of the capital increases of the Company the implementation (*Durchführung*) of which was registered with the commercial register on 18 October 2018, 29 January 2019, or 24 April 2019, respectively.
1.5.5	"**2018 Qualifying Investor**" means any Shareholder in relation to its 2018 Qualifying Shares.
1.5.6	"**2018 Qualifying Share**" means any Share issued under a 2018 Qualifying Investment.
1.5.7	"**Summer 2019 LP Shareholder**" means any holder of Summer 2019 LiqPref Shares.
1.5.8	"**Summer 2019 LiqPref Share**" means any Series B Share and any Foundation Share.
1.5.9	"**Common Share**" means any Share that is not a Preference Share.
1.5.10	"**Foundation Investment**" means any investment into the Company that has been made by the Bill & Melinda Gates Foundation against the issuance of Shares if and to the extent the following prerequisites are met:

a) the Shares have been issued pursuant to an agreement between the Company and the Bill & Melinda Gates Foundation in which the Shares to be issued to the Bill & Melinda Gates Foundation are referred to as "Foundation Shares", and

b) the Shares have been issued against a contribution in cash (including any premiums or similar payments into the free capital reserves of the Company) (i) prior to the Stock-Split as defined in Section 4.1.1 of at least USD 325.82 per Share and (ii) following the Stock-Split as defined in Section 4.1.1 of at least USD 18.10 per Share (provided that where the pertinent agreement between the Company and Bill & Melinda Gates Foundation provides for a contribution of at least the aforesaid US-Dollar amount but the payment of the contribution is to be made in Euro, the payment of the Euro equivalent of such US-Dollar amount as determined pursuant to the provisions of such agreement shall in any event suffice).

1.5.11 "**Foundation Share**" means any Share issued under the Foundation Investment.

1.5.12 "**Foundation**" means any Shareholder in relation to its Foundation Shares.

1.5.13 "**Group Company**" means any of the Company and any of its subsidiaries

1.5.14 "**Investment**" (i) as to each Series A Investor means the amount of its contribution under the 2017 Capital Increase and (ii) as to each 2018 Qualifying Investor means the amount of its 2018 Qualifying Investment.

1.5.15 "**Investment per Share**", for each Shareholder and in relation to the relevant Shares held by such Shareholder, means the average contribution per Share against which the relevant Shareholder (or its predecessor) has been issued those Shares (adjusted for any stock splits, reverse stock splits or receipt of free Shares).

1.5.16	“**Pre-Amendment Shareholder**” means any party who is a Shareholder as of the date when a Proposal for Amendment is made.
1.5.17	“**Preference Share**” means any Series A Share, any 2018 Qualifying Share, any Series B Share and any Foundation Share.
1.5.18	“**Preferred Shareholder**” means any Shareholder in relation to its Preference Shares (if any).
1.5.19	“**Series A Share**” means any Share that has come to existence by virtue of the 2017 Capital Increase.
1.5.20	“**Series A Share Price**” means [***].
1.5.21	“**Series A Total Investment**” means the total of the contributions made for the Series A Shares, being [***].
1.5.22	“**Series B Investment**” means any of the capital increases of the Company the implementation (*Durchführung*) of which was registered with the commercial register 26 June 2019 and on 16 August 2019, respectively.
1.5.23	“**Series B Investor**” means any Shareholder in relation to its Series B Shares.
1.5.24	“**Series B Share**” means any Share issued under a Series B Investment.
1.5.25	“**Shareholders’ Resolution**” means any shareholders’ resolution of the Company.
1.5.26	“**Underlying Valuation**” means the valuation of the Company at [***].

2.	**Use of Investments; Further Equity Financing**
2.1	The funds raised under any of the Series A Total Investment, any of the Series B Investments and the Foundation Investment shall be exclusively used for further development of the Company's and the Group Companies' products and services (including as set-out in a letter agreement between the Company and the Foundation), including its mRNA technology, execution of the Company's and the Group Companies' business plan and financing working capital, without the Company incurring any legal undertakings to effect any of the measures stipulated in such business plan, provided however that the funds provided by the Series A Investors, the Series B Investors or by the Foundation must not be used for distributions to shareholders or any economically comparable measures, except for purposes to effect the Foundation Withdrawal Right (as defined in Section 7).
2.2	Each Party acknowledges that the Company plans for a further equity financing round latest in 2020 (the "**Further Equity Financing**") in the amount of up to € 400 million, provided that the Company is not publically listed and provided that all Shareholders shall have subscription rights pro rata their shareholding in the Further Equity Financing. All Shareholders hereby agree in principle to such Further Equity Financing. All Shareholders hereby already agree that all investors participating in such Further Equity Financing may receive a liquidation preference ranking senior to the liquidation preferences provided for in Section 15 of this Agreement (with such preferred allocation in each case to be limited to the respective investment and deductible from the relevant investor's entitlement as would otherwise persist in any allocation *pro rata* to shareholdings as may apply), provided however that any and all other terms and provisions of this Agreement remain untouched, especially Clause 17 and that the investors participating in such Further Equity Financing shall accede to this Agreement without any other modification except the liquidation preference.
3.	**Corporate Bodies, Extension of Supervisory Board, Corporate Governance, Articles of Association**
3.1	The statutory corporate governance regime of the Company provides for a two-tier board structure with

a) an executive board (*Vorstand*) (as of the Summer 2019 Amendment Date consisting of four managing directors (*Vorstandsmitglieder*)), and

b) a supervisory board (*Aufsichtsrat*), which as of the Summer 2019 Amendment Date consists of six members.

3.2 The Redmile Investors shall have the right to nominate one individual, to be appointed by the general meeting as a member of the Company's supervisory board ("**Redmile Nomination Right**"). All Shareholders undertake to vote in favour of the appointment of such individual nominated if and to the extent the candidate nominated by Redmile has been also approved by a Series A Majority (not taking into account any Series A Shares subscribed for by Existing Shareholders), such approval not to be unreasonably withheld, as a result of the Redmile Nomination Right from time to time in the general meeting of the Company, unless there is reasonable ground to withhold such affirmative vote relating to the individual nominated (*wichtiger Grund*) whereas the Parties agree that a reasonable ground shall be given if the individual nominated by Redmile is not skilled in the art of biotechnology/pharmaceutical development and/or commercialization (which is under ordinary circumstances not given in case the individual is a lawyer). The Redmile Nomination Right shall be exercised from time to time by Redmile Investors having obtained the Series A Majority (not taking into account any Series A Shares subscribed for by Existing Shareholders), such approval

not to be unreasonably withheld with respect to the individual nominated and shall include the right to withdraw from and to appoint the respective board member to the Company's supervisory board.

3.3 Fidelity Management, Research Company shall have the right to appoint a board observer which shall be authorized to attend each and any meeting of the supervisory board and shall receive all written information presented to the supervisory board; provided, however, that the supervisory board shall be permitted to exclude such observer from attending such portion of any meetings and receiving such portion of any information, if attendance at such portion of the meeting or access to such information could adversely affect the attorney-client privilege between the Company and its counsel or result in disclosure of trade secrets or a conflict of interest. Such observer shall hold all information received in the meetings of the supervisory board or otherwise provided pursuant to this Section 3.3 in confidence and trust on behalf of the Company.

3.4 The supervisory board of the Company has adopted rules of procedure for the executive board ("**RoP EB**") attached hereto as **Annex 3.4.1** and rules of procedure for the supervisory board ("**RoP SB**") attached hereto as **Annex 3.4.2**, and neither the RoP EB nor the RoP SB shall be amended without the prior written consent of (i) the Series A Majority and (ii) the Series B Majority.

4. August 2019 Amendments

4.1 Background

4.1.1 As of 15 August 2019, the Company is planning to shortly effect the IPO by way of a public offering of shares of the Company in the form of American Depositary Shares, following which American Depositary Shares representing the shares of the Company would be listed on the NASDAQ Stock Market. In order for the Articles to be suitable for a publicly listed company, the Company has recently convened a general meeting to be held on 19 August 2019 (the "**August 2019 General Meeting**") for the purpose of resolving (i) a stock-split (the "**Stock-Split**"), (ii) the increase and amendment of the existing authorization to grant share options to management and employees and a corresponding change to the pertinent conditional capital (the "**ESOP Amendment**"), (iii) an authorization to issue convertible bonds and, in certain circumstances, exclude pre-emptive rights of shareholders (the "**Bond Authorization**"), (iv) an amendment to the Articles as concerns the authorized capital (in the framework of the restatement of the Articles to be resolved under agenda item 9 of the August 2019 General Meeting) by which the authorized capital is increased and the authorizations to management to exclude pre-emptive rights are expanded (the "**Authorized Capital Amendment I**"), (v) various further individual amendments to the Articles (each a "**Further Amendment**"), (vi) an amendment to the Articles as concerns the authorized capital (in the framework of the restatement of the Articles to be resolved under agenda item 10 of the General Meeting) by which, with effect from the IPO, the authorizations to management to exclude pre-emptive rights are further expanded (the "**Authorized Capital Amendment II**", with the amendments pursuant to (i) through (vi) collectively the "**August 2019 Amendments**" and any one of them an "**August 2019 Amendment**").

4.1.2 The Shareholders in principle support the August 2019 Amendments to enable the Company to make preparations as deemed necessary for the IPO, based on the assumption that the IPO will shortly be effected, but subject to the proviso that, until the IPO actually occurs, the procedures and requirements as set forth in this Agreement will be complied with irrespective of the August 2019 Amendments having been consented to in the August 2019 General Meeting, their rights and preferences as set forth in this Agreement are not prejudiced by the August 2019 Amendments and the August 2019

Amendments do not in any way or form constitute or shall be interpreted as an express or implied amendment to this Agreement.

4.2 The following shall apply in connection with the August 2019 Amendments:

4.2.1 No prejudice to position under this Agreement

It is acknowledged and agreed that none of the August 2019 Amendments themselves or the circumstance of any Beneficiary voting for and consenting to any Amendment do in any way alter the preferences and rights (nor any obligations) of any of the Shareholders hereunder. In particular, none of the August 2019 Amendments shall constitute an express or implied written consent of the Series A Investors and/or Series B Investors with respect to Sections 5.2(ii) and 5.8. Moreover, the Parties agree that the August 2019 Amendments shall not constitute and express or implied amendment to this Agreement. In particular, the Parties acknowledge and agree that the deletion of the catalogue of matters requiring consent by the supervisory board from the Articles as proposed as one of the Further Amendments shall not in any way impact the continuous requirement to obtain consent for the matters listed in Section 5.2 from the Series A Investors and/or the Series B Investors, that such catalogue shall remain part of the RoP SB and that the Parties shall treat each other for the purposes of this Agreement as if such catalogue of restricted matters had not been deleted from the Articles as part of the Further Amendments. In addition, the Parties agree that the deletion of the provisions as to restrictions on transfers of Shares and related remedies from the Articles shall not amend the restrictions on transfer of Shares for the Shareholders as agreed in this Agreement.

4.2.2 Nomination and Appointment Rights

The Parties acknowledge and agree that the Redmile Nomination Right as set forth in Section 3.2 of this Agreement shall not be affected by the proposed reduction of the supervisory board to four members as part of the Further Amendments. The same shall apply for the observer appointment rights of Fidelity Management and Research Company as set forth in Section 3.3.

4.2.3 Classes of Shares; references to amounts in this Agreement

The Parties acknowledge and agree that any new Share to which to a Shareholder a Shareholder is entitled and which it holds as a result of the Stock-Split pursuant to § 212 of the German Stock Corporation Act shall qualify as a Share of the same class (Series A Shares, Series B Shares, 2018 Qualifying Shares and Common Shares) as do the Shares that give rise to such entitlement and such new holding pursuant to that provision. In the event Shareholders hold different classes of Shares prior to the Stock-Split, the Shares issued under the Stock-Split shall be allocated to the relevant share classes pro rata reflecting the ratio in which the Shares were held prior to the Stock-Split. The Parties further hereby record their assumption that, as a result of the Stock-Split, among other similar adjustments applying by way of construction of this Agreement, any reference made in this Agreement to a specific absolute USD or EUR amount when relating to any one Share (other than any reference to the par value of that Share) shall be read as a reference to the relevant amount divided by 18 (unless where this very adjustment in the event of a measure such as the Stock-Split is provided already elsewhere in this Agreement).

4.3 Company not to use expansions of authorizations to issue financial instruments

4.3.1 For as long as the IPO has not occurred, the Company agrees to each Shareholder not to issue any financial instruments such as Shares, share options for management or employees, or bonds or issue such financial instruments in a manner (e.g. excluding pre-

emptive rights) if, absent any of the ESOP Amendment, the Bond Authorization or the Authorized Capital Amendment I, it could not have issued such financial instruments or could not have issued them in such manner without the consent of the Series A Majority and Series B Majority provided that this shall not restrict the Company in any such issuances which it indeed could effect also absent the afore-mentioned of the August 2019 Amendments (the "**August 2019 Restriction**").

4.3.2 ATI and Medine agree to each Shareholder to use their best efforts to procure that the Company will comply with the Restriction. The Parties acknowledge and agree that the provisions of the SHA shall apply in the event of a violation of the August 2019 Restriction.

4.4 Reversion of certain of the Amendments upon request of Beneficiary

The Company, ATI, and Medine agree to each Shareholder to use best efforts to effect the reversion of any one or more of the ESOP Amendment, the Bond Authorization, the Authorized Capital Amendment I and any Further Amendment by way of a repeal of the pertinent resolution of the August 2019 General Meeting or an amendment to the Articles for same to take the form they would be in absent the relevant August 2019 Amendment if any Shareholder so requests in writing, which request can be made at any time after 31 December 2019; best efforts shall include the submission of a request to the Company to call an extraordinary general meeting with respective agenda items or to amend agenda items of a scheduled general meeting (§ 122 AktG) and the commitment to use their voting rights from the respective Shares to vote in favour for the aforementioned reversion.

5. Voting Rights and Shareholders' Meetings of the Company

5.1 Subject to the provisions of this Agreement and any requirements for a higher majority imposed by the Company's articles of association (*Satzung*) or mandatory law, and to the extent legally permissible under applicable law, there shall be no measures which shall require more than the simple majority of the votes cast.

5.2 However, the Parties agree that the following actions and measures shall not be implemented without the prior written consent of a Series A Majority as defined in Section 5.9 below:

(i) a Liquidation Event as defined below under Clause 15.3.1 in which the Series A Investors receive, for each Series A Share held by such Series A Investor, per Series A Share proceeds of less than 1.35x of the Series A Share Price (the "**Return Threshold**"), except in case of Section 5.3,

(ii) an IPO in which the Company's Shares are sold at less than the Return Threshold, except in case of Section 5.4,

(iii) amending the rights, preferences, and privileges of the Series A Shares or the Series A Investors,

(iv) declaration or payment of dividends, distributions of profits, redemptions, and repurchases of Company securities (other than pursuant to the Company's SAR programs or in connection with the Foundation Withdrawal Right described in Section 7), including shareholders resolutions granting authorizations to the Company for redemptions and/or repurchases of securities issued by the Company,

(v) increasing the size of the supervisory board of the Company beyond six (6) members,

(vi)	incurring debt, or creating any debt security for the Company and its subsidiaries of more than EUR 40,000,000 (in words: EUR forty million) in the aggregate, whereas such limiting amount shall be increased in the same ratio as the capital of the Company ("*Grundkapital der Gesellschaft*") will be increased after the 2017 Capital Increase,
(vii)	encumbering or granting a security interest in a Material (as defined below) portion of the assets of the Company, except as a security for admitted loans according to Section (vi) above,
(viii)	acquiring a Material (as defined below) amount of assets of another entity, including through a merger, purchase of capital stock, or other similar transaction, whereas in case of earn out payments a 3 years period is relevant for the determination of the materiality threshold as defined below,
(ix)	creating or holding capital stock in any subsidiary (except wholly-owned subsidiaries or subsidiaries already being held by the Company as of the execution of this Agreement), or disposing of any subsidiary (other than JPT) stock or all or substantially all of any subsidiary assets,
(x)	Material (as defined below) interested party transactions or related party transactions, in the event that said such activities (i) provide an economic advantage to one Shareholder or group of Shareholders at the expense of the others or (ii) are not entered into in the ordinary course of business, whereas in case of licenses or earn out payments a 3 years period or the time period until a termination of the agreement is possible – whatever is earlier – is relevant for the determination of the materiality threshold as defined below,

(xi) selling, transferring, licensing, assigning, or otherwise disposing of any of the Company's Material (as defined below) assets or intellectual property (for the avoidance of doubt Parties agree that such transaction has to be legal anyway), in the event that said activities advantages one Shareholder at the expense of the others, except for the licenses granted under the side letter agreement entered into between the Company and the Foundation.

Lit. (i) through (xi) above each a "**Restricted Matter**" and collectively "**Restricted Matters**". "**Material**" means more than EUR 40,000,000 (in words: Euro forty million) in either (a) a single transaction or series of related transactions, or (b) in the aggregate in any calendar year.

5.3 If the prior written consent of the Series A Majority is not obtained as otherwise required by Section 5.2 (i), then, in connection with the applicable Liquidation Event, such consent shall be deemed granted (but only to the extent otherwise required pursuant to Section 5.2 (i) and not with respect to any other consent required by law, otherwise required herein) if the Existing Shareholders, or to their discretion the Company, commit themselves to pay to each of the Series A Investors the shortfall amount between (i) the actual proceeds received from such change of control transaction per sold Series A Share and (ii) the Return Threshold ("**Shortfall Amount CoC**") as provided for herein provided that such commitment to pay (or payment) by the Company must not result in the actual proceeds of any Shareholder other than an Existing Shareholder from the relevant transaction being less than the proceeds that would accrue to that Shareholder absent such commitment or payment. If any of the 2018 Qualifying Investors or the Foundation keeps any of its respective Shares, such commitment to pay (or payment) by the Company requires the consent of such 2018 Qualifying Investor and the Foundation, respectively.

In case the Existing Shareholders decide that the Company shall pay the Shortfall Amount CoC such decision shall be pursuant to the unanimous consent of all Existing Shareholders. In such case the Existing Shareholders shall indemnify and hold harmless the Series A Investors from any repayment obligation towards the Company which might arise from a payment by the Company to the Series A Investors under this Section 5.3. In the event that a payment by the Company to the Series A Investors is not permitted by law or the prerequisites for the Company to so pay pursuant to the preceding paragraph are not satisfied (e.g. absent the requisite consent by a 2018 Qualifying Investor or the Foundation) or such payment by the Company is otherwise not possible, the Existing Shareholders shall put the Series A Investors in the same position they were in if the Company was permitted to make such payment. In either way, such payment by the Company, or, in case of a payment by the Existing Shareholders, will be made no later than five (5) days following the closing of the Liquidation Event. For the avoidance of doubt: In the event that no unanimous consent of all Existing Shareholders exists as to a payment by the Company and also the Existing Shareholders have not bindingly committed themselves to such payment, the consent as referred to in Section 5.2 (i) shall be not be deemed granted pursuant to this Section 5.3.

5.4 If the prior written consent of the Series A Majority is not obtained as otherwise required by Section 5.2 (ii), then, in connection with the IPO, such consent shall deemed granted (solely to the extent required pursuant to Section 5.2 (ii) and not with respect to any other consent required by law or otherwise required herein) if the Existing Shareholders, or to their discretion the Company, commit themselves to "pay" to the Series A Investors the shortfall amount between (i) the IPO Issuance Price and (ii) the Return Threshold (**"Shortfall Amount IPO"**) as provided for herein provided that the Company may make such commitment to pay (or make such payment) only with the consent of each 2018 Qualifying Investor and the Foundation unless such commitment (or payment) does not result in the IPO Issuance Price being less than the IPO Issuance Price that would prevail absent such commitment or payment. The "**IPO Issuance Price**" shall be the price at which the Shares are offered in an Initial Public Offering. The Shortfall Amount IPO can be paid in cash or in Shares that are, at the time of issuance for all terms and conditions equal to the Series A Shares. In case the Shortfall Amount IPO is paid in Shares the IPO Issuance Price shall be the basis for the calculation of the number of Shares to be transferred.

In case the Existing Shareholders decide that the Company shall pay the Shortfall Amount IPO in cash such decision needs a unanimous consent of all Existing Shareholders. In such case the Existing Shareholders shall indemnify and hold harmless the Series A Investors from any repayment obligation towards the Company which might arise from a payment by the Company to the Series A Investors under this Section 5.4. In the event that it turns out that a payment by the Company to the Series A Investors is not permitted by law or the prerequisites for the Company to so pay pursuant to the preceding paragraph are not satisfied (e.g. absent the requisite consent by a 2018 Qualifying Investor or the Foundation) or such payment by the Company is otherwise not possible, the Existing Shareholders shall put the Series A Investors in the same position they were in if the Company was permitted to make such payment. For the avoidance of doubt: In the event that no unanimous consent of all Existing Shareholders exists as to a payment by the Company and also the Existing Shareholders have not bindingly committed themselves to such payment, the consent pursuant to Section 5.2 (ii) shall not be deemed granted pursuant to this Section 5.4.

In either way, such payment by the Company, or, in case of a payment by the Existing Shareholders, or in case of a transfer of Shares the payment or transfer will

be made no later than five (5) days following the first day of trading following the closing of the IPO.

For the avoidance of doubt the provisions under Clause 16 shall be unaffected by a consent or deemed consent under this Clause 5.4.

5.5 Any outstanding details with respect to the transactions contemplated by Section 5.3 and Section 5.4 shall be finally negotiated between the respective Parties and the Series A Investors prior to the execution of the Liquidation Event or the IPO, respectively. For the avoidance of doubt, the Company or the Existing Shareholders shall not be authorized to conduct a change of control transaction or an IPO before the payment of the Shortfall Amount CoC or the Shortfall Amount IPO is secured.

5.6 To the extent measures and actions listed in Section 5.2 (which shall also be included in the Articles as respective supervisory board's consent requirements) fall within the scope and responsibility of the executive board under mandatory stock corporation law, the Shareholders shall, as far as legally permissible, use their best efforts to procure that the supervisory board shall withhold such consent in the absence of a consent of the Series A Majority.

5.7 In the event, that a Restricted Matter is implemented or threatened to be implemented (as specified below) without the consent or deemed consent of the Series A Majority otherwise required according to Section 5.2, the following shall apply:

(i) If the supervisory board (a) has approved within its own and free discretion (except in a test vote as set forth in the RoP SB) any of the Restricted Matters in the absence of the consent of the Series A Majority (relating to such Restricted Matters which fall in the competence of the executive board) or (b) puts an agenda item on the agenda of a supervisory board meeting despite the fact that the same agenda item has been a matter of a test voting as set forth in the RoP SB in the absence of the consent of the Series A Majority (relating to such Restricted Matters which fall in the competence of the executive board) or (c) deletes the provisions regarding the procedure of test voting and delay of agenda items in case of a Restricted Matter as set forth in the RoP SB or does not adhere to such procedure, the following shall apply:

- on a prompt request of one of the New Investors, the Shareholders are obligated to withdraw all members of the supervisory board except the one elected according to the Redmile Nomination Right at once and elect new members of the supervisory board mutually acceptable to the majority of the Shareholders and to the majority of New Investors;

- the obligation to withdraw all members of the supervisory board shall not apply in the case that despite all provisions of the RoP SB having been observed (including the provisions of timely invitation of a supervisory meeting before an approval by the supervisory board), the member of the supervisory board elected according to the Redmile Nomination Right has not notified the other members of the supervisory board beforehand, with detailed substantiation that the item of the agenda concerns a Restricted Matter (such notification obligation only to arise from the date upon which the Redmile Nomination Right has been exercised and implemented for the first time).

If the member of the supervisory board elected according to the Redmile Nomination Right has notified the other members of the supervisory board with detailed substantiation that an item of the agenda concerns a Restricted Matter and the other members of the supervisory board require a withdrawal of such notification and the notification is not withdrawn within 5 days and it turns out later on, that the measure was not a Restricted Matter, on a prompt request of

one of the New Investors, the Shareholders are obligated to withdraw the members of the supervisory board elected according to the Redmile Nomination Right.

(ii) If the general meeting has decided to approve any of the Restricted Matters in the absence of the consent of the Series A Majority (relating to such Restricted Matters which fall in the competence of the general meeting) and on a prompt request of one of the New Investors the Shareholders are obligated to elect for the next 3 years as much members of the supervisory board of the Company according to a respective nomination by the Redmile Investors that such members of the supervisory board so nominated hold the majority of seats in the supervisory board.

(iii) Any further claims of the New Investors for a breach of this Shareholders Agreement shall remain unaffected.

(iv) For clarity, if a member of the supervisory board that was elected according to the Redmile Nomination Right is withdrawn, Redmile shall continue to retain the Redmile Nomination Right but any further nominee shall also require the approval of a majority of the Shareholders.

5.8 Any action or measure that pursuant to Section 5.2 or any other provision of this Agreement requires the prior consent of a Series A Majority shall also require the prior consent of a Series B Majority (as defined in Section 5.10 below) in the same form as is required for the relevant consent of the Series A Majority and Section 5.3 and Sections 5.5 through 5.7 shall apply *mutatis mutandis* in relation to the Series B Investors provided

a) that (A) no such Series B Majority shall be required for an IPO (Section 5.2(ii)) and (B) a Series B Majority shall be required for a Liquidation Event (Section 5.2(i)) only where such is a sale of Shares pursuant to the Drag Along Right in which any of the Series B Investors receives, for each Series B Share held by such Series B Investor, proceeds of less than 110% of the relevant Investment per Share (the "**Series B Return Threshold**"), and

b) for the purposes of this Section 5.8, the terms "Series A Investor", "New Investors", "Series A Majority", and "Return Threshold" shall mean "Series B Investor", "Series B Investors", "Series B Majority", and "Series B Return Threshold", respectively.

5.9 "**Series A Majority**" shall mean Shareholders collectively holding the majority of the Series A Shares.

5.10 "**Series B Majority**" shall mean Shareholders collectively holding the majority of the Series B Shares.

5.11 Parties agree that in case that a consent which is required under Section 5.2 is refused and such refusal constrains the business of the Company or other Group Companies they will try to solve the problem in good faith.

6. Support of Company's strategy

Each Shareholder undertakes to support the strategy as outlined in the document "Cash Position and Use of Proceeds" for the Company as attached hereto as **Annex 6**, including the financial planning set out therein, without the Shareholders incurring any legal undertakings to effect any of the measures stipulated in such document.

7. **Foundation Withdrawal Right**

7.1 The Parties acknowledge that the Foundation is investing for charitable purposes under the United States tax code and in connection therewith is entitled under certain conditions, as set out in an investment agreement between the Company and the Foundation (the "**BMGF Investment Agreement**"), to have the Shares held by the Foundation or its Affiliates redeemed by the Company or to sell such Shares to third parties (the "**Withdrawal Right**"). Sections 9 through 13 shall not apply to such transfer.

7.2 On August 19, 2019, a shareholders' meeting of the Company (*Vollversammlung*) was held whereby the Shareholders waived all statutory provisions and provisions of the Articles as to holding and convening a shareholders' meeting and in this shareholders' meeting have passed a unanimous shareholders' resolution pursuant to § 71 para. 1 no. 8 AktG authorizing the Company for a period of five years to acquire the Foundation Shares for such purchase price as is specified in such resolution (the "**Authorization Resolution**"). The Shareholders hereby each undertake (i) not to vote in favour of any subsequent shareholders' resolution resulting in a revocation of the Authorization Resolution and (ii) to vote in favour of any subsequent shareholders' resolution as the Company will propose to renew the Authorization Resolution prior to the lapse of the authorization period, and (iii) in case an IPO is about to occur, to vote in favour of any shareholders' resolution immediately prior to the IPO to renew the Authorization Resolution for the maximum period legally allowed.

7.3 To the extent that pursuant to the BMGF Investment Agreement (i) the Company is required to procure that no dividends are paid, no Shares are redeemed by the Company and no other distribution to any other Shareholder of the Company in respect of the share capital held by such Shareholders is made and (ii) annual profits shall be contributed to the unrestricted reserves in the meaning of section 71 para. 2 sentence 2 German Stock Corporation Act (*Aktiengesetz, AktG*) (and no exemptions or limitations under the BMGF Investment Agreement from such requirements pursuant to (i) or (ii), respectively, apply), the Parties will not vote in favour of any resolution that would result in or cause any dividend, redemption or other distribution as set out under (i) above to occur and will not vote against any resolution that the annual profits be allocated to unrestricted reserves, provided however that ATI and Medine shall vote in favour of any resolution that the annual profits so be allocated to unrestricted reserves.

7.4	Notwithstanding anything in this Agreement to the contrary, any amendment to this Section 7 shall require the prior written consent of the Foundation.
8.	**Employee Stock Ownership Plan**
8.1	The Parties acknowledge and agree that, with the consent of the Company's supervisory board, present or future managers of the Company or any of its subsidiaries or other key employees of the Company or any of its subsidiaries may be granted an employee participation at the level of the Company pursuant to an authorization granted by the general meeting of the Company of 18 August 2017 (the "**Employee Stock Ownership Plan**" or "**ESOP**"). The volume and the general terms and conditions are stipulated in **Annex 8.1**.
8.2	Any material deviation from the volume and the general terms and conditions from what is set out in Annex 8.1 which deviation has an additional dilutive effect of at least 5% shall be subject to the consent of the Series A Majority.
8.3	The Parties acknowledge and agree that the ESOP shall be established in preparation of an envisaged IPO.

9. **Share Disposal Restrictions**

9.1 Subject to the provisions set out in Section 16 (IPO) and subject to Permitted Transfers (as defined below) and unless where the relevant Shareholder has a Drag Along Right, no Disposal of any Shares by a Shareholder shall be permitted without consent of Shareholders holding a minimum of 90% of the Shares of the Company, until 30 June 2022 (the "**Lock-Up Period**"), provided that should Shareholders holding a minimum of 90% of the Shares of the Company consent to a Disposal of Shares then the further restrictions and limitations regarding a Disposal of Shares as set forth in this Agreement shall apply. Upon expiry of the Lock-Up Period, any Disposals of any Shares shall only be permitted as set forth in this Agreement. However, the Parties agree that any approval of a Disposal of any Shares after 31 December 2020 until 30 June 2022 shall not be unreasonably withheld.

9.2 Except for a transfer of Shares permitted in Section 14 below and option grants according to Annex 8.1 (collectively, a "**Permitted Transfer**"), none of the Shareholders shall without the prior consent of the Company's supervisory board:

9.2.1 sell, transfer, dispose of or otherwise deal with any right or interest in any Share (including the grant of any option over or in respect of any Share), or enter into a sub-participation (*Unterbeteiligung*) of whatsoever nature (including silent partnerships (*stille Beteiligungen*)) on, or trusteeship over, Shares, or similar arrangements;

9.2.2 create or permit to exist any pledge, mortgage, lien, fixed or floating charge or other encumbrance over any Share or any interest in any Share; or

9.2.3 enter into any voting trust, or any agreement with any person other than its Affiliates (as defined below) in respect of the votes attached to any Share (or parts thereof),

9.2.1 to 9.2.3 each a "**Disposal**".

9.3 Each Disposal of any Share in the Company shall only become effective in accordance with the Articles as amended from time to time, and shall be subject to prior consent of the Company's supervisory board. Parties shall use their best influence that the consent of the supervisory board shall be granted without undue delay in the event that the conditions for a Disposal according to this Agreement and the Articles are fulfilled.

9.4	Any Disposals, transfers of, or liens on, any Shares not made in accordance with the provisions of this Agreement shall not be registered in the share register of the Company (the "**Share Register**").
9.5	No Disposal, in particular no transfer of any Shares (other than a transfer to another Shareholder or as part of an IPO) shall be recognized or permitted unless the beneficiary of the Disposal, in particular any transferee in case of a transfer, validly accepts the offer to accede to this Agreement made to it by the Parties in Clause 24.4 below.
10.	**Obligation to Tender and Right of First Refusal**
10.1	Without prejudice to Section 9.1, if a Shareholder intends to directly or indirectly transfer ("**Shareholder Intending to Sell**") any of its Shares ("**Offered Shares**") in the Company to a third party, except as stipulated in Annex 3.4.1 or Annex 3.4.2 the following shall apply:
10.1.1	The Shareholder Intending to Sell shall offer the Offered Shares to all other Shareholders ("**Other Shareholders**") by written notice by stating the name of the potential purchaser interested in the transfer ("**Interested Purchaser**") and the details of the intended transfer and/or purchase conditions as set out in Section 10.1.2 (the "**Conditions of Transfer**") ("**First Tender Offer**"). The Shareholder Intending to Sell

shall also give notice of the First Tender Offer to the Company. The date of receipt of the First Tender Offer by the Other Shareholders shall be the "**Effective Date of the Tender**".

10.1.2 The First Tender Offer shall contain the following information (if available) regarding the Conditions of Transfer:

a) Name/company and address/registered office of the Shareholder/s Intending to Sell;

b) Percentage of registered share capital represented by the Offered Shares;

c) Name and address/registered office of the prospective buyer/acquirer including those of its controlling (as defined in sections 15 et seq. German Stock Corporation Act (*AktG*)) shareholders, if any;

d) purchase price and/or any other consideration for the intended sale/transaction, due date, right to profits; and

e) guarantees and representations the Shareholder Intending to Sell is willing to give.

10.1.3 The Other Shareholders shall each have the right to acquire the Offered Shares in accordance with the Conditions of Transfer in proportion to their respective share interest ratio in the Company's registered share capital after deduction of the nominal value of the Shares held by the Shareholder(s) Intending to Sell from the Company's registered share capital by written notice ("**Right to Purchase**"). The Other Shareholders have to exercise their Right to Purchase within twenty (20) Business Days after receipt of the First Tender Offer ("**First Purchase Term**"). The notice to exercise their Right to Purchase has to include, and shall be effective only upon, the respective Other Shareholder's willingness to acquire all Offered Shares not acquired by the Other Shareholders according to their pro rata Right to Purchase (i.e. in effect the Right to Purchase as a whole can be exercised only with regard to all of the Offered Shares). A "**Business Day**" shall mean any day other than a Saturday or Sunday on which banks are open for business in Munich.

10.1.4	If individual Other Shareholders do not exercise their Right to Purchase at all or not within the First Purchase Term, the Shareholder Intending to Sell shall give written notice to the Shareholders exercising Right to Purchase of the Offered Shares not purchased within ten (10) Business Days after the end of the First Purchase Term ("**Second Tender Offer**"), and the Other Shareholders who have exercised their Right to Purchase ("**Shareholders exercising Right to Purchase**") shall have the right and the obligation to additionally acquire the percentage proportion of the Offered Shares for which the Right to Purchase has not been exercised in accordance with the Conditions of Transfer, in relation to the respective share interest ratio the respective Shareholder exercising Right to Purchase has on the Effective Date of the Tender in the sum of all Shares of the Shareholders exercising Right to Purchase within thirty (30) Business Days after receipt of the Second Tender Offer by written notice (the "**Second Purchase Term**"), provided that the Shareholders exercising Right to Purchase may mutually agree upon another ratio as to who of the Shareholders exercising Right to Purchase acquires the Offered Shares for which Other Shareholders have not exercised their Right to Purchase within the First Purchase Term.
10.1.5	The Shareholder Intending to Sell and the Shareholders exercising Right to Purchase are obligated to execute the transfer of the Offered Shares purchased without undue delay and to undertake all steps and actions necessary and useful for the transfer to become

	effective, which shall occur no later than ten (10) Business Days after the Shareholders exercising Right to Purchase have exercised their rights.
10.1.6	If the Other Shareholders have not effectively exercised their Right to Purchase under this Section 10 (e.g. if no Other Shareholder has exercised its Right to Purchase or if the notice to exercise their Right to Purchase does not include the willingness to acquire all Offered Shares not acquired by the Other Shareholders) the Shareholder Intending to Sell shall be free, subject to Section 9, to transfer the Offered Shares to one or more third parties within a period of three (3) months following the expiry of the Second Purchase Term, provided that such sale and transfer occurs at no more favorable conditions than outlined in the Conditions of Transfer.
10.2	The Shareholder exercising Right to Purchase with the highest share interest in the Company is entitled to fractional amounts, if any.
10.3	Section 9.5 shall apply *mutatis mutandis*.
10.4	The provisions of this Section 10 and the Right to Purchase set forth herein shall apply *mutatis mutandis* to any other Disposal of any Offered Shares, except donations of a Shareholder for the benefit of the respective Shareholder's spouse or descendants in the first degree (*zu Gunsten von Ehegatten oder Abkömmlingen 1. Grades*).
11.	**Tag Along Right**
11.1	In the event that the Shareholder(s) Intending to Sell individually or collectively sell or contribute more than 25% of the Shares in the Company to a third party in one or more related transactions, each other Shareholder who has not exercised his Right to Purchase according to Section 10 may request that the Shareholder(s) Intending to Sell procure that such other Shareholder can sell or contribute and transfer a pro rata portion of its Shares to the onward purchaser at the same terms and conditions as set forth in the First Tender Offer provided that such terms and conditions, where such other Shareholder does not hold at least 10% of the Shares, must, as concerns the period following completion of the relevant transaction, not impose any restrictions upon such other Shareholders (such as non-compete or non-solicit) other than customary confidentiality obligations in relation to the relevant transaction (the "**Tag Along Right**").

11.2	The Tag Along Right shall be exercised within ten (10) Business Days after the lapse of any Right to Purchase as provided for in Section 10, and shall be sent by the Shareholder(s) entitled to co-sell to the Shareholder/s Intending to Sell. If the prospective buyer/acquirer does not wish to purchase all the Shares which the Shareholders entitled to co-sell wish to sell, the Shareholder/s Intending to Sell shall notify the co-selling Shareholders of the prospective buyer's/acquirer's wish, and, the relevant co-selling Shareholders must declare to the Shareholder/s Intending to Sell, within ten (10) Business Days of receipt of the notification, whether it/they intend to demand the sale of their Shares on a pro rata basis, or whether they decide not to co-sell their Shares. If the co-selling Shareholders demand the sale of their Shares on a pro rata basis, the Shareholder/s Intending to Sell and the co-selling Shareholders shall sell their Shares pro rata to their participation in the Company at the day of receipt of the First Tender Offer.
11.3	The Shareholders are obliged to actively participate in preparing and implementing a due diligence customary to a transfer of Shares, to support the sale provided for therein to their best extent possible and to undertake all actions required or necessary for the transfer to come into effect, as long as the provisions according to this Agreement are adhered to by the Shareholder/s Intending to Sell.

12. **Drag Along Right**

12.1 Without prejudice to Sections 10 and 11, in the event that either (a) Shareholder(s) individually or collectively holding more than 50% of the Shares in the Company or, (b) for so long as Medine holds at least 1,738,692 Shares in the Company (whereas any sale of Shares based on the Agreement mentioned in Clause 31.2 shall not trigger the Drag Along Right), Medine (individually an "**Exiting Shareholder**" or collectively the "**Exiting Shareholders**"), intend(s) to sell all of their/its Shares to a *bona fide* third party, or to contribute all of their/its Shares in the framework of a business combination to a third party willing to acquire all of the Shares, such Exiting Shareholder(s) at their sole discretion is/are collectively entitled to require the other Shareholders to sell or contribute, as the case may be, immediately prior or immediately subsequent to or simultaneously with such Exiting Shareholder(s) to the third party all Shares in the Company held by them (the "**Drag Along Right**"), provided, however, that the exercise of the Drag Along Right shall further be subject to (i) the requirements of consents according to Sections 5.2 and 5.8 or deemed consents according to Sections 5.3 and 5.8 and (ii) as to each Shareholder, the proceeds from the sale per Share to which it is entitled being at least equal to its Investment per Share or it having consented to such sale.

12.2	Such sale or contribution shall be at the same price and on the same terms and conditions which have been offered to the Exiting Shareholder(s) by the potential purchaser. Concerning representations, warranties, undertakings and other restrictions and limitations in such a sale or contribution, the same representations, warranties, undertakings and other restrictions and limitations which have been offered by the Exiting Shareholders in the share purchase or contribution agreement shall apply to the other Shareholders' shareholding and shall be given by the other Shareholders provided that, where the individual other Shareholder does not hold at least 10% of the Shares, such individual other Shareholder must not (i), as concerns the period following completion of the relevant transaction, be subject to any restrictions (such as non-compete or non-solicit) other than customary confidentiality obligations in relation to the relevant transaction, (ii) be required to amend, extend or terminate any contractual or other relationship with the Company, the acquirer or their respective affiliates, or (iii) in connection with such sale or contribution incur liability joint with any third party or exceeding the total amount of the consideration actually received by such Shareholder in such sale or contribution. Drag Along Rights can only be exercised if the full consideration is in cash or in freely disposable listed securities within the meaning of section 31 para. 2 of the German Takeover Act (*WpÜG*).
12.3	The Drag Along Right must be exercised prior to or within ten (10) Business Days after a purchase or contribution agreement has been entered into with the potential purchaser by written notice (the "**Drag Along Notice**") to the other Shareholders.
12.4	The other Shareholders shall, at the sole discretion of the Exiting Shareholder(s), be obliged to sell and transfer or contribute as sellers and assignors or contributors all of their Shares in the Company upon the exercise of the Drag Along Right (the "**Drag Along Sale**") directly to the purchaser or acquirer and to enter with purchaser into all relevant agreements. The Shareholders undertake to make any and all declarations necessary and to perform any and all acts required in connection with any such sale and transfer or contribution of the Shares in Company except as provided for in **Annex 12.4**.

12.5 The Parties agree that the provisions under this Section 12 shall also apply to a merger of the Company with another company in which those Parties which do not consent to the merger but are dragged along have the right to require cash compensation instead of a share compensation as remuneration for the merger (cash compensations due to non-consent or prior settlement as the parties may agree upon), and further provided that the

Shareholders shall only consent to a merger if such cash compensation for the benefit of the Parties which do not consent to the merger is provided for. If the Parties are unable to reach an unanimous vote to the amount of the cash compensation within ten (10) Business Days after a Party has asked for cash compensation according to sentence 1, expertise proceedings (*Gutachterverfahren*) pursuant to the DIS Rules on Expertise (*Gutachtensordnung der Deutschen Institution für Schiedsgerichtsbarkeit e.V.*) of the German Institution of Arbitration (*Deutsche Institution für Schiedsgerichtsbarkeit e.V.*, "***DIS***") shall be conducted with the proviso that, contrary to Sec. 1.1 of the DIS Rules on Expertise according to which the application of these rules is limited to a non-binding opinion, the nominated expert shall determine and resolve the dispute by way of a binding written opinion pursuant to Sec. 317 *BGB*. The Parties shall instruct the nominated expert (the "**Expert**") to complete his/her review and determination within thirty (30) Business Days of receipt of the Expert's written declaration of acceptance of the office by the DIS. The Parties shall be given the opportunity to present their views in English in writing and at an oral hearing chaired by the Expert. The Expert shall determine the valuation of the Company following the rules of IDW S1. Any amount so determined by the Expert shall be paid to the dragged Party/ies by the other Parties within ten (10) Business Days after receipt of the along written decision by the Expert. Contrary to Sec. 20 of the DIS Rules on Expertise, the costs of the expertise proceedings shall be borne pursuant to the principles set forth in Sec. 91 et. seqq. German Civil Procedure Code (*Zivilprozessordnung*).

12.6 In the event that the Drag Along Right is exercised, the obligation to tender and right of first refusal as provided for in Section 10 shall not be applicable.

13. Indirect Transfers

As regards the Parties Medine, C.Huber2008, Salvia, Tofino and RLG Sections 9 through 12 shall apply *mutatis mutandis* to any indirect transfer of any indirect interest in any Shares as well as any other indirect disposition over, or liens on, Shares, including, without limitation, the transfer of any direct or indirect interest in a Shareholder (a "**Prohibited Transfer**"). Section 14 shall remain unaffected. Any Prohibited Transfer or other breach of such restrictions shall authorize the Shareholders to decide in a shareholder meeting the redemption of the Shares affected by the respective breach; any Shareholder that are a (direct or indirect) transferor or transferee of such Prohibited Transfer shall be prohibited from voting. In case that at least 5% of the votes in such shareholder meeting vote (excluding any Shares or voting rights of any transferor or transferee of such Prohibited Transfer) for the redemption all Shareholders are obliged to vote for the redemption irrespective of any quorum required by the Articles. A redemption under this Section 13 does neither require a Series A Majority consent according to Section 5.2(iv) nor a Series B Majority consent according to Section 5.8.

14. Transfer to Affiliates and other Shareholders

14.1 The restrictions and provisions in Sections 9 through 13 shall not apply with respect to transfers and sales of Shares to (x) any Affiliate, (y) any other Shareholder or any Affiliate thereof, or (z) transfers of 143,310 Shares from Medine to a trustee of the Shares provided that the trusteeship is dated for a time period before December 2017, in each case provided that

a) Section 9.5 shall apply; and

b) in the case of any transfer to a party other than another Shareholder or a Principal the transfer agreement must establish an obligation of the transferor and the respective transferee
vis-à-vis the Company and all other Shareholders

under which the transferor and the transferee shall be required to procure that the Shares be transferred to that Principal or any Affiliate thereof in the event that the transferee for whatever reason ceases to be an Affiliate of that Principal or becomes a competitor of the Company or any of its subsidiaries.

14.2 "**Affiliate**" shall mean any of (i) the Ultimate Parent, (ii) any entity that is directly or indirectly wholly owned by the relevant entity or its Ultimate Parent, (iii) in the case of an entity which is an investment fund, any other investment fund advised or sub-advised by the same investment advisor or an Affiliate thereof, (iv) in the case of an entity which is an investment fund with at least 10 investors and a capital commitment of the investors of at least 40 million Euros, any other investment fund having those characteristics and being under the management of the fund manager of the first investment fund or an Affiliate thereof, (v) any trust whose sole beneficiary is the relevant entity or the relevant entity's Ultimate Parent and, *vice versa*, where the Shares are held in trust, the trustor of the relevant entity or person, (vi) the beneficial owner of the relevant entity or an entity that likewise is beneficially owned by that beneficial owner, (vii) in the case of the Foundation (a) any successor charitable organization of the Foundation from time to time that is a tax-exempt organization as described in Section 501(c)(3) of the U.S. Internal Revenue Code, or (b) any tax-exempt organization as described in Section 501(c)(3) of the U.S. Internal Revenue Code controlled by one or more trustees of the Foundation, and (viii) the beneficial owner of the Shares or a party likewise holding the Shares for the account of that beneficial owner. "**Ultimate Parent**" shall mean the ultimate parent of the relevant entity (corporation, limited liability company, or partnership). "**Principal**" means any of the Ultimate Parent of the transferring Shareholder, the trustor in relation to the trust holding the Shares or the Shareholder, the investment adviser (in the case of sub-clause (iii) of the first sentence above), the fund manager (in the case of sub-clause (iii) of the first sentence above), and the beneficial owner of the Shares or the Shareholder, in each case if applicable.

14.3 Section 9.3 remains unaffected.

15. Liquidation Preference

15.1 Upon the occurrence of a Liquidation Event (as defined below), the Liquidation Proceeds (as defined below) shall be allocated as follows:

15.1.1 Firstly, in priority to all other Shareholders, to each Summer 2019 LP Shareholder

a) an amount for each of its Summer 2019 LiqPref Share equal to the sum for its Summer 2019 LiqPref Shares of (A) the Investment per Share and (B) the average arrears or accruals of dividend (if any) on each such Share (as the case may be) due or declared but unpaid down to the date of the return of assets (with the Investment per Share being subject to adjustment for any sub-division of the Summer 2019 LiqPref Shares, and subject to the issuance of additional Shares pursuant to Section 17), or, if the Liquidation Proceeds are not sufficient to satisfy the preference pursuant to this letter a),

b) the same fraction of the total amount which the relevant Summer 2019 LP Shareholder would receive pursuant to letter a) if the Liquidation Proceeds were indeed sufficient to satisfy the preference pursuant to such letter a) such that all of the Liquidation Proceeds are allocated pursuant to this letter b) (as a result of which, for the avoidance of doubt, the other Shareholders will not receive any Liquidation Proceeds)

(in the case of each such Summer 2019 LP Shareholder the "**First Preferred Allocation**")

15.1.2 secondly, in the event that Liquidation Proceeds remain after the First Preferred Allocations, to each of the 2017/2018 LP Shareholders

a) an amount for each of its 2017/2018 LiqPref Share equal to the sum for its 2017/2018 LiqPref Shares of (A) the Investment per Share and (B) the average arrears or accruals of dividend (if any) on each such Share (as the case may be) due or declared but unpaid down to the date of the return of assets, (with the Investment per Share being subject to adjustment for any sub-division of the 2017/2018 LiqPref Shares, and subject to the issuance of additional Shares pursuant to Section 17), or, if the Liquidation Proceeds are not sufficient to satisfy the preference pursuant to this letter a),

b) the same fraction of the total amount which the relevant 2017/2018 LP Shareholder would receive pursuant to letter a) if the Liquidation Proceeds were indeed sufficient to satisfy the preference pursuant to such letter a) such that all of the Liquidation Proceeds remaining after the application of Section 15.1.1 are allocated pursuant to this letter b) (as a result of which, for the avoidance of doubt, the Shareholders who are not Preferred Shareholders will not receive any Liquidation Proceeds)

(in the case of each such 2017/2018 LP Shareholder the "**Second Preferred Allocation**" and any First Preferred Allocation or Second Preferred Allocation a "**Preferred Allocation**"),

15.1.3 thirdly, in the event that Liquidation Proceeds remain after the Preferred Allocations (i.e. only potentially in the case of Section 15.1.2 letter a)), to each Shareholder an amount per Share equal to the Liquidation Proceeds divided by the total number of Shares in issue (in each case the "**Pro Rata Share**") provided that

a) for the calculation of the Pro Rata Shares it shall be disregarded that the Preferred Allocations have been made (i.e. the Pro Rata Shares shall be calculated on the basis of the Liquidation Proceeds before deducting the Preferred Allocations),

b) to the extent a Preferred Shareholder has received a Preferred Allocation its entitlement to the Pro Rata Share shall be deemed satisfied (i.e. it shall only receive any Pro Rata Share to the extent the Pro Rata Share exceeds its Preferred Allocation),

c) where in the case of one or more Preferred Shareholders the Pro Rata Share is less than its Preferred Allocation, those Preferred Allocations shall, for the avoidance of doubt, not be affected and the Pro Rata Share of each other Shareholder shall reduce by the same percentage such that the total amount of such reductions is equal to the aggregate amount by which the Pro Rata Shares of such Preferred Shareholders are less than their Preferred Allocations provided that to the extent, in the case of any such other Shareholder who is a Preferred Shareholder, such reduction would be to an amount less than that Preferred Shareholder's Preferred Allocation the reduction under this letter c) shall not apply and the reduction of the Pro Rata Shares of the remaining other Shareholders shall increase accordingly, and

d) if the Shortfall Amount CoC or the Shortfall Amount IPO is to be paid to the Series A Investors as provided for in Section 5.3 and Section 5.4, the amount that would otherwise be allocated to each of the holders of Common Shares pursuant to this para. 15.1.3 will (in addition to any reduction pursuant to letter c)) be reduced by the same percentage for each such holder of Common Shares and the amount of such reduction will additionally be allocated to the Series A

Investors, each such as is required for the Series A Investors to receive the Shortfall Amount CoC or the Shortfall Amount IPO, respectively, it being understood, however, that such reduction shall not be to less than nil. The aforementioned applies *mutatis mutandis* if the Shortfall Amount CoC is to be paid to the Series B Investors as stipulated in Section 5.8.

15.2 A "**Liquidation Event**" shall mean

15.2.1 the sale and/or transfer in one or more connected transactions of more than 50% of the Shares in Company, irrespective of the consideration to be received (cash, shares in other companies or other consideration) and irrespective of whether new Shares or existing Shares are being sold and/or transferred, other than in the framework of an IPO; in case not all Shares in the Company are sold or transferred within the relevant Liquidation Event the provisions under Section 15.1 and 15.2 shall only apply to the Shares sold or transferred in the relevant Liquidation Event;

15.2.2 a share exchange, transfer of shares by contribution in kind, merger, or other reorganization within the meaning of sec. 1 of the German Reorganization Act (*Umwandlungsgesetz*) if the Company is the transferring entity, provided the Shareholders have, after completion of the merger, 50 % or less of the voting rights in the absorbing entity; or

15.2.3 a direct or indirect (including exclusive licenses) sale of more than 50% of the assets of the Company and subsequent distribution of the proceeds to the Shareholders (also in the context of a liquidation); or

15.2.4 a liquidation, dissolution or
winding-up of the Company.

15.3 "**Liquidation Proceeds**" shall mean any and all proceeds received by the Shareholders including, but not limited to purchase prices less applicable Value-Added tax ("**VAT**"), reduced by all third party costs, including advisor costs of sale after settlement of all liabilities of the Company (if such liabilities are not assumed by the acquiring party), reduced further by any other costs directly related to the Liquidation Event and incurred by the Shareholders (in particular financial and legal counsel acting for and on behalf of the Company and the Shareholders which the Shareholders shall mutually agree upon in advising on the Liquidation Event), unless such costs are to be borne by the respective Shareholder (for the avoidance of doubt, costs incurred by the Shareholders such as taxes, financing costs or costs for own advisors are to be borne by the Shareholders).

15.4 In the event that the Liquidation Event consists in a share exchange, transfer of shares by contribution in kind, merger, or other reorganization within the meaning of sec. 1 of the German Reorganization Act (*Umwandlungsgesetz*), or any other form of transformation, the rights set forth under this Section 15 shall be serviced by transferring to the Shareholders shares in Company prior to the implementation of the Liquidation Event on a fair market valuation, i.e. shares transferred to the Shareholders shall be treated as consideration in application of Section 15.1.

15.5 In the event that Liquidation Proceeds are other than cash, the following shall apply:

15.5.1 To the extent that the consideration received upon occurrence of a Liquidation Event is not in cash, for the purpose of this Section 15 its value shall be amicably determined by the Shareholders. If no amicable determination can be reached, each dissenting Shareholder shall notify the other Shareholders of the value it considers appropriate for the non–cash consideration. After this notice is received and if required by any of the Shareholders (the "**Requesting Shareholder**"), the determination shall be pursued by an auditor designated by the chairman of the IDW (*Institut der Wirtschaftsprüfer in Deutschland e.V.*). Any related costs and expenses shall be allocated by the auditor in

	accordance with the application *mutatis mutandis* of sections 91 et seq. of the German Code of Civil Procedure (*Zivilprozessordnung*) between the Requesting Shareholder and the other Shareholders in the proportion of the determination made by the auditor to the value notified pursuant to the foregoing sentence.
15.5.2	In the event that the assets comprise securities traded on an internationally recognized securities exchange, then – as an exemption to Section 15.5.1– the value of the securities shall be deemed to be the average of the closing prices of the securities on such exchange over the ten (10) Business Day period ending five (5) Business Days prior to the distribution of the Liquidation Proceeds.
15.6	The provisions of this Section 15 shall apply accordingly to any type of distribution made with respect to the Shares and shall include in particular payments of profits, dividend claims, claims to settlements pursuant to the German Reorganisation of Companies Act (*Umwandlungsgesetz*), distributions of free reserves and commercially equivalent measures.
15.7	The Liquidation Preferences shall be deemed to be an agreement between the Shareholders even if the contrary is agreed in the contract or contracts underlying the Liquidation Event. The Shareholders hereby in advance declare the assignment of such claims.
16.	**Initial Public Offering (IPO)**
16.1	It is the common goal of the Shareholders that an initial public offering (an "**Initial Public Offering**" or "**IPO**") is the preferred option to realize the value of the Company, and subject to prevailing market conditions and after consultation of the Shareholders, and subject to the provisions according to Section 5.2(ii), the Company will be entitled to initiate an IPO.
16.2	Subject to the consent or deemed consent of the Series A Majority required pursuant to Section 5.2(ii), the Company shall have the sole power to direct any IPO process, to decide about its scope, disclosure of information, timing, advisors, termination and the like, and shall be entitled to negotiate any transaction documents, provided that in each case the Company shall consult with the other Shareholders on the general strategy of the IPO process.

16.3 To the extent applicable, given that the preferences of the Series A Shares are set forth in this Agreement, each holder of Series A Shares shall be entitled at any time to request to have its Series A Shares converted into Ordinary Shares. In doing so, such holder of Series A Shares may further request that its Series A Shares shall be treated, for all purposes of this Agreement, as if they were converted into Ordinary Shares with immediate effect, and all Parties shall comply with such request even before the conversion is implemented. In case a conversion of Series A Shares into Ordinary Shares is implemented in preparation of an IPO, and unless a Series A Majority has requested otherwise, the Parties shall treat each other, during the time period from such conversion until the successful implementation of the IPO, as if the holders of the so converted Shares would still hold respective Series A Shares and be holders of Series A Shares. Furthermore, the Series A Majority is entitled to demand from the other holders of Series A Shares, in particular, but not limited with the consummation of an IPO that the Series A Shares held by it be converted, whether individually or in total, into Ordinary Shares at a ratio of 1:1.

16.4 Each Shareholder shall exercise its voting rights attached to its respective Shares in the Company (insofar as it is able to do so, having regard to the voting rights conferred upon the Shares held by the relevant Shareholder, if any) and take any and all other customary and commercially reasonable action solely in its capacity as a Shareholder of

	the Company (including, without limitation, waiving any and all legal and/or statutory requirements as to form and notice for the calling and holding of a shareholders' meeting and the passing of a shareholders' resolution) to cooperate and support in its capacity as Shareholder any action or transaction as reasonably proposed to be taken by the Company in connection with such IPO (for clarity, this Section 16.4 shall not require the Series A Majority to consent to an IPO in which the Company's Shares are sold at less than the Return Threshold except if the difference is compensated by the Company or the Existing Shareholders as the case may be). In particular, the Parties shall, to the extent legally possible, use its influence and admit that:
16.4.1	the Company prepares a data room and permits a due diligence;
16.4.2	the Company sets up a business plan;
16.4.3	the management of the Company performs any management presentations as required or feasible; and
16.4.4	the Company prepares an offering prospectus in line with applicable law.
16.5	The Shareholders shall not be obliged to provide any representations, warranties or undertakings in relation to an IPO, except as to the ownership of their Shares sold in an IPO.
16.6	The underwriter may request, and the Shareholders shall then sign and accept, but only if and to the extent that at least 99% of the other Shareholders sign and accept, agreements or undertakings concerning transfer restrictions relating to the listed shares on customary market terms and subject to the particularities of the IPO, notably transfer restrictions for a lock-up period which shall be reasonably determined by the underwriter in accordance with the then customary market practice and the particularities of the IPO to ensure a successful IPO (the "**IPO Lock-Up Period**"). The Shareholders will use best efforts to minimize any restrictions requested by the underwriter. Notwithstanding anything to the contrary herein, nothing in this Agreement shall restrict, or require any Shareholder from entering into a lockup agreement that restricts, any Shareholder from transferring any Shares acquired in the IPO or in open market transactions following the IPO.

16.7	The Parties shall have pro rata rights, but no obligation, to sell their Shares in the Company to the extent existing Shares are to be placed in the IPO through a secondary placement (the "**Secondary Placement**"). Should one Shareholder not (fully) exercise its rights to place its pro rata portion in the secondary placement the other Shareholders may increase the volume of their sale pro rata.
16.8	Subject to the IPO Lock-Up Period and customary co-ordination obligations for block trades, all Shareholders of the Company shall be free to dispose of their Shares in the Company upon completion of the IPO.
16.9	After completion of an IPO, each of the Shareholders shall be entitled to sell its Shares, subject to any applicable lock-up obligations and subject to any rules applying to block trades, via the stock exchange and/or private placements.
16.10	The costs of any IPO process (whether successful or not) initiated by the Company shall be borne by the Company and/or any of its subsidiaries, to the extent legally permitted and, if not so, by the Shareholders in proportion to the Shares sold or to be sold by them (based on sales proceeds) in such IPO.

17. **Anti-Dilution Protection**

17.1 In the event of any additional increases of the Company's registered share capital prior to (but not including) the IPO, each Shareholder shall have the statutory subscription rights under existing German Law to subscribe to such number of new Shares resulting from the capital increase as is necessary to preserve the Shareholder's pre-capital increase shareholding and voting rights, subject to any authorization to exclude pre-emptive rights as is provided in an authorized capital (*genehmigtes Kapital*) pursuant to the Articles (i) in the version put into effect by the Shareholders' Resolution of 29 December 2017 or (ii) in any amended version of the Articles. Parties shall use their best influence that Company does not undermine the preceding sentence. The subscription rights of holders of Series A Shares may not be cancelled by a resolution of the shareholders' meeting without the prior written consent of a Series A Majority nor may any amendment to the Articles expanding the then existing authorizations to exclude pre-emptive rights be resolved without such consent. Notwithstanding anything to the contrary in this first paragraph of this Section 17.1, the Shareholders shall upon the request of the Company consent to the exclusion of pre-emptive rights, and to establishing and expanding authorizations in an authorized capital to so exclude pre-emptive rights, as to the issuance of Shares for the purpose of compensating subscribers for breaches of guarantees under the relevant investment agreement ("**Remedial Issuance**").

If a Shareholder so subscribes in any additional capital increases and if the Shareholders can sell shares under the IPO (*Secondary Placement*), the subscribing Shareholders in such additional capital increases shall each have the pro rata right to sell Shares so additionally subscribed, but not, in any case, exceeding, in the aggregate, 50% of such Secondary Placement.

The Shareholders shall also have the right to subscribe to share issuances of any Spin-out company as is necessary for the Shareholders to maintain, in such Spin-out company, in aggregate a direct and indirect (as a Shareholder of the Company) shareholding up to their respective shareholding of the Company immediately prior to such spin-out. A "**Spin-out**" company is defined as a company founded by the Company or its affiliates with the expectation that third parties may invest into such company.

17.2 Section 17.1 shall not apply to capital increases to perform an IPO.

17.3

At each time after the 2017 Capital Increase when (other than in the framework of the IPO and Remedial Issuances) new Shares are issued by the Company to any person by way of a capital increase against contribution in cash or in kind (each a "**Further Financing Round**") and the volume-weighted average price per Share (including any premiums or similar payments into the capital reserves of the Company) under collectively that Further Financing Round and all previous Further Financing Rounds (if any) (such volume-weighted average Share price the "**Further Financings Price**") is less than the volume-weighted average price per Share paid by the holder of Series A Shares under collectively the 2017 Capital Increase, that Further Financing Round and all previous Further Financing Rounds (if any) (the "**Average Investor Share Price**"), the respective holder of Series A Shares shall be entitled to subscribe for such number of new Shares against cash contribution of Euro 1.00 per Share (i.e. without any further premiums or additional payments in the capital reserves of the Company) as is necessary in order to increase the number of Shares actually issued to the respective holder of Series A Shares to in aggregate such number of Shares in the Company which under collectively the 2017 Capital Increase, that Further Financing Round and all previous Further Financing Rounds (if any) would have been allotted to the respective holder of Series A Shares against its aggregate investment under such occasions if the

issuance price at all of such occasions had been the Further Financings Price ("**Compensatory Issuance**"), it being understood that for the above computations the Compensatory Issuances preceding the relevant Further Financing Round (if any) are to be considered previous Further Financing Rounds; the shares issued under a Compensatory Issuance shall be the "**Compensatory Shares**". For the calculation of the Further Financings Price, the Average Investor Share Price and the Compensatory Shares the formulas stipulated in **Annex 17.3** apply. Compensatory Shares shall be Series A Shares. For the avoidance of doubt, in the case of a down-round, the Return Threshold will be adjusted after each issuance of Compensatory Shares by multiplying the Return Threshold by the ratio of the number of Shares to the sum of number of Shares and number of all issued Compensatory Shares.

17.4 In the event that Section 17.3 applies, the Compensatory Issuance shall be resolved immediately after each or together with each subsequent Further Financing Round. The Existing Shareholders shall waive any statutory or contractual subscription rights in connection with the Compensatory Issuance.

17.5 Each holder of Series A Shares shall be entitled to the down-round protection set forth in Sections 17.3 through 17.4 only

(i) with respect to each and any capital increase prior to the first Qualified Financing ("**First Qualified Financing**") following the 2017 Capital Increase without any qualification or minimum requirement;

(ii) with respect to the First Qualified Financing, if such holder of Series A Shares invests at least the lower of (i) 40% of the Investment of the respective holder of Series A Shares in the course of the Series A Financing, or (ii) USD 10,000,000 (in words: US-Dollar ten million), or (iii) the maximum amount otherwise permitted for such holder of Series A Shares to invest in the First Qualified Financing (and, provided, in each case, such investment is on the same terms and conditions as each other investor in the First Qualified Financing) (such holder of Series A Shares so investing, being a "**Participating Investor**"); and

(iii)	For each Participating Investor and if anti-dilution rights were granted to any of the investors in the First Qualified Financing, with respect to each and any capital increase prior to the first Qualified Financing following the First Qualified Financing (the "**Second Qualified Financing**") without any qualification or minimum requirement.
(iv)	For each Participating Investor and if anti-dilution rights were granted to any of the investors in the First Qualified Financing, with respect to the Second Qualified Financing, if (b) such Participating Investor invests also at least the lower of (i) 40% of the Investment of the respective holder of Series A Shares in the course of the Series A Financing, or (ii) USD 10,000,000 (in words: US-Dollar ten million), or (iii) the maximum amount otherwise permitted for such holder of Series A Shares to invest in the Second Qualified Financing (and, provided, in each case, such investment is on the same terms and conditions as each other investor in the Second Qualified Financing).

For the avoidance of doubt, where in case of (ii) or (iv) above a Series A Investor is not admitted to subscribe to any new shares in the respective Qualified Financing, such Series A Investor shall still be entitled to the down-round protection set forth in Sections 17.3 and 17.4. After the Second Qualified Financing, no holder of Series A Shares and no other Shareholder shall be entitled to any further down-round protection according to this Section 17 and each holder of Series A Shares not investing in a Qualified Financing, shall lose its entitlement to such down-round protection according to this Section 17.

17.6	A "**Qualified Financing**" means a subsequent financing round following the 2017 Capital Increase pursuant to which the Company issues new shares and which such issuance of new shares results in aggregate gross proceeds to the Company of at least USD 100,000,000 (in words: US-Dollar one hundred million).
17.7	Clauses 17.3 through 17.6 (the "**Down-round Clauses**") shall apply *mutatis mutandis* for the benefit of any 2018 Qualifying Investor provided that
17.7.1	for the purposes of this Clause 17.7, the terms "Series A Share", "holder of Series A Shares" and "2017 Capital Increase" as used in the Down-round Clauses shall mean 2018 Qualifying Share, 2018 Qualifying Investor and the relevant 2018 Qualifying Investor's 2018 Qualifying Investment, respectively,
17.7.2	where the actual volume-weighted average price per Share under a Further Financing Round is less than USD 237, the volume-weighted average price per Share under that Further Financing Round shall for the purposes of this Clause 17.7 be deemed to amount to USD 237 (and the calculations under this Clause 17.7 in conjunction with the Down-round Clauses shall be made on this basis rather than on the basis of the actual volume-weighted average price per Share under that Further Financing Round),
17.7.3	for the purposes of this Clause 17.7, in each of paragraphs (ii) and (iv) of Clause 17.5, the number "10%" shall be substituted for the number "40%" and the amount of USD 7,500,000 shall be substituted for the amount of USD 10,000,000.
17.8	The Down-round Clauses shall apply *mutatis mutandis* for the benefit of any Series B Investor provided that for the purposes of this Section 17.8, the terms "Series A Share", "holder of Series A Shares" and "2017 Capital Increase" as used in the Down-round Clauses shall mean Series B Share, Series B Investor and the relevant Series B Investor's Series B Investment, respectively.
17.9	The Down-round Clauses shall apply *mutatis mutandis* for the benefit of the Foundation provided that
17.9.1	for the purposes of this Section 17.9, the terms "Series A Share", "holder of Series A Shares" and "2017 Capital Increase" as used in the Down-round Clauses shall mean Foundation Share, Foundation and the relevant Foundation Investment, respectively,

17.9.2	where the actual volume-weighted average price per Share under a Further Financing Round is less than USD 237, the volume-weighted average price per Share under that Further Financing Round shall for the purposes of this Clause 17.9 be deemed to amount to USD 237 (and the calculations under this Clause 17.9 in conjunction with the Down-round Clauses shall be made on this basis rather than on the basis of the actual volume-weighted average price per Share under that Further Financing Round), and
17.9.3	for the purposes of this Clause 17.9, in each of paragraphs 17.5(ii) and 17.5(iv) of Clause 17.5, the number "10%" shall be substituted for the number "40%" and the investment threshold of USD 10,000,000 shall not apply.
18.	**Reporting, Information, Inspection Rights and Further Undertakings**
18.1	Each Shareholder has the relevant statutory information and inspection rights vis-à-vis the Company.
18.2	In addition, the Company shall furnish the following information within the relevant prescribed time periods to all Shareholders:
18.2.1	Within four (4) months after the expiration of a financial year: audited annual financial statements of the Company.

18.2.2	Within sixty (60) calendar days after the expiration of a quarter of a financial year: unaudited quarterly financial information of the Company.
18.2.3	Until first of December of each year: annual budget of the Company for the following financial year.
18.2.4	The provisions of **Annex 18.2.4** apply with respect to the Company and in favour of the Redmile Investors and in favour of Fidelity Management & Research Company.
19.	**Confidentiality**
19.1	Each Party shall keep confidential (and shall use reasonable endeavors to ensure that its officers, employees, agents and professional and other advisers keep confidential) any information relating to the business of the Company or its subsidiaries or any of the customers or suppliers which it may have or acquire before or after the date of this Agreement as well as any information relating to this Agreement and the Parties hereto (collectively the "Confidential Information") except for:
19.1.1	information which is independently developed by the relevant Party from information provided other than pursuant to this Agreement or acquired from a third party to the extent that it is acquired with the right to disclose the same;
19.1.2	information which is at the date of disclosure within the public domain (other than as a result of a breach of this Section 19); or
19.1.3	information which the Party is obliged to disclose or announce under mandatory law or the rules of any other official body or regulatory authority or any court of competent jurisdiction.
19.2	In performing its obligations under this Section 19, each Party shall apply confidentiality standards and procedures at least as stringent as those it applies generally in respect of its own business and affairs, however at least standards of a prudent businessman.
19.3	No Party shall use any Confidential Information for any purpose other than its shareholding in the Company or its affairs with the Company and making decisions in relation to that shareholding or affairs.

19.4 The obligation of confidentiality under this Section 19 shall not apply to the disclosure of Confidential Information:

19.4.1 to any professional advisers of a Party or its affiliate of information reasonably required to be disclosed for a purpose reasonably incidental to this Agreement;

19.4.2 to an Affiliate of a Party; and

19.4.3 to any direct or indirect, actual or potential investor in a Shareholder or the Company,

provided that in each case that any disclosure shall be made on a confidential basis.

19.5 Each Party is responsible for any breach of this Section 19 by any person to whom the Confidential Information is disclosed by such Party as if such disclosure had been made by the respective Party itself.

20. No Assignment

No Party may assign any or all of its rights or obligations under this Agreement, without the prior written consent of the other Parties except as permitted pursuant to

Section 14. This Agreement will inure to the benefit of and be binding upon the Parties and their respective successors and permitted assigns.

21. **Form of Notices; Written Form; Special Notice**

21.1 Any notice or other declaration hereunder (a "**Notice**") shall be made at least in text form (*Textform*) in accordance with Section 126b German Civil Code (*Bürgerliches Gesetzbuch*) unless any other specific form is required under this Agreement.

21.2 Any requirement in this Agreement for an act or agreement to be "in writing" or in "written form" or similar may in any event be satisfied by way of the relevant party executing the relevant document and transmitting an electronic copy of the document to the recipient, by email or otherwise.

21.3 "**Special Notice**" means a notice in writing by the Company to each of the other Parties provided that such notice shall be deemed received by each such other Party if any member of the management board of the Company certifies in writing that the Company has in good faith attempted to transmit such notice to each of the other Parties at the postal or email address last provided by the relevant Party and it does not have any reason to believe that such notice has not reached each of the other Parties.

22. **Delivery Addresses and Authorized Recipients**

22.1 Each Party shall, at any time while a Party to this Agreement, keep the Company informed of such Party's current mailing address and contact data. As of the date hereof, the Parties may direct any and all Notices to be issued in connection with this Agreement or otherwise in relation to the Company
vis-à -vis another Party, to the persons and addresses set forth in Annex 22.1, and any Notices directed to such persons and addresses shall be deemed received by the respective Party, to which such Notice is addressed, subject to the provisions set out in Section 21.

22.2 If any Party to this Agreement wishes to change its delivery address, such Party shall inform the other Parties in writing thereof, and such change shall become effective for the purposes of this Agreement and, in particular, this Section 21, upon the lapse of ten (10) days as of receipt of such information, provided that the first sentence of this Section 22.1 is complied with.

22.3	The persons stated in Annex 22.1 shall be authorized recipients (the "**Authorized Recipients**") for the respective Parties, including for the purposes of serving any statements, applications, declarations, correspondence or court orders relating to disputes in respect of this Agreement or otherwise in connection with the Company (*Zustellungsbevollmächtigte*), provided that each such Authorized Recipient shall have an adequate post address for delivery in the Federal Republic of Germany. Section 22.1, last sentence, shall apply accordingly.
22.4	The receipt of copies of Notices by the Parties' advisors as set out in Annex 22.1 shall not constitute or substitute the receipt of such Notices by the Parties themselves. Any Notice hereunder shall be deemed received by a Party regardless of whether any copy of such Notice has been sent to or received by an advisor of such Party as set out in Annex 22.1, irrespective of whether the delivery of such copy was mandated by this Agreement.
22.5	The Parties agree that **Annex 22.1** is not finalized at execution of this Agreement. They are obliged to deliver the relevant data within 4 weeks after execution of this Agreement and after that such data and the collecting **Annex 22.1** will be part of this Agreement.

23. Accession to Shareholders' Agreement

In the event that a transfer of Shares in the Company (or an issuance of Shares in the Company in the case of an additional capital increase) is intended to a person or to the benefit of a person which is not a Party to this Agreement, all Parties shall procure that, prior to or concurrently with, the relevant transfer becoming effective: (i) all obligations of the transferring Shareholder continue to be fulfilled after such transfer has been effected, and (ii) a person which as a result of the transfer becomes a shareholder of the Company accedes to this Agreement pursuant to Section 24.4 as 'Shareholder' and 'Party' unconditionally and without any restrictions and assumes any and all rights and obligations of the transferring Shareholder pursuant to this Agreement and consequently accepts as binding all declarations made by the transferring Shareholder in this Agreement. The foregoing shall not apply in the event that all Shares in the Company are transferred to a third party.

24. Scope and Amendment of this Agreement

24.1 The Shareholders hereby accede to this Agreement with all existing Shares.

24.2 This Agreement shall apply to any and all Shares of the Company held by any of its Parties and any Shares a Party may acquire (irrespective of the nature of such share and its acquisition) shall automatically be subject to this Agreement with no further action required. If a new shareholder accedes to this Agreement or if succession (irrespective of the nature of such succession) occurs with respect to a Shareholder or a Party who is a Party to this Agreement, then this Agreement shall become binding and effective with respect to all Shares in the Company held by the (new) shareholder or the succeeding shareholder, respectively.

24.3 The Parties shall procure that during the term of this Agreement all shareholders of the Company are or become a party to this Agreement.

24.4	The Parties hereby irrevocably make an offer, and in addition each of them grants irrevocable power of attorney to the Company and to any Shareholder to on behalf of the relevant Party make an offer, to any legal or natural person that is contemplated to acquire or to subscribe to Shares in the Company to enter into an agreement exclusively to the effect that such person accedes to this Agreement as 'Shareholder' and 'Party', thereby waiving the receipt of any declaration of acceptance pursuant to Section 151 sentence 1 German Civil Code (*Verzicht auf den Zugang der Annahmeerklärung*), provided that (i) upon any amendment to this Agreement such offer and power of attorney shall relate to the accession to this Agreement as so amended and (ii) any such accession shall be conditional on the relevant person actually becoming a Shareholder. Any acceptance of such offer shall only be valid provided that (i) it is declared without any condition, addition or other modification of this Agreement, and (ii) it occurs vis-à -vis the Company in writing with binding effect for all Parties to this Agreement.
24.5	The Company shall inform the Parties immediately of any accession to this Agreement. In the event that an acquirer or subscriber of Shares in the Company refuses to accede to this Agreement without any condition, addition or other modification of this Agreement or in writing, all Shareholders of the Company shall refuse to grant their consent to the relevant transfer, issuance or subscription of shares in the Company pertaining to such acquirer or subscriber.
24.6	Any rights and obligations pursuant to this Agreement shall be effective vis-à-vis the Parties as of today. Any rights and obligations pursuant to this Agreement shall cease at the latest upon forfeiture of the status of shareholder in the Company and upon

discharge of all rights and obligations of a former shareholder resulting from the status of shareholder or pursuant to this Agreement.

25. Term and Termination

25.1 This Agreement becomes effective at the date hereof. It runs for an indefinite term and can be terminated by each Party with a notice period of twelve (12) months in each case to the calendar year, however, for the first time with effect as of 31st December 2030 and the Parties hereby agree that this is a reasonable period.

25.2 The right to terminate for good cause (*aus wichtigem Grund*) remains unaffected.

25.3 In the event of the full implementation of an IPO of the Company this Agreement shall cease to have effect. The IPO shall be deemed to be fully implemented in this sense with the start of trading on a stock exchange. For the avoidance of doubt, the provisions as set forth in Section 15 shall not be applicable in case of an IPO.

25.4 If a Shareholder disposes of all of its shares in the Company, such Shareholder shall cease to be a Party to this Agreement with effect as of such disposal; Section 25.5 remains unaffected.

25.5 Any expiration of or termination of this Agreement or any Party ceasing to be a Party to this Agreement shall be without prejudice to the rights, obligations or liabilities of any Party which have accrued or arisen prior to the expiration or termination date.

26. Governing Law

This Agreement shall be governed by and construed in accordance with the laws of the Federal Republic of Germany, excluding the provisions of private international law thereof.

27. Massachusetts Business Trust

A copy of the Agreement and Declaration of Trust of Janus Investment Fund ("**Trust**") is on file with the Secretary of State of the Commonwealth of Massachusetts and all Shareholders acknowledge that this Agreement is executed on behalf of the trustees of the Trust or any affiliate thereof as trustees and not individually and that the obligations of this Agreement are not binding on any of the trustees, officers or stockholders of the Trust or any affiliate thereof individually but are binding only upon such investor or any affiliate thereof and it assets and property.

28. Arbitration

28.1 Any dispute, controversy or claim arising from or in connection with this Agreement or its validity shall be finally settled by three arbitrators in accordance with the Arbitration Rules of the German Institution of Arbitration e.V. (DIS) as applicable at the time of filing the claim, without recourse to the ordinary courts of law. The place of arbitration shall be Frankfurt am Main, Germany. The number of arbitrators is three. The language of the arbitral proceedings shall be English, provided, however, that written evidence and other supporting documentation may also be submitted in the German language. The applicable substantive law is the law of the Federal Republic of Germany.

28.2 In the event that mandatory applicable law requires any matter arising out of or in connection with this Agreement and its execution to be decided upon by an ordinary court of law, the competent courts in Frankfurt am Main shall have the exclusive jurisdiction.

29. **Amendments**

29.1 Subject to the succeeding paragraphs of this Section 29, amendments to this Shareholders' Agreement, including this written form requirement, must be made by agreement between all Parties in writing in order to become enforceable and effective unless mandatory law requires a stricter form.

29.2 Any amendment to this Agreement, other than any of the amendments specified in Section 29.4, may, if the prerequisites in Section 29.3 are met, also be made by way of

a) the Company by Special Notice making a proposal to each of the other Parties specifying in which way this Agreement is to be amended (the "**Proposal for Amendment**"), thereby transmitting a comparison between the Agreement in the form in effect at the relevant time and the Agreement as it will read following the amendment and providing a form to be used by Shareholders for providing their consent to the amendment (the "**Consent Form**"),

b) within two weeks after the Proposal for Amendment has been sent, Shareholders who in the aggregate hold at least 60% of the Shares consenting to the Proposal for Amendment in writing, thereby using the Consent Form, provided that all of Medine, ATI, at least one Redmile Investor, and at least one Fidelity Investor must be among the Shareholders so consenting, and

c) the Company by Special Notice confirming that the prerequisites in paragraphs a) and b) have been satisfied and that upon the confirmation pursuant to this paragraph c) the amendment of this Agreement as per the Proposal for Amendment will take effect pursuant to its terms.

29.3 The following prerequisites must be met in order for an amendment to this Agreement to be made pursuant to Section 29.2:

a) To the extent the Proposal for Amendment alters the legal position of any of the Pre-Amendment Shareholders relative to other Shareholders (existing or future) it must so benefit or burden all Pre-Amendment Shareholders equally provided that establishing rights or preferences for the holders of New Letter Shares (collectively the "**New Preferences**") as such shall be deemed not to violate this prerequisite (with "**New Letter Shares**" being Shares to be issued after the amendment has taken effect).

b) To the extent the Proposal for Amendment establishes New Preferences this Agreement as amended must, as to each issuance of the relevant New Letter Shares, either prohibit the Company from issuing the New Letter Shares to any of the Pre-Amendment Shareholders and any of their Affiliates altogether or require the Company to give all Pre-Amendment Shareholders opportunity to subscribe for the New Letter Shares (and where the number of New Letter Shares available for subscription by the Pre-Amendment Shareholders is less than the number to which such Pre-Amendment Shareholders would wish to subscribe, to do so *pro rata* to their shareholdings as of the date of the pertinent resolution to increase the Company's stated capital).

29.4 The following amendments cannot be made pursuant to Section 29.2 (but require the agreement of each of the Shareholders):

a) Reduction of the shareholding threshold of 10% in Section 11.1 (relevant for scope of ongoing restrictions to be potentially incurred by tag-seller);

b) elimination wholly or in part of the restriction to the exercise of the Drag Along Right set out in sub-clause (ii) of Section 12.1 (proceeds per Share to be at least equal to Investment per Share); and

c) elimination wholly or in part of the restriction to the exercise of the Drag Along Right set out in the last sentence of Section 12.2 (full consideration to be in cash or in freely disposable listed securities within the meaning of section 31 para. 2 of the German Takeover Act (*WpÜG*)).

30. Interpretation

30.1 The headings and sub-headings of the Sections contained herein are for convenience and reference purposes only and shall not affect the meaning or construction of any of the provisions hereof.

30.2 Any reference made in this Agreement to any types of companies or participations, proceedings, authorities or other bodies, rights, institutions, regulations or legal relationships (herein collectively referred to as the "**Legal Terms**") under German law shall extend to any corresponding or identical Legal Terms under foreign law to the extent that relevant facts and circumstances must be assessed under such foreign law. Where no corresponding or identical Legal Terms under foreign law exist, such Legal Terms shall be introduced as – functionally – come closest to the Legal Terms under German law. Where the English wording of this Agreement is followed by a German Legal Term set in parenthesis and in italics, the German legal term shall prevail.

30.3 All annexes attached hereto form an integral part of this Agreement.

31. No side agreements

31.1 With the exception of the agreements set forth in Section 31.2, this Agreement constitutes the final, complete expression of agreement between the Parties with respect to the subject matter covered herein and supersedes any and all previous negotiations, agreements and understandings, whether written or verbal, between all of the Parties, with respect to the subject matter of this Agreement or parts thereof in particular but not limited to the shareholders' agreement dated 10 November 2008, as amended through and as of the date hereof including on 10 May 2010 and 7/12 February 2014, and there are no side agreements to this Agreement.

31.2 For the avoidance of doubt, those agreements between Shareholders regarding sales of shares and regarding replacement of liquidation preferences set forth in **Annex 31.2** and any rights and obligations still outstanding from time to time under any of the investment agreements entered into between the Company and any investor at any time after December 28, 2017 shall survive and remain between the respective parties of such agreements in full force and effect.

32. Consent to Sideletter

All Parties declare their consent (in the sense of Section 5.2) to the Side Letter attached as **Annex 32**. They enter into this **Annex 32**.

33. Costs

Save as agreed otherwise in the Investment Agreement, each Party will bear their own fees and expenses in connection with this Agreement and in connection with the Capital Increases; provided, however, that the Company will bear the costs of its legal counsel regarding the drafting of this Agreement.

34. Currency Conversion

Any amounts set forth herein and designated in US-Dollar but available only in EUR (e.g. in assessing whether a minimum investment is made in the case of Qualified Financing under Section 17.5), such currencies shall be converted applying the average last 12 month (LTM) conversion rate.

35. Announcements

No announcements shall be made by any party naming Fidelity or its affiliates without prior written consent of Fidelity or the respective affiliate. The same applies to the Redmile Investors, Kendal Global and Filet Capital.

36. Independent Nature of Investors' Obligations and Rights

The obligations of each Shareholder under this Agreement, or any such related agreement, are several and not joint with the obligations of each other Shareholder, and no Shareholder shall be responsible in any way for the performance of the obligations of any other Shareholder under this Agreement. Nothing contained herein or in any related agreement, and no action taken by any Shareholder pursuant thereto, shall be deemed to constitute the Shareholders as a partnership, an association, a joint venture or any other kind of entity, or create a presumption that the Shareholders are in any way acting in concert or as a group with respect to such obligations or the transactions contemplated by this Agreement or any other related agreement. Each Shareholder acknowledges that no other Investor will be acting as agent of such Shareholder in enforcing its rights under this Agreement. Each Shareholder shall be entitled to independently protect and enforce its rights, including without limitation the rights arising out of this Agreement, and it shall not be necessary for any other Shareholder to be joined as an additional party in any proceeding for such purpose.

The obligations of each investor under this Agreement are several and not joint with the obligations of each other investor, and no Shareholder shall be responsible in any way for the performance of the obligations of any other Shareholder under this Agreement.

37. Severability

Should any provision of this Agreement be or become invalid, ineffective or unenforceable as a whole or in part, the validity, effectiveness and enforceability of the remaining provisions shall not be affected thereby. Any such invalid, ineffective or unenforceable provision shall have to be replaced by the Shareholders by such valid, effective and enforceable provision as comes closest to the economic intent and purpose of such invalid, ineffective or unenforceable provision as regards subject-matter, amount, time, place and extent. The aforesaid shall apply *mutatis mutandis* to any gap in this Agreement.

This document is an English translation of a document prepared in German. In preparing this document, an attempt has been made to translate as literally as possible without jeopardizing the overall continuity of the text. Inevitably, however, differences may occur in translation and if they do, the German text will govern by law.

In this translation, German legal concepts are expressed in English terms and not in their original German terms. The concepts concerned may not be identical to concepts described by the English terms as such terms may be understood under the laws of other jurisdictions.

SUBLEASE AGREEMENT

The following sublease agreement is entered into

between:

University Medical Centre of the Johannes Gutenberg University of Mainz,
55131 Mainz, Langenbeckstraße 1,
represented by
the chairman of the executive board and the Medical Director, [***],
the Scientific Director, [***], as well as
the Commercial Director [***]
(hereafter referred to "Unimedizin")

and

BioNTech AG
55131 Mainz, Hölderlinstraße 8
represented by
the director
[***] (German business degree)
(hereafter referred to the subtenant).

Preamble

SANIPharma GmbH has acquired the plot “An der Goldgrube”, 55131 Mainz (GFZ barracks facility; district Mainz, plot 21, no. 450/5) and intends to erect a building with laboratory and office areas on this land by the 4th quarter of 2013. Unimedizin intends to lease the building to ensure future space requirements are met and to transfer the same to third parties, such as Ganymed Pharmaceuticals AG and BioNTech AG, by way of subletting the use of part areas.

The contract partners agree that the subtenant will take over the lease areas described in more detail below for commercial purposes to carry out research, development and the marketing of products and services within the biotechnological / medical sector in line with this agreement. The contract partners have individually negotiated all regulations of the sublease agreement in detail. The following regulations summarise the verbal agreements made in writing.

In principle, the property shall be managed by SANIPharma for the term of this agreement unless a third party becomes the subtenant of the building in question in place of Ganymed Pharmaceuticals AG. Details regarding this are regulated in Section 6 no. 4 of the sublease agreement.

Section 1
Leased object

Lease areas:

The probable extent of the leased areas of this agreement and the number of parking spaces for the contractual leased object are:

1.

Office areas	approx. 1,012 m^2
Laboratory areas	approx. 2,632 m^2
Archive and storage areas	approx. 365 m^2
Animal accommodation areas	approx. 331 m^2
Conference rooms	approx. 68 m^2
Shared rental areas	approx. 339 m^2
Parking spaces	approx. 50 spaces

The useable area (**Appendix 1**) has been calculated on the basis of the current plan status in line with planning approval as well as the guideline for calculating the lease area of commercial facilities

(MF-G gif e.V.), status 01.11.2004 (**Appendix 2**, calculation and guideline). The parties agree that the object will be measured in a way that is binding for both sides as soon as the building status allows this. Once these measurements are available the final useable areas will be recorded in an addendum and added as a tabular list of the lease areas. Should the area change from the one listed under Section 1 no. 1 the rent according to Section 6 no. 1 will change accordingly.

2. The leased object is clear from the plans enclosed with this lease agreement as **Appendices 3, 5 and 6**.

3. The fit-out standard is laid down in the building specification enclosed as **Appendix 4**. Should special requests by the subtenant necessitate changes to the fixed fit-out standard, the parties will confirm these together with SANIPharma GmbH in an addendum to the main lease agreement or the sublease agreement by mutual consent. Any additional costs incurred due to this will be borne by the subtenant in the form of a construction cost surcharge. The owner, namely SANIPharma GmbH, assures the future building status of the rental premises in line with the building specification (**Appendix 4**) under the conditions of the planned building quality.

2

Changes to this functional building specification (**Appendix 4**) by the owner, namely SANIPharma GmbH, are admissible as long as material of the same quality and grade is used and the justified interests of the subtenant are adequately taken into consideration.

4. With regard to the technical laboratory equipment (cost groups 300 and 400) the facilities serve as a reference object for Ganymed Pharmaceuticals GmbH, Freilingrathstraße 12 in Mainz. Permanently fitted office furniture (cost group 600) will be installed on the basis of the plans (**Appendix 3**). Moveable laboratory objects and laboratory furniture will not be part of the lease agreement. The subtenant itself will acquire these objects. Changes with regard to technology and/or laboratory furniture made by SANIPharma GmbH in the building plans will be recorded in the final plans and added to the property management contract between SANIPharma GmbH and the subtenant as an addendum.

5. With regard to the equipment and building services to be supplied only the building specification enclosed as **Appendix 4** applies. Illustrations that deviate from the same, for example in the planning documentation of the architects or the building contractor, are not binding for Unimedizin. The subtenant will not be able to make claims from this.

The leased object will be completed and handed over as a turn-key project in line with accepted technical rules, bearing in mind all currently valid public law provisions and official stipulations. Regulations already agreed and published that will however come into force only within six months from approval application must also be taken into consideration, as these may lead to subsequent object-related stipulations. If higher requirements are defined in the building specification these are considered to be owed.

Deviations from the documents enclosed as **Appendices 3 and 4** due to building law or technical requirements or official stipulations are admissible as long as the contractual serviceability of the leased object is not substantially affected and the justified interests of the subtenant are adequately taken into consideration.

Possible deviations must be notified to the subtenant within at least 28 days from Unimedizin becoming aware of the same.

Section 2
Leasing purpose

1.	The subtenant intends to use the leased areas for operating a laboratory (S1, S2 and animal laboratory) as well as an office area.

3

2. Any change to the type of business operated at the lease facility, the use or the profession carried out there, requires the prior written approval of Unimedizin.

3. The subtenant is solely responsible for obtaining and maintaining other official non-object related approvals that may be required for the business operation of the subtenant at its own cost and its risk. If approvals required for the business operation within the meaning of Section 2 no. 1 are granted only under specific stipulations the subtenant is obliged to comply with the same at its own cost. In the case of a final refusal of the initial operating approval the subtenant will have the right to withdraw from this agreement according to sections 346 et seq. BGB if the refusal is based on a non-compliance with building and/or technical requirements.

The subtenant will comply with official instructions and stipulations relating to the use of the leased object passed following handover within the meaning of Section 3 at its own cost. If such instructions or stipulations are object (building) related or will necessitate object related measures the subtenant will implement these in agreement with Unimedizin. Should such object related stipulations or measures require investments of more than one total annual net rent p.a. the parties will endeavour to agree a regulation concerning the covering of additional costs.

The issue of official instructions, stipulations or other provisions will not grant the subtenant a withdrawal, termination or performance refusal right as long as operating approval still exists and the reason for this is not the fault of Unimedizin. The same applies for impairments of the commercial use of the leased object due to external circumstances such as traffic diversions, excavations, road closures, noise, odour and dust nuisance etc.

Section 3
Handover of the leased object

1. The subtenant will inform Unimedizin in good time prior to handover of the leased object, who will implement this for the subtenant.

2. A protocol documenting the handover will be generated and signed by both contract partners. Defects found will be included in the protocol. If the leased object contains defects the obligation of Unimedizin will initially be limited to rectifying the same. Should this fail or is not likely to be successful, a claim to rent reduction and/or compensation or withdrawal will exist in line with statutory provisions. If the contractual parties cannot agree, any rectifications may have to be implemented following a corresponding expert report.

3. As construction progresses, SANIPharma GmbH will carry out a so-called technical inspection - possibly also for spatially or technically separate part areas - prior to handover to the subtenant together with individual companies participating in the construction. SANIPharma GmbH undertakes to inform the subtenant of the date of the technical inspection three weeks prior to the same.

4. Following timely notification of the date, the subtenant shall attend and cooperate in the technical inspection.

5. If recognisable defects or the non-contractual condition of the leased object are not claimed in the handover protocol, defects will be considered not to exist and the leased object as contractually compliant in this regard. Hidden defects are excluded from this. SANIPharma GmbH will send the subtenant protocols of the building planning meetings.

Section 4
Lease period and termination

1. The lease relationship begins upon handover, provisionally during the 4th quarter of 2013.

2. If the leased object cannot be handed over on the date listed under point 1 - irrespective of the reason - the handover date and the start of the lease relationship will be postponed accordingly for up to nine months. There will be no possibility for the subtenant to withdraw in this case. Reference is made to the right of termination without notice (Section 5 para. 2).

3. The sublease relationship is limited to a period of ten years. The parties will set a start and end date of the fixed term in an addendum to the sublease agreement immediately after handover according to Section 3. The subtenant will have the option to extend the lease agreement three times by a further 5 years. Exercise of the option must be declared in writing at least 18 months prior to expiry of the (possibly extended) lease agreement in writing in each case. The receipt of the declaration by the landlord is crucial for compliance with this deadline.

If Ganymed Pharmaceuticals AG vacates the leased object in the future, the remaining subtenant will be granted preferential lease rights to also lease the facilities of Ganymed Pharmaceuticals AG about to become vacant under the conditions of this sublease agreement for a period yet to be agreed by the parties. Exercising the preferential lease right must then be declared by the subtenant within four weeks from service of the request to Unimedizin in writing. Following expiry of the deadline without a written declaration exercising the preferential lease right, the said preferential lease right will lapse.

The subtenant further has no preferential lease right for the period that exceeds the

25-year term of the main lease agreement of Unimedizin or an earlier end of the main lease agreement of Unimedizin.

Should the tax authorities revise the economic tax allocation of the leased object such that the subtenant is deemed to be the economic owner, the contractual parties and SANIPharma shall negotiate a regulation that will not lead to disadvantages or advantages for the contractual parties.

4. If the subtenant continues to use the leased object once the lease period has expired the lease relationship will be considered to have been extended. Section 545 BGB will therefore not apply.

5. Splits, mergers or conversions under company law by the subtenant will not lead to an end of the lease agreement and will not grant special termination rights. The subtenant will inform Unimedizin of the legal entity who is the successor on the side of the subtenant. The liquidity of the subtenant may not be negatively affected by this.

Section 5
Extraordinary termination

1. The right to an extraordinary termination without notice shall be based on the statutory provisions and this must be declared in writing unless agreed otherwise below. Unimedizin may terminate the sublease relationship with immediate effect and without complying with a notice period,

a) if the subtenant is in default with payment of the rent for two consecutive rent payment dates or with payment of a not insubstantial part of the rent, or has defaulted on payment of the rent for an amount that totals the rent for two months during a period that extends over more than two payment dates;

b) if the subtenant continues using the leased object contrary to the agreement irrespective of a written reminder by Unimedizin, in particular
sub-lets the same without approval;

c) if the subtenant violates its obligations to such an extent that Unimedizin cannot be expected to continue the sublease relationship, in particular continues to make late payments (of total or part amounts) despite written reminders by Unimedizin;

d) for another important reason.

2. If the leased object is not ready for occupation, or not on the agreed date, and is not ready for occupation within the extended completion period listed under Section 4 paragraph 2 above, or if the leased object is found to have defects that will void its suitability for the contractually agreed occupation, the subtenant has the right to set Unimedizin a suitable deadline that does not need to be longer than three months, and to terminate without notice upon expiry of this deadline.

Excluded from this are: force majeure, strike, insolvency of the builder(s); in these cases the contractual parties will agree a suitable further deadline.

Compensation claims are excluded unless Unimedizin has acted with intent or gross negligence or if they relate to injuries to life, body or health.

Section 6
Rent and security deposit

The total rent amount for the building including installations and parking spaces will be set according to Section 1 para. 1 and in line with the respective usage areas at the following prices per m^2 and per month, plus VAT at the respective statutory rate.

1. The monthly rent at the time of completing the agreement is therefore:

Utilisation units	Price/ m^2		Area in m^2	Price per utilisation area	
Office areas	€	12.50	1,012	€	12,650.00
Laboratory areas	€	24.00	2,632	€	63,168.00
Archive and storage areas	€	12.50	365	€	4,562.50
Animal accommodation areas	€	52.00	331	€	17,212.00
Conference rooms	€	12.50	68	€	850.00
Shared rental areas or traffic areas	€	12.50	339	€	4,237.50

Parking spaces	€	30.00	50 spaces	€	1,500.00
Sub-total				€	104,180.00
Surcharge 1%				€	1,041.80
Total				€	105,221.80

2. SANIPharma GmbH has claimed input tax deduction for the costs of purchasing and equipping the leased object. For this reason, the subtenant may use the leased object only for realising income that will not exclude the deduction of input tax by SANIPharma GmbH and Unimedizin.

The subtenant is aware that only income liable to VAT allows this VAT option in principle and that the financial authorities and courts will accept other income that rules out an input tax deduction only within very strict and low limits. The subtenant must provide Unimedizin with all information required by Unimedizin for enforcing and maintaining the VAT option. It undertakes upon request by Unimedizin to provide Unimedizin and SANIPharma GmbH or the responsible tax office with corresponding documents. This regulation also applies for the case of a possible subletting where this is permitted in this agreement. The subtenant will be required to reimburse any damage incurred or apparent in cases of violation.

3. The rent according to point 1 is set on the basis of the consumer price index for the cost of living of all private households in Germany (published by the Federal Office for Statistics in Wiesbaden) at the time of signing the agreement (base year 2005 = 100). If the status of this index changes by more than 7.5 points either up or down 12 months after the start of the contract or at the time of the last rent adjustment, the rent (excluding auxiliary costs and VAT) will change at a corresponding ratio with effect from the month following the change without requiring a special declaration of either of the contractual parties or another contractual amendment. The percentage of the rent adjustment will be converted by means of the formula ([index status new x 100]: index status old) - 100 = rent adjustment in percent. If the index should not be continued in its present form it will be replaced with the statistics recorded by the Federal Office for Statistics that come as close as possible to the same with a new base year.

4. The subtenant undertakes to complete a property management contract with SANIPharma GmbH, the owner of the plot, for the entire term of the sublease agreement, unless a third party replaces Ganymed as subtenant, in which measures and operating costs invoices according to Sections 7 and 10 are regulated where these are not provided by the subtenant itself at its own cost or paid directly to the service providers, or where these are not provided by the subtenant at its own cost or paid directly to the service providers.

The subtenant thus agrees to SANIPharma GmbH commissioning a third party for the fulfilment of the property management contract.

The subtenant agrees to a future property management by Unimedizin when the property management by SANIPharma GmbH ends. Property management includes all measures and operating cost statements according to Sections 7 and 10 unless this is not provided by the subtenant itself at its own cost or paid directly to the service providers, details of which with regard to the operating costs to be invoiced and the distribution principles to be applied are regulated in Section 7a.

The subtenant will not be able to enforce claims from the above property management by SANIPharma GmbH against Unimedizin.

Section 7
Operation and use of the leased object

1. The subtenant shall implement all measures and bear all costs necessary for the use of the leased object. These include in particular, but not exclusively:

- all public safety obligations with regard to the leased object;
- cleaning responsibilities for paths bordering the leased object where this exists on the basis of corresponding local statutes;
- completion of supply contracts with the respective suppliers (electricity, gas, water, drainage, heating, chimney sweeping, road cleaning and waste disposal) and corresponding statements;
- operation, monitoring and maintenance of the heating system including exhaust gas system and the regular inspection of operational readiness and safety, including adjustments to be carried out by a professional, cleaning of the system and the equipment room, implementation of necessary measures in line with the Federal Emission Protection Act, implementation of calibrations;

- operation of a passenger or freight lift including supervision, operation, monitoring and maintenance of the system, regular inspection of operational readiness and safety including adjustments to be carried out by a professional and cleaning of the system;
- cleaning of the building and pest control, including the external cleaning of windows;
- operation, maintenance and upkeep of all technical and mechanical building components;
- maintenance of fire extinguishers as well as obtaining official test certificates;
- testing, maintenance and upkeep of fire and safety-technical equipment. This for example includes fault and fire alarm systems with auxiliary equipment, sprinkler systems, smoke and heat extraction systems, hydrants;
- maintenance, upkeep and regular inspection of lighting protection system as well as roof vegetation and roof drainage;
- garden maintenance including the replacement of plants and bushes as well as the upkeep of open spaces, access paths and access roads that do not serve the general public;

- supply of traffic areas, equipment spaces and facilities with water, electricity, heat etc., including the acquisition of lighting equipment;
- operation of an antenna system or a broadband cable network;
- implementation of cosmetic repairs in public areas;

If the (prior) agreement of SANIPharma GmbH is required for implementing these measures such agreement must be obtained.

2. Costs charged directly to SANIPharma GmbH or Unimedizin, such as for example ongoing public charges, namely property taxes or other costs, will be borne by the subtenant. These costs will be invoiced annually by the 31.08. at the latest. The same applies for the cost of insurances taken out by SANIPharma GmbH or Unimedizin according to Section 15. The subtenant must inform Unimedizin of any objections at least 6 weeks after receipt of the invoice. The subtenant will no longer be able to object to an invoice after this deadline has expired.

Section 7a
Property management by Unimedizin

For the case of a termination of property management activities by SANIPharma GmbH the parties will agree the following in a supplementary agreement to this sublease agreement:

1. The subtenant will pay the operating costs resulting from Sections 7 and 10 of the sublease agreement, the respective valid operating cost regulations and from property management activities to Unimedizin where these are not provided by the subtenant himself at its own cost or paid for directly to the service providers.

A copy of the currently valid operating cost regulations is enclosed as **Appendix 7** and form the object of this agreement.

Monthly advance payments will be paid for the aforementioned costs and auxiliary costs charged according to Section 7 no. 1 as follows:

a)	for heating and hot water supplies	€
b)	for all other operating costs	€
c)	for administration costs	€
	Total monthly ancillary cost advance payment	€

2. Distribution ratios:

a) Heating and hot water supply costs will be distributed in line with the allocation principle specified under no. 5.

b)	Costs for hot water supplies will be invoiced depending on the consumption for the whole building/ the economic unit where corresponding measuring equipment is available. Failing this they will be distributed in line with the following allocation principle:

c) Drainage costs will be distributed proportionate to the water supply.

d) Lift costs will be charged in line with the conversion code specified under no. 6.

e) All other operating costs and administration costs will be distributed in line with the ratio of usage area to total area of the building / the economic unit unless the following conversion ratio is agreed: _____ _____

f) If Unimedizin incurs specific costs as a consequence of the usage type of the object (for example surcharge for fire insurance, additional waste containers), these amounts will be passed on to the subtenant in full.

g) Unimedizin may change the conversion ratios at its discretion if reasons for a correct upkeep of the building / the economic unit demand this.

3. An invoice for the prepayments shall be issued annually by 31 August at the latest. Unimedizin may change the invoice period for reasons of expedience. The subtenant must inform Unimedizin of any objections at least 6 weeks from receipt of the invoice. The subtenant may no longer submit objections against the invoice following expiry of this deadline. In the case of an increase or reduction in ancillary costs Unimedizin will have the right to review advance payments with effect from the month following the annual statement. Unimedizin may demand appropriate advance payments from the date of notification of newly incurred ancillary costs, in particular operating costs.

4. If increases in operating costs occur, Unimedizin will have the right to distribute such increases proportionally to the subtenant by means of a written declaration; the reason for the conversion must be stated and explained in the declaration. In a case of retrospective increases in operating costs the declaration of Unimedizin will apply from the date of the increase. This also applies if new operating costs as defined in the operating costs regulations are incurred or arise following completion of the sublease agreement.

If operating costs fall, they will be reduced accordingly from the date of the fall.

5. Heating and hot water supply

a) Unimedizin will maintain the shared hot water system for respective use throughout the year to the usual extent. The hot water supply system will be operational at all times.

b) Heating costs to be paid by means of allocation include:

the cost of fuels used and their delivery, the cost of operating currents, the cost of operating, monitoring and maintaining the heating system including the exhaust gas system, the regular inspection of its operational readiness and operational safety including adjustments to be carried out by a professional, the cleaning of the system including the tank and

equipment room, the cost of measurements in line with the Federal Emissions Protection Act, the cost of leasing or other types of transfer of use of equipment for consumption recording as well as the cost of using equipment for consumption recording including calculation and distribution costs.

The above regulations apply correspondingly for the costs of hot water supply systems of the building / the economic unit.

c) Heating and hot water costs will be allocated as follows:

Hot water consumption will be recorded with a heat meter and invoiced in line with actual consumption. Heating costs will be distributed at the ratio of usage area to total area of the building or the economic unit.

Unimedizin will be entitled to change invoicing ratios at its discretion within the legally admissible scope if justified interests necessitate this for a correct maintenance of the building / the economic unit.

It is clear from the technical calculations of **Appendix 8** that an exception from the application of sections 3 to 7 Heating Costs Ordinance with regard to the supply of heat and hot water according to section 11 para. 1 no. 1 lit. b and para. 2 Heating Costs Ordinance exists, so that the aforementioned stipulations of the Heating Costs Ordinance do not apply.

6. Lift

a) The lift costs to be allocated for the operation of a passenger and/or freight lift include:

the costs for operating electricity, supervision costs, the cost of operating, monitoring and upkeep of the system, the regular inspection of its operational readiness and operational safety including adjustments to be carried out by a professional as well as the costs of cleaning the system.

b) Lift costs will be allocated according to the ratio of usage area to total area of the building or the economic unit or according to the following allocation principle:

---

c) Unimedizin reserves the right to change the allocation principle at its discretion if reasons for the correct maintenance of the building / the economic unit necessitate this.

Section 8
Payment of rent

1. Rent plus VAT must be paid to Unimedizin monthly in advance, by the fourth of every month at the latest, free of charge, with a releasing effect only to the following account:

Account holder: [***] Sort code: [***]
Account number: [***] Bank: [***]

Unimedizin will provide the debtor number as a payment reference.

2. The timeliness of the payment will depend not on the transfer, but on the receipt of the money.

3. Late payment of rent will entitle Unimedizin to charge interest on appears from their due date until the date when payment is received according to section 288 BGB. The claiming of higher interest charges is not ruled out by this. Irrespective of this further compensation claims and the statutory or contractually agreed termination rights of Unimedizin remain unaffected.

Section 9
Reduction,
set-off, right of retention, compensation claims

1. A reduction or retention of rent and
set-off against claims of Unimedizin are excluded if circumstances outside of Unimedizin's control (for example road closures, construction work on neighbouring buildings, changes to or cessation of the delivery of supply media which Unimedizin is unable to influence etc.) affect the use of the facilities. Unimedizin will assign corresponding claims against third parties to the subtenant in this regard.

2. Apart from this the subtenant may set off counterclaims against rent demand claims or exercise a right of reduction or retention only if the counterclaim is undisputed or has been legally confirmed.

Section 10
Maintenance and use of the leased object

1. The subtenant undertakes to maintain and repair the leased object including other facilities and equipment also let at its own cost. Not included in the maintenance obligation of the subtenant are the underlying construction components (work on roof and the building shell), although the moveable parts of doors and windows are. The same applies if a case of force majeure exists or if maintenance or repair become necessary due to a construction defect. Costs may not exceed a total charge of 10% of the annual rent per year. Any costs exceeding this will be borne

by SANIPharma GmbH. VAT will not be included, i.e. only net amounts will be included in the calculation of limit values where the parties to the lease agreement are entitled to withhold input tax. Work on installations and objects, in particular on technical systems that affect the entire building (air-conditioning shafts, water and heating pipes) must be agreed with SANIPharma GmbH in advance.

2. The subtenant undertakes to carry out ongoing cosmetic repairs at its own cost as appropriate as soon as the degree of wear requires this for the type of commercial operation or the contractual use. Cosmetic repairs include all internal painting, wallpapering, whitewashing and the painting of walls and ceilings, the painting or gloss painting of radiators, heating pipes, internal doors, windows and the insides of external doors. The subtenant undertakes to have existing floor coverings including skirting boards treated by a qualified tradesperson if necessary.

3. The subtenant undertakes to treat the leased object including all components as well as the common facilities (yard areas, vestibules, stairwells, lifts etc.) with care and consideration.

4. The subtenant must request information about admissible load limits of respective story ceilings from SANIPharma GmbH prior to erecting machines, heavy apparatus and safes in the lease facility and must obtain the latter’s written approval. The subtenant is liable for damage caused through disregarding this provision. If machines have a negative effect on the building, for example due to vibration, cracks etc., SANIPharma GmbH may revoke any approvals granted.

5. Damage caused to and inside the lease as well as to the rental premises must be notified to Unimedizin or SANIPharma GmbH as soon as the subtenant becomes aware of it and must be rectified by the subtenant in line with the above obligations as well as according to the obligations of Section 7. Should the subtenant not comply with this obligation within an appropriate period of time even following a written reminder, Unimedizin or SANIPharma GmbH may have necessary work carried out at the cost of the subtenant. If a risk of further damage exists the written reminder and the setting of a deadline are not required.

6. If the subtenant is not subject to a rectification obligation it will nevertheless be liable towards Unimedizin for damage culpably caused by itself through violation of its obligatory duty of care. The same applies if corresponding damage is culpably caused by employees, family members, vicarious agents, lodgers, visitors, suppliers, customers and tradesmen etc. of the subtenant who do not have a rectification obligation.

Section 11
Repairs and construction changes

1. Unimedizin or SANIPharma GmbH may carry out repairs, improvements, modernisations or other construction changes necessary or expedient for the upkeep, operation or for the development of the building or the rental premises or for preventing anticipated danger or rectifying damage without agreement of the subtenant. Unimedizin undertakes to inform the subtenant of the measures in good time prior to the start of the same without having to comply to the form, scope and deadline requirements of section 554 para. 3 BGB. If rental premises are affected, access to the same for the subtenant must be retained wherever possible. The subtenant must not obstruct or delay such work. A right of the subtenant to terminate for a special reason due to work that has to be tolerated is excluded. The possible construction of a further building wing will be tolerated by the subtenant without compensation.

2. Unimedizin or SANIPharma GmbH may not compromise the operational processes of the subtenant unduly. The subtenant will have rent reduction claims because of such measures only if the measure lasts longer than two weeks and the subtenant is severely affected. Claims under tort remain unaffected by this.

3. If such measures result in the improved value of the rental premises, Unimedizin will have the right to increase the rent by an appropriate value improvement surcharge, which will come into effect on the first of the month following the corresponding written declaration by Unimedizin. If the subtenant objects to the increase within a period of one month from receipt of the increase request, an expert appointed by the responsible Chamber of Commerce will decide as an arbitrator. The costs of the arbitrator will be borne by the unsuccessful contract party.

Section 12
Installations and conversions by the subtenant as well as advertising and special operating equipment

1. The subtenant requires the written approval of Unimedizin for installations and conversions in the rental premises including any changes to technical equipment, for which suitable plans must be submitted upon request. The same applies for the fitting of other special operating equipment (for example automats, awnings, antennae) outside of the rental premises, Unimedizin may make any approval dependent on proof of safety measures against risks posed by such equipment and demand the removal of such equipment if an important reasons exists for the same (retrospectively ascertained harmful effects on the building, building components or other object users). A right to the granting of approval does not exist.

2. The obtaining of official approvals that may be required as well as the costs connected with this (also for the compliance with stipulations) are the responsibility of the subtenant, who must also regularly check the safety of installations. The subtenant is liable for compliance with inspectorate stipulations and all damage caused during installation or conversion work, irrespective of the type. Costs for the fitting, the operation and the upkeep of the equipment will also be borne by the subtenant.

3. The subtenant is liable for all damage caused in connection with installing and/or operating the equipment provided by itself or at its request by a third party or by Unimedizin. It will release Unimedizin from third party claims. The subtenant will further notify all intended changes in or to the leased object, and in particular all changes to the risk assessment in the sense of the fire prevention regulations of Unimedizin. If surcharges are applied to insurance premiums on the basis of such changes the subtenant will reimburse Unimedizin for the corresponding amount upon request.

Section 13
Subletting

The subtenant is not permitted to sublet the facilities without the prior written approval of Unimedizin.

Section 14
Destruction of the leased object

In a case of a complete destruction or the destruction of most of the leased object due to an event that is outside of the control of Unimedizin (for example fire etc.), Unimedizin is not liable to reinstate the leased object. It may declare the end of the lease relationship with effect from the date of the destruction of the leased object irrespective of whether the rental premises are to be reinstated at a later date or not. Upon reinstatement of the rental premises the subtenant will have priority rights regarding the completion of a new lease agreement over other applicants.

Section 15
Insurance policies

1. SANIPharma GmbH will take out the following insurance policies:

   - fire insurance for the building,
   - insurance against storm and damage to water supply,
   - occupiers and building liability insurance.

   and will invoice the subtenant directly as part of the property management contract, failing which Unimedizin will forward the invoice to the subtenant, who is then liable for a proportional payment to Unimedizin according to Section 7 no. 2 to the account listed in Section 8 no. 1.

2. The subtenant will take out operational liability insurance to the normal extent of the industry section at its own cost as well as all normal insurances for its operation including fire, furniture, glass breakage and business disruption insurance with adequate sums insured, maintain the same and pay premiums on time. Claims against Unimedizin are excluded where the subtenant receives payments from the aforementioned insurances or is no insurance cover exists in a case where he has failed to adequately insure such risks or has not paid insurance premiums or has notified any damage too late. The liability of Unimedizin for intent and gross negligence or for injuries to life, body and health remain unaffected.

Section 16
End of the lease relationship

1.

The subtenant will return the leased object completely empty and in a clean condition with all keys - also those obtained by the subtenant - to Unimedizin when the lease relationship ends. The return must be notified with an appropriate notice period and must take place on the last working day prior to the end of the lease period at the latest. Upon return the subtenant will also return all accessories and equipment components provided by Unimedizin in a clean condition ready for use. The subtenant undertakes to rectify all damage to the leased object caused through use that exceeds the consequences of normal wear during the lease period prior to its return.

2. Unless specifically agreed otherwise as part of the landlord's approval (Section 12) the subtenant undertakes to remove installations, removals and conversions as well as installations it has carried out in or on the leased object, and to return the condition in which the leased object was upon handover to itself where reinstatement liability exists and no takeover by Unimedizin will take place.

Section 17
Plurality of persons

If several persons act as a contract partner, they will be liable as joint debtors for all liabilities arising from this agreement.

Section 18
Access to the leased object

The subtenant must guarantee that Unimedizin, an authorised expert or interested parties are able to inspect the leased object during normal business hours for the purpose of ascertaining its state of repair. In cases of risk access must be permitted at any time of the day or night.

Section 19
House rules

Possible house rules yet to be compiled will become part of this agreement. They will apply in their respective valid version. SANIPharma GmbH will expect all subtenants to comply with the house rules as part of the property management contract and will provide them with a current copy, **Appendix 9**.

Section 20
Miscellaneous agreements

1. Unimedizin has the right to transfer the lease agreement with all rights and duties to a group company. The subtenant agrees to such a transfer.

2.	The subtenant undertakes to provide a rent security deposit for three months, namely a total of € [***] (in words: [***]. This amount must be transferred to the account listed in Section 8 para. 1 within 14 days from the start of the sublease agreement at the latest.

The rent deposit will be held in a savings account for the period of the sublease agreement by Unimedizin. Interest will be paid into this account.

The subtenant may optionally provide an absolute, irrevocable and unconditional bank guarantee for € [***] from a major bank or public saving bank based on the above period according to **Appendix 10**.

If the subtenant does not comply with its lease contract obligations during the sublease period Unimedizin will have the right but is not obliged to satisfy these claims from the bank guarantee. If Unimedizin makes use of the bank guarantee to fulfil lease contractual obligations of the subtenant during the term of the sublease agreement the subtenant undertakes upon request by Unimedizin to provide the same with further securities up to a height of the security deposit due to a subsequently reduced available security deposit. The same applies for the rent deposit.

In a case of a valid exercising of an extension option for the sublease agreement the preferential lease right according to Section 4 no. 3 the parties undertake to adjust the size of the security deposit acc. to Section 20 para. 2 to the current sum of three months' rent.

Section 21
Closing provisions

1.	Other agreements, in particular additional verbal agreements, do not exist. All contract amendments and additions require the written form.
2.	All appendices listed in this agreement become a major part of this agreement upon inclusion or approval of the same.
3.	Declarations of intent to be issued to the other contract partner require the written form to become effective.
4.	Should a provision of this agreement be or become invalid or unenforceable this will not affect the validity of the remaining provisions. The invalid provision will be replaced one that comes closest to the intention of the invalid provision in a legally admissible way. The contractual parties undertake to amend the agreement according to sections 242, 313 BGB in exceptional circumstances, such as for example a currency change or inflation that will endanger the existence of the contract.

5.	This agreement consists of 23 pages and the appendices.
6.	Each party will receive one copy of this agreement including the appendices.
7.	The place of jurisdiction is Mainz.
8.	The law of the Federal Republic of Germany applies.

Appendices

- Appendix 1 - Summary of lease areas according to MF-G
- Appendix 2 - Lease area calculation and guideline (MF-G)
- Appendix 3 - Installation status plans
- Appendix 4 - Building specification
- Appendix 5 - Open space layout
- Appendix 6 - Section drawing
- Appendix 7 - Operating cost regulations
- Appendix 8 - Expert report regarding exceptions from the Heating Costs Ordinance (to be submitted by SANIPharma GmbH upon handover of the leased object in the autumn of 2013 latest)
- Appendix 9 - House rules (to be submitted by SANIPharma GmbH upon handover of the leased object in the autumn of 2013 latest)
- Appendix 10 - Bank guarantee form

Members of the gif working group Area Definition, guideline

MF-G

[***]

This guideline was generated by the gif working group Area Definition and approved by gif e.V. It represents an approach that is considered correct by the members of gif e.V. This guideline is a source of knowledge for the correct conduct under normal conditions. Individuals must decide at their own responsibility whether application of the guideline is correct in a specific case and whether it will lead to a correct result.

All rights reserved. Reprinting, also of excerpts, is permitted for internal purposes only whilst citing the source "Guideline for calculating lease areas for commercial property (MF-G) © gif Gesellschaft für Immobilienwirtschaftliche Forschung e.V., 1 November 2004".

Guideline for the calculation of lease areas for commercial properties (MF-G)

PREAMBLE

When a lease relationship is created in connection with a property, the lease area plays a crucial role. This is the case in particular because a legally binding definition of the lease area does not currently exist for commercially used objects. It has therefore always been of particular interest to deal not only with the rent aspect, but also with the definition of what constitutes the lease area.

Depending on the market and interest position, the area set constituting the lease area was extended more or less on each occasion. This lease area did not reflect the actual serviceability of the area of the object in question very reliably.

The guideline for calculating the rental area of commercial facilities

(MF-G) formulates a set of rules that sees the lease area as a single entity to be deduced directly from the object characteristics. It is therefore no longer subject to regional customs or to building typology. In the same way it no longer knows variation tolerances for one and the same object.

Gif is providing market participants with a set of rules designed to achieve the following aims as defined in the sense of its working hypothesis *Definition and improvement of professional standards in the property industry* with the *Guideline*

MF-G:

- Increased planning security during the development, realisation and utilisation phases
- Increased significance and comparability of lease area information
- Reduction of cases in which a re-calculation of the lease area becomes necessary

Guideline

MF-G defines the lease area of commercially leased or used buildings. It complies with the terminology and features of DIN 277 *Floor space and volume capacities of structural engineering buildings.* The guideline is market-related but independent, and ensures that calculations can be completed consistently clearly and reproducibly.

This guideline serves for area calculations only and is not suitable for a monetary value assessment of areas.

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

APPLICATION AND LIMITATIONS

Guideline

MF-G is a summary, harmonisation and further development of the guidelines introduced sine 1996 (MF-B) and 1997 (MF-H) for lease area calculations for office and commercial properties. Upon publication of the guideline MF-G the same replaces its two predecessors. It means that this guideline applies to all leased or utilised buildings.

Guideline

MF-G builds on the definition resources of DIN 277. For this reason, knowledge of DIN 277 is essential for the user of the guideline. DIN 277 is not a lease area definition. It deals with statements regarding the systemisation of floor space and volumes of building construction. Guideline MF-G exceeds this in that it determines which of these areas are part of the lease area and which are not. The proportional allocation of common use areas is also regulated. For this reason, we differentiate between exclusively and jointly used areas.

Guideline

MF-G refers to DIN 277 in the version valid from 2005. The main usage area (HNF) and the additional usage area (NNF) are summarised into one usage area (NF) there. Functional areas (FF) are described as technical functional areas (TF). DIN 277, 1987, continues to apply for the transition period until DIN 277, 2005 is published.

According to guideline

MF-G the lease area is normally smaller than the gross floor space (BGF) of DIN 277, as certain areas that form part of BGF are not part of the lease area.

In an individual case it may transpire that an area forms part of the lease area even though it makes sense not to include it from a monetary point of view.

Areas not delimited to the required extent in DIN 277 or not forming part of BGF, which can however be rented out as leased objects, are listed in chapter Other Leased objects. Such leased objects must be specifically listed and calculated separately from the

MF-G.

Guideline

MF-G specifies that a change in the sizing of lease units within a building has no effect on the total lease area of the object. Measure requiring planning approval will however mostly result in changes to the total lease area.

Part areas leading to the lease area should be systematically and clearly recorded in a lease area log, which must be detailed to such a degree that all major qualitative differentiation criteria are recognisable from the same. The lease area calculation should be part of the lease agreement or a supplementary agreement.

The guideline should only be used in its entirety. If use of the same deviates in individual points this must be stated in summary with direct reference to guideline MF-G. In all other cases a reference to guideline MF-G must be omitted.

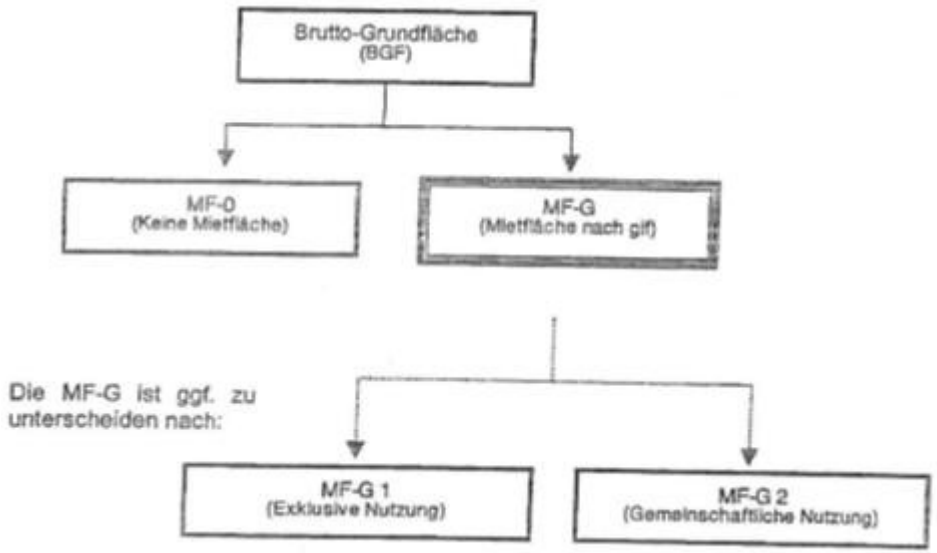
©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

1 GIF AREA TYPES

The area types of this guideline are divided into

NF-D (no lease area) and MF-G (lease area according to gif) based on the gross floor space according to the following structure model.



Brutto-Grundfläche (BGF)	= gross floor space (BGF)
MF-O (Keine Mietfläche)	= MF-D (no lease area)
MF-G (Mietfläche nach gif)	= MF-G (lease area according to gif)
Die MF-G ist ggf. zu unterscheiden nach:	= the MF-G may have to be differentiated according to:
MF-G 1 (Exklusive Nutzung)	= MF-G 1 (exclusive use)
MF-G 2 (Gemeinschaftliche Nutzung)	= MF-G 2 (common use)

The allocation of building floor space to

MF-O and MF-G is obvious and simply object-dependent. It can normally change only following a measure requiring planning approval.

The factitive case of several tenants occupying the building is assumed for calculating

MF-O for just one tenant or user.

Differentiation between the lease areas according to exclusive usage right

(MF-G 1) and common usage right (MF-G 2) is realised according to an assumed lease situation during the planning and construction phase. The actual situation must be illustrated during the usage phase.

Classification as an area with exclusive usage right

(MF-G 1) is typically characterised by:

- the right to exclude other users
- the right to occupy the area with personnel and/or objects

The ratio of

MF-G 1 to MF-G 2 may change for a new lease situation within a building.

41

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

1.1	**MF-O, no lease area**
Areas that are not lease areas are called MF-O.	
None of the following floor space types of DIN 277 are lease areas:	
1.1.1	Technical function areas (TF)
a	All technical function areas
1.1.2	Public areas (VF)
b	fixed and moveable staircases and ramps and their interim plinths (exception landing plinths), list shaft floor space per stopping point
c	vehicle traffic areas
d	paths, stairs and balconies, the main purpose of which serves for escape and rescue
e	in shopping centres: entry halls, shopping malls and atriums
1.1.3	Basic construction areas (KGF)
f	external walls
g	floor space of upright construction components such as walls and supports, necessary for the structural, i.e. supporting and/or reinforcing room construction of a building
h	floor space of enclosing walls, technical function and traffic areas forming part of MF-O
I	floor space of installation channels and shafts, chimneys as well as crawl spaces representing construction floor space according to DIN 277

All three of the floor space types listed here are lease areas if they are the consequence of an individual lease requirement. This will be the case where they are specifically

agreed between landlord and tenant.

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

1.2	**MF-G lease area according to gif**
1.2.1	MF-G

A floor space forming part of the gross floor space and not classified as
MF-O is a lease area and is called MF-G.

The floor space of a lease area separation wall that is not classified as
MF-O is allocated to neighbouring tenants at half each.

Vehicle parking areas are not classified as
MF-G, but can be leased objects (see chapter 4).

All areas of
MF-G with a clear room height of 1.50 m and less must be identified as such.

1.2.2	MF-G and MF-G 2

Depending on the lease situation the lease area
MF-G can be divided into lease areas with an exclusive usage right and those with common usage rights:

MF-G 1	Lease area with exclusive usage right

MF-G areas found inside buildings are classified as exclusive lease areas when they can normally be allocated to one tenant.

They are called exclusive lease areas
(MF-G 1).

MF-G 1	Lease area with common usage right

MF-G areas found inside buildings are classified as a common usage area when it is typically allocated to several or all tenants.

These should be allocated to all tenants proportionally (see chapter 3.2).

They are called common usage areas

(MF-G 2).

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

2 **LEASE AREA LAYOUT**

DIN 277	**gif area types ***	
SGF	**MF-O**	**MF-G**
	Vehicle parking areas (parking spaces)	Common rooms, rest rooms, social areas, waiting rooms, dining rooms, detention areas, office facilities, open-plan offices, meeting rooms, construction rooms, ticket offices, operating rooms monitoring rooms, office technology rooms works halls, workshops, laboratories, rooms for keeping animals and plant propagation kitchens, special work rooms storage rooms, archives, collection rooms, cool rooms goods-in and goods despatch rooms sales and exhibition rooms differential steps (max. 3 steps) teaching and training rooms, library rooms, sports room, meeting rooms stages, studio rooms, display rooms, religious rooms rooms with medical equipment for operations, diagnostics and therapy, bedrooms sanitary rooms, wardrobes, storage closets rooms for central supply technology (for example power stations, radio centres) protective spaces loggias, balconies, covered building floor space useable roof areas

TF	Wastewater treatment and disposal water supply heating and grey water heating fuel storage gases and fluids electricity supply telecommunications technology ventilation technical systems lift and transport system machine rooms switching areas house connection and installation, waste incineration	Technical systems with individual tenant requirement
VF	Paths, stairs and balconies serving mainly escape and rescue purposes Areas without individual tenant requirement: fixed and moveable stairs and ramps and their interim plinths lift shafts, disposal shafts (each per floor) vehicle traffic areas	Corridors, entry halls, foyers (except in shopping centres) Storey plinths of stairwells areas with individual tenant requirement: fixed and moveable stairs and ramps and their interim plinths lift shafts, disposal shafts (each per floor) Loading ramps, platforms
KGF	External walls and supports internal walls and supports necessary for construction (supporting or reinforcing) purposes enclosure walls MF-Os surrounding TFs, VFs	Light separation walls or other moveable or changeable constructions lease area separation walls between MF-G areas KGFs necessary on the basis of tenant requirements

*	The examples show some typical usage scenarios without claim to completeness. The regulations of the guideline text precede this lease area plan in cases of doubt.

©

3 RULES FOR CALCULATION AND ILLUSTRATION

3.1 Measuring points for area calculation

In principle floor space is recorded directly above the floor inside the completed surfaces. Skirting boards, guard rails and facing formwork that is not of ceiling height as well as installations will not be included.

In principle, measurements should extend right up to all room-delimiting components including formwork of ceiling height.

Curtain walls with floor-level horizontal support profiles should be measured up to the inside of any glazing. Vertical fascia profiles are disregarded in the floor plan.

3.2 Allocation of jointly used lease area

MF-G 2 should be allocated to participating parties. The type of allocation must be stated. The calculation must be comprehensible.

3.2.1 Division into sections

Depending on the lease situation of a property a sectional division must be defined. Sections can include entire properties, individual buildings, storeys, construction sections or components.

3.2.2 Calculation within a section

Commonly used areas within such sections are added up and allocated to the parties proportionally at the ratio of

MF-G 1.

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

3.3 Illustration and proof

The calculation of
MF-G and the listing of other leased objects (chapter 4) will be according to plans, CAD data or to local measurements. The calculation basis must be stated.

The above areas will be confirmed by means of tables and plans.

3.3.1 Table

The lease area calculation must be compiled in table form. The following areas should be identified separately:

- Division into sections according to chapter 3.2.1; by storey, construction section etc.
- Lease areas;
- gif area types
(MF-O, MF-G and possibly MF-G 1, MF-G 2);
- Area types according to DIN 277, part 1, point 3, separated into different usage and area types recorded as areas b or c in line with DIN 277, part 1, point 4;
- Areas with a clear room height of 1.50m and less

3.3.2 Layouts

The various gif area types
(MF-O, MF-G and possibly MF-G 1, MF-G 2) must be illustrated on lease area layouts to be graphically distinguishable.

Each continuous lease area must be equipped with a lease area stamp that will allow the same to be identified in the table.

The dimensional specifications of DIN 1356 apply; a minimum scale of 1:100 shall be used as a basis unless specified otherwise.

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

4 OTHER LEASED OBJECTS

Areas which can be leased objects are listed below, whilst the underlying areas of the same cannot be classified as a MF-G lease area. These leased objects are subject to individual tenant requirements and must then be agreed separately.

4.1 Vehicle parking areas

Vehicle parking areas (parking spaces) within parking areas. They will be identified by numbers.

4.2 Display windows

The area difference between the inner edge of the fascia alignment and the MF-G area of the sales room at the width of the fascia opening, measured at floor height. The floor space of all display window components are included. Green areas near upright components of the fascia are not part of the leased object.

4.3 Customer service zones

Customer service zones up to a depth of 1.00 m and a width of the clear sales opening, where these are located outside of a MF-G area and on the land of the landlord.

4.4 Ceiling apertures

Large-format opening in storey ceilings are not floor space according to DIN 277 unless they lie inside an exclusive lease area.

4.5 Gastronomy zones

Gastronomy or bar areas (outside or inside of general areas) in their actual expansion, where they lie on the land of the landlord.

4.6 Event zones, market stalls

Zones in malls or shopping arcades of shopping centres for temporary campaigns, events or other use.

4.7 Stacked staircases

The additional floor space of staircases inside of exclusive lease areas in a case where these are larger than the simple projection onto the storey above.

4.8 Covered building areas

Covered building areas, where these are envisaged for the exclusive or common use by tenants (for example external sales areas of garden centres, shopping trolley parking areas etc.)

51

©

5 GRAPHIC EXPLANATIONS

5.1 MF-G in context MF-0, MF-G 1 and MF-G 2

Floor plan A shows a storey with two lease areas, reached via a common stairwell and a common lift vestibule.

[***]

Mieter = tenant

The external wall is firstly designed as a punctuated fascias (top) and secondly as a strip-structured fascia (bottom). The strip-structured fascia consists of a glazed area arranged above a parapet. The lease area separation results from a fixed wall and a light separation wall, which is to simplify the variation of the lease area layout.

[***]

Mieter = tenant

MF-O: The lift shaft area, the stairs with interim plinth, the shafts required for operating the building reinforcing construction components and the wall that enclose the MF-O areas.

[***]

Mieter = tenant

MF-G 1: The exclusive lease areas of tenants 1 and 2

MF-G 2: The common lease area (lift vestibule/ storey plinth)

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

5.2 Lease area limits near fascias

The drawings show sections of a punctuated (B) and a strip-structured fascia (C).

Floor plan B Floor plan C

[***]

Section B Section C

[***]

The floor space is measured at the height of the completed floor up to the room delimiting component, i.e.

up to the inner edge of the external wall up to the inner edge of the glazing

©

Guideline for the calculation of lease areas for commercial properties (MF-G) gif

5.3 Allocation of partition walls 15

The drawings show sanitary areas in which light separation walls are used as room dividers.

Floor plan D Floor plan E

[***]

Section D Section E

[***]

The area of the installation shaft and the floor space of the light separation walls surrounding the same are no lease areas.	The floor space of the light separation wall and the primary walling that is not of room height are lease areas.

This document is an English translation of a document prepared in German. In preparing this document, an attempt has been made to translate as literally as possible without jeopardizing the overall continuity of the text. Inevitably, however, differences may occur in translation and if they do, the German text will govern by law.

In this translation, German legal concepts are expressed in English terms and not in their original German terms. The concepts concerned may not be identical to concepts described by the English terms as such terms may be understood under the laws of other jurisdictions.

1st Additional Agreement

to the

Sublease of 12.12.2012/14.01.2013

between

University Medical Center of Johannes Gutenberg-Universität Mainz,

55131 Mainz, Langenbeckstraße 1,

represented by

the Chairperson and Medical Chairperson [***],

the Academic Chairperson, (Univ.) [***], and

the Commercial Chairperson [***]

(hereinafter referred to as "Unimedizin")

and

BioNTech AG,

55131 Mainz, An der Goldgrube 12,

represented by

the Chairperson [***] (with German business degree)

(hereinafter referred to as "Sublessee")

concerning

Laboratory and administrative premises "An der Goldgrube 12" in 55131 Mainz.

Following interim completion of the rental property with the address "An der Goldgrube 12" in "55131 Mainz", the parties agree to amend the Sublease 12.12.2012/14.01.2013 as follows:

1. In compliance with Section 4 Point 1 of the Sublease the sub-lease relationship commences on 1 June 2014 and ends on 31 May 2024.
2. The actual leased area within the meaning of Section 1 Point 1 of the lease comprises in the period from 1 June 2014 to 31 July 2014:

The laboratory areas are reduced during the above time period to in aggregate 907 square meters (2 upper floor 467 square meters; 3 upper floor 440 square meters).

Office spaces	1,001 m²
Laboratory spaces	
• Special laboratory animals	33 m²
• Laboratory shared	59 m²
• Laboratory spaces	1,795 m²
Filing and storage spaces	182 m²
Filing and storage spaces shared	172 m²
Stable spaces	463 m²
Conference rooms	81 m²
Shared rental and circulation areas	441 m²
Parking spaces	48 spaces

3. The rent pursuant to Section 6 Point 1 of the Sublease in connection with paragraph 2 of this 1st Additional Agreement is:

Utilisation units	Price/m²	Area in m²	Price per utilisation unit

Office spaces	€ [***]	1,100 m²	€ [***]
Laboratory spaces			
• Special laboratory animals (100%)	€ [***]	33 m²	€ [***]
• Laboratory shared (60%)	€ [***]	59 m²	€ [***]
• Laboratory spaces	€ [***]	1,795 m²	€ [***]
Filing and storage spaces	€ [***]	182 m²	€ [***]
Filing and storage spaces shared (60%)	€ [***]	172 m²	€ [***]
Stable spaces (70%)	€ [***]	463 m²	€ [***]
Conference rooms (60%)	€ [***]	81 m²	€ [***]
Shared rental and circulation areas (60%)	€ [***]	441 m²	€ [***]
Parking spaces	€ [***]	48 spaces	€ [***]

Subtotal	**[*** **€]**
Surcharge 1%	[*** €]
Total monthly rent	**[*** **€]**

4. The actual leased areas within the meaning of Section 1 Point 1 of the lease from 1 August 2014 consists of:

Office spaces	1,001 m²
Laboratory spaces	
• Special laboratory animals	33 m²
• Laboratory shared	59 m²
• Laboratory spaces	2,702 m²
Filing and storage spaces	182m²
Filing and storage spaces shared	172m²
Stable spaces	463m²
Conference rooms	81 m²
Shared rental and circulation areas	441m²
Parking spaces	48 spaces

The calculation of the dimensions and the leased areas according to GIF drawn up by the Architecture firm Ries and Ries from 13 February 2014 are appended as **Appendix 1a and 1b** and form part of the lease. The calculation of the lease is determined according to GIF (Section 1 Point 1 of the Sublease).

5. The rent pursuant to Section 6 Point 1 of the Sublease from 1 August 2014 is:

Utilisation units	Price/m²	Area in m²	Price per utilisation unit
Office spaces	[** €*]	1,012 m²	[** €*]
Laboratory spaces			
• Special laboratory animals (100%)	[** €*]	332 m²	[** €*]
• Laboratory shared (60%)	[** €*]	592 m²	[** €*]
• Laboratory spaces	[** €*]	2,702 m²	[** €*]
Filing and storage spaces	[** €*]	182 m²	[** €*]
Filing and storage spaces shared (60%)	[** €*]	172 m²	[** €*]
Stable spaces (70%)	[** €*]	463 m²	[** €*]
Conference rooms (60%)	[** €*]	812 m²	[** €*]
Shared rental and circulation areas (60%)	[** €*]	441 m²	[** €*]
Parking spaces	[** €*]	48 spaces	[** €*]

Subtotal	**€ [***]**
Surcharge 1%	€ [***]
Total monthly rent	**€ [***]**

6. The authorized bank account pursuant to Section 8 Point 1 of the lease is:

Account name: [***]	Sort code: [***]
Account number: [***]	Bank: [***]
IBAN: [***]	BIC: [***]

The handover protocol (Appendix 2) of 05. June 2014 was handed over at the handover meeting and forms a part of the Sublease.

7. The expert report in respect of the exemption from the Heating Costs Ordinary (previously Appendix 8) is attached in **Appendix 3** and forms a part of the Sublease.

8. The room book contains the built-in laboratory equipment and substantiates Appendix 3 of the Sublease. It is attached as **Appendix** 4 (CD) of the 1st Additional Agreement and forms a part of the Sublease.

9. The previous Appendix 5 of the Sublease in relation to the free areas is replaced by the attached **Appendix 5** and forms a part of the Sublease.

10. To comply with Section 15 Point 1 of the lease, **Appendix 6** will apply as the insurance policies from 1 March 2014 for

- fire insurance for the building
- insurance against storm and damage to the water supply as well as
- building and property liability insurance.

at the time of handover of the building.

11. The house rules from 1 March 2014 (previously Appendix 9) is attached as **Appendix 7** and forms part of the the Sublease.

12. Apart from the above, the provisions of the Sublease and the 1st Additional Agreement shall remain unchanged.

2nd Additional Agreement

to the

Sublease of 12.12.2012/14.01.2013

(hereinafter referred to as the "2nd Additional Agreement")

between

University Medical Center of Johannes Gutenberg-Universität Mainz,

55131 Mainz, Langenbeckstraße 1,

represented by

the Chairperson and Medical Chairperson [***],

the Academic Chairperson, (Univ.) [***], and

the Commercial Chairperson [***]

(hereinafter referred to as "Unimedizin")

and

BioNTech AG,

55131 Mainz, An der Goldgrube 12,

represented by

the Chairperson [***]

(hereinafter referred to as “Sublessee” or “Biontech”)

(Unimedizin and the Sublessee are hereinafter also

referred to as the “Contracting Party” or the “Contracting Parties”)

concerning

Laboratory and administrative premises “An der Goldgrube 12” in 55131 Mainz.

On 12 December 2012/14 January 2013, Unimedizin and the Sublessee entered into a sublease concerning premises in the rental property with the address “An der Goldgrube 12” in “55131 Mainz” (hereinafter referred to as the “Sublease”).

In order to ascertain some lease agreements in the Sublease, on 09.07.2014 the Contracting Parties entered into a "1st Additional Agreement to the Sublease of 12.12.2012/14.01.2013" (hereinafter referred to as the "1st Additional Agreement").

Moreover, Ganymed Pharmaceuticals AG (hereinafter referred to as "Ganymed"), which is also a sublessee of premises in the aforementioned rental property, with the consent of Unimedizin, sublet two of the spaces which it had rented from Unimedizin, by means of the "Sublease for Commercial Premises between Ganymed Pharmaceuticals AG and BioNTech AG" dated 27.01.2015 (hereinafter referred to as "GM – Biontech Sublease") to the Sublessee/Biontech. The premises are Room No. 3-059 (surface area 12.61m2) and Room No. 3-062 (surface area 20.93m2).

In consultation with Unimedizin, the Sublessee/Biontech and Ganymed planned for further spaces in the aforementioned property currently rented by Ganymed to be rented to the Sublessee/Biontech. For this purpose, both the Sublessee (Biontech) and Ganymed shall adjust their respective subleases directly with Unimedizin. The two aforementioned premises (Room No. 3-059 and Room No. 3-062), subject of the Ganymed – Biontech Sublease, shall be rented directly to the Sublessee (Biontech) by Unimedizin at the same time as the adjustment of this Sublease and removed in the sublease between Unimedizin and Ganymed correspondingly. The Ganymed – Biontech Sublease shall automatically end at the time of the handover of the additional rental spaces to Biontech, which in turn takes place through the contract adjustment of the respective subleases of Ganymed and the Sublessee in relation to Unimedizin.

With this proviso, Unimedizin and the Sublessee, by means of this 2nd Additional Agreement, would like to change and respectively adjust the spaces and premises rented by the Sublessee in the aforementioned rental property as well as the rental cost, as agreed in the Sublease and in the 1st Additional Agreement, as of 01 May 2015.

1. The actual rental spaces rented by the Sublessee within the meaning of Section 1 Point 1 of the Sublease, last modified by Points 2 and 4 respectively of the 1st Additional Agreement, shall henceforth, as of **01 May 2015**, amount to:

Office spaces	1,037.00 m^2
Laboratory spaces	
• Laboratory shared	85.00 m^2
• Laboratory spaces	3,044.00 m^2
• Special laboratory animals	33.00 m^3
Filing and storage spaces	182.00 m^2
Filing and storage spaces shared	193.00 m^2
Stable spaces	471.00 m^2
Conference rooms	91.00 m^2
Shared rental and circulation areas	496.00 m^2
Parking spaces	48 spaces

The calculation of the rental spaces and the utilisation units of the rental space are derived from the "Area Overview (following amendment from May 2015)" drawn up by [***] (Ganymed) (appended to this Agreement as **Appendix 1**), and from the "Area Overview (grouped utilisation units ID) (following amendment from May 2015)", also drawn up by [***] (appended to this Agreement as **Appendix 2**).

2. Following an amendment to the extent of the rental spaces in accordance with Point 1 above, the monthly rental cost shall be calculated in accordance with Section 6 Point 1 of the Sublease, last modified by Point 3 and respectively Point 5 of the 1st Additional Agreement as of **01 May 2015** as follows:

Utilisation units	**Price/ m²**	**Area in m²**	**Price per utilisation unit**
Office spaces	[***]	1,037.00 m²	[***]
Laboratory spaces			
• Laboratory shared	[***]	85.00 m²	[***]
• Laboratory spaces	[***]	3,044.00 m²	[***]

• Special laboratory animals	[***]	33.00 m^2	[***]
Filing and storage spaces	[***]	182.00 m^2	[***]
Filing and storage spaces shared	[***]	193.00 m^2	[***]
Stable spaces	[***]	471.00 m^2	[***]
Conference rooms	[***]	91.00 m^2	[***]
Shared rental and circulation areas	[***]	496.00 m^2	[***]
Parking spaces	[***]	48 spaces	[***]
Subtotal			[***]
Surcharge 1%			[***]

Total monthly rent	**[* **]**

3. In accordance with Section 3 No. 2 of the Sublease, a report is to be drawn up concerning the handover and signed by both Contracting Parties. Given the fact that Ganymed is releasing rental space and premises to Unimedizin and Unimedizin is in turn directly handing these over to the Sublessee, the Contracting Parties agree that the rental space and premises shall be directly handed over to the Sublessee by Ganymed. The Sublessee shall draw up a handover report with Ganymed in this respect. The areas and premises rented to the Sublessee shall be listed in the handover report and any established defects shall be documented in the said report. For the handover of the premises, as well as the drafting of the handover report, either a representative of Unimedizin or, in consultation with Unimedizin, a representative of SANIPharma GmbH (owner of the rental property), shall be involved.

The Sublessee shall verify the defects in the rental object in its current condition listed in the handover report of 05.06.2014 (this is appended to the 1st Additional Agreement as Appendix 2 and both Contracting Parties have a copy thereof) concerning the handover of the rental object from Unimedizin to the Sublessee (Biontech) upon the handover of the relevant rental space and premises to the Sublessee (Biontech) and shall document them in the report correspondingly.

The handover report shall be appended to this 2nd Additional Agreement as **Appendix 3** following the handover date.

Unimedizin shall include a provision corresponding to the above in the additional agreement or supplementary agreement between it and Ganymed.

4. Apart from the above, the provisions of the Sublease and the 1st Additional Agreement shall remain unchanged.

Appendices:

Appendix 1: Area Overview (following amendment of May 2015)

Appendix 2: Area Overview (grouped utilisation units ID) (following amendment of May 2015)

Appendix 3: Handover Report (to be provided later after handover date).

In preparing this document, an attempt has been made to translate as literally as possible without jeopardizing the overall continuity of the text. Inevitably, however, differences may occur in translation and if they do, the German text will govern by law.

In this translation, German legal concepts are expressed in English terms and not in their original German terms. The concepts concerned may not be identical to concepts described by the English terms as such terms may be understood under the laws of other jurisdictions.

3rd Supplemental Agreement

of

Sublease Agreement from 12.12.2012/14.01.2013

between

University Medical Center of the Johannes Gutenberg University of Mainz,
55131 Mainz, Langenbeckstraße 1,
represented by
the chairman of the executive board and the Medical Director, [***]
the Scientific Director, [***] as well as

the Commercial Director [***]
(hereafter called “Unimedizin”)

and

BioNTech AG
An der Goldgrube 12
55131 Mainz
(hereafter called “Biontech”)

regarding

the building, with laboratory and administration facilities, at An der Goldgrube 12 in 55131 Mainz

The contract parties agree to supplement the sublease agreement from 12.12.2012/ 14.01.2013, last amended with the 1st supplementary agreement from 09.07.2014 and the 2nd supplementary agreement from 02.06.2015/ 08.06.2015 (hereafter together called “sublease agreement”) with the following:

The owner of the building, Santo Service GmbH, formerly SANIPharma GmbH, has erected a four-storey extension (ground floor to 3rd floor) in a second building section on the basement of the east wing already erected in the first building section. As per the existing and approved planning application this extension consists of a laboratory and office facilities. The development of access roads and the supply of media such as electricity, heat, water etc. is realised via the existing building section. Unimedizin intends to additionally lease these new lease areas from Santo Services GmbH and to sublet these to Biontech with this addendum.

Ganymed Pharmaceuticals GmbH, formerly Ganymed Pharmaceuticals AG (hereafter called “Ganymed”) as well as Unimedizin and Biontech have also agreed in a termination agreement with effect from 01.11.2017 that the sublease agreement between Ganymed and Unimed will end on 01.11.2017 and Biontech will take over the facilities sublet by Ganymed. Unimedizin therefore intends to sublet all areas currently leased by Ganymed to Biontech with this addendum as well, so that Biontech is the sole subtenant for the building with laboratory and administration facilities at An der Goldgrube 12 in 55131 Mainz.

The parties wish to agree the subletting period anew for the entire lease object with this addendum.

1. The regulations stipulated in the sublease agreement continue to apply without limitation with the exception of the newly agreed term according to point 2 below. Apart from that this addendum extends the sublease agreement by the newly added lease areas.

2. Section 4 no. 3 of the sublease agreement is herewith replaced as follows:

   The sublease relationship is limited to a period of ten years starting from 01.11.2017. Biontech is granted the option to extend the sublease agreement three times, twice by a respective 5 years each, and a third option ending on 20.04.2039. Exercising the option must be declared in writing at least 18 months prior to expiry of the (possibly extended) lease agreement in writing in each case. The receipt of the declaration by Unimedizin is crucial for compliance with this deadline.

   Section 4 para. 2 of the sublease agreement is deleted without replacement by ending the lease agreement between Ganymed and Unimedizin.

   Should the financial managers revise the economic allocation of the lease object for taxation purposes in such a way that Biontech is considered the economic owner, the contract partners and Santo Services GmbH are bound to negotiate a regulation that will not lead to disadvantages or advantages for the contract parties.

3. The lease areas in the sense of Section 1 point 1 of the sublease agreement, last amended with the 2nd supplementary agreement from 02.06.2015/ 08.06.2015, apply as follows from 01.11.2017:

Office areas	1,863 m²
Laboratory areas	4,194 m²
Archive and storage areas	379 m²
Animal accommodation areas	679 m²
Specialist laboratories and animal laboratories	1,304 m²
Conference rooms	132 m²
Common lease facilities and traffic areas	865 m
Parking spaces	76 spaces

The calculation of the provisional lease areas is carried out according to the plans generated by Architekturbüro Ries und Ries, enclosed as **Appendix 1.1**. Following completion of the building the actual lease areas will be calculated exactly by an officially appointed surveyor according to GIF (Section 1 no. 1 lease agreement) and submitted.

4. The rent according to Section 6 no. 1 of the sublease agreement, last amended with the with the [sic] 2nd supplementary agreement from 02.06.2015/ 08.06.2015, will now be, from 01.11.2017:

Utilisation units	Price/m²	Area in m²	Price per utilisation area
Office areas	[***]	1,863 m²	[***]

Laboratory areas	[***]	4,194 m^2	[***]
Archive and storage areas	[***]	379 m^2	[***]
Animal accommodation areas	[***]	679 m^2	[***]
Specialist laboratories and animal laboratories	[***]	130 m^2	[***]
Conference rooms	[***]	132 m^2	[***]
Common lease facilities and traffic areas	[***]	865 m^2	[***]

Parking spaces		76 spaces	
	[***]		[***]
Sub-total			[***]
Surcharge 1%			[***]
Total monthly rent			[***]

5. The size of the security deposit according to Section 20 para. 2 of the sublease agreement is adjusted to the sum of 3 monthly rent payments of the currently agreed monthly rent listed under point 5.

6. The 2nd building section will be completed in August 2017.

7. Handover of the rooms of the east wing will take place following completion and will be recorded in a handover protocol. The date of the handover will be agreed at least 3 weeks in advance. **Appendix 1.2**.

   Handover of the areas currently leased by Ganymed to Biontech will also be recorded in a handover protocol. Against the background of the fact that Ganymed will concede lease areas to Unimedizin, and Unimedizin will hand the same over to Biontech immediately following this, the contract parties agree that the handover of the lease areas or facilities will take place directly from Ganymed to Biontech. Bintech [sic] will produce a handover protocol to record this together with Ganymed.

8. The respective room books and plans for the facilities of the east wing will be handed over during said handover. **Appendix 1.3**.

9. The current Appendix 5 of the lease agreement concerning open spaces is replaced with the enclosed **Appendix 1.4**.

Lease for Commercial Premises

Contract No.: _____ Date: 17.8.2011

The lease is concluded between the following contracting parties:

Lessor:

Wolfram Richter
Kupferbergterrasse 15, 17-19
55116 Mainz
Tel. : [***]; Fax [***]
Lessor's tax number: [***]

Lessee:

BioNTech AG
Represented by its chairperson, [***] (with German business degree)
Hölderlinstraße 8
D-55131 Mainz
registered in the Commercial Register of the District Court of Mainz, register number: HRB 41865

The Lessor guarantees that he has full representation authorisation to conclude the agreement. The Lessor has opted for value-added tax. For this reason, the Lessee confirms that it is entitled to the deduction of input tax and will only use the rental property for dealings which do not exclude the deduction of input tax. The Lessee undertakes to inform the Lessor immediately in the event that it is no longer entitled to the deduction of input tax.

Section 1 Rental Property

The following shall be rented on the property: Kupferbergterrasse 15, 17-19, 55116 Mainz

- Front building 2nd floor (upper floor) ca. 256m^2
- Front building 3rd floor (top floor) ca. 244m^2
- Original building 2nd floor (upper floor) ca. 146m^2

- Adjacent areas ca. 95m (then verify)

Moreover, the Lessee shall receive an option on a section in the brick building 2nd floor and commercial building (laboratories) 2nd floor.

The rental spaces are listed in Appendix I with the aforementioned descriptions in the floor plan.

Total rented space ca. 741m^2, including 646m^2 for offices, and 95m^2 for other use. Ca. 741m^2 of the total space is heated.

Also rented therewith are eight (8) parking spaces on the same property, as well as 7 parking spaces on the bastion property. It shall also be possible to rent further parking spaces.

Section 2 Purpose of Use of the Rental Property

The Lessee shall use the rental property as offices. The option space as appropriate also as laboratories.

The Lessor is aware that this use must be structurally possible and permissible in accordance with public law, insofar as structural conditions and those of the co-rented facilities respectively are concerned.

These conditions must be adhered to for the entire term of the lease by the Lessor.

These conditions must be adhered to for the entire term of the lease by the Lessor. All other conditions, in particular those within the personal or operational circumstances of the Lessee, shall fall within the Lessee's scope of responsibility. In the event that the Lessee fails to adhere to the conditions for which it is responsible, the Lessee shall not be able to invoke the frustration of purpose.

Section 3 Rental Term

1. Contractual term
   The tenancy shall begin on 15.09.2011 and end on 14.09.2013.
   It shall be extended respectively by two (2) years if neither party objects to the extension in writing in compliance with a six-month notice period.

2. Termination, objection to the extension of the tenancy and the assertion of an agreed extension option must be in writing. Timeliness shall not be determined by the sending of the declaration, but the other party's receipt thereof.

3. At the end of the tenancy, a tacit contractual extension in accordance with Section 545 BGB [Civil Code] shall not come into consideration. Thus, if the Lessee continues to use the rental property after the rental period has expired, the tenancy shall not be extended indefinitely. A declaration against a tacit extension is therefore not necessary.

Section 4 Extraordinary Termination Right of the Lessor

1. The Lessor may terminate the lease with immediate effect without adhering to a notice period,

   a) if the Lessee is in default with the payment of the rent or a non-insignificant part thereof for two payment deadlines in a row, or in a period covering more than two payment deadlines, is in default with the payment of the rent for an amount which amounts to two months' rent;

   b) if the Lessee, in spite of a written warning from the Lessor, continues to use the rental property in a way that does not comply with the lease, in particular if it uses the rental property without the Lessor's written consent in a way which is prohibited by Section 2 or in the case of an agreement of a specific commercial use, in ways other than those stated in Section 2, namely in the case of a modification to or significant expansion of the type of operation, business purpose or an agreed product range, or in the case of unauthorised subletting, other usage transfers to third parties, including the unauthorised change of business owner or legal form, and the Lessee hereby infringes the Lessor's rights to a considerable extent (see Section 13 Paragraph 4);

   c) if the Lessee breaches its obligations in such a way that the Lessor cannot reasonably be expected to continue the tenancy, in particular, in spite of a written warning from the Lessor, it continues to make the rental payments late (collectively or only partial amounts);

d) otherwise for cause.

2. Termination must be notified in writing.

Section 5 Rent and Breakdown of the Rent

The monthly rent consists of the following:

Term: 15.09.2011 until 14.09.2013

1. Base rents:

a) for the office spaces front building 2nd floor, ca. 256m², €[***]/m² EUR [***]
b) for the office spaces original building 2nd floor, ca. 146m², €[***]/m² EUR [***]
c) for other uses ca. 71m², €[***]/m² EUR [***]
d) for the parking spaces 15 at €[***]each EUR [***]

Net rent:	**EUR [***]**
Advance payments on the operating costs for ca. 473m2 at €[***]/m2	**EUR [***]**
Net rent including advance payment on operating costs:	EUR [***]
Value-added tax currently 19% VAT	EUR [***]
Gross rent	**EUR [***]**

From 01.10.2011 the following spaces shall be added:
Term: 01.10.2011 until 31.08.2013

2. Base rents:

a) for the office spaces front building 3rd floor (top floor) ca. 244m², €[***]/m²: EUR [***]
b) for other uses ca. 24m², €[***]/m² EUR [***]

Net rent:	**EUR [***]**
Advance payments on the operating costs for ca. 248m2 at €[***]/m2	**EUR [***]**
Net rent including advance payment on operating costs:	EUR [***]
Value-added tax currently 19% VAT	EUR [***]
Gross rent	**EUR [***]**

The total rent from 01.10.2011 amounts to:
Net rent including advance payment on operating costs: EUR [***]

Value-added tax currently 19% VAT EUR [***]

Gross rent: **[EUR]**

Section 6 Operating Costs

Together with the base rent, the Lessee shall bear the operating costs for all rented spaces within the meaning of the Operating Costs Regulations, as amended. In particular, these may include the following cost types. (The list is purely an example and does not oblige the Lessor to make corresponding facilities available):

1. Public charges, e.g.

- Land tax water supply costs, including calibration costs of water meters

- Drainage costs, in particular sewerage and surface drainage

- Costs for operating and maintaining the central heating system, including floor heating

- Costs for operating the central hot water supply system

- Costs for operating the lift equipment

- Street cleaning costs

- Rubbish removal costs

- Building cleaning and pest removal costs

- Garden care costs

- Lighting and shared electricity costs

- Chimney cleaning costs

- Property and liability insurance costs

- Caretaker costs

- Costs for maintaining fire extinguishing units (including the replacement of extinguishing agents) - the following other operating costs:

Gutter cleaning, maintenance of exhaust disposal devices of garages, Maintenance of garages/underground car park doors, Maintenance of alarm installations, video surveillance, intercom and door-opening systems, Costs for monitoring e.g. property security company, doorman costs, etc.

- Management costs, these are the costs for the workforce and facilities necessary for managing the building or the business entity, surveillance costs as well as the value of the management work personally provided by the Lessor. The costs for the statutory or voluntary examination of the annual financial statements and management are also included in the management costs.

2. The Lessee undertakes to register the electricity of the rented premises (not the shared electricity costs) and the following operating costs during the rental period itself with the appropriate provider on its own behalf and at its own expense and maintain this for the rental period, inasmuch as the maintenance of the supply is necessary for the proper performance of the contract.

3. Property and labour services of the Lessor may be set up to the amount of the saved costs for equivalent third-party services.

4. Distribution criteria

Costs which may be specifically assigned to the rental property are to be allocated to this alone. For the distribution of the other costs, which cannot be separated from the costs of the whole property, the following shall apply:

a) The heating and hot water supply costs shall be distributed in accordance with the allocation principles set out in Section 11.

b) The water supply costs shall be calculated in accordance with the rental property's use, insofar as corresponding measuring instruments are available. Otherwise, they shall be distributed in accordance with the following allocation principles:

741m^2 office spaces in accordance with Section 1 Paragraph 1 in proportion to the m^2 of the entire property.

c) The sewerage costs shall be allocated in accordance with the water supply costs. If separate fees are calculated for surface drainage, this division shall be carried out in the proportion of the living spaces/usable areas, provided that the fee does not arise for spaces which may be used by the Lessee alone. The fee for spaces usable by the Lessee alone shall be exclusively borne by the Lessee alone.

d) The costs for rubbish removal shall be specifically allocated, inasmuch as the Lessee uses its own rubbish containers which only it is entitled to use. Otherwise, the costs shall be distributed in accordance with the following allocation principles:

741m^2 office spaces in accordance with Section 1 Paragraph 1 in proportion to the m^2 of the entire property.

e) All other operating costs shall be distributed in accordance with the proportion of the surface area of the entire building, unless another allocation principle has been agreed.

f) If specific allocation principles have not been agreed, the Lessor shall be responsible for the determination within the framework of the first invoicing at its reasonable discretion.

g) If, as a result of the usage type of the property, the Lessor incurs special costs (e.g. surcharge for fire insurance, additional rubbish containers), the full amount of these costs shall be allocated to the Lessee.

h) The Lessor shall be entitled to undertake advance distributions of operating costs, if this makes sense or is necessary owing to the cost types, the property or its use.

6. The Lessor may modify the allocation principle at its reasonable discretion if this is provided for by law or this is required or appears to make sense for reasons relating to the proper management of the building.

7. The following shall apply for the invoicing of the operating costs:

a) As a rule, advance payments shall be invoiced on a yearly basis. The Lessor may modify the invoice period for reasons of expediency. For this purpose, as an exception, invoice periods which fall short of the usual twelve-month invoicing shall also be possible. No more than twelve months may be invoiced per invoice.

If, following receipt of the operating cost invoice, the Lessee has not expressed its objection to the operating cost invoice within four weeks, the operating cost invoice shall be deemed to have been accepted, objections to the operating cost invoice shall then be excluded.

b) The invoice amount shall be paid to the contracting partner within four weeks following receipt of the invoice. If the Lessee raises objections to individual invoice items of the operating cost invoice, the Lessee shall have to settle the balance of the operating cost invoice, which does not take into account the items against which objections have been raised.

c) In the event of increases or reductions in the operating costs, the Lessor shall be entitled to revise the advance payments with effect from the month following the notice of increase. This declaration may be made at any time with the provision of proof of the reason for the change.

d) The Lessee must bear operating costs within the meaning of Section 6 which arise after the end of the contract from the point at which notice is received from the Lessor. Notice must be made in writing and contain the cost type, reason for the subsequent occurrence of the costs, total costs for the property and/or the business entity, distribution of the costs and the Lessee’s share.

e) For newly-arising operating costs, the Lessor may request appropriate advance payments from when it is informed thereof.

8. If changes to operating costs occur retroactively, the Lessor shall be entitled to allocate them proportionally to the Lessee by notifying it thereof in writing. The statement shall indicate the reason for the apportionment and explain this. In the event of retroactive increases in the operating costs, the Lessor's statement shall have retroactive effect to the time of the increase. If the operating costs decrease, then they shall be reduced accordingly from the time of the decrease.

Section 7 Change in the Rent

1. Payment of value-added tax shall be agreed in the applicable statutory amount. Changes shall apply at the time of the statutory increase.

2. Future changes to the base rent (see Section 5 Paragraph 1) shall be determined by the following agreement:

   Index clause, automatic guaranteed value

   If the German consumer price index (basis 2000 = 100 points) determined by the Federal Statistical Office changes (increase or decrease) in the future compared with what it was at the time the contract was concluded by at least five percent, then there shall be a corresponding change in the rental amount in the same proportion from the start of the month following this change.

   This provision shall apply correspondingly on a repeat basis if the above conditions are met, based on the date of the immediately preceding change in rent in each case. Rental increases arising after the conclusion of the contract in accordance with Paragraph 3 for value-enhancing measures of the Lessor shall be taken into account as follows when applying the guaranteed value clause: The necessary change in the price index shall be based on the status at which the rent increase in accordance with Paragraph 3 becomes effective. For the change in the rent owing to a change in the price index which has arisen since this point in time, the increased rent in accordance with Paragraph 3 shall be taken as a basis.

3. Value-enhancing measures

   If the Lessor incurs expenses for modernisation measures within the meaning of Section 559 BGB and other suitable measures or measures for which he is not responsible within the meaning of Section 19 Paragraph 1 b, including development and expansion measures for circulation areas of the property, supply and waste pipelines including the utilities of such facilities or for connections to the broadband cable network, then the Lessor may request an increase in the yearly rent by 11% of the costs attributable to the rental property. The Lessee shall pay the increased rent from the start of the month following the receipt of the written rent increase statement from the Lessor, but not earlier than the start of the month following the completion of the measure.

Section 8 Security Deposit

1. The Lessee undertakes to irrevocably pay a security deposit for all of the Lessor's claims in the amount of [***]EUROS (in words: [***]EUROS) as an absolute, irrevocable, unrestricted and unconditional guarantee (e.g. of a major bank or public savings bank or of a shareholder, general partner or other

third party). The guarantee shall be provided by (exact name of the institute or person including address):

BioNTech AG:

[***]

Sort Code [***]

Account [***]

2. The Lessee shall deliver the written guarantee commitment to the Lessor in the month in which the rental property is handed over. If, in spite of a reminder, the Lessee fails to fulfil this obligation, then the Lessor shall be entitled to withdraw from the contract.

3. The Lessor shall be entitled to set-off, even with lapsed compensation claims, as a result of changes in or deterioration of the rental property, against the Lessee's claim to the repayment of the deposit, even if he has not settled the deposit provided upon termination of the tenancy.

Section 9 Payment of the Rent

1. The total monthly payment amount in accordance with Section 5 shall be paid monthly in advance, but no later than the 3rd working day of the month, to the Lessor's rent account:

Account No. [***]

with [***]

Sort Code: [***]

2. The first rent instalment shall be paid before the rental premises is handed over. Failure to pay, in spite of a reminder, shall mean that the Lessor is entitled to withdraw from the contract.

3. At the Lessor's request, the Lessee shall pay the rent by direct debit.

4. Timeliness of payment shall not be determined by the sending of the amount, but the receipt or crediting thereof. The Lessee may not derive any right to late payment of the rent from multiple non-timely payments. Late payments shall entitle the Lessor to levy reminder fees and default interest and terminate the tenancy where necessary.

5. The Lessor may, at his discretion, credit all payments of the Lessee to base rents, operating costs, other rental components, costs of any legal action including reminder costs and procedural interest, rent arrears and current rent, if the Lessee does not make an effective designation.

If the Lessee owes interest and costs in addition to a main payment (e.g. rent, reimbursement of expenses, compensation or other), its repayment arrangement shall only be effective if the payment is initially credited to the costs, then the interest and finally to the main payment. If the Lessee determines a different imputation, then the Lessor may refuse to accept the payment.

Section 10 Reduction, Set-off, Right of Retention.

1. The Lessee may neither offset nor exercise a right of retention against the rent, nor reduce the rent. The Lessee's claims for compensation for non-fulfilment or reimbursement of expenses as a result of an initial or subsequent defect in the rental property, for which the Lessor is responsible as a result of intent or gross negligence, and other claims derived from the tenancy, insofar as they are undisputed, legally established, or ready for decision, are excluded herefrom. Set-off or the exercise of the right of retention is only permitted of the Lessee has informed the Lessor of its intention in writing at least one month before the rent is due.

2. The reimbursement of any counterclaims from the tenancy asserted by the Lessee by way of set-off shall be made in monthly partial instalments which may not exceed 30% of the respective monthly rent.

3. Set-off against operating costs by the Lessee is not permitted.

Section 11 Heating and Hot Water Supply

1. The rental property has a central heating system, which supplies other building sections of the property with heating in addition to the rental property. The Lessor undertakes to keep the heating system in operation between 1 October and 30 April to the usual extent. Outside of the heating period, the Lessor shall decide on this at its reasonable discretion. The hot water supply system shall remain in operation constantly.

2. The heating costs to be covered as operating costs in accordance with Section 6 include, in particular: Costs of the fuel used and its delivery, costs of the electricity for the heating system, costs for the operation, monitoring and care of the system, the regular inspection of its operational readiness and operational safety including setup by a professional, cleaning of the system including the tank and service room, costs of measurements in accordance with the Federal Pollution Control Act, costs of rental or other kinds of usage transfer of metering equipment as well as the costs for using metering equipment including calibration costs as well as calculation and division. At the start and end of the tenancy, the Lessor, where applicable, proportionally, shall bear the costs for an interim meter reading, unless the start or end of the lease coincides with the start or end of the heating cost accounting period. The above provisions shall apply for the costs of the building's hot water supply system correspondingly.

3. The heating and hot water costs shall be allocated as follows:

   At 50%—70% in accordance with the reading of the calorimeters or heat cost allocators and respectively water meters or water cost allocators and at 30%—50% in accordance with the usable or commercial space of the building. If no allocation principles sets are recorded, then these costs shall be ascertained by the Lessor within the framework of the Heating Costs Ordinance with the first invoice.

   The Lessor shall be entitled to modify the invoicing criteria at his reasonable discretion within the legally permissible limits if justified interests require this for the proper management of the building.

4. If the rental property is connected to a central heating system, the Lessor shall operate the system himself or shall obtain the required heating from an independent heating provider.

5. Switching between self-supply and heating supply (heating contracting) does not require the Lessee's consent. If the heating is obtained from an independent heating supplier, the Lessor shall only be liable for the absence of the heating supply if breakdowns occur as a result of the Lessor's own in-house

supply lines. In the event of heating contracting, the Lessor may request that the costs of the heating supply be billed by the Lessee directly with the heating supplier. In this case, the Lessor shall not owe any heating cost or hot water bills. An invoice for these costs shall be issued exclusively by the heating supplier without the Lessor's involvement. The allocation of cost shall be determined by the ordinance on the consumption-dependent invoicing of heating and hot water costs (Heating Costs Ordinance) and where applicable the ordinance on general conditions for tele-heating supply (AVBFernwärmeV).

Section 12 Use of the Rental property

1. The Lessee shall be given the following keys for a period of one week from the start of the rental period: **in accordance with the Handover Record of** .

The Lessee must immediately inform the Lessor in each case if it loses or acquires keys. The keys provided must be returned upon expiry of the two weeks. At the same time, the Lessee must hand over keys, which it had cut additionally at its own expense, to the Lessor free-of-charge, or must prove destruction thereof. For reasons relating to the safety of the entire property, the Lessor shall be entitled, in the event of the loss of keys provided to the Lessee or those which the Lessee acquired itself, to have the required number of keys and new keys cut at the Lessee's expense. This provision shall apply correspondingly for a central locking system of the property. The Lessee shall not have to reimburse costs if it is able to prove that there is no concrete security risk. In the one-week transition period, the Lessee shall install its own locking system in the respective doors of the rental property. The Lessee shall therefore itself be responsible for the security of the rented premises; the Lessor's liability is hereby excluded.

2. The Lessee undertakes to treat the rental property and shared building sections, facilities and installations considerately and with care. Within the framework of the contractual use of the rental property, the Lessee must exercise consideration.

3. The Lessee must not make use of anything which has not been rented to it through the lease or special agreements.

4. Any changes to or significant expansion of the type of business, branch of business or an agreed product range, inasmuch as a corresponding agreement has been reached, as well as sub-letting and other partial or full transfer of use of the rented premises to third parties are prohibited without the Lessor's prior consent. This shall also apply for a change of firm owner or legal form of the Lessee negatively impacting on the Lessor's rights. If the Lessor does not grant its consent, this shall not mean that the Lessee has the right to terminate the tenancy, unless the Lessor's refusal is arbitrary.

Consent to sublet or grant permission to use the rental property shall apply on a case-by-case basis and may be revoked by the Lessor at any time for good reason. Upon request, the Lessee shall be obliged to assign its claims against the sublessee. The Lessee shall be liable for the conduct of the sublessee or the third party to which it has granted permission to use the rental property.

Section 13 Cleaning Obligations and Rubbish Service

1. The Lessee must clean the rental property properly on a regular basis. This shall also apply for outside units such as window frames and shutters from the outside, inasmuch as this is possible for the Lessee without any special expenditure (scaffolds, etc.) according to the construction. The cleaning obligation shall also apply for advertising structures. The Lessee must clean these on a regular basis at its own expense and create the necessary conditions (ladders, scaffolding, hoists) at its own expense. The cleaning obligation aims to maintain a good impression of the entire property in order to keep it attractive to customers, also to the benefit of the Lessee.

2. The Lessee shall wet-clean the part of the corridor leading to its rental property and the stairs if necessary, however at least once a week and also keep it clean on the other days. If the Lessee is unable to do this, it must have someone else do it at its own expense.

3. The Lessee shall keep the rental property including facilities and areas, customer parking spaces, garage entrances, accesses, and the traffic areas in front of the rental property, rented along with the rental property, safe for traffic at all times. It must remove any contamination produced as a result of its operations. The parking of vehicles (e.g. cars, vans, motorcycles) which are not registered, but which must be registered, is not permitted.

4. The Lessee shall assume responsibility for the cleaning of the public spaces for which the Lessor, as owner, has to comply with public-law cleaning obligations, in particular the pavement. When icy, it must be gritted with slippage-preventing agents, repeatedly if necessary. De-icing salt and de-icing agents may not be used. Snow must be removed in accordance with the local bylaws, in any case immediately after snow has finished falling. Upon the Lessee's request, the local bylaws must be provided to it by the Landlord in the applicable version in force. In the event of ice formation, this should be gritted immediately. Ice formation, which cannot be sufficiently counteracted by gritting, must be removed. If the Lessee is unable to do this, the Lessee must ensure that someone else does so in its place. Insofar as the costs of these obligations are allocated to the Lessee as operating costs, the Lessee shall not be responsible for complying with the obligations.

   On the basis of the Lessee's declaration of commitment, the Lessor shall be entitled to request his release from his public-law duty to maintain safety. The Lessee shall also remove the snow and black ice from the site areas, customer parking spaces, garage entrances and accesses rented with the rental property at its own expense. Within the framework of its statutory and contractual duty to maintain public safety, the Lessee shall indemnify the Lessor from all liability, unless the Lessor is guilty of intentional or grossly negligent contributory fault in individual cases.

Section 14 Maintenance and Care

1. The Lessee shall be responsible for the maintenance of the rental property, including facilities and installations rented therewith, as outlined below:

   a. The Lessee shall heat the rental property with the available equipment to the necessary extent.

   b. The Lessee shall sufficiently ventilate the rental property. Correct ventilation requires regular transverse ventilation (draught). Tilting the windows to let air in is not a correct method of ventilation and entails the risk of moisture damage and mould formation.

   c. The Lessee shall also contribute to the costs of small maintenance and repair works ("small repairs") to any items that are subject to its immediate access, such as installation items for

electricity, water and gas, the heating and cooking facilities, the window and door latches, the closers of window shutters and parts of shutters. Small repairs are those not exceeding the amount of 300.00 EUROS at the start of the rental period on a case-by-case basis. Since small repairs are essentially wage-dependent, this amount increases in the same proportion as the German consumer price index, basis 2000 = 100 increases relative to the start of the rental period. This increase shall however only increase the cost for small repairs if there is an increase in the base rent. The Lessee shall contribute 300.00 EUROS to these small repairs per individual repair irrespective of the actual invoice amount, but no more than the proven invoiced amount. Per year, the total costs for small repairs shall be limited to 6% of the annual base rent in accordance with Section 5 Paragraph 1. This provision is a merely a cost-bearing provision. The Lessee must inform the Lessor of the defects immediately, so that the Lessor can arrange for the repairs to be carried out. Inasmuch as the Lessee has the works carried out itself at its own expense, there shall be no reimbursement of costs from the Lessor.

2. The Lessee undertakes, as a rule and to the extent required by the actual condition of the rental property, to have wooden floors subjected to professional basic treatment every ten years, calculated from the handover of the rental property. For parquet, this shall require sanding and re-treatment of the surface either by sealing, waxing or oiling. The re-treatment must be carried out in the design available at the start of the rental period, unless agreed otherwise. Sealed parquet surfaces must also be resealed.

Section 15 Cosmetic Repairs by the Lessor

The Lessor shall not be obliged to carry out regular cosmetic repairs.

Section 16 Cosmetic Repairs by the Lessee

The following has been agreed concerning the execution of cosmetic repairs by the Lessee:

Since a contractual term of at least ten years is possible, agreed option rights taken into account, without the Lessor being able to terminate the tenancy, irrespective of notice of termination provided by the Lessee, it is agreed that the Lessee shall not have to carry out regular cosmetic repairs. However, since after such a long rental period, a complete optical deterioration of the objects concerned by the cosmetic repairs regularly occurs, it is agreed that the Lessee must return the rental property fully renovated. Inasmuch as the Lessee has carried out cosmetic repairs during the term of the tenancy, it shall still be responsible for proving that cosmetic repairs are now not due. In this case, to the extent that the condition of the rental property corresponds to a like-new performance of cosmetic repairs, it shall be released from the final renovation obligation. Otherwise, it shall, at its own expense, professionally re-renovate or have renovated the rental property, or reimburse the Lessor for the costs corresponding to the deterioration of the rental property until the end of the rental period.

Section 17 Lessor’s Liability

The Lessor shall only be liable for the damages to the Lessee’s property and assets in the event of intent or gross negligence, insofar as the defect is attributable to the rental property and is a risk not typically associated with the contract. He shall also only be liable for the conduct of his representative or vicarious agent in the event of intent or gross negligence. The Lessee’s claims for performance as well as its statutory right to termination

without notice shall not be affected thereby. The exclusion of liability may only be invoked if the Lessor has specifically guaranteed a particular characteristic of the rental property or has fraudulently concealed a defect. It shall not apply in the event of injury to life, limb or health of the Lessee, based on the Lessor's negligent breach of duty or an intentional or grossly negligent breach of obligation of a legal representative or vicarious agent of the Lessor; insofar as the damage is based on a breach of a "cardinal duty", i.e. a breach of contractual obligations which enable the proper performance of the contract in the first place, and in whose fulfilment the Lessee therefore has trust; as well as for damage for which the Lessor has insurance, e.g. home and property liability insurance or building insurance.

Section 18 Structural Modifications and other Measures

1. Lessor's measures

   a. The Lessee must tolerate structural modifications necessary for preserving the rental property, the building, or in order to prevent imminent danger or to eliminate damage.

   b. The Lessee must also tolerate all beneficial or appropriate measures or measures for which the Lessor is not responsible, in particular modernisation measures, e.g. heating and soundproofing measures, and the improvement of installations.

   b) This provision shall apply correspondingly for improvement and expansion measures to traffic areas, supply and removal systems including the utilities of such facilities as well as connections to the broadband cable network.

   c) For measures in accordance with Letters a) and b), the Lessee must keep the premises in question accessible, pursuant to prior arrangement, and may not obstruct or delay the performance of the works. In the event of culpable behaviour, it must pay for the resulting additional costs and damage.

   d) Claims for compensation of the Lessee shall be excluded because of tolerable measures, unless the Lessor is responsible because of intent or gross negligence.

   e) The agreement under Section 7 Paragraph 6 shall apply to the rental increase due to the Lessor's expenses for measures in accordance with Letter b).

2. Lessee's measures

   The Lessee shall only be entitled to carry out structural and other modifications and create new facilities with the Lessor's prior consent. Without the Lessor's consent, the Lessee must remove any measures undertaken at its own expense immediately at the Lessor's request and restore the rental property to its previous condition. The Lessor's right to request the restoration of the rental property to its previous state at the end of the lease at the Lessee's expense shall not be excluded by his consenting to a structural modification by the Lessee. The Lessee shall be liable for all damage that it has caused.

Section 19 Liability of the Lessee

1. The Lessee shall be liable to the Lessor for damage to the rental premises and the building as well as to the facilities and installations belonging to the rental premises or to the building, caused by it, persons

belonging to its household, staff, employees, visitors, customers, suppliers and craftsmen and similar persons appointed by it, insofar as it is answerable for the same. If the Lessee pays the Lessor damages, then the Lessor must assign the Lessee any claims he may have against the person who caused the damage. The Lessor must prove the objective breach of duty. The Lessee shall have the burden to prove that there was no culpable conduct, insofar as premises, installations and facilities are entrusted to its care. The Lessee shall not be liable for unforeseen circumstances or force majeure.

2. The Lessee shall replace damaged glass panes including display windows and mirrors at its own expense if it is at fault. The Lessee must take out glass breakage insurance for all window, display window, and door windowpanes of the rental premises in a sufficient amount at its own expense and prove to the Lessor that it has insurance. This shall not apply if and to the extent that the Lessor has concluded glass breakage insurance himself and allocates it to the Lessee as operating costs.

3. Before the Lessee sets up heavy items, machines or installations and brings equipment into the rental premises, it must make sure that the permissible load of the floor ceiling is not exceeded. It must have a static calculation required in each case drawn up at its own expense and provide this to the Lessor upon request. The Lessee shall be liable for all damage caused to the Lessor or third parties as a result of culpably failing to adhere to this provision. Adverse effects of the equipment on the building, such as vibrations and cracks, or on other tenants and neighbours, as well as unreasonable further annoyances, shall entitle the Lessor to revoke the consent granted and to prohibit the exercise, even if the effects are unavoidably associated with the operations.

4. The Lessee shall be liable towards the Lessor for damage to buildings, installations, facilities and to the other property culpably caused by its vehicles or the vehicles it operates. The Lessee’s vehicles may only be parked on the property with the Lessor’s consent in the assigned spaces, and third-party vehicles only during the time required for loading and unloading.

5. The Lessee undertakes to take out sufficient insurance (e.g. fire, water, inventory insurance, liability insurance, for the installations/facilities introduced by it as well as business liability insurance. At the Lessor’s request, it must prove the conclusion and continuation of the insurance.

6. The Lessee must immediately inform the Lessor of all damage to the rental property, as soon as it notices said damage. The same shall apply for damage to other property and building sections. If it culpably fails to fulfil this obligation in a timely manner, it shall be liable for paying compensation for further damage.

Section 20 Advertising Activities and Protection against Competition

1. The Lessee shall only be entitled to affix a company nameplate whose size, design and position correspond to the surroundings and the style of the building and property respectively.

The Lessee shall be responsible for proper affixing and maintenance in accordance with legal and regulatory requirements. This shall apply mutatis mutandis for other equipment for sales and advertising purposes, which is permitted only after obtaining the Lessor’s written agreement. Collective sign systems provided or kept ready by the Lessor shall be shared by the Lessee with proportional cost transfer. The Lessee shall be liable for all damage for which it is at fault, attributable to the objects in question and their affixing. Upon release of the rental property, it must return it to its former condition at its expense.

2. The Lessee shall not be granted protection against competition.

Section 21 Lessor's Lien

1. The Lessee declares that the items brought into the rental premises when it moves in are its own property and are neither pledged, attached, nor assigned as collateral.

2. The Lessee must immediately inform the Lessor of any seizure of the items brought in when moving in or subsequently.

3. The Lessor shall be entitled to terminate the tenancy without notice if the Lessee purposely provides incorrect declarations or does not inform him of subsequent restrictions.

Section 22 Access to the Rental Premises by the Lessor

1. The Lessor and his representative may access the rental premises during business hours with prior notification in order to verify its condition. If the Lessor wishes to sell the property, or if the tenancy is terminated or rescinded, then the Lessor or his representative may access the rental premises during business hours along with the potential purchasers or lessees.

2. The Lessee must ensure that the rental premises may also be accessed during a long absence (e.g. company holidays) in order to exercise the above lessor rights. For this purpose, it shall leave the keys in an easily accessible place and notify the Lessor thereof. If the keys are not available to the Lessor, in the event of imminent danger he shall be entitled to have the rental premises opened at the Lessee's expense.

Section 23 Termination of the Tenancy

1. At the end of the rental period, the Lessee must return the rental property to the Lessor in proper condition, cleared out and with the whole property freshly cleaned (including the glass surfaces/windows) along with all keys, including those which the Lessee acquired itself. A joint inspection report on the condition of the rental property shall be drawn up when it is handed over to the Lessor.

2. The Lessor may request that the Lessee remove the facilities, installations and structural changes introduced by it and return the property to its earlier condition and its own expense, taking into consideration any cosmetic repairs due. Furthermore, the Lessor may request that the Lessee leave behind or transfer to him any installations and facilities brought in at its own expense, insofar as he provides suitable compensation for this. If an agreement on the amount of compensation is not reached, then an expert to be determined by the competent Chamber of Industry and Commerce will establish this at the request of one of the parties with binding effect. The costs for the expert shall be borne proportionally by the parties in accordance with the expert's decision.

3. The late return of the rental property shall mean that the Lessee must pay compensation for the duration of the withholding at the Lessor's option in the amount of the agreed rent or rent which can customarily be obtained for comparable premises. If the rental property is returned in an untimely

manner, the compensation shall in any case be paid for the full month. The Lessor shall be entitled to assert further damage. This shall apply, in particular, if cosmetic repairs which the Lessee has refused to perform, or other repair works for which it is responsible are to be carried out.

4. If the Lessee is responsible for the early termination of the tenancy, then it shall be liable for the loss of rent, utilities and other payments and for all further damage caused to the Lessor for the rental property remaining empty during the contractual rental period or if the Lessor suffers a financial loss in the event of immediate re-letting, in particular through obtaining a lower rent.

5. If the Lessee leaves items behind when it moves out, then the Lessor shall only be liable for damage and loss if he or his vicarious agent has acted with intent or in a grossly negligent way.

Section 24 Assignment and Transfer

The Lessee shall not be entitled to transfer its rights under this lease, assign them, or contribute them to a company without the Lessor's prior written consent. The Lessee does not have a claim to this consent.

Section 25 Other Agreements

1. The Lessee shall acquire the rental property with the renovation of the 3rd floor (top floor) carried out and extensively inspected by it, in line with the contract.

   Before the start of the tenancy, the Lessor must have the following works carried out:

   Front building upper floor (top floor): painting of all walls, ceilings, doors, heaters and heating pipes, carpet laying, renovation of the washrooms.

2. A joint handover report concerning the handover shall be drawn up by the parties, which must be signed by both contracting partners.

Section 26 Amendments and Additions

Subsequent amendments and additions to the lease must be defined in a written agreement. This shall also apply for partial waiver of the written form requirement.

Section 27 Effectiveness of Contractual Provisions

Any invalidity of a provision, part of a provision or several provisions of this lease shall not affect the validity of the remaining provisions. This contract is issued in two identical copies, read by the parties themselves, approved in all places and signed personally. Both contracting parties have received a copy.

Addendum no. 1
of lease agreement for commercial premises from 17.08.2011

between

As landlord:

Wolfram Richter

Kupferbergterrasse 15, 17-19
55116 Mainz
Tel.: [***]; fax: [***]
Tax number of the landlord: [***]

As tenant:

BioNTech AG
Represented by the director [***] (with German business degree)
Hölderlinstraße 8
D-55131 Mainz
registered in the commercial register of County Court Mainz, register number: HRB 41865

concerning the office areas on 3rd floor (attic floor) of front building, approx. 244 m2.

The late completion of the expansion means that the above-mentioned office facilities could not be taken over on 01.10.2011 according to the agreement in section 5 of the lease agreement from 17.08.2011 for commercial premises. This area was not ready for the tenant to move in until 01.11.2011.

The parties therefore complete the following agreement to apply retrospectively from 01.10.2011:

The lease agreement concerning the office areas on the 3rd floor (attic floor), approx. 244 m2 starts on 01.11.2011. The end of the lease agreement for this office area remains unchanged as 31.08.2013.

All other provisions of the lease agreement from 17.08.2011 continue to apply unchanged.

The rent paid by the tenant in excess for the month of October 2011 for the office area on the 3rd floor of € [***] gross will be offset against the rent for the month of November 2011.

the following Lease is entered into:

I.

At the property: **Kupferbergterrasse 15, 17-19, on the courtyard, in front of the brick building** _____ garage(s) 5 parking spaces _____ twin spaces _____ storage space are leased, for parking: **CARS**

II.

The lease shall begin on **01.02.2013** and continues for an unlimited term unless terminated with three months' notice from the end of a month.

III.

The monthly rent shall be	5 x EUR [***]	**EUR** [***]
	VAT @ EUR [***]	**EUR** [***]
	Total	**EUR** [***]

in words: - [***]- Euros

and must be paid to the Lessor, or to the person or establishment authorised by him to accept payments, no later than the third working day of the month.

Name of the bank:	[***]
Sort code:	[***]
Account number:	[***]

IV.

Vehicles shall be parked at the Lessee's own risk. In particular, the Lessor shall not be liable for fire, theft or damage to vehicles.

V.

The Lessee undertakes

- to drive in and out of the garage at walking pace only and to take the utmost care,
- not to wash vehicles in either the garage or on the Lessor's property, or carry out any repairs outside the garage on the property,
- to use electricity only for lighting purposes and not to make any changes to the electrical system in the garages,
- to comply with the applicable police guidelines, and more specifically never enter the garage with fire or naked flames, store fuel or flammable substances in the garage, or leave the engine running when the garage door is closed.

The Lessee shall be liable for all damage caused during the use of the garage or as a result of a failure to comply with the existing guidelines, either by itself, its employees or representatives or by any other persons whom it has authorised to use its vehicle.

VI.

The Lessee may not set off the rent with a counterclaim. No right of retention may be exercised with respect to the rent.

VII.

The Lessee may use the garage only for the contractual purposes. If it wishes to use it for other purposes, it must obtain written permission from the Lessor.

The garage must not be sublet to third parties and third parties shall not be authorised to use it free of charge.

VIII.

At the end of the lease, the Lessee must return the garage to the Lessor in a clean state and with all associated keys.

IX.

There are no oral ancillary agreements in relation to this lease. Amendments or supplements must be agreed in writing.

X.

The place of performance and jurisdiction is Mainz.

XI.

for the office space on the property Kupferbergterrasse 15, 17-19; 55116 Mainz, on the second floor of the front building, the third floor of the front building (loft), the second floor of the original building and the ancillary areas.

With immediate effect, by way of deviation from sections 3 (1) and (2) of the lease of 17.08.2011 and from the agreement in Amendment no. 1 of 17.02.2012, the Parties agree as follows:

The leasehold is extended to 31.03.2014. Within an appropriate timeframe and before the end of the leasehold, the parties shall come to an agreement on the possibility of further extending the lease and on the duration of any such extension.

All other provisions laid down in the lease of 17.08.2011 and Amendments nos. 1 and 2 shall remain in place and continue to apply without amendments.

Amendment 5 BionTech – Agreement regarding an extension to the lease agreement

to the lease agreement of 17.08.2011 for commercial premises and the lease of 01.10.2012 for the main area, in addition to the Amendment of 17.02.2012, as well as Amendment no. 2 of 01.02.2013, Amendment no. 3 of 06.03.2013, Amendment no. 4 of 19.11.2013 and the lease of 30.03.2012 are joined together in this Amendment and consolidated into a combined lease term.

Agreement no.: _____ of: 10.03.2016

The lease is entered into by and between the following contractual parties:

As the Lessor:

Wolfram Richter
Kupferbergterrasse 15, 17-19; 55116 Mainz
Tel.: [***]; Fax: [***]
Lessor's tax registration number: [***]
If the Lessor exercises the value added tax option, the Lessor's tax registration number is: [***]

As the Lessee:

for the office space on the property Kupferbergterrasse 15, 17-19; 55116 Mainz, on the second floor of the front building, the third floor of the front building (loft), the second floor of the original building, - second floor of the main building, main area and ancillary areas.

The Parties agree to extend the contractual term by a further three years until 31.03.2019 after expiry of the lease of 17.08.2011, as agreed in Amendment no. 4 of 19.11.2013, plus the option to extend by another three years; the lease of 30.03.2012 which would end on 30.06.2016 shall also be extended by a further three years to 31.03.2019, plus option.

The leasehold term is therefore extended for both leases consolidated in this Amendment, to 31.03.2019.

The leases shall be extended once by three years until 31.03.2022, if one party does not object to the extension by giving six months' notice in writing.

All other provisions laid down in the leases of 17.08.2011, in addition to Amendments nos. 1, 2, 3 and 4 and the lease of 30.03.2012 shall remain in place and continue to apply without changes.

and

JPT Peptide Technologies GmbH
Invalidenstraße 130
10115 Berlin
represented by the Managing Directors
[***]
and [***]

- hereinafter referred to as the “Lessee” –

the following lease is entered into:

Section 1
Leased Property

The Lessor shall lease to the Lessee the rooms and areas described in **Annex 1**, in the Centre for Environmental Technology, Biotechnology and Energy Technology at Berlin Adlershof Science and Technology Park, Volmerstraße 5, 12489 Berlin, with a total rental area **of 855.46 m²**.

This total area encompasses: 343.53 m² of office space
69.70 m² of storage space,
372.02 m² of laboratory space and
70.21 m² of ancillary space (proportionate).

The technical features of the leased property are set out in **Annex 2.**

Section 2
Usage

(1) The Lessee shall use the leased property for the purposes described below and shall only deviate from this intended use if prior written permission has been obtained from the Lessor: **peptide synthesis**.

(2) The Lessee is aware of the condition of the leased property, in particular the bearing capacity of the ceilings, the spatial extent of the leased rooms, the entrances and capacities of the individual utilities. The Lessee is also aware that the areas of the Berlin Adlershof Science and Technology Park that are located north of Rudower Chaussee belong to Drinking Water Protection Area III. The Lessor does not guarantee the suitability of the leased property for the agreed usage purposes or those envisaged by the Lessee.

(3) The Lessee alone shall bear the expenses and responsibility with respect to necessary permits; the same applies to official or other requirements or restrictions. If permits required by the Lessee for the use can only be applied for by the Lessor as the owner, the contractual parties shall support each other to the best of their abilities with respect to the application process. If the intended use is not approved or approved only subject to conditions which cannot be fulfilled or removed by measures taken in accordance with the recognised state of the art, the Lessee shall be entitled to terminate the Lease without notice. Termination is only possible until 31.07.2005. In the event of termination, the Lessee must reimburse the Lessor for 50% of the costs incurred up to the date of termination for the additional technical installations pursuant to Annex 2a. The additional technical installations pursuant to Annex 2a do not constitute additions and alterations or fittings of the Lessee within the meaning of Section 22.

(4) The Lessee may use the leased property only in a manner corresponding to its condition and only in accordance with the applicable provisions of law. The Lessee alone is responsible for observing and complying with the legal regulations concerning the Lessee's trade, occupational safety and fire protection, and industrial waste disposal.

(5) Devices, machinery and systems operated on the premises must be installed in compliance with safety and environmental regulations, as well as in a manner that reduces noise and vibrations, in order to avoid causing unreasonable disturbance to the Lessor and other lessees.

(6) Water-polluting substances may only be stored and handled in the dedicated facilities, in accordance with the legal regulations. When storing and handling water-polluting substances, the Lessor must be given the records concerning the type and quantity of water-polluting substances introduced, and after their usage, proper evidence of their disposal on a quarterly basis, on the 25th of the last month of each quarter. The laws and official requirements applicable to the storage, use, handling and disposal of such materials must be complied with by the Lessee. The Lessee must inform the Lessor upon request in the event that other polluting materials are stored and/or handled. The laws and official requirements applicable to the use, handling and disposal of hazardous goods must be complied with by the Lessee. The Lessor must be provided with evidence in this regard where requested.

Section 3
Handover

(1) The Parties shall draw up a handover report at the time of the handover of the leased property to the Lessee. By signing the handover report, the Lessee acknowledges that the leased property is as agreed in the lease, if no damage or defects are recorded in the report. The Lessor undertakes to rectify the defects recorded and acknowledged as such within an appropriate timeframe. The Lessee cannot derive any rights against the Lessor from the existence of defects not recorded in the report. Sentences 2 and 4 do not apply to latent defects.

(2) Defects that are minor and do not adversely affect the Lessee's normal business operations, uncompleted work, or a delay in providing the inventory made available to the Lessee on the basis of special contractual agreements shall not entitle the Lessee to refuse acceptance. This also applies to uncompleted work on the outdoor facilities which do not have any substantial adverse effect on the Lessee's business operations. With regard to works still to be completed by the Lessor after the handover, complaints about defects may only be raised with the Lessor within six weeks after their completion. A precise description of the defect must be given when the complaint is made.

Section 4
Term of the Lease

(1) The lease shall begin once the necessary installations have been completed and the functioning premises handed over to the Lessee, however no earlier than 01.08.2005, and shall end on 31.07.2010 without any need to issue a termination notice. The Lessee shall be entitled to extend the term of the lease by an additional five years by making a written unilateral declaration to the Lessor before 31.07.2009. Irrespective of this, the term of the lease shall always be extended by a year if neither of the Parties object to the extension at least 12 months before expiry of the term of the lease.

(2) After expiry of the lease due to an objection within the meaning of paragraph (1), no automatic renewal of the leasehold through continued use of the leased property shall take place; section 545 of the German Civil Code shall not apply.

Section 5
Rent, Utilities, Payment Dates

(1) The rent is based on an estimate of

€[***]m^2 for office and laboratory space.

The monthly rent shall be €[***]

For the additional technical installations pursuant to Annex 2a, the Lessee shall pay the Lessor an additional monthly amount of €[***] (€[***]/m^2).

If the Lessor's expenses for the technical installations exceed or fall short of the costs specified in Annex 2a by more than 10%, a new calculation of the additional payment amount shall take place.

For the purposes of verifying the total expenditure for the technical installations and fittings, the Lessor shall provide the Lessee upon request with the documents on the invoiced construction costs.

The monthly rent shall be increased on 01.08 of each year of the lease by 2% each time, with respect to the rent applicable up to that point. The first increase shall take place on 01.08.2010.

If modernisations are carried out after the lease is entered into, the Lessor shall be entitled to increase the rent taking into account section 559 of the German Civil Code.

The following advance payments must be made by the Lessee for utilities and operating costs, in the form of monthly instalments:

Heating	€	[***]
Electricity	€	[***]
Water supply and wastewater disposal	€	[***]
Rainwater drainage	€	[***]
Gas supply	€	[***]
Cooling	€	[***]
Provision of special-purpose media	€	[***]
Cleaning	€	[***]
Maintenance	€	[***]
Other	€	[***]
Infrastructure services	€	[***]
Technical management	€	[***]
Property tax	€	[***]
Subtotal:	€	[***]
Rent:	€	[***]
Additional amount:	€	[***]
Rent, additional amount and utilities:	€	[***]
plus applicable value added tax (currently 16%):	€	[***]
Total amount	**€**	[***]

An itemised list of the operating costs and utilities with identification of usage is provided in **Annex 3.**

If other public charges or obligations in direct relation to the leased property are introduced after entering into the lease, for example concerning the technical safety of the building and installations, the Lessor shall be entitled to charge these starting from the date on which the additional expenditure first occurred, provided that the Lessor claimed these from the Lessee in writing no more than six months after it first became aware of them, or otherwise from the date on which they were claimed in writing onwards.

(2) The Lessee expressly warrants that in the leased property provided it shall exclusively generate taxable turnover which does not exclude input tax deduction within the meaning of the German Value Added Tax Act.

Upon the Lessor’s request, the Lessee must provide evidence of its entitlement to deduct input tax. If the Lessee does not fulfil this obligation within an appropriate timeframe, it must compensate the Lessor for all resulting damage suffered.

(3) The prepayment for the rent and utilities must be made in advance on the third working day of each month. The Lessee undertakes to grant the Lessor the direct debit authorisation provided in **Annex 4.** The Lessee is responsible for ensuring that there are sufficient funds in the account to which the direct debit authorisation relates. Costs incurred by the Lessor as a result of an unsuccessful direct debit must be reimbursed by the Lessee.

(4) If a payment is not received on time, the Lessor shall be entitled to charge reminder fees amounting to €5.00 per reminder, as well as default interest of 8% above the base interest rate applicable as at 01.01. of the relevant year, pursuant to Section 247 of the German Civil Code. The right to make additional compensation claims shall remain unaffected.

Section 6
Utilities and Calculation Thereof

(1) The utilities and operating costs described in Section 5 (1) are billed, where possible, depending on consumption. The portion of the utilities/operating costs not able to be directly attributed shall be billed according to the proportion of the area of the leased property described in Section 1 compared with the leasable area of the building.

To the extent that the Lessee is provided with cooling, gas and other special-purpose media beyond the ordinary requirements for business and office premises and this does not extend to the whole building, the following shall apply:

For the distribution of the utilities and operating costs charged in this regard, the contractual parties agree that the basis for the billing shall be the proportion of leased area used by the Lessee and supplied with the special-purpose media compared with the leasable area of the building supplied with special-purpose media in which the special-purpose media are used.

(2) The infrastructure utilities/infrastructure operating costs for Berlin Adlershof Science and Technology Park shall be invoiced in accordance with the following allocation system:

Firstly, the portion allocated to the building in which the leased property is located shall be calculated using the proportion of the net floor space of the building compared with the total net floor space of all leasable buildings belonging to Berlin Adlershof Science and Technology Park; this portion allocated to the building shall then be distributed among the resident lessees of that building, based on paragraph (1).

(3) By 30.06 of the following year, the Lessor shall establish a breakdown of the utilities incurred up to 31.12 of the previous calendar year. The invoicing documentation may be viewed by the Lessee at the Lessor's offices within four weeks after receipt of the invoice. The invoice shall be deemed accepted if the Lessee has not made any objection thereto in writing on reasonable grounds within six weeks of receipt of the bill, and the Lessor expressly informed it, at the beginning of this six week-period, of the intended significance of any failure to object following receipt of the invoice. Any differences between the invoice and the sum of the advance payments shall be subsequently paid by the Lessee within eight weeks following receipt of the invoice, or refunded by the Lessor. Section 5(4) shall apply accordingly.

(4) In subsequent years, the advance payment for utilities shall be adjusted in accordance with the actual expenditure for the relevant previous calendar year. During the invoice period, the Lessor shall also be entitled to re-determine the advance payments for utilities if it is expected that they will not be sufficient to cover the operating costs for the invoice period.

(5) Even if the lease or usage relationship ends during the invoice period, the utilities shall be invoiced in accordance with the foregoing provisions. If the Lessee requests interim invoicing, it shall be responsible for paying the associated costs.

Section 7
Security Deposit

(1) By 01.09.2005, the Lessee shall transfer a security deposit to the Adlershof Facility Management GmbH management account

[***]

Account no.: [***]
Sort code: [***]
Purpose: Security deposit.

The amount of the security deposit shall be equal to two net monthly rent payments, i.e. €[***].

(2) The obligation set out in paragraph (1) may be fulfilled by providing a corresponding, directly enforceable, unconditional and indefinite bank guarantee from a bank authorised as a domestic customs and tax guarantor with a branch office in Germany, or by pledging a lessee security deposit in accordance with standard banking practice. In the event of cash payments, the Lessor shall invest the rental security deposit separately from its other assets, at an interest rate that is customary for savings deposits with a three-month notice period. The interest earned shall increase the amount of the security.

(3) The security deposit shall be refunded at the end of the lease, upon proper return of the leased property and billing of the utilities, as long as the Lessor has no additional claims under this lease.

Section 8
Structural Amendments

(1) The Lessor may make structural amendments to the leased property which are necessary or advisable in order to increase the value of or preserve the leased property, or to rectify damage, even without the Lessee's permission. The Lessee is entitled to object to such measures if the usage of the leased property for the purpose provided for in the lease is seriously adversely affected by the construction measures. This does not apply to construction measures taken in order to prevent imminent danger or damage. The Lessee must keep the affected areas accessible. The Lessor must notify the Lessee at least two weeks before commencing the aforementioned construction measures, unless they are being undertaken in order to prevent imminent danger.

(2) Structural amendments by the Lessee, more specifically additions and alterations, installations, and even barring of windows, may only take place with the prior written permission of the Lessor. The equipment brought onto the premises by the Lessee during the term of the lease must be continually documented in a report to be signed by both Parties. The installation of external antennas requires the conclusion of an antenna agreement. The Lessor shall only refuse to give consent to such structural amendments if there are important grounds to do so. The Lessee shall be responsible for all costs and damage incurred in connection with the construction measures carried out by it. The Lessee must obtain all required official permits.

(3) The Lessee shall be liable for all damage caused by the construction measures undertaken by it.

(4) Any operating equipment and other equipment taken over from the previous lessee are not regarded as belonging to the leased property, but instead as being installed and provided by the Lessee.

Section 9
Advertising Structures, Signs

(1) Company signs shall be put up by the Lessor on an information panel at the entrance. The Lessee shall incur the costs of creating and installing its company signs.

(2) With the Lessor's permission, the Lessee may install additional company signs and other fixtures used for self-promotion, advertising or sales on the outside of the building, including on the windows, as well as in Berlin Adlershof Science and Technology Park as a whole.

The Lessee shall incur the costs of creating and installing these.

Section 10
Maintenance and Repairs, Duty of Care

(1) The Lessee is responsible for carrying out the following minor repairs and fulfilling the following maintenance obligations for the leased property: Wallpapering and painting internal walls and ceilings (except for exposed concrete surfaces), painting radiators including radiator pipes, internal doors, as well as windows and external doors from the inside, and maintaining the floor coverings. Such works must be carried out to a professional standard.

(2) The Lessee shall also incur the costs of repairing windows, glazing and locks, doors and locks, internal glazing, sanitary and laboratory fixtures, light fixtures, as well as internal blinds, including providing replacements in the event of damage on the leased property, if the total annual costs for this do not amount to more than five per cent of the net annual rent excluding utilities.

(3) The Lessee must handle the leased property with care, including the fixed and movable technical installations and systems provided to it for use, and to protect these from damage and loss. The installations and equipment on the leased property must be protected from frost damage by the Lessee. In the event of inclement weather or absence of the Lessee, doors and windows must be kept closed. The leased property provided must be sufficiently heated and ventilated. The Lessee must incur the costs of removing pests from the leased property.

(4) The Lessee shall be liable for damage culpably caused as a result of non-compliance with its duty of care. This shall also apply in particular if supply and discharge lines, toilets, heating appliances, etc. are improperly handled. The Lessee shall incur the costs of clearing pipe blockages caused by it up to the main pipe.

(5) Damage on and in the leased property must be notified to the Lessor or one of its agents immediately. The Lessee shall be liable for additional damage caused as a result of a delayed notification. In the event of danger ahead, the Lessee itself must take the necessary measures in order to avoid damage.

Section 11
Supply of Utilities

(1) The Lessee is obliged to receive heating, gas, electricity, telecommunications and other utilities for the leased property from the Lessor or from one of the suppliers or service companies appointed by the Lessor, provided that this is legally authorised and these services are provided under the normal market conditions.

(2) If the services are obtained from the Lessor, the contractual conditions and other conditions applicable between the Lessor and its supplier and which applied at the time of entering into the contract shall also apply to the Lessee. The Lessee agrees with their validity.

(3) Special-purpose media shall be supplied during the normal usage period (Monday to Friday between 08:00 and 16:30). The supply of special-purpose media outside the normal usage period requires a separate agreement between the contractual parties. The supply of basic utilities – electricity, water, heating, gas and telecommunications – is not restricted to the normal usage period.

(4) Any irregularities in the supply of utilities shall not entitle the Lessee to claim a reduction of rent or damages from the Lessor unless they are based on the intent or gross negligence of the Lessor. This shall also apply to business interruptions of any kind caused by the Lessor in the event of imminent danger. If it is ruled out that the Lessor is liable due to gross negligence, the Lessor nevertheless undertakes to assign its claims against the supplier to the Lessee.

(5) In the event of failures or damage to the supply lines, the Lessee must ensure immediate disconnection and notify the Lessor or one of its representatives immediately.

(6) In the event of a foreseeable interruptions to utility supplies, the Lessee must be informed immediately by the Lessor.

(7) The Lessee is obliged to install consumption meters at its own expense for the utilities used by it, provided that these are not already available or do not function in a manner that suits the Lessee's requirements. They must be installed professionally. The Lessee may be released from this obligation by the Lessor if another amicable solution concerning the recording of the utilities consumption is agreed. The available utilities distribution networks may only be used by the Lessee in accordance with the recognised rules of technology. The Lessor must be informed of any increased requirement, and this may be covered by the Lessee via an extension of the supply line at its own expense and after prior permission has been given by the Lessor.

Section 12
Lift Facilities

The Lessee is not entitled to the uninterrupted opportunity to use the lift facilities if there are operational failures. The Lessor undertakes to have the operational failure rectified as soon as possible and to comply with the lift regulations in all respects. No lift operators are present in the lifts. The Lessor or its representative must be informed immediately of any operational failures.

Section 13
Operational Safety Obligation

For the construction measures undertaken by it on the leased property and for its company employees, the Lessee only assumes responsibility for compliance with the operational safety obligation and the other legal requirements and official regulations, in particular the accident prevention regulations.

Section 14
Liability, Compensation for Damage

(1) The Lessee is liable for all damage caused by it, its employees, staff, sub-lessees, sub-contractors, visitors or the persons associated with its business at its request, or caused by the business activity itself on the leased property or other property of the Lessor or of the building owner. The Lessee is also liable for the environmental damage caused by it or by the abovementioned persons.

(2) The Lessee must immediately rectify damage for which it is liable. If it does not fulfil this obligation within a suitable timeframe, even after a written reminder, the Lessor may have the necessary works undertaken at the Lessee's expense. In the event of danger ahead or unknown residence of the Lessee, no written reminder or deadline setting is required.

(3) At its own expense, the Lessee is obliged to hold the Lessor harmless from all claims for damages made against the Lessor by third parties directly or indirectly resulting from the use or non-use of the leased property or from the operation of its business, or caused by items introduced by it, in particular hazardous substances or inventories.

Section 15
Insurance

(1) It is the Lessee's responsibility to obtain insurance to cover all damage to the equipment and other items brought onto the site. The Lessor shall assume no liability for such damage even if the liability of its agents is considered, except in the case of intent or gross negligence. The Lessee shall hold the Lessor harmless from any "break-in damage" to the extent that a break-in is directed at items introduced by the Lessee.

(2) The Lessee shall take out and maintain the following insurance policies during the term of the lease:

a) business liability insurance for personal injuries and damage to property, and environmental liability basic coverage with a coverage amount of at least €1.5 million, including at least €50,000 for damage to rented property,

b) if the Lessee deals with water-polluting or hazardous substances on the property in accordance with Section 2 (6) of this lease, it must take out separate insurance for the water pollution risk (groundwater).

Upon request, the Lessee shall provide the Lessor with evidence that the aforementioned insurance policies have been taken out.

(3) Buildings and building components made available by the Lessor are insured by the Lessor against fire damage. The insurance premiums to be paid in this regard shall be incurred by the Lessee on a pro rata basis in accordance with the lease. Lessee installations are not insured, even if they are building components.

(4) Damage in relation to insured risks must be notified to the Lessor by the Lessee immediately so that the Lessor can notify the insurance company of the damage within the requisite period. Any disadvantages occurring as a result of failure by the Lessee to notify the damage on time shall be incurred by the Lessee.

Section 16
Several Persons as the Lessee

(1) In the event that the Lessee is constituted by more than one person, they shall all be jointly and severally liable under this lease.

(2) For a declaration by the Lessor to be valid, it is sufficient for this to be given to one of the Lessees. Declarations of intent by one Lessee are also binding on the other Lessees. The Lessees are deemed to have authorised each other to make and receive declarations.

(3) Circumstances that cause an extension or reduction of the leasehold for one Lessee or give rise to a claim for damages or other claim against it shall have the same effect on the other Lessees. Termination by one Lessee shall result in termination of the entire lease.

Section 17
Subletting, Change of Legal Form

(1) The Lessee is not entitled to sub-let the leased property.

(2) If there is a change to the legal form of the Lessee's company or if there are other amendments which are significant to the lease, the Lessee must immediately inform the Lessor of these and provide the corresponding evidence when requested. In the event of sale of all or a significant part of the Lessee's company, any transfer of the leasehold to the buyer requires the Lessor's prior permission in writing. There shall be no entitlement to a transfer of this lease.

Section 18
Entry into the Leased Areas by the Lessor

(1) After providing notice, the Lessor and/or an agent may enter the leased areas during business hours in order to inspect the condition of the leased areas or for other important reasons. In the event of danger, they must be allowed to enter at any time of the day or night.

(2) The Lessee must ensure that the rooms can also be entered during its absence. In the event of an extended absence (e.g. company close-down for holidays), the Lessee must leave the keys in a quickly accessible place and inform the Lessor of this.

Section 19
Competitors

The Lessor is authorised to allow the Lessee's competitors onto the property and/or into the building.

Section 20
Notice to Terminate

(1) The Lessor may terminate the lease with immediate effect or by observing a notice period if

a) the Lessee falls into default with two consecutive rent payments or with a significant portion of the rent, or, for a period extending over more than two payment due dates, is in default by an amount equal to or more than the rental payments for two months;

b) the Lessee has significantly failed to fulfil its contractual obligations; more specifically, it fails to use the leased property in accordance with the lease or its usage causes unreasonable disturbance to the Lessor's areas or areas occupied by other lessees, and these contractual breaches are not rectified within two weeks following a written warning from the Lessor; no warning is required in the event of imminent danger.

(2) In the event of early termination of the leasehold due to an extraordinary termination pursuant to Section 21 (1), the Lessee shall be liable for rent losses, ancillary charges and other services. Additional claims for damages shall not be affected by this.

(3) Termination declarations must be provided via registered letter.

Section 21
Obligations upon Termination of the Lease

(1) Following expiry of the lease, the leased areas must be returned by the Lessee in a tidy, professionally renovated and clean state, and with a clean floor. When returning the leased areas, the Lessee must provide all keys to the Lessor, even those obtained by the Lessee itself. A report concerning the return of the leased property must be signed by both Parties.

(2) Equipment installed by the Lessee in the leased areas may be taken away by it. The Lessor may prevent the Lessee from exercising its right to remove the equipment by making a compensatory payment amounting to the market value of the equipment, which shall be determined on the basis of a valuation by an expert, unless the Lessee has a justified interest in removing the equipment.

(3) The Lessee's installations and fittings must be removed by it in order to return the leased property to its original condition, unless the Lessor agrees that they can stay in the leased property without compensation.

(4) The Lessee is not entitled to compensation for expenditure incurred for structurally improving the leased property.

Section 22
General Cooperation for the Development of
Berlin Adlershof Science and Technology Park

(1) The Lessee and Lessor fulfil their respective duties in the interest of a positive development of Berlin Adlershof Science and Technology Park with the necessary cooperation. With this in mind, the Lessee contributes to cooperation and creating synergies between business and science.

(2) The Lessee is obliged to agree its communal facilities and services (e.g. canteens, kiosks, leisure facilities) with the Lessor and avoid competition with the Lessor.

Section 23
House Rules

The Lessee acknowledges that the House Rules appended as **Annex 5** are binding. A breach of the House Rules constitutes a use of the leased property in breach of the lease. Amendments and supplements to the House Rules may be made by the Lessor if there are objective reasons to do so.

Section 24
Final Provisions

(1) Annexes 1 to 5 are components of this lease.

(2) Amendments or supplements to the lease must be made in writing. No oral ancillary agreements have been made.

(3) If one of the provisions of this lease is or becomes completely or partially ineffective, the validity of the other provisions shall not be affected by this. The Parties are obliged to replace the ineffective provisions with a rule that comes as close as possible to the economic purpose of the ineffective provisions. The same applies to amendments and supplements to the lease.

(4) The place of jurisdiction is Berlin.

Annex 2: Building Specification

Centre for Environmental Technology, Biotechnology and Energy Technology

Building Specification 1

Building Construction

The Centre for Environmental Technology, Biotechnology and Energy Technology [UTZ] is a four-storey building for office and laboratory use with flexible usage possibilities. The building was designed as a reinforced concrete frame construction in
pre-fabricated parts with concrete cores. The ceiling construction is developed as a suspended ceiling for installations and night cooling. Its span width straddles Vierendeel trusses set 2.40 m apart, the bottom ceiling panels create suspended pre-fabricated panels with an exposed concrete surface, and the top ceiling is a slab concrete ceiling. This construction is F90-compliant. The outer layer of the suspended ceiling forms the required escape balcony in front of all office and laboratory rooms, in accordance with fire protection regulations.

The extension grid for partition wall systems and facades is 1.20 m. The storey height is 4.450 m and the clear storey height 3.000 m.

The façade was designed as a wooden window façade made from larch wood, with
floor-to-ceiling glazing, thermally separated steel doors with windows and tilt&turn hardware, as an escape door leading to the protruding escape balconies. Top light on the doors made using a slat construction technique.

Building entrances

The entrances to the individual parts of the building are located at the eight stair cores. Clear passage width of around 950 mm. The entrance doors are flush panelled aluminium elements with wooden handles. Next to the doors are the company signs made out of punctiform acrylic panels to accommodate labelled transparent foil strips, as well as an intercom system with a keyboard for entering codes.

Stair cores

The stair cores were generally designed as exposed concrete constructions. The individual cores contain the necessary internal staircases, and cores 1, 4 and 6 contain lifts equipped for disabled people, toilets for ladies and gentlemen, and electrical

sub-distribution boards. The floor is made of ashlar stone slabs. The doors to the stairwell are made of a steel frame construction with glazing.

Stairwell

Prefabricated flights of stairs in reinforced concrete with integrated slip protection, steel banisters with wooden handrail, span width approx. 1.10 m, 2 x 12 steps 18.5 x 27 cm.

Access to offices

Double-leaf steel frame doors and glazed side section filled with satinised glass, designed as a portal construction with closed side sections made of varnished fibre cement panels. Doormats flush with the floor. Company signs made out of punctiform acrylic panels to accommodate labelled transparent foil strips. Doorbell.

Building Specification 02

Office and laboratory rooms

Completely open floorplan layout between the cores throughout the column-free construction between the facades and the installation within the suspended ceiling. Division into the classic

two-room layout is also possible, as is the configuration of combination or open-plan offices. Office or laboratory partition walls can be added in the 1.20 m extension and façade grid.

- Walls

The partition walls were designed as a post and beam construction with plasterboard panelling and abrasion-resistant emulsion coating in accordance with the DIN 53778 standard. Base made of floor covering materials, synthetic rubber attached to the floor covering in a watertight manner. For the façade windows see the building structure.

- Floor covering

Synthetic rubber covering with impact noise reduction, light grey colour, characteristics in accordance with data sheet.

- Ceiling

Exposed concrete ceiling with standard outlets for laboratory ventilation, light installation and electrical wires in the partition walls. The

non-used ventilation outlets are covered with concealed covers made of coated sheet metal.

- Doors

Steel wrap-around frames with shadow groove, painted white, office doors with top light, clear passage width of around 810 mm. Laboratory doors in T30 design with glass cut-out, clear passage width of around 940 mm, opening onto the corridor (1 escape route). Flush-fitted wooden doors, natural ash with clear lacquer.

- additional room setup

Floor ducts in the office rooms near to the outer doors, 3.60 m clearance.
Suspended lighting.
Room height tube radiators in the escape door area.

Escape balconies

Angular

pre-fabricated reinforced concrete part with exposed concrete finish.

Steel railings with stainless steel handrail, railing infill with horizontal stainless-steel sides.

Sun shading

The south-western and south-eastern sides have a movable sun shading made of combined horizontal and vertical sun shading elements. The vertical, storey-height elements are composed of perforated aluminium panels which are mechanically operated and can be locked into a summer position and winter position. It can be horizontally positioned for the steep south-facing midday sun. Aluminium grates are positioned in front of the escape balconies.

Building Specification 03

Technical features

On the north-western side, Nernststrasse, in front of the meander, there are two large laboratories with a clear room height of 7.450 m. The front sides have floor-to-ceiling windows. The construction grid (span distance) is 7.200 x 13.450 m.

- Flooring

Composite screed with surface treatment, colour-treated.

- Entrance doors

Double-leaf steel doors, clear passage width (width x height) of around 1.820 x 2.790 m.

-

3-storey installation

Ground floor: washrooms and changing rooms, as well as men's and women's toilets.
First floor: Seven think tanks per technical centre with a view (glass wall) into the technical centre, access via mounted steel construction with single-run metal grid staircase.

Second floor: Ventilation system for the technical centre.

- additional setup

Service lift to the storage room in the basement, lift area approx. 1.400 x 2.400 m, clear door width approx. 1.300 m. Utilities connection possibilities for water, gas, compressed air, water vapour and wastewater. Possibility to connect digesters to the air extraction system. Crane track in the technical centre,

5-tonne carrying capacity.

Entrance hall

The entrance hall of the UTZ is accessed via Volmerstrasse. Several uses are envisaged for the ground floor.
Cafeteria for around 100 persons, WISTA administrative offices, meeting rooms for 199 persons with a cloakroom, exhibition area, free-standing lift and single flight of stairs to the air quality measuring station on the roof of the building, disabled toilets.

- Floor covering

Dourit natural stone in the hall area, oak parquet in the cafeteria, carpet in the meeting room.

Annex 2: Technical Features

Centre for Environmental Technology, Biotechnology and Energy Technology

Standard laboratory

Technical equipment / media	Services provided by the Lessor	Services provided by the Lessee
Cooling	Cold water $_{2}$ / $_{tv, tr}$ 13/18 $_{b}$ C 150 W per m of laboratory space Cold water supply in the suspended ceiling in the form of connection elements	Supply, laying and connection of cold-water pipes inside the suspended ceiling up to the lessee consumers.
Natural gas	Natural gas supply in the suspended ceiling, in each case on the duct outlet in the form of a connection pipe	Supply, laying and connection of the gas supply from the connection elements inside the suspended ceiling up to the lessee consumers, including gas meters.
Water	Cold water supply inside the suspended ceiling in the form of a water pipe. No supply of: • hot water • distilled water • demineralised water • soft water	Supply, laying and connection of the pipelines from the lessor's water supply in the suspended ceiling up to the lessee laboratory equipment, including water meters.

Laboratory water	Provision of wastewater pipe inside the suspended ceiling No floor drains.	Supply, laying and connection of the wastewater pipelines from the lessor’s wastewater pipeline inside the suspended ceiling up to the lessee wastewater consumers. No discharge of water-polluting substances (e.g. contaminated or infectious materials) into laboratory water; these hazardous materials must be disposed of under the lessee’s own responsibility (in some circumstances, hazardous waste). Monitoring and cleaning measures must be taken when handling hazardous materials.

WISTA-MANAGEMENT GMBH

Berlin Adlershof
City for
Science,
Business and
Media

Technical equipment / media	Services provided by the Lessor	Services provided by the Lessee
Electricity supply Communications equipment	Laboratory entrance doors. Potential equalisation line in accordance with VDE standard 0100 Part 701. Electricity supply for laboratory benches from the suspended ceiling (distribution box) with three-phase current 230/400 V, including electricity supply up to the bottom edge of the laboratory ceiling. In 3.60 m increments, a floor power feeder pillar (round), wet room type design, with screed canal system. Following connection possibilities for each floor power feeder pillar: • 3 x shockproof plug socket (230 V mains power) • 1 electronic data processing shockproof plug socket (230 V mains power) • 1 telephone socket • 1 data connection Security lighting for corridors. No central emergency electricity supply.	Laying of potential equalisation line on the laboratory benches. Laboratory equipment and connection of same. Where required, lessee’s own UPS system. 1 x electric laboratory distributor in the laboratory composed of • Connecting power of approx. 18-20 kW • Protection for emergency shutdown • Residual-current device • Three-pole fuse switch disconnectors with all pins able to be disconnected • One-pole circuit breaker EMERGENCY SHUTDOWN switch for laboratories.

Lighting	For each room module, direct pendant lights on the ceiling. For laboratory entrance doors, a switch point with surge relays (inside and outside area separate). In the event of several laboratory entrance doors, a switching point with current surge relay (inside and outside area separate).

Ventilation	Mechanical air inflow and outflow: 25 m^3/hm^2 in accordance with DIN 1946, part 7 2 Separate extracted air from fume hoods. For every 40 m_3 of laboratory space, two fume hoods with max. 450 m /h of extracted air each can be provided for. Corresponding vents for fume hood extracted air are provided under the ceiling according to requirements. The exhaust duct system up to the extracted air vents are made of stainless steel (material no. 1.4541 V2a).	Fume hoods including particulate air filter. Supply, laying and connection of exhaust ducts inside the laboratory space.

4.4 Supply and laying of the water and wastewater pipeline in the suspended ceiling

- Galvanised steel water pipe with meter according to WISTA requirements
- PPS plastic wastewater pipe including installation in the laboratory area

4.5 Sealing of the pipes in the area of the floor ducts

4.6 Create connections in the laboratory, including isolation valve for water

WISTA-MANAGEMENT GMBH

Berlin Adlershof
City for
Science,
Business and
Media

5. Ventilation systems, digester connection from the suspended ceiling above

5.1 Define connection point in the laboratory
Air flow rate, position

5.2 Agreement with building operator

- is the air flow capacity available
- which pollutants can be removed

(stability of the duct)

5.3 Punching out of the nearest blind connection.

5.4 Supply and laying of the ventilation pipes: galvanised steel pipes including the “laboratory control system” in the suspended ceiling, including installation in the laboratory.

5.5 Connection of the laboratory control system to the control and regulation technology construction work.

Completion of data points in the building control system

5.5. Fitting of the ventilation pipes in the laboratory and connection to the digester/outlet.

General:

The works mentioned above must be carried out by a professional company.

The works must be coordinated and monitored by WISTA.

We recommend arranging for the works to be carried out by the same company awarded the contract for maintaining the systems.

DIRECT DEBIT AUTHORISATION

I (we) hereby authorise Adlershof Facility Management GmbH, representing the owners, until revocation, to debit the payments for the leased property when due, via direct debit from my account specified below, from _____ [date].

Property: _____

Address: _____

Customer number: _____

Account holder: _____

Account number: _____

Sort code: _____

Banking institution: _____

If my (our) account does not contain the necessary funds, my bank is under no obligation to honour the payment.

Berlin, on

Signature of account holder

Annex to the Lease

between	Jerini Peptide Technologies GmbH
and	WISTA-MANAGEMENT GMBH

Acknowledgement of the House Rules

These House Rules constitute a component of the lease specified above. Where necessary, the Lessor reserves the right to amend and supplement these House Rules in the interest of the Lessee.

Such amendments and supplements shall also constitute a component of the lease once notified to the Lessee.

The Lessee acknowledges that it is bound by the House Rules. A breach of the House Rules constitutes usage of the leased property in breach of the lease.

In serious cases or in the event of a repeated breach, the Lessor may terminate the leasehold without giving notice. The Lessee is liable to compensate for all damage caused to the Lessor as a result of a breach or
non-compliance with the House Rules, and in particular non-compliance with the reporting obligations.

General Provisions on Orderliness

The Lessee must use the leased areas only in accordance with the lease, clean them properly and ensure suitable ventilation. The noise and environmental control regulations must be carefully complied with. The other lessees must not be inconvenienced by gas, odours, smoke, soot, etc. The Lessee shall be liable for any violations.

The floors in the leased areas and the stairwell must be maintained in such a way as to ensure that no damage is caused. Indentations must be avoided by providing appropriate underlay.

No objects whatsoever may be placed or stored outside the leased areas, i.e. in and/or on the communal rooms and areas.

If the Lessor grants a special authorisation in this regard, the Lessee shall be liable for all resulting damage. Outside of the leased areas, i.e. also in the courtyard, no works may be undertaken by the Lessee. Vehicles belonging to the Lessee and its employees may only be parked with the Lessor's permission and in the designated spaces. Vehicles belonging to other persons may only park on the property for the time

If the Lessee completely or temporarily moves out before expiry of the lease, it shall be obliged to provide the keys to the Lessor or its agent. This shall apply even if it has left items in the rooms, but it is clear from the quantity or condition of the left items that the Lessee intends to leave the premises permanently. In this case, the Lessor shall be entitled to take possession of the leased areas before they have been permanently vacated.

Lessee's Duty of Care

The Lessee has the following obligations, among others:

- Comply with its traffic safety obligation and ensure that no damage is caused to third parties through the use of communal areas (entrances, stairwells, lifts, courtyards, entrances, parking spaces and gates),
- Keep floors dry and ensure they are treated appropriately,
- Avoid damage to gas, water supply and water discharge systems, electrical systems and other equipment in the building, and blockages in the gas and water discharge systems,
- Notify any malfunctions in these systems immediately,
- Ensure that doors and windows are kept properly locked in the event of inclement weather, during the night and during absence,
- Avoid wasting light in communally used areas of the building and avoid wasting water,
- Clean cellar light wells and windows if these are located within the leased cellar. In the same case, ensure proper ventilation of cellars and lofts to the same extent required for the whole building cellar or loft, and also ensure that windows are closed at night and when it is cold and wet,
- refrain from making any amendments to the leased property unless the Lessor has given its written permission, and in particular refrain from making amendments to installations including electrical power lines and inserting nails (screws), hooks, etc. into wooden cladding of any kind,
- Ensure strict compliance with the rules – to be requested from the Lessor – concerning

necessary for loading and unloading. In the event of non-compliance with these rules, the Lessor may claim an appropriate fee from the Lessee, without prejudice to its additional rights.

Cycling is not permitted in the courtyards and entrances.
Animals may only be kept with the Lessor's permission, which may be withdrawn at any time.

- The entrances shall remain closed from 18:00 to 06:00. During this time, the Lessor does not have to provide lighting in the stairwells and corridors. The building is *neither open nor lit* on Sundays and public holidays.

the operation of lifts, hot water preparation, positioning of furnaces, etc.

Ensure proper care and handling of all keys and accessory parts,

Ensure sufficient heating, ventilation and accessibility of the leased premises and ensure that taps are turned off, especially during temporary water stoppages and also during long absences of the Lessee,

In the event of heavy frost, the water pipes must be properly emptied. The Lessee must also ensure that toilet bowls, toilet cisterns and other systems are emptied,

Any absence shall not release the Lessee from its obligation to take the necessary measures against frost.

Fire protection regulations

All general technical and official regulations, particularly those laid down by the building supervisory authority and fire service, must be complied with.

Naked flames and smoke are not permitted on the floor or in the cellar. Cellars and lofts must not be used to store highly flammable materials such as paper, packing materials, petrol, fuel etc. Combustible materials must be properly stored: combustible materials may not be stored in loft rooms. All official regulations, especially those regarding storage of flammable materials, must be observed and complied with by the Lessee.

All gas pipelines and installations must be continually checked for leak-tightness. In the event of suspected gas odours, the main
shut-off valve must be closed immediately and the plumber or gas plant emergency line notified, as well as the Lessor or its representative! - In the event of prolonged absence of the Lessee, the isolation valve on the gas meter must be turned off.

Central heating and hot water supply

Any existing central heating systems shall be operated appropriately if required by the outside temperature.

As a guideline, the primarily used rooms shall be heated to

- + 20 °C. For rooms which have been amended at the request of the Lessee or cannot be guaranteed if there is a restriction of the fuel supply, or if disturbances are caused by natural phenomena or an interruption of the peace in general within the Lessee's own company or within other companies.

Any existing hot water systems shall be operated in the proper manner, and more specifically in such a way that the temperature of the tap water does not fall below

- +19 degrees Celsius. The previous paragraph shall also apply accordingly.

by the Lessee through installations and additions, this heating cannot be demanded. While the heating is on, the Lessee must keep doors and windows properly closed, even in non-heated rooms. Necessary ventilation must not result in the rooms becoming cold. To avoid any freezing, valves must not be set to “cold” in the event of frost. Between 1 May and 30 September there is no entitlement to heating. A certain temperature

Loan agreement
dated 21.11.2017
for a repayment loan of
EUR 10,000,000.00
from the
KfW energy efficiency program – Energy-efficient construction and renovation (276)

between

BioNTech Innovative Manufacturing
Services GmbH
Vollmersbachstraße 66
55743 Idar-Oberstein

(“Borrower”)

and

Deutsche Bank AG
Business in Germany
Ludwigsstraße 8 - 10
55116 Mainz

(“Bank”)

the following agreement (“**Loan Agreement**”) has been concluded for the granting of a repayment loan (“**Loan**“):

[Copy for the Bank /~~Copy for the client~~]

§ 1 LOAN

(1) **Loan amount**

The Bank is granting the Borrower a repayment loan (**"Loan"**) in the sum of **EUR 10,000,000.00** (in words ten million Euro) (**"loan amount"**).

(2) **Term**

This Loan has a term until 30.12.2027 ("**final due date**").

(3) **Purpose**

The Loan serves to finance a

new-build and extension of a laboratory building under the loan application of 23.05.2017.

Investment project in the area: KfW Efficiency House 70
Investment site: Vollmersbachstraße 66 in Idar-Oberstein, Stadt, Birkenfeld District

Investment plan in EUR:		**Finance plan in EUR:**	
Commercial building costs	[***]	KfW energy efficiency program	[***]
Machinery, equipment, fittings, vehicles	[***]	Capital	[***]
Total	[***]	Total	[***]

(4) **Account**

The Loan will be credited to the account Nr. [***] of the Borrower.

(5) **Refinance**

The Loan is being refinanced by KfW in order make possible the interest conditions agreed in this Loan Agreement.

(6) **Definitions**

"Banking day" is any day (with the exception of Saturday and Sunday) on which commercial banks are open to the public for business in Frankfurt/Main.

"Financial liabilities" are all liabilities from (i) borrowings (ii) issued letters of credit and accepted or issued bills (iii) the issue of bonds, "commercial papers" or other debentures, (iv) lease contracts that under the applicable edicts of the Federal Ministry of Finance or the respective tax or balance sheet provisions of the Jurisdictions regulating the lease contract, are to be treated as finance [operating] leases, (v) the sale of receivables where recourse against a member of the company group of the Borrower cannot be ruled out (recourse factoring), (vi) trade accounts payable when a payment schedule is granted that lies outside the common industry practices, (vii) derivatives, whereby when calculating the value of a derivative transaction only the

"mark-to-market value" is taken into consideration, (viii) recourse liability in respect of third party sureties, guarantees, bonds, letters of credit or other financial instruments, where such are not included

twice in the balance sheet concerned since the respective principle debt is already accounted for, (ix) other transactions when these have the economic effect of a borrowings as defined in paras. (i) to (viii), (x) a guarantee, surety or other

co-liability for one of the liabilities cited in paras. (i) to (ix) liabilities, and (xi) pension provisions.

§ 2 - LOAN DRAW-DOWN

(1) **Drawings**

The Borrower may draw down the Loan from the effectiveness of this Loan Agreement up to and including 21.11.2018 ("**draw-down deadline**") provided the draw-down requirements under § 3 are satisfied (any such event hereinafter a "**drawing**"). Any part of the loan amount not drawn down within the draw-down deadline lapses.

(2) **Notice of draw-down**

The draw-down of the Loan takes place in one/several drawings on the basis of an irrevocable notice or notices of draw-down by the Borrower.

The notice of draw-down must be received by the Bank at the latest at 10.00 on the fifth banking day before payment and shall specify the date of payment, the amount and the account in which the draw-down is to be made available.

§ 3 – DRAW-DOWN REQUIREMENTS

The Borrower may draw-down the Loan as soon as all the following agreed requirements are satisfied and one or more have not subsequently lapsed and provided and as long as no important reason exists entitling the Bank to extraordinary termination of this Loan Agreement or that would provide such right of termination after an additional deadline and/ or warning.

(1) The Bank has all the following documents and evidence in satisfactory form and the corresponding evidence has not subsequently proved to be incorrect:

(a) All the details required under the Federal Money Laundering Act (GwG) regarding the financial beneficiaries (§ 1 para. 6 GwG);

(b) Declaration by the Borrower on the use of the funds within the framework of this agreement;

(c) All the documents required to open and manage the account, signed with legal effect by the management of the Borrower;

(d) All the agreed securities have been validly constituted.

(2) The Borrower is not in default towards the Bank in the satisfaction of a due claim.

The Bank may make payment without all payment requirements having to be satisfied. The obligation of the Borrower to satisfy the payment requirements remains thereby unaffected unless the Bank has waived satisfaction of specific payment requirements in writing.

§ 4 – AMORTISATION / REPAYMENT BONUS

The Loan is repayable in 32 equal consecutive instalments of EUR 312,500.00. The instalments are payable quarterly in arrears on 31.03., 30.06., 30.09. and 31.12; the first instalment is due on 31.03.2020, the last instalment is due on 30.12.2027.

If the Borrower has not, by the time of expiry of the draw-down deadline, drawn down the entire loan amount the respective last loan instalment is reduced by the difference and the loan term where applicable is reduced accordingly.

§ 5 – INTEREST / COMMISSIONS / PAYMENTS

(1) Debit authorisation

The Borrower herewith instructs the Bank to debit any due repayment amounts, interest, costs, payments, expenses and commissions against the Borrower's account [***].

(2) Commitment fee

From 21.11.2018 (exclusive) up until expiry of the drawn-down deadline the Bank shall charge, on the outstanding loan amount a commitment fee of 0.25% per month; this shall be paid quarterly in arrears.

(3) Interest

The interest rate is fixed for the entire term and amounts to **2.15% p.a.** The interest provisions of Clause 14 para. 4 AB-KfW are expressly referred to. By way of deviation from the 3-month deadline in the 4th bullet point, a period of 6 months is agreed.

The interest is charged on the basis of 30/360 days. It becomes due at the end of each Quarter.

6 – SECURITIES

The creation of the following additional securities has been agreed:

•	First-priority land charges for of EUR 10,000,000.00 on Betriebsimmobil *("commercial property")* in 55743 Idar-Oberstein, Idar-Oberstein Land Register Page 14961
•	Indefinite directly enforceable guarantee by BioNTech AG in the amount of EUR 10,000,000,00,
•	Loan maintenance and subordination agreement in respect of an existing shareholder loan of EUR 8,000,000.00 and the new loan of the shareholder or sister companies serving the co-financing of the investment.

Individual details, in particular concerning the security purpose, are regulated in the security agreements.

§ 7 – GENERAL OBLIGATIONS

The Borrower, under the Federal Money Laundering Act (GwG) is obliged to give the Bank, where this has not already taken place, all the details required under this Law regarding the financial beneficiaries (§ 1 para. 6 GwG) and immediately and without being so requested to report any changes arising over the term of this Loan Agreement (§ 4 para. 6 and § 6 para. 2 Nr. 1 GwG). On request by the Bank the Borrower shall give the Bank the documentation and information required to ascertain and check such details.

The Borrower, until complete satisfaction of all the claims of the Bank from draw-down under this Loan Agreement, further assumes the following obligations:

(1) Information

The Borrower shall continually update the Bank regarding its financial situation and, where applicable, the financial situation of its group of companies.

In this regard it shall provide the Bank in particular with its latest annual accounts plus notes and management report and a consolidated annual account (consolidated balance sheet, consolidated P&L account and consolidatednotes) together with a consolidated management report on the Group including the respective auditor's reports immediately on completion, at the latest however within 9 months of conclusion of the respective financial year, in the original and at least having the scope legally required. Where the annual accounts do not have to be certified, the Bank shall be given copies bearing the legally-binding signatures of all directors or all liable partners.

Moreover the Borrower shall provide the Bank with quarterly business evaluations, liquidity figures, balance sheet status and target-performance analyses.

Moreover the Borrower shall provide the Bank with its annual budget by 31st January of each calendar year.

Further documents providing an

up-to-date view of the financial situation and information on the latest income and asset situation of the guarantors shall be submitted by the Borrower on request.

Where documentation is submitted by the Group parent company of the Borrower or its tax advisers or auditors, the Borrower herewith declares that these are authorised to confirm that the submitted documents are true and faithful copies of the originals in its name and to recognise the submitted documentation as binding on it.

The Borrower shall immediately notify the Bank should any information or documentation provided (also planning and forecasts) show significant negative changes or deviations or should it transpire that there are indications that the information or documentation supplied was incomplete or incorrect.

(2) **Use of credit funds**

The Borrower shall immediate demonstrate to the Bank through suitable documentation that it has used the drawn-down funds within six months of payment for the agreed purpose and that the agreed usage continues to exist.

The Borrower shall prove the scheduled and punctual use of the funds to the Bank within nine months of complete payment of the Loan and submit the "Confirmation after execution of the investment measure KfW-energy efficiency program – energy-efficient construction and renovation (276, 277, 278)" according to the attached KfW-Form (Number 600 000 3413) via the Bank to KfW, signed by it and the expert.

The Bank is not contractually-obligated to the Borrower to monitor compliance with the Loan purpose.

(3) **Change in shareholder structure**

The Parties are agreed that the current shareholder structure constitutes an important basis for the willingness of the Bank to grant this loan and the authorisation of all draw-downs under the same. In the event of any change in the shareholder structure the Parties shall reach a mutually-satisfactory agreement on the continuation of this Loan Agreement, where applicable subject to amended conditions, for example regarding interest, securities or other agreements before such a situation arises.

(4) **Credit agreements with other credit institutions**

The Borrower shall inform the Bank of any new loan agreements that exceed the amount of EUR 500,000.00 or if there are significant changes to its current loan agreements with other credit institutions (for example increase, termination or collateral requirements), where these are the subject of negotiations, where possible in advance, otherwise immediately thereafter.

§ 8 – EXTRAORDINARY RIGHT OF TERMINATION

An important reason entitling the Bank to extraordinary termination of this Loan Agreement under Nr. 19 para. 3 AGB in particular exists when:

(1) A circumstance as cited in Nr. 11 para. 1 der AB-KfW is satisfied, or

(2) The Borrower fails to satisfy the general obligations or other essential obligations agreed under this Loan Agreement or fails to comply with the security agreements concluded in connection with this Loan Agreement or

(3) A change takes place to the shareholder structure and the Parties do not promptly agree to the continuation of any changed conditions, for example regarding interest accrual, securities or other agreements or

(4) The Borrower fails to or cannot satisfy its financial liabilities towards third party credit institutions on becoming due or third party credit institutions prematurely call in or could call in such financial liabilities on the basis of a reason for termination where the financial liabilities concerned exceed a sum of EUR 100,000.00 (or the counter-value in other currencies).

§ 9 – MISCELLANEOUS

(1) General Business Terms and Conditions

The following General Business Terms and Conditions constitute part of this Loan Agreement:

(a) General Business Terms and Conditions of the Bank ("**AGB**");

(b) General Terms and Conditions for Investment Loans of KfW – Contractual relationship between Bank—End Borrower—("**AB-KfW**") in the Version of 10/2015, whereby the AB-KfW in Clauses 14 para. 1 sub-para. 3 and 14, para. 4 sub-para. 1, 4th bullet point are amended such that the respective drawn-down amount are to be fully apportioned to the specified purpose within 6 months.

(c) Information Sheet "Energy efficiency in the company – Commercial buildings – KfW energy efficiency program – Energy-efficient construction and renovation (276/277 /278)" in the Version of 08/2016 ("**Information Sheet**") including the Annex "Technical Minimum Requirements" for the Information Sheet.

(2) Forward transactions

Where the Bank and Borrower, to secure the interest or currency risk under this Loan Agreement, conclude or have already concluded forward transactions – which the Bank is not obliged to do – the continued existence of these forward transactions is not affected by any termination of this Loan Agreement.

(3) Information disclosure

Where the Bank, for refinancing, risk hedging or capital relief, makes use of its right to transfer the credit risk or claims under this Loan Agreement or otherwise dispose of the same, the Bank is entitled to pass on borrower-related information to authorised recipients that by force of Law, contract or occupational or professional regulation are obliged to maintain confidentiality. Authorised information recipients are members of the European Central Bank system, credit institutions, development banks, financial service providers, finance companies, insurance companies, pension funds, capital management companies, special purpose vehicles founded for assuming credit risks and persons that for technical or legal reasons are to be involved in the transfer (for example auditors and rating agencies).

(4) Subsidy

According to KfW in its refinancing approval of 17.11.2017 the Loan receives no subsidy.

(5) Other KfW provisions

KfW continually receives all information on this Loan Agreement and its execution, moreover all information on the Borrower of relevance for the Loan and the Bank's internal rating of the Borrower. This data is processed by KfW and used to monitor the proper use of the funds and for statistical purposes.

The Borrower expressly agrees to this data being forwarded by the Bank to KfW.

(6) **Choice of Law and court of jurisdiction**

This Loan Agreement and all rights and obligations under the same are governed by German Law. The court of jurisdiction is Mainz. Moreover legal action can also be taken against each Party at their registered office.

(7) **Written form**

Changes to this Loan Agreement must be made in writing.

(8) **Offer deadline / Validity of agreement**

(a) The Bank considers itself bound by the offer submitted with this Loan Agreement until 20.12.2017 ("**offer deadline**").

(b) This Loan Agreement takes effect on receipt of the agreement signed by all the parties within the aforesaid offer deadline.

(9) **Severability clause**

Should individual provisions of this Loan Agreement be or become wholly or partly – for whatever reasons – void or invalid or unworkable, this shall not affect the other provisions of this Loan Agreement.

Declaration pursuant to the Federal Money Laundering Act:

The Borrower guarantees the Bank by crossing or initialling that it is solely drawing down the funds granted under this Loan Agreement for its own account.

General Terms and Conditions for Investment Loans
- Contractual relationship Principal Bank—End Borrower -

For KfW investment loans the following General Terms and Conditions for Investment Loans in the Version for the contractual relationship between Principal Bank—End Borrower

(AB-EKN) up to and including Clause 13 applies. For ERP loans and loans refinanced or subsidised from public budgetary funds, the special provisions of Clause 14 apply in addition. For loans where the Principal Bank is granted liability exemption on the basis of a national or state guarantee, the special provisions of Clause 15 additionally apply.

1. Use of funds

(1) The Loan may only be used to finance the project for which the Loan was approved. The credit institution closing the Loan Agreement with the End Borrower (hereinafter the "Principal Bank") must be informed immediately if the investment project or its financing change.

(2) The End Borrower shall immediately and without being requested provide the Principal Bank on conclusion of the investments with evidence regarding the use of the loan funds and the satisfaction of any conditions.

2. Draw-down of funds

1)	The draw-down of the Loan – where applicable in partial amounts – from the Principal Bank may only take place when this latter, within an appropriate deadline, can be apportioned for the specified purpose. Should it transpire after payment that correct use of the funds is not possible, the corresponding sums are to be immediately repaid to the Principal Bank for forwarding to KfW. Renewed draw-down is possible when the aforesaid requirements are satisfied. Sub-paras. 2 and 3 of this paragraph do not apply if the Loan does not exceed the sum of 25,000 Euro. Sub-paras. 2 and 3 of this paragraph also do not apply for the last payment instalment of a loan when this does not exceed the sum of 25,000 Euro. The Principal Bank is entitled to set appropriate minimum draw-downs.
2)	Loan amounts may only be drawn down by natural persons as commercial or freelance end borrowers when these have demonstrated their power to manage and represent the company or law firm, the practice or comparable to the Principal Bank.

3)	Should grounds exist providing entitlement to terminate the Loan Agreement, the Principal Bank may refuse payment of the loan funds.

3. Interest schedules

The Loan shall accrue interest at the agreed rate. Interest calculation takes place applying the German business interest method (30/360 Method). Interest payments are due quarterly in arrears on 31st March, 30th June, 30th September and 30th December of each year, unless the Loan Agreement specifies otherwise.

4. Costs and expenses

The costs and expenses of the directly-refinanced credit institution and the Principal Bank are settled with the interest rate and the program-dependent processing charges paid by KfW. Regardless of the provisions of sub-para. 1 any possible claim of the directly-refinanced credit institution or Principal Bank to reimbursement of expenses is regulated by the provisions of the Law. Compensation for non-acceptance or early repayment may only be charged when KfW has concluded a corresponding regulation. Where a charge is possible, this shall be made by the Principal Bank.

5. Repayment

1)	The repayment instalments or annuities are due on the dates given in the Loan Agreement. Where with payment a deduction is made from the nominal amount of the Loan, the deduction amount is a fee demanded by KfW independent of term, which is not reimbursed in the event of premature redemption of the Loan.
2)	Loans with a 100% payment can only be repaid early to the Principal Bank against payment of an early prepayment penalty to the Principal Bank unless expressly agreed otherwise. Loans with a payment of less than 100% may be repaid early partly or wholly at any time during the first fixed-interest period by giving 10 banking days' notice to the Principal Bank. Legal rights of termination remain unaffected by the above provisions. Any levied prepayment penalty may be charged by the Principal Bank within the legally-permitted framework.
3)	Unscheduled partial repayments are fundamentally set-off against the last repayments or annuities due under the redemption plan unless otherwise agreed with the End Borrower.

6. Default

Should the End Borrower be in default on its payment obligations, the Principal Bank is entitled to claim default interest in accordance with the provisions of the Law.

7. Securities

1)	The Principal Bank assigns the claims deriving from the granting of the Loan against the End Borrower on their coming into existence to KfW. The Principal Bank is entitled to collect the claims assigned to KfW until KfW declares the cancellation of this collection authorisation. The Principal Bank is moreover entitled to assign the securities created for the Loan to KfW. After the security assignment to KfW the claims concerned are regulated by the security purpose agreed between the Principal Bank and End Borrower. Securities provided or created in future by the Principal Bank for a KfW-refinanced Loan of the End Borrower serve – where a further purpose has been or will be legally agreed – to secure all credit claims of the Principal Bank assigned or to be assigned in future to KfW against the End Borrower. This also applies when the security is provided by a third party.

2)	The securities agreed for this Loan may not be used as a priority to secure other Principal Bank loans. Other securities given or to be given in future to the Principal Bank by the End Borrower or to a third party for loans to the End Borrower not refinanced by KfW serve – where a further purpose has been or will be legally agreed – subordinately to secure all credit claims of the Principal Bank against the End Borrower assigned or to be assigned to KfW.

8. Right of audit

The KfW is entitled to inspect business records and books of account at the End Borrower, inform itself of the latter's asset situation and monitor the use of the loan funds under Clause 1 para. 1 on site. KfW may have these audits executed by a third party acting on its behalf. The costs of these audits shall be borne by the End Borrower, provided there is no agreement otherwise. KfW shall ensure that any third party it engages shall also maintain confidentiality regarding such information.

9. Information obligations

The End Borrower is obliged to notify the Principal Bank of any significant events that may influence the purpose of the Loan or adversely affect service of the same. The Principal Bank is entitled to forward the information to KfW.

10. Submission of annual accounts

Where not otherwise agreed, the End Borrower is obliged to submit its annual accounts with the necessary explanations only on request of the Principal Bank or KfW. In the event of delay in the preparation of the annual accounts, the End Borrower shall initially submit the provisional figures.

11. Termination for important reason

(1)	The Principal Bank is entitled to terminate the Loan for immediate repayment at any time for an important reason completely or for a partial amount, in particular when
a)	The Loan has been illegally acquired, is not used for the specified purpose or the End Borrower regardless of an additional deadline set by the Principal Bank has not enabled an audit of the use of the funds complying with the specified purpose,
b)	The requirements for it being granted have changed or are subsequently no longer satisfied (for example sale of the co-financed business or parts thereof, change in ownership or stake holding),
c)	The End Borrower has provided incorrect details regarding its financial situation,

d)	The End Borrower is in breach of an obligation assumed under the Loan Agreement,
e)	There is a significant worsening in the financial situation of the End Borrower or the valuation of a provided security or such is threatened and as a result the repayment of the Loan, even realising the securities, is placed at risk,
f)	The scale of the overall outgoings estimated in the investment plan and scale of eligible costs is reduced or the percentage of public finance increases.

Should the important reason consist of the breach of a contractual obligation, termination may only take place after unsuccessful expiry of an additional deadline or warning, unless one of the grounds cited in § 323 para. 2 BGB does not exist.

(2) In the event of partial termination (reduction) the repaid amount is fundamentally set-off against the outstanding repayment instalments or annuities (proportional to the residual term of the Loan), unless otherwise agreed with the End Borrower.

12. Provision of information

The Principal Bank is entitled to give KfW or a third party authorised by KfW unrestricted information, allow them to inspect documentation and, for documentation purposes, provide the documentation. The provisions of this paragraph also apply for electronic archiving.

13. Limitation of applicability

If the General Business Terms and Conditions of the Principal Bank are incompatible with these General Terms and Conditions, the latter shall take precedence.

14. Special terms and conditions for ERP loans and loans refinanced or subsidised from public budgetary funds

For ERP loans and loans refinanced or subsidised from public budgetary funds, the following additional special provisions shall apply, unless the Loan Agreement specifies otherwise:

1)	The Loan may only be drawn down pro rata with the other funds provided for in the finance plan. Only where the latter is not available can the loan, by way of exception, also be used earlier. The draw-down of the Loan – where applicable in partial amounts – may only take place when the requested sums can be apportioned to the specified purpose within 3 months. Should it transpire after payment that punctual use of the funds is not possible, the corresponding sums must be immediately repaid to the Principal Bank for forwarding to KfW. Renewed draw-down is possible when the above requirements are satisfied. Sub-paras. 1, 4 and 5 of this paragraph do not apply when the Loan does not exceed 25,000 Euro. Sub-paras. 1, 4 and 5 of this paragraph also do not apply for the last payment instalment of a Loan when this does not exceed the sum of 25,000 Euro.

2) Should the costs of individual items of the investment plan be reduced by 20% or more, the saved funds may only with the prior permission of the Principal Bank be used to cover the increased costs of other eligible items.

3) The Supreme Court, under § 91 BHO is entitled to carry out audits. Moreover the competent Federal Ministries or their agents are entitled to carry out the relevant audits.

4) Interest premium

The agreed interest rate increases from the date following payment, to 5 percentage points above the respective base rate under § 247 BGB if the Loan is illegally obtained, is not used according to the specified purpose, the End Borrower, regardless of any additional deadline set by the Principal Bank fails to enable an audit of the correct specified use or the End Borrower does not use the funds within 3 months for the specified purpose and also does not repay the funds immediately to the Principal Bank.

If the prerequisites for the granting of the Loan have subsequently changed or are not satisfied, the interest rate increases to 5 percentage points above the respective base rate under § 247 BGB from the time of change or failure to satisfy.

Where the interest rate cited in the Loan Agreement is higher than the base rate plus 5 percentage points, the interest rate cited in the Loan Agreement shall continue to apply.

15. Special terms and conditions for Loans where the Principal Bank is granted liability exemption on the basis of a national or state guarantee

In the case of Loans where the Principal Bank is granted liability exemption on the basis of a national or state guarantee, the Federal Supreme Court under § 91 BHO or the respective State Court of Audit is entitled under state regulations to carry out audits. Additionally the competent Federal or State Ministries or their agents are entitled to carry out the corresponding audits.

KfW energy-efficiency programme – Energy-efficient construction and renovation

276/277/278
Loan
On behalf of
Federal Ministry of
Economic Affairs
And Energy

Partner of
Deutschland macht's
Effizient

Financing construction, the initial purchase and renovation of commercial buildings including the implementation of individual measures for improving energy efficiency within the framework of the "CO_2 Building Refurbishment Programme" of the Federal Government.

Subsidy aim

The funding programme serves the

low-interest long-term financing of measures for significant energy saving and reduction of CO_2 emissions in existing commercial buildings in Germany. Additionally the construction of KfW Efficiency Houses with low energy requirements and CO_2 emissions is funded. The interest rate is reduced for the first 10 years of the loan term from federal funding. For most purposes the projects are also assisted with government repayment subsidies.

Alongside the subsidising of

new-builds and the renovation of buildings under the KfW energy efficiency programme measures are co-financed in the area of production facilities/processes. Detailed information on this can be found in the KfW Information Sheet "KfW-energy efficiency programme – Production facilities/processes" (Order Nr. 600 000 3416).

Who can make applications?

- The Programme is aimed at domestic and foreign commercial companies (production, tradesmen, commerce and other service sectors) which are predominantly under private ownership
- The self-employed, for example doctors, tax consultants, architects
- Companies buying existing commercial buildings (first- acquisition)
- Companies providing (energy) services for a third party for commercial non-residential buildings under a contracting agreement.

What is subsidised?	**Subsidy** Content, requirements combination options
Subsidies are provided for:	
1.	The energy renovation of commercial non-residential buildings that achieve the energy level of a KfW Efficiency House for existing buildings.
•	KfW Efficiency House
•	KfW Efficiency House 100
•	KfW Efficiency House Monument
2.	The implementation of **individual measures** on the building shell and/or technical equipment to improve energy efficiency in existing commercial non-residential buildings.

KfW energy-efficiency programme – Energy-efficient construction and renovation

The following individual measures are subsidised:

a)	Insulation of walls, roof surfaces, storey ceilings and floor surfaces
b)	Renewal and treatment of windows, curtain walls, outer doors and gates (incl. loading stations)
c)	Measures to improve summer heat insulation
d)	Installation, exchange or optimisation of ventilation and a/c systems incl. heat/cold recovery and waste heat use
e)	Renewal and/or optimisation of heat/cold generation, distribution and storage incl. power/heat or power/heat/cold coupling systems
f)	Exchange and/or optimisation of lighting
g)	Installation or optimisation of metering, control and regulation systems and building automation

For architectural monuments the Annex “Technical Minimum Requirements” to the Information Sheet (Order Nr. 600 000 3418) defines exceptional rules for the heat insulation of outer walls and roof surfaces and window renewal.

3.	The **construction** of energy-efficient commercially-used buildings that achieve the energy level of a KfW Efficiency House for new builds.

The following levels are subsidised:

- KfW Efficiency House 55
- KfW Efficiency House 70

4. Also eligible for subsidy are all **other measures** required for the preparation, realisation and start-up of the measures subsidised in the Programme. These also include:

- Ancillary works, for example removal and disposal of old installations
- Planning costs constituting a necessary element of the construction
- Measures for regulating the subsidised system (metering measurement and adjustment of the control parameters including the hydraulic alignment of heat and cold distribution systems)
- Costs for energy management systems

Only buildings or parts of buildings that after completion or implementation of all measures fall under the sphere of applicability of the Energy Savings Regulation (EnEV) are eligible for subsidy.

Subsidisation takes place in accordance with the requirements of the applicable EnEV and the Annex “Technical Minimum Requirements” to the Information Sheet (Order Nr. 600 000 3418).

KfW energy-efficiency programme – Energy-efficient construction and renovation

Involvement of an expert **Expert**

Compliance with the technical minimum requirements and the savings of energy and CO_2, on application, to be quantified and confirmed by an expert in the Form "Confirmation for loan application KfW energy efficiency programme – Energy-efficient construction and renovation" (Form Nr. 600 000 3415).

An expert for the purposes of this loan programme is a person authorised under § 21 EnEV for
non-residential buildings.

We recommend the involvement of a quality-approved expert for
non-residential buildings from the experts list for Government funding programmes in the Category "Energy-efficient construction and renovation – non-residential buildings KfW") under www.energie-effzienz-experten.de.

Only the experts cited in the experts' list for Government funding programmes under www.energie-effizienz-experten.de under the Category "KfW Efficiency House Monument and architectural monuments and other structures particularly worthy of preservation" are authorised for renovation to the KfW Efficiency House Monument and renovation of architectural monuments to other KfW Efficiency Houses or individual measures on architectural monuments.

Excluded from subsidisation are:

- Leasing or renting for residential, non-profit or urban use and for use in agricultural primary production.
- Trust constructions.
- So-called self-dealings, for example purchase from the spouse or partner, asset transfers/movements between companies in the same group or within the framework of company demergers or between corporate entities and their shareholders.

Is a combination with other funding programmes possible?

The combination of a loan from the KfW energy-efficiency programme – Energy-efficient construction and renovation with other subsidies (loans or grants/subsidies) is fundamentally possible within the framework of the respective relevant EU subsidy limits, provided the total of the loans, grants or subsidies does not exceed the total of the eligible costs. The legal cumulation provisions must be complied with (cf. “General Information Sheet on Subsidies”, Order Nr. 600 000 0065).

Heat generating systems for the use of renewable energies are subsidised:

- Under the programme “Subsidisation of measures for the use of renewable energies in the heat market” of the Federal Department for the Economy and Export Control (BAFA) (www.bafa.de) or
- In the KfW programme “Renewable energies—Premium” (www.kfw.de/271).

The simultaneous draw-down of a KfW loan and of a BAFA grant for the same measure is not possible.

The simultaneous draw-down of the KfW loan and a grant under the Renewable Energies Act for the same eligible costs is not possible.

KfW energy-efficiency programme – Energy-efficient construction and renovation

Loan amount

Conditions
Loan amount, term
Interest rate, provision
Redemption

Up to 100% of the eligible costs are financed

The loan amount amounts to

- in general up to 25 million Euro per project.

This upper credit limit can be exceeded where the project is particularly worthy of subsidy.

Term

The following term variants are available with a minimum term of 2 years:

- Up to 5 years with max. 1 year grace period (5/1),
- Up to 10 years with max. 2-year grace period (10/2),
- Up to 20 years with max. 3-year grace period (20/3).

Interest rate

- The loan is granted with a customer-tailored interest rate within the framework of the maximum interest rate of the respective price class on the day of commitment.
- The interest rate is set taking into consideration the financial situation of the Borrower (creditworthiness) and the value of the securities provided for the loan by the credit institution.

Here classification takes place into KfW's creditworthiness and collateral classes. Through the combination of creditworthiness and collateral class the credit institution allocates the promotional loan to a price class given by KfW.

Each price class covers a band width with a fixed upper interest limit (maximum interest rate). The client's individual interest rate agreed between it and the credit institution may lie below the maximum interest rate of the respective price class. Information on determining the individual interest rate can be found in the KfW Information Sheet "Risk-adjusted Interest System", Order Nr. 600 000 0038.

- The interest rate is set for a maximum 10 year loan term.
- The price reduction from Federal funds applies for the first fixed-interest period, maximum 10 years.
- For loans with a term of over 10 years KfW will offer your credit institution, before the end of the fixed-interest period, an extension offer without price reduction from Federal funds.

The respective maximum interest rates (borrowing and effective interest rates under the Law) can be found in the overview of terms and conditions for KfW funding programmes on the Internet at www.kfw.de/konditionen or by fax under (069) 7431-4214.

KfW energy-efficiency programme – Energy-efficient construction and renovation

Provision/Commission

- The payment of the loan takes place at 100% of the commitment.
- The loan can be drawn down in one amount or in instalments.
- The draw-down period amounts to 12 months after loan commitment. In justified instances this deadline may be extended up to a max. 36 months.
- It should be noted that the respective amounts requested must be completely allocated within 6 months to the specified purpose. Should this deadline be exceeded the Borrower must pay an interest surcharge.
- For the undrawn loan amount, commencing 12 months and 2 banking days after the commitment date, a commission of 0.25% per month is due.

Repayment

Repayment takes place after expiry of the grace period in equal quarterly instalments. During the grace years only the interest on the paid-out loan amounts must be paid.

Unscheduled repayments may only be made against payment of a prepayment penalty.

Repayment bonus

On providing evidence of the attained KfW Efficiency House level per the loan commitment or compliance with the technical minimum requirements in the case of individual measures you will receive a repayment bonus.

The amount of the repayment bonus derives from a percentage of the commitment and a maximum amount per m^2 net area (areas covered by the sphere of applicability of the EnEV, calculated under DIN 277):

Renovation:

- KfW Efficiency House 70 17.5% of the commitment; maximum 175 Euro/m^2
- KfW Efficiency House 100 10.0% of the commitment; maximum 100 Euro/m^2
- KfW Efficiency House Monument 7.5% of the commitment; maximum 75 Euro/m^2
- Individual measures 5.0% of the commitment; maximum 50 Euro/m^2

New-build:

- KfW Efficiency House 55 5.0% of the commitment; maximum 50 Euro/m^2
- KfW Efficiency House 70 Only a subsidised loan is granted.

The crediting shall be made 3 months after the date of interest and/or redemption payments following the checking and recognition of the Form “Confirmation after execution” (Form number 600 000 3413) by KfW. The repayment bonus is calculated on the amount of the commitment at the time of acknowledgement of the “Confirmation after Execution” and

set-off against the last due instalments under the redemption plan (shortening of the loan term).

KfW energy-efficiency programme – Energy-efficient construction and renovation

Where at the time of crediting the loan is less than the amount of the credit amount, crediting of the repayment bonus only takes place to the amount of the actual loan amount. Cash payment or transfer of the repayment bonus is not possible.

How does one apply?

Application
Securities
Documents
Subsidy rules
Use of funds
Subsidy relevance

KfW grants the loans under this Programme exclusively through credit institutions (banks and savings banks), which fully assume liability for the loans. Please therefore submit your application to a credit institution of your choice before starting your project.

Prior to payment of the KfW refinance loan to the finance institution waiver of the loan is possible at any time. Should the Borrower waive a not-yet drawn-down loan, KfW can approve a new loan for the same project at the earliest after 6 months. An application is possible without a vesting period if the project is new or significantly altered.

Securities

Standard bank securities must be provided for your loan. The form and scope of the securities are agreed by you in the course of the credit negotiations with your credit institution.

What documentation is required?

Your credit institution presents us with the following documentation for your application:

- Your signed application form (Form number 600 000 0141). The credit institutions have the application forms. The Programme numbers to be given are:

- **276** for new-builds
- **277** for renovations and
- **278** for individual measures
- Statistical Supplement “Investments in general” (Form Nr. 600 000 0139)
- Confirmation of loan application—KfW energy-efficiency programme—Energy-efficient construction and renovation (Form Nr. 600 000 3415)
- For applications within the framework of the subsidy de-minimis regulation (Component 1): Annex De-minimis declaration by the applicant (Form Nr. 600 000 0075) on already-received de-minimis-subsidisation
- When applying for “Investment subsidies for SME” under Article 17 of the General Group Exemption Regulation (AGVO) (Component 2): Self-declaration on compliance with the KM Definition (for associated companies Form Nr. 600 000 0196, for non-associated companies: Form Nr. 600 000 0095). The self-declaration remains in the possession of the credit institution.

- When applying for “Investment subsidies for energy efficiency measures” under Article 38 AGVO (Component 4): Annex “Subsidisable additional investment costs” (Form Nr. 600 000 0270).
- When exceeding the loan limit of 25 million Euro a supplementary project description of the energy efficiency effects.

Information Sheet
Energy efficiency in the company

KfW energy-efficiency programme – Energy-efficient construction and renovation

KfW reserves the right to request supplementary documentation where this is required for processing.

State aid regulations

Under the "KfW energy efficiency programme – Energy-efficient construction and renovation" KfW grants subsidies under one of the following state aid regulations:

- De-minimis state subsidies under the De-minimis Regulation (Nr. 1407/2013/EU dated 18.12,2013, published in the Official Journal of the European Union L 352 on 24.12.2013) (Component 1).
- "Investment aid for SME" under Article 17 of the General Group Exemption Regulation (AGVO) (Commission Regulation (EU) Nr. 651/2014 dated 17th June 2014 on determining the compatibility of certain groups of subsidy with the internal market in application of Article 107 and 108 of the Treaty on the Functioning of the European Union, published in the Official Journal of the European Union L187/1 of 26.06.2014) (Component 2).
- "Investment aid for energy efficiency measures" under Article 38 AGVO (Component 4).

The various state aid regulations oblige KfW and applicants to comply with specific state aid regulations. Due to these regulations companies in specific branches and companies that have failed to comply with a state aid repayment decision of the EU Commission are not eligible for subsidy.

Where aid is requested under the AGVO, companies in difficulties as defined in the AGVO are excluded from eligibility.

KfW is obliged to publish loans with individual grants of over 500,000th Euro on a state aid subsidy website of the EU Commission under Art. 9 para. 1 lit. c) in conjunction with Annex Ill of Commission Regulation (EU) Nr. 651/2014 dated 17th June 2014 (Official Journal of the EU Nr. L 187 dated 26th June 2014) on determining the compatibility of certain groups of subsidy with the internal market in application of Article 107 and 108 of the Treaty on the Functioning of the European Union and under Clause 4.7 of the EU framework for state aid to promote research, development and innovation of the EU Commission dated 21st May 2014 (Official EU Journal Nr. C 198 dated 27th June 2014).

More detailed information on state aid regulations can be found in the KfW Information Sheet “General Information Sheet on Subsidies”, Order Nr. 600 000 0065.

Evidence of use of funding

After execution of the measures evidence of the proper use of the funds must be presented to the credit institution (Principal Bank) and within 9 months of complete payment of the loan presented to KfW in the Form “Confirmation after Execution” (Form Nr. 600 000 3413) as follows:

- The Borrower confirms the use of the funds in accordance with the application and programme.
- The expert checks the eligible measures and confirms the implementation of the subsidised project in accordance with the Annex “Technical Minimum Requirements” to the Information Sheet.

Information Sheet
Energy efficiency in the company
Commercial buildings

KfW
Responsible banking

KfW energy-efficiency programme – Energy-efficient construction and renovation

- The credit institution (Principal Bank) confirms the punctual use of the funds and submits the Form to KfW.

Invoices requiring safekeeping (cf. “Reportage and diligence duties of the Borrower”) must show the eligible measures, the work executed and the address of the investment property and be drafted in German.

Information and diligence duties of the Borrower

Within 10 days of loan approval you must preserve and submit to KfW on request:

- Evidence of the eligible investment costs
- Documents for documentation of the services provided by the expert (planning and project support)
- In the case of renovation or construction of a KfW Efficiency House:

The complete documentation of the calculations under § 4 EnEV and all relevant evidence for this under the Annex “Technical Minimum Requirements” to the Information Sheet (Order Nr. 600 000 3418)

- In the case of individual measures:

All the relevant evidence as per the Annex “Technical Minimum Requirements” to the Information Sheet (Order Nr. 600 000 3418)

- In the case of first acquisition:

For the KfW Efficiency House the aforesaid documentation, for the individual measures or in place of accounts evidence of the eligible investment measures and costs (at the least through confirmation by the vendor)

- In the case of renovation of architectural monuments:

The evidence of harmonisation required for the renovation works and approval by the Monument Protection Authority

An overview of the documentation to be preserved is enclosed as an Information Sheet with the Form “Confirmation after Execution” (Form Nr. 600 000 3413).

If you sell the subsidised building within 10 years, the buyer must be informed of the KfW subsidisation and the prohibition of deterioration of the energy quality of the building under § 11 para. 1 EnEV.

Fundamental instruction

KfW reserves the right at any time to check the calculation documents and evidence and to carry out an

on-site control of the subsidised buildings/measures.

217/218
220/219
From 01.10.2015
Sponsored by
Federal Ministry of
Economic Affairs and
Energy
on the basis of a
Bundestag Resolution

The pre-requisite for the subsidising of measures to improve energy efficiency in non-residential buildings is compliance with the following Technical Minimum Requirements and the supplementary information given in this Annex. Moreover the applicable legal requirements and technical Standards for the implementation of the measures must be observed.

Construction of KfW Efficiency Houses, renovation of KfW Efficiency House

The energy Standard of a KfW Efficiency House is achieved through construction and technical measures for the improvement of energy efficiency and the inclusion of renewable energies. The following minimum requirements must be complied with.

Requirements of a KfW Efficiency House

1. The annual primary energy requirement (Q_p) of a KfW Efficiency House may not, in respect of the primary energy requirement of the corresponding reference building ($Q_{p\,REF}$) exceed the percentage maximum values for the subsidised Efficiency House Standard as shown in the Table below.

KfW Efficiency House	EH 55	EH 70	EH 100	Monument

Q_P in% of Q_P REF	55 %	70 %	100 %	160 %

2. For areas heated with a room target temperature T >/= 19°, the heat transition coefficient measured over these areas for the opaque outer building parts (U_{opak}), the transparent outer building parts ($U_{transparent}$) and curtain walls ($U_{Vorhang}$) and for glass roofs/strip lighting and light domes (U_{Licht}) may not exceed the following values:

KfW Efficiency House (T>=19°C)	**EH 55**	**EH 70**	**EH 100**	**Monument**
	[W (m² K)]	[W (m² K)]	[W (m² K)]	[W (m² K)]
Uopak	0.22	0.26	0.34	0.60
Utransparent, Vorhang	1.2	1.4	1.8	—
ULicht	2.0	2.4	3.0	—

Fax: 069 7431-9500

Annex to the Information Sheets
Energy-efficient construction and renovation
- Non-residential buildings

KfW
Responsible banking

Technical Minimum Requirements

3. For areas heated to a target room temperature <19°, the heat transition coefficient measure over these areas for the heat transfer outer parts may not exceed the following values:

KfW Efficiency House (T<19°) 55	[W (m^2 K)]	**EH 70**	[W (m^2 K)]	**EH 100**	**Monument** [W (m^2 K)]	[W (m^2 K)]
Uopak	0.35		0.43		0.58	0.90
Utransparent, Vorhang	2.2		2.4		3.2	—
ULicht	2.2		2.6		3.6	—

4. The annual primary energy requirement (Q_P) and the mean heat transition coefficients of the heat transfer enclosing areas of the building are to be calculated on the basis of the planned measures under the Energy Savings Regulation (EnEV) and DIN 18599 in force at the time of application. The project parameters for the primary energy requirement of the reference building ($Q_{P\,REF}$) is to be determined on the basis of the details in Annex 2, Table 1 (without application of Line 1.0) EnEV. The mean heat transition coefficients are to be calculated for the entire building under the rules of EnEV Annex 2. The interpretations of the “Construction Technology” Special Commission of the Construction Ministers Conference on the EnEV (www.bbsr-energieeinsparung.de) shall be taken into consideration for the KfW Efficiency House calculations.

5.	For KfW Efficiency Houses a ventilation concept is to be prepared in which the required fresh air flow rate and the solution for implementation are specified. For implementation of the ventilation concept particular attention is to be paid to the measures required to prevent condensation and humidity damage. Furthermore for all KfW Efficiency Houses attention is to be paid on the building shell to heat bridge-minimising design and execution of an airtightness concept. In the case of a hydraulically-driven water-fed heat supply system, hydraulic balancing of the distribution system must be carried out.
6.	In the case of the extension of a building by building parts for which there is an open connection with the existing building, Efficiency House evidence must be provided for the entire building. Here all the standard requirements must be satisfied for the renovation.

If, with the extension, there is no open spatial connection (i.e. there are separating parts such as walls and doors), for the extended building sections evidence of achieving a KfW Efficiency House Standard for

New-builds must be provided. The evidence for the KfW Efficiency House may in this event be provided separately for the added building part and does not have to relate to the building as a whole.

7.	The application must demonstrate the saving in primary and end energy requirements and the CO_2 reduction in comparison to the original state (renovation) or the applicable minimum requirement level (new-build). The calculation of the saving derives from the difference between the energy requirement calculation under the EnEV for the condition prior to renovation or the requirements figure for a comparable new-build under the valid provisions of the EnEV and the calculated energy requirement figures for the planned project. The resulting CO_2 emission is to be determined applying the values cited in the Section “Emissions factors”.

Annex to the Information Sheets
Energy-efficient construction and renovation
- **Non-residential buildings**

KfW
Responsible banking

Technical Minimum Requirements

Required evidence and documents for a KfW Efficiency House

Complete documentation of the documentation per § 4 ErEV incl. detailed Ü value calculations for the individual construction parts of the thermal building shell and the existing/planned technical systems

Documentation of the calculation for the reference building

All plans for the KfW Efficiency House (ground plans, views, sections, site plan) on the basis of which evidence for the primary energy requirement under the EnEV was prepared; the thermal building shell taken as a basis must be marked

Other planning documents where relevant for the calculation (for example thermal simulation of solar systems, evidence of the primary energy factor applied for remote heat, evidence of product-specific technical parameters, etc.)

Confirmation by a specialist firm of the execution of the hydraulic balancing (only for hydraulically-driven water-fed heat supply systems)

Ventilation concept

If for the primary energy factor when using local/remote heat the Table value under DIN V 18599-1: 2011 is not applied, the primary energy factor must be calculated either under DIN V 18599 and confirmed by an independent expert or determined under the AGFW Worksheet FW 309 and confirmed by a certified expert

If a heat bridge supplement $DU_{WB} < 0.10$ W/(m² • K) is applied, this is to be calculated or evidenced separately under the rules of technology. The preparation of evidence of equivalence under DIN 4108-Supplement 2 is always required in the event of the use of the lump heat bridge correction factors of $DU_{WB} = 0.05$ W/(m² • K) for renovation. When using a heat bridge correction factor $DU_{WB} < 0.05$ W/(m² • K) heat bridges must be calculated in detail.

For consideration of a ventilation system with heat recovery or reduced air renewal in the Efficiency House calculation airtightness measurements are required for the relevant area. The measurement results are to be recorded in a measurement protocol.

Requirements of individual measures for the renovation of existing buildings

Measures to improve energy efficiency in existing

non-residential buildings satisfying the following minimum requirements are eligible for subsidy.

Calculation of energy saving and CO_2 reduction

For individual measures the anticipated saving in primary and end energy requirements and the associated CO_2 reduction must be determined. The calculation may be made using building balancing under DIN 18599 or a tailored calculation on the basis of system or specific building part parameters (efficiency, Ü figure), the project dimensioning (for example power consumption of old system/new system, building areas) and the operating conditions (for example run times, usage conditions). To calculate the primary energy saving and CO_2 reduction the primary energy factors under EnEV and the CO_2 emissions factors in Annex 1 shall be applied.

Technical Minimum Requirements

Monument Protection Authority regulations

For parts of buildings subject to Monument Protection Authority regulations as defined in § 24 para. 1 EnEV reduced requirements as per the following Tables are specified. The requirement for subsidisation with reduced requirements is confirmation by the expert that due to the Monument Protection Authority's regulations or also physical reasons only the respectively-attained requirement value is possible.

1) Insulation of walls, roof surfaces, storey ceilings and floor surfaces

Subsidies are provided for the insulation of walls, roofs, storey ceilings and the lower building envelope. The following requirements for heat transition coefficients (U value) must be complied with in the case of renovation of the respective building parts for subsidisation as an individual measure. The requirements only refer to the heat-transferring surrounding surfaces.

Nr.	Part group	Part	Max. Ü in W/(m²•K) T>/=19°C	Max. Ü in W/(m²•K) T<19°C
1.1		Outer wall	0.20	0.25
1.2		Alternatively: core insulation with double-layer masonry	l </= 0.035 W/(m•K)	l </= 0.040 W/(m•K)
1.3	Walls	Outer walls of architectural monuments	0.45	0.45
1.4		Outer walls in the case of exposed works	0.65	0.65
1.5		Wall surfaces against soil / unheated spaces	0.25	0.25
2,1		Roofs (w/o glass roofs)	0.14	0.25
2.2	Roof surfaces	Alternatively: for architectural monuments Max. possible insulation thickness	l </= 0.035 W/(m•K)	l </= 0.035 W/(m•K)

3.1		Top floor ceiling	0.14	0.25
3.2		Ceilings of unheated rooms	0.25	0.25
3.3	Storey ceilings and floor surfaces	Storey ceilings against outside air	0.20	0.25
3.4		Floor surfaces against soil	0.25	0.25

Annex to the Information Sheets
Energy-efficient construction and renovation
- Non-residential buildings

KfW
Responsible banking

Technical Minimum Requirements

Note:

For all measures on the building shell, attention should be paid to heat bridge-minimising design and airtightness.

For renovation measures the required measures to avoid condensation and humidity damage under DIN 4108-3 must be taken and evidenced.

Required evidence to be safeguarded:

- Confirmation by the specialist firm of the fitting and type of insulation
- Manufacturer's evidence regarding properties, in particular the measured values for heat conductance of the fitted materials

2) Renewal and strengthening of windows and outer doors

Subsidies may be provided for the exchange, reinforcement or first installation of windows, outer doors and gates (including loading stations) in existing buildings. Also eligible are burglary-prevention measures, directly connected with the energy optimisation of windows, doors and gates.

Nr.	Group	Part	Max. Ü in W/(m²•K) T >/= 19°C	Max. Ü in W/(m²•K) T<19°C
1		Windows, French windows:		
		a) exchange	0.95	1.3
		b) reinforcement	1.3	1.6
1.2		Easy-access windows and French windows	1.1	1.4

1.3		Windows with special glazing	1.1	1.4
1	Transparent Parts (U_W)	Windows on monuments		
1.4		a) Exchange	1.4	1.7
		b) Reinforcement	1.6	1.9
1.5		Glass roofs	1.6	1.9
1.6		Strip lights and light domes	1.5	1.9
2	Curtain walls (U_{CW})	Curtain walls	1.3	1.6
3	Doors (U_p)	Outer doors	1.3	2.0
4	Gates	Outer doors	1.0	2.0
			Air Permeability Class 3	

1 *Special glazings are the glazings described in Annex 3 Number 2 EnEV for sound insulation, fire protection, bullet resistance, burglar prevention or explosive resistance.*

2 *Curtain walls whose construction is described in DIN EN 13947: 2007-07*

Annex to the Information Sheets
Energy-efficient construction and renovation
- Non-residential buildings

KfW
Responsible banking

Technical Minimum Requirements

When planning outer doors measures for user-independent control should be taken into consideration to ensure the shortest opening time within door opening cycles. In the event of use with frequent business-related opening cycles by way of alternative to the above requirements the fitting of fast-opening doors (closing speed 0,8 m/s) with suitable sensors for automatic opening or closing (radar, induction loop or similar) are eligible for subsidisation.

Also eligible for subsidy is the construction or conversion of lorry loading stations in hangars (dock levellers) when these are thermally separated from the building shell.

For the exchange of windows, the Ü value of the outer wall and/ or the roof may be less that the $Ü_w$ value of the newly-fitted windows or measures must be taken to prevent condensation formation and humidity damage. When fitting new windows any resulting increased air humidity must be taken into consideration and measures taken to prevent condensation and humidity damage.

Required evidence to be safeguarded:

- Confirmation by the specialist firm of compliance with the requirements for the U values and the heat bridge-minimising installation; where necessary: information on the avoidance of humidity damage
- Manufacturer’s evidence regarding the energy properties of the windows/doors /gates

3) Measures to improve summer heat insulation

Subsidies may be provided for the replacement of external solar protection systems through fitting the same with a daylight function or first installation of the same. The requirements of DIN

4108-2:2013-02 must be observed.

4)	**Installation, exchange or optimisation of ventilation and a/c systems incl. heat/cold recovery and waste heat use**

Subsidies may be provided for the implementation of the following measures:

First installation/renovation of ventilation systems:

•	Fitting of automatic air feed and removal systems with heat recovery regulated by sensor (CO_2, mixed gas, air humidity or VOC). The fitted ventilation systems must at least satisfy the requirements of Annex Ill Number 2 of Regulation (EU) Nr. 1253/2014 dated 7 July 2014. The system must be designed so that with a design flow the electrical fan output per fan relating to the delivery volume does not exceed the Category SFP 3 limit under DIN EN 13779 (validation load).

Exchange of components in existing ventilation systems:

•	Installation of speed-controlled fans with an efficiency level as specified in Annex IV Table 1 of Regulation (EU) Nr. 327/2011
•	Installation of air handling equipment that at least satisfies the requirements of Annex Ill Number 1 of Regulation (EU) Nr. 1253/2014 dated 7 July 2014

Annex to the Information Sheets
Energy-efficient construction and renovation
- Non-residential buildings

KfW
Responsible banking

Technical Minimum Requirements

- Installation of energy-efficient, speed-controlled motors Efficiency Class IE 2 or better as per Regulation (EC) Nr, 640/2009 or after-fitting of frequency converters for infinitely-variable regulation of existing motors
- Renewal and use of air lines to achieve at least Tightness Class B under DIN EN 15727:2010- 10
- Installation of heat recovery that at least attain H2 Classification under DIN EN 13053:2007-11
- Reduction of heat loss through added heat insulation of the external and exit air lines with interior installation or the air inlet and exhaust lines in the event of external installation (d_{min} >/= 6 cm; l= 0.035 W/(mK) or equivalent)

Required evidence to be safeguarded:

- Manufacturer’s evidence regarding the system-specific parameters

- In the case of first installation comprehensive renewal of the entire system or exchange of the fan: report on handover per the Annex under DIN EN 12599:2013-01 Section 9

- In the event of renewal of the air lines:

Protocol of the measurement of the leakage air flow per DIN EN 12599:
2013-01 Section D-8

5) **Renewal and/or optimisation of heat/cold generation, distribution and storage incl. power-heat - or power-heat-cold coupling systems**

Implementation of the following measures is eligible for subsidy:

Installation of new heat generators/optimisation of heat generation

- Condensing boilers, improved under DIN 18599-5: 2011-12

- Condensing hot air generators, multistage/modulating with adjustment of the combustion air volume

- Heat-fed systems for heat supply from power-heat coupling on the basis of fossil energy (cogeneration plant, fuel cells).

- Connections and heat transfer stations for the use of remote heat

- Infrared dark radiator with a radiation factor RF per DIN EN 416-2 > 0.69

•	Infrared light radiator with a radiation factor RF per DIN EN 419-2 > 0.69
•	Installation of waste gas systems with condensing waste gas heat exchanger for radiant heating per DIN 18599-5:2011-12
•	Measures for the use of process heat for air conditioning

Installation of components for energy-efficient heat transfer

•	Radiant ceiling panels with the Product feature *Design improved* (upper side min. 40 mm insulated, radiation >75% per DIN EN 14037)

- Non-residential buildings

KfW
Responsible banking

Technical Minimum Requirements

- Pl-regulated hot air feed in addition to the ventilation systems (centrally-fed air heaters)
- Surface heating systems operated with system flow temperature </= 35°C and the required adaptation or renewal of pipelines
- Exchange of existing heaters with heaters with an overtemperature </= 30 K (for example designed for 55/45 °C with a room temperature of 20 °C)

Optimisation of heat distribution

- Carrying out of hydraulic balance
- Hydraulic conversion of the distribution system for requirement-based adaptation of the water circulation volumes
- Installation of high-efficiency pumps (Efficiency Class A)
- Installation of pre-adjustable thermostat valves, regulator valves and differential pressure regulators

- Conversion from one- to two-line systems
- Expansion and renovation of local heat networks located 100% on the surfaces belonging to the building(s)
- Heat insulation of uninsulated or inadequately-insulated heat distribution lines

Optimisation of heat storage

- Installation of buffer storage with minimum heat insulation per DIN EN 12828

Installation of energy-efficient cold generation

- Heat-driven cold systems for the use of heat from the power-heat coupling or process waste heat
- Compression refrigeration system with electronic rpm regulation and a nominal cooling output EER of at least 4.0 in full-load operation

The measures cited for heat distribution and transfer apply analogously for cold distribution.

The pre-requisite for subsidisation of measures for heat/cold generation, distribution and storage for hydraulic systems to the carrying out of a hydraulic balancing of the connected distribution system.

Required evidence to be safeguarded:

- Evidence of the hydraulic balancing

- Manufacturer evidence for the system parameters

For systems for heat and cold generation from renewable energies special funds may be provided from the Market Incentive Program, which be applied for via KfW Programme 271/281 Renewable energies Premium or via the BAFA.

Technical Minimum Requirements

6) Exchange and/or optimisation of lighting

Subsidies may be granted for the implementation of the following measures:

Conversion of the existing lighting systems to an energy-efficient lighting technology that satisfies all the following requirements:

- The system efficiency (light efficiency) of the installed lighting system must be at least 100 lm/W.
- The useful life of the lights used must achieve at least the following:
- for LED lights >/= 80% (L80) with 50,000 operating hours
- for all other light types >/= 90% with 16,000 operating hours
- The colour rendering (Ra) of the lighting systems must be at least 80%. For activities with higher colour rendering requirements the requirements of DIN EN 12464-1:2011-08 should be applied.
- Regulation of the lighting system must at least match the reference design under EnEV Annex 2 Table 1 for the corresponding area of use.

- Lighting planning per DIN EN 12464-1:2011-08 or for sports area per DIN EN 12193 must be carried out by qualified planners.

The complete exchange of lights including any other ancillary work and components are eligible for subsidy. Bulbs intended for subsequent installation or for installation in existing fittings (for example retrofits, replacement lights) are not eligible.

The use of lights with an ENEC-Plus-Performance symbol is recommended.

It is also recommended that for the lights or light sources used a colour distance of 3-step macadam ellipses is not exceeded.

Required evidence to be safeguarded:

- Lighting concept including the corresponding planning evidence
- Manufacturer’s evidence regarding the product features Light output, Colour Rendering Index, rate lamp lifetime and light quality over the lifetime
- For LED: Data Sheet per IEC 62717 for each light type

7) Installation or optimisation of measurement, control and regulation systems and building automation

Installation and replacement of measurement, control and regulation systems serving the realisation of a buildings automation level of at least Class B under DIN 18599-5: 2011-12 (incl. the necessary field devices) for example:

- Requirement-based regulation of ventilation and a/c systems
- Daylight or presence-dependent control or regulation of lighting systems

Annex to the Information Sheets
Energy-efficient construction and renovation
- Non-residential buildings

KfW
Responsible banking

Technical Minimum Requirements

- Requirement-based regulation of heating systems, for example a usage-based room-by-room regulation of the room temperature
- Components for realisation of a technical energy management system with the aim of energy saving through efficient operation of the building (for example monitoring of system or area-based characteristics and energy consumption, incl. building control technology and the required automation and field elements)

Required evidence to be safeguarded:

- Measurement, control and regulation concept
- For technical energy management: metering concept

This document is an English translation of a document prepared in German. In preparing this document, an attempt has been made to translate as literally as possible without jeopardizing the overall continuity of the text. Inevitably, however, differences may occur in translation and if they do, the German text will govern by law.

In this translation, German legal concepts are expressed in English terms and not in their original German terms. The concepts concerned may not be identical to concepts described by the English terms as such terms may be understood under the laws of other jurisdictions.

Loan agreement
dated 18.07.2018
for a DM SME loan of
EUR 9,450,000.00

Between

JPT Peptide Technologies GmbH
Volmerstraße 54
12489 Berlin

(“Borrower”)

and

Deutsche Bank AG
Business in Germany
Ludwigsstraße 8-10
55116 Mainz

(“Bank”)

the following agreement **(“Loan Agreement”)** has been concluded for the granting of a repayment loan **(“Loan”)** on the basis of the Bank’s General Business Terms and Conditions:

[Copy for the Bank / Copy for the client]

1. DEFINITIONS

The following terms have the following meanings in the contractual text:

"Payment date" is 15.12.2018 EUR 1,600,000.00; on 15.05.2019 EUR 3,000,000.00; on 15.10.2019 EUR 3,000,000.00 and on 15.01.2020 EUR 1,850,000.00.

"Banking day" is any day (with the exception of Saturday and Sunday) on which commercial banks are open to the public for business in Frankfurt/Main.

"Final due date" is 30.09.2028.

"Financial liabilities" are all liabilities from (i) borrowings (ii) issued letters of credit and accepted or issued bills (iii) the issue of bonds, "commercial papers" or other debentures, (iv) lease contracts that under the applicable edicts of the Federal Ministry of Finance or the respective tax or balance sheet provisions of the Jurisdictions regulating the lease contract, are to be treated as finance [operating] leases, (v) the sale of receivables where recourse against a member of the company group of the Borrower cannot be ruled out (recourse factoring), (vi) trade accounts payable when a payment schedule is granted that lies outside common industry practices, (vii) derivatives, whereby when calculating the value of a derivative transaction only the "mark-to-market value" is taken into consideration, (viii) recourse liability in respect of third party sureties, guarantees, bonds, letters of credit or other financial instruments, where such are not included twice in the balance sheet concerned since the respective principle debt is already accounted for, (ix) other transactions when these have the economic effect of borrowings as defined in paras. (i) to (viii), (x) a guarantee, surety or other co-liability for one of the liabilities cited in paras. (i) to (ix) liabilities, and (xi) pension provisions.

2. LOAN

a) Loan amount

The Bank is granting the Borrower a redeemable loan of **EUR 9,450,000.00 (**in words: nine million four hundred and fifty thousand Euro) ("**loan amount**").

b) Purpose

The loan serves the co-financing of the company property to be built in Berlin-Adlershof. The Bank is entitled but not obliged, in respect of the Borrower, to monitor compliance with the loan purpose.

3. PAYMENT

a) Payment date

The Bank shall pay the Borrower the loan amount on the payment dates at the payout ratio of 100% provided that at that time the payment requirements specified below in Clause 6 of this Loan Agreement have been satisfied.

b) Non-acceptance indemnity

If the payment cannot, or cannot fully, be paid out on the payment date for reasons attributable to the Borrower, the Borrower is obliged to compensate the Bank for any losses caused through non-acceptance or late acceptance.

4. REDEMPTION/REPAYMENT

a) Standard repayment

The loan is to repayable in 32 equal consecutive instalments of EUR 286,364.00 and a final, differing instalment of EUR 286,352.00. The instalments are payable quarterly in arrears on 31.03., 30.06., 30.09. and 31.12. of each year; the first instalment is due on.09.2020, the final instalment is repayable on the final due date.

Any loan amounts outstanding on the final due date shall be paid on the final due date.

b) Adjustment of payment schedules

If one of the dates cited in the above paragraphs is not a banking day, repayment shall take place on the next banking day, unless as a result the repayment would only take place in a new calendar month or the following banking day lies after the final due date; in such an event repayment shall take place on the next earlier banking day.

5. INTEREST / COMMISSIONS

a) Debit authorisation

The Borrower herewith instructs the Bank to debit any due repayment amounts, interest, costs, payments, expenses and commissions against the Borrower's account [***] provided no different agreement has been reached in any individual instance.

b) Interest

The interest rate is fixed for the entire term and amounts to **2.08% p.a.** The interest is charged on the basis of 30/360 days. It becomes due at the end of each Quarter.

6. PAYMENT REQUIREMENTS

The Borrower can draw down the loan as soon as all the following, agreed payment requirements have been satisfied and one or more of the same do not subsequently lapse:

a) The Bank has all the following documents and evidence in satisfactory form and the corresponding evidence has not subsequently proved to be incorrect:

- All the details required under the Federal Money Laundering Act (GwG) regarding the financial beneficiaries and the agreement on the loan purpose within the framework of this agreement
- All the agreed securities have been validly constituted

- Submission of the signed annual accounts 31.12.2017

b) The Borrower is not in default towards the Bank in the satisfaction of a due claim;

c) No important reason exists that would entitle the Bank to extraordinary termination of this Loan Agreement or that may entitled it to such termination after an additional deadline and/ or warning.

The Bank may make payment without all payment requirements having to be satisfied. The obligation of the Borrower to satisfy the payment requirements remains thereby unaffected unless the Bank has waived satisfaction of specific payment requirements in writing.

7. SECURITIES

a) The creation of the following securities has been agreed:

- First-priority land charges of EUR 9,450,000.00 on Betriebsimmobil *("commercial property")* Berlin-Adlershof; Treptow Land Register, Page 31392N
- Indefinite directly enforceable guarantee by BioNTech AG in the amount of EUR 9,450,000.00
- Loan maintenance and subordination agreement in respect of a still-to-be provided shareholder group loan of EUR 9,450,000.00. Please send us the loan agreement when available.

Individual details, in particular concerning the security purpose, are or shall be regulated in the security agreements.

Where not agreed otherwise, the securities are to be created having first priority and free of third party rights of set-off, retention or other rights.

b) On the basis of its lien under Nr. 14 AGB the Bank is in particular serviced by all current and future deposits in account Nr. [***] and time deposits deposited against this account with the Bank including interest as security for all existing, future and conditional claims against the Borrower from and in connection with this Loan Agreement. Disposal of these is only possible with the express permission of the Bank.

8. GENERAL OBLIGATIONS

The Borrower furthermore and until satisfaction of all claims of the Bank from draw-downs under this Loan Agreement assumes the following obligations:

a) Information obligations

Information on financial situation: The Borrower shall continually update the Bank regarding its financial situation and, where applicable, the financial situation of its group of companies.

In this regard it shall provide the Bank in particular with its latest annual accounts plus notes and management report and a consolidated annual account (consolidated balance sheet, consolidated P&L account and consolidated notes) together with a consolidated management report on the Group including the respective auditor's reports immediately on completion, at the latest however within 9 months of conclusion of the respective financial year, in the original and at least having the scope legally required. Where the

annual accounts do not have to be certified, the Bank shall be given copies bearing the legally-binding signatures of all directors or all liable partners.

Moreover the Borrower shall provide the Bank with quarterly business evaluations, liquidity figures, balance sheet status and target-performance analyses.

Moreover the Borrower shall provide the Bank with its annual planning per 31st January of each calendar year.

Further documents providing an up-to-date view of the financial situation shall be submitted by the Borrower on request.

Information under the Federal Money Laundering Act: The Borrower shall satisfy all its obligations under the Federal Money Laundering Act and in particular report any changes in the financial beneficiaries occurring over the term of this Loan Agreement immediately and without request and provide the Bank on request with documentation and information for ascertaining and checking its details.

Incorrect/incomplete information: The Borrower shall immediately notify the Bank should any information or documentation provided (also planning and forecasts) show significant negative changes or deviations or should it transpire that the information or documentation supplied was incomplete or incorrect.

b) Change in shareholder structure

The Parties are agreed that the current shareholder structure constitutes an important basis for the willingness of the Bank to grant this loan and the authorisation of all draw-downs under the same. In the event of any change in the shareholder structure the Parties shall reach a mutually-satisfactory agreement on the continuation of this Loan Agreement, where applicable subject to amended conditions, for example regarding interest, securities or other agreements before such a situation arises.

c) Credit agreements with other credit institutions

The Borrower shall inform the Bank of any new credit agreements that exceed the amount of EUR 500,000.00 or if there are significant changes to its current credit agreements with other credit institutions (for example increase, termination or collateral requirements), where these are the subject of negotiations, where possible in advance, otherwise immediately thereafter.

9. <u>EXTRAORDINARY RIGHT OF TERMINATION</u>

An important reason entitling the Bank to extraordinary termination of this Loan Agreement under Nr. 19 para. 3 AGB in particular exists when:

a) The Borrower fails to satisfy the general obligations or other essential obligations agreed under this Loan Agreement and fails to comply with the security agreements concluded in connection with this Loan Agreement or

b) A change takes place to the shareholder structure and the Parties do not promptly agree to the continuation of any changed conditions, for example regarding interest accrual, securities or other agreements or

c) The Borrower fails to or cannot satisfy its financial liabilities towards third party credit institutions on becoming due or third party credit institutions prematurely call in or could call in such financial liabilities on the basis of a reason for termination, where the financial liabilities concerned exceed a sum of EUR 100,000.00 (or the equivalent value in other currencies).

10. MISCELLANEOUS

a) Forward transactions

Where the Bank and Borrower, to secure the interest or currency risk under this Loan Agreement, conclude or have already concluded forward transactions – which the Bank is not obliged to do – the continued existence of these forward transactions is not affected by any termination of this Loan Agreement.

b) Information disclosure

Where the Bank, for refinancing, risk hedging or capital relief, makes use of its right to transfer the credit risk or claims under this Loan Agreement or otherwise dispose of the same, the Bank is entitled to pass on borrower-related information to authorised recipients that by force of Law, contract or occupational or professional regulation are obliged to maintain confidentiality. Authorised information recipients are members of the European Central Bank system, credit institutions, development banks, financial service providers, finance companies, insurance companies, pension funds, capital management companies, special purpose vehicles founded for assuming credit risks and persons that for technical or legal reasons are to be involved in the transfer (for example auditors and rating agencies).

c) Written form

Changes to this Loan Agreement must be made in writing.

d) Acceptance deadline/ Validity of agreement

The Bank considers itself bound by the offer submitted with this Loan Agreement until 17.08.2018.

This Loan Agreement takes effect on receipt of the agreement signed by all the parties within the aforesaid acceptance deadline.

e) Severability clause

Should individual provisions of this Loan Agreement be or become wholly or partly – for whatever reasons – void or invalid or unworkable, this shall not affect the other provisions of this Loan Agreement.

This Loan Agreement is cited under the date given in the heading.

Declaration pursuant to the Federal Money Laundering Act:

The Borrower guarantees the Bank by crossing or initialling that it is solely drawing down the funds granted under this Loan Agreement for its own account:

WHEREAS

(A) The Company is a European company under German law (*Societas Europaea*), registered with the commercial register of the local court of Mainz under HRB 48720 and having its registered business address at An der Goldgrube 12, 55131 Mainz, Germany.

(B) The Company's business is the research, development and manufacture of pharmaceuticals for individualized immunotherapies (diagnosis and treatment) of cancer and other diseases which it conducts itself or via its subsidiaries (each of the Company and each such subsidiary a ***Group Company*** and the group formed by the Company and such subsidiaries the ***Group***) such as BioNTech RNA Pharmaceuticals GmbH (the latter and the Company collectively ***BioNTech***). The Foundation is a charitable trust committed to accelerating the development of lifesaving and low-cost therapeutics, diagnostics, and prophylactics to reduce the burden of disease in developing countries in furtherance of its mission to help all people live healthy, productive lives.

(C) At present, the registered share capital (*Grundkapital*) of the Company (the ***Share Capital***) amounts to EUR 12,152,676 and is divided into 12,152,676 ordinary shares with an imputed nominal value (*Stückaktien*) of EUR 1.00 each (each existing or future share in the Company hereinafter being referred to as a ***Share***), but is expected to, prior to the Closing Date (as such term is defined below), increase by EUR 206,595,492 to EUR 218,748,168 by way of conversion of reserves (*Kapitalerhöhung aus Gesellschaftsmitteln*) (the ***Stock-Split***). The existing Shares are fully paid in. The existing Shares are registered shares (*Namensaktien*); any transfer of the existing Shares requires the Company's approval (*Vinkulierung*), to be provided by the company's supervisory board as laid down in more detail in section 5 of the Company's articles of association (the ***Articles***). The existing Shares have been entered into a share register (*Aktienregister*) held by the Company. The existing Shares are held by the existing Shareholders as listed in the share register dated 16 August 2019 (the ***Shareholders*** and each a ***Shareholder***). Certain of the Shareholders who had a specific need for that have been issued share certificates. Following the Stock-Split, the Company is expected to have an authorized capital (*Genehmigtes Kapital*) of EUR 109,374,084.

(D) The Shareholders are parties to a shareholders agreement originally entered into on 29 December 2017 and most recently amended with effect as from 27 August 2019 (the ***Shareholders' Agreement***).

(E) On or about the date hereof, BioNTech and the Foundation have entered into an agreement pursuant to which the Foundation is to make an equity investment into the Company in consideration of the Company incurring the Global Access Commitments as defined in that agreement (the ***Letter Agreement***, with such investment pursuant to the Letter Agreement being referred to as the ***Investment***).

(F) Based on the valuation of the Company on which the Parties have agreed, the Foundation wishes to subscribe for 3,038,674 Shares at an issuance price of USD 18.10 per Share (the ***USD Issuance Price***, with the Shares so to be subscribed for by the Foundation or actually issued to it, as the context may suggest, being referred to as the ***Foundation Shares*** and the process by which the Foundation Shares are issued to the Foundation (potentially alongside other Shares to other investors) being referred to as

the ***Capital Increase***). The Company will use its authorized capital to issue the Foundation Shares.

(G) This investment agreement including the Recitals, all clauses (the ***Clauses***), all annexes, (the ***Annexes***) and all schedules and exhibits (the ***Schedules*** and ***Exhibits***) (collectively the ***Investment Agreement***), is to set out the commitments of the Parties immediately in relation to the Investment and the prerequisites to be satisfied for the Investment to occur, including the entry into force of an amendment to the Shareholders' Agreement such that same will take the form of the Amended SHA (as such term is defined below), for the purpose of establishing certain rights and preferences for the Foundation in its capacity as a Shareholder.

NOW THEREFORE in consideration of the above, the Parties agree as follows:

1. Commitment to subscribe for Foundation Shares

1.1 Subject to the Conditions having been satisfied and the Subscription Form received by the Foundation (the day on which the Conditions so have been satisfied and the Subscription Form received being the ***Closing Date***), the Foundation shall promptly and in no event later than within seven Business Days (a ***Business Day*** means any day (other than a day which is a Saturday, Sunday or legal or bank holiday in Mainz, Germany) after the Closing Date, subscribe (*übernehmen*) for the Foundation Shares by way of executing and delivering the original of the Subscription Form pursuant to Clause 1.2(f)) (via email in advance) and transfer to the Company the EUR Issuance Price (as defined in Clause 1.3) multiplied by the number of the Foundation Shares (this product, subject to Clause 1.4, being referred to as the ***Aggregate EUR Issuance Price***), which payment shall be made by bank remittance in Euro net of costs to the following no-debit-balance account of the Company (the ***Capital Increase Account***):

Account holder	[***]
IBAN	[***]
SWIFT	[***]
Reference	Gates Foundation Capital Increase

1.2 ***Conditions*** shall mean the following conditions:

(a) The Letter Agreement has been entered into and all conditions to same taking effect have been satisfied or validly waived (the ***Letter Effective Date***).

(b) The prerequisites for the management board of the Company to be permitted to admit the Foundation to subscription of the Foundation Shares are met.

(c) The corporate action specified in **Schedule 1** (*Corporate action in relation to Withdrawal Right*) has taken effect.

(d) The Stock-Split has taken effect.

(e) The Shareholders' Agreement has been amended such that the Foundation Shares upon their issuance carry the financial preferences set out to apply for them in the draft for an amended shareholders' agreement attached hereto as **Schedule 2** (*Amended SHA*) (the ***Amended SHA***).

(f) After the satisfaction of the Conditions set out in paras. (b) through (e) and the Company having provided reasonable evidence that such Conditions have been satisfied, the Company has submitted to the Foundation a draft subscription form (*Zeichnungsschein*) in relation to the Foundation Shares (i) which meets the prerequisites of Clause 1.3, (ii) and conforms to the requirements of section 185 of the German Stock Corporation Act (*Aktiengesetz, AktG*) (the draft subscription form actually submitted and meeting such prerequisites being the ***Subscription Form***).

1.3 The subscription form to be submitted pursuant to Clause 1.2(f) must

(a) name the Foundation as the subscriber,

(b) specify as the number of Shares to be subscribed the number of the Foundation Shares,

(c) specify as the issuance price per Share to be subscribed an amount in EUR equal to the USD Issuance Price divided by the reference rate of the European Central Bank for United States Dollars expressed as the number of United States Dollars exchangeable for each one Euro for the last Business Day immediately preceding the date on which the Subscription Form is submitted (or a lower amount in EUR), with the amount in EUR so specified being the ***EUR Issuance Price***,

(d) specify as the date on which the subscription becomes invalid a date no later than two months after the date on which the Subscription Form is submitted, and

(e) otherwise be in accordance with the German Public Companies Act (*Aktiengesetz, AktG*).

1.4 In the event that as of the time the Foundation is about to pay the Aggregate EUR Issuance Price as would otherwise result from Clause 1.1 (the ***Unadjusted Aggregate EUR Issuance Price***) the Unadjusted Aggregate EUR Issuance Price converted into United States Dollars on the basis of the conversion rate applied by the bank from which the Foundation procures the Euro for the payment pursuant to Clause 1.1 (***Actual Conversion Rate***) is more than USD 55 million, the Foundation may elect to subscribe for that lower number of Shares (with such new number of Shares for all purposes hereof henceforth being the Foundation Shares and the Aggregate EUR Issuance Price reducing accordingly) that the Aggregate EUR Issuance Price converted into United States Dollars on the basis of the Actual Conversion Rate comes as close as possible to but does not exceed USD 55 million.

1.5 This Investment Agreement shall terminate in the event that the Letter Agreement has been terminated before the Conditions have been satisfied or waived. Further the Foundation may terminate this Investment Agreement by written notice to the Company in the event that any of the Conditions set out in Clauses 1.2(a) (to the extent the Company is responsible for fulfilling such Condition) through 1.2(f) has not been satisfied after two months after the Letter Effective Date.

2. Contribution to capital reserves

2.1 The Foundation and the Company agree that the Aggregate EUR Issuance Price, to the extent it exceeds the sum of EUR 1.00 multiplied by the number of Foundation Shares (such excess the ***Additional Payment***) shall be booked into the free capital reserves pursuant to section 272 paragraph 2 no. 4 of the German Commercial Code (*Handelsgesetzbuch, HGB*) (the ***Free Capital Reserves Accounting Treatment***).

2.2 For the avoidance of doubt, the parties acknowledge that in the event the Free Capital Reserves Accounting Treatment will be formally challenged by a court, the Company's auditors or any other governmental or regulatory body, the Company shall promptly notify the Foundation and shall use reasonable best efforts to maintain the Free Capital Reserves Accounting Treatment; provided that if despite using reasonable best efforts the Company on the advice of legal counsel or its auditors determines it is not permissible to maintain the Free Capital Reserves Accounting Treatment, the Company shall book the Additional Payment as an amount attained in respect of the issuance of shares pursuant to section 272 paragraph 2 no. 1 of the German Commercial Code (*Handelsgesetzbuch, HGB*) or such other capital reserve as applies in the opinion of the relevant party.

3. Obligations of Company

3.1 Promptly upon receipt of the Subscription Form duly executed and the EUR Issuance Price times the number of Foundation Shares, the Company shall without undue delay (*unverzüglich*), and in any event within five (5) Business Days from such receipt, apply for the registration of the implementation (*Durchführung*) of the Capital Increase with the commercial register (such registration of the implementation of the Capital Increase, the ***Registration***) and shall take all measures and make all declarations necessary or appropriate to cause the Registration to occur.

3.2 The Company shall not in any way transfer the monies received from the above account or utilize them until Registration has occurred.

4. Guarantees and Related Provisions

4.1 Title Guarantees

The Company hereby represents and warrants to the Foundation regardless of fault or negligence by way of an independent guarantee (*selbständiges Garantieversprechen*) (section 311 paragraph 1 of the German Civil Code (*Bürgerliches Gesetzbuch*)) that as of the date hereof and as of the Closing Date:

(a) The Company has been duly incorporated under German law and is validly existing as a *Societas Europaea* (SE).

(b) The Shares held by each Shareholder are validly issued and fully paid in. There has been no direct or indirect repayment (whether openly or concealed) of contributions to a Shareholder (*Rückgewähr von Einlagen*). No hidden contributions in kind (*verdeckte Sacheinlagen*) have been made. There exist no obligations to make further contributions (*keine Nachschusspflichten*).

(c) The Foundation Shares will be free of encumbrances and any rights of third parties and are not subject to any disposal restrictions, in each case subject to the Shareholders' Agreement.

(d) The Company has unrestricted economic and legal authority and capacity to enter into this Investment Agreement and to issue new shares, which has been duly authorized by all necessary corporate and/or legal action and is in compliance with the Shareholders' Agreement and any other agreements between the Company and its shareholders.

(e) Upon the Shares having been validly subscribed for by the Foundation, the Foundation having made its contribution and the Registration having occurred, the Foundation will hold full legal and economic title to the Foundation Shares.

(f) This Investment Agreement and the Shareholders' Agreement have been duly executed by or on behalf of the Company and constitute their legal, valid and binding obligations enforceable under applicable law against the Company in accordance with its terms.

(the ***Title Guarantees***).

4.2 Business Guarantees

The Company hereby guarantees to the Foundation regardless of fault or negligence by way of an independent guarantee (*selbständiges Garantieversprechen*) (section 311 paragraph 1 of the German Civil Code (*Bürgerliches Gesetzbuch*)) that the statements set forth in **Schedule 3** (*Business Guarantees*) are true, accurate and complete as of the date of this Agreement (the ***Business Guarantees***, with the Business Guarantees and the Title Guarantees collectively referred to as the ***Guarantees***). For these purposes, each of those such statements that are qualified as being given to the Company's ***Knowledge*** or ***Best Knowledge*** shall be deemed accurate unless where and to the extent any of Ugur Sahin, Sean Marett, Sierk Poetting and Özlem Türeci has actual knowledge or do not actually know due to negligence (*fahrlässige Unkenntnis*) on the basis of the care of a prudent businessman (*Sorgfalt eines ordentlichen Geschäftsmannes*) that the relevant statement is not accurate. For the avoidance of doubt, such statements shall not be considered violated on grounds that the Company has not conducted an investigation regarding freedom to operate for the Company or its Group Companies.

4.3 None of the Guarantees given in this Clause 4 shall be considered as an agreement on the legal and factual nature (*Beschaffenheitsvereinbarung*) as defined in section 434 paragraph 1 of the German Civil Code or as a guarantee for certain features of goods sold (*Garantie für die Beschaffenheit der Sache*) as defined in section 443 paragraph 1 and section 444 of the German Civil Code.

4.4 In the event a Guarantee turns out not to be true, accurate or complete in any respect (the ***Breach of Guarantee***) the Company shall put the Foundation in such position as it would be in had the Guarantee been true, accurate and complete in any respect (*Naturalrestitution*). If this is not possible or the Company failed to do so within four (4) weeks after a respective request by the Foundation, the Company shall compensate the Foundation by way of a compensation capital increase for the Foundations' damage from the relevant Breach of Guarantee, including, but not limited to, in any event the Foundations' *pro rata* portion (reflecting the Foundations' fully diluted shareholding in

the Company upon implementation of the Capital Increase) of any damage, loss, expense, reduction in value, or cost of, or incurred by, or necessary to be incurred to remedy the breach by, the Company as a consequence of the respective Guarantee not being true, accurate and complete by way of the issuance of additional Shares to the Foundation (the ***Compensating Capital Increase***).

(a) For the purpose of calculating the compensation owed in Shares for the Foundation's damages that occur at the level of the Company, the following formula shall apply:

N = (S / (P2 / P1)) - S

Where:

N = Number of Shares to be issued.

S = Number of Shares held by the Foundation.

P1 = Valuation of the Company for purposes hereof, being 218,748,168 multiplied by the EUR Issuance Price.

W = EUR amount of the damage, loss, expense, reduction in value, or cost of, or incurred by, or necessary to be incurred to remedy the breach, the Company as a consequence of the respective Guarantee not being true, accurate and complete.

P2 = P1-W.

(b) In the event that the Foundation incurs any damages as a result of a Breach of Guarantee at shareholder level (i.e. other than damages resulting from the mere fact that the value of the Company be reduced), the Foundation shall receive such number of new Shares to be issued that corresponds to the amount of damages in USD suffered by the Foundation divided by the USD Issuance Price.

4.5 The following limitations shall apply to any claims under Clause 4.4 above (provided that none of these limitations shall apply in the event of intentional misrepresentation (*vorsätzliche Garantieverletzung*), malicious intent (*Arglist*), intentional tort (*vorsätzliche Schädigung*) or fraud (*Betrug*) on the part of the Company:

(a) The Company shall be liable for any breach of a Business Guarantee only to the extent the loss arising to the Foundation with respect to that breach exceeds EUR 500,000 and the total of the losses arising to the Foundation with respect to all of the breaches occurred exceeds EUR 2,000,000; provided, however, that should such total losses exceed EUR 500,000 and EUR 2,000,000, as applicable, the Foundation shall be entitled to recover the full amount of such losses.

(b) The liability of the Company shall be limited such that the aggregate additional Shares to be issued pursuant to Clause 4.4 do not exceed 100% of the Foundation Shares and do not exceed 75% of the Foundation Shares in connection with Breaches of Business Guarantees.

(c) The Company shall not be liable pursuant to Clause 4.4 for any breach where the underlying facts, matters or circumstances forming the basis of a claim (*anspruchsbegründende Umstände*) were duly (*i.e.* fully and specifically) disclosed in any of the Exhibits Business Guarantees referred to in Schedule 3 and attached to this Investment Agreement or, with respect to a breach of the Guarantees as of the Closing Date only, where after the date hereof circumstances have arisen as a result of which a Guarantee is not true, accurate and complete, such circumstances have been notified to the Foundation in writing by the Company prior to the Closing Date and, provided further, that no such notification shall be deemed to cure any breach of the Guarantees as of the date hereof.

(d) Any claims based on a breach of a Title Guarantee shall expire (*verjähren*) within five (5) years after the Closing Date. Any claims based on a breach of Business Guarantees shall expire (*verjähren*) within two (2) years after the Closing Date.

4.6 The remedies for Breach of Guarantees set forth in this Investment Agreement shall be the exclusive remedies of the Foundation for Breach of Guarantees, except for any claims based on intentional misrepresentation (*vorsätzliche Garantieverletzung*), malicious intent (*Arglist*), intentional tort (*vorsätzliche Schädigung*) or fraud (*Betrug*) for which neither the limitations set forth in Clause 4.4 nor Clause 4.5 shall apply. All other claims of the Foundation based on, or relating to, any defects in quality or title (*Sach- oder Rechtsmängel*), or otherwise in respect of any circumstances relating to the status and condition of the Company and/or its assets, liabilities, financials or business, shall exclusively be governed by this Investment Agreement. Any further warranty claims (*Gewährleistungsansprüche*) in connection with defects of the economic, financial or legal situation of the Company or its assets, whether for damages (*Schadenersatz*), reduction of price (*Minderung*), rescission (*Rücktritt*) or avoidance (*Anfechtung*) irrespective of its legal basis, whether based on law or contract, including but not limited to claims based on non-contractual performance (*culpa in contrahendo, positive Vertragsverletzung*) or claims based on frustration of contract (*Störung der Geschäftsgrundlage*) or tort (*unerlaubte Handlung*) shall be excluded and waived by the Foundation.

5. Withdrawal Right

The Foundation shall have the right to withdraw its investment in the Company pursuant to the provisions set out in **Schedule 4**.

6. Shareholders' Agreement

Subject to the Amended SHA taking effect, the Foundation hereby declares acceptance of the offer made to it in Clause 24.4 of the Amended SHA in relation to its accession to the Amended SHA and, as a matter of precaution, agrees to reiterate such declaration in the form prescribed by such provision promptly upon the Conditions having been satisfied. The Parties acknowledge and agree that the accession agreement brought about by such acceptance of such offer is conditional on the Foundation acquiring the Foundation Shares by virtue of the Registration.

7. Final Provisions

7.1 Signing process

(a) This Investment Agreement is entered into by way of each of the Parties signing on the signature block designated for it and then transmitting the original or an electronic copy of the signature page with such signature (whether or not included in some or all of the other pages of this document) to the respective other Party.

(b) The Company shall make available a copy of this Investment Agreement including the signatures of all Parties promptly upon it having received the signature pages from the Foundation and itself has signed (also for the purposes of para. (a)).

7.2 No Assignment of Rights and Obligations

Any assignment of rights and/or obligations resulting from or in connection with this Investment Agreement requires the prior written consent of the other Party hereto except for assignments to an Affiliate of the Foundation.

7.3 Confidentiality

Clause 13 of the Letter Agreement shall apply *mutatis mutandis* with, as concerns the subject matter of the confidentiality obligations thereunder, this Agreement being substituted for the Letter Agreement. This confidentiality obligation shall not be affected by the Letter Agreement being terminated or becoming ineffective.

7.4 Written Form and Entire Agreement / Amendments

(a) Save as contemplated in this Investment Agreement, the Letter Agreement and the Shareholders' Agreement and subject to the succeeding sentence, this Investment Agreement constitutes the entire agreement between the Parties in relation to its subject matter and supersedes all previous agreements and understandings between the Parties in relation thereto. This shall not apply to the arrangements disclosed in Annex 31.2 to the Shareholders' Agreement.

(b) Amendments to this Investment Agreement, including this written form requirement itself, must be made in writing in order to become enforceable and effective unless mandatory law requires a stricter form.

(c) Wherever this Investment Agreement requires the written form or a declaration or other act to be made in writing, the submission by telefax or email of a copy of the executed original shall suffice. Any notice required or contemplated to be given pursuant to or for purposes of this Investment Agreement shall be made in text form (*Textform*) (including by email), subject to any requirement herein for such act to be made in the written form or in writing.

7.5 Costs

All costs incurred by the Parties in connection with this Investment Agreement and the measures provided for in it shall be borne by the Party incurring such costs, except as expressly provided otherwise in this Investment Agreement or the Shareholders Agreement.

7.6 Notices

Clause 22 of the Shareholders' Agreement as to addresses and certain authorities shall apply *mutatis mutandis*. This provision shall not be affected by the Shareholders' Agreement being terminated or becoming ineffective.

7.7 Severability

In the event any provision hereof is or shall become invalid or unenforceable, the validity of the other provisions shall remain unaffected. In lieu of the invalid or unenforceable provision, such valid and enforceable provision shall be deemed to be agreed upon which most closely corresponds to the intended economic purpose of the invalid or unenforceable provision. Without prejudice to the preceding sentence, the Parties shall expressly agree on such valid and enforceable provision.

7.8 Choice of Law and Resolution of Disputes

(a) This Investment Agreement shall be governed by the laws of the Federal Republic of Germany without recourse to the German conflicts of law rules.

(b) All disputes arising in connection with this Investment Agreement or its validity shall be finally settled in accordance with the Arbitration Rules of the German Institution of Arbitration (*Deutsche Institution für Schiedsgerichtsbarkeit (DIS) e.V.*) without recourse to the ordinary courts of law. The place of arbitration is Frankfurt, Germany. The number of arbitrators is three. The language of the arbitral proceedings is English.

Schedule 1
Corporate action in relation to Withdrawal Right

1. Authorization by the Company's shareholders' meeting to purchase treasury shares.

2. Approval of supervisory board that shares held by the Foundation or its Affiliates can be transferred in case the Withdrawal Right as defined in Clause 1.1 of Schedule 4 is exercised.

Schedule 2
Amended SHA

Schedule 3
Business Guarantees

1. The financial statements of the Company and of the Group each as of 31 December 2018 as presented to the Investor have been prepared in accordance with and fairly present the financial condition and operating results of the Company and the Group, respectively, as of such date according to the German Commercial Code (*Handelsgesetzbuch, HGB*).

2. Each Group Company has been granted all governmental permits necessary for the conduct of its business as now being conducted by it, the lack of which could materially and adversely affect the business, properties, prospects, or financial condition of the Company, and none of such permits has been revoked or can be revoked as a result of the relevant Group Company not having complied with conditions to which the relevant permit is subject.

3. No Group Company is in material violation of any applicable statute, law or regulation relating to the environment or occupational health and safety and no material expenditures are or will be required in order to comply with any such existing statute, law or regulation.

4. To the Company's Knowledge each Group Company owns, or is licensed to use, all patents, patent applications, design and utility models, trademarks, service marks, trade names, copyright, internet domain names, trade secrets, information, proprietary rights and processes and other intellectual property rights, including, without limitation, all applications therefore necessary for its research, development and similar activities as conducted by that Group Company without any conflict with or infringement of the rights of others.

5. To the Company's Knowledge, there is no violation or infringement by a third party of any of the Company's rights in its intellectual property.

6. Except as set out in **[***]** no action, suit, proceeding or investigation is pending or, to the Best Knowledge of the Company, currently threatened against any Group Company that might result, either individually or in the aggregate, in any adverse changes in the assets, operations, prospects or financial condition of that Group Company.

7. No Group Company is a party or subject to the provisions of any order, writ, injunction, judgment, settlement or decree of any court or government agency or instrumentality.

8. Within the three years prior to the date hereof, other than to another Group Company, none of the Group Companies has disposed of or licensed any of its assets or its intellectual property rights to any party which at the relevant time was or as of the date hereof is a direct or indirect shareholder of the Company or a member of the management or supervisory board or any affiliate of such shareholder or management or supervisory board member.

9. Except as set out in **[***]** the Group Companies have always complied with the relevant provisions with respect to wages, Taxes, pensions and social security contributions and have always paid Taxes and duties when due, and in particular have properly withheld and paid the employees contributions. ***Taxes*** means all direct or indirect federal, state, local or foreign taxes, assessments, stamp duties, real estate transfer taxes, levies or

public law charges of any kind, including without limitation, social security contributions, together with any interest and any penalties, additions to tax or additional amounts imposed by any governmental authority, domestic or foreign.

10. None of the Group Companies, nor to the Best Knowledge of the Company, any director, officer, agent, employee, or person acting on behalf of any of the Group Companies is currently subject to any U.S. sanctions administered by the Office of Foreign Assets Control of the U.S. Treasury Department (***OFAC***), and the Company will not directly or indirectly use the proceeds of the sale of the Shares, or lend, contribute or otherwise make available such proceeds to any Group Company, joint venture partner or other person or entity, towards any sales or operations in Cuba, Iran, Syria, Sudan, Myanmar or any other country sanctioned by OFAC or for the purpose of financing the activities of any person currently subject to any U.S. sanctions administered by OFAC.

11. The operation of each of the Group Companies are and have been conducted at all times in compliance with the anti-money laundering statues of applicable jurisdictions, the rules and regulations thereunder and any related or similar rules, regulations or guidelines, issued, administered or enforced by any applicable governmental agency (collectively, the "***Money Laundering Laws***"), and no action, suit or proceeding by or before any court or governmental agency, authority or body or any arbitrator involving any of the Group Companies with respect to the Money Laundering Laws is pending, or to the Best Knowledge of the Company, threatened.

12. None of the Group Companies nor, to the Best Knowledge of the Company, any person authorized to act on behalf of any of the Group Companies, directly or indirectly, (i) has used any funds or will use such funds or any proceeds from the sale of the Shares for unlawful contributions, gifts, entertainment or other unlawful expenses related to foreign or domestic political activity, (ii) made any unlawful payment to foreign or domestic government officials or employees or to any foreign or domestic political parties or campaigns from corporate funds, (iii) failed to disclose fully any contribution made by the Company (or made by any person acting on its behalf of which the Company is aware) which is in violation of law, or (iv) violated in any material respect any provision of the Foreign Corrupt Practices Act of 1977, as amended and the rules and regulations thereunder.

Schedule 4
Withdrawal Right

1. Condition Precedent for Withdrawal Right and Definitions

1.1 Subject to the issuance of the Foundation Shares and the payment of the USD Issuance Price, the Foundation shall have the rights as set out in Clauses 2 through 4 of this Schedule (the ***Withdrawal Right***).

1.2 The following definitions apply:

(a) ***Available Liquidity*** means the liquidity which the Company can apply to making payments under this Withdrawal Right without triggering an insolvency event pursuant to section 17 German Insolvency Code (*Insolvenzordnung, InsO*).

(b) ***Current Foundation Shares*** means all of the Foundation Shares collectively held by the Foundation and its Affiliates at the relevant time.

(c) ***Exercise Date*** means the date of a Put-Option Exercise. For the avoidance of doubt there may be more than one Exercise Date.

(d) ***FMV Purchase Price*** shall mean (i) if the Shares or rights or certificates representing the Shares are freely tradable, the closing price per Share or per right or certificate (collectively the ***ADS***) on the last day preceding the Exercise Date on which the Shares or rights or certificates were traded on the relevant exchange or trading facility or (ii) if the Shares are not freely tradable, the then current fair market value of the Company divided by the number of Shares outstanding as determined by a mutually agreed upon (such agreement not to be unreasonably withheld) independent third-party appraiser.

(e) ***Minimum Purchase Price*** shall mean the [***].

(f) ***Unrestricted Reserves*** shall mean the unrestricted reserves of the Company in accordance with section 71 para. 2 sentence 2 German Stock Corporation Act (*Aktiengesetz, AktG*).

2. Put-Option

2.1 The Company irrevocably grants to the Foundation and its Affiliates (*echter Vertrag zu Gunsten Dritter*) the option to sell and transfer the Foundation Shares to the Company pursuant to the terms set out in this Clause 2 (the ***Put-Option***) provided that the Put-Option can only be exercised for all of the Current Foundation Shares, subject to Clause 2.4 below.

2.2 Irrespective of whether or not an Option Readiness Notice (as defined in Clause 2.8) has been given, the Put-Option can be exercised at any time following the occurrence of a Charitability Default as defined in the Letter Agreement (the ***Put-Option Exercise***) by the Foundation or its Affiliates giving the Company an exercise notice stating (i) that the Foundation or the relevant Affiliate is exercising the Put-Option; (ii) the date on which the exercise notice is given; and (iii) the number of Foundation Shares in respect of which the Put-Option is exercised (the ***Put-Option Shares***, subject to Clause 2.4 below).

2.3 The price for each Foundation Share shall be the Minimum Purchase Price (with the Minimum Purchase Price multiplied by the Put-Option Shares being the ***Purchase Price Put Option***).

2.4 In the event that the Purchase Price Put Option (save for the effects of this Clause 2.4) exceeds the amount of Unrestricted Reserves or the Available Liquidity as of the relevant Exercise Date, the number of the Put-Option Shares shall be reduced such that the Purchase Price Put Option as then results from Clause 2.3 is equal to or lower than (but comes as close as possible to) each of the amount of Unrestricted Reserves and the Available Liquidity as of the relevant Exercise Date. In the event the number of Put-Option Shares is reduced pursuant to this Clause 2.4, the Put-Option and the other provisions of this Schedule 4 will continue to apply with respect to all remaining Foundation Shares.

2.5 The Purchase Price Put Option shall be due and payable net of costs within 90 Business Days after the Put-Option Exercise.

2.6 The Foundation or its Affiliate, as the case may be, shall enter into a transfer and assignment agreement pursuant to which the Put-Option Shares will be assigned to the Company subject to receipt of the Purchase Price Put Option.

2.7 The Foundation Shares sold pursuant to the Put-Option shall be sold free of encumbrances and any rights of third parties.

2.8 At each time when there are Unrestricted Reserves and Available Liquidity such that in the event of a Put-Option Exercise the number of the Put-Option Shares as determined pursuant to Clause 2.2 and 2.4 would be at least [***]% of the Foundation Shares or all of the Current Foundation Shares the Company shall notify the Foundation in writing of the amount of Unrestricted Reserves and, in case the Available Liquidity is lower than the amount of the Unrestricted Reserves, also of the amount of the Available Liquidity (***Option Readiness Notice***), following which the Foundation may determine in its full discretion whether it wishes to exercise the Put-Option. In any event, following a Charitability Default, as long as the Foundation holds any of the Foundation Shares, the Company shall notify the Foundation at least by the fifteenth business day of each month following the end of a calendar quarter of the amount of the Unrestricted Reserves and the Available Liquidity, provided the amount of the latter is lower than the amount of Unrestricted Reserves.

3. Sale to Third Party

3.1 As long as the Foundation Shares have not been transferred to the Company under the Put-Option and in the event of a Charitability Default

(a) at the request of the Foundation, the Company shall, without undue delay and using reasonable best efforts, locate a third-party that will purchase all Foundation Shares held by the Foundation or its Affiliates for no less than the Minimum Purchase Price per Foundation Share (such request the ***Sale Request***) (for clarity the FMV Purchase Price shall be determined as of the date of conclusion of a binding purchase agreement in that respect); and

(b) the Foundation is entitled to sell all Foundation Shares held by the Foundation or its Affiliates at the time (i) to a third-party (one or more) that is not a Direct

Competitor (as defined in the Letter Agreement) where such sale is prior to an IPO or (ii) to a third-party (one or more) of its choosing where such sale is following an IPO, in each case without any restrictions to such transfer of Foundation Shares attached to it with the exception of, if applicable, accession to a shareholders' agreement to which the Foundation or its successor or Affiliates is a party and the Company will take all measures to the extent such measures are not unreasonable, to facilitate such sale to a third party, including, but not limited to, following an IPO (*as defined in the Shareholders Agreement*), all measures required for a sale of the Shares held by the Foundation or its Affiliates over the relevant stock exchange, e.g. in case of a listing of such Foundation Shares at a US stock exchange, registering such sale of the Foundation Shares on an effective registration statement unless such sale can be effected to the public under Rule 144 of the Securities Act without volume limitations. The Foundation agrees that if it sells the Foundation Shares (or any ADS that is issued to the Foundation in exchange for the Foundation Shares (a ***Foundation ADS***)) pursuant to this Section 3.1(b) following an IPO, it will use its reasonable best efforts to liquidate the Foundation Shares or Foundation ADSs in a manner that will avoid causing a material decrease in the Company's stock or ADS trading price, as applicable, which may include seeking a block trade with a private purchaser or spreading the sales out over time; provided that nothing in this provision will limit the Foundation's right to liquidate the Foundation Shares or Foundation ADSs in a manner the Foundation determines is necessary to comply with applicable law, including applicable prudent investor standards. To the extent permissible under applicable securities and other laws, the Foundation shall promptly inform the Company when it has mandated a securities broker in relation to a sale of the Foundation Shares or the Foundation ADSs or if the Foundation has executed a block trade.

4. Report on Holdings for Company's Accounting Purposes

By the fifteenth day of each month following the end of any calendar quarter, if there has been any change in the number of Foundation Shares or Foundation ADSs held by the Foundation during such calendar quarter, the Foundation shall disclose to the Company the amount of any Foundation Shares or Foundation ADSs being held by the Foundation or its Affiliates as of the last calendar day of such calendar quarter.

5. Specific Obligations to ensure the Withdrawal Right

5.1 The Parties agree that the purpose of the Withdrawal Right is to ensure the Foundation's ability, following the occurrence of a Charitability Default, to divest the Foundation Shares held by the Foundation or its Affiliates at no less than the Minimum Purchase Price per Foundation Share.

5.2 If, for whatever reason, legal or otherwise, (i) after the Foundation has exercised its Put-Option, the Company is unable to redeem all of the Current Foundation Shares for legal or other reasons, *e.g.* the Company not having sufficient Unrestricted Reserves or (ii) the Company is unable to locate a third party to acquire the Foundation Shares pursuant to Clause 3.1(a) of this Schedule, upon request of the Foundation, the Company shall acquire as many of the Current Foundation Shares for the Minimum

Purchase Price per Foundation Share (for clarity the FMV Purchase Price shall be determined as of the date of conclusion of a binding purchase agreement in that respect) as are legally permissible and can be acquired out of Available Liquidity and continuously use its best efforts to effect the purchase of the remaining Foundation Shares for the Minimum Purchase Price per Foundation Share, consistent with applicable law, until such time as the Foundation and its Affiliates no longer hold any Shares.

5.3 If the Foundation sells its Foundation Shares pursuant to Clause 3.1(b) of this Schedule and prior to selling its Foundation Shares (i) the Foundation has issued a Sale Request and (ii) two months have passed since such Sale Request without the Company having presented a suitable third-party purchaser, to the extent permitted by law, the Company will compensate the Foundation for any difference between the amount received by the Foundation as a result of such sale and the amount of the Minimum Purchase Price times the Foundation Shares sold (for clarity the FMV Purchase Price shall be determined as of the date of conclusion of a binding purchase agreement in that respect) (such difference the ***Shortfall Amount***). The Company shall have the right to defer the payment of the Shortfall Amount into [***]. The Company will issue the Foundation a promissory note (the ***Shortfall Amount Note***) for the amount due which will bear interest at a rate of [***]% per annum and will immediately become due and payable in full in the event of an Acquisition Transaction (as defined in the Letter Agreement).

5.4 To the extent permitted by law and subject to Clause 5.5, for as long as the Foundation holds Shares or there is an obligation outstanding from the Company to compensate the Foundation for a Shortfall Amount,

(a) the Company shall procure that no dividends are paid on any of its share capital, no Shares of any other Shareholder of the Company are redeemed (other than repurchases at cost of Shares of the share capital from employees, officers, directors, consultants or other persons performing services for the Company or any Affiliate pursuant to agreements under which the Company has the option to repurchase such Shares upon the occurrence of the termination of employment or service) and no other distribution to any other Shareholder of the Company in respect of the share capital held by such Shareholders is being made (any such transaction a ***Distribution***), and

(b) annual profits shall, to the extent permitted by law, be contributed to the Unrestricted Reserves up to the USD Issuance Price times the Current Foundation Shares (the ***Aggregate USD Issuance Price*** and such obligation the ***Build-up Obligation***), provided however that if at any time following a Charitability Default for any reason either the Company has not repurchased any or all of the Foundation Shares (under the Put-Option or pursuant to Clause 5.2) or there is an obligation outstanding from the Company to compensate the Foundation for a Shortfall Amount (the time during which either such case exists, the ***Default Period***) the Build-up Obligation shall require the Company to contribute annual profits to the Unrestricted Reserves up to the amount equal to the Minimum Purchase Price times the Current Foundation Shares (the ***Aggregate Minimum Purchase Price***) rather than the Aggregate USD Issuance Price.

5.5 Any Distribution shall be permitted and the Build-up Obligation does not apply solely

(a) prior to a Default Period: to the extent the Unrestricted Reserves of the Company as of the annual financial statements reference date exceed the Aggregate USD Issuance Price,

(b) during a Default Period: to the extent the Unrestricted Reserves of the Company as of the annual financial statements reference date exceed the Aggregate Minimum Purchase Price, but only at each time after the Company has given an Option Readiness Notice and the Foundation has not after such Option Readiness Notice exercised the Put-Option within one month after receiving such Option Readiness Notice and only for as long as the Foundation does not after such Option Readiness Notice exercise the Put-Option and

(c) during a Default Period in the event that the only remaining obligation of the Company with respect to the Withdrawal Right is payment of any remaining amounts due under the Shortfall Amount Note and the Company is not in default on such note.

5.6 Notwithstanding anything in this Schedule 4, the Company shall use best endeavors to cause such arrangements to be made as is required to effect the Withdrawal Right to the largest extent permitted by law. In the event any such arrangements shall become invalid or unenforceable, the Company shall effectuate any measures required to effect the Withdrawal Right. Such measures *inter alia* include the execution of new put-option agreements, obtaining the supervisory board's approval for the transfer of the Foundation Shares or obtaining a new authorization for purchasing treasury shares pursuant to section 71 para. 1 no. 8 German Stock Corporation Act (*Aktiengesetz, AktG*) from the shareholders' meeting of the Company.

6. Costs

The Company shall pay all fees and expenses incident to the performance of or compliance with this Schedule 4 by the Company.

7. No Effect on Letter Agreement

For the avoidance of doubt it is understood by the Parties that the validity of the Letter Agreement and any project agreed on in connection with the Global Access Commitments (as defined in the Global Access Commitments) shall continue regardless of a sale of the Foundation Shares pursuant to this Schedule 4 and the Foundation shall continue to be entitled to enforce its rights under the Letter Agreement and in relation to any agreed projects.

EXECUTION VERSION

August 30, 2019
BioNTech SE
An der Goldgrube 12
Mainz, Germany
Attention: [***]

Re: Strategic Relationship between the Bill & Melinda Gates Foundation and BioNTech SE

Ladies and Gentlemen:

This letter agreement (including all appendices and attachments hereto, the "**Letter Agreement**") is entered into in connection with the investment by the Bill & Melinda Gates Foundation (the "**Foundation**"), a Washington charitable trust that is a tax-exempt private foundation, of fifty-five million dollars (US$55,000,000.00) (the "**Foundation Investment**") in ordinary shares of BioNTech SE, a Societas Europaea (the "**Company**", with such shares being referred to as the "**Foundation Shares**"), at a purchase price of US$ 18.10 per share, whereby such shares will, on the basis of pertinent contractual arrangements, enjoy certain preferences to be established by an amendment to the shareholders' agreement for the Company in such form as the Foundation and the Company may agree (such shareholders' agreement as so amended the "**Amended SHA**"). The Foundation is making the Foundation Investment to induce the Company to perform the Global Access Commitments set forth herein, and the Company acknowledges and agrees that it would not undertake such Global Access Commitments absent the Foundation Investment. The Foundation Investment will be made in accordance with an investment agreement to be entered into on or about the date hereof in such form as the Foundation and Company may agree (the "**Investment**

Agreement"), the Amended SHA, this Letter Agreement, and any additional agreements executed in connection therewith (collectively, and together with any additional agreements that may be executed in connection with the Foundation Investment, in each case as amended from time to time in accordance with their terms, the "**Investment Documents**"). The Foundation Investment is conditioned upon (i) the execution and delivery of the applicable Investment Documents by the parties thereto, (ii) the Investment Agreement becoming unconditional in all respects (save only for any condition relating to the completion of this Letter Agreement) and (iii) the Foundation obtaining a written legal opinion from tax counsel that the Foundation Investment will qualify as a program-related investment under the Code. This Letter Agreement shall terminate in the event that Closing of the Foundation Investment (as defined in Section 1 below) and the issuance of the Foundation Shares pursuant to the terms of the Investment Agreement do not occur.

In consideration of the Foundation making the Foundation Investment on the terms and conditions stated herein and in the Investment Documents, and for other good and valuable consideration, the parties hereto hereby irrevocably agree as follows:

1. Definitions. For the purposes of this Letter Agreement the following terms have the meanings indicated.

"**Acquisition Transaction**" means (a) the acquisition, directly or indirectly, after the date of this Letter Agreement, by any person or group (within the meaning of Section 13(d)(3) of the Exchange Act) of beneficial ownership of securities of the Company possessing more than 50% of the total combined voting power of all outstanding voting securities of the Company, (b) a merger, consolidation or other similar transaction involving the Company, except for a transaction in which the holders of the outstanding voting securities of the Company immediately prior to such merger, consolidation or other transaction hold, in the aggregate, securities possessing more than 50% of the total combined voting power of all outstanding voting securities of the surviving entity immediately after such merger, consolidation or other transaction, or (c) an assignment, sale, transfer or exclusive license of all or substantially all of the Company's assets, whether by merger, stock transfer, or otherwise.

"**Additional Project**" means a project proposed by the Foundation that is conducted by the Company utilizing the Platform Technology to conduct research and product development for a product or therapeutic intervention in accordance with a mutually-agreed upon statement of work and TPP, and potentially to further develop, commercialize, and distribute such product or therapeutic intervention for use in the Developing Countries.

"**Affiliate**" means, as to any person or entity, any person or entity that, directly or indirectly, controls, is controlled by or is under common control with such person or entity at any time and for so long as that control exists, where "control" (for purposes of this definition of "Affiliate" only) means having the decision-making authority as to or right to direct the management of the person or entity and, further, where that control will be deemed to exist where a person or entity owns more than 50% of the equity entitled to vote regarding composition of the board of directors or other body entitled to direct the affairs of the person or entity. Notwithstanding the foregoing, for purposes of this Letter Agreement [***] shall not be considered an Affiliate of the Company.

"**[***]**" has the meaning set forth in Section 3(m)(ii).

"**[***]**" has the meaning set forth in Section 3(m)(ii).

"**Business Day**" means any day other than a Saturday, a Sunday or other day on which commercial banks in the United States or Germany are authorized or required by law to close.

"**Charitability Default**" means that:

(i) the Company materially breaches any of the Global Access Commitments other than for reasons of technical or scientific failure not within the control of the Company and not known to the Company at or before Closing of the Foundation Investment. The Company is required to use reasonable best efforts (as further detailed in Section 3(c)) to perform the Global Access Commitments, but cannot guarantee the outcome or timeline given the experimental nature of the Projects,

(ii) the Company fails to comply with the restrictions in Sections 2 and 8 of this Letter Agreement on the use of proceeds from the Foundation Investment,

(iii) the Company fails to comply with the other U.S. legal obligations set forth in this Letter Agreement, including the requirements set forth in Sections 6, 10 or 11, or

(iv) [***];

in each case (i) and (iii) to the extent such breach or failure continues to exist [***] days after the Company becomes aware of the relevant breach or failure. For the avoidance of doubt, no such cure period shall apply in the event of a breach or failure in case of (ii) or (iv). Each party agrees to promptly notify the other party in writing if it becomes aware of any breach or failure as set forth under (i) to (iv) above. Notwithstanding the foregoing, the Foundation will not lose any rights or remedies solely as a result of a failure to notify the Company after it becomes aware of any breach or failure as set forth under (i) to (iv) above.

"**Charitable Purpose**" has the meaning set forth in Section 2(a).

"**Claim**" has the meaning set forth in Section 14.

"**Closing of the Foundation Investment**" means the submission of the Subscription Form (as defined in the Investment Agreement) by the Company to the Foundation in accordance with Section 1.2(f) of the Investment Agreement.

"**Code**" means the U.S. Internal Revenue Code of 1986, as amended.

"**Company**" has the meaning set forth in the introductory paragraph.

"**Completion Date**" has the meaning set forth in Section 3(b).

"**Confidential Information**" has the meaning set forth in Section 13.

"**Developing Countries**" means those countries described as "Developing Countries" on *Appendix A*.

"**Development Partner**" has the meaning set forth in Section3(d)(v)(A)(2) .

"**Direct Competitor**" of the Company means any of the companies listed on *Appendix B*, [***]. For clarity, notwithstanding anything in this Letter Agreement to the contrary, [***] will not be considered Direct Competitors.

"**Disclosing Party**" has the meaning set forth in Section 13.

"**Dispute**" has the meaning set forth in Section 20.

"**Event Stamp HIV**" means [***].

"**Event Stamp TB**" means [***].

"**Exercise Event**" has the meaning set forth in Section 3(m)(iii).

"**Exchange Act**" means the Securities Exchange Act of 1934, as amended.

"**Excluded Diseases**" has the meaning set forth on Part B of *Appendix C*.

"**Excluded Transferee**" has the meaning set forth in Section 3(m)(iv).

"**Foundation**" has the meaning set forth in the introductory paragraph.

"**Foundation Investment**" has the meaning set forth in the introductory paragraph.

"**Foundation Securities**" means any securities of the Company issued in connection with the Foundation Investment, including securities issued in respect of or upon conversion or exercise of such securities.

"**Foundation-supported Entity**" means an entity selected by the Foundation for participation in a Project that receives funding, directly or indirectly, from the Foundation, collaborates with the Foundation, or both, for the purpose of accomplishing the Foundation's charitable objectives, but excluding any Direct Competitor.

"**Foundation Election Not to Proceed**" has the meaning set forth in Section 3(a)(i).

"**Fully Loaded Costs**" means with respect to a Product, [***].

"**Funded Developments**" means the products, technologies, materials, processes, and intellectual property rights [***] or [***].

"**Gates MRI**" means the Bill & Melinda Gates Medical Research Institute, a nonprofit research institution organized under the laws of the state of Washington.

"**Global Access**" means that (a) knowledge gained using the Foundation's funding is promptly and broadly disseminated and (b) the products and technologies developed or supported with the Foundation's funding will be made available and accessible at an affordable price to people most in need in Developing Countries.

"**Global Access Commitments**" has the meaning set forth in Section 3.

"**Global Health License**" has the meaning set forth in Section 3(m)(i).

"**HIV Project**" means the development of one or more Products for the prevention or treatment of HIV consistent with the HIV TPP.

"**HIV Project Statement of Work**" means the Statement of Work with respect to the HIV Project, which is attached hereto as *Appendix D*.

"**HIV TPP**" has the meaning set forth in the HIV Project Statement of Work.

"**Indemnitees**" has the meaning set forth in Section 14.

"**Initial HIV SOW**" has the meaning set forth in the HIV Project Statement of Work.

"**Initial TB SOW**" has the meaning set forth in the TB Project Statement of Work.

"**Investment Agreement**" has the meaning set forth in the introductory paragraph.

"**Investment Documents**" has the meaning set forth in the introductory paragraph.

"**Joint Steering Committee**" has the meaning set forth in Section 3(j).

"**Letter Agreement**" has the meaning set forth in the introductory paragraph.

"**Manufacturing Partner**" has the meaning set forth in Section3(d)(v)(B)(2) .

"**Platform Technology**" means the Company's [***]. For the avoidance of doubt, the Platform Technology includes [***].

"**Product**" means any product or therapeutic intervention (at any stage of development, e.g., from discovery through commercialization) developed pursuant to a Project. For the avoidance of doubt, any product developed or acquired (including in-licensed) by the Company or its Affiliates or subcontractors through activities outside and independent of any Project shall not constitute a Product.

"**Project**" means each of the HIV Project, the TB Project and each Additional Project, including any further development as contemplated by Section 3(d). "**Projects**" means collectively the HIV Project, the TB Project and all Additional Projects.

"**Protected Health Information**" means any personally identifiable health information which is protected under applicable data protection laws from unlawful disclosure.

"**Receiving Party**" has the meaning set forth in Section 13.

"**Representatives**" has the meaning set forth in Section 13.

"**Securities Act**" means the U.S. Securities Act of 1933, as amended from time to time.

"**TB POD TPP**" means the TB POD TPP to be provided by the Foundation as set forth in the TB Project Statement of Work.

"**TB POI TPP**" means the TB POI TPP to be provided by the Foundation as set forth in the TB Project Statement of Work.

"**TB Project**" means the development of one or more Products for the prevention or treatment of TB consistent with the TB POI TPP and/or TP POD TPP.

"**TB Project Statement of Work**" means the Statement of Work with respect to the TB Project, which is attached hereto as *Appendix E*.

"**TPP**" means Target Product Profile.

"**Withdrawal Right**" has the meaning set forth in the Investment Agreement.

2. Charitable Purpose; Use of Proceeds.

(a) **Charitable Purpose**. The Foundation is making the Foundation Investment as a "program-related investment" within the meaning of Section 4944(c) of the Code. The Foundation is committed to accelerating the development of lifesaving and low-cost drugs, therapeutics, diagnostics, and prophylactics to reduce the burden of disease in developing countries in furtherance of its mission to help all people lead healthy, productive lives. The Foundation's primary purpose in making the Foundation Investment is to secure Global Access to new, low-cost products and services developed through the use of the Company's proprietary capabilities and intellectual property all as contemplated herein, including (i) research capabilities across all of the Company's Platform Technology which are specifically utilized in the HIV Project, TB Project and/or in one or more Additional Projects, (ii) Foundation-supported product candidates related to the Foundation's target diseases for use in the developing world and (iii) product development capabilities (collectively, the "**Charitable Purpose**"). In furtherance of the Charitable Purpose, the Foundation Investment will secure the Global Access Commitments described below.

(b) **Use of Proceeds**. The proceeds from the Foundation Investment will be used solely in furtherance of the Charitable Purpose to:

(i) officially establish and build the infectious disease capabilities of the Company in accordance with Section 3(i) with a budget of EUR 16.15 million, including costs for new FTEs, infrastructure (labs and facilities) and further developing the technology platforms (including taking further licenses to technology) to enable the Company to complete the Projects;

(ii) conduct the Initial HIV SOW; and

(iii) conduct the Initial TB SOW.

The proceeds from the Foundation Investment will not be required to be segregated in a separate account.

3. Global Access Commitments.

As a condition to the Foundation making the Foundation Investment and to ensure satisfaction of the Charitable Purpose and Global Access, the Company agrees to the following (collectively "**Global Access Commitments**"):

(a) **Performance of Initial Scopes of Work**.

(i) The Company will use the Foundation Investment to complete the work packages set forth in the Initial HIV SOW and the Initial TB Project SOW. In the event that during the course of performing the Initial HIV SOW and the Initial TB SOW the Company determines that the costs are reasonably likely to exceed the aggregate agreed budget for such Projects of [***] and the Company has used good faith efforts to adhere to the agreed budget and the parties have not materially modified the Initial HIV SOW or the Initial TB SOW, the Company will provide estimates for the additional costs and the reasons for the proposed additional costs to the Joint Steering Committee. The Joint Steering Committee will determine whether additional costs are necessary and the amount of such costs. The Company and the Foundation will determine in good faith a reasonable allocation of such additional costs between the Company and the Foundation or Foundation-supported Entities. If [***], as applicable.

(ii) If the parties mutually agree to make any material modifications to the Initial HIV SOW or the Initial TB SOW that impact the budget for such Projects, then at the time of such modification the parties will agree upon the new budget, and the [***] described in subsection (i) above will be based on the adjusted budget.

(iii) After the Company has completed the Initial HIV SOW and/or the Initial TB SOW, the Foundation will have the right, at its discretion (subject to the Company's right to decline any additional funding to the extent permitted by Section 3(d)(v) below), to continue providing funding (directly or through a Foundation-supported Entity) to advance the HIV Project and/ or TB Project through commercialization and distribution of a final product in accordance with the HIV TPP, TB POI TPP and/or TB POD TPP, as applicable, in accordance with Section 3(d) below. Depending upon the achievement of Project progress-driven milestones, which may be defined in the respective Project statements of work, the parties currently anticipate that the total potential grant funding relating to Projects (including Projects funded by Foundation-supported Entities) could reach up to forty-five million dollars (USD$45,000,000.00), provided that any such additional grant funding will be in the Foundation's discretion and subject to execution of grant documents for such Projects in accordance with the Foundation's standard grant making process.

(b) **Additional Projects**. If requested by the Foundation, at its discretion, and subject to the terms herein, the Company will utilize the Platform Technology to diligently conduct up to three (3) Additional Projects (in addition to the HIV Project and TB Project). The Foundation, at its discretion, can select the Additional Projects from the list of diseases set forth on Part A of *Appendix C*. For the avoidance of doubt, the Additional Projects will not be funded by the Foundation Investment except in the limited circumstances following a determination that it is futile to continue with a workplan as set forth in the TB Project Statement of Work or HIV Project Statement of Work. If the Foundation elects to proceed with one or more Additional Projects, it will provide additional funding as described herein. The Company and the Foundation can work on more than three (3) Additional Projects in parallel if they mutually agree to do so. The Foundation will have five (5) years from the Closing of the Foundation Investment to identify Additional Projects. The initial scope of work (to be financed with additional funding from the Foundation except in the limited circumstances following a determination that it is futile to

continue with a workplan as set forth in the TB Project Statement of Work or HIV Project Statement of Work) for all Additional Projects, regardless of the individual Project's start date, will be structured in such a way that it is scheduled to be completed by the eighth (8th) anniversary of the Closing of the Foundation Investment (the "**Completion Date**"). Following the Completion Date, the Company will have the right to accept or decline any additional funding for any additional work under such Additional Projects as described in Section 3(d)(v) below, provided that the Global Access Commitments shall continue to apply with respect to the Funded Developments (and to the Platform Technology to the extent required to further develop and commercialize the Funded Developments in accordance with this Letter Agreement) developed to, or existing at the Completion Date. If the Foundation elects to proceed with all three (3) Additional Projects, at least one of such projects will be related to malaria.

(c) **Performance of Projects.** The Company will perform all Projects in good faith using substantially the same level of efforts, resources, time, and expediency as are consistent with the practices of the Company with respect to the research and development, regulatory approval and commercialization of any other Company products at a similar stage in development, including the Company's commercial products intended for markets other than in Developing Countries.

(d) **Further Development**.

(i) If the Foundation elects at any time to proceed either with additional work on the HIV Project, TB Project or any Additional Project, the Foundation and the Company will agree in good faith on one or more subsequent statements of work, which may include applicable development, commercialization and associated activities conducted by the Company and potentially one or more partner(s) that are not Direct Competitors as agreed by the Company and the Foundation, including seeking applicable country-level regulatory approvals. Such partner may include the Gates MRI if requested by the Foundation and agreed to by the Gates MRI and the Company.

(ii) If the Foundation requests the Company to continue work on the HIV Project, the TB Project and/or any Additional Project, any additional funding from the Foundation or a Foundation-supported Entity will be provided pursuant to the Foundation's standard funding terms and processes. The specific level and allocation of funding responsibilities between the parties (and potentially Foundation-supported Entities) for any such Project will be mutually agreed in good faith in writing by the parties to fairly allocate the expected benefits between Developing Countries and developed countries.

(iii) Any agreements for further work relating to the HIV Project and/or TB Project or for an Additional Project will include a proposal describing the relevant work (including specific Global Access Commitments) and other related documents acceptable to the Foundation and the Company including a manufacturing, commercialization and distribution plan for the Developing Countries taking into account the Company's actual and projected capabilities at the time of developing such plan, and will be consistent with the HIV TPP, the TB POI TPP, the TB POD TPP and/or any TPP relating to an Additional Project, as applicable. The applicable funding agreements will also include a mutually acceptable license to the Funded Developments developed or acquired (including in-licensed) by the Company in connection with the Company's conduct of

such work and the Platform Technology to the extent required to further develop and commercialize the relevant Product(s). The terms of such license will be no less favorable to the Foundation than the terms of the Global Health License, unless mutually agreed otherwise by the parties in their respective discretion.

(iv) If the Foundation desires to continue funding as set forth herein to advance the HIV Project, TB Project and/or any Additional Project through commercialization and distribution of a final product, but the Company reasonably believes that such further product development is not feasible due to scientific or technical failure or would cause a material adverse effect on the Company, then the matter will be submitted to the Joint Steering Committee. If the members of the Joint Steering Committee do not mutually agree with the Company's determination then the matter will be resolved in accordance with the dispute resolution process set forth in Section 20 below.

(v) Notwithstanding the foregoing, the Company will have the right to decline any additional funding or extension of (1) the TB Project following completion of the Initial TB SOW and either the occurrence of an Event Stamp TB or in accordance with Section 3(d)(vi)(B), (2) the HIV Project following completion of the Initial HIV SOW and either the occurrence of an Event Stamp HIV or in accordance with Section 3(d)(vi)(B) and (3) any Additional Project following the Completion Date or in accordance with Section 3(d)(vi)(B). If the Foundation desires to continue funding the HIV Project, the TB Project and/or any Additional Project and the Company does not agree to accept such additional funding and continue development of the applicable Project to the extent permitted by (1), (2) or (3) above (each such case a "**Company Election Not to Proceed**"), then the commitments described in Sections 3(d)(v)(A) and 3(d)(v)(B) will apply.

(A) Further Development Activities Following a Company Election Not to Proceed

(1) If elected by the Foundation, and subject to the agreement of the Gates MRI, the Company will grant a license equivalent to the Global Health License to the Gates MRI and a license in accordance with Section 3(d)(v)(B)(3) to the Manufacturing Partner identified pursuant to the process set forth below and will undertake associated technology transfer activities to the extent reasonably required for the further development and manufacturing (if applicable) of the applicable Product pursuant to a development plan on reasonable market terms.

(2) If the Foundation does not make the election set forth in Section 3(d)(v)(A)(1) above, the Company will use reasonable best efforts to identify a third party that is reasonably acceptable to the Foundation to continue development of the applicable Product (which third party may also be the Manufacturing Partner identified below). If a third party is not selected to continue development of the applicable Product pursuant to the previous sentence, the Foundation will have the right to identify a third party that is not a Direct Competitor to continue development of the applicable Product (which third party may also be the Manufacturing Partner identified below). The Gates MRI or the third-party identified pursuant to this clause 3(d)(v)(A)(2) is referred to as the "**Development Partner**".

(3) The Company will grant a license equivalent to the Global Health License to the Development Partner and, unless the Company is manufacturing all Product required by the Development Partner, a license in accordance with Section 3(d)(v)(B)(3) to the Manufacturing Partner identified pursuant to the process set forth below if the Development Partner is not also the Manufacturing Partner, and will undertake associated technology transfer activities to the extent reasonably required for the further development of the Product. In addition, [***]. The Company will notify the Foundation at least 10 days [***]. The Company may request from any Development Partner that (1) its name and/or logo must be appropriately displayed on any Product (or any related marketing materials, leaflets or packaging) that will be distributed by any Foundation-supported Entity (which may include the Development Partners, Manufacturing Partners or sublicensees) under this Letter Agreement and (2) the Development Partner adequately mentions the Company as the technology provider to the extent applicable in any public statements or disclosures relating to any Product.

(B) Further Manufacturing Activities Following a Company Election Not to Proceed:

(1) If requested by the Company, the Company shall have the right to manufacture all Product required by the Development Partner under a manufacturing agreement to be concluded between the Company and the Development Partner.

(2) If the Company does not request to manufacture the Product and the Development Partner identified above is unable or unwilling to manufacture the applicable Product, the Company will use reasonable best efforts to identify a third party that is reasonably acceptable to the Foundation to manufacture the Product, including considering in good faith potential manufacturers proposed by the Foundation. The third-party identified pursuant to this Section 3(d)(v)(B)(2) with whom the Development Partner has concluded an agreement with respect to the manufacture of the Product is referred to as the "**Manufacturing Partner**".

(3) The Company will grant a non-exclusive license to the Manufacturing Partner to the extent required for the Manufacturing Partner to fulfill its manufacturing obligations related to the Product for the Development Partner for Developing Countries and will undertake associated technology transfer activities on reasonable market terms to the extent reasonably required for the manufacturing of the Product. If [***]. The Company may request from any Manufacturing Partner that (i) its name and/or logo must be appropriately displayed on any Product (or any related marketing materials, leaflets or packaging) manufactured by such Manufacturing Partner and (ii) the Manufacturing Partner adequately mentions the Company as the technology provider to the extent applicable in any public statements or disclosures relating to any Product.

(4) If a Manufacturing Partner is not identified pursuant to Section 3(d)(v)(B)(2) , the Company will manufacture the initial supply of the relevant Product required for the immediate planned clinical study and will continue to supply Product for subsequent trials until a Manufacturing Partner is identified. The Company will continue to apply reasonable best efforts to identify a Manufacturing Partner during this time.

(5) If a Manufacturing Partner is not identified by the Company within a reasonable time prior to market approval of the applicable Product, the Company will, provided it has a facility to provide commercial manufacturing quantities for the applicable Product, manufacture the commercial supply of the Product under a contract manufacturing agreement to be concluded on reasonable market terms between the Company and the Development Partner until a suitable Manufacturing Partner is identified. If the Company does not have an adequate commercial manufacturing capability to manufacture a sufficient quantity of the applicable Product and a Manufacturing Partner has not been identified, the Company will build such a facility (or increase the capacity of an existing facility) to meet the manufacturing, commercialization and distribution requirements agreed by the Foundation and the Company in good faith in the relevant grant proposal document for the relevant Product. The funding for such build will be mutually agreed in good faith in writing by the Foundation and the Company to fairly allocate the expected benefits between Developing Countries and developed countries. If at any time following the commencement of such build a Manufacturing Partner is identified, the Company may choose (in its sole discretion) to either (X) initiate or continue (as the case may be) the manufacturing or (Y) grant a manufacturing license to such Manufacturing Partner and to provide technology transfer activities on reasonable market terms to such Manufacturing Partner to the extent reasonably required for such manufacturing. For the avoidance of doubt, during the time that the Company is building a facility or increasing the capacity of an existing facility pursuant to this Section 3(d)(v)(B)(5) , it will not be required to reduce the commercial manufacturing output at its existing facilities in order to accommodate manufacturing additional Products beyond what it has already committed to manufacture.

(6) For clarity, the licenses granted pursuant to Sections 3(d)(v)(A) and 3(d)(v)(B) (and associated technology transfer obligations) will not be subject to any Exercise Events. These licenses and activities will be documented in agreements between the Company and the relevant party entered into as soon as reasonably possible. When a license is required to be granted under the terms stated above, the relevant parties may agree to a broader license but under no circumstance (except for the license granted pursuant to Section 3(d)(v)(B)(3)) will the license be more restrictive than the Global Health License required under this Letter Agreement. All manufacturing and related activities to be performed by the Company under this Section 3(d)(v)(B) (including logistics, warehousing, transport, etc.) shall be charged by the Company at Fully Loaded Costs of the relevant Product (excluding, for the avoidance of doubt, the manufacturing for developed countries which have been licensed to the Development Partner).

(vi) Prior to [***], as applicable:

(A) If [***].

(B) If [***].

(vii) If at any time the Foundation does not elect to proceed with additional work on a Project or further development of a Product, including following a Foundation Election Not to Proceed, (A) the Global Access Commitments shall continue to apply with respect to the Funded Developments (and to the Platform Technology to the extent required to further develop and commercialize the Funded Developments in accordance with this Letter Agreement) developed to,

or existing at the time the Foundation ceases to proceed with funding additional work or further development (but, for the avoidance of doubt, not with respect to any developments made by or on behalf of the Company after such point if the Company decides to continue the development outside of the scope of this Letter Agreement), (B) the Foundation will have the right at any time to elect to proceed with additional work on such Project or further development of such Product in accordance with this Section 3(d) and the Company will continue such development or, if the Company declines to continue such development as permitted in Section 3(d)(v), the commitments described in Sections 3(d)(v)(A) and 3(d)(v)(B) will apply and (C) the Company will not grant to a third-party any rights or enter into any arrangements or agreements or otherwise take any actions that would limit or restrict the Global Access Commitments with respect to the Funded Developments, including as described in subsections (A) and (B) above.

(e) **Pandemic Response**. If during the conduct of the HIV Project Statement of Work or TB Project Statement of Work there is a need for an emergency response to a pandemic of an infectious disease that has not already been partnered with a third party [***], the Foundation can request the Company to accept a grant-funded project in response to such pandemic, and the Company may elect to accept such funding at its sole discretion, which may include the development of a drug, vaccine or diagnostic, and the Company will negotiate in good faith with the Foundation to reach agreement on such pandemic response project.

(f) **Access to Products Developed for Excluded Diseases**. If the Company obtains regulatory approval for any product(s) for the treatment or prevention of any of the Excluded Diseases and has not entered into a binding agreement with a third party on an exclusive basis with respect to the manufacturing, distribution and/or commercialization of such product, then the Company agrees to consider in good faith any request from the Foundation regarding providing access to such product in Developing Countries at an affordable price. The parties acknowledge that if the Foundation requests such access, providing access may require further financial support from the Foundation or a Foundation-supported Entity to the Company. For clarity, under no circumstances will any of the Excluded Diseases be the subject of any Additional Project unless agreed by the Company in its sole discretion.

(g) **Receipt and Continuation of Licenses**. The Company shall continue to maintain all necessary licenses and rights with respect to the Platform Technology and Funded Developments needed to perform the Global Access Commitments. If the Company wishes to discontinue any such license or right, it shall request the Foundation's prior written approval (which shall not be withheld by the Foundation unreasonably). In the event that licenses described in the previous sentence are received from one or more Foundation-supported Entities, then in addition to and without jeopardizing such licenses, the Company will have the right at its own cost and without assistance from the Foundation to seek to negotiate with such Foundation-supported Entity(ies) the right to also use such licensed intellectual property for other applications.

(h) **Pricing and Volume Commitments**. The Company will make available in Developing Countries all Products developed and commercialized pursuant to a Project (i) at or below the price set forth in the applicable TPP and (ii) in quantities meeting or exceeding those set forth in the applicable statement of work (or other applicable global access agreements between the Foundation and the Company), provided that if the Fully Loaded Costs exceed the price set

forth in the applicable TPP then the Company will make such Product available at the Fully Loaded Costs, unless the parties mutually agree otherwise. If a Product is to be sold at Fully Loaded Costs in accordance with the foregoing provision, and the relevant buyer is an affiliate or any other related person (*nahestehende Person*) within the meaning of the German tax law of the Foundation, then the Company will make such Product available to such relevant buyer at Fully Loaded Costs plus an arm's-length markup of up to 10% (as applicable), provided, however, that (x) the competent German tax office responsible for the taxation of the Company confirmed in a binding ruling (*verbindliche Auskunft*) pursuant to Sec. 89 para. 2 of the German Tax Code (*Abgabenordnung*) that a sale at Fully Loaded Costs without a profit markup would otherwise result in a hidden profit distribution (*verdeckte Gewinnausschüttung*) under German tax law and the Company and the Foundation have, in good faith, agreed on a then applicable profit mark-up of up to 10% or (y) a respective markup is applied with the Foundation's prior written consent. Due to [***], it is likely that [***].

(i) **Build Out of Infectious Diseases Capabilities**. Within [***] of the Closing of the Foundation Investment, the Company will implement a plan for the build out of the Company's infectious disease capabilities, excluding manufacturing, that is reasonably acceptable to the Foundation. Such plan will include [***] and further development of the Platform Technology in order to enable the Company to conduct the HIV Project, the TB Project and any Additional Projects and achieve the Global Access Commitments. The Company will submit any subsequent proposed changes to such plan in advance to the Foundation for approval (which approval shall not be unreasonably withheld or delayed). The Company will complete the build out according to the approved plan utilizing a portion of the Foundation Investment. In addition, the Company will provide information to the Joint Steering Committee regarding the Company's plans for the build out of manufacturing capabilities to produce infectious disease products as such plans become available.

(j) **Joint Steering Committee**. The Foundation and the Company will each designate three individuals who are subject matter experts to be part of a joint steering committee (the "**Joint Steering Committee**") that will provide a forum for discussion of the application of the Platform Technology and the progress of each of (i) the HIV Project, (ii) the TB Project and (iii) all Additional Projects. The Joint Steering Committee will decide [***]. A decision by the Joint Steering Committee [***] shall not in any way limit or restrict the Foundation's right to continue further development of such Project or any other Project in accordance with Section 3(d). For the avoidance of doubt, the Joint Steering Committee shall have no authority to amend any statement of work with respect to a Project and any such amendment requires the mutual agreement of the Foundation and the Company.

The Joint Steering Committee will meet at least once quarterly via teleconference and at least once annually in-person. With the agreement of both the Foundation and the Company and subject to the execution of appropriate confidentiality agreements, third parties may be invited from time to time to participate in certain Joint Steering Committee discussions. Decisions made at the Joint Steering Committee must be mutually agreed upon by each of a majority of the individuals designated by the Foundation and a majority of the individuals designated by the Company; provided that if the Joint Steering Committee determines that a change is needed to the scope of work for the HIV Project or TB Project and such change would require a change to the

Platform Technology that the Company reasonably believes has a low probability of scientific or technical success or is reasonably likely to have a material adverse effect on the Company, then such change will require the Company's consent. Other than the decision described in the preceding sentence, [***], then such matter will be considered a Dispute and will be resolved in accordance with the dispute resolution procedure set forth in Section 20.

(k) **Publication; Access to Data and Information**. The Company will (in addition to the publication requirements of any grant agreement with the Foundation):

(i) publish the results and information developed in connection with each Project within a reasonable period of time after such information or results are obtained, subject to reasonable delays or limitations on content of such publications that are necessary to protect intellectual property and trade secrets covering the development and Platform Technology itself. All publications must be made in accordance with "open access" terms and conditions consistent with the Foundation's Open Access Policy (available at: http://www.gatesfoundation.org/ How-We-Work/ General-Information/ Open-Access-Policy), which may be modified from time to time; and

(ii) promptly provide to the Foundation from time to time, upon the Foundation's request and in a format that is acceptable to the Foundation, access to data and information regarding the Projects (including information necessary and sufficient to support the utilization of the Company's Platform Technology by partners who are collaborating on the Projects as set forth in the applicable statement of work (taking into account the need to protect the intellectual property of such Platform Technology)), the reasonably contemplated use of the Platform Technology and Funded Developments for such Projects (taking into account the need to protect the intellectual property of such Platform Technology), and the considerations made by the Company with respect to accessibility, affordability and cost effectiveness.

(l) **No Inconsistent Rights**. The Company will not grant to a third-party any rights or enter into any arrangements or agreements that would limit or restrict the Foundation's or a Foundation-supported Entity's ability to exercise its rights or the Company's ability to perform its obligations under this Letter Agreement (including the Global Health License and the Foundation's right to require Additional Projects from the list of diseases set forth in Part A of *Appendix C*). The Foundation will not be required to take any action or enter into any arrangement or agreement that would limit or restrict the Foundation's ability to exercise its rights under this Letter Agreement.

(m) **Global Health License**.

(i) **Global Health License**. In connection with and relating to the Projects, the Company hereby grants the Foundation, effective immediately, a worldwide, non-exclusive, non-terminable (subject to the terms of any relevant in-licenses), perpetual, royalty-free license (with the right to sublicense with the limitations specified in this Letter Agreement) under the Funded Developments and the Platform Technology to the extent required to use, reproduce, modify, make, distribute, sell, offer-for-sale, import, and otherwise dispose of any Product for the purpose of benefiting poor and needy people in Developing Countries ("**Global Health License**"). The

Global Health License is a presently granted license. To the extent the foregoing Global Health License includes the grant of sublicense rights under intellectual property rights owned by a third party, the grant of such rights is made subject to the terms and conditions of the in-license agreements that are in existence and disclosed to the Foundation prior to the date of this Letter Agreement and set forth in *Appendix F*. As consideration for the Global Health License and the licenses granted pursuant to Sections 3(d)(v)(A) and 3(d)(v)(B) only, the Foundation will make a onetime lump sum payment to the Company in the amount of [***] (the "**License Fee**"). The License Fee is due and payable within ten (10) Business Days after Closing of the Foundation Investment.

(ii) [***].

(iii) **Exercise Events**. The Foundation will not exercise its rights under the Global Health License (including its sublicensing rights) unless at least one of the following occurs (each, an "**Exercise Event**"):

(A) a Charitability Default; or

(B) the Company (including any successors or assigns or Affiliates holding intellectual property rights applicable to the Projects) (1) institutes any bankruptcy, insolvency proceeding, appointment of a receiver, trustee and/or (preliminary) insolvency administrator or (preliminary) custodian, or legal proceedings in relation to a suspension of payments, moratorium of any indebtedness, reorganization (in either case for the release of financially distressed debtors), general assignment for the benefit of creditors, winding-up, dissolution, liquidation or similar proceeding relating to it under the laws of any jurisdiction or (2) any such proceeding is instituted against the Company which remains undismissed or unstayed for a period of [***] days or (3) ceases to conduct business in the ordinary course or is determined to no longer be a going concern, or – in case German insolvency laws do apply, is unable to pay its debts as they fall due within the meaning of Section 17 of the German Insolvency Code or is over-indebted within the meaning of Section 19 of the German Insolvency Code.

If either the Foundation or the Company becomes aware of an Exercise Event, it will promptly notify the other party in writing of the occurrence of such Exercise Event; provided that failure by the Foundation to provide such notice will not affect the Foundation's rights hereunder.

(iv) **Limitations on Sublicense Rights**. The right to sublicense included in the Global Health License is to (A) the Funded Developments and (B) Platform Technology; provided that in the case of Platform Technology, the right to sublicense is limited to the Platform Technology that is required to exploit the applicable Product(s). In addition, the Foundation will notify the Company in advance of granting a sublicense to such Funded Developments and/or Platform Technology and the Company will have the right to object to such sublicense if (1) [***] or (2) [***]. The Foundation will require any sublicensee to agree to comply with the applicable terms of this Letter Agreement, including the obligations related to the de-blocking license pursuant to Section 3(m)(ii) above.

(n) **Cooperation; Technology Transfer**. In connection with the Foundation's exercise of the Global Health License and subject to the limitations in this Section 3(n), the Company will take further actions, including technology transfer (subject to appropriate confidentiality obligations), as would be commercially reasonable industry practice at the time with respect to enabling the Foundation or a proposed sub-licensee to effectively exercise the applicable Global Health License for the sole purpose of using the licensed technology in order to develop and manufacture the relevant Products for the purpose of benefiting people in Developing Countries (including the right to reference regulatory filings related to the applicable Products).

The technology transfer commitments described above apply to (i) the Funded Developments and (ii) Platform Technology; provided that in the case of Platform Technology, the technology transfer commitments will only apply to Platform Technology that is required to exploit the applicable Product(s). In addition, the Company will have the right to object to the technology transfer obligations with respect to the Funded Developments and relevant Platform Technology listed above [***].

If the Foundation is not able to identify a potential sublicensee, [***], then [***] will apply.

(o) **Intellectual Property Rights**. The Company represents and covenants that [***].

(p) **Duration of Global Access Commitments**. The Global Access Commitments (including with respect to the Funded Developments (and to the Platform Technology to the extent covered by the Global Health License and the licenses granted pursuant to Sections 3(d)(v)(A) and 3(d)(v)(B))) will be ongoing and will continue for as long as the Foundation exists.

(q) **Responsibility**. The Company will be solely responsible and liable for all activities related to the conduct of the Projects. In no event shall the Foundation be a sponsor of any clinical trial, study, product, registration, or marketing authorization or the like.

(r) **Direct Competitors**. If at any time during the term of this Letter Agreement the Company reasonably establishes that a [***], then the Company [***]. The Foundation [***]. The Company agrees [***].

4. Survival of Global Access Commitments.

In the event of (i) any Acquisition Transaction or (ii) the sale, exclusive license, or other transfer of the Platform Technology or the Funded Developments, the Global Access Commitments will survive and be assumed in full by the purchaser, transferee, licensee, or acquirer either in a written agreement that is reasonably acceptable to the Foundation or by operation of law (if the Company is the surviving entity in the Acquisition Transaction) and the Company will take all action necessary to ensure such assumption. Upon request, the Company will provide a redacted copy of the underlying transaction documents to the Foundation evidencing such assumption (or continuation of the Company as the surviving entity). For clarity, notwithstanding anything to the contrary in this Letter Agreement, the Foundation's rights hereunder that exist on the date of the Acquisition Transaction or sale, exclusive license, or other transfer of the Platform Technology or the Funded Developments will not be terminated by such transaction.

5. Withdrawal Right.

(a) The Foundation has a Withdrawal Right on the terms set forth in the Investment Agreement. The Company agrees that the Withdrawal Right will remain in effect for so long as the Foundation holds any equity interests in the Company and if for any reason the Withdrawal Right is removed from the Investment Agreement or the Investment Agreement is amended or terminated while this Letter Agreement remains in effect, the terms of the Withdrawal Right will continue in full force and effect as if contained in this Letter Agreement.

(b) Notwithstanding any exercise of the Withdrawal Right, the Foundation will continue to be entitled to enforce its rights under the Global Access Commitments and in relation to any agreed Projects.

6. Required Reporting; Audit Rights.

(a) In addition to reports required to be delivered to the Foundation under the Investment Documents, the Company will furnish, or cause to be furnished, to the Foundation the following reports and certifications:

(i) within 90 days after the end of each of the Company's fiscal years during which the Foundation owns any securities in the Company, a certificate from the Company signed by an officer of the Company and substantially in the form attached to this Letter Agreement as *Appendix G*, certifying that the requirements of the Foundation Investment set forth in this Letter Agreement were met during the immediately preceding fiscal year, describing the use of the proceeds of the Foundation Investment and evaluating the Company's progress toward achieving the Global Access Commitments;

(ii) within 90 days after the end of the Company's fiscal year during which the Foundation ceases to own any securities in the Company, a certificate from the Company signed by an officer of the Company and substantially in the form attached to this Letter Agreement as *Appendix H*, certifying that the requirements of the Foundation Investment set forth in this Letter Agreement were met during the term of the Foundation Investment, describing the use of the proceeds of the Foundation Investment and evaluating the Company's progress toward achieving the Global Access Commitments;

(iii) promptly after receipt or submission by the Company, copies of all filings, submissions, reports, communications, inspection reports, Form 483, Warning Letters, Medical Device Reports (MDRs), notices of recall or withdrawal, and all other written communications, received from or provided to any regulatory authority, including but not limited to FDA and health authorities in Germany, relating to safety concerns in relation to any Product;

(iv) any other information respecting the operations, activities and financial condition of the Company as the Foundation may from time to time reasonably request to discharge any expenditure responsibility, within the meaning of Sections 4945(d)(4) and 4945(h) of the Code, of the Foundation with respect to the Foundation Investment, and to otherwise monitor the charitable benefits intended to be served by the Foundation Investment. The Foundation will reimburse the Company for any reasonable third-party expenses incurred by the Company in order

to prepare any information the Company is required to prepare solely as a result of this Section 6(a)(iv); and

(v) full and complete financial reports of the type ordinarily required by commercial investors under similar circumstances to the extent required pursuant to Treasury Regulation 53.4945-5(b)(4).

(b) At the Foundation's reasonable request, the Company will provide the Foundation with a summary of scientific data and progress to date on all Projects and any Platform Technology related to the foregoing, and the considerations made by the Company with respect to accessibility, affordability and cost-effectiveness of the applicable Products for people and payors in Developing Countries, in addition to the information that may be required under any grant agreements or other funding agreements.

(c) Without limiting the foregoing, at the Foundation's written request, the Company will permit the Foundation or its Representatives to inspect (at a reasonable time during regular office hours and in a way that does not unnecessarily interfere with the Company's activities) the scientific records of the Company relating to each Project with due regard to the reasonable need to protect trade secrets covering the Platform Technology and provided that the relevant persons performing the inspection are subject to reasonable confidentiality undertakings. Any such inspection must be notified at least ten (10) Business Days in advance. In such notice, the Foundation shall specify in reasonable detail the scientific records it would like to inspect. The Foundation or its Representative will not be allowed to take any copies of any records disclosed within the framework of the inspection without the Company's consent, which consent will not be unreasonably withheld.

(d) The Company shall maintain books and records adequate to provide such information as is necessary to comply with Treasury Regulations section 53.4945-5(b)(4), as amended from time to time, including accounting records and copies of any reports submitted to the Foundation related to each Project, and shall provide the Foundation upon request access to such books and records to the extent required in Treasury Regulation 53.4945-5(b)(4). The Company will retain such books, records, and reports for [***] years after the Foundation ceases to hold any Company securities and will make such books, records, and reports available to the Foundation upon request at reasonable times to enable the Foundation to monitor and evaluate how the Foundation's funds have been used.

(e) The Company will permit an international accounting firm reasonably acceptable to the Company at any reasonable time and upon reasonable prior notice, during normal business hours, to examine or audit the Company's books and accounts of record and to make copies of the same to the extent reasonably required for such audit, in each case at the Foundation's expense, to audit the Company's compliance with the use of the Foundation Investment and the Global Access Commitments. If the Company maintains any records (including computer-generated records and computer software programs for the generation of such records) in the possession of a third party, the Company, upon request of the Foundation, will notify such party to permit the accounting firm access to such records at all reasonable times and to provide the accounting firm with copies of any records it may reasonably request in connection with such audit, request or inquiry, all at the

Foundation's expense. The Foundation may exercise its audit right under this Section 6(e) no more than once in any calendar year and no more than once for the same books and records; provided that in the event the Company has previously been found to have been in breach the Foundation shall have the right to request an audit once per calendar quarter. In addition, any access shall be subject to reasonable confidentiality undertakings to be assumed by the accounting firm towards the Company.

7. Assignment.

Notwithstanding anything in this Letter Agreement or any Investment Document to the contrary, the Foundation will have the right to assign this Letter Agreement or transfer the Foundation Securities to (a) any successor charitable organization of the Foundation from time to time that is a tax-exempt organization as described in Section 501(c)(3) of the Code, or (b) any tax-exempt organization as described in Section 501(c)(3) of the Code controlled by one or more trustees of the Foundation. The Foundation will notify the Company of any such assignment, including the identity of the assignee, in a timely manner. Any further assignment of this Letter Agreement by the Foundation or the Company shall require the other party's prior written consent which shall not be unreasonably withheld or delayed. For the avoidance of doubt, if the Foundation transfers the Foundation Securities as permitted by this Section 7, the Foundation may assign to any such transferee all of its rights attached to such Foundation Securities, including the Withdrawal Right.

8. Prohibited Uses.

The Company will not expend any proceeds of the Foundation Investment to carry on propaganda or otherwise to attempt to influence legislation, to influence the outcome of any specific public election or to carry on, directly or indirectly, any voter registration drive, or to participate or intervene in any political campaign on behalf of or in opposition to any candidate for public office within the meaning of Section 4945(d) of the Code. The proceeds of the Foundation Investment will not (a) be earmarked to be used for any activity, appearance or communication associated with the activities described in the foregoing sentence, nor (b) be intended for the direct benefit, and will not benefit, any person having a personal or private interest in the Foundation, including descendants of the founders of the Foundation, or persons related to or controlled by, directly or indirectly, such private interests.

For the avoidance of doubt, the Company will not use the funds received from the Foundation to pay a dividend or redeem shares.

9. Disqualified Person.

Neither the Company nor (to the Company's Best Knowledge (as defined in the Investment Agreement)) any stockholder of the Company is a "disqualified person" with respect to the Foundation (as the term "disqualified person" is defined in Section 4946(a) of the Code). The Foundation does not, and one or more disqualified persons with respect to the Foundation do not, directly or indirectly, control the Company.

10. Anti-Terrorism.

The Company will not use any portion of the Foundation Investment, directly or indirectly, in support of activities (a) prohibited by U.S. laws related to combatting terrorism; (b) with persons on the List of Specially Designated Nationals (www.treasury.gov/sdn) or entities owned or controlled by such persons; or (c) with countries or territories against which the U.S. maintains comprehensive sanctions (currently, Cuba, Iran, Syria, North Korea, and the Crimean Region of Ukraine), unless such activities are fully authorized by the U.S. government under applicable law and specifically approved by the Foundation in its sole discretion.

11. Anti-Corruption and Anti-Bribery.

The Company will not offer or provide money, gifts, or any other things of value directly or indirectly to anyone in order to improperly influence any act or decision relating to the Foundation or any activities contemplated by this Letter Agreement, including by assisting any party to secure an unlawful advantage. Training and information on compliance with these requirements are available at www.learnfoundationlaw.org.

12. Public Reports; Use of Name.

The Foundation may include information about this investment in its periodic public reports and may make the investment public at any time on its web page and as part of press releases, public reports, speeches, newsletters and other public documents, and to the extent required by applicable law or regulation. In addition, the parties agree that the Company may issue a press release in relation to the execution of this Letter Agreement and the Investment Documents, provided that such press release has been approved in advance by the Foundation in writing. Any other announcement of the Foundation Investment by any other party, including the Company, its Representatives, directors, stockholders and agents, or any investor, will require the Foundation's prior written approval. Such parties will also obtain the Foundation's prior written approval for any other use of the Foundation's name or logo in any respect; provided, however, that the Company may use the Foundation's name for any uses that have been pre-approved in writing by the Foundation. Notwithstanding the foregoing, the Foundation's name and logo will not be used by any party in any manner to market, sell or otherwise promote the Company, its products, services and/or business. The Foundation shall use reasonable efforts to adequately mention the Company as the technology provider in any public statements or disclosures relating to the Platform Technology.

13. Confidentiality.

(a) As used herein "**Confidential Information**" means non-public and proprietary or sensitive information of a party (the "**Disclosing Party**") relating to the Disclosing Party's or its Affiliate's business, finance and operations, including but not limited to the Disclosing Party's research and/or development plans and clinical data, as well as information in relation to the Disclosing Party's intellectual property, services, processes, customers, strategies, and technologies, that is disclosed (whether orally or in writing) prior or after the date of this Letter Agreement (including information disclosed under the Confidentiality Agreement executed by the parties on 8 March 2018, as amended) to the party receiving such Confidential Information (the "**Receiving Party**") and is identified as confidential at the time of disclosure to the Receiving

Party, or ought in good faith to be regarded as confidential in view of the nature of the relevant information and/or the circumstances of disclosure.

(b) The Company agrees not to disclose any Protected Health Information to the Foundation without the prior written consent of the Foundation. In the event that, during the term of this Letter Agreement, the Company or its Affiliates submit to the Foundation or its Affiliates a written proposal for project funding, or to the extent any Project is currently or subsequently funded by the Foundation, the Company acknowledges nothing in this Letter Agreement will place any obligation of confidentiality or non-use on information submitted to the Foundation or any of its Affiliates within any (a) *Proposal Narrative* or *Investment Document*; (b) *Global Access Modules* and *Intellectual Property Reports*; (c) *Measurement and Evaluation (M&E) Planning Module*; (d) *Clinical Studies* and *Regulated Research Module*; (e) *Data Access Module*; (f) *Budget and Budget Narrative*; (g) *Results Framework and Tracker*; (h) *Progress Narratives*; (i) *Final Narrative*; (j) *Deliverable & Milestone Narrative*; (k) *Expenditure Responsibility Reports*; (l) *Pre-grant Inquiry (PGI) Questionnaire*; (m) *Global Access Strategies*, *Global Access* agreements, and milestones; or that is contained with (n) the *Intervention TPP* or (o) the *Grant Agreement*. For clarity, the documents referenced in (a) to (o) and highlighted in italics above refer to standard documents used by the Foundation in relation to the funding of projects.

(c) Except as expressly provided herein, a Receiving Party will not: (i) disclose any Confidential Information received from a Disclosing Party hereunder other than on a need to know basis to its Affiliates and its and their respective trustees, directors, officers, employees, representatives, consultants and agents (collectively, "**Representatives**") who are subject to similar terms of confidentiality, or (ii) use the Confidential Information other than in furtherance of the performance of this Letter Agreement. The Receiving Party will protect the Confidential Information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own confidential information.

(d) Nothing in this Letter Agreement will be interpreted as placing any obligation of confidentiality or non-use on the Receiving Party with respect to any information that the Receiving Party can demonstrate or provide reasonable evidence: (i) is in or enters the public domain through no fault of the Receiving Party; (ii) is already in the possession of the Receiving Party prior to receipt of Confidential Information from the Disclosing Party without breach of any confidentiality restriction; (iii) is obtained by the Receiving Party from a third party who is not under an obligation of confidentiality to the Disclosing Party and which has the lawful right to make such disclosure; (iv) is approved for disclosure by the consent of the Disclosing Party; (v) is independently developed by the Receiving Party or its Representatives without reference to the Disclosing Party's Confidential Information; (vi) is required to be disclosed pursuant to the rules of any listing authority or stock exchange on which its securities are listed or (vii) is required to be disclosed pursuant to law, regulation or court order. In the event that Confidential Information is required to be disclosed by the Receiving Party pursuant to law, regulation or court order or rules of any listing authority or stock exchange on which its securities are listed, the Receiving Party shall make all reasonable efforts to notify the Disclosing Party of such requirement, in order to allow the Disclosing Party to seek a protective order or seek confidential treatment of such information.

(e) Nothing in this Letter Agreement shall prohibit the Foundation from any of the following: (i) analyzing the Confidential Information; (ii) comparing the Confidential Information to information in the possession of the Foundation; or (iii) making any grant or other investment to, or entering into any agreement with, any third party, including a Direct Competitor, in furtherance of the Foundation's charitable purpose.

(f) Except as otherwise required by law and upon the request of the Disclosing Party, following the term of this Letter Agreement, the Receiving Party will either return to the Disclosing Party, or destroy all Confidential Information, except that the Receiving Party may retain copies of Confidential Information for archive and compliance purposes.

(g) If at any time the Company or any of its Affiliates has a class of securities that is publicly traded, the Company will notify the Foundation in writing when it provides the Foundation with any Confidential Information that the Company believes constitutes material non-public information which contains insider information and will identify such Confidential Information.

(h) The confidentiality provisions of this Section 13 with respect to Confidential Information will survive for a period of [***], except in the case of (i) Confidential Information contained in third party agreements that have a term of confidentiality that extends beyond such period, in which case the duties of non-use and non-disclosure of such Confidential Information shall survive for such period as stated in the applicable agreement and (ii) Confidential Information that constitutes a trade secret under applicable law, in which case the non-use and non-disclosure of such Confidential Information shall survive for such period as long as such Confidential Information is regarded a trade secret under applicable law.

(i) The confidentiality provisions of this Section 13 shall supersede and replace the confidentiality provisions agreed under the Confidentiality Agreement executed by the parties on 8 March 2018, as amended and, as of the date of this Letter Agreement, all Confidential Information exchanged under such Confidentiality Agreement shall be exclusively governed by the terms of this Section 13.

14. Indemnification.

The Company will indemnify, hold harmless, and defend the Foundation and its co-chairs, trustees, directors, officers, employees, agents, and Representatives (collectively, the "**Indemnitees**") from and against any and all third party causes of action, claims, suits, legal proceedings, judgments, settlements, damages, penalties, losses, liabilities and costs (including reasonable attorneys' fees and costs) (each a "**Claim**") finally awarded to such third party by a court of competent jurisdiction against any of the Indemnitees or agreed to as part of a monetary settlement of the Claim (in the case of a settlement, to which the Company has agreed in writing, such agreement not to be unreasonably withheld or delayed) and arising out of or relating to: (a) bodily injury, death or damage (property or otherwise) caused by any wrongful acts or omissions of the Company, including any development or commercialization or distribution activities carried out by the Company which does not comply with applicable laws, regulations or rules in connection therewith; or (b) any Claim that the Platform Technology, any Funded Development or any Product (but excluding, for the avoidance of doubt, any Claim relating to any modification

or improvement made to any Product by or on behalf of the Foundation by a third-party other than the Company or its Affiliates (including by Development Partners, Manufacturing Partners and sublicensees) outside or after the completion of a Project) infringes upon a patent, proprietary, or other intellectual property right of a third-party. The Foundation will give the Company prompt written notice of any Claim subject to indemnification; provided, that the Foundation's failure to promptly notify the Company will not affect the Company's indemnification obligations except to the extent that the Foundation's delay prejudices the Company's ability to defend the Claim. The Company will have sole control over the defense and settlement of each and every Claim, with counsel of its own choosing which is reasonably acceptable to the Foundation; provided, that the Company conducts the defense actively and diligently at the sole cost and expense of the Company and provided further that the Company will not enter into any settlement that adversely affects any Indemnitee without the applicable Indemnitee's prior written consent, such consent not to be unreasonably withheld, conditioned or delayed. The Foundation will provide the Company, upon request, with reasonable cooperation in connection with the defense and settlement of the Claim. Subject to the Company's rights above to control the defense and settlement of Claims, the Foundation and any Indemnitee may, at its own expense, employ separate counsel to monitor and participate in the defense of any Claim under this Section 14.

The parties will not be liable to each other for any indirect, incidental, consequential, or special damages (including lost revenues, lost savings, or lost profits suffered by such other party) suffered by such other party arising under or in connection with this Letter Agreement, regardless of the form of action, whether in contract or tort, including negligence of any kind, whether active or passive, and regardless of whether the party knew of the possibility that such damages could result; provided, that to the extent an Indemnitee is entitled to be indemnified hereunder for Claims of third parties and such third party has been awarded indirect, incidental, consequential, reliance, or special damages (including lost revenues, lost savings, or lost profits), the Company's indemnification obligations to the Indemnitee will extend to and include such third party's indirect, incidental, consequential, reliance, or special damages (including lost revenues, lost savings, or lost profits). The parties further agree that under no circumstances will any party be liable to the other party (or to any Indemnitee) more than once for the same losses arising under or in connection with this Letter Agreement.

15. Insurance.

The Company agrees to maintain insurance coverage sufficient to cover the activities, risks, and potential omissions in respect of the work contemplated by or in connection with this Letter Agreement in accordance with generally-accepted industry standards and as required by law.

16. Compliance with Laws and Requirements; Responsibility.

The Company will comply with all applicable laws, regulations, and rules and has not and will not knowingly infringe any patents of any third party related to the Projects or this Letter Agreement. The Company has not and will not infringe, misappropriate or violate any copyrights, trade secrets, privacy or publicity rights, or other intellectual property rights (other than patents, which are covered by the preceding sentence) of any third party related to the Projects or this Letter Agreement. The Company will conduct, control, manage, and monitor all work performed in connection with or as contemplated by this Letter Agreement using the Foundation Investment in

compliance with all applicable ethical, legal, regulatory, and safety requirements and obtain and maintain all necessary approvals, consents, and reviews for such activities. If any work conducted by the Company in connection with or as contemplated by this Letter Agreement involves:

(a) Protected Health Information, the Company will not disclose any Protected Health Information to the Foundation;

(b) children, students, or vulnerable subjects, the Company will obtain any necessary consents and approvals unique to these subjects; or

(c) any trial involving human subjects, the Company will adhere to current Good Clinical Practice as defined by the International Council on Harmonisation (ICH) E-6 Standards (or local regulations if more stringent) and will obtain applicable trial insurance.

The Company will be solely responsible and liable for all activities related to the conduct of any work conducted by the Company as contemplated by or in connection with this Letter Agreement. Any activities by the Foundation in reviewing documents and providing input or funding do not modify the Company's responsibility, including responsibility for determining and complying with the provisions of this Section 16.

17. Specific Performance.

The Company acknowledges and agrees that the Foundation would be damaged irreparably in the event that Sections 2, 3, 4, 5, 8, 9, 10, 11 or 12 of this Letter Agreement are not performed in accordance with their specific terms or otherwise are breached or violated. Accordingly, the Company agrees that, without posting bond or other undertaking, the Foundation will be entitled to an injunction or injunctions to prevent breaches or violations of such provisions of this Letter Agreement and to enforce specifically this Letter Agreement and the terms and provisions hereof in any action instituted in any court having jurisdiction over the Company and the matter in addition to any other remedy to which it may be entitled, at law or in equity. For clarity, nothing in this Letter Agreement shall limit the Foundation's right to seek an injunction or injunctions to prevent breaches or violations of any other provisions of this Letter Agreement, provided that it has posted bond or other security in accordance with applicable laws. The Company further agrees that, in the event of any action for specific performance in respect of such breach or violation, it will not assert the defense that a remedy at law would be adequate.

18. Entire Agreement; Modification.

The terms and conditions set forth in this Letter Agreement are in addition to the provisions stated in the other Investment Documents and the terms and conditions of this Letter Agreement will prevail over any inconsistent provision in any other Investment Document and supersede any prior understandings and agreements, either oral or in writing, between the parties with respect to the subject matter hereof. In addition, the terms and conditions in the body of this Agreement will prevail over any inconsistent provision in the HIV Project Statement of Work or TB Project Statement of Work. No change, modification or waiver of any term or condition of this Letter Agreement will be valid unless it is in writing, it is signed by the party to be bound, and it expressly refers to this Letter Agreement.

19. Authority; Governing Law.

Each of the signatories below covenants, represents and warrants that he, she or it had all authority necessary to execute this Letter Agreement and that, on execution, this Letter Agreement will be fully binding and enforceable in accordance with its terms, and that no other consents or approvals of any other person or third parties are required or necessary for this Letter Agreement to be so binding. This Letter Agreement will be governed by the laws of the State of New York, U.SA. irrespective of the principal place of business, residence or domicile of the parties hereto and without giving effect to otherwise applicable principles of conflicts of law that would give effect to the laws of another jurisdiction.

20. Dispute Resolution

The parties will resolve any dispute, controversy or claim arising out of or relating to this Letter Agreement, or the breach, termination or invalidity hereof ("**Dispute**") in accordance with this Section 20.

(a) **Designated Representatives; Escalation to CEOs**. If a Dispute arises, the parties will each appoint a designated representative whose task it will be to meet for the purpose of endeavoring to resolve such Dispute. The designated representatives shall meet as often as the parties reasonably deem necessary to discuss the problem in an effort to resolve the Dispute without the necessity of any formal proceeding. If such representatives are unable to resolve the Dispute within twenty (20) Business Days after the Dispute is submitted to them, the Dispute shall be immediately referred by written notice to the Chief Executive Officer of the Company and the President of Global Health (or any equivalent successor position) or the Chief Executive Officer of the Foundation. No settlement reached under this Section 20(a) shall be binding on the parties unless reduced to a writing signed by the parties. The existence and substance of the negotiations pursuant to this Section 20(a) shall be considered confidential under this Letter Agreement, shall be treated as compromise and settlement negotiations for purposes of Federal Rule of Evidence 408 and any comparable provision, and shall not be used by any party in any court, agency or tribunal in any country for any reason. If such officers are unable to resolve such Dispute within twenty (20) Business Days after the Dispute is submitted to them, then the Dispute shall be submitted to arbitration in accordance with this Section 20.

(b) **AAA Arbitration**.

(i) Any Dispute that has not been resolved pursuant to Section 20(a) shall be referred to and finally resolved by arbitration in New York, N.Y., U.S.A., pursuant to the Commercial Arbitration Rules of the American Arbitration Association. It is the intent of the parties that, barring extraordinary circumstances, the arbitration proceedings shall be concluded within six (6) months from the date the arbitrator is confirmed. The parties may agree to extend this time limit or the arbitrator may do so in its discretion for a period of up to an additional three (3) months, if it determines that the interest of justice so requires. The arbitrator shall use its best

efforts to issue the final award or awards within such time period. Failure to adhere to this time limit shall not be a basis for challenging the award.

(ii) The arbitration shall be conducted by a single, neutral arbitrator who shall be experienced in the field of the Dispute and shall have no ongoing business relationship with any party. Such arbitrator shall be selected by mutual agreement of the parties or, in the absence of such agreement, by the New York office of the American Arbitration Association. The arbitrator may grant legal, equitable and monetary relief and shall award to the prevailing party such party's costs and expenses incurred in connection with the arbitration and the collection of judgment, including reasonable attorneys' fees. In no case, however, shall indirect, incidental, consequential, or special damages (including lost revenues, lost savings, or lost profits) be awarded by the arbitrator, except as permitted by Section 14. Judgment upon the award rendered by the arbitrator shall be binding, final and non-appealable (absent manifest error) and may be entered and enforced in any court having jurisdiction thereof. The language used in the arbitration proceedings shall be English.

(iii) No information concerning a Dispute and any related arbitration, beyond the names of the parties and the relief requested, may be unilaterally disclosed to a third party by any party unless required by law. Any documentary or other evidence given by a party or witness in the arbitration shall be treated as confidential by any party whose access to such evidence arises exclusively as a result of its participation in the arbitration and shall not be disclosed to any third party (other than a witness or expert), except as may be required by law.

(c) **Obligation to Continue Performance Pending Resolution of a Dispute**. Both parties agree to continue performing their obligations under this Letter Agreement pending the resolution of any Dispute that is being resolved hereunder unless and until such obligations are terminated or expire in accordance with the provisions of this Letter Agreement.

(d) **Judicial Procedure**. Notwithstanding the foregoing, and without waiting for the expiration of the time periods set forth above, each party shall have the right to apply to any court of competent jurisdiction for appropriate interim or provisional relief, as necessary to protect its rights or property. Furthermore, nothing herein shall prevent the parties from resorting to a court of competent jurisdiction in those instances where preliminary injunctive relief would be appropriate, pending final resolution of the Dispute through arbitration. Nothing in this Section 20 shall be construed to prevent a party from instituting formal proceedings at any time to avoid the expiration of any statute of limitations period or to preserve a superior position with respect to other creditors. For the avoidance of doubt, to the extent this Letter Agreement permits the parties to apply for relief to or institute a proceeding in a court of competent jurisdiction, nothing in this Letter Agreement or any other Investment Document will constitute a waiver of the right to a jury trial in such proceeding.

21. Severability.

The invalidity or unenforceability of any provision of this Letter Agreement will in no way affect the validity or enforceability of any other provision.

22. Counterparts.

This Letter Agreement may be executed in one or more counterparts, each of which will be deemed an original, but all of which will be deemed to be and constitute one and the same instrument.

23. Construction.

Section headings are not to be considered part of this Letter Agreement, are included solely for convenience, are not intended to be full or accurate descriptions of the content thereof and will not affect the construction of this Letter Agreement. The words “include,” “includes” and “including” will be considered to be followed by the words “without limitation”.

[*Signature Page Follows*]

The parties have caused this Letter Agreement to be executed as of the date first set forth above.

OFFICER'S CERTIFICATE

BioNTech SE

[DATE]

This certificate is being delivered by BioNTech SE (the "Company"), pursuant to Section 6(a)(i) of the Letter Agreement between the Company and the Bill & Melinda Gates Foundation dated as of August 29, 2019 (the "Letter Agreement"). Capitalized terms used but not otherwise defined herein have the meanings ascribed to them in the Letter Agreement.

The Company certifies as follows:

1. During the fiscal year ended [DATE], the Company met the requirements of the Foundation Investment as set forth in the Letter Agreement that were required to be complied with or performed by the Company during such time period.

2. Attached as Exhibit A to this certificate is a description of the Company's use of proceeds of the Foundation Investment during the fiscal year ended [DATE], including the amount expended.

3. Attached as Exhibit B to this certificate is the Company's evaluation of the Company's progress with respect to each Project, including information regarding progress against the Global Access Commitments (as set forth in the Investment Documents) during the fiscal year ended [DATE].

IN WITNESS WHEREOF, the undersigned has executed this certificate and has caused this certificate to be delivered on the date first above written.
